## Novi approves three-year pact with police

By KATHY JENNINGS

Slightly more than nine months after the city's contract with the Novi Police Officers Association (NPOA) expired, both the police and City of Novi have come to an agreement on a three-year contract.

Council members voted 6-0 to ratify the contract Monday, while union representatives said the membership voted by approximately a 2-1 margin to accept the pact March 30.

The city's contract with the 24-member bargaining unit expired June 30, 1980. The life of the new contract is from July 1, 1980 to June 30, 1983.

Under terms of the new agreement, police officers will receive a salary increase of approximately 8 percent per year, raising the basic pay of a patrol officer from \$20,245 to approximately \$22,000 in the first year of the contract, \$24,000 in the second year and \$26,000 in the third year.

Police also received improvements in

the pension plan which take effect in the third year of the pact. Improvements in medical benefits and life insurance are effective immediately.

Language in the new pact also provides that it will take an officer four years, instead of three, to achieve the maximum salary.

The new contract also provides for consistent residency requirements. All officers now can live within 20 miles of the police department headquarters on Ten Mile Road. Formerly, residency re-

quirements varied according to when an officer joined the department.

One portion of the contract which provided a major stumbling block throughout negotiations finally was settled through a compromise. The question of eliminating or retaining a four-day weekend, which each patrol officer receives every three weeks, was resolved when the city agreed to preserve the weekend on a trial basis for one year.

New scheduling methods were approved in an attempt to decrease the

cost of providing police with a four-day weekend.

If by March 1982 the city still is not satisfied with the provision, the contract will be reopened so that section can be renegotiated.

Early in the talks the city claimed the weekend provision caused shift shortfalls and the resultant overtime was costing too much money. But police said the shift shortfalls occurred because the city did not have enough manpower.

William Birdseye, POAM business agent who represented the local union at the bargaining table, said that one issue which the union viewed as "a big item that has been discussed every time we negotiate in Novi is the pension plan, and we did get another improvement."

He added the union also approved of the wage increases.

Birdseye described the four-day

The Novi Library's 'Family of the Year' represents three generations of library usage

## Novi library selects 'Family of the Year'

Anyone who spends much time in the Novi Public Library has probably run across members of the Calvin-Davis family at one time or another.

"It seems like they're here two or three times a week," reported Brenda Burrell, a member of the professional library staff.

"If they're not here taking out books, someone from the family is involved in one of our various library programs."

In fact, members of the Calvin-Davis family spend so much time at the library that they've been named the Novi Public Library's 'Family of the Year.'

The award has been initiated this year to fill a two-fold purpose, according to Burrell.

First, it gives the library staff an opportunity to say "thank you" to some of its most loyal supporters and honor a family which uses the library with consistency and consideration for others.

Secondly, the award helps draw attention to the Novi Public Library's National Library Week (April 5-11) activities.

Actually, the Calvin-Davis family is two families, or, more correctly, three generations of the same family.

Honored as the 'Library Family of the Year' are Jack and Myrtle Calvin of Cranbrook Drive, their

daughter Susan and her husband Ed Davis, and the Davis' two children — Christopher and Edmund.

Awards for the family include a \$20 gift certificate from Fact and Fiction Bookstore and a plaque engraved with their names that will be on permanent display in the library.

Library Administrator Dianne Bish reported that the Calvin-Davis family was selected for the award by the staff based on their regular usage of library facilities and support of library programs.

Appropriately, all members of the family are strong supporters of the library.

"I have a very strong feeling that children should learn that books are very important," stated Mrs. Calvin who frequently brings her grandchildren with her on her trips to the library.

"If they learn the love of reading at an early age, they will have it all their lives."

Mrs. Calvin also had words of praise for the Novi Library in particular which, she says, is well laid-out and has an exceptionally helpful staff.

She also praised the children's programs, including the film and craft sessions.

Another supporter of the children's programs is Ed Davis who credits the library's pre-school story hour program with helping to instill an appreciation of books and reading in his sons.

"The person who runs the program (Jane Brown) deserves a pat on the back," he said. "Attending the programs has helped give my sons an idea of what sort of world exists."

The legacy of library usage which begins with the Calvins will apparently be carried on by their grandchildren.

Christopher Davis, 6, said he "likes the library quite a lot" and reported that he gets a lot of time to read at home.

In spite of his age, he already has learned that the library can be a source of information as well as reading enjoyment. Last year when he was frightened by the threat of tornadoes, he came to the library and took out a book on the subject.

Edmund Davis, 4, is still a bit young to read many books, but manages to make plenty of use of the library's record collection and arts-and-craft sessions.

National Library Week activities will continue at the Novi Library through Saturday. Anyone who is not familiar with the library's collections and services is encouraged to drop by during National Library Week to meet the staff and take out a library card.

The Novi Public Library is located on Ten Mile, east of Taft Road.

## Novi adopts goals for coming year

Drainage once again has topped the list of concerns that will be addressed in the coming year, according to a set of 14 goals and objectives approved by the Novi City Council Monday.

City Manager Edward Kriewall told the council that he combined information and concerns from both city council members and administrative department heads to prepare the list of objectives.

Council's approval of the goals will allow the administration to "identify problems and attack them in a timely, programmed manner," Kriewall said.

In identifying drainage as a top priority concern, Kriewall said he plans to analyze the city's existing drainage system and determine what drains will be needed in the future.

In order to expand the community's awareness of drainage needs, a citizens' committee will be appointed to study the citywide drainage system and suggest how problems might best be addressed.

Issues which may be studied by the committee include construction of the Patnales Drain, other needed drains, methods of financing, maintenance of drainage ponds and Walled Lake level control.

"We also plan to analyze key tributary areas, determine how much water they can handle and look at potential drainage routes. Obvious problem points in the system should be diagnosed," Kriewall said.

Conditions of existing retention ponds also will be reviewed as the city makes an inventory of the ponds in the coming year.

A wetlands ordinance which would preserve natural floodplains for recreational and drainage needs also will be researched, Kriewall said.

In another area of concern, the city needs to determine whether the police department provides adequate traffic controls, Kriewall said. Council members should address the question of adequate manpower and equipment in the police department at budget time, he added.

To control problems with illegal signs, dumping and other ordinance violations, Kriewall proposed that or-

drainage enforcement be increased. The city manager said the council should consider hiring a second ordinance officer to replace the one who was eliminated three years ago.

Another major concern outlined by the manager is general planning for the future. To this end, he has planned a review and revision of plans for city buildings, ballot issues, city equipment and road program.

Continued attention to maintaining and upgrading gravel roads is another concern that will be addressed in the coming year. An annual maintenance program will be developed by May 1 so the city can continue its evaluation of gravel roads which require cleaning, gravel surfacing, berming, crowding and drainage improvements.

More clean-up along city roadways should be provided by city employees or through cooperation with civic groups, Kriewall said in identifying another goal. He suggested that roadsides should be cleaned periodically and an annual spring clean-up day for Novi roadsides be conducted each April.

Since the city continually experiences drainage problems when residents landscape their yards, Kriewall plans to inform residents that landscaping efforts do not alter engineered drainage courses and systems by the preparation of an informational brochure to be made available to new home buyers.

In order to develop a dialogue between developers, the council and the planning board, a committee made up of two council members and two planning board members should be formed.

Other goals cited by Kriewall include:

- reducing the city's energy consumption;
- providing a thermal photography program to Novi residents which will show where heat is being lost from their homes;
- developing a merit system evaluation process by July 1;
- analyzing alternative sites for construction of a new Department of Public Works garage to replace the existing facility which was outgrown several years ago.

## Kids invited to hunt Easter eggs Saturday

Don't look now, folks, but Easter is almost here and that means it's time for the annual Easter Egg Hunt and Magic Show sponsored by the Novi Parks and Recreation Department and Novi Jaycee Auxiliary.

Due to the growing popularity of the annual event, two hunts will be held this year in the Ella M. Power Park on Ten Mile. The first hunt will start at 9:30 a.m. and the second is slated for 10:30 a.m.

Each hunt will be divided into three age groups: 4 and under, 5-7 year olds and 8-10 year olds.

Following each hunt (at 10 and 11 a.m.), there will be a special Easter program in the Novi High School Commons. The program will include snacks, a magic show and, of course, a visit from the Easter Bunny himself who has promised to attend both events.

There is a charge of 50 cents per child for the program and all children must be accompanied by an adult. There is no charge for parents — coffee and donuts will be available.

To reserve tickets for the magic show, call either Lisa McGuckin at 348-3835 or Patty Koneda at 348-1394. Only a limited number of tickets will be sold at the door.

In case of inclement weather, all activities will be held indoors at 10 and 11 a.m.

Parks and Rec Director Tom O'Branovic said the annual Easter Egg

Hunt and Magic Show should be a fun experience for the entire family. O'Branovic also advised parents to bring cameras so they can take pictures of their youngsters with the Easter bunny.

## Concrete installation law overturned

A Novi ordinance regulating the installation of concrete work has been overturned in Oakland County Circuit Court.

Judge James S. Thorburn ruled last week that the city is not authorized to enact restrictions on concrete work because that right has been delegated to the state.

The builders who filed the suit did not ask the court to award damages, but merely to overturn the ordinance and order the city to return bonds which have been posted.

Novi is the first community in the state to attempt to regulate the installation and construction of concrete.

City officials, however, appear unwilling to let the ordinance be invalidated without a fight and reportedly are now in the process of determining whether the state construction commission is interested in joining the lawsuit.

Currently, the state construction code does not include standards for the in-

stallation or construction of concrete. In reaching his decision, Thorburn agreed with the builders' contention that local municipalities do not have the right to impose restrictions on flatwork (concrete).

Thorburn encouraged the builders and city to attempt to resolve their differences of opinion over the ordinance and suggested that they work toward a consent judgement that would allow the ordinance to stand.

Thorburn said he believes there should be legislation for concrete installation and that the city's motives were good, according to City Attorney David Fried. He feels it is unfortunate that the state construction commission has not acted when they have the authority to act in this area, Fried reported.

Fried said the judge had "great concern over the municipality's problem with regard to concrete, but he decided we don't have the authority to act."

Thorburn could not be reached for comment regarding his decision.

A representative of the legal firm which represented the builders had no comment other than to say "the record speaks for itself — we argued that the state construction code governed this area, the court agreed and the ordinance has been invalidated."

Novi's flatwork ordinance which was adopted in June 1979 was contested by 10 builders who declared the regulations were unconstitutional and invalid.

The ordinance was drafted after residents complained that their driveways were flaking, chipping and sinking.

Under the ordinance, faulty concrete work must be repaired by the builder if defects show up within 24 months of its installation.

It also required that builders post a \$500 bond for each home were concrete work was being installed. The city was to hold the bond for two years to insure

that the work was done in accordance with the ordinance.

If defects such as dusting, pop-outs, cracking, discoloration or blisters appear within 24 months after the concrete is laid, the ordinance empowered the city to require the builder to repair the concrete at his own expense.

The ordinance also allowed a city building inspector to halt work at a construction site if a contractor is observed laying concrete in a manner contrary to the provisions of the ordinance.

Builders filed suit on the basis that the ordinance was "arbitrary, discriminatory and unreasonable."

The suit maintains that the ordinance presumes the builder is guilty when defects occur in concrete work. "It illegally and unconstitutionally destroys the presumption of innocence and shifts the burden of proof to the builder," they argued.

They also argued that the requirement that a bond be posted is excessive and discourages building in Novi.

Anti-millage campaign unsuccessful

Despite a last-minute anti-millage campaign which apparently was mounted the weekend preceding the March 31 millage renewal election, the Novi School District's request for the renewal of 10.5 mills was overwhelmingly approved by voters. Official election results show that voters supported the millage renewal by a 63-37 percent margin. Some 1,555 of the 8,029 registered voters in the school district — 20 percent — made it to the polls.

Schools propose new administrative post

A half-time administrative position should be created at Novi Middle School South; a non-professional student monitor is needed at Novi High School; and one teaching position should be eliminated at the elementary level, according to the Novi Schools administration. Novi school board members, who reviewed the staffing recommendation for the 1981-82 school year last Thursday, will be asked to approve the administrative recommendations at their April 22 meeting.

Renewal supported

Lakes subdivision could not be confirmed by the Nov. 3 election. School officials hastily distributed a counter-offensive by mounting literature near the polls. They reported to become aware of the opposition at about 10:30 a.m. the day of the election. Their efforts appeared unnecessary, however, since voters favoring the millage renewal were the ones who made it to the polls.

Incumbents unopposed in school board contest

Incumbent Novi School Board members Sharon Pelchat and Joan Daley won't have to work very hard to win re-election to their seats in the June 8 election. In fact, they probably won't have to do any work at all.

Projects such as the so-called "super sewer" project would be affected if the Reagan administration gets the cuts in the Environmental Protection Agency (EPA) budget that it has proposed. Officials from both the EPA and the Michigan Department of Natural Resources (DNR) say that if the budget cuts proposed by the president are approved by the U.S. legislature, there would be an impact on super sewer, formally known as the Huron Valley waste water control system.

Reagan cuts threaten super sewer plans

Through proposed revisions to the Clean Water Act, one-half of a \$2.3 billion annual budget has been reallocated to be cut. Sutfin said, "That means a significant reduction of currently available funds." Even more drastic is the proposal that no funds be allocated in 1982, unless Congress agrees to revise the legislation which details the sewer construction projects that will be grant eligible.

Coogan bound over to circuit court

Wixom Developer Edward Coogan has been bound over to Oakland County Circuit Court to stand trial on charges of burning insured property. In deciding that Coogan should stand trial on the charges, 52nd District Court Judge Martin Boyle ruled Monday that there was sufficient evidence to believe that a crime had been committed and that there was probable cause to believe it had been committed by the defendant. "Burning insured property" is a felony which carries a maximum penalty of 10 years imprisonment.

Is rising crime rate endangering Commerce?

(EDITOR'S NOTE: Commerce Township's police protection has become an increasingly controversial subject among township officials, county deputies and the people. In this first part of the News' series 'How safe is Commerce Township?' Walled Lake Editor Stephen Cvangros looks at the growing criminal activities.)

Americans that watched Vietnam on the nightly news during the past decade could easily have identified the object as a warfare rifle—an A-15 to be exact, the legally-equivalent sister to the U.S. Defense Department's M-16.

The A-16s sold in American gun shops are legal, primarily because they are semi-automatic, firing one shot every time the trigger is pulled, unlike the deadly M-16, which delivers 500 rounds per minute.

Of that area of concern alone. "The guy we confiscated this from felt at ease practicing with it in this backyard and that's pretty serious."

By STEPHEN CVANGROS

It was a black ominous skeleton that sat on Sergeant Mark Goodrich's desk. For all intents and purposes, it felt like a kid's toy — lightweight with a handle on top for easy carrying.

The weapon lying between Goodrich's papers and addresses, telephone and asstayed in Commerce Township's sub-station had been picked up only the day before from a nearby home — after deputies had been tipped off that someone was conducting target practice in their backyard with an illegally-converted A-15.

Continued on 7-A

Commerce group upset over rehab

Citing nearly a dozen problems they encountered with the Wolverine Lake Village lake rehabilitation project, members of the Commerce Lakes Study Committee have asked the Department of Natural Resources (DNR) to "take action" on several aspects of the project before a second drawdown, tentatively slated for September, occurs.

Jardine and Robert McFarlane, head of the group, contend efforts to work out compromises with the village failed because village officials and project engineers "ignored or nullified" safety concerns previously agreed upon.

By KAREN RICE

The Oak Island bridge, one of the most successful programs going in Wolverine Lake right now, is nearing completion.

Residents of Oak Island, who had long been nervous about driving over the rickety structure that once was the island's link to village streets.

Receiving letters about complaints against the Wolverine Lake Village lake rehabilitation — like the recent notice sent by the Commerce Lakes Study Committee — is nothing new to either the village council or the water-team, an active citizens' group that monitors the lake and regularly receives copies of such letters.

Village team wants action on complaints

Since the village officially began the project in August, officials have frequently been questioned by the Commerce group, the Department of Natural Resources, the Army Corps of Engineers and even Michigan United Conservation Clubs — all of whom want information about the lake project.

Usually, complaints are referred to Snell Environmental Group, project engineers, who are asked to respond to the items. At that point, however, the issues seem to vanish.

But according to members of the village water team, questions about the status of the project they raised as early as January still have not been answered to their satisfaction.

# Window peeper spotted in Wixom

**In Wixom**  
Wixom police are investigating a suspect believed to be involved in a window peeping incident that reportedly took place about 10:30 p.m. April 2.  
A resident of a house on North Wixom Road told officers her sister, 20, had been undressing in the northwest bedroom of the home when she saw a man with dark hair looking in the window.  
Police believe the man took a ladder from the rear of the house, leaned it against the building and peered through the window, then put the ladder back in a different spot.  
The individual reporting the incident told police:

He saw the man several minutes later standing on the driveway of a nearby house where he apparently lives.  
A boy's blue Mongoose bicycle and a boy's motocross bike were allegedly stolen from separate residences recently.  
The Mongoose bicycle, worth \$209, was evidently removed from behind a house on Pontiac Trail between 7:30 p.m. April 3 and 8 a.m. April 4. The bike had been stored between two girls' bikes in the garage, according to the owner.  
The motocross bike, valued at \$300, was allegedly stolen from a home on Windingway where it had been stored in a closed garage at 10 p.m. March 31. The bike was discovered missing at 8 a.m. April 4.

Stereo equipment and a Gresch guitar were allegedly stolen during a breaking and entering of an apartment at the Village Apartments complex March 30 between 9:15 a.m. and 10:50 a.m., police said.  
The door to the apartment had apparently been kicked in, said officers. Reported missing were a Sanyo amplifier, receiver and tape cassette deck, and the guitar.

