TWENTY-FIVE CENTS

DNR investigates Bishop Creek poisoning

By KATHY JENNINGS

Norman Tobel wiped tears from his eyes as he looked over the three dead registered Herefords.

"I raised all this from little babies, Tobel said, explaining his attachment to the breeding stock. "It's hard to believe anybody could be so bad. I'm just walking around in a fog — I didn't believe anything like this could hap-

'This is prime stuff, yearlings, it just doesn't seem real."

He believed then that the cattle had been poisoned. "Look at the way they're bloated;

cattle don't get that way from eating

But one official from the Michigan Department of Agriculture says he's

Despite the dumping of 75-100 gallons of ammonia in Bishop Creek along the western edge of the property where the cattle were kept, Edwin Renkie, emergency services coordinator of the Michigan Department of Agriculture, said Monday the cattle's death may have been "coincidental" to the dump-

"The experts tell me that when they first heard it was ammonia their thought was that it didn't kill the cows," Renkie said. "You would have to immerse an animal in a significant quantity of ammonia before it dies.

'Ammonia is even distateful to human beings, so chances are the animals wouldn't have been happy to drink it. It would take greater quantities of ammonia that they were exposed to, to kill them.

However, Renkie cautioned "we're not sure." He noted the department is awaiting results of further tests before reaching any conclusions. Laboratory checks for viral or bacterial infections now are being conducted.

Testing already has ruled out poisoning by pesticides, acid, fertilizer or agricultural chemicals, and heavy metals such as arsenic, chromium and

The bloated condition of the cattle would seem to indicate the possibility of a bacterial infection, but Renkie said the department is "not ruling anything out," including the possibility that ammonia killed the cows.

Norman Tobel dries away a tear after inspecting one of his dead cows

Friday Oakland County Health Department issued a warning that be kept out of water in southern Novi. All contact with Bishop Creek between I-96 to Meadowbrook Lake dam was to be avoided until further notice, the Lehman indicated there is a suspect

county warned. Michael Neiman of Oakland County

said it now appears that today (Wednesday) would be the earliest the county would consider issuing an "all

"We don't know exactly when the health advisory will be taken off; we're taking a very cautious approach," Neiman said.

He explained the concern is that there still may be residue in the water. "The water is moving along rapidly and the ing conservative because we can afford to keep the caution in effect. It's not inconveniencing people."

He said the county also originally was concerned another chemical besides ammonia was in the water because

freon, rather than ammonia, is more commonly used as a refrigerant in ice rinks. Neiman said the ammonia dumped in the creek was used in keeping the ice frozen at the ice arena. After contacting the manufacturer of the refrigerating equipment and the owner

of the property it was determined ammonia was used, according to Neiman. He indicated there was further concern as health officials tried to underssuch poor judgement as to drink water polluted by a substance with such an obvious odor and taste." While final cause of death may not be determined for another two day, Neiman speculated,

just enough to be unobjectionable, but still enough to be lethal.

He noted there was no effect to local residential drinking water.

"The more ammonia dilutes in water the less dangerous it becomes,' Neiman said. "Wells are 90-feet deep and protected by clay. It would be difficult for ammonia to seep into the wells - it would be dissipated or it would be stopped at the clay barriers. There are also artesian springs acting to block the flow of ammonia," Neiman said.

Neiman noted that although it was deemed advisable to issue a health advisory the danger from the spill was so remote that health officials decided not to post local waterways.

He said the water was fast moving and diluting rapidly. "There shouldn't have been any danger even when we issued the health advisory.

Whether it was ammonia or a bacterial infection that caused the cattle's death, the owners are fortunate more animals were not involved. Normally 30 head of cattle are kept on the farm, but only six were there when the ammonia spill occured. Others were at another farm for calving.

Marvin Tobel, part owner of the cows, said he doesn't know what will become of three cows who got into the ammonia but survived.

