IN THE COUNTY OF Oakland FOR THE YEAR 1897

No more than one tract or parcel is to be valued or taxed on the same line. Two descriptions must not be joined in one valuation or tax unless contiguous and owned and OCCUPIED as one parcel. A parcel of land described in the government survey by lot number must be so assessed. The description of all lands in each town and range should be carefully written. In the case of platted land, the name of the plat must be given in full at the head of all if the name of the owner of non-resident land is not known it should be assessed as "Owner Unknown." Enter the amount of any Reassessment with red ink, in the column of taxes to which it belongs, above the tax for the year for which this Roll is used, and in the column for Personal Property must be valued and taxes entered on a different line, as well as column, from Real Property. The name of each special tax must be entered at the head of the column in which it is placed. The attention of assessing officers is especially called to Sections 1 to 43 of the Tax Law of 1893. They should be carefully studied and the directions therein contained should be strictly followed. See also Sections 91, 96, 100, 105, 107, 116, and 119.—AUDITOR GENERAL'S DEPARTMENT, 1897.