Two juveniles have been arrested in connection with the breaking and entering of a home in the 1000 block of Paramount which was reported to police on March 26. Police subsequently recovered the items allegedly stolen from the home in a shed in the 1000 block of East Lake Drive.  
Police said they were alerted to the possibility of a break-in in the neighborhood by an anonymous phone call and later received a call from a homeowner in the same general area who reported that his residence had been entered while he was away for four days.  
Taken in the break-in were a television, stereo system with an AM-FM receiver and speakers, a set of silver, a .22 caliber revolver, a 22 long rifle, a hurricane lamp, a wall rack, a wooden clock, three sweaters, Corningware dishes, 16 pieces of flatware, a toaster and a can opener.  
Police said it appeared as if the home had been entered through a kitchen window.  
Officers also observed that the back door had been broken and said the broken glass appeared to have been burned. Burn marks also were found on the wooden door frame and around the dead bolt lock, police said.  
All the rooms in the home had been disturbed by the intruders, police said.  
While the home was being checked by one officer, another officer was dispatched to the scene of the break-in which had been reported by the anonymous caller.  
They found that home also had been broken into.  
Police said they subsequently met two suspects who admitted involvement in the break-in and implicated a third youth in the break-in.  
A 16-year-old youth and a 14-year-old were ar-

rested and petitioned into juvenile court.  
The matter still is under investigation.  
A Highland Township man told police that he was accused by two other men while trying to enter Twelve Oaks Mall on March 26.  
The 24-year-old man said he was approached by two men in a Camaro as he was walking into the mall. One of the men got out of the car and accused him of making obscene gestures at them. The complainant told police that he denied the charge and continued to walk into the mall.  
The two suspects allegedly followed him into the mall and attempted to confront him. He said he was able to avoid them by ducking into a store and requesting help from security personnel.  
The suspects were last observed leaving the parking lot in their automobile.  
Thieves made off with \$956 in golfing equipment from a 1978 Chevrolet which had been left unattended in the 2000 block of Woolsey after it had broken down.  
A bat, car set and golf clubs were stolen by thieves who broke into the trunk of the abandoned vehicle.

### CITY OF NOVI HEARING ON PROPOSED USE OF REVENUE SHARING FUNDS

The City of Novi will hold a public hearing at the City Offices, 45225 W. Ten Mile Road, Novi, Michigan, on Monday, April 20, 1981, at 4:00 p.m. for the purpose of obtaining written and oral comments from the public on the proposed uses of revenue sharing funds in the upcoming budget for the fiscal year 1981-82.

All interested citizens, groups, senior citizens and senior citizen organizations are encouraged to attend the hearing. Persons attending the hearing shall have the right to provide written and oral comments and suggestions regarding possible uses of revenue sharing funds.

Following is important planning information for the proposed use hearing:  
The amount of revenue sharing funds expected to be received during the upcoming fiscal year is \$22,800.00. There is \$175,000.00 to be carried over from the previous year.

Geraldine Stipp, City Clerk

# Is the rising crime rate endangering Commerce?

Continued from Walled Lake, 1

• **RAPES** jumped 55 percent with 15-20 percent increases in 1979 and 1980.  
• **MURDER** which represents one or two cases a year showed a 42 percent increase.  
• **ACCIDENTS** represented the one hopeful point rising only 32 percent, much of that increase being attributed to greater population and traffic numbers.  
• **TOTAL CALLS** jumped 104 percent.  
  
Between citizens' and deputies' safety, Goodrich thinks Commerce Township has a problem. Commerce Township has a problem. Since 1975, personnel within the sub-station has not increased. Oakland County has maintained nine officers in the township quarters in accordance with their own safety specifications. Commerce Township, which financed five officers in '75, increased its support last year and now pays for six officers. But Goodrich and nationally-recognized standards agree — that's just not enough protection for more than 18,000 people.  
"With the kind of problems we're having — something's going to happen," Goodrich predicted. As a parallel, the sergeant pointed out that Michigan State Police require two-man cars from dusk to dawn.  
"We're riding one-man cars," Goodrich said of the same time period for deputies in the township.  
Commerce Township, Supervisor Robert Long has proposed a special assessment district to be investigated to add one officer during the next year in the township's business district, a primary target area of criminal activity.  
But Goodrich claimed one officer over the next 365 days just won't be good enough.  
"It's not going to wait a year," he observed. "Something's going to give here."  
  
(Next week: More on Commerce's crime problems, failure to complete more thorough follow-up reports and Goodrich's solution to personnel numbers.)

23-226-008	23-251-015	23-426-012	

TAKE NOTICE that a special assessment roll has been prepared for the purpose of defraying the special assessment district's share of the cost of the following described public improvement:  
The Construction of 20 lineal feet of 8 inch diameter water main, 4,820 lineal feet of 12 inch diameter water main, 4,010 lineal feet of 18 inch diameter water main, all valving and hydrant connections and all other necessary appurtenances. Said Mains to be installed on Grand River between Novi Road and a point approximately 1,150 feet east of Meadowbrook Road and on Meadowbrook Road from 11 Mile Road, South to a point 1,800 feet South of Grand River.  
  
The said special assessment roll is on file for public examination with the City Clerk and any objections to said special assessment roll shall be made in writing prior to the close of the hearing to review said special assessment roll.  
  
TAKE FURTHER NOTICE that the City Council and the City Assessor will meet at the Novi Public Library, 45245 West Ten Mile Road in the City of Novi at 8 o'clock p.m., Prevaling Eastern Time, on Monday, April 20, 1981, for the purpose of reviewing said special assessment roll.  
  
Geraldine Stipp, City Clerk

# Study committee asks DNR to look at project

Continued from Walled Lake, 1

until the permit was in hand.  
The DNR requested an assessment of the dam structure and its safety by the end of January. The village has been unable to work out an agreement with owners of the earthen wings of the dam, where repairs need to be made, and has not yet submitted a status report.  
The Commerce group charges "the administration of this program has been irresponsible and arbitrary... The foregoing enumerated problems explain why we are asking the DNR to regularly inspect and rigidly enforce all permit specifications during the proposed drawdown this fall."  
The incidents cited by the Commerce Lakes Study Committee may sound like minor difficulties to people who don't live downstream, but the study committee say they are simply interested in providing safeguards for their own lake and property. And there are indications that their worries about the handling of the project are on the minds of some Wolverine Lake residents.  
At a recent Wolverine water team meeting, chairman Jim Donahue noted, "Speaking as an individual, I personally know most of the stuff in this letter is true. These folks have a legitimate complaint, if you will. They haven't been treated very well in my opinion."  
The water team has decided to ask the village council Monday (April 13) to direct the lake board to respond to the Commerce group's letter as quickly as possible. Because the lake board officially hired Snell engineers for the project, the water team feels they should require the engineers to provide answers to the committee's questions.  
  
The settlement negates the need to go to binding arbitration, a threat which had loomed over the talks even when negotiations were in the stages.  
"Talks faltered in April last year and both sides went to a mediator in an attempt to reach a new contract.  
In January, after seven unsuccessful mediation sessions, the city and the NPOA agreed that the contract should be settled by an arbitrator.

### WHY PRE-PLAN YOUR FUNERAL NOW?

Here's why—  
**FREEZE FUNERAL COSTS FOREVER**  
Funeral charges are frozen at TODAY'S PRICES. Protect against tomorrow's higher prices.

**GUARD AGAINST INFLATION**  
Who knows what where inflation will end? An inflation-protected funeral pre-paid plan holds today's prices.

**SAVE—AS YOU SPECIFY**  
Guard against over-spending. Specify only what you wish to spend.

**PREVENT FAMILY PROBLEMS**  
Save them the burdens of decision during times of stress.

**GET PEACE OF MIND**  
You don't have to pre-plan your funeral—but it's a good feeling knowing it's done and your family won't have to worry.

**PUBLIC AID EXEMPTIONS**  
If you ever plan on public aid or supplemental Social Security, set up your funeral pre-paid plan IN ADVANCE, so as to be claimed at least partially exempt. See us for details.

**WILL FUNERAL HOMES**  
REDFORD 2540 Plymouth 46219  
LIVONIA 3700 Six Mile Road 46152  
James H. Will 937-3670

**38% CALCIUM CHLORIDE**

Sealed proposals will be received by the City of Novi at the office of the City Clerk, 45225 West Ten Mile, Novi, Michigan up to 2:00 p.m. on Wednesday, April 15th, 1981 at which time and place all proposals will be publicly opened and read for furnishing the following material and application thereof:  
**38% CALCIUM CHLORIDE (for gravel roads)**

Proposal blanks and specifications required may be obtained at the office of the City Clerk in the Novi City Hall.  
All proposals are to be in sealed envelopes plainly marked as "CALCIUM CHLORIDE BID" and must bear the name of the bidder.  
Geraldine Stipp, City Clerk

### REGISTRATION NOTICE

FOR  
**SPECIAL STATEWIDE ELECTION**  
**TUESDAY, MAY 19, 1981**

To the Qualified Electors of All Precincts  
CITY OF WALLED LAKE COUNTY OF OAKLAND, STATE OF MICHIGAN

Notice is hereby given that in conformity with the "Michigan Election Law", the undersigned Clerk, will upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Township, City or Village not already registered who may APPLY TO ME PERSONALLY for such registration.

TO VOTE ON THE FOLLOWING PROPOSITION:

PROPOSAL A  
PROPOSAL TO REDUCE PROPERTY TAXES, REDUCE CITY INCOME TAXES, LIMIT GROWTH OF PROPERTY TAX REVENUES, RETURN ADDITIONAL SALES TAX TO LOCAL GOVERNMENTS AND SCHOOLS AND GIVE STATE LOTTERY PROFITS TO SCHOOL AID FUND. The proposed amendment would:

- Reduce by 50% homestead property taxes used for operating schools and local governments. Reduction limited to \$1,400.00 in 1981 and changed yearly as home values change.
- Reduce by 50% local individual income taxes on first \$40,000 of taxable income.
- Make state return to local governments all funds lost by above reductions.
- Limit yearly property tax revenue growth to 8% by property type unless raised by local voters.
- Raise sales tax from 4% to 5.5%. Raise must be returned to local governments and schools.
- Let farms and forests be assessed at user value.
- Give state lottery profits to school aid fund.

SHOULD THIS AMENDMENT BE ADOPTED?

ALSO ANY ADDITIONAL AMENDMENTS OR PROPOSITIONS THAT MAY BE SUBMITTED

**NOTICE IS HEREBY GIVEN THAT I WILL BE AT MY OFFICE**  
April 20, 1981 — Last Day  
From 8 o'clock a.m. until 8 o'clock p.m.

The 30th day preceding said Election

As provided by Section 498, Act No. 116, Public Acts of 1954 As Amended  
For the purposes of REVIEWING the REGISTRATION and REGISTERING such of the qualified electors in said TOWNSHIP, CITY or VILLAGE as SHALL PROPERLY apply therefor.  
The name of no person but an ACTUAL RESIDENT of the precinct at the time of registration and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.  
Dated 4-3-81  
Ruby Lewandowski, Clerk

As We See It

Election results are tribute to district

Everyone associated with the Novi Schools — from administrators to board members to members of the community as a whole — have a right to feel proud about the success of the recent millage election.

Further, it also speaks well of the manner in which the school district went about the task of securing support for renewal of the expiring millage.

Voters turned out at the polls last week to approve the renewal of 10.5 mills for operations by a substantial 63 to 37 percent margin.

The decision to request renewal of 10.5 mills was made not by the administrator or the school board, but instead was made by a special Millage Requirement Committee composed of interested citizens as well as members of the school board.

The committee made a thorough investigation of the district's financial needs and submitted its recommendations to the school board for approval.

Superintendent Robert Pivko attributed the successful millage campaign to the fact that Novi residents have "always been supportive of the system and been willing to make the financial commitment necessary to maintain the fine educational program that presently exists."

Although school officials said they had received a favorable response from citizens while explaining the proposal prior to the election, the rather comfortable margin by which the renewal was approved came as something of a surprise during these difficult economic times when tax protests are becoming more and more prevalent.

It is indeed a poor attorney who can't get the words "arbitrary and capricious" into a lawsuit. But it's even better when you charge the defendant with being "utterly and completely unreasonable, unconstitutional, confiscatory, inequitable, illegal, and acting contrary to the rights" of the plaintiffs, who after all that, "respectfully" demands judgement.

The success of the renewal campaign speaks well of the manner in which the Novi Schools are being operated and of the confidence that the general public has in its school board members and administrators.

Can we only endorse the superintendent's comments and express a feeling of pride in being associated with a community which recognizes the importance of a strong educational system — even when the state of the economy leaves much to be desired.

Thinking out loud

By KATHY JENNINGS

It has been said that "words about words go on forever." When you think about it, that nearly defines what journalism is. Writing words about other people's words, which frequently seem to go on forever.

Probably the most obvious example is school administrators. Listen closely to Novi Superintendent Robert Pivko and you will find that school administrators do not talk at work sessions — they "generate data."

Consider the student who could soon be faced with one of the school district's goals: Societal Membership. To be successful at societal membership, one objective a student should achieve is to "acquire process skills necessary to make well informed differentiated alternative choices based on value systems and reasonable perception of self and society."

In the world of the police report, there are no people. There are "complainants," subjects, juveniles and "responsibles," but no people.

Imagine if you will: "the exterior window was broken by unknown responsible using unknown type missiles." It was written by a Novi police officer who shall remain unknown for his sake.

Engineering reports are another puzzle. They come out: "Following discussion of the above-referenced subject at the February 2, 1981 council meeting engendered by a report prepared by the undersigned and dated January 30, 1981, we were directed by council to conduct a more detailed investigation relating to the conditions of the subject street pavement. Because of the recent winter thaw, we have been able to do so."

Then there are attorneys. It is indeed a poor attorney who can't get the words "arbitrary and capricious" into a lawsuit. But it's even better when you charge the defendant with being "utterly and completely unreasonable, unconstitutional, confiscatory, inequitable, illegal, and acting contrary to the rights" of the plaintiffs, who after all that, "respectfully" demands judgement.

Novi City Attorney David Fried has never said it across the council table exactly like that. However, once he did tell the council that he "would be hard pressed to suggest we might prevail in an action brought against us with regards to the rezoning of this property, which is not to say that we wouldn't prevail, but I'm not sure we wouldn't have to stretch it to prevail." It was late in the evening.

Novi schools eye revision to organizational chart

An administrative chart which, according to Superintendent Robert Pivko, is designed to more accurately reflect the existing chain of command in the Novi Schools is being reviewed by the Novi Board of Education.

Questions regarding the new administrative chart were raised at last week's board meeting by Zae Alley, the Executive Director of the Farmington-Novi Coordinating Council for the Michigan Education Association.

Citizens initiate senator's recall

organized separate from CURB because of the non-profit organization's prohibition by state election laws from conducting a recall campaign.

Polynesia and the south Pacific are coming to Novi's Puert Auditorium this Sunday at 3 p.m. in the form of a travelogue film sponsored by the Novi Lions Club.

Novi Lions sponsor travel film

Breathtaking underwater coral garden scenes are among the island features filmed in Denn's movie. Other highlights include Copra processing, tapa cloth making and the legends of the south Pacific and the Tambu dance of fire.

Notice of Special Assessment Hearing

TAKE NOTICE that the City Council of the City of Novi, Oakland County, Michigan, has determined it to be necessary to make the following described public improvements in the City of Novi:

- 15-328-002 15-351-013 15-377-011
15-328-003 15-351-014 15-377-001
15-328-004 15-351-016 15-378-002
15-328-005 15-351-024 15-378-003
15-328-006 15-351-025 15-378-004
15-328-008 15-378-008 15-378-008
15-351-001 15-378-009 15-378-009
15-351-002 15-378-010 15-451-001
15-351-003 15-378-012 15-451-002
15-351-004 15-378-013 15-452-001
15-351-005 15-378-015 15-451-028
15-351-006 15-378-016 15-451-029
15-351-007 15-377-001 15-451-030
15-351-008 15-377-003 15-451-031
15-351-009 15-377-004 15-451-032
15-351-011 15-377-005 15-451-033
15-351-012 15-377-010 15-451-034

TAKE FURTHER NOTICE that the City Council has caused reports concerning said public improvements to be prepared, which reports include preliminary plans, profiles, specifications and estimates of cost of such public improvement, a description of the assessment district and other pertinent information, and these reports are on file in the office of the City Clerk and public examination.

Ill-advised proposal

Wixom's City Council has wisely rejected a proposal to begin construction of two miles of bike trails this spring.

However, to jump headlong into a program that could conceivably cost an estimated \$120,000 without examining its effects on the budget for the current fiscal year as well as the upcoming fiscal year is to invite trouble.

The proposal was submitted by Council Member Sidney Resner at the last council meeting. A longtime supporter of bike trails in the city, Resner's proposal apparently was prompted by frustration over what he believes has been administrative foot-dragging in implementing a citywide system of bike trails.

State and county officials have indicated that Wixom will have to begin improvements to its water distribution system this year. And, no one at this point is exactly sure how the tax proposal on the May 19 ballot will affect local units of government if approved by voters.

Although Resner's frustration is understandable, the proposal to move forward with construction of bike trails without proper planning does not make good sense.

It's entirely possible that Wixom will need its fund equity for more pressing needs than construction of bike trails.

Police Chief Philip Leonard, another advocate of bike trails, noted that there are legal considerations which must be addressed before efforts are made to begin construction of a citywide system.

Resner is usually a cautious individual who exercises a great deal of responsibility in budgetary matters. It may be possible that his proposal to proceed with construction of bike trails was designed to alert administrators that he wants to see action on the project sooner than later.

John Momberg, chairman of the city's parks and recreation commission, noted that he and Officer Alan Blasfield of the police department will be attending a special seminar on bike trails at Northwestern University in May.

