

**Wixom Newsbeat**  
**Hobby Show Plans Told**

By NANCY DINGELDEY  
We seem to have made it unscathed through the terror of "devil's night" and then Halloween. The four days so thick Friday night I don't know how anybody could have made their way through it. Downtown Wixom shows the after-effects of the toilet paper barrage and up in our end of town there are a few pumpkins perched up on some rocks. Either their aim was very bad or very good.  
For moms and dads who walked the neighborhoods with their kids, Saturday night couldn't have been better. There have been many the cold and damp "trick or treat" nights so it was a pleasure to have a nice evening for a change.  
The "Haunted House" was another huge success and the Jaycees did a splendid job. There was a little difficult walking since I had a kid clutching each leg. Word is out that the house is going to be demolished. It was so well suited for its only purpose that of scaring people a little silly.  
The Jaycees did a great job managing the crowd, helping people cross the street, and directing scared kids through the house. Thanks for all your hard work, your time and energy and several nights of pure fun. Time, hard work and energy is not only put into haunted houses, but senior citizens have been quite busy for the past several months assembling handcrafts and a variety of handmade items to be included in their second annual hobby show and bake sale. It is to be held this Saturday at the Central Cafeteria and the group under the auspices of the school district's Department of Community Education. The groups meet twice a month for relaxing, conversing or participating in table games, cards, hobbies and crafts.  
In addition, special field trips or projects are held throughout the year for the approximately 175 senior citizens presently involved. Last year's hobby show drew a good crowd of people and it is hoped that this year's event will prove even more successful. The ladies and gents would be delighted to see you and show their support. Why not try to attend.  
You may have noticed a few people around town sporting "blue battlement" they're little sad faces with a small tear drop. Definitely a take-off on the smile button. There also are bumper stickers available in the same sad design. All this to further tell Andy and Tony that their departure from the General Store is not welcome. If you can't find anyone "hawking" them around town, just ask at the General Store. They'll lead you in the right direction.  
Our deepest sympathies are extended to Ollie and Jane Wahamali on the sudden passing of his mother last Thursday. She was 86 years old and made her home with the Wahamalis on Bogie Drive.  
Since Christmas isn't too far away I shall be keeping my ears and eyes open for holiday bazaars that will be held in the area. If you've never been to a bazaar, try to attend one. They're really great fun and colorful, to say the least. If you are participating in a bazaar, please let me know and I'd be glad to pass on the word.  
Headquartered in Dallas, Texas, the Alpha-Omega Players are one of the nation's top saleswomen groups.  
Rosemary Hage, 700 West Main Street, has been named "Saleswoman of the Month" at the Thompson-Brow Plymouth Residential Resale Division Office, at the Five Mile Road, announced Jean Lanphar, manager.  
Mrs. Hage, who has been involved in home sales with Thompson-Brow for the past two years, specializes in the listing and sale of prestige homes in the Plymouth, Novi, Northville and Livonia areas.  
Attesting to her impressive sales record for the current year is the fact that she is within \$32,000 of the magic "Million Dollar" Sales Circle, said Mrs. Lanphar.  
Born in Illinois, Mrs. Hage grew up in Iowa where she attended the University of Iowa before moving to Michigan.  
Committee and delegate appointments highlighted the meeting last week of the Schoolcraft College Board of Trustees.  
Paul Kadish, veteran member of the board, was appointed parliamentarian (board meetings are conducted according to the second edition of Sturgis Standard Code of Parliamentary Procedure); Paul Kadish was named alternate delegate; and Arch Vallier was named alternate delegate.  
The board also reaffirmed its appointment of Miller, Cardiff, Paddock and Stone of Detroit as general counsel for the balance of the school year. In a subsequent move, however, the board voted that in the future the general council should be picked from a law firm located within the college district.  
The board took no action on the appointment of a bylaws committee and a committee, however, in recent years, this has been the only active board subcommittee. By deciding not to reappoint at this time it would appear that the board plans to serve as a committee of the whole, a spokesman said.  
The board will have two appointments to be effected through December 31 at which time the board is to determine whether or not to continue its membership in SEMCOG. If the board votes to continue, the board will have to determine whether or not to continue its membership in SEMCOG. If the board votes to discontinue its membership, the board will have to determine whether or not to continue its membership in SEMCOG. If the board votes to continue, the board will have to determine whether or not to continue its membership in SEMCOG. If the board votes to discontinue its membership, the board will have to determine whether or not to continue its membership in SEMCOG.

**Sandburg Mrs. Hage Named Play Set Top Saleswoman**

Almost a century of poetry, songs and stories in the life of one of America's literary figures will be heard Sunday when the Alpha-Omega Players present "The World of Carl Sandburg" at the First Methodist Church in Northville.  
The performance, which is fully staged and not a dramatic reading, begins at 7 p.m. Tickets are available at the door or by calling Dan Beiter at 349-1144.  
"The World of Carl Sandburg" includes the best known of Sandburg's poetry and music, along with several prose selections, including President Lincoln's farewell to his hometown of Springfield, Illinois.  
The Alpha-Omega Players bring to Northville the National Series of Sandburg plays, the best of Sandburg in a performance for viewers of all ages.  
Headquartered in Dallas, Texas, the Alpha-Omega Players are one of the nation's top saleswomen groups.

**College OKs 'Retreat' Plans**

Committee and delegate appointments highlighted the meeting last week of the Schoolcraft College Board of Trustees.  
Paul Kadish, veteran member of the board, was appointed parliamentarian (board meetings are conducted according to the second edition of Sturgis Standard Code of Parliamentary Procedure); Paul Kadish was named alternate delegate; and Arch Vallier was named alternate delegate.  
The board also reaffirmed its appointment of Miller, Cardiff, Paddock and Stone of Detroit as general counsel for the balance of the school year. In a subsequent move, however, the board voted that in the future the general council should be picked from a law firm located within the college district.  
The board took no action on the appointment of a bylaws committee and a committee, however, in recent years, this has been the only active board subcommittee. By deciding not to reappoint at this time it would appear that the board plans to serve as a committee of the whole, a spokesman said.  
The board will have two appointments to be effected through December 31 at which time the board is to determine whether or not to continue its membership in SEMCOG. If the board votes to continue, the board will have to determine whether or not to continue its membership in SEMCOG. If the board votes to discontinue its membership, the board will have to determine whether or not to continue its membership in SEMCOG.