"The cows are worth anywhere from \$1,000 but they can be worth up to \$10,000 depending upon how they turn out. It can take two-three years to determine the value of the breeding stock," Tobel said.

Marvin Tobel and his brother Charles have raised the cattle as a hobby on the farm at Eleven Mile and Meadowbrook.

Emil Yurik and his wife Betty own the cows in partnership with the Tobels. The Yurik's also live on the property and care for the animals.

Betty Yurick reported the cows were "fine" Thursday morning, but gradually appeared sick during the day.

The cows have the same routine every night. They came up to feed at 6 p.m.; they eat grain and corn," Yurick "They were eating and one just dropped dead. They had swollen up like

"We take good care of our animals." Yurick continued. "We know where all our feed is coming from so it couldn't be in the feed.

Resources.

By KATHY JENNINGS

The Novi school board race has taken another unexpected turn with the announcement of a second write-in cam-

Write-in campaigns will be conducted by Diana Canup, who has announced plans to seek the one year seat created by the resignation of Ruth Waldenmayer, and Kathleen Mutch, who is seeking election to a four year term.

Only two candidates will have their names on the ballot: Incumbent Trustee Robert Schram, running for the four year seat, and candidate Gilbert

Canup said she has decided to wage a write-in campaign at the encouragement of supporters even though she did not submit a valid nominating petition.

Canup's petition was invalidated when school officials determined she had only 17 of the 20 necessary valid signatures and the petition was not

signed by the circulator as required. Superintendent Robert Piwko explained Canup submitted a petition with 20 signatures, but two of them were not residents of the Novi School District

and one person had signed both Canup's 'tions when she took out her petitions. petition and that of her opponent

Gilbert Henderson. "What happens then is the person who submitted their petitions earliest retains the signature," Piwko said.

Election law requires those seeking election to turn in petitions bearing signatures equal in number to one percent of the votes cast for the highest vote getter in the last election, or at least 20 signatures.

Without 20 signatures a person cannot be nominated and their name will not be printed on the ballot.

The deadline for filing nominating petitions was Tuesday, April 13, and election law does not allow Canup to seek additional signatures, Piwko said.

A second point invalidating the petition was that it was not signed by the circulator.

Piwko said school officials obtained a legal opinion on the matter when questions regarding the validity of the petition arose.

Canup admitted she was at fault for the invalidation of her petitions, but added that she did not receive any direc"No one knew what they were doing,"

Canup said. "They were extremely polite, but very confused. They didn't even know where the petitions were when I went in.

"I feel embarrased; when I've seen this happen to people in the past I thought they deserved what they got. I think the same applies to me, but I have been encouraged to run. So many nice people have called and encouraged a write-in campaign. No one told me the rules of the game and I've never circulated school board petitions before. I'm learning the hard way."

Canup said she circulated a single petition because the secretary said she only needed 20 signatures.

She said she asked signers whether they were registered voters in Novi, but did not ask which school district they

"When I was in school people living on Thirteen Mile rode our buses and attended Novi Schools," so Canup said she did not question whether they resided in the Novi School District. Those residents now live in the Walled Lake School District.

Canup said she still intends to run because she believes no one should run unopposed. "I feel there is a need for new blood and insight on the school board," she said.

"I feel bad because this makes the schools look bad - I don't want to blame them. But I'm a victim of circumstances."

Apparently the recent resignation of Administative Secretary Carol Boyer created problems in that new personnel, just learning the complexities of the job, apparently were not familiar with the election nominating process.

Piwko said Canup took out petitions on his new secretary's first day on the

However, he noted the school district is required merely to pass out petitions, collect them and certify signatures. The district also is responsible for publishing deadlines, announcing

available positions and printing ballots. "We've never gotten into the procedure for filling out petitions - the directions appear on the form of the petition. The form is done in accordance to state law; it's identical to state law," Piwko said.

Pilot Charles Walker prefers flying in the air

Quickest route to airport? Novi Road to Nine Mile....