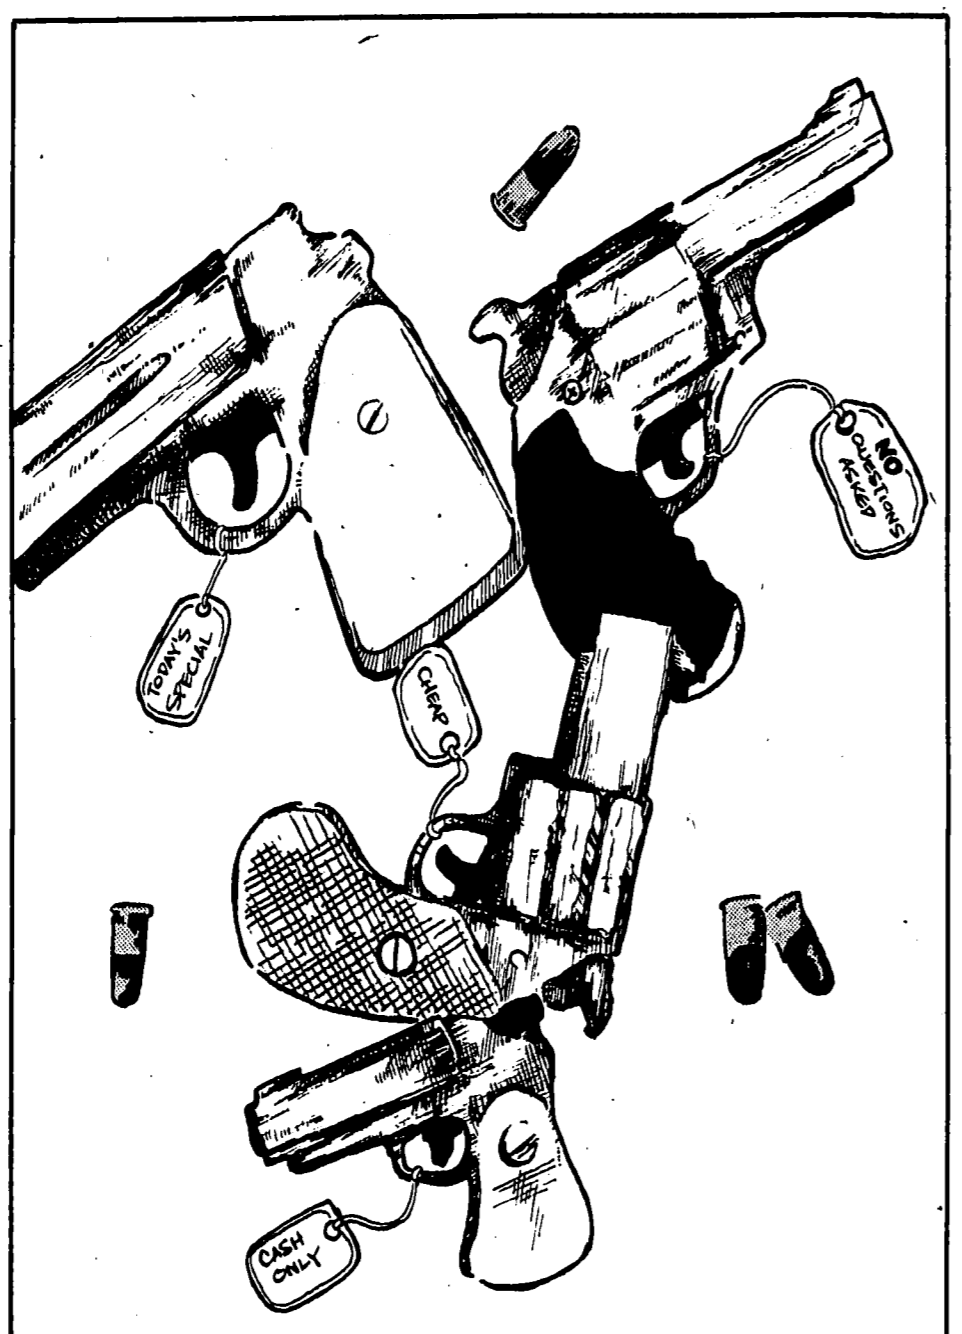

If that was, in fact, the message it should be properly noted. In the meantime, the council was correct in holding off on the project until studies have been completed.

What was not mentioned was the possible financial ramifications of proceeding with construction of bike trails. Resner noted correctly that the city has suffi-

Between the Lines . . .

By STEPHEN CVENGROS

JACK W. HOFFMAN'S COLUMN

Saturday Night Fever

Having played the role six times, I can appreciate the importance and the personal pride of parents in announcing the birth of a son or daughter.

But our age-old tradition of publicizing the baby's weight — right down to the ounce — always has baffled me. It's almost as if we're introducing the baby to the prizefight crowd.

Think about it. Why is the weight of the baby so important that we publicize it? If by weight we are attempting to describe the baby's health why not come right out and say the baby is healthy or unhealthy? Or is weight a way of describing the ease or difficulty of birth?

What about length? Isn't that as important? Frankly, I've always taken pride in the fact that my own debut, according to the doctor's slip of the pen, was the longest in the annals of single birthing. Now there's something to write about: a six-pound, 31-inch wonder record! And they didn't even give me a prize.

The fact that I was born on the kitchen table is just as noteworthy. It probably accounts for my weight. I can't push myself away from my birthplace.

And why do we say a baby is "fat and bouncy" or "fat and sassy" to describe good health. Are skinny babies less healthy? Be honest, have you ever seen a bouncing infant? Most babies I've known don't become sassy until they enter junior high.

And as long as we're being honest, have you ever seen a newborn baby that really "looks exact like you"? There may have been similarities in color of hair, baldness, or temperament but not once in six experiences could I honestly say, "Yes, I can see the likeness." Even now, looking at our baby pictures, I can't tell one from another. It's easier to distinguish feet prints.

Let's face it, the only weight of importance to the new mother is her own. And if the mother of our children is typical, the only meaningful statistic to mothers as they fondle their babies for the first time is the number of fingers and toes they count.

# Village water team asks for answers

Continued from Walled Lake, 1

Water team members have their own set of complaints with the handling of the lake cleanup. Chief on the list is their frustration over the lack of information they have received from whoever is administering the project. "We don't really know who is in charge of everything," said one water team member. "Whoever it is, isn't saying."

Village Administrator Bill O'Brien. In fact, decisions made by the lake board stem from recommendations made by the council, which the lake board consults for before taking action. The lake board only meets when a meeting is requested because action has to be taken; sometimes more than a month elapses before the panel meets. And because the lake board is made up of representatives of the Oakland County Drain Commissioner's office, the DNR, the county commissioner's office and the village, its members apparently do not have the time or inclination to get more involved.

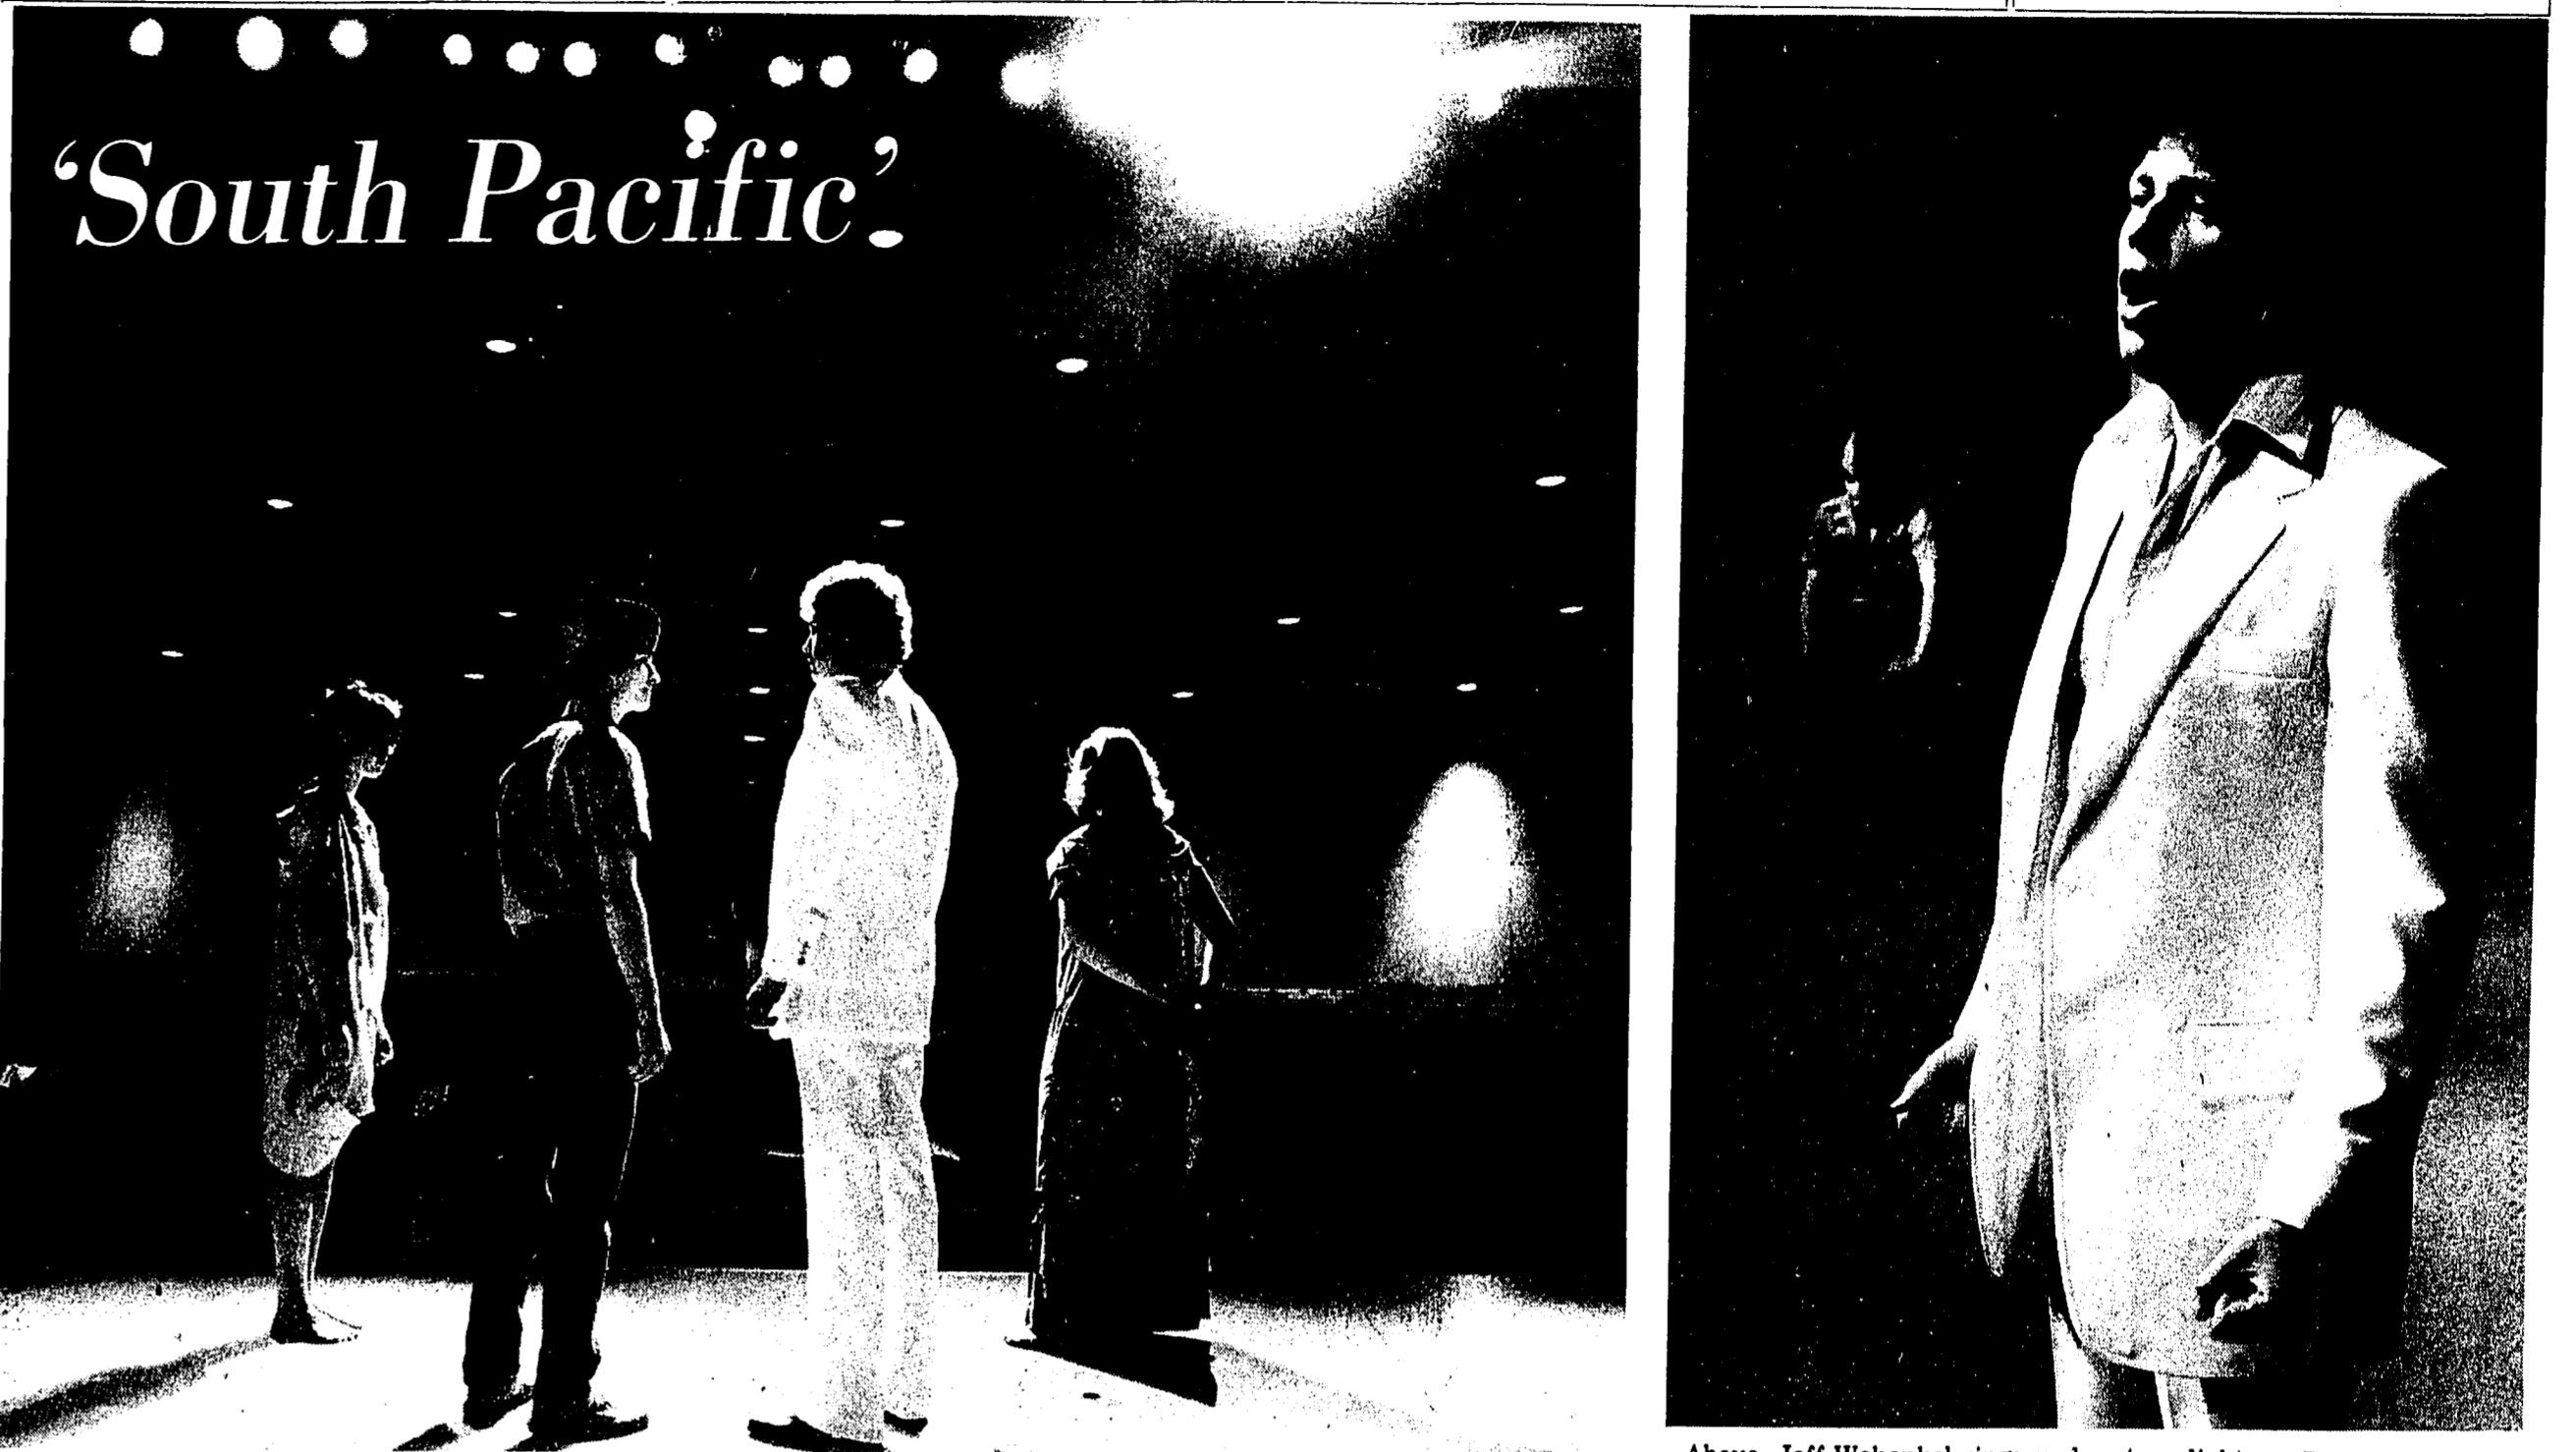

That means that the process of making recommendations to council to make to the lake board to make to engineers can take weeks or even months. In a separate statement, the water team plans to request council make a resolution to withhold payment to the contractors until all work has been done satisfactorily. O'Brien said 10 percent of the contract has been held back from payment as a routine precaution. But the water team also wants several points to be corrected or clarified by engineers. Braswell was not available for comment.

biems before they carry over into the next drawdown. According to O'Brien, the matter has already been referred to Snell engineers. In a separate statement, the water team plans to request council make a resolution to withhold payment to the contractors until all work has been done satisfactorily. O'Brien said 10 percent of the contract has been held back from payment as a routine precaution. But the water team also wants several points to be corrected or clarified by engineers. Braswell was not available for comment.

## Hard work and talent combine for big success at Novi High

"Ball Ha'll I'll call you Any night, any day, In your heart you hear it call you— Come away, come away."

Months in the making, the Novi production of "South Pacific" has a large talented cast of veteran actors and actresses, as well as some exciting newcomers. Joyner explains that many of the singers in the show are members of her prize-winning choruses; "South Pacific" provides community residents an opportunity to see the talented students in a dramatic setting, she says. "South Pacific" provides great music, too, she says, such as "I'm Gonna Wash That Man Right Out of My Hair," and the haunting "Ball Ha'll."