**Northville Estimates Sewer Cost**

The price estimate for a single exhaust vehicle but the council preferred the dual exhaust system for efficiency reasons.  
In still other business, the council waived bids for maintenance of the heating and cooling system in the city hall and awarded a contract to the Honeywell Company, the present contractor, at a cost of \$4,068. The price represents a 7-percent increase over last year's \$3,943 charge.  
The appointment was made recently in an American Legion national executive meeting at Indianapolis.

**Switch on Drain**

This plan was one of three recommended by engineers for the drainage board, ranging upwards to well over \$1 million.  
Center Street east to the Rouge river near the Ford Valve Plant.  
It provides for no drainage work inside the City of Novi.

**Legion Taps Local Man**

David McDougall of Northville was appointed to the National Commission on Children and Youth as consultant to the committee.

**Northville Council Minutes**

October 30, 1971  
Mayor Allen called the regular meeting of the Northville City Council to order at 8:00 p.m. Monday, October 18, 1971 at the Northville City Hall. ROLL CALL: Present: Allen, Folino, Lapham late, and Nichols absent. Mayor Allen presided.

**Legal Notice**

STATE OF MICHIGAN  
THE PROBATE COURT FOR THE COUNTY OF OAKLAND  
IN RE: The estate of MARY E. Ray, Deceased.  
In and for the County of Oakland, Michigan, to-wit: the Probate Court, do hereby certify that on October 16, 1971, at 9:00 a.m., in the Probate Courtroom at Detroit, Michigan a hearing was held in the matter of the estate of MARY E. Ray, Deceased, and that at such hearing all persons interested in said estate appeared to show cause why such service should not be granted.  
The fact that the Authority shall commence on the first day of July in each year and end on the 30th day of June of the following year.

**Suit Hits Electric Bill Rating**

Led by Wayne County Commissioner Catherine Shavers, an alliance of individuals and groups representing consumer interests, has filed a \$90-million lawsuit against the Detroit Edison Company.  
The suit, filed October 30 in Detroit's U.S. District Court, charges that certain Edison rates are discriminatory and in conflict with provisions of the 14th amendment to the U.S. Constitution.

**Why Insulation's Important**

Insulation is important for several reasons. It helps keep your home warm in winter and cool in summer, saving you money on heating and cooling costs. It also reduces noise and protects your walls from moisture. The article explains how insulation works and why it's a smart investment for any homeowner.

**Why the Special Emphasis on Insulation?**

Consumers Power Company neither sells nor installs insulation but there's nothing new about our recommending it. For a number of years we have encouraged our customers to investigate the benefits of insulation. Now, with the current gas shortage, conserving fuel is important. When you insulate your home, you save gas. And, by saving gas, you help make it possible for more people to enjoy gas home heating.

**Insulation is the Key to Comfort.**

Proper insulation, properly installed, plus adequate storm doors and storm windows, makes a home far more comfortable. And the same insulation that keeps a home warm in winter, helps keep a home cool in summer. Insulation is the first step toward Comfort Conditioning a home.

**Good Insulation Saves You Money.**

Insulation makes good sense, no matter how you heat your home. If a house is insulated to the recommended levels of Consumers Power Company, you can reduce your heating costs substantially (in many cases as much as one-third). And the insulation that reduces your winter heating costs also reduces your costs of air conditioning for summer comfort.

**Insulation is Easy to Install in Most Homes and Can be Done Any Time of the Year.**

There's nothing hard about insulating a home. It can be done any time of the year and, with modern equipment and modern methods, done quickly and easily... without mess or fuss. Now is a perfect time to install insulation—the weather is cool and you'll enjoy the benefits of comfort and reduced heating costs all winter.

Advertisement for Consumers Power Company featuring an illustration of a house with insulation being applied to the walls. Text includes: "If you'd like to get a more complete story on how insulation can give you more personal comfort and save you money, mail the attached coupon and we'll send you our free bulletin, 'Gas Heating Insulation Facts.'" Below the coupon is the Consumers Power logo and contact information for Ray Interiors.

**Northville Township Meeting and Election**

WHEREAS, at a meeting of the Township Board of the Township of Northville, Wayne County, Michigan, held on the 27th day of October, 1971, a franchise ordinance was adopted, entitled as follows:  
AN ORDINANCE, granting to CONSUMERS POWER COMPANY, its successors and assigns, the right, power and authority to lay, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges, and other public places, and to do a local gas business in the TOWNSHIP OF NORTHVILLE, WAYNE COUNTY, MICHIGAN, for a period of thirty years.

WHEREAS, said Consumers Power Company has heretofore filed its written acceptance of said franchise, and has requested that the question of confirming the grant thereof be submitted to the qualified electors of the Township, at a special election to be held for that purpose, and has also paid to the Township Board the estimated expense of holding such special election; and  
WHEREAS, the Township Board of Northville, Wayne County, Michigan, has called a special election to be held in said Township for such purpose;

**Northville Township Ordinance No. 40**

AN ORDINANCE, granting to CONSUMERS POWER COMPANY, its successors and assigns, the right, power and authority to lay, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges, and other public places, and to do a local gas business in the TOWNSHIP OF NORTHVILLE, WAYNE COUNTY, MICHIGAN, for a period of thirty years.  
SECTION 1. The Township of Northville, Wayne County, Michigan, heretofore grants to the Consumers Power Company, a Michigan corporation, its successors and assigns, hereinafter called the "Grantor," the right, power and authority to lay, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges, and other public places, and to do a local gas business in the Township of Northville, Wayne County, Michigan, for a period of thirty years.  
SECTION 2. The right, power and authority hereby granted shall terminate on the 31st day of October, 1971, or on the expiration of thirty (30) years as aforesaid, said Grantor shall faithfully perform all the obligations imposed by the terms hereof.  
SECTION 3. No highway, street, alley, bridge or other public place used as a right-of-way shall be obstructed for a longer period than is necessary during the construction or repair, and shall be restored to the same order and condition as when said work was commenced. All of Grantor's pipes and mains shall be placed in the highways and other public places as not to unnecessarily interfere with the use thereof for highway purposes.  
SECTION 4. Said Grantor shall at all times keep said Township free and harmless from all loss, cost and expense to which it may be subject by reason of the negligent construction and maintenance of the structures and equipment hereby authorized to be used in any action or proceeding against the Grantor, and shall be liable for all damages arising out of such negligent construction and main-

