RHYTHMIC CLAPPING, HAPPY FACES

## Tent Revival Exudes Old Time Religion

Continued from Page 1-B

Reverend Shaffer attended the Detroit Bible College, a non-denominational school, and the Detroit campus of the Central Bible College. In 1961 he received his Exhorter's license, in 1964 he became a licensed preacher and in 1966 was admitted to the Assembly ministry.

It will do when you are dying. It will do when you are dying. It will do when you are dying: It's good enough for me.

The emotion of the revival meeting kept mounting through Reverend Shaffer's fiery sermon, until he called for those with physical afflictions and those who sought salvation to answer the call to Christ and come to the altar.

Approximately 13 persons, with heads bowed in fervent prayer, raised their hands when the reverend asked if they wished to be saved or whether they wished to be healed. They then came forward to receive his blessings.

While Evangelist Shaffer administered to those before the altar—clasping their heads and calling for the Lord to "heal him", or to enlighten the penitent—Mr. Johnston led the congregation in song as the organ piped in the background.

Soon, the whole congregation joined with those before the altar to sing the Lord's praises. The ultimate goal had been reached.

Later, Reverend Shaffer said one girl had received the Birth in the Holy Spirit and she had spoken in the language of tongues.

It will take us all to heaven, it will take us all to heaven. It will take us all to heaven; it's good enough for me.

Unusual? Perhaps. But Reverend Shaffer is convinced the world soon will see "one of the greatest outpourings of God's Holy Spirit than ever before."

Witness the Jesus movement, he says. To him, the pentecostal movement will gain wider and wider acceptance because only God, through it, can "satisfy the Hunger in Hearts."

# Novi-Northville Officials Talk About THE NOVI NEWS Drain Tonight

See Story on Page 4-A

Vol. 17, No. 10, Two Sections, 28 Pages Novi, Michigan—Thursday, July 22, 1971 15c Per Copy, \$6 Per Year In Advance

MIDDLE SCHOOL — If you haven't looked lately, chances are the sprawling building taking shape near Taft and 11 Mile Road will be somewhat surprising. It's Novi's new middle school, located a little southwest of the high school. While construction appears to be rapidly progressing, Novi officials nevertheless are concerned that it may not be ready for occupancy by the time students return to school. When it is opened and fully operational, it will house grades six through eight.

## Dale May Recommend New Principal Monday

A recommendation by the superintendent of hiring of a new high school principal is expected to be made Monday.

Superintendent Thomas Dale told board of education members this week that he will be prepared to recommend his choice for principal Monday following a review of candidates this past Wednesday by a special board appointed committee.

Some 12 candidates for the post formerly held by Gerald Hartman who was fired, have been interviewed over the past several weeks, Dale reported. Three of them appear favored by the committee — composed of board members, administrators and a teacher.

Names of the candidates have not yet been publicly disclosed.

Meanwhile, the board this week accepted the resignation of two high school teachers — Rick Stannard, instrumental music, and Fred Gerhardt, teacher-coach.

According to Dale, Stannard plans to return to graduate school, while Gerhardt was quoted as saying he no longer fits in the Novi school system.

The board went on official record in sustaining the decision of the Oakland County Tax Allocation Board in permitting school districts, such as Novi, to use that portion of the 15-mill levy not otherwise allocated.

Specifically, it involves locally the 1-mill formerly failing to provide information on the series prior to Monday's meeting. He said he was "sick and tired of getting things" on the night action it be taken thus making it impossible for the board to adequately study the data.

Later DeWard also lashed out at the Detroit Edison Company for its request that it be granted permission to use school buildings in cases of disasters in or near the community. He said he favored use of the buildings by Civil Defense — but not by Detroit Edison, which he said has been giving the board of education difficulties (i.e., rates, bills) for the past three years.

In other business, the board formally named the National Bank of Detroit as depository for school funds, and it voted to continue holding regular board meetings on the second and fourth Mondays of the month.

Board members also were informed of rebidding on tax anticipation notes because of failure to properly advertise for bids earlier. Opening of the bids has been set for Wednesday, July 28.

General fund bills of \$32,138.34, 1968 building and site fund bills of \$127,197.00 building and site fund bills of \$12,621.03, and lunch fund bills of \$1,224.70 were approved for payment.

Dale reminded board members that school districts have been requested to set their operational millage levies prior to August. The request means, therefore, that the board is likely to act on establishing the local levy at next Monday's meeting.

The superintendent explained however, that while the state is requiring a levy figure by August 1 it will permit revision of the figure at a later date.

In clarification of a published report in this newspaper concerning the concept of a middle school, Trustee Robert Wilkins emphasized that as adopted locally the concept means the Novi Middle School will house sixth through eighth grades — not seventh through ninth as reported.

## They're Free Clinics Held Monthly

Kids didn't think too much of the idea but parents in Wixom and surrounding areas, the Free Immunization Clinic held last Tuesday was a big step forward.