In addition to offering a well-rehearsed cast and terrific story, "South Pacific" boasts many authentic costumes, thanks to a number of area veterans who lent their World War II uniforms to high school students. The cast plans to recognize those men and all area veterans who served in the armed forces during World War II in the south Pacific at each of the performances. However, the students have no way of knowing when veterans will be in the auditorium so Joyner asks all vets planning to attend the play — or members of veterans' families who know they'll be going and would like to surprise the former servicemen — to call her at the high school, 348-5155, so she can include them in the recognition ceremony.

Tickets for the performances, which are slated for 7:30 p.m. tomorrow (April 9) and 8 p.m. Friday and Saturday at the high school, are available for \$3 in advance or \$5.50 at the door. Senior citizens and children under 12 can pick up their tickets for \$2 each. There is no reserved seating, but the auditorium is large enough to accommodate more than 1,000 viewers.

## Retreat for an exercise weekend

Ready or not, spring is here and not far behind at all are the sweltering months of July and August. If thoughts of squeezing into a straitjacket bathing suit and waddling off to the beach upset your stomach, this is good time to develop some discipline and do something about it.

Those who've been considering such a drastic step will probably be thrilled to find out that Jody Adams wants to make it easy on out-of-shape women longing to feel and look svelte again, or for the first time.

She's not promising instant results, but by offering a Creative Fitness weekend at St. John's Seminary in June, she's hoping to help area women become familiar with exercising, better nutrition and simply being more healthy.

The retreat is the fifth Adams has organized and the second at the Plymouth facility on Five Mile at Sheldon Road. She has places for 85 women the weekend of June 5-7.

"You can relax, you can get away, you can have fun," Adams says of the retreat. "It's more than just exercising — it's a chance to participate in some things you've never had an opportunity to try before."

Agrees Lin Heller of South Lyon, who is helping organize the retreat: "The retreat provides an opportunity to introduce women to exercise, aerobics, Creative Fitness, racquetball and more. There aren't too many places where they are all available at one time."

Some of the forms of recreation women on the retreat will be able to try out are volleyball, racquetball, golf, tennis, hiking, softball and body toning with weights. Instructors also will be on hand to help novices.

And, of course, there will be several op-

portunities to participate in Adam's Creative Fitness classes, which are taught by her trained instructors in many area school systems, including Novi and Walled Lake. Creative Fitness is a self-development program that incorporates aerobics, yoga, gymnastics and body toning with weights, all performed to music, says Adams.

Earl and Dottie Allen will lead two seminars exploring using behavior modification as a means to improving health, she adds.

Other features of the retreat weekend include massages by professional masseuses, which are included in the \$85 price of the weekend, a presentation by Harriet Boyer entitled "5th Season," and a welcoming party Friday night.

Meals offered on the retreat will include fresh fruits, vegetables and wholesome main dishes.

"I hope this will give some women a chance to get in better touch with themselves," Adams explains. "By being physically stimulated, emotionally stimulated and spiritually stimulated, you just can't help but feel better about yourself."

Adams emphasizes the retreat is not designed to force women to run themselves ragged trying to keep up with others. She is particularly interested in helping women who have not had much experience with physical fitness, or women who have not been happy about the experiences they have had.

"There are many different facets of exercising," she says, "and you only do the exercises if you feel like it. It's a very relaxed atmosphere."

Reservations for the weekend should be in to Adams or Heller by May 15. For brochures or more information, call Adams, 348-2948; Heller, 437-2588; Linda Malberger, 685-2343; or Bobbi Lobbia, 349-3694.

New classes, old favorites

Spring is here, says community education brochure

Nobody is quite sure how Novi Community Education Director Clara Porter manages to keep coming up with all the new classes or where she finds such talented teachers, but she seems to have outside help in compiling listings for the spring brochure...

Lucille Andrews of Community Employment Services will be teaching a workshop covering filling out applications, interviewing techniques, career planning and role-playing. At only \$9, the class is an inexpensive and thorough way to prepare students for a difficult search for summer employment.

A new spring recreational schedule goes into effect April 27 and runs through June 3. Adult open gym is slated for Mondays from 7:30-9:30 p.m. Adult swim will be 9-10 p.m. Thursdays, and endurance swim is slated for 9-10 p.m. Wednesdays.

Porter wasn't content to run the spring classes solely on the merits of such favorites as Creative Fitness, craft classes, cooking with natural foods and dog obedience...

Classes worth noting also include a seminar on the arts and science of cartooning and animation, magic tricks for high school students and Breadmake for children.

Classes worth noting also include a seminar on the arts and science of cartooning and animation, magic tricks for high school students and Breadmake for children.

A Matter of Taste

By Maria Sarivalas Kokas, R. D.

It's time for all the good cooks in the world to stand up and be counted. But wait a minute. What makes you think you are good? Is it because your food is beautifully prepared? Does it taste better than anyone else's? Or do you always take care to preserve as many nutrients as possible?

removes a number of nutrients that are stored right under the skin. All the air that hits the food destroys vitamins, too. If you must peel a vegetable, add a little lemon to slow down the vitamin loss.

Although minerals like iron, calcium, potassium and phosphorus aren't affected by heat, they do dissolve in water. Since many of our minerals are found in vegetables, watch for over-boiling foods as a lost source of minerals as well as vegetables.

# Bands, orchestras to perform during 'Day of Music'

A "Day of Music" is slated to take place at the Walled Lake Western Auditorium this Saturday from 2:30 p.m. to 8 p.m. A number of area bands, orchestras and music groups will perform at the event, which is sponsored by the Western Band and Orchestra Boosters.

Among those to perform will be the Walled Lake Junior High concert band, Clifford Smart Junior High concert band and orchestra, Walled Lake Western bands and orchestra, Mazaroti and Freeway rock bands, St. William's Church folk singers and a handbell choir.

There is no admission for the day-long event. Refreshments will be available at the school.

**WALLED LAKE LIBRARY:** Librarians invite residents to visit the library this week. National Library Week. Donuts will be served and balloons and bookbags will be distributed all week long. Coffee and punch also will be served from 5-8 p.m. tomorrow (Thursday) at the library, which is open from 10 a.m. to 8 p.m.

**COMMUNITY NOTES**

film will be shown tonight (Wednesday) at 8 p.m.

Movies for youngsters are planned for this Saturday at 2 p.m. "The Red Balloon" and "From the Mixed-Up Files of Mrs. Basil E. Frankweiler," both based on prize-winning books, will be featured films.

No fines will be charged this week on overdue books in honor of National Library Week. For more information on library programs, call 624-2512.

"WIZARD OF OZ": Walled Lake Central students will be performing "The Wizard of Oz" all week long at Central's auditorium at 7:30 p.m. Tickets are \$3.50 and are moving quickly, according to chorus director Roger Longrie.

state requirements for child care, the spokesman said.

The center is located at 1816 South Commerce beside Light House Assembly of God Church in Walled Lake. Child care and refreshments will be provided.

All interested persons are invited to attend the opening meeting. Coffee and cake will be served.

**RICHARDSON CENTER:** Senior citizens can attend a picnic dinner, complete with floor show, at the Richardson Community Center on Thursday, April 23, from 4-9 p.m. Featured will be a free floor show of modern, old-time and square dancing by John DePauli. A \$1 donation is requested at the door.

The center will furnish ham and coffee. For reservations and information on what to bring to the picnic dinner, call Ellen at 624-2825 anytime between 9:30 a.m. and 2:30 p.m. Monday through Friday. Deadline for reservations is April 16.

**RUMMAGE SALE:** The Novi Senior Citizens are hosting a rummage and bake sale Saturday at the Novi Community Building on Novi Road. The sale will run from 9:30 a.m. to 5 p.m.

**LEAGUE OF VOTERS:** The Novi-Northville-Plymouth-Canton chapter of the League of Women Voters will hold its annual meeting at the Novi Public Library tomorrow (Thursday) at 7 p.m. New officers will be elected at that time and the meeting will be followed by a dessert and coffee.

**ALCOHOLICS ANONYMOUS:** The Novi Alcoholics Anonymous group will celebrate its 10th anniversary with an open meeting at the Holy Cross Episcopal Church next Monday (April 13) at 8:30 p.m.

# Groups slate visit from Easter bunny and egg hunt

The Easter bunny will visit egg hunters at the April 11 Easter egg hunt being sponsored by the Novi Jaycee Auxiliary and the Parks and Recreation Department. A magic show will follow the hunt. Call the parks and rec office, 349-1976, for more information.

Girls' softball registrations are now being accepted for girls 8-14 who would like to play this summer. Deadline to sign up is April 29. The registration fee of \$12 includes a shirt and hat.

The parks and rec department is looking for softball scorekeepers, lifeguards, summer playground leaders and other helpers for paying positions. Call the office for more information.

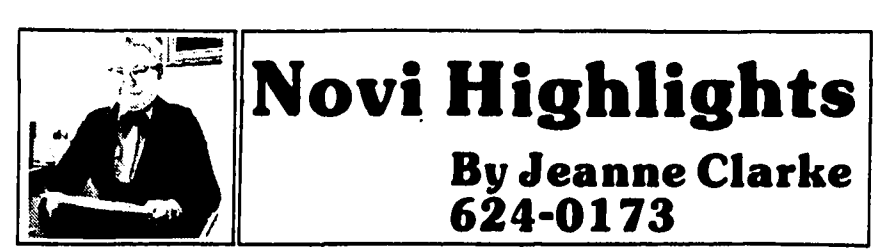

Watch for the spring brochure of parks and rec offerings the week of April 13. Many new programs are being offered for residents all areas, including archery, karate, lifeline spots and an inter-generational picnic.

**YOUTH ASSISTANCE:** Peter Karr, a Novi school psychologist for seven years, will lead a children's workshop on "Adjusting to Divorce" during May at Faith Community United Presbyterian Church. The workshop is sponsored by Novi Youth Assistance.

Karr, who has worked in education for more than 13 years, will talk about guilt, anger, sadness, mixed loyalties and other emotions youngsters experience when their parents break up.

Youngsters 8-12 are encouraged to sign up for the May 2 workshop and teens 13-17 are asked to attend the session on May 9. Both will run from 9 a.m. to noon. Reservations must be in by April 22 to NYA.

Cost of the workshop is \$3 per child or \$5 per family. For more information, call Pat Hinzy, 349-8398, or Henry Warren, 348-2072.

**Novi Highlights**  
By Jeanne Clarke  
624-0173

**REVEREND KEARNEY KIRKBY**, a former Eagle Scout, and Novi Jaycee President Ed Leininger were special speakers. Invocation was given by Reverend Richard Henderson, pastor of Faith Community United Presbyterian Church, where the award chairmen, welcomed guests.

Jim is the son of Norm and Evelyn Young of Novi, both of whom have been very active in the Novi Boy Scouts for a number of years.

The Scouts will be collecting bottles to be returned outside the A&P store on Ten Mile at Meadowbrook Road. Proceeds will be used for camping trips.

**PERSONALS:** Mr. and Mrs. David White of Cantonville have returned from a vacation in Florida where they saw the Tigers play in Lakeland, visited Busch Gardens and also spent time with former Novi resident Mrs. Myrza Ward, who now lives in New Port Richee, Florida.

Mr. and Mrs. Floyd Darling had their grandchildren, Tom and Terry Darling, as weekend guests.

Mr. and Mrs. Terry Domsadt have returned to their studies at Watertown Wisconsin after being in Novi to participate in the wedding of Jim Pearce and Robin Stipp recently.

Mrs. Domsadt is the former Denise Slipp.

Mr. and Mrs. Ray Warren have returned home after spending several months near Kissimmee and Bradenton in Florida. While there, they visited former resident Reverend Roy Grindell in St. Petersburg and the Lippert family in Seminole.

**WELCOME WAGON:** Dr. Helen Ditzhazy, administrative assistant of the Novi Schools, will be special speaker at the general meeting of the Welcome Wagon, Wednesday, April 22 at Novi Woods Elementary.

The Welcome Wagon cookbook has been printed and will be available at this meeting.

19091 Northville Rd. 348-1233

**Here's what's cooking for lunch**

The Novi schools are initiating a trial menu in the hot lunch program during April that will allow students at Orchard Hills and Village Oaks schools to choose one of two main dishes each day.

Next week, youngsters will be able to choose from the regular menu or take a hot dog on bun instead of the main serving. For the rest of this week, children will be able to select a piece of pizza.

Only the regular meal will be served to children at Novi Woods. Students in the Novi middle schools will be able to select the same meal or a separate entry.

Here's what's cooking for lunch next week in the Novi schools:

Thursday, April 9: Grilled cheese sandwich, corn, tossed salad, sliced peaches. At middle schools and Novi Woods: Pizza.

Friday, April 10: Baked fish portion with tartar sauce and roll, 101 potato sticks, mixed fruit, cinnamon pull-apart roll. At middle schools: Hot dog on bun and mixed vegetables.

Monday, April 13: Taco with cheese, lettuce and tomato, green peas, apple juice. At middle schools: Hot pork fritter on bun with sweet and sour sauce. Bonus: Peanut butter brownies.

Tuesday, April 14: Spaghetti with meat sauce and garlic bread, crisp vegetable sticks, fresh pear. At middle schools: Hot dog on bun with corn. Wednesday, April 15: Easter dinner: Oven-baked chicken with hillbilly roll, mashed potatoes, cranberry sauce, mixed fruit. At middle schools: Grilled cheese sandwich and peas. Bonus: Easter cake.

Thursday, April 16: Cook's choice.

Friday, April 18: Good Friday, no lunch.

Children whose parents are unemployed, receive ADC payments or welfare benefits, or have experienced a temporary loss of income may be eligible to receive free or reduced-price hot lunches. Parents who feel they qualify for the program are encouraged to contact the building principal at their child's school.

**Talk on tornados slated**

The season of severe thunderstorms and tornados is approaching, according to Paul Chinn, a spokesman for Novi REACT, a Novi-based emergency broad-coverage on the CB Channel 9 so that motorists in the area will be able to get help during an emergency at any hour of the day.

REACT is also involved in providing interstate highway "safety breaks" on Memorial Day and Labor Day weekends, helps out with activities sponsored by the Novi Jaycees, parks and recreation department and church system.

Novi REACT is a member of Combined Area Radio Task Force, a group of residents from the area involved in providing mutual support in case of disaster.

The REACT team meets the first Sunday each month at its headquarters, 25860 Novi Road. An open house is slated for Sunday afternoon from 2-5 p.m. to familiarize people with the organization, which monitors CB radios, among other things.

REACT's primary goal is to have 24-hour coverage on the CB Channel 9 so that motorists in the area will be able to get help during an emergency at any hour of the day.

REACT is also involved in providing interstate highway "safety breaks" on Memorial Day and Labor Day weekends, helps out with activities sponsored by the Novi Jaycees, parks and recreation department and church system.

Novi REACT is a member of Combined Area Radio Task Force, a group of residents from the area involved in providing mutual support in case of disaster.

The REACT team meets the first Sunday each month at its headquarters, 25860 Novi Road. An open house is slated for Sunday afternoon from 2-5 p.m. to familiarize people with the organization, which monitors CB radios, among other things.

REACT's primary goal is to have 24-hour coverage on the CB Channel 9 so that motorists in the area will be able to get help during an emergency at any hour of the day.

REACT is also involved in providing interstate highway "safety breaks" on Memorial Day and Labor Day weekends, helps out with activities sponsored by the Novi Jaycees, parks and recreation department and church system.

# STANDARD FEDERAL SAVINGS ANNOUNCES A NEW OFFICE IN NOVI

## New! Checking Accounts with Interest

Until now, you've never had interest paid on your checking account. But on January 1, 1981, you'll have the chance to take advantage of a brand new service from Standard Federal Savings — checking accounts with interest. In addition to providing savings accounts which pay the highest rate available on insured savings, Standard Federal also offers the opportunity to earn the highest interest allowed on your checking account.

These accounts will earn 5 1/4% annual interest — continuously compounded — adding interest every month to your account for an effective annual yield of 5.467%. This is the highest interest allowed on checking accounts.

You may open an account in any amount. However, with a minimum balance of \$500.00 OR an average daily balance of \$1,000.00, you may write all the checks you wish, with no monthly service charge. (A \$5.00 monthly fee is assessed if you go below the minimum or average requirements.)

- Each month you'll receive a detailed statement of your account which lists your checks in numerical order, your deposits, any service charges assessed and the interest earned during the statement period.
- Personalized checks are printed free of charge if you choose not to have your checks returned with your

monthly statement. There will be a charge for printing personalized checks if you wish to have your checks returned to you. With either option, you may select a style that provides a carbon copy of each check for your records.

- A permanent record of each check will be kept by Standard Federal Savings. If you need a copy for any reason, microfilm copies of as many as 25 checks per year (or all checks relating to an IRS audit) will be provided at no charge.

### SPECIAL NOTICE TO CUSTOMERS 62 YEARS OF AGE AND OLDER:

Customers 62 years of age and older who have direct deposit of social security or other retirement checks into any Standard Federal Savings account will pay no monthly service charge on their checking accounts.

**RIGHT NOW — receive a gift FREE or at big savings just for opening a new checking account with \$1,000.00 or more. Gifts are also available for opening a new account with \$1,000.00 or more at the Novi office.**

#### 26-Week Money Market Certificate\*

Minimum Balance \$10,000.00  
The interest rate is determined weekly and has three options for payment of interest; interest can be paid at maturity, or paid on the last day of each month and automatically transferred to a 5 1/4% regular savings account, or paid by check every month. Call (313) 643-9583 for the current rate.\*\*

#### 2 1/2-Year Money Market Certificate\*

Minimum Balance \$100.00  
The interest rate is determined bi-weekly and compounded continuously giving the highest return available on these accounts. Call (313) 643-9583 for the current rates.\*\*

#### Non-negotiable Savings Certificate\*

Minimum Balance \$1,000.00  
Terms range from 14 days to 5 years with interest rates quoted by Standard Federal Savings on a daily basis. Call (313) 643-9562 for current rates.

**Retirement Savings Account\*\***  
IRA is a personal, tax-sheltered retirement savings program. It is available for any working person who is not currently participating in a private or government retirement plan. The Keogh Plan, a tax-sheltered retirement plan for self-employed individuals, is also available.

\*Federal regulations require a substantial interest penalty for early withdrawal from certificate accounts and also prohibit the compounding of interest on 26-week money market certificates.  
\*\*The rate established at the time these accounts are opened is the rate in effect for the full term of the certificate.