**REQUEST FOR BIDS**

The City of Northville will accept sealed bids for construction of pavement on Nine Mile Road (from Novi Road 3100 Feet East), at the Office of Johnson & Anderson, Inc., 2900 Dixie Highway, Farmington, Michigan, until 3:00 p.m. EST of November 17, 1971, at which time and place the bids will be opened and read aloud. Plans and specifications are on file at the office of Johnson & Anderson and copies may be obtained therefrom upon the receipt of a deposit of \$15.00, for each document obtained. The City of Novi reserves the right to accept or reject any or all bids, to waive any irregularities, and to award the bid in any manner deemed to be the best interest of the City of Novi.  
Mabel Ash, City Clerk  
Novi News 11-471

**CITY OF NOVI NOTICE OF ENACTMENT**

AN ORDINANCE TO AMEND ORDINANCE NO. 69.01 TO SPECIFY MODE OF AUTHORIZATION OF SPECIAL ASSESSMENT BONDS ISSUED IN ANTICIPATION OF THE COLLECTION OF SPECIAL ASSESSMENTS.  
SECTION 1. Ordinance No. 69.01 be and the same is hereby amended, by adding Section 28.02, as follows:  
"SECTION 28.02 Issuance of Bonds. The City Council may by resolution, authorize the issuance of special assessment bonds issued in anticipation of the collection of special assessments made in accordance with the provisions of this Ordinance."  
SECTION 2. All ordinances or resolutions and parts of ordinances and resolutions in consistent with this Ordinance are hereby repealed.  
SECTION 3. This Ordinance shall be published in full promptly after final enactment and shall take effect ten (10) days after such publication, and shall be recorded as provided by the City Charter.  
ORDINANCE DECLARED ADOPTED, this 4th day of October, 1971.  
Joseph Crupi, Mayor  
Mabel Ash, City Clerk

**City Observes Special Week**

A proclamation, signed by Mayor A. M. Allen, Art designated November 8-12 as Occupational Training Skills Week in the promotion of our educational process and to encourage our students and parents to become more aware of the need for occupational education.  
The proclamation reads: "Whereas, society is becoming more and more aware of the need for programs in occupational education and training for the purpose of preparing our young people to meet the needs of our society; and  
Whereas, the Northville Public School district has launched upon a new and challenging program to meet the need of our young people in occupational skills and training; and  
Whereas, the period of November 8-12, 1971 has been selected to focus the community attention on the value of occupational education and training; and  
Whereas, the Northville Public Schools will feature a "Work Day" night on November 9, 1971 to better inform students and parents of the occupations available in some 25 areas and,

votes for Paul Folino for mayor, and one vote for John Gustov for council.

Tuesday's voting was the first fall city election in the history of the city. In previous years city elections were held in April.

Two years ago in 1969, Folino and Rathert were elected to the council (Vernon was defeated, finishing fourth) with 42.2 percent of the registered voters turning out.

Nichols, who was elected four years ago after serving as an appointee, was the lone incumbent councilman seeking reelection Tuesday.

The second council seat was left wide open when Councilman Charles Lapham decided not to seek reelection.

Voters are not likely to experience any noticeable change in the operation of the city because of the five charter amendments they approved. That's because these five amendments are basically corrective in nature.

The two amendments

# Lighting Plan Wins Approval

disapproved by voters, however, would have made some very noticeable changes at the next election in 1973.

One would have provided for the election of five councilmen, as opposed to the present election of four, with four of these five serving for four years and one of them for two years. Presently, the four councilmen are elected for four year terms and the mayor to a two-year term.

Another amendment would have provided that the five elected councilmen name the mayor from their own ranks.

Voters defeated the two amendments by votes of 430 to 317 and 435 to 327.

The approved amendments provide:

- For the office of city manager (presently this post is provided for only by ordinance). Vote: 526-229.
- For the collection of a 2-percent plus one-half of 1-percent per month delinquent tax penalty instead of the present flat 4-percent penalty. Vote: 541-235.
- For elimination of the assessment procedures from the charter and establishment of this provision by ordinance. Vote: 463-276.
- For permission to pay the maximum interest rate provided by the subdivision and later scuttled, and that state law supersedes local law, this procedure has been said to be amended to table limitation of 6-percent. Vote: 579-171.
- For elimination of the price of justice of peace since the office was abolished by the new Michigan Constitution and provision for the Constitutional substitute, district court system. 584-155.

# Prospects Brighten

Continued from Record 1

ted the county subcommittee, which had denied the earlier request for use of the Child Development Center buildings, to grant a second hearing.

It was held last week and attended by Supervisor Stromberg, Clerk Eleanor Hammond, Treasurer Joseph Straub, Dr. Robert Geake, and Richard Martin, the latter representing the Northville Area Economic Development Corporation.

Dr. Geake's statements proved most persuasive in winning reversal of the committee's previous stand.

Admittedly, Child Development Center Sub-Committee Chairman Joseph F. Young opposed the request on the basis that placing uniformed police adjacent to the Center might have an adverse effect on the youngsters.

Dr. Geake, citing his experience as a psychologist specializing in treatment programs for children, testified that in his opinion a police post on the grounds need not have a negative effect on an educational or therapeutic program for children.

"One the contrary", he stated, "I can see where frequent exposure to police in their daily work setting might well have a beneficial effect. Many of these children have only known policemen in an authoritarian or punitive role and now would get to see them in a more positive and natural way."

Dr. Clemens H. Fitzgerald, a psychiatrist and Director of the Wayne County Mental Health Clinic, supported Dr. Geake in this opinion.

Commissioner John McCann, representing the Northville area on the county board, said Tuesday that he was certain the HEW committee would approve the proposal Wednesday (yesterday) and send it to the full board of commissioners for action November 18.

Commissioner McCann noted, however, that the motion would be "sent into negotiations" with the State Police.

As matters now stand, it would appear that the county may not find the State Police as anxious as when the first request was made, and denied.

But, as Colonel Plants stated, if the proposed new complexes prove too expensive or unworkable for some reason, perhaps the county and state can agree on a lease arrangement that would find State Police taking over the vacant buildings and becoming neighbors with Child Development Center youngsters.

# 6 Youths Arrested

Continued from Record 1

in connection with selling narcotics. Three other Northville juveniles were issued verbal warnings by police and released to the custody of their parents, police said.

Purchases of marijuana from Hammond and Corcoran allegedly were made by the state police at parties held at the home of Mr. and Mrs. Crispin Hammond, 47100 Timberlane Road, while they were away. Mrs. Hammond is the Northville Township Clerk.

Marihuana allegedly was purchased by city police from Barger at Cal's Gulf Station, 202 West Main Street, where he is employed, police said.