Through the auspices of the Oakland County Department of Health, the Walled Lake Jaycees and through volunteer services of area doctors, the free clinic will be held the first Tuesday of each month at the First Baptist Church of Walled Lake. Hours will be from 9 a.m. until noon.

Parents are urged to contact family doctors for immunization records and take advantage of the service. If the need is shown for this type of clinic, it will continue with the hope of it growing into a "well baby clinic" offering services to those families with limited incomes, on welfare or A.D.C.

All immunization shots are offered free of charge to infants, pre-schoolers and students up through college level. With the broad range of inoculations required on entering school, a parent can save a goodly amount of money just by taking advantage of the services offered to the community through the program, officials point out.

## Plan Dog Show For Gala Days

A children's dog show, sponsored by the Walled Lake Association, will be held during Novi's Gala Days celebration. The show is set for Sunday, August 22, at 2 p.m.

To be entered, dogs must be licensed, on a leash and handled by children. The show is not open to professionals.

"We urge children to enter their family dogs in the show," Mrs. Loyd Huotari, spokesman for the association said. "The dogs do not have to be registered," she pointed out.

Classes will be divided into age groups of the handlers — six-years-old to nine, 10 to 12 and 13 to 16.

An entry fee of 25 cents for each entry of each dog will be charged the day of the show. Dogs will be judged according to cutest dog, best trick and best groomed by owner. A surprise category will be announced the day of the show.

An advanced obedience demonstration will also be presented that day, Mrs. Huotari said.

## Same As Novi Police City Employees To Get Benefits

Novi Councilmen approved master medical and Blue Cross prescription rider benefits to all city employees Monday night by a 4-3 split vote.

The total package will cost the city \$200 per year or \$6.50 per month per person.

Each person's coverage includes his or her immediate family.

Benefits are the same as those awarded to Novi policemen in their recent contract talks with the city.

"This was expected," said City Manager George Athas, "and money is allotted for it in the city budget."

Councilmen Denis Berry, Louie Campbell and Raymond Evans objected.

"I think we're setting a precedent by granting to every employee what we grant to the police department," Campbell said.

"There'll come a day, and an issue, when we won't be able to do that."

Citizens in the audience felt that master medical with its Blue Cross prescription rider was a convenient in some cases necessary, service provided by a man's employer, but some protested at the thought of paying for it as taxpayers.

The measure will include 26 city employees.

In an earlier public hearing concerning riparian rights around Walled Lake, councilmen delayed action until July 16 when councilman Edwin Presnell, working with Athas, could present a preliminary report on existing silt conditions, levels of water and results of other fill around the lake.

A Korycki, owner of some 100 feet of lake front along South Lake Drive near Buffington, was on hand to complain that he couldn't get his boat or pontoon raft near the shore because of the swampy conditions of his beach.

"We can't even sit out there because of the smell," he told councilmen.

Forty Arrested

Thirty-five persons, originally charged with disorderly conduct were released. One person was charged with resisting an officer and four with possession of marijuana.

The names of the five are being withheld by Novi Police pending further investigation.

Various quantities of marijuana, along with items of "narcotic paraphernalia," and some weapons, including a .22 caliber pistol and several varieties of knives were confiscated at the scene.

Thirty officers from Northville, Northville Township, Michigan State Police, Oakland County Sheriff, Farmington, Farmington Township, Wixom, Walled Lake and the Novi Police Reserve assisted the Novi bureau in the raid.

## LaLonde Murder Goes Unsolved

What happened to Clyde LaLonde?

"It's almost impossible," Starnes concluded, "for a murderer to take place and have no one know about it. Somebody knows something and they're not talking, either because they're involved in the crime or they're afraid of the people who are."

"We're positive that LaLonde dealt heavily in dope," Starnes said last week, "primarily marijuana and hashish, probably heroin."

It wasn't unusual, according to more than 50 people we've interviewed, for him to carry from \$12 to \$20,000 in his person.

Starnes said that despite \$2,000 posted in rewards, his department has not received one call concerning the killing.

"The strange thing," he continued, "is the nature of the case. In most investigations of this type you have hundreds of calls both from cranks and legitimate tipsters, supplying you with hundreds of leads to run down. About LaLonde — there's been nothing."

"Everyone we talk to," Starnes said, "has told us what a beautiful person he was, that he would always do you a favor, that he'd lend you money, anything."

LaLonde, a 24 year old former teacher, had been living in Union Lake for some time, and reportedly had taken at least one trip to Jamaica before his body was found, partially clothed in a section of woods along Novi's Meadowbrook Road north of 12 Mile.

Starnes urged anyone who had any knowledge of LaLonde, his whereabouts before April 5, or his murder, to call the Novi Police at 349-2444.

## Wixom Receives Assessment Roll

The Michigan State Tax board has returned Wixom's controversial tax roll to the city, Mayorial Assistant William Travis said Tuesday.