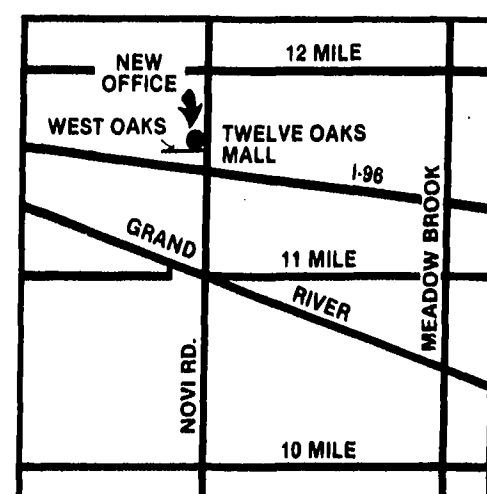

GIFT	DEPOSIT OF \$1,000 OR MORE	DEPOSIT OF \$5,000 OR MORE

## Norm Keating

### Pipe organ concert's Sunday

By MARILYN HERALD

In the early silent movie days, theater pipe organs like the "Lady Barton" at the Michigan Theatre in Ann Arbor played a most important role in producing the correct audience mood to coincide with the action on the screen.

The Lady Barton is still playing an important role today for lovers of organ music but her image has changed to reflect the times. She is now played for her concert sound and the screen is silent and blank.

Norman Keating of South Lyon, a professional organist, is one of the members of the Motor City Theatre Organ Society, a chapter of the American Theatre Organ Society, interested in the preservation of theater organs like the Lady Barton. A performer all his life, Keating will be presenting a lively program of pop tunes this Sunday when he makes his first public appearance at the Lady Barton.

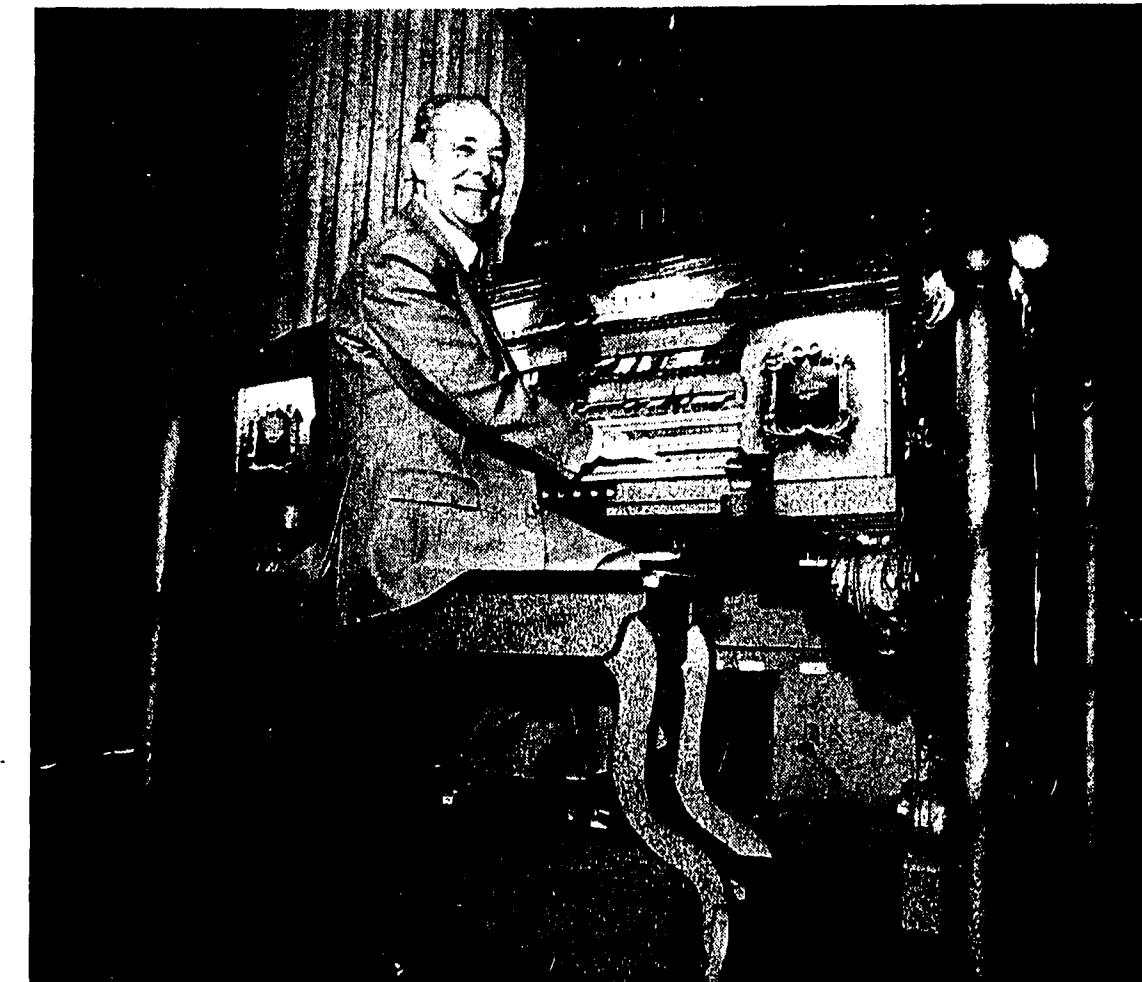

Melodies such as "The Entertainer," "April in Paris," "Mr. Lucky" and "Alley Cat" will flow from his talented fingers during the April 12 program which begins at 10 a.m. In addition, Keating plans to do some numbers reminiscent of the big band days, including "Up a Lazy River."

The free concerts are sponsored by the Motor City chapter on the second Sunday morning of each month and the public is invited to attend. The concerts last about two hours with a short intermission in the middle.

"People who have never heard a lively program on a pipe organ in a large theater have no idea what a fantastic sound is produced," Keating says. "It really is a thrilling experience and a good chance to meet some very friendly people."

Keating and his wife Erma began attending the monthly concerts at the Michigan about six months ago and went on to join the society in January of this year.

Keating notes that these organs require a lot of maintenance and this is done entirely by members of the society who donate their services. "It is all done for the love of the theater organ," Keating adds.

Norman Keating enjoys producing beautiful music on the "Lady Barton" organ at the Michigan Theatre

Similar concerts are also open to the public at the Royal Oak Theater, Redford Theater and the Punch and Judy Theater with two types of performers being heard at all locations. There are local organists who contribute their services and professional people who specialize in doing theater organ concerts all over the country.

The Michigan Theatre was purchased from the Butterfield Corporation by the Arts Council in order to preserve the fine historic building. The organ society owns and maintains the organ as it does in the other theaters

mentioned for the sheer love of the sounds they produce.

Keating and his wife are co-owners of Manor Music, an organ-lessons-by-mail business which they operate from their South Lyon area home.

A professional musician, who has been teaching organ for many years in studios, Keating found that producing lessons on tape and mailing them to subscribers allows him to teach more people to do what he does—enjoy producing that beautiful sound which comes only from a well-played organ.

## Poetry . . .

*A Sweet Song*  
The music flows like thoughts from the heart.  
Never ending, its done its part.  
To add to life the gift of love,  
Like that of Gods own Mourning dove.

Susie Skisko  
Age 13

*Flowers*  
Some are dark, Some are light,  
Some give a new shine to life.  
Flowers come, Flowers go,  
Flowers go, With all the beauty that they show,  
Flowers come from the heart of the earth,  
Symbols of elegance at their birth,  
When they die, they feel no pain,  
As all their beauty still remains.

Wednesday, April 8, 1981—SOUTH LYON HERALD—NORTHVILLE RECORD—WALLED LAKE-NOVI NEWS—THE MILFORD TIMES—3-C

**BEVERLY SIMONIAN**, a Northville area resident, has been appointed a salesperson with James C. Cutler Realty, 103 Rayson in Northville. The announcement of the appointment was made by owner James Cutler, who said "we're delighted to have Mrs. Simonian with our organization. We're confident she will provide clients with a combination of expertise and personal concern as she looks for just the right home for them or finds a buyer for their property."

The new salesperson, who resides in Meadowbrook Hills, has a background in interior design for both residential and commercial properties.

A member of Meadowbrook Country Club, she and her husband, Richard Simonian, have two children.

**PHILIP SKOVER** of Skover & Associates of Northville was honored Saturday as having sold more than \$4 million of real estate in 1980 - fifth highest accomplishment among members in the Western Wayne Oakland County Board of Realtors (WWOCCR).

Of the 400 honored for their sales achievements, Skover was beat out only by William J. Willis, Jr. of Mayfair Realty in Livonia, Nada Illich of Century 21-Nada, Inc. of Farmington, Janice Foster of Robert Bake Realtors in Plymouth, and Richard Messier of The Real Estate One Commercial Division in Southfield.

According to Robert D. Shimmim, president of WWOCCR, "The general distressed state of the real estate market throughout last year dropped our board's total sales volume nearly \$150 million compared to 1979. "The fact that nearly 300 of our members could still achieve more than \$1 million in listings and sales is a tribute to the dedicated service they provided buyers and sellers in our area."

He said the market is still slowed by high mortgage interest rates, high unemployment levels and an economy in recession.

"We know that there is a very strong demand for housing continuing to develop and we see great improvement in market conditions as the economy recovers," he said. "In the meantime, the success of our members is due to their ability to develop more creative financing methods for buyers and sellers."

CENTURY 21 Quality Homes Suburban has announced the promotion of Barbara Llewellyn to the position of sales manager.

The Northville real estate firm is located at 200 East Main.

Llewellyn resides at 21748 Connemara Drive with her husband, David, and two sons. She is actively involved in the community through the Northville Jaycee Auxiliary.

In her fifth year with Century 21, she received a special award from that organization for surpassing \$550,000 in closed business during the month of October, 1980. She also is a member of the United Northwest Realty Association's "Top Ten Percent Club," and will actively continue to list and sell real estate as she has in the past.

Owner John Light said, "We have great confidence in Barbara's capability. Her genuine concern for people, combined with her professionalism, will serve her well in her new capacity."

**BARBARA LLEWELLYN**

**SEVENTEEN LOCAL RESTAURANTS** will participate in the Oakland County Coffee Day Campaign which begins April 3 and runs through April 17.

The first successful Coffee Day was held in Oakland County 10 years ago. Since that time the Easter Seal Society Buck-A-Cup/Brace-A-Child campaign has gained wide acceptance from many area restaurants.

From April 3 through April 17, waiters and waitresses at participating restaurants will ask customers for a donation of \$1 or more for a Coffee Day button which will entitle the wearer to a free cup of coffee on Good Friday (April 17).

Participation in this worthwhile campaign will help support the many programs of services at the Easter Seal Society in Oakland County.

Area restaurants already participating in the program are:

- In Milford - Big Boy and Flame.
- In Novi - Big Boy-Novi Road, Big Boy-Twelve Oaks, Michael's, Mr. Naturals and Saratoga Trunk.
- In Union Lake - Big Boy, Coachlight, Dobski's, Little Brown Jug, Michael's, Morey's, Nugget and Sahara.
- In Walled Lake - Big Boy and Nugget.

**MOHINDRAPAL S. (PAUL) GILL** has been appointed product, business planning and sales manager of Ford Motor Company's Plastics, Paint and Vinyl Division, headquartered in Wixom. The Northville resident replaces H. Gregory Wold, recently named plant manager of the division's Mount Clemens plant.

Gill formerly was plant manager of the Milan Plastics Plant. He has been succeeded in that position by Raymond J. Rogal, previously plant manager of Ford Tractor's Basildon (England) Tractor Plant.

A native of Ludhiana, India, Gill holds bachelor's degrees in physics and chemistry from the University of Punjab in India and in mechanical engineering from Oklahoma State University and a master's degree in industrial engineering from Wayne State University. He joined Ford in 1964 as a project construction engineer with the Glass Division and later was a design engineer. After that, he held a series of manufacturing and plant engineering positions with Paint and Vinyl Operations, Glass Division and the Industrial and Chemical Division. He served briefly as chemical research and development manager at the Mount Clemens Vinyl Plant before being named plant manager in 1975.

In 1977, he was appointed executive engineer, Materials and Process Application Engineering, with the Plastics, Paint and Vinyl Division. He became plant manager in Milan in 1978. He lives with his wife Usha and three children in Northville.

**(PAUL) GILL**

**RAY'S LANDSCAPING AND NURSERY** of Walled Lake was one of eight landscaping firms in the state to be awarded a landscaping award for exceptional work during 1980 by the Michigan Association of Nurserymen. The Walled Lake company received the award during the association's annual meeting in Dearborn last month.

Ray's Landscaping won the prize for its work as contractor on a project at Sheffield Office Park in Troy. John Grissim and Associates of Farmington Hills prepared the design.

Albright (left) presents merit certificate to new associate Mark Trupiano

**MARK TRUPIANO**, is a new associate with Albright Photography Studio at 200 South Main in Northville.

He recently received his first merit toward a master of photography degree after finishing a summer session at Winona School of Professional Photography in the summer of 1980.

Trupiano will share all responsibilities at the studio, including portraits and print enhancement. He will specialize in copy and restoration work.

**ROBERT ZUCKERBERG**, owner of Robert Z Salon, was one of 15 area hairstylists who were invited to participate in the AmeriColor Press Show of 1981 at the Southfield Sheraton Hotel recently.

Attended by 500-800 top hairstylists from Michigan and surrounding states, AmeriColor is a professional association comprised of the country's leading professionals in the styling field.

Zuckerberg's participation in the show was a direct result of a presentation to the AmeriColor Association in March. Participation in the AmeriColor Press Show is considered a great compliment in the field of hairstyling.

Zuckerberg has been a stylist for six years and has owned his own salon since 1979. Robert Z Salon is located at 38493 Grand River in the Grand Market Square in Farmington Hills.

The concept of the salon is to fulfill the needs of our clients in a professional manner," said Zuckerberg. "We do this by working with our clients on a personal level instead of an assembly line type of atmosphere."

**LAWN MAN PROPRIETORSHIP SCHOOL** in Novi is an alternative to unemployment, according to Cary McCreedy, a former auto worker and now owner-operator of McCreedy Lawn Maintenance in Livonia.

Since graduating from the school, McCreedy said he is concentrating his business in Farmington, Livonia and Northville.

McCreedy specialized as a professional lawn man and offers service in 14 different areas which include mowing, edging, trimming, thatching, fertilizing and soil analysis. Besides professional lawn care techniques, the Lawn Man program teaches office procedure, bookkeeping, estimating, sales, public relations and equipment maintenance.

**JOHN A. CLARK**, Ph.D., University of Michigan professor and principal delegate to the 1982 International Heat Transfer Conference for the American Society of Mechanical Engineers (ASME), has joined the board of directors of Star Pak Solar Systems Company in Novi.

Star Pak is Michigan's largest solar installer, specializing in solar design, solar swimming pool heating, solar domestic water heating, solar space heating, heat recovery systems and wood-burning stoves.

Star Pak President Reynold Hendrickson said Clark is a member of the editorial advisory board of Solar Age Magazine and chairman of the City of Ann Arbor's energy steering committee. He was a senior editor of the 1978 ASME International Heat Transfer Conference and recently stepped down as president of the Central Solar Energy Research Corporation.

Clark received the 1978 ASME Heat Transfer Division Memorial Award and in 1956 was granted the group's Pi Tau Sigma Gold Medal Award. He holds a bachelor of science degree in mechanical engineering from University of Michigan, and master's and doctor's degrees in that field from Massachusetts Institute of Technology.

**THE LOLLIPOP SHOPPE**, a resale store for children's clothes, is now open for business at 128 West Walled Lake Drive in Walled Lake.

The store is owned by Julie Agar and Ida Sparks, two Walled Lake women who decided there was a need for a children's clothing resale shop through their personal experiences with raising and clothing families.

The Lollipop Shoppe sells children's clothing in sizes 0-14 in almost new condition at very reasonable prices.

In addition to selling used children's clothing, the Lollipop Shoppe owners also buy clothing on assignment for 50 percent commission. People who bring in used clothing for sale pay a \$5 registration fee which entitles them to bring in all they clothes they want for sale during a one-year period.

The Lollipop Shoppe is open from 10 a.m. to 6 p.m. on Tuesday and Wednesday, from 10 a.m. to 8 p.m. on Thursday and from 10 a.m. to 6 p.m. on Friday and Saturday.

**PAUL W. POTTER** of Novi has been named Oakland regional representative for Detroit Edison's community and governmental affairs department, according to Donald Pizimanti, assistant vice president of community and governmental affairs.

Potter succeeds Joseph Ford who has been promoted to director of municipal government affairs.

Potter joined Detroit Edison in 1964 and held a variety of posts in the real estate and rights-of-way area of the company before being named community and governmental affairs regional representative for the Ann Arbor Division in 1978.

In his new post, he will be responsible for the company's relationships with local government agencies throughout Oakland County.

A graduate of the University of Michigan's real estate program, Potter is active in the American Right-of-Way Association and serves on the Zoning Board of Appeals for the City of Novi and as a member of the board of the Novi Economic Development Corporation.

While in the Ann Arbor Division, he served as vice chairman of the Washtenaw County Community Service Agency and as a member of the Ann Arbor Underground Utilities Advisory Board. Potter and his wife Carol have two children.

PAUL POTTER

# Sports

## Novi eyes district title encore

Tinsley cites strong infield, though question marks exist

An adaptation of a legendary vaudeville routine is taking place at Novi High School these days.

Abbot and Costello's "Who's on First?" has become "who's on second?" in the Wildcat softball camp, but it's not necessarily a laughing matter for the defending district champions.

Novi Coach Jim Tinsley admitted as late as last Thursday that he's "not sure at all" who will be perched at that station when the team's season begins today (Wednesday).

"Our infield will be strong by the time I figure out who will be at second," the third-year skipper says. "I also think that our hitting will be a strong point."

The infield does look sound, with the exception of second base. Senior Marie Russell (just six errors last season) will anchor first base; fellow 12th-grader Carole Champney moves from second to shortstop, filling the hole left by graduated Lori Giorgio (221); and impressive sophomore prospect Sue Beckman ("good fielder, good bat and good arm") will hold down third.

As for hitting, no one on this year's team exactly terrorized enemy pitchers in 1980. But Tinsley is impressed with the batting prowess that his team has demonstrated thus far this spring, and says that he's counting on five of his players to swing particularly hot bats.