City police reported they purchased narcotics from Abbey at his home at 705 Grace Street and LSD from Miss Kupsy at 164 East Cady Street.

Marihuana was allegedly purchased from Miss Dickey by city police outside the Palace Restaurant, 333 East Main Street, and by the state police in Hines Park.

Police said the six youths were arrested without resistance. Narcotic paraphernalia and one weapon, a long blade knife, were confiscated at the time of the arrests. No narcotics were found on the youths, it was reported.

# Three Study For Teaching

Advanced students, including three from Northville, who are enrolled in Western Michigan University's pre-teaching courses are gaining practical classroom experience this semester in schools throughout Michigan.

A total of 847 are doing their directed teaching under the supervision of experienced teachers during the fall semester. Of that group, 221 are assigned to elementary schools, 481 to secondary schools, and 45 are working in special education.

The local students participating in the program are Terry J. Kemp, Luanne M. Godfrey, and Janet K. Ogilvie.

The Northville Record THE NOVEMBER 4, 1971  
The Brighton Argus THE SOUTH LYON HERALD

Wed.-Thurs., November 3-4, 1971

By ROLLY PETERSON

A bulldozer may not be the most fascinating piece of machinery to watch. It does the job in a relentless manner, chewing out big chunks of earth and everything in its path, pushing it forward, then backing up to make another sizeable dent in the impacted soil.

Occasionally, there's a large boulder that forces the plow to ride upward, or to momentarily give ground. But the result, the next time around, or possibly the next, is the boulder giving way under tremendous pressure.

With the same relentless precision and power, the University of Michigan football team, the 1971 version, is chewing up opponents. The latest demolition was Indiana, 61-7. Seven other opponents have fallen in basically the same manner.

It's no secret to anybody what the Wolverines are going to do, as Coach Bo Schembechler openly admits before every contest. Michigan is going to run, run and run some more. Maul the opposition, roll them up in a clod of moveable dirt.

The line simply pushes, shoves or knocks the opposition out of the way and a healthy stable of backs, with premiere runner Billy Taylor leading the way, crunch through the holes. Appropriately, the hallmark of this team is the power sweep with Taylor wheeling over tackle or around end for five, ten or 15 yards and occasionally a long touchdown.

Or Fullbacks Ed Shuttlesworth or Fritz Seyerth grinding it out over the middle, or Quarterback Tom Slade slamming over tackle, whirling to escape tacklers and lunging into the end zone, like some malevolent force.

Actually, that's only the half of it. While the offense is bulling the opposition around, the defense, statistically the best in the nation, is grudgingly giving up ground.

Another Taylor, named Mike, leads the defensive forces, malevolently knocking people down, then helping them up off the turf to knock them down again. The defensive line is something to behold, too, with the likes of Tackles Tom Beckman from Chesaning and Fred Grambeau from Alpena either putting the clamps on an opposing back or knocking over defenders to get to the passer, who, if he doesn't hit the ground under a mass of muscle, quickly throws the ball to get out of the way.

Fifteen minutes a quarter, 60 minutes a game, the same brutal action takes place. Knock the feathers out of the opposition.

Game after game the team has functioned with more efficiency, true to Bo's dictum that there must be constant improvement, with execution reaching zenith in the concluding collision with Ohio State.

Said one Michigan football fan as she watched Saturday's rout of Indiana: "I've never been so bored during a season in my life, but what happy boredom."

**FUN 'N' PROFITABLE**— Best results can be obtained, say garage sale buffs, by putting up a sign in the front yard, marking everything and being prepared to dick.

**NOTHING PROHIBITED**—There are no hard and fast rules on what can and cannot be sold at garage sales. Junk, antiques, clothing, boats — even the family car and perhaps the garage itself — are permissible.

Crossword Puzzle

Crossword puzzle grid with clues for Kansas Caper and Here's the Answer.

Michigan Mirror

State Ports Boosted in Russia

LANSING—Michigan's drive for a share of the foreign export market is now aided by a brochure produced by the state commerce department.

The brochure is one of a series published by the department aimed at promoting the state's already extensive export trade.

Included in the brochure is a double-fold map showing the state's location on the St. Lawrence Seaway and explaining "Michigan's location surrounded by the Great Lakes makes it easily accessible by water routes."

THE BROCHURE actually comes in two different versions, each being "localized" for its target audience.

It points out that Michigan's population is about twice the size of

Hong Kong and that Detroit is about the same size as Osaka, Japan. In land area, it says, the state is about the same size as the Japanese islands of Kyushu, Hokkaido and Shikoku combined.

The Russian language brochure points out that Michigan has about the same population as the Soviet Republic of Byelorussia and that Detroit is about the same size as Leningrad.

It took substantial effort to get the Russian language version printed. First a Russian translator had to be located, and one turned up at Michigan State University.

Then a typesetting machine with Russian alphabet characters had to be found. One finally was located in New York City.

Milliken gave the brochures to several high-ranking Soviet officials when he was in Russia, including Konstantin Crupin, chairman of the

board of foreign tourism in the Russian Republic, and officials of each of the eight republics he visited.

MICHIGAN MOTORISTS with metal-studded tires on their cars would be well advised to change their tires if they travel in Minnesota or Ontario this winter.

Both Minnesota and Ontario have banned the use of such tires and have warned that non-resident drivers with studded tires will be fined as heavily as residents. Ontario won't actually bar cars with those tires from entering, since a province cannot control international movement.

A second state-Utah—also has banned the tires, but the ban is not effective until next April 15.

The commission says studies show the tires soon will cause an

estimated \$28 million damage a year to state highways alone as usage continues to grow as fast as it has since they were legalized in 1967.

It says the studs quickly rub out lane markings and anti-skid materials on highways, as well as digging dangerous ruts in the surface.

Further, it says studded tires are effective only on glare, and that on any other wet or dry surface they actually reduce traction.

A MOST DRAMATIC example of the effect of allowing 18-year-olds to vote and allowing students to vote in their university town can be found in East Lansing.

Before the voting age was lowered and students allowed to register, the smallest precinct in East Lansing was located on the southwest side of the sprawling Michigan State University campus. It had a total of 900 registered voters.

Now, 5,100 persons are registered to vote in that precinct, making it by far the largest precinct in the town. The second largest precinct handles 2,000 voters.

THOMAS PLUNKETT

Parents: Here's Tips On Drugs

Editor's Note: Following is the third in a series of articles by Oakland County Prosecutor Thomas G. Plunkett intended to inform parents about the drug threat and what it means to their children.