By PHILIP JEROME

How do you get by plane from Novi's Brookland Farms subdivision to the Vernon M. Spencer Memorial Airport in Wixom?

The answer is easier than you might expect. Just take Nine Mile to Taft, Taft to Grand River, Grand River to Wixom Road, Wixom Road to Pontiac Trail and you're

That, at any rate, was the route selected by Charles Walker last Sunday.

Sure there were some bemused looks from motorists who pulled over to the shoulder for a better look as the 23year old corporate pilot and vice president for Univertical Corporation drove his single-engine plane out to the airport bright and early Sunday morning.

But they didn't faze Walker, who has grown accustomed to bemused looks from passers-by ever since he started assembling the plane in the driveway of his family's home on Cottisford Drive.

'Actually, most people thought it was funny," he reported. "It's not often that you see an airplane parked in the driveway of a home in Brookland Farms."

Furthermore, Sunday's early-morning jaunt was not the first time that Walker has "driven" an airplane instead of "flying" it.

"I ran into some unforecast weather near the Oceana County Airport last September and had to put down on US-31," he explained. "The police still haven't figured out how I got it down, but they were very helpful and gave me

an escort the rest of the way to the airport." The first question, of course, is how did the airplane

get to the driveway of a home in the Brookland Farms subdivision. And the answer to that question is also quite simple. Walker carted it in by pick-up truck. The fuselage came on one trip and the wings were brought on another.

"The plane was aging badly and I had decided to sell " said the 23-year old pilot, "but there just weren't any takers so I decided to fix it instead."

Even though he had never built an airplane before. Walker has taken apart and rebuilt almost everything else. He started with lawnmowers as a youngster and has since reconstructed everything from go-carts to motor boats and automobiles.

"I never had any doubts about my ability to do the job," he said, "the hardest part was finding an FAA inspector to approve the work.

"It's just like anything else," he explained. "Nobody wants to take responsibility for anything anymore."

He finally found an inspector willing to undertake the responsibility, however, and started stripping down and rebuilding the aircraft from scratch last October. completing the job just a week ago.

He estimates that he put more than 700 hours of work into the project.

The Sunday-morning trek out to Wixom Airport was uneventful, at least to the on-looker. But Walker said that driving a plane is a lot harder than flying one because of

the ground winds. And to prove his point, he took off Sunday afternoon -

by air — for the Pontiac Oakland Airport. "Driving on the road is ridiculous," he said after driving back by car from the Pontiac Airport. "It's a lot easier to fly.

.City seeks volunteers to aid clean-up effort

The City of Novi is looking for volunteers interested in working to show their pride in the community by fixing and cleaning it up during "Novi Neighborhood Pride Week" beginning May 1 through May 9

"With Novi Neighborhood Pride Week only two weeks away, city officials still are looking for interested volunteers who wish to partake in activities surrounding this special week, "ampulated Assistant City Manager Craig Klaver.

Klaver said two service groups have volunteered to help pick up debris along road sides and in parts. Rotary Club members also have volunteered to paint the old Novi Township Hall on Novi Road.

"This year's Pride Week effort represents a first for the City of Novi," Klaver said. "It is hoped that bomeowners and local businessmen use this week to spruce up their residences. The city is encouraging a city-wide effort to better our community and increase residents pride.

Klaver added: "With the help of both citizens and service groups the first annual Novi Neighborhood Pride week will prove a big success."

Details on specific activities planned for Pride Week are to be released next week.