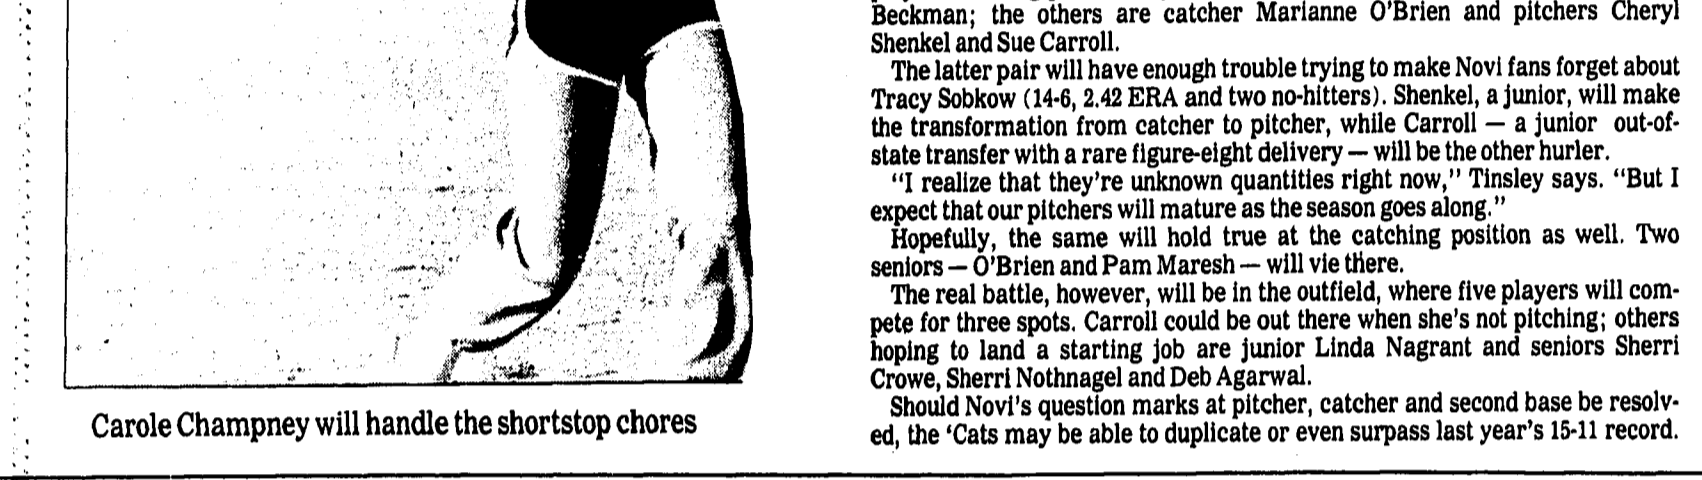

Two of that quintet are Champney and Beckman; the others are catcher Marianne O'Brien and pitchers Cheryl Shenkel and Sue Carroll.

The latter pair will have enough trouble trying to make Novi fans forget about Tracy Sobkow (14-6, 2.42 ERA and two no-hitters). Shenkel, a junior, will make the transformation from catcher to pitcher, while Carroll — a junior out-of-state transfer with a rare figure-eight delivery — will be the other hurler.

"I realize that they're unknown quantities right now," Tinsley says. "But I expect that our pitchers will mature as the season goes along."

Hopefully, the same will hold true at the catching position as well. Two seniors — O'Brien and Pam Wilcox — will be in the outfield, where five players will compete for three spots. Carroll could be out there when she's not pitching; others hoping to land a starting job are junior Linda Nagrant and seniors Sherril Crowe, Sherri Notnagel and Deb Agarwal.

Should Novi's question marks at pitcher, catcher and second base be resolved, the "Cats" may be able to duplicate or even surpass last year's 15-11 record.

Carole Champney will handle the shortstop chores

Young's thincads squeak to win	2
Warrior girl nine looks tough	3
Viking boy thincads tie	4
Undermanned Novi girls still win	5

Cheryl Shankel moves from catcher to pitcher

"The team's goal is to play up to our capabilities," the pilot says. "If we play as well as we should, everything should fall into place."

Novi will find out if that's the case beginning today (Wednesday) when it hosts Clarenceville at 4 p.m. The Wildcats will welcome Northville five days later in a 3:30 contest.

Here's the rest of Novi's schedule (all dates begin at 4 p.m., unless otherwise listed):

April 15, at South Lyon; April 16, Brighton; April 21, at Walled Lake Western (two games, 3:30); April 24, at Pinciny; April 25, Kingston, noon; April 28, Howell; May 1, at Hartland; May 5, South Lyon (two games); May 8, at Brighton (two games); May 8, at Willow Run Tournament (time unknown); May 12, Pinciny (two games); May 15, at Howell (two games); May 19, Hartland (two games); May 20, at Milford; May 26, Milford/Lakefield.

## Burke sets Warrior high-jump mark

The Walled Lake Western boys' track team finished four points shy of a strong Howell team in the Warriors' triangular meet with the Highlanders and Novi Thursday.

Burke's 6.2 jump eclipsed the previous Warrior standard of 6-11.4, established by Scott Dudley in 1978. The senior standout also claimed the long jump at 18-11, the 100-yard dash in 16.6 seconds and anchored the 44-yard relay team that won with a 47.8 clocking.

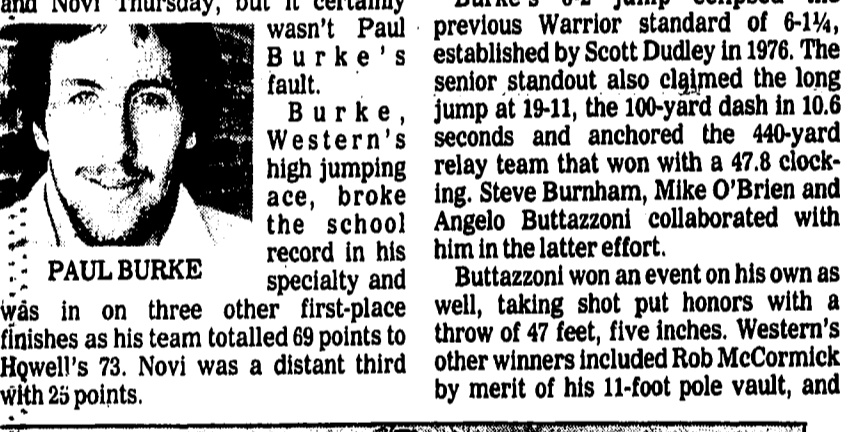

Steve Burnham, Mike O'Brien and Angelo Buttazoni collaborated with him in the latter effort.

Buttazoni won an event on his own as well, taking shot put honors with a throw of 47 feet, five inches. Western's Howell's 73. Novi was a distant third with merit of his 11-foot pole vault, and

his good work by posting a mile time of 4:53, just 13 seconds off the freshman school record set by Mike Maves.

Other encouraging showings came from Wagner, 3:41 in the three-quarter and 2:12 in the half-mile; Imms, 8:7 in the high hurdles; Randy Almon, 2:13.5 in the half-mile; and Jim Latimer, 6:73 in the 1/2-yard dash. Western stars such as Butz, Buttazoni and Chuck Brown didn't make the trip.

The Warriors, who hosted Waterford Township yesterday (Tuesday, after the News Deadline), welcome Plymouth Canton tomorrow in the clubs' Western Six Conference opener. Western moves to Northville for a dual tussle next Wednesday.

PAUL BURKE

## Cohen corrals state honors

at AAU age group meet

It's not the Olympics, but it's a start.

Novi's Jon Cohen, who already had reaped a number of medals and trophies during his young swimming career, reached another milestone recently when he became Michigan's 10-and-under state champion in the 200-yard freestyle.

The eight-year-old Cohen also broke a record at that meet, finishing 100-yard individual medley and 100-yard breaststroke. He also finished fourth in the 50-yard breaststroke.

But swimming is a family affair in the Cohen household, so it was only fitting that brothers Steve & Jeff, 12, also qualified to swim individual events at the state competition.

Steve, recently returned from "Williamson, Ohio, where he competed in a swim meet with other eight-year-olds from eight different states. He brought home 10 trophies — each representing the 10 events he swam — one of only two boys in his age group to do so.

The eight-year-old Cohen also broke a record at that meet, finishing 100-yard individual medley and 100-yard breaststroke. He also finished fourth in the 50-yard breaststroke.

### ASK THE LAWYER

**Q.** My sister gave me \$1,000 for my birthday. Ordinarily she would give me a present. Do I have to declare this on my income tax?

**A.** No. A gift is not income and is therefore not taxable on your income tax. A gift over \$3,000 in any one year to any one person might necessitate filing a Federal Gift Tax Return.

**Q.** My wife and I settled a divorce case. I got the house in the property settlement agreement. I agreed to execute a promissory note secured by a second mortgage in the sum of \$10,000 with interest at 11 percent annum with monthly payments per annum to be paid in full in five years. A friend of mine said I don't have to pay her any interest because the maximum interest in the State of Michigan on a note and a second mortgage is 7 percent. Is this true?

**A.** Your friend is correct. The legal rate of interest on a note and second mortgage is 7 percent per annum. Usury in Michigan is illegal, therefore you are not obligated to pay your wife any interest at all on the debt.

**Q.** My father and mother owned a home together. My father recently died. My mother wants to make sure that the title to their home is recorded in her own name. How can she do this?

**A.** Have your mother obtain an original copy of your father's death certificate. Copy the legal description of the real estate on the back of the death certificate with \$2 to the Register of Deeds for the county in which your mother's house is located. This will take your father's name off of the title

**By LAWRENCE D. KORN**  
Attorney at Law

Questions for this column should be addressed to "Ask The Lawyer," Silger Home Newspapers, 104 West Main, Northville, Michigan 48176, and they will be answered on a space-available basis by the author, a practicing attorney.

**Q.** I am a widow with four children. I am planning to remarry in the near future. I have an estate of upwards of \$50,000 left to me by my first husband. My boyfriend says that he has no objections if I make out a will leaving everything to my four children. Is it adequate to protect my children and to wind up with all of my estate?

**A.** No. Under the new Michigan Probate Code your new husband could receive some of your estate by a widow's allowance of anywhere from \$100 to \$500 per week for one year. Your new husband could elect to take under the Michigan Statute of Descent and Distribution instead of taking under your will.

Under this statute, he could receive the right to live in your home for one year without being charged for his occupancy. He would be entitled to select from your estate \$3,500 worth of household goods, furnishings and personal effects. He also would be entitled to receive approximately 25 percent of the remainder of your estate. I would strongly suggest that you consult a lawyer who is knowledgeable in the area of Pre-Nuptial Agreements, trusts, and/or joint tenancies and life estates. A will in and of itself will provide the protection that your children need.

**Q.** I am a nurse who was formerly employed at a large hospital. While lifting a patient, I injured my back. As a result, it is extremely painful for me to perform any of the services of a nurse. I would like social security, but social security said I was not entitled to social security benefits because I could obtain other employment sitting down. Even sitting down is painful for me since the event of a pain I get the social security benefits that I feel that I am entitled to?

**A.** Before you go to the hospital, you should go to the bank and ask them to place your time savings certificate on automatic renewal. This means that the bank will renew your time savings certificate indefinitely on the date it expires with the interest rate that they have on the date of expiration.

Another solution would be to have an attorney prepare a Power of Attorney for you to sign. This Power of Attorney should give your wife full power to sign and endorse your time savings certificate and to do any and all other acts on your behalf that you can legally do. With the Power of Attorney, she could withdraw the time savings certificate, she could sell stocks and bonds for you, she could collect rents, she could pay to the hospital. She could authorize surgery. We feel that it is important for all persons over the age of 65 to execute such a Power of Attorney so that in the event of a stroke, paralysis, serious illness, etc., your estate is protected.

# Central softball team will contend for I-L title, if...

By REID CREAGER

Nancy Smith laughs when it's mentioned that she may have her fingers crossed to the point of breaking them this spring. And hopefully, the Walled Lake Central softball coach will still be laughing when the 1981 season is over.

However, the veteran coach is the first to admit that her team's outlook is very "iffy" this year. Consider the question marks that Smith and Company have to deal with:

- Will first baseman-turned-pitcher Kathy Narducot be able to carry the majority of the mound workload despite having only pitched nine innings last year?
- Will Wendy Keely successfully make the transition from second base to catching?
- Will the team's patchwork infield hold up throughout the season?
- Will an unproven outfield trio be able to do the job?

Smith, for one, won't venture into predictions. Instead, the coach is assuming a wait-and-see stance.

"It's hard to say just what will happen," says the woman who led her team to a 4-11 record last year. "We have a lot of new players, and a lot of positions to fill. Anything could happen."

If Smith has one wish for the upcoming season, it's probably that Narducot will become the staff ace, and Keely will be the key.

Laurie Raiger, a junior who also happens to be Smith's choice in centerfield this spring, is available for hill duty just in case.

Keely will be the other half of the Viking battery. A senior tri-captain along with Karole Bem and Kathy Simonson, her all-around athletic abilities will hopefully pay off behind the plate.

Meanwhile, there appears to be a bevy of promising—but unproven—candidates in the outfield. Freshman Tracy Leach is strong defensively, according to her coach, and probably will start in leftfield. Center belongs to the quick Raiger, and right will be a battle between junior Donna Weber and Sue Kohler, a sophomore.

Senior Gigi Polasek, 11th-grader Rhonda Greig, sophomore Anne Young and Patty Fitzgerald, a freshman, are also hoping to find a starting job.

"We do look pretty good up the middle," Smith summarizes, "and we have good team speed, too. We'll probably do a lot of bunting and running."

As for her team's weaknesses, the coach is well aware of those. "But you've got to remember that these are all good athletes," she says. "They may just be able to adjust to their new positions."

Smith and her Vikings will see if that's the case beginning Monday, when they host Milford. Central then moves to West Bloomfield the next day before making it three games in three days when it hosts Milford Lakeland next Wednesday.

Here's the rest of Central's dates: April 28—Bloomfield Lahser; April 29—at Farmington; May 1—Waterford Township; May 4—at Livonia Stevenson; May 6—at Pontiac Northern; May 7—Walled Lake Western; May 8—at Milford Lakeland; May 11—Farmington; May 13—at Waterford Township; May 15—Livonia Stevenson; May 16—at Howell Invitational; May 18—Pontiac Northern; May 20—Clarkston; May 22—pre-districts; May 26—at Walled Lake Western.

# Western pilot Szocinski has talented team

By REID CREAGER

The ball is shaped the same, but the game's entirely different for Tom Szocinski this year.

The longtime Walled Lake Western girls' basketball coach finds himself leading a Warrior softball team that has league-championship talent. Now all Szocinski has to do is turn that potential into victories.

"We've got a shot at it (a Western Six Conference title)," the veteran skipper says diplomatically when asked to predict his team's finish. "The league should be a three-way race between us, (Plymouth) Canton and (Waterford) Mott."

Szocinski is even more vague when asked to speculate on the number of wins his team will compile this spring. "We veteran coaches have learned the hard way about predicting," he laughs. "We end up eating the crow every time. Let's just say I'm hoping for at least a 300 season."

With the talent that dots this Western roster, that's money in the bank. This year's Warrior club looks at least as good as the one that won its first six W-Games of 1980 (it settled for a 6-4 conference mark).

There really isn't a weak point on the team—at least on paper. As Szocinski notes, the defense is strong (particularly in the infield) and the hitting appears robust.

The pitching isn't bad, either. Western's mound returnees include Kathy Arley, who compiled a 12-5 record as a freshman year ago. Junior Tammy Grimes (5-3 with the '80 junior varsity) and senior Margaret Grubb round out a staff that Szocinski says "looks good."

Kathy Arley figures to be the team's ace again

# Novi thinclads rocked, but Smith stays optimistic

Novi's boys' track team wasn't even close to Walled Lake Western and Howell in a season-opening triangular Thursday, but you'd never know it by talking to Wildcat Coach Bob Smith.

"The meet went very well for us," Smith said after his young troops had scored only 25 points while Howell was edging Western, 73-69. "We exceeded

my expectations in practically every event...we've come a long way in five weeks."

One individual who perhaps has progressed the farthest is Terry Smith. The Novi senior totaled 15 points Thursday, capturing the discus (128 feet, 4 1/2 inches) and 330-yard low hurdles (44.7 seconds) while placing second in the pole vault (10-6) and third in

and boosted his point total to 43; unfortunately, the winners garnered 89. Still, Boyd scored two firsts (55.7 in the quarter-mile and 2:23.8 in the half-mile), excelling for the hometowners despite the whipping winds. Other winners went to Craig Braue in the two-mile (10:59.6); Jay Dinan in the discus (123-1/4); and Smith (45.7 in the 330 low hurdles).

Smith, by the way, paced Novi's runner-ups with two with a 10-foot pole vault and a discus throw of 123-1. His loss was a quarter of an inch less than the winning throw by teammate Dinan.

Thirds were the most plentiful for the visitors. Novi recorded eight of those, with freshman Bob Perry's macking up two (5-14 in the mile and 2:34.8 in the half-mile).

TERRY SMITH

# Warrior girls survive scare, come back to nip Kettering

Too close for comfort. That's one way of describing Walled Lake Western's 1981 girls' track opener. Sharon Young's perennial Western Six Conference champions staged off an upset-minded Waterford Kettering squad Thursday, coming back from a 24-12 deficit to post a 62-61 success.

"They really surprised me," Young said afterward of the host Captains. "Sure, we didn't have our absolute best lineup in there, but I have a feeling that they would have given us a good run for the money anyway. They haven't got an exceptionally high number of good athletes, but the good ones they have are all quality."

Luckily, Western's quality was a tad better on this occasion. Sophomore Nancy Giagolia was a shining example of that, stopping the timer in the two-mile run with a personal-best 12:23.7. Giagolia had previously recorded a 12:26.5 to take league honors at the conference meet last spring.

The Warriors also scored individual running triumphs in the 100-yard dash and quarter-mile run (Judy Yuh's winning the mile—in 5:32.4—was a foregone conclusion). Freshman Cherie Welch took the 100 in 12.5 seconds, while Fran Cullen claimed the 400-yard dash in 1:06.5.

"Two relay wins were also instrumental in the victory. Debbie Cooper, Kris Maher, Lisa Roselle and

Fran Cullen collaborated to capture the 800-yard event in 1:58.9, and Cooper, Welch, Kris Van Patten and Heather Gillespie teamed for a 54.6 clock-in the 400.