Today we will go over some of the drugs most commonly used and abused so we will be familiar with the terms and types of drugs for later discussion.

ORAL AMPHETAMINES: These are stimulants. On the street they are referred to as "Bennies" and "Whites" (round and white pills). Also in this category are "Decks" (green and white capsules and "Hearts" green, heart-shaped tablets). These are what are commonly called "pep pills" or diet pills.

These are stimulants. On the street they are referred to as "Bennies" and "Whites" (round and white pills). Also in this category are "Decks" (green and white capsules and "Hearts" green, heart-shaped tablets). These are what are commonly called "pep pills" or diet pills.

Some "street market" black market amphetamines are made by amateurs in illegal laboratories, using improperly balanced chemicals in unsterile surroundings.

INJECTED METH-AMPHETAMINES: These are referred to, among other terms, as "Speed" or "Mebs" and are very potent, fast acting and, of course, extremely harmful. Users of injected methamphetamine can become extremely confused, very unpredictable and irrationally violent.

A zoom lens effect of the eyes (like the zoom lens of a camera) increases this feeling of paranoia in the user since objects and people loom far before him, disappear and reappear.

Babson Report

Computers Read Future Profits

OPTICAL READERS allow direct entry of typed or printed data into data processing systems without any human intervention.

IBM, the computer industry leader, has been reluctant to abandon this slower and more cumbersome method because its keypunch devices (those already marketed) have been fully depreciated and represent an important source of revenue for the company.

INDUSTRY is deluged by the so-called "paper explosion." Information processing has, of course, made giant strides via the computer and its accessory input and output devices.

the bottleneck to optimum efficiency.

Keypunch equipment still processes some 80 percent of all conventional data fed to the computer. Its dragging pace, the large number of clerical workers needed, and the potential for error in this method are some of the reasons for trying to phase out this operation.

OCR machines read the source data at hundreds to thousands of times the speed of keyboard and keypunch devices. Optical systems permit a direct input without the need for expensive verification.

LAST YEAR the estimated value of annual shipments of OCR equipment was around \$115 to \$150 million. Projections for 1975 range from \$200 million to \$600 million.

20 percent of the input data, and this is expected to double by 1975.

The manufacturers comprise two distinct groups—small independent companies and the major computer processors for whom OCR is just another segment of their business.

THE OCR industry has been fraught with disappointments (for example, Farrington, the pioneer and a large factor in the field, has sold its OCR operations). IBM and Control Data—along with other computer firms—supply some 60 percent to 65 percent of the market, and are therefore fierce competitors for the lion's share.

THE Research Department of Babson's Reports is of the opinion that any profits in this special field could be five to ten years off. Thus, investors should confine their interest to the large computer companies developing or already having OCR operations, at least until the independent OCR concerns are more firmly established.

207,000 Vehicles Registered Snowmobile Runs Increasing

With the most snowmobiles of any state in the union, Michigan will provide more places for them to run than ever before...

In pursuit of a sport which has helped turn the state's snow-covered northland into a recreational gold mine...

Throughout the Grand Traverse area, it's Chambers of Commerce have compiled a snowmobiling map which includes 30 to 40 trails...

Due to the extremely heavy and early snowfall in this area, ice covering many of the lakes does not become very thick...

199 Reasons Make State A 'Snowsation'

If you're one of those people who have never considered a winter vacation...

commodations. Other plus factors enhancing Michigan winter vacations are cozy cocktail lounges, heated swimming pools, dancing and entertainment.

Now, add 126 authorized snowmobile areas and you have 199 reasons for a 'snowsational' winter vacation in Michigan...

Many areas have made additions and improvements to their facilities and expanded their accommodations.

the majority of Michigan's state parks have some areas open for snowmobiling. The Council suggests that the snowmobiler check with the individual park managers for specific locations.

For a free copy of the 1971-72 Winter Sports Guide, just address a card to the Michigan Tourist Council, Lansing, 48926.

Smart Asks Contract Ruling

House Republican Leader Clifford Smart (R-Walled Lake) has asked the State Superintendent of Public Instruction to issue a ruling dealing with the possibility of schools having to renegotiate teacher contracts because of school boycotts.

In order to meet the 180 day qualification for state funds, "These makeup dates according to Smart, and the possibility of renegotiation of teacher contracts, will require the expenditure of large sums of money."