"The roll came in Monday," Travis said, "but as yet Oakland County has not assigned an equalization factor."

Travis was unable to quote a total assessed valuation for the city due to the fact that the roll was totaled only by subdivisions and not for the entire area, he said.

"Oakland County has the document before them," Travis said, "and we don't know when they'll assign us a factor."

The city will not be able to send out tax bills until an equalization factor is determined, he explained.

## Novi Planners Elect Officers

New officers were elected by Novi planners, last week Wednesday, during a regular study meeting.

Robert Bretz, Merle Jenkins and James Cheroff were elected unanimously to the post of chairman, vice chairman and secretary of the advisory board, respectively. The term of Secretary is Cheroff's second.

## Police Raid Novi House

The Novi Detective and Narcotic Bureau, assisted by nine other police departments, raided 26445 Adell Boulevard Friday night, arresting 40 people on charges of possession of marijuana, disorderly conduct and resisting an officer.

Thirty-five persons, originally charged with disorderly conduct were released. One person was charged with resisting an officer and four with possession of marijuana.

The names of the five are being withheld by Novi Police pending further investigation.

Various quantities of marijuana, along with items of "narcotic paraphernalia," and some weapons, including a .22 caliber pistol and several varieties of knives were confiscated at the scene.

Thirty officers from Northville, Northville Township, Michigan State Police, Oakland County Sheriff, Farmington, Farmington Township, Wixom, Walled Lake and the Novi Police Reserve assisted the Novi bureau in the raid.

RAID—More than 30 officers participated in a narcotic raid Friday night, led by the Novi Detective and Narcotic Bureau, at 26445 Adell Boulevard near I-96 in Novi. Some 40 people were arrested, four on charges of possession of marijuana. Weapons and a quantity of other drugs were confiscated.

RAINED OUT—It would have been an ecology hike for Our Lady of Victory bible school children Thursday but early morning rains chased everybody inside. Children showed what they gathered before the storm above with the help of Jane Bero, aide to Sister Mary Ann Travis, religious coordinator of the five day program.

# City Council Minutes

**NORTHVILLE CITY COUNCIL MINUTES**  
 July 19, 1971  
 Mayor Allen called the regular Northville City Council Meeting to order on Tuesday, July 19, 1971, 8:10 p.m. in the Northville City Hall.

**ROLL CALL:**  
 Present: Allen, Polio, Lapham and Nichols; Absent: Rather (excused)

**ACCEPTANCE OF MINUTES:**  
 Minutes of the regular meeting of June 21, 1971, were accepted as submitted.

**APPROVAL OF BILLS:**  
 Moved by Lapham, support by Polio, to approve bills in the following amounts:

**General Fund**  
 Debt 1971-72 \$19,000.00  
 Motor Vehicle Highway Fund 2,253.12

 (z) City Mgr. reviewed his memo No. 7-7 relative to Costs Analysis of Green property for parking areas.

## Students Pay Visit To College

About half of the freshmen students enrolled at Western Michigan University for the fall semester have completed their summer orientation program.

In 10 groups of approximately 140 each, the new students spent three days with counselors, registering for courses and learning their way around the WMU campus. They will return on the weekend of August 28 before the start of classes at 8 a.m. on Monday, August 30.

Seven students from this area have completed the orientation. They are: Kristine Terry, Susan Frorer, Gretchen Johnson, Mark D. Dixon, Ann A. Kipfer, Mark C. Fowkes, and Sherry Hackmann.

Two Northville students who expect to enroll as freshmen at Eastern Michigan University in September attended a one-day orientation program on the campus earlier this month.

They are: Gary Haverkate, son of Mr. and Mrs. John Haverkate, 3820 Comaugh, and Robert Norton, son of Mr. and Mrs. Robert Norton of 4850 Six Mile Road.

During their visit they received individual and small group counseling and registered for the fall semester.

They are requesting the rezoning from single family units to multiples "because of what has happened to the housing market in the past two years. Construction costs have increased and the single family market is diminishing."

He added that there have been 218 multiple dwellings built in Northville city and township this year compared to 80 single units.

## Township Airs Request For Multiples Tuesday

A request for rezoning to permit construction of 880 townhouse units on the north side of Six Mile Road near Waterford Lake will be aired at a public hearing of the township planning commission Tuesday, July 27.

The meeting will begin at 8 p.m. in the township hall.

Presented by Thompson-Brown Developers, the proposed 153-acre site is located directly north of Northville Commons Subdivision, also developed by Thompson-Brown.

Plans call for rezoning the land to RM-1 to permit construction of two and three bedroom townhouse units. Presently the land is zoned single family, low and medium density multiple family.

Developers plan to construct 388 townhouse units and 492 quadruplexes (four unit dwellings). Also included will be approximately 20 acres of open space and a 17-acre buffer zone of office buildings between the residential and commercial areas.

Thompson-Brown spokesmen note the proposed complex is approximately 300 units more than planned when single family homes were included in development.