Not surprisingly, the remainder of Western's points came in running events as well. Van Patten (12.7 in the 100), Lynn Byrka (17.8 in the 110-yard hurdles), Mellema (2:42.1 in the 800), Welch (2.7 in the 220-yard dash) and freshman Kris Poland (37.1 in the 220 hurdles) all claimed seconds; Gina Muscio (13.2 in the 100), Roselle (1:06.9 in the 400), Joyce Van Velsor (2:27 in the 800), Van Patten (28.4 in the 220) and Karen Kowalczyk (37.3 in the 220 hurdles) captured thirds.

The Warriors' Achilles' heel was the field events, where they got into an early hole. Devany Donigan's 92-foot throw in the discus was Western's only winner in either of the four events. Donigan also had the team's only second in field endeavors, hurling the shot just 30 feet, six inches.

Finally, third-place efforts in the field events came from the Warriors' Tracy Hopsack (4-6 in the high jump), Roselle (5 feet, 3 1/2 inches in the long jump), Pearl Maguire (74-11 in the discus) and Becky Warfield (28-11 in the shot).

Western, which ran yesterday (Tuesday, after the News deadline) at Waterford Township, now moves to the Spartan Relays Saturday.

# Sport pix going

They're going fast. In case you missed last week's notice, there are still some leftover sports pictures from the recently-completed winter season that are doing little more than collecting dust here at the News offices in Northville. And they're yours—for free—simply by asking for the ones you want (provided that they haven't been gobbled up already, of course).

Some of the photos that are on hand appeared in the paper, like pictures of various Walled Lake Central gymnastics team members during competition. Others are extras that never quite found their way into the sports section.

At any rate, give us a call at 624-8100 if you're interested in knowing what pictures we still have left. If you'd like to peruse the photos in person, visit the News at 104 West Main in Northville.

"We still have a few remnants of the winter season left. First-come, first-serve."

## Viking tracksters rally, forge stalemate

The Walled Lake Central boys' track team didn't come up with a win in its dual meet opener against Waterford Wednesday, but Coach Steve Groth had predicted. But the way things began for the Vikings Thursday, they had to consider the end result a moral victory of sorts.

The young Central thincilds appeared well on the way to defeat following the 400-meter relay, when the score read 31-40 in favor of the Corsairs. But Groth's team kept clawing and eventually gained a 66-66 tie when Mike McDonald finished second in the mile run.

"It certainly could have been worse," the second-year pilot commented afterwards. "I guess you've got to look at it both ways. The kids were enthusiastic; we just held together and fought back."

The young Central thincilds appeared well on the way to defeat following the 400-meter relay, when the score read 31-40 in favor of the Corsairs. But Groth's team kept clawing and eventually gained a 66-66 tie when Mike McDonald finished second in the mile run.

100 and 200-yard dash with respective times of 12 and 24 seconds while sophomore Pruden took the 1600 (mile) and 3200-meter runs in 4:56 and 10:50.

But the Vikings, who also got a running victory from senior John Gayton (2:11.8 in the half-mile), held their own in other areas. Bob Goins claimed the long jump with a 21-foot, three-inch leap, eclipsing his longest leap of last year by a foot; Jerry Makkonen took high jump honors at 5-7, and sophomores Jeff Piopryk and Regan Goins each topped the field with a 10-foot pole vault.

The real surprise, however, came in the 800-meter race—an area in which Central is supposedly weak. Junior Tom Andrews and Matt Janosik surprised Groth by finishing second and third, respectively, in the shot put and discus.

After that meet, a pumped-up Central squad traveled to Michigan State University for the Spartan Relay Saturday. But unfortunately, the Vikings came home without a point in relay competition for the second straight week.

## Western netters to face another rebuilding year

"Realistically, we're not going to be that much better off (in 1981). It takes time to build talent to a certain point. We may only have three good tennis players next year, and you need 10—" Walled Lake Western Tennis Coach Noah Gregory after the Warriors had finished a 3-8 season last May.

"It's too early to be writing any epitaphs just yet, but little has changed between last May and now to suggest that Western will contend for the Western Six Conference title this spring. Still, stranger things have happened."

"We probably won't be strong enough

to take the league," Gregory admits. "But you can't really tell much before the season starts. It all depends on how the other teams come around."

The Warriors' fate, of course, hinges largely on how their own team comes around. Western boasts a reasonably strong singles lineup (seniors Mike Sacco and Larry Garza return at first and second singles, respectively, and juniors Don Peasley and Chris Smith are capable netters), but the doubles situation could be somewhat problematic.

A pair of senior Garys — Wayne and Dine — should be formidable as the number one tandem. After that, however, Gregory has to choose between five relatively inexperienced players, four of whom are seniors playing prep tennis for the first time.

"I don't know who will fill those (second and third doubles) spots," the coach says. "They're all new players; I guess I'll have to keep moving them around until I find the right combination."

Ironically, the youngest of the five hopefuls is also the most experienced. Junior Dan Smith, up from the junior varsity squad, will vie with 12th-graders Matt Swiatek, Randy Shell, Greg Cooper and Brian Cullen for the final two doubles positions.

"We should be strong in singles," Gregory concludes. "The doubles teams, though, need more time to play together."

Western will get plenty of that beginning today (Wednesday) when it hosts Farmington, Walled Lake Central visits Friday, and Milford Lakeland comes in three days later.

April 15 — at Northville; April 20 — at Walled Lake Central; April 29 — Farmington; Harrison, May 1 — at Waterford; May 6 — Livonia Churchil; May 6 — Plymouth Canton; May 11 — Northville; May 13 — at Farmington; Harrison; May 14 — Waterford; May 14 — Livonia Churchil; May 20 — at Plymouth Canton; May 27 — W-6 match at Plymouth Canton.

## Out-numbered Wildcat girl track team grounds Flyers

If you take into consideration the fact that the Novi girls' track team took only 11 participants to the Wildcats' triangular at Milan with Willow Run Saturday, it's easier to excuse the Wildcats' 102-1 thrashing at the hands of their hosts. Besides, it makes Novi's 64-58 victory over Willow Run look like something from Ripley's Believe It or Not.

"We didn't do too badly," Coach Laurie Stasiak commented after it was over. "Not only did we have only 11 people (many of the tracksters attended a rehearsal for a school musical), but we also had to run despite winds that hit 35 miles an hour."

Although the other teams had to endure the gusting winds as well, they enjoyed the luxury of having more participants. Milan — one of the stronger teams around — had troops to spare, and even Willow Run had almost three times as many thincilds on hand as did Novi.

Nonetheless, that didn't stop the Wildcats from posting five individual first-place finishes on the way to a starting win over the Flyers. Amy Traynor's two victories (17.4 seconds in the 110-yard low hurdles and 34.8 in the 220 low hurdles), also topped the field were Lynn McLaughlin (80 feet, seven inches in the discus), Melissa Jordan (4.4 in the high jump), Krista Borsvold (2:52.3 in the 800) and Deanna Huotari (6:28.1 in the mile).

Novi also enjoyed two relay triumphs. Traynor, Lisa Anthony, Debbie Forrester and Carine Waach collaborated for a 2:05.1 time in the 800 relay, while Anthony, Waach, Jordan and Borsvold took the 440 relay in a minute flat.

Meanwhile, Jennie Christman was recording two of the Wildcats' seven runner-up efforts, stopping the timer at 19.3 in the 110 low hurdles and finishing at 36.7 in the 220 hurdles. She finished behind teammate Traynor on each occasion.

Also scoring seconds for Novi were Waach, 4-2 in the high jump; Traynor, 15-1/2 in the long jump; Anthony, 13.3 in the 100-yard dash; Forrester, 76.7 in the quarter-mile run; and Huotari, 14:13.1 in the two-mile.

Although Novi hopefully won't have to again run a meet with only 11 participants, Stasiak's club apparently will be fighting the numbers game all spring. The Wildcats currently have only 20-25 girls who have come out for the team, a fact that limits the coach's options dramatically.

"We lack the depth that other teams have," Stasiak admits. "Hopefully, we'll be able to put three girls at each event."

"Luckily, though, we do have some individuals who are capable of scoring big," the second-year coach adds. "Amy Traynor and Deanna Huotari are two of those kinds of people. Maybe we'll be able to develop more like them."

Regarding goals for this year's league, Stasiak will only say that "we hope to improve on last year's (1-9) record. I think we will, too...the girls have been working hard, and it's beginning to show results."

The Wildcats will see if that progress continues when they host Willow Run Friday. Farmington Harrison comes into town three days later.

Novi's annual 5,000 and 10,000-meter run is coming May 3. The event, which is being presented by Providence Hospital, the Novi Ambulatory Care Center and Novi's Parks and Recreation Department, will take place at Novi High School beginning at 9:30 a.m.

The run will feature six categories for both males and females: 12 and under, 13-18, 19-29, 30-39, 40-49 and 50 and above. Medals will be presented to the first three finishers in each age group, and patches will go to the first 100 finishers in the 10,000-meter run. The 10,000-meter course is 50 percent pavement with rolling hills and 50 percent dirt roads; the 5,000-meter course is flat and on pavement.

Entry fee is \$5 before May 1 and \$7 the day of the run. The first 150 entrants will receive shirts. Late registration begins at 8:30 at the Novi High School Commons on the day of the run.

Mail entries to Novi Parks and Recreation, 43315 Sixth Gate, Novi 48060. Phone is 349-1976.

Novi's Youth Soccer Referees Association is looking for interested adults to officiate soccer games this spring. Games are played on Thursday evenings and Saturday mornings. Pay is \$5-7 per game. If interested, call Brian Patal at 349-5418 or Bill Scott at 349-1976.

Think you know the score when it comes to scorekeeping? The Novi Parks and Rec Department is looking for you. Prospective scorekeepers for adult softball leagues must be 16 or older. Games are played Monday through Thursday evenings and Sunday afternoon. Pay is \$3.50 per game. If interested, call 349-1976.

Speaking of which, openings are still available in the women's resident softball league as well as the men's 30-and-over softball league. Women's games are played on Monday and Wednesday; men's 30-and-over plays Thursday. Registration deadline is April 22.

Another Parks and Rec item: The department is seeking a mature person (18 years or older) interested in managing the Novi American Legion baseball team for boys aged 15-18. The team plays in the 18th district American Legion League and competes against area teams from Farmington, Waterford, West Bloomfield, Royal Oak, Berkley, etc. The department is looking for an individual genuinely interested in developing the legion baseball program in Novi. If interested in the volunteer position, call 349-1976.

# Reshuffled Novi boy tennis team eaten up by Eagles

Novi got its 1981 boys' tennis season off to a stumbling start with a 7-0 loss to Hartland Monday, but don't write the Wildcats off just yet.

True, the locals were clearly outplayed in their spring debut; only Kent Kratz at second singles and the third doubles pair of Jim Lunden and Tim Haynes went to three sets. But it's also true that Novi wasn't exactly at full strength.

First and foremost, the Wildcats missed — and will continue to miss — Mike Rice. Coach Dave Haywood had Rice penciled in at the first singles position until the senior was in an automobile accident a few months ago. Novi's ace is still mending from the mishap and is not expected to return to the club in the near future.

With Rice out, Haywood elected to move fellow 12th-grader Filino into the number one slot for the opener. But Lady Luck threw a wrench into that plan as well when Filino became sick.

That combination of events, obviously, left Novi in a vulnerable position. Haywood was forced into some quick lineup juggling, and most of his netters were playing out of position as a consequence.

Hopefully, though, the Wildcats' luck won't remain the same for the rest of the season. Haywood and crew certainly have good reason to be optimistic, as they still boast 1980 Kensington Valley Conference third doubles champions

Kent Kratz (13-1 last year and 20-4 lifetime) and Mike Fritz (11-3 last spring and 16-5 lifetime). Kratz, a senior, will handle the third singles chores this year, joining Samson (number one) and Dean Marshall (second singles).

Meanwhile, the other positions will apparently be in capable hands. Fritz or junior Greg McComas will be the other fourth singles performer, and the other will join doubles candidates that include seniors Dave Ruttan and Mike McKay, junior Lunden and freshmen Haynes, Rusty Benoit and Eric Henderson.

Haywood is high on his young people, especially his freshmen. However, he notes that "right now, everybody's playing higher (in the order) than they should be. But that's what happens when you only have four or five returning players."

It's for precisely that reason that Haywood won't speculate on his team's chances of contending in the conference this year. "All the other KVC teams have graduated only one or two people," he says. "We're outmanned, at least as far as experience goes."

As a result, the veteran pilot will only say that "I hope we'll be competitive" in the league in 1981.

Novi, currently 0-1 in the KVC after the Hartland debacle, will now battle a couple of non-conference foes before getting back into league play. The

Wildcats, who began a string of five straight home meets with the Eagles, took on Milford yesterday (Tuesday) after the News deadline. Haywood's gang closes this week out against Milford Lakeland Friday before welcoming KVC rival Brighton four days later.

Here's the rest of Novi's schedule (dual meets begin at 4 p.m.):

April 15 — Ann Arbor Gabriel Richard; April 16 — at Pinckney; April 21 — Chelsea; April 23 — at Ann Arbor Greenhills; April 29 — at Hartland; April 30 — at Brighton; May 5 — Pinckney; May 7 — at Howell; May 13 — at KVC Match.

## Sportalk

By REID CREAGER

Let's see, now.

With this issue of the News, all but one of the 15 Novi and Walled Lake high school varsity teams have been previewed for the spring season (Frank Jasieniecki, I'll catch you and your Central tennis team yet). In fact, a handful of teams are already underway. So before I'm accused of pulling a Tamara Rand, here are my local league title winners for the season:

Novi — Here we are, just barely into the third paragraph, and I'm in trouble already. Sorry, but I don't see any KVC title material here. The baseball team probably has the best shot at it, but that would still be an upset since the team has only one proven pitcher.

Walled Lake Western — Here's a vote for the Warrior softball team. Tom Szocinski proved last season with the girls' basketball team that he can build a winner with the right amount of talent, and he's certainly got it this spring. If the team can keep the right mental attitude and play up to its enormous potential, last year's *el foido* won't recur. As for the girls' track team, of course it will win the league again (it's not nice to fool with Sharon Young).

Walled Lake Central — Time to go out on a limb again, though some would call it being out of my tree. The baseball team has the pitching to surprise a lot of teams, and few know how to utilize talent better than Ken Butler. If he says he's "just got a feeling," that's good enough for me — at least when he's got the pitching to back it up.

## Chiropractic Life Center

144 Mary Alexander Ct. Phone: (313) 348-3500

### The Common Cold and Chiropractic

The common cold has been labeled by many "Public Malady No. 1."

It is indeed the commonest of all disorders of the respiratory system and generates acute inflammation of the nasal mucous membranes, marked by signs and symptoms throughout the body, and frequently has temporary or lasting complications.

Nothing makes you feel more downright miserable than a stopped-up-head, runny nose, and sore throat, created by the complicated and painful common cold.

If the common cold were as easy to cure as it is to catch...the citizens of our great nation would be billions richer every year. An unbelievable 500 million colds occur each year. From the economic point of view, they cause an annual income loss of two billion dollars a year due to absenteeism...and disable each infected person an average of more than two working days.

When we feel that heaviness of the head or chest area, coughing and sniffing, we know a cold is coming on. But, what many don't know is that there are many different kinds of colds. All have slightly varying symptoms; some affecting children more than adults. But all colds can actually impair the health of the body.

The SIMPLE COLD for instance, is rarely accompanied by fever, but discomfort is far from simple. Patients complain of headaches, dryness of throat, uncomfortable breathing punctuated by frequent sneezing, watering eyes, and slightly reduced efficiency in routine activities.

In SEVERE COLDS, symptoms are so heightened the victim feels completely "knocked out." Congestive, allergy-like symptoms make the sufferer listless and miserable. He cannot carry on normally and must stay away from work or school.

The PAINFUL COLD is even more uncomfortable than the severe cold. It is accompanied by persistent headaches, sore throat, runny nose, sneezing and muscle pain. Very often this type of cold is the beginning of a serious respiratory ailment. Every time the human organism is subjected to the continual drain of vitality by a cold, the body's resistance is lowered.

A cold is not something that happens to you suddenly. When you feel the first discomforts of a cold, the cause has been in our system for sometime. Even with electronic microscopes, the "cold germ" has never been pictured. Also, contrary to the theory that exposure to bad weather and damp, cold drafts cause colds, most colds occur when no such exposure has occurred.

When you are subject to colds you are actually being warned that something is causing your body to

operate below normal. You are accumulating too many poisonous materials which are not being moved out by your excretory organs.

Your kidneys, lungs, intestines, and skin are the four major excretory systems which dispose effectively of the body's poisons. If one or more of these organs is not performing efficiently, another organ will attempt to take on the extra job. Therefore, if your kidneys, lungs, and skin should be abnormal in their action, these liquid poisons that would be excreted, back-up and nature makes an attempt to dispose of them by sending them to some minor organ which is capable of producing elimination. If this minor organ has less than normal resistance it can easily become congested and inflamed. This congestion can settle in the nose, throat, or bronchial tubes, depending upon the resistance of each.

### Preventative Maintenance is Most Important

Your body can go 40 days without food, 4 days without water, four minutes without oxygen. But whenever energy or life force is cut off, death is instant.

It would be wonderful if we had a little red light on our foreheads that went on when nerves were pinched off or interfered with, or if all nerves carried pain messages when they were irritated - but they don't. Pain and discomfort are not reliable ways of determining how healthy we are. A person can feel great one minute and the next have a heart attack or stroke.

There are many things

necessary to maintain good health, such as proper nutrition, rest, exercise, proper mental attitude, clean environment, fluid intake, vitamins, etc, but the most essential is to be free of nerve interference, thus having 100 percent life support flowing in your body to all its parts.

To be a winner in the game of life your spine must be in adjustment and only your chiropractor is trained to know this. He recommends regular nerve and spine checkups at least once a week for life to maintain your current life trend. Your check-up is based on your individual needs.

It takes only seconds to fracture a bone, but it takes about three months for complete recovery. Destructive forces work quickly. For example, a bomb or fire may destroy a building or forest wildlife. The rebuilding of these things will take years and great expense. The same is true in the human body. Heart, brain and other organic damage can occur instantly once they reach a certain point of chronically not working properly. We have to be trained in certain essentials of good health. We bathe daily. We eat balanced meals with vitamins daily. We

comb our hair and brush our teeth. We should have our life line checked daily, too. This may not be practical on a daily basis, but for most of us, once a week is not only practical but essential.