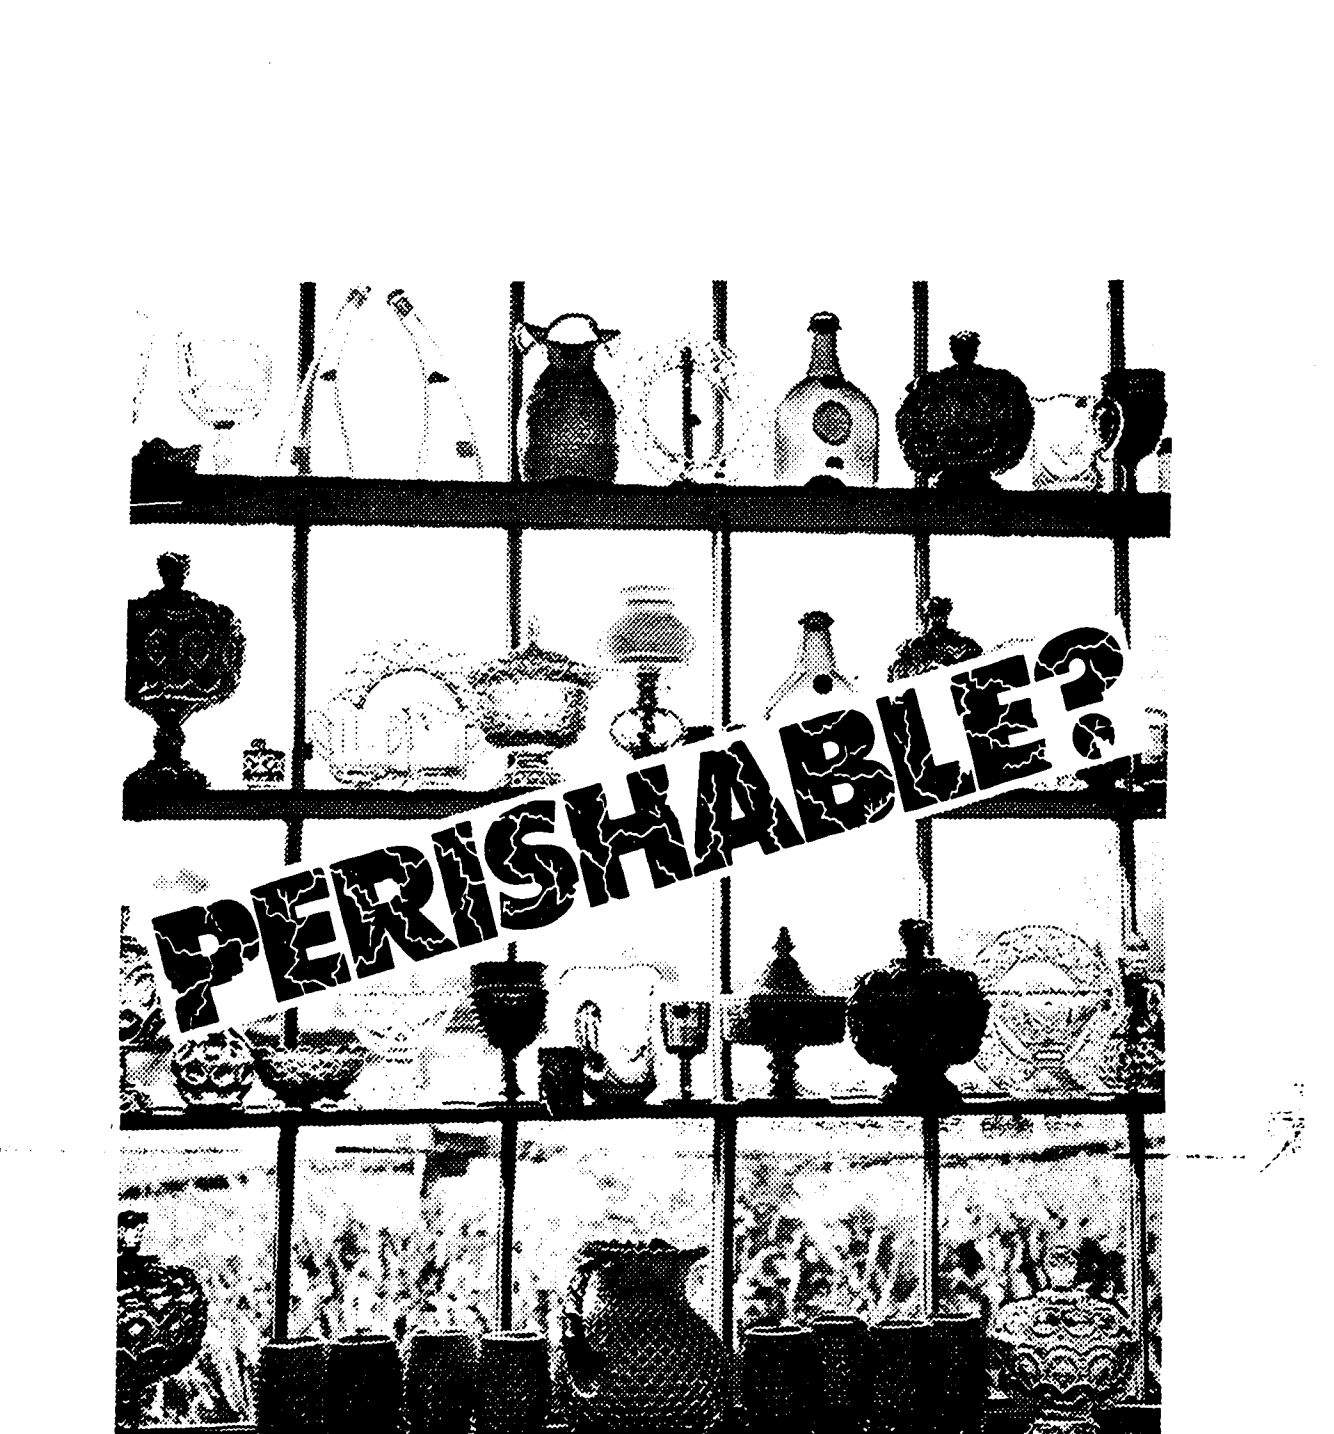

Smart continued, "If there was some assurance that these boycotts have run their course and will not occur in the future, it would be a different matter. However, with the high feeling generated relative to money-busting question, these same school districts may be faced with additional boycott days."

Smart suggested that you and your board give this question priority consideration and that some ruling be made which will provide relief. Smart concluded.

Final Movies Set for Kids

The last of the fall children's movie series will be shown at Schoolcraft College on Saturday, November 13. Showings are set for 11 a.m., 1 and 3 p.m. and each is an hour in length.

Four films will be shown on the 13th: "Goldilocks and the Three Bears," "Andy and the Lion," "Steadfast Tin Soldier," and "Tom Thumb in King Arthur's Court."

The window of the little antique shop is filled with lovely colors, sparkling in the sunlight. They could smash into bits in an instant if you were careless.

Things—all things—are the products of men's minds and talents. But they have no will of their own, no feeling. No matter the obvious evidence, it is impossible that objects could outlast man who made them.

Where is the answer? Perhaps you can find out in the church of your choice.

### Out of The Horse's Mouth

Continued from Page 2-B successfully on all concentrate rations. But, generally speaking, some bulk is considered necessary for the well-being of horses.

Normally for the wintering period, it is recommended that an average weighing 1,000 pounds, be fed 15 to 18 pounds of hay per day. With expensive hay and cheap grain, I would recommend the following changes:

- 1. Feed only half to two-thirds the normal ration of hay per day.
2. Over and above the minimum hay ration, replace each two pounds of hay with one pound of grain.
3. Provide such supplementary proteins, minerals and vitamins as necessary.
Other hay-stretching pointers are:
1. Consider feeding an all-cepted (grain and hay combined) ration, manufactured by a reputable feed manufacturer.
2. Let animals graze in the field as long as possible - and hope for an open winter.
3. In cold areas warm the drinking water.
4. Provide horses with a suitable shelter or other protection from the cold so they will not burn up energy just to keep warm.
5. Don't continue to feed timothy hay, alfalfa - or whatever your preference - regardless of price and scarcity. Instead, make use of such feeds as (1) silage, or (2) straw, grass aftermath, or dry grass cured on the stalk, and numerous other roughages; all can be used provided the ration is properly balanced.
Through mistakes of kindness or carelessness, horses are often fed too much hay or other roughage, and labored breathing and quick tiring is the result. With cattle and sheep, on the other hand, it is usually good to feed all the roughage they will eat. This difference between horses and ruminants is due primarily, to the relatively small size of the simple stomach of the horse in comparison with the four-fold

## Senate Busing Stand Lauded

Senator Carl D. Pursell (R-Plymouth) has lauded senate action in passing by an overwhelming 27 to 4 vote a resolution designed to guarantee the "traditional concepts of neighborhood schools in the United States." The resolution, introduced by Pursell, put members of the senate on record as "strongly" urging the State Board of Education to appeal a recent order of U.S. Judge Stephen Roth involving possible busing of pupils across school district lines in the Detroit area to achieve racial integration.