Density is estimated at 5.67 units per acre figured on all land to be rezoned, or 8.75 units per acre of actual land to be built upon.

Robert Fox, a spokesman for the company, said they are requesting the rezoning from single family units to multiples "because of what has happened to the housing market in the past two years. Construction costs have increased and the single family market is diminishing."

He added that there have been 218 multiple dwellings built in Northville city and township this year compared to 80 single units.

**Attends Camp**  
 Scott L. Kresin, son of Mr. and Mrs. George L. Kresin, Jr., 3820 Southlawn Lane, is attending the second session of The Citadel Summer Camp for Boys at Charleston, South Carolina. This session opened July 11 and will end August 6.

While at The Citadel Summer Camp for Boys, campers participate in physical activities through the medium of sports. They live in barracks and have full supervised use of all facilities used by cadets during the regular school session.

Marksmanship, swimming, sailing, scuba diving, skeet shooting, tennis, and soccer are among the many popular sports offered by the camp. The camp program emphasizes basic principles of duty, patriotism, honor, and religion, although sports fill most of the day's routine.

The camp, which was founded in 1957, has been over-subscribed at practically every session. Approximately 220 11- to 15-year-old boys attended the first session and 230 are now participating in the activities of the camp's second session.

BOSCO FIELD—An all-star game between Babe Ruth players from Novi and Walled Lake was the feature event Tuesday night as Little League officials dedicated the 11 Mile-Beck Road diamonds to Paul Bosco, who donated and developed the land, as Bosco Field, home of Novi Little League. Fred Buck, league president did the honors, as the local all-star nine capped things off by winning 8-4.

BUILDING CODE ORDINANCE
THAT NOTICE that on the 19th day of July, 1971, at a Regular Meeting of the Council of the City of Novi, Oakland County, Michigan, enacted AN ORDINANCE TO ADOPT BY REFERENCE THE 196 BOCA BASIC BUILDING CODE, 5th EDITION, AND AMENDMENTS AND SUPPLEMENTS, TO BE KNOWN AS THE BUILDING CODE OF THE CITY OF NOVI; AND TO PROVIDE PENALTIES FOR VIOLATION OF THIS ORDINANCE.

officials dedicated the 11 Mile-Beck Road diamonds to Paul Bosco, who donated and developed the land, as Bosco Field, home of Novi Little League. Fred Buck, league president did the honors, as the local all-star nine capped things off by winning 8-4.

Singles Club Sets Two Social Events
In keeping with their goal of a well-rounded social calendar, the Northville Singles Club has organized two more social activities for the coming weeks.

Braves Behind By One Russ Gans Pitches Colts to 3 Victories

Northville's Casterline Braves remained one game out of first place this week despite a recent victory and a forfeit — as they trailed Plymouth 1 with a 8-1 record in Class "F" softball action.
That one loss came two weeks ago in a 9-0 landslide engineered by the first ranked Plymouth nine that broke a first place tie with the Braves.

In that Thursday game, Dave Wilson drove in Frankie DiPonio on an error, Tom Eis singled in Jim LaPlante, and in a bases loaded situation, Kris Sylvane drew a walk to force Wilson in with the winning tally.

Wilson pitched for the Braves and dealt three walks and 12 strike-outs. He also hit a homer in the third inning.
In other local action, the Northville F.O. Eagles defeated Bruce Craig Pontiac and DiPonio, both of Plymouth, 5-3 and 6-5.

Wedge Fires 3-Hitter Copper Mug Wins Two In Walled Lake Race

Wedge fired three hits to the beleaguered Circle as Jerry Inslard ripped Lumber homers in his first two times at the plate.
Earlier, Winner's Circle seemed to have the only chance, with a 10-1 record, of catching the red-hot Lumbermen who were reading at 11-0. This week however, with the Lumber nine at 12-0, and the Circle at 11-2, and the closest competition coming from Northville Downs at 9-4, chances of someone catching the leaders grew dim.

Circle saved itself from another shelling by turning the tables on O.L.V. Men's Club in the fifth inning last week Wednesday bounced back from a three-run defeat to win 18-4.
Brian Murphy and Ed Bray were the big guns in that game each blasting Circle homers.

Lumber Wins 12th Straight Wedge Fires 3-Hitter

Northville Lumber collected its 12th straight win last week Monday at the expense of second ranked Winner's Circle, 19-0, to best up their slop-lead to seven games.
Hurler Jerry Wedge gave up just three hits to the beleaguered Circle as Jerry Inslard ripped Lumber homers in his first two times at the plate.

Wedge fired three hits to the beleaguered Circle as Jerry Inslard ripped Lumber homers in his first two times at the plate.
Earlier, Winner's Circle seemed to have the only chance, with a 10-1 record, of catching the red-hot Lumbermen who were reading at 11-0. This week however, with the Lumber nine at 12-0, and the Circle at 11-2, and the closest competition coming from Northville Downs at 9-4, chances of someone catching the leaders grew dim.