Once you regain your life and health, don't be a fool and neglect yourself again. All of your earthly possessions can be replaced, usually with something better. But can you replace your life and health? Truly this is your most priceless possession--protect it chiropractically.

If you haven't been in for awhile--call today for a check-up. It could save your life.

## What Some Of Your Neighbors Think

Being a nurse I must admit that I was more than a little skeptical when someone told me that Chiropractic Care might very well be the answer to a sinus problem I've had for years. My husband called me the "VICKS KID" as I went to bed every night with vicks salve on my face. Now that I've been under Dr. Miller's care at the Kotila Chiropractic Life Center of Northville, my sinus problems are almost completely gone. I am no longer called the "VICKS KID". I heartily recommend that all people try Chiropractic for all their health problems. It sure convinced me.

Violet Hoppe

## Why Chiropractors Advertise

Many patients who have suffered needlessly after months and years of medical therapy, have all too frequently discovered that they get well after Chiropractic care has been provided. Chiropractors have heard too many patients ask, "Why didn't I know about this sooner?"

The Chiropractic doctor has a moral obligation to tell people about Chiropractic — clinical cases — for no one else will tell that story. There are no drug companies to sponsor the Chiropractic message. There are no highly paid public relations firms to produce the copy which passes as scientific news — and which gets free space in newspapers.

Since a Chiropractor knows precisely what Chiropractors can do to help many sick and suffering people, he must tell the public about it himself. To remain silent is to be immoral. To allow people to suffer needlessly, or to die because of their lack of knowledge about his science, is unthinkable.

Chiropractors are morally obligated to tell people the truth about Chiropractic, the chiropractic profession — a licensed profession — has a distinct service to offer. It is a drugless service.

Yet when a Chiropractor pays to deliver his healing message through advertising, Political Medicine, through its well-paid propagandists, immediately cries "foul," "quack," "unethical practitioner," "fraud!!" The Medical Lobby wants no competition. It wants no one to question its methods, decisions and products. It wants total dominance and dictatorship in the health field.

Without bothering to scientifically prove or disprove the effectiveness of Chiropractic science — which M.D.'s in Western Germany and other nations have proved to their own satisfaction — the American Medical lobby censures Chiropractic merely because it is a different approach.

The Chiropractor is proud to be different. He will continue to be different, and he will continue to tell people about chiropractic. He has nothing to hide — nothing to be ashamed of.

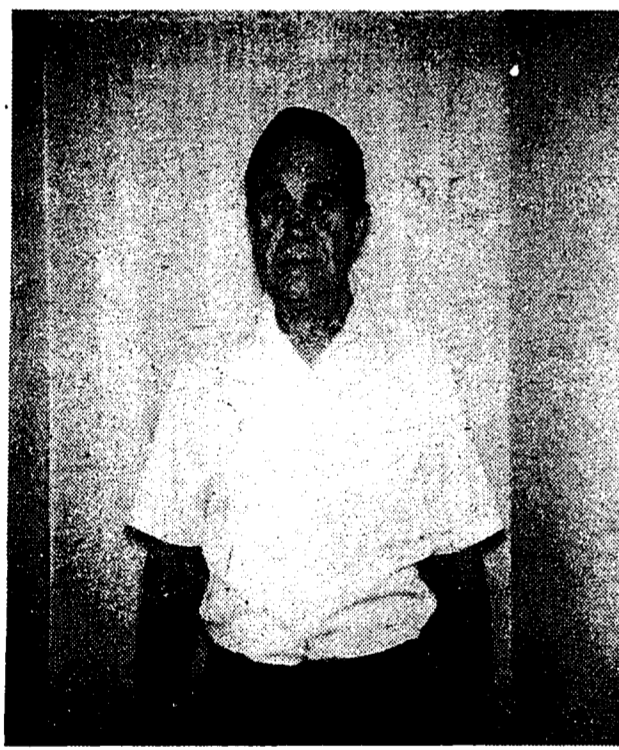

Chiropractic works. It is backed up by millions of satisfied and grateful Chiropractic patients — most of whom had previously consulted various types of therapists and physicians.

If telling the true story in this way is fraudulent and unethical — then so be it. The Chiropractor will continue in his sincere and conscientious effort to bring an important health message to the public.

## Low Back Pain Gone

I suffered from low back pain and a limp on my right side for over 20 years. I heard about Dr. Miller from a friend who experienced excellent results previously, so I decided to give chiropractic a try. After just a short period of time I noticed a significant improvement of my problems. I can enjoy everything now that I have no more back pain. My limp from a 20 year old injury is almost gone too. I would recommend chiropractic care to anyone looking for an answer to any problems they may be having. I thank the Kotila Chiropractic Life Center of Northville.

Gus Hoppe

## It Really Helped Me

I decided to try Chiropractic Care after my brother experienced good results with his problems while under Dr. Miller's care at the Kotila Chiropractic Life Center of Northville. I am happy to state that my problems are now completely gone. I would recommend that anyone with health problems should really try Chiropractic care. It really helped me.

Terri Raczkowski

## "I'm Never Tired"

Dear Dr. Miller,

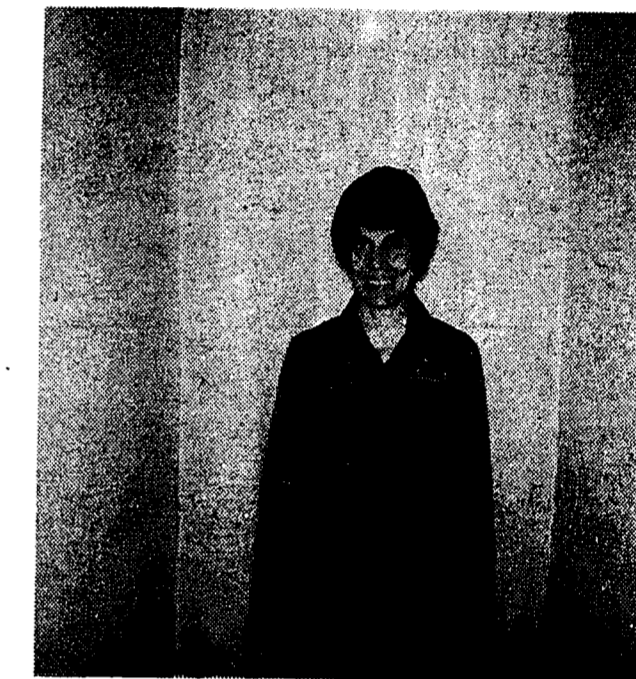

Just want to say thanks for helping me back to the peak of health. I had been feeling less & less well over a period of time and the pain in my lower back was increasing more and more, making it almost impossible to get out of bed some mornings.

After treatment at Kotila Chiropractic Life Center of Northville, I am entirely out of pain and my energy level is the highest I can remember.

This has greatly affected my enthusiasm and efficiency for my full time job in real estate. Its also made my family life much more fun because I'm never tired and I can keep up with all the activities of a large family.

Sincerely,  
Mary Kelly

P.S. I planned on writing you a note to say thanks for your wonderful care and this just spurred me on to do it now. You're the greatest!

## INSURANCE

### Questions & Answers

**Q. Does my health insurance (Blue Cross-Blue Shield, Teamster, John Hancock, Aetna, etc.) pay for chiropractic care?**  
A. Yes.

**Q. Does my health insurance pay for chiropractic X-Rays and any other examination?**  
A. Yes.

**Q. Does my health insurance pay for regular chiropractic office calls?**  
A. Yes, many major insurance companies, including Teamsters, Blue Cross-Blue Shield Master Medical Program (General Motors salaried employees, Ford Motor Company salaried employees, Great Lakes Steel, etc.), Aetna Insurance, Metropolitan, Prudential, and Travelers pay a portion if not all regular chiropractic office calls.

**Q. If I receive injuries due to an automobile accident, does my no-fault auto insurance cover any chiropractic care that I may need?**  
A. Yes, all auto insurance coverage in the state of Michigan pays chiropractic care due to injuries sustained in accidents.

**Q. I am a senior citizen. Will my Medicare pay for chiropractic adjustments?**  
A. Yes.

**Q. Are chiropractic services covered by Workmen's Compensation Insurance, such as on the job injuries?**  
A. Yes, the Workmen's compensation law allows you to seek the doctor of your choice after the first 10 days following occupational injury. During the first 10 days, you may require employer authorization.

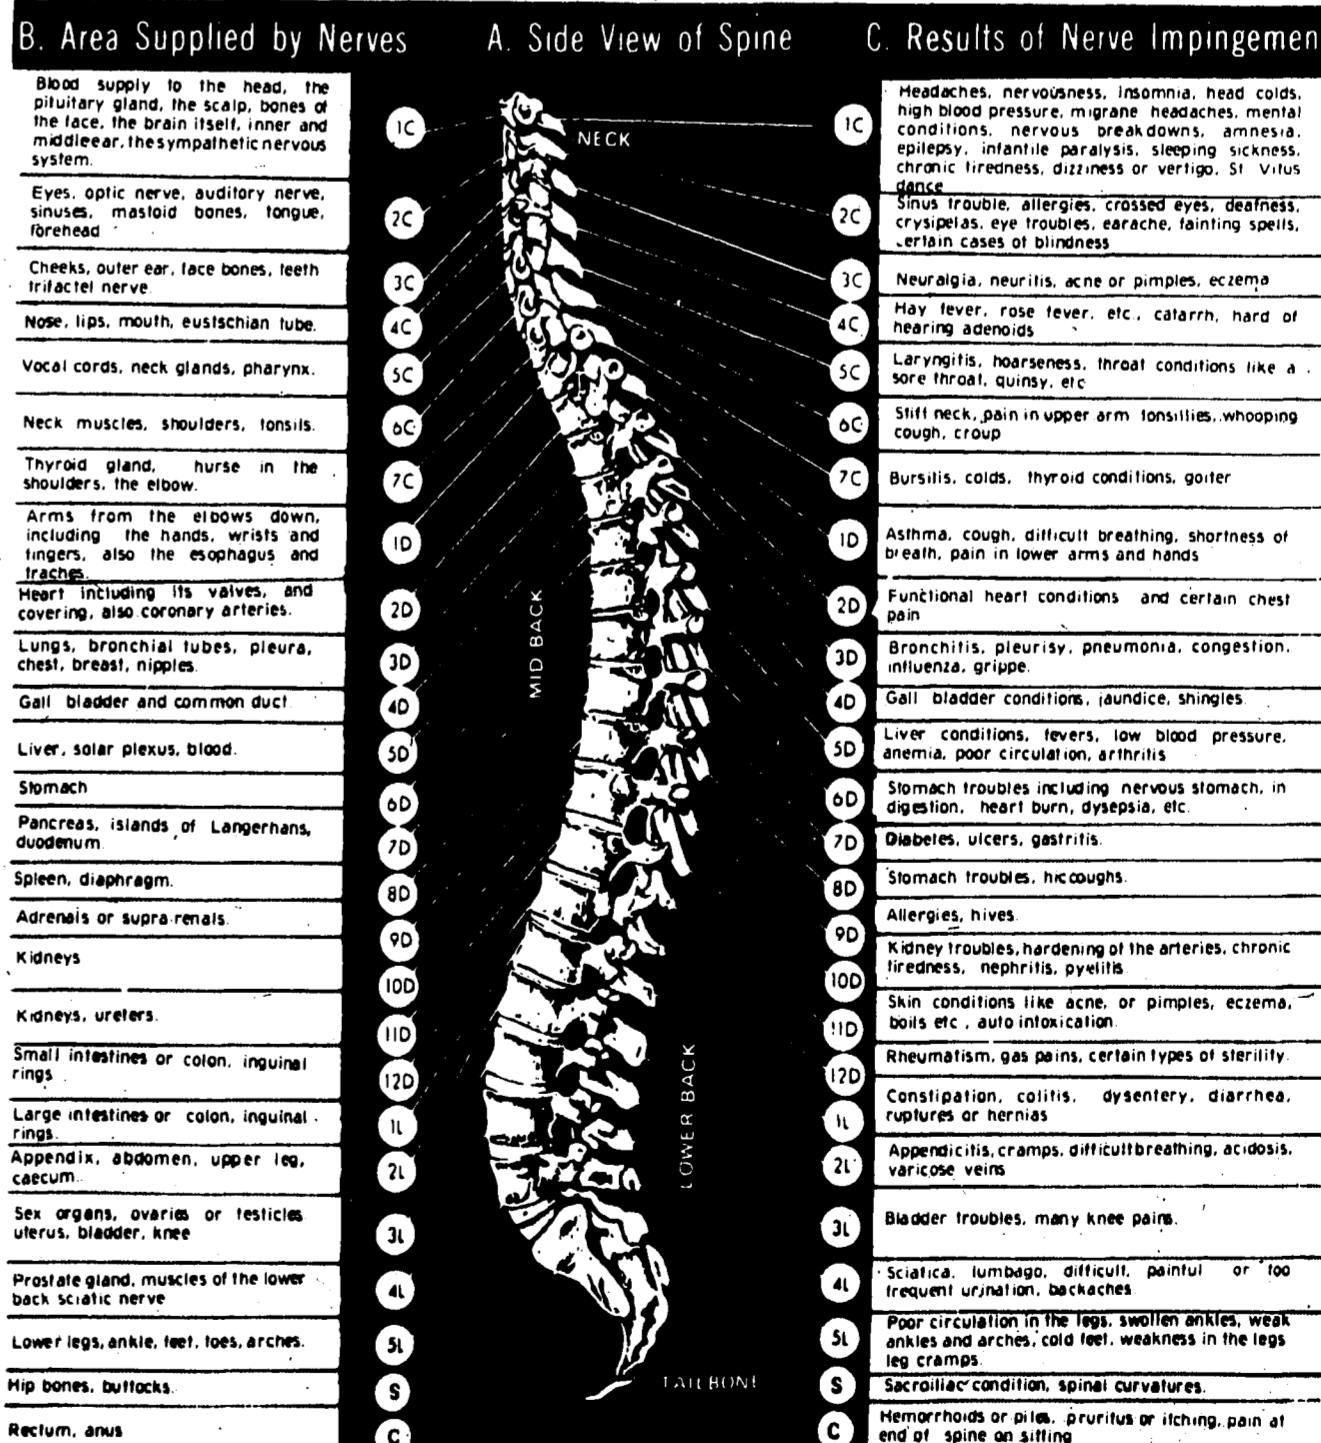

**Q. Does Medicaid cover chiropractic adjustments and do you accept Medicaid patients?**  
A. Yes, Medicaid covers chiropractic adjustments and our office will be happy to accept Medicaid patients and any other patient who requests adjustments.

## SUFFERING NEEDLESSLY?

Millions are turning to chiropractic because they are recognizing the scientific principles of nature that have made spinal adjustments effective for many conditions where other methods have failed.

nerves as they branch from the spinal cord and exit through openings between the vertebrae. All tissues, glands and organs supplied with life energy by these nerves are shown in the section marked "B" in the chart. The section marked "C" describes a partial list of the conditions and symptoms that can result when there is an absence of life in the nerve.

The chart below shows the lateral view of the spinal column and indicates in section "A" names of the spinal

### SPINAL NERVE INVOLVEMENT CAUSES MANY CONDITIONS

The spinal chart shown above is directed especially to those people who have tried to regain their health through methods other than chiropractic, and have failed. That failure should not lead to discouragement, but to greater determination to discover the fundamental

cause of all disease. Since the discovery of chiropractic, no one needs to feel that he or she is destined to be sick all their life. Remember, "Where there is life there is hope and he who has hope has everything."

## On The Job Injuries

The health of the American workingman is of great importance to all people. As a result, extensive research has been done to study all aspects of occupational injuries.

On the job injuries, which cost American businesses 100 million man hours annually, represent a tremendous loss in production and revenues.

But our concern is with the pain and anxiety suffered by the American workingman — our family, friends and neighbors — when such injuries occur.

The most common occupational injury is sacroiliac strain. It occurs when the sacrum or tailbone slips from its normal position in relationship to the bones of the hip. There may be extensive muscle and ligament strain. The pain is sharp and movement of the legs is restricted. Often the sciatic nerve becomes involved which produces even greater disability.

A person suffering from sacroiliac strain may not be able to stand straight. Any attempt to stand tall

results in a sharp and stinging pain. This type of strain is serious. If not corrected a sacroiliac strain can lead to chronic weakness and pain of the region. This injury results from improper lifting, straining when pushing heavy objects and poor working posture. It can be felt anywhere along the spine. There may be an injury to one or more vertebrae. If the strain occurs in the upper back, shoulders and arms may become involved. There is muscular tension and soreness. Any type of motion causes increased pain and all positions, whether sitting, standing or lying, may be uncomfortable.

Spinal and sacroiliac strain are only two of the disabling conditions a worker may suffer as a result of an on

the job injury. But since back injuries account for one-tenth of the total time loss injuries in industry, it is this area which deserves attention. And it is this area in which Chiropractic does achieve great success. Chiropractic care can quickly reveal the involved vertebrae and corrective adjustments can bring about relief of the symptoms and a rapid correction of the disorder.

The spine is the life line of the body and good general health depends upon good spinal health. If you or one of your loved ones are hurt on the job, consult our Chiropractic Life Center immediately. Modern scientific chiropractic procedures reduce suffering, time loss and the possibility of permanent serious injury.

Items Available in TG&Y Family Centers Only  
**Your best buy is at TG&Y family centers**

**TG&Y'S ADVERTISED MERCHANDISE POLICY**-TG&Y's policy is to always have advertised merchandise in adequate supply in our stores. In the event the advertised merchandise is not available due to unforeseen reasons, TG&Y will provide a Rain Check, upon request, in order that the merchandise may be purchased at the sale price when it becomes available, or you may purchase similar quality merchandise at a similar price reduction. It is the policy of TG&Y to see that you are happy with your purchases. •It is TG&Y's policy to be priced competitively in the market. Regular Sale Prices may vary market by market, but the sale price will always be as advertised. • We will be happy to refund your money if you are not satisfied with your purchase. **VISA® and MasterCard® accepted.**

**Kmart® ADVERTISED MERCHANDISE POLICY**  
 Our firm intention is to have every advertised item in stock on our shelves. If an advertised item is not available for purchase due to any unforeseen reason, Kmart will issue a Rain Check on request for the merchandise (one item or reasonable family quantity) to be purchased at the sale price whenever available or will sell you a comparable quality item at a comparable reduction in price. Our policy is to give our customers satisfaction always.