### Questions people ask most often about turkey...

- Q. How does your "E-Z Roast" turkey differ from the other turkeys you carry at Chatham?
A. You might say it has three "pluses" to offer. 1. It's self-basting so that it's always moist and flavorful. But no extra fat is added to provide those unwanted calories!
2. No time-consuming over-watching is necessary. We've inserted a little cooking gauge in the breast which literally pops out when the turkey is done "just right".
3. It's low in cost when compared to other birds with similar modern features combined in one bird.
Q. Do you guarantee the quality of your "E-Z Roast" turkey?
A. At Chatham we always

## There is a difference in supermarket prices

...And Chatham's got it! At Chatham everything is "DISCOUNT PRICED" day in day out. Our low price policy has been saving our customers more on their total food bill everytime they shop Chatham.

CHATHAM Complete Food Centers. FRESH GROUND HAMBURGER 58c Lb. Includes list of other products like Scotties, Hunt's, Miracle Whip, etc.

### Here's Tips On Drugs

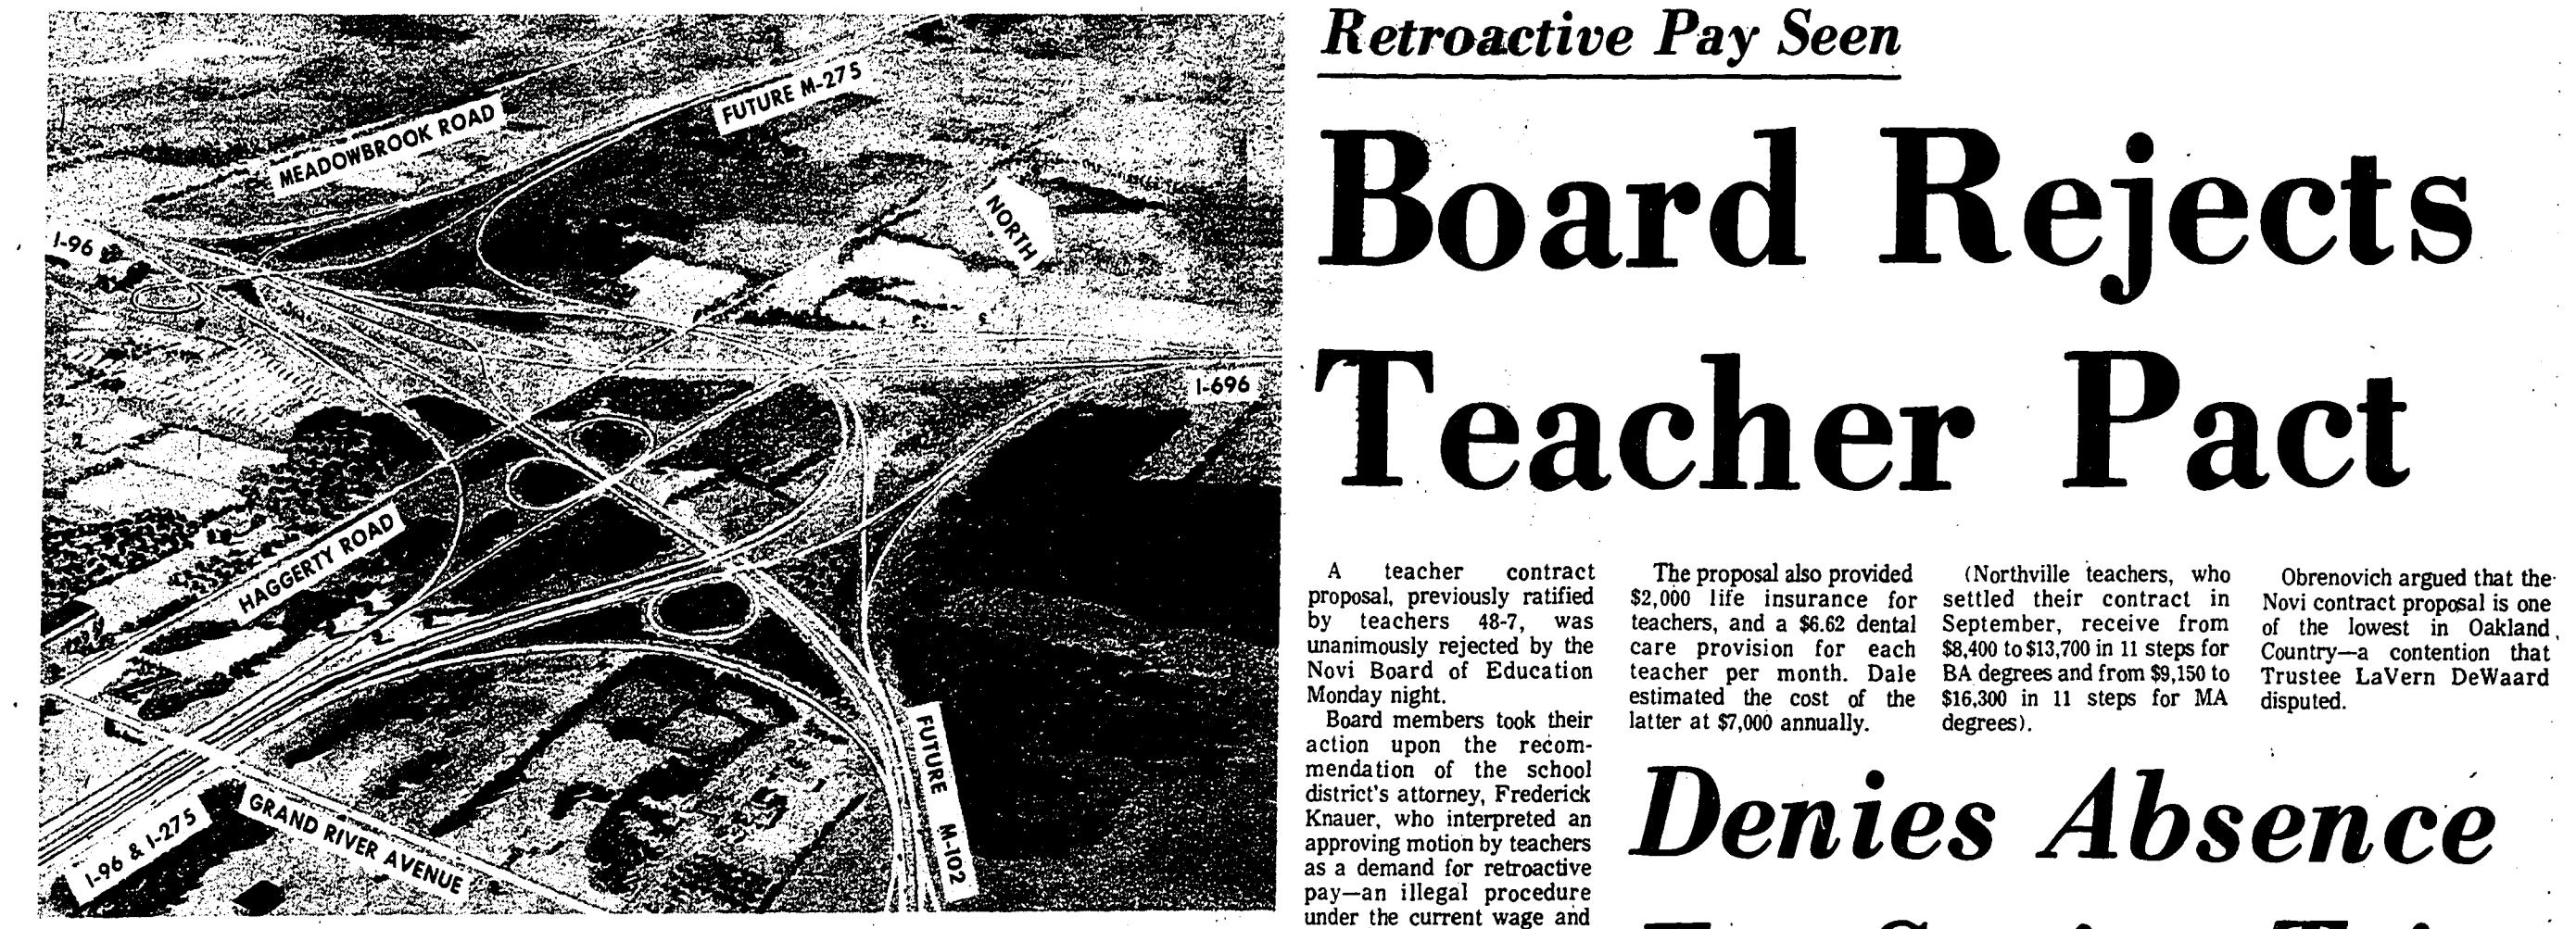

When injections are stopped after a "run", the user craves, which means he goes into a period of hallucinations and deep, sometimes lasting from 18 to 48 hours. He may awaken famished and eat huge amounts of food, particularly sweets and liquids. He may be extremely fatigued, very susceptible to disease and deeply depressed. At this point, amphetamines will take oral amphetamines to get going again.

## Bidding Near For State's Biggest Interchange

After more than 10 years on the planning and design boards, Michigan's biggest freeway interchange will begin taking shape soon in an area near Novi. The interchange will be located in the vicinity of where I-96 and I-696 presently intersect in east Novi. One of the two contracts, estimated at \$12.3 million, calls for more than four miles of grading, drainage structures, concrete paving, watermain alterations and construction of one bridge. The companion contract, estimated at \$5.1 million, calls for construction of 14 bridges. Work under both contracts is scheduled for completion by October, 1974.

### Novi Planners - Council Rezoning Argued

Novi's city council and planning boards met in a special joint session Monday to consider two proposed amendments to the city's zoning ordinance, but the meeting time and place were not the only things the two groups could agree on as the council twice rejected the planning board's recommendations. The proposed amendments involved a change in the frontage and access requirements for dwellings in a group housing development and the setting of guidelines for training tracks for horses.