Mets in First Place After Knothole Win

Thompson-Brown Mets squeezed past Del's Shoes Twins, 7-6, last week to stretch its winning streak to five games and grab first place in Northville Knothole softball league.
Tied last week with the Township Police Athletics, who also picked up a victory by blanking Casterline Indians 5-0, the Mets had a one-game lead this week over the Athletics who were in second.

Novi Mackers Split

Novi's B-V Construction bombed Redford Tooling 13-3 Saturday and shut-out Plymouth Elks 9-0 Thursday to post a 5-5 record in Livonia's Connie Mack diamond action, following an earlier 1-0 loss to Hubert Realty.
John Pantalone took the B-V mound against Redford for his third win in five starts. He gave up seven hits, three walks and fanned six men. Meanwhile, Reef batsmen worked 15 hits off John Rehas and Kurt Armstrong who came in as relief in the second.

Table with columns: W, L, T, Runs, Hits, Errors. Lists various teams and their statistics.

### Officials To Discuss Drainage

Continued from Page One

an injunction against building in the Novi area draining into Northville could be obtained if Novi refused to cooperate in the drainage plan.

The Northville council is convinced the project is necessary. It is now trying to decide whether to approve the lowest-cost proposal, or to propose deeper retention lakes northwest of Taft and Eight Mile that could double as recreation sites.

City Engineer Harold Penn and City Manager Frank Ollendorff believe the deeper lakes would add very little to the cost of the plan as proposed by commission engineers because less land would be needed for the retention lakes and smaller size culverts could be installed for underground drains.

But tonight the discussion will confine itself to the proposed Randolph drain, whether it is needed and how much responsibility lies in each community.

If extra cost is to be involved to make recreation lakes for Northville, it's certain that Novi will subtract that amount from the project expense.

JOANNE AUDETTE, STATE'S FIRST WOMAN PARK RANGER

### Six Foot Blonde New Park Ranger Loses Nylons in Fire

Since June, Joanne Audette, 21, has worked almost unrelentingly at the Island Lake Recreation area. This would not be so unusual except that Joanne is six feet tall, an attractive blonde, and the first and only woman commissioned as a conservation officer in the state.

"I check groups in and out, and counsel with group leaders. We're also trying to start a program where I'll be using films, hikes and exhibits to teach the youngsters about nature."

Joanne has attended Oakland Community College, and plans to finish her education at MSU majoring in Park Management. She is presently commuting from her home in Farmington, but has been searching for a small home in Brighton since she came here in June.

"I'm sure there will be more women following me into service with the Department," Joanne said. "Right now there are several girls studying in the Park Ranger Trainee program at MSU. The benefits and pay are good, especially for a single girl. Many girls have gotten into the seasonal program. It's an ideal job for college girls."

There are some things feminine that Joanne has had to leave behind her.

"I have to take my turn at night patrol, so I can't be afraid of driving alone at night," she said. "And I can't be afraid of snakes...although I do have respect for our rattlers, and spiders, I really don't like."

Joanne believes there can be a real purpose in her work.

"It's not just another job," she said. "If I can get these kids as interested in nature as I am, then I'll feel I've really done something."

### Boundary Changes Don't Come Easily

Years Ago

Continued from Page 3-A

hit a home run into the left-field seats of Tiger Stadium.

FIFTEEN YEARS AGO... An electrical experiment designed to keep undesirable fish out of the hatchery water supplies was completed in Northville. Results were not yet completely available.

"No comment" was the only comment of Novi Township officials regarding the August 7 annexation election. The City of Northville was proposing to annex land between Eight and Eight and a half mile roads for a high school and subdivision.

Continued from Page One

of Novi in the Walled Lake area.

A movement to incorporate Walled Lake as a city involved all of the Novi area around the lake as well as part of Commerce Township in 1950. The vote carried in Commerce but failed in Novi.

When the state determined the incorporation had carried, Howard Bond, now city attorney of Novi, represented citizens of Novi in contesting the incorporation. His court action ended in victory and the "almost" incorporation was tossed out.

It wasn't until September of 1954 that Walled Lake finally became a city—after another election that did not include a section of Novi.

Meanwhile, however, the struggle to turn Northville into a city had begun and it wasn't

to be ended until after two heated campaigns and elections that generated more animosity perhaps than even the subsequent incorporations of Novi and Wixom.

**Horton Hearing Set**

An August 16 public hearing was set Monday night by the Northville city council to consider paving and drainage improvements on Horton street.

The council agreed to call the hearing for the full length of the street from Baseline to Hill, but indicated that the project may be limited to that portion of Horton between Baseline and Eight Mile Road.

Some 25 property owners will be notified of the hearing and the estimated cost on the basis of a 75 per cent assessment levied against front footage owned.

Joanne is expected to work right along with the men park rangers, and is not given preference because of her sex. She has her schedule along with the men in maintenance of the park, and nearly melted her nylons when she joined the men in fighting a brush fire recently.