Those interested in volunteering abould contact Klaver or John Hazelroth at Novi City Hall 346-4500

For property owners whose assessments did not increase or whose assessments dropped, the millage decrease represents an actual decrease in city

Under the formula used to determine if a community must hold a public hearing. Novi could have levied up to 4.9 mills for general fund operations, but instead has proposed a levy of 4.86 mills This is the second consecutive year the city has dropped its millage levy. Last

year the council decided to cut the millage levy from 9.9 to 9.3 mills as a result of the defeat of a statewide tax relief proposal. The city has proposed its second straight millage reduction even though legaly they could have raised the millage levy as part of the 1982-83 budget. This year the Headlee Amendment would have allowed the city to levy 99 per-

cent of the millage authorized by the city charter. Under charter provisions Novi can levy 9 mills for operations. Another 2.23 mills must be levied in order to retire debts incurred for such things as construction of the police and fire stations. So the city could legally have levied more than 11 mills, under provisions of the Headlee But the city has proposed a total levy of 9.1 mills.

City council members will continue their review of the budget tonight (Wednesday) at 8 p.m. in the lobby of city hall. Proposed budgets for the police department, fire department, building department and water-and-sewer department are slated for discussion at tonight's meeting.

Wixom opposes solid waste plan

opposition to the proposed Oakland County Solid Waste Master Plan.

In an April 15 letter, Spencer urged Oakland County Commissioner John Calandro (24th District) to vote against approval of the plan unless concerns...on the impact of a MCU Modular Combustion Unit) on the proposed airport and the community are adequately addressed." The Oakland County Solid Waste Master Plan

has been developed in response to Public Act 641 which requires all Michigan counties to plan and implement countywide solid waste management systems by July 11, 1982. The plan will be presented to the county commission in May for approval and then be put to a

vote of all local units of government. It will take a wo-thirds vote of all units of government i akland County to win approval. If the county fails to approve a solid waste master plan, the Department of Natural Resources

will be responsible for adopting the plan Spencer's primary objections to the plan center around the proposal to locate an MCU at the Ford Motor Company's Wixom Assembly Plant. An MCU is a facility which converts solid waste to energy (steam) through combustion.

The Oakland County plan proposes two MCUs -

George Schutte, assistant chief engineer in the county's sewer, water and solid waste division. told the Wixom council last week that Ford and Parke-Davis appear to be the only industrial users in the county capable of utilizing the energy produced

If one of the proposed MCUs has to be scrapped he said, there probably will be a need for additional In the letter to Calandro, Spencer listed three

major concerns about the MCU's potential effect on the proposed expansion of the Vernon M. Spencer Memorial Airport: 1) the height of smoke stacks, 2) "If the height of the stacks exceeded 149 feet it could represent a potential hazard for aircraft

utilizing Spencer Field," said the mayor. She also noted that excessive smoke and particulate matter could create problems for aircraft and asked that Clean Air Act reguirements be strictly monitored for compliance. The mayor asked further than all access roads to the proposed

MCU be payed to eliminate dust pollution. In addition to concerns about the airport, the mayor expressed concerns about traffic and maintenance. She said the city was seriously concerned about the impact on traffic flow in Wixom's central business district of a possible 70-100 trucks per day using the facility.

In terms of maintenance, Spencer requested assurances that the MCU be properly maintained to prevent unsightly debris. "The possible attraction of birds could impact the operation of aircraft in that area." she added. "If there is an enclosed area for dumping and adequate maintenance, there

Novi Chamber hosts Fessler

State Representative Richard Fessler (R-West Bloomfield) will be the featured speaker at the Fellowship Breakfast sponsored by the Novi Chamber of Commerce next Tuesday (April 27). Fessler's topic will be "Business in Michigan and What the Legislature is Doing to Improve It."

The breakfast will be held in the Red Timbers restaurant at 40380 Grand River Avenue in Novi and is scheduled to begin at 8 a.m. Ticket information is available by calling chamber offices at 349-3743. Fessler is serving his fourth two-year term as 24th District Representative in the Michigan

A 1969 graduate of Oakland University, he received his juris doctorate degree from the University of Detroit Law School in 1972. Before entering private practice. Fessier served as an assistant prosecuting attorney in Oakland County and is also a former chief deputy treasurer with the county and a former case examiner in the subrogation depart-

ment of Michigan Blue Cross/Blue Shield. He is a member of the state's Economic Development & Energy Committee, Insurance Committee, State Affairs Committee and the Michigan Commission on Criminal Justice. He also is vice-chairman of the Judiciary Committee

Village starts stocking lake

The population shot up in Wolverine Lake Mon day, when 20,000-40,000 newcomers poured in. The fish population, that is.