### Wixom Denies Zoning Change

The advancement of light manufacturing from Novi across Wixom was brought to at least a temporary halt Tuesday night as the Wixom council denied a rezoning request on the east side of the city. The rezoning request was denied by a vote of 5-2. The rezoning request was denied by a vote of 5-2. The rezoning request was denied by a vote of 5-2.

### Sewer Arm Bid Gets Council OK

Construction of the Novi-Grand River sewer trunk is scheduled to get underway Monday night as the city council accepted the bid of the National Bank of Detroit for the \$700,000 worth of general obligation bonds that will be used to finance the project. The council also accepted the National Bank of Detroit's bid for \$12,000 in special assessment bonds for the paving of Nine Mile Road. Commenting on the NBD bid, City Manager Robert Dingley said the city had received a "fabulously low interest rate."

### Retroactive Pay Seen

Board members took their action upon the recommendation of the school district's attorney, Frederick Knauer, who interpreted an approving motion by teachers as a demand for retroactive pay—an illegal procedure under the current wage and price freeze guidelines.

### Board Rejects Teacher Pact

The proposal also provided \$2,000 life insurance for teachers, and a \$6.62 dental care provision for each teacher per month. Dale estimated the cost of the latter at \$7,000 annually. (Northville teachers, who settled their contract in September, receive from \$8,400 to \$13,700 in 11 steps for BA degrees and from \$8,150 to \$16,300 in 11 steps for MA degrees.)

### Denies Absence For Senior Trip

Excused student absence for a proposed senior trip to Nassau in the Bahamas was denied by the Novi Board of Education Monday night. Board members took their action upon the recommendation of the school district's attorney, Frederick Knauer, who interpreted an approving motion by teachers as a demand for retroactive pay—an illegal procedure under the current wage and price freeze guidelines.

### See Occupancy By January 15

Novi's new middle school should be fully occupied by January 15. That's the prediction of the school's architectural representative, Al Riebe, based on a beefed up schedule of work resulting from board pressure. Riebe said all contracts are "substantially complete."

### NEA Schedules Friday Meeting

A meeting of Novi teachers has been called for Friday afternoon (3:45) at the Elementary School in light of the board's rejection Monday of a proposed contract settlement. The meeting is being called by the school district's attorney, Frederick Knauer, who interpreted an approving motion by teachers as a demand for retroactive pay—an illegal procedure under the current wage and price freeze guidelines.