"When I first started as a seasonal employee at Proud Lake there was no opposition," Joanne said. "They (the men) just sat back to see what I could do. They assigned me all the jobs

# It's Organized Now What, Oh What's Happened To Old Sandlot Ballgame?

YOUNG AREA SANDLOTTERS GIVE IT ALL THEY'VE GOT

By PHIL JEROME

Summertime baseball is a lot more complicated than it used to be.

There was a time when you would call your friends when you wanted to play and everyone would meet down at the park. A block of wood, a paper bag with a rock on it to hold it down, and somebody's tee-shirt would serve as the bases.

Over the road on the fly was a home run, but if the ball went in the creek the batter was automatically out. Hitting the ball in the creek was never tolerated.

There were no umpires. All close plays gave the players a chance to develop their debating skills and, sometimes, their fighting skills. And almost all arguments ended up with the losing team shouting, "Let the babies have their bottle."

But that was before parents took over summertime baseball.

Now, when a troop of would-be major leaguers takes the field, the game has been planned for months in advance and the field is embellished with such formerly unheard-of things as foul lines, real bases, two new white baseballs, and umpires.

But the most impressive addition of all, the new accoutrements, is the uniforms. Some little league squads take the field in uniforms that would put Charlie Finley and the Oakland A's to shame.

Organized summer baseball for children is a national phenomenon, a sociological fact a way of life for many people.

Some parents find that they have to arrange their entire summer around their children's baseball schedule. Taking a vacation during a key part of the season, although not an unparadiseable prospect of conduct, is looked upon dimly by many. Summer dinners are either an hour earlier or two hours later than usual.

In the case of away games the family station wagon must be home from work in time to transport ball teams to other cities.

Because most families have more than one little league-aged child in the house, the failures of the children are every night of the week, not to mention the morning games and Saturday practices.

There is little doubt that for parents with children between the ages of eight and 12 organized baseball has brought a new dimension to their summer months.

But in spite of the overwhelming popularity of organized baseball there are more than 100 teams and 1,500 players in the Brighton, Northville, South Lyon, Novi area alone — many educators have questioned the value of the program.

One argument frequently set forth is that little league is not a world made by the kids, but a world created for them by adults.

Adults set up the teams, make the schedules, coach the teams, and just generally take charge of everything connected with the operation except the actual playing of the games. It's almost as if the kids were incidental to the game, passively, really, for the adults to manipulate to fulfill their images of what childhood should be like.

...BUT SUMMER BALL'S HARD WORK, TOO

TODAY'S SUMMER BALL GAME IS SUPERVISED BY ADULTS

### What's Happened To Sandlot Ball?

Continued from Page 1-B

is that every year the starting age seems to get younger and younger. Before, your baseball career began when you became interested in the game.

But under today's highly organized programs, baseball begins at ages seven, eight, and whether the youngsters are called Miles, Mush-balls, or Tee-balls, the fact remains that many kids are pushed into the game before they are really interested in it.

Again the desire to win the affection and approval of the parent is an important factor in the number of children becoming involved in the program, but also involved is the parents fear that their children might somehow fall behind the neighbor's children if they do not get the early training.

Several interesting phenomena take place in the summer baseball programs of every city across the country. First, there is a decided drop

off in attendance during the course of the season. Teams that opened the year with fifteen eager players are frequently hard pressed to field nine players in August.

When a Brighton little league coach was asked why he thought this happened he said that it was because the kids got tired of playing. "The teams that are winning," he said, never have any trouble. They have all kinds of prizes, even warming the bench. The kids would rather be on a winner than play the game."

A second interesting aspect of summer ball programs is that after the twelve year old level, there is a drastic drop off in the number of teams.

In Brighton, for example, 34 out of the 40 teams are for the twelve year old and under age bracket. Those figures are repeated in South Lyon and Northville. Twenty of the twenty-four teams in the

South Lyon little league are manned by the twelve and under brigade and in Northville the figures are 22 out of 29.

What happens to the ball players, not only during the course of getting older, but also during the course of a single season?

Is there too much emphasis on winning? Does that "it was because the kids got tired of playing" indicate that, due to a lack of oxygen, the fire went out before it broke through to the surface. However, finding hay that has reached tobacco brown or beyond indicates that it is just luck that the

### Out of Horse's Mouth Dark Brown Hay Courts Disaster

Send your questions, comments and horse show news to "Horse's Mouth", care of The South Lyon Herald, South Lyon, MI 48178. This column is open to news of all breeds of horses and ponies.

From the Michigan State Cooperative Extension Service— This is the time of the year that you have to be careful about losing your barn as a result of spontaneous combustion in the hay mow. The direct relationship between the color of the hay and the highest temperature it reached in storage is that if the hay, as it comes from the mow, has a normal green color it probably was dry enough when it was put in storage and did not heat above the thermal death point of the microorganisms in the hay. Hay that turns medium to dark brown has reached temperatures of over 150 degrees F. before cooling.

When the odor has changed to the acid odor of creosote, or an odor normally associated with the burning of wet wood. At temperatures of over 190 degrees, the hay loses its normal characteristics. Stems mat together as if highly treated with asphalt. The stems are very brittle and when rubbed between the fingers, appears as pure carbon, much like charcoal. It is evidence of a very serious problem that fortunately did not result in fire.

Discovery of actual burned out pellets indicates that, due to a lack of oxygen, the fire went out before it broke through to the surface. However, finding hay that has reached tobacco brown or beyond indicates that it is just luck that the

To American youth a satsum symbol for their parents complete with too much aggressiveness, competitiveness, and emphasis on winning. One thing's for certain, baseball may be somewhat less popular, but it is a lot more organized.

### You can lower the cost of loving by 40%

Now get a 20 or 40% discount every time you call long distance within Michigan. Just dial direct. There's a little love out there for you. Love you experience all too infrequently. Why not make a change, with unexpected calls? You'll make two people happy... someone you love, and you. And now you can call anywhere in Michigan weekdays after five, and weekends from five p.m. Friday till five p.m. Sunday, and save 40%, just by dialing direct!

### Michigan Mirror Women's Lib Gets Boost By Two Legislative Bills

LANSING — Though most of the publicity in "women's liberation" has gone to the demonstrators, the more vocal proponents of "women's lib" as well as some quieter advocates of the cause, both male and female, have been working for some practical advances on the legislative scene in Lansing.

The first is the bill sponsored by Representative Dennis Cawthorne, R — Manistee, to require that women be paid equal salaries with men when they do the same work as men. It is designed to correct the situation found in many places where men and women working side by side at the same job, are paid different wage rates based solely on their sex.

Another bill sponsored by Senator William S. Ballenger, R — Ovid, would guarantee any Michigan woman a leave of absence if she becomes pregnant and would guarantee her her old job back after she has the baby if she wants the job back.

Again, many industries and businesses do not allow women to come back to their old job after they have been off work to have a baby.

Police determine what area of the state where the person is probably traveling and contacts radio stations there.

HUNDREDS OF MESSAGES OF this nature are delivered, says State Police Director John R. Plants, particularly during the tourist and hunting seasons. But many times it is quite difficult, if not impossible, to complete their delivery.

Plants says while the system of using radio stations does not totally replace hand delivery of messages, it reaches many persons not otherwise located and reduces hours spent on hand delivered messages. So far as is known, no other state has a similar system.

MICHIGAN WORKERS injured on the job have included an increasing number of shooting victims in recent years, according to the Michigan Department of Labor.

### Babson Report Pipeline Stocks Still Attractive

BABSON'S REPORTS, Inc.— Despite some recent firming, prices of many of the leading natural gas transmission stocks are still at levels that are attractive for investors who are in need of a reasonable current income from their investments and also seek some appreciation of their capital by way of a defensive type of commitment.

With oil and coal. The concern over air pollution has resulted in a greater demand for natural gas from industrial and residential fuel consumers. At the same time, the resultant fillip in demand for gas has not been free of problems. The accelerated rate of expansion of transmission facilities has come at a time when long-term money rates are high, and the increase in demand for natural gas has far outpaced uncommitted reserves of this fuel.

Net result should be beneficial to the natural gas pipeline firms, many of which have their own reserves. As additional sources become available, these companies can speed up expansion of the gas market. In the meantime, the industry is trying to narrow the supply deficiency by importing liquefied natural gas.

Top Secret

Rev. Ivan E. Speight Salem Bible Church

In (top secret) USA at (top secret) Air Force Base, I asked Captain (top secret) how many (top secret) bombers they had on "alert". The Captain replied that the information was "classified". He was not permitted to tell "But," he said, "there's nothing in the world to keep you from looking down the flight line and counting the planes." That was very interesting. I counted 18 supersonic bombers. The information was "classified," but available to anyone who would make the effort to find it.

But on another occasion at the same USAF base, I discovered something a little closer to the "top secret" classification. I witnessed a practice ALERT. Within minutes after the sound of the alert horn the two mile long runway was lined with planes taxiing down and back, trailing four miles of aircraft in procession. (That was back in the days when USA was worried about being a second-rate power.) The original alert group had doubled in size. The KC-135 jet tankers followed. The "top secret" was that planes on the flight line that appeared to be unserviceable were all of a sudden ready for take-off. More was revealed than what the eye first saw.

God's "top secrets" are much the same. Moses declared, "The secret things belong unto the Lord our God; but those things which are revealed belong unto us and to our children forever, that we may do all the words of this law." (Deut. 29:29). God lets his secrets out to those who want to know. Jesus said that if we are willing to do His will, we shall know the doctrine. "He that hath ears to hear, let him hear." The way of salvation and heaven is kept a "top secret" from sinful men until someone who knows will tell, publish, or shout the news that Christ died for our sins according to the Scriptures. The Bible is like a "classified" information until you desire to know Jesus Christ as your personal Saviour. There is exceedingly abundantly more than we could ask or think in procession taxiing down God's runways of mercy and grace ready to supply for the defense of our souls when the trumpet-horn of God's Word sounds forth the ALERT for all those who will hear and call upon Jesus Christ to be their Saviour.

Taking a chance

That's a high fence for a young man to walk, but take a good look at his face, and you'll see that he's not only determined to do it, but confident that he can.

# Trade Council Proposed in State

Legislation to create a Michigan International Trade Authority has been introduced in the Michigan House of Representatives. The bill is the result of an extensive study conducted by the House Economic Development Committee. It was introduced by Representative E. D. O'Brien (D-Detroit), chairman of the committee. "We believe that the creation of this Authority will help us increase our export markets for products manufactured in Michigan. The Authority will centralize existing state agencies for this purpose," O'Brien said. One feature of the proposal would be to establish foreign trade offices in Montreal, Brussels and Tokyo. These offices would be known as Michigan Trade Development Consulates and be controlled from Lansing. O'Brien said that the trade consulates could be opened at a minimal cost. Each office would have four people: one person in charge of the Consulate, two assistants and one clerical. Another feature of the proposal is new and different from foreign trade offices that have been established by other states. Volunteers would be encouraged to work with the Michigan Foreign Trade offices. The volunteers would be former Michigan residents living in retirement in that area of the world where the Michigan Trade

# Risk High For Cancer In Cities

Women living in urban areas apparently run a much higher risk of developing uterine cancer than their suburban counterparts. The new authority would be incorporated into the new Michigan International Trade Authority to provide for the centralization and coordination desired by the Committee. The new authority would be advised by an Advisory Trade Council, made up of Michigan businessmen. Its purpose would be to assist the Authority in generating export products manufactured in Michigan and locating foreign markets for those products. Members of the advisory council would receive no pay for this effort. They would be reimbursed for necessary costs as determined by the Authority. The advisory council, consisting of 11 members, would be appointed by the governor. They would first be appointed for staggered terms until by rotation each member would be appointed for a 4-year term. The governor would also appoint those screened and approved by the advisory council and the council would annually report its activities to the governor and the legislature.

# Wayne Master Plan Outlines Jail Needs

Wayne County's Board of Commissioners has adopted a comprehensive jail master plan which includes an 18-month target date for the start of construction of a new jail facility. The plan, approved at a July 15 meeting of the board, outlines both short-term and long-range plans to improve the county jail. The key long-range goals call for a complete, federally-financed study of the criminal justice system in Wayne County and the start of construction on a new jail or jail annex on a basis of the study results, by about April, 1972. The board of commissioners adopted the master plan to determine a location, administrative needs, and a method of financing a new jail. The adopted plan provides for a project director who will monitor its progress and furnish monthly reports to the board of commissioners. Progress reports would also come from the county board of auditors and the sheriff's department. The plan describes short-term improvements to be put into immediate effect while various studies are carried out to determine a location, administrative needs, and a method of financing a new jail. Some of the improvements were instituted by the board of commissioners before the court judgment was declared.

These include \$1.5 million already appropriated for renovation of the plumbing, electrical, and ventilation systems in the present jail. The entire project is expected to be completed within 18 months. Another aspect of the plan already underway is renovation of two barracks at the Detroit House of Correction. The two buildings will house 150 prisoners while the jail is repaired, starting about Aug. A concerted effort to reduce the jail overcrowding is another phase of the plan already in effect. The present population has been reduced to about 1,000, well below the 1,240 level specified by the judges to be achieved within 90 days. The master plan calls for the jail population of 813 by February, 1972. A program for identifying and treating potential suicides is another part of the plan already begun. As of June 7, 1971, two psychiatrists have evaluated 188 inmates. Under provisions of the plan, these services will be expanded. Among other programs in the short-term phase of the plan is a drug treatment program for addicts undergoing withdrawal as well as those being treated. For this program, the plan asks for additional nurses, social workers, and psychiatric social workers.

# Chambers Invited

If you belong to a Chamber of Commerce in Southeast Michigan, you are invited to attend harness racing at Northville Downs on Wednesday, July 28—Chamber of Commerce Night. The invitation to be a guest of the Downs is extended by the Northville Community Chamber of Commerce. Mrs. Margaret Zayti, corresponding secretary of the Northville Chamber, said that local chamber members interested in attending should contact their president or secretary for free tickets. For additional information, Mrs. Zayti may be reached by telephone at 1-349-7640.

# Novi Man To Compete

The National Rifle Association of America announces that Norman E. Goelzer of Novi will compete in the 1971 National High-Power Rifle Championships to be held August 16-24. The National Championships are conducted by the NRA staff and volunteer assistance from the one million plus membership.