By the end of the day, a small inlet off Ventura Drive was teeming with thousands of northern pike all about the length of a pencil eraser. But the fish, part of a fish-stocking program sponsored by Wolverine Lake and the Department Natural Resources, have great potential, according to the man who organized the village's first

attempt to restock its lake: Village Council Member "It's now just a matter of growing," Sienkiewicz said Monday, explaining that the fish will remain in the inlet until about Memorial Day. Hopefully, they'll be three or four inches long by

then, up from just a quarter to half an inch now, But the pike won't be ripe for eating or even catching for another two years, about the time it takes for them to grow to adult size. Right now, Sienkiewicz said, the fish are "premature and in-

He explained volunteers helped fence off the Ventura inlet recently to form a protected area for the fish to grow without being gobbled by predators. The area is designed to simulate a natural growing space for the pike.

"What we have built is an incubator for fish," said Sienkiewicz, an avid hunter and sportsman. Although Wolverine Lake does not have conditions pike prefer for spawning (a quiet stream or running water), Sienkiewicz and the DNR are hopeful the fish will begin to breed in the lake after they reach maturity; possibly, they will return to the Ventura inlet for spawning.

At this point, Sienkiewicz said, it's too early to tell what will happen with Wolverine Lake's pilot fish program.

OFFICIAL NOTICE TO ELECTORS OF THE CITY OF NOVI OF INTENT TO ISSUE BONDS SECURED BY THE TAXING POWER OF THE CITY AND RIGHT OF REFERENDUM **THEREON**

PLEASE TAKE NOTICE that the City Council of the City of Novi, County of Oakland, Michigan, intends to issue special assessment bonds of the City in the total principal amount of not to exceed \$2.500,000 for the purpose of defraying Special Assessment Districts' Nos. 67, 68 and 69 share of the cost of water (District No. 67), sanitary sewer (District No. 68) and road and storm sewer (District No. 69) improvements in said special assessment districts in the City. The special assessment bonds shall mature serially in not to exceed fifteen (15) annual installments, with interest payable on the unpaid balance at a rate of not to exceed 13% per annum, or such higher rate of interest as may be authorized by law.

SOURCE OF PAYMENT OF BONDS

The principal and interest of the special assessment bonds shall be payable primarily from collections of an equal amount of special assessments and the bonds shall also pledge the full faith and credit of the City of Novi.

IN CASE OF THE INSUFFICIENCY OF THE SPECIAL ASSESSMENTS, THE PRINCIPAL AND INTEREST ON THE BONDS SHALL BE PAYABLE FROM THE GENERAL FUNDS OF THE CITY OR, IF NECESSARY, FROM AD VALOREM TAXES LEVIED UPON ALL TAXABLE PROPERTY IN THE CITY. SUBJECT TO APPLICABLE CHARTER, STATUTORY AND CONSTITUTIONAL LIMITATIONS.

RIGHT OF REFERENDUM

THE BONDS WILL BE ISSUED WITHOUT VOTE OF THE ELECTORS UNLESS A PETITION REQUESTING AN ELECTION ON THE QUESTION OF IS-SUING THE BONDS. SIGNED BY NOT LESS THAN 10% OF THE REGISTERED ELECTORS IN THE CITY, IS FILED WITH THE CITY COUNCIL BY DEPOSITING SAID PETITION WITH THE CITY CLERK WITHIN FORTY-FIVE (45) DAYS AFTER PUBLICATION OF THIS NOTICE. If such a petition is filed, the bonds cannot be issued without an approving vote of a majority of electors voting on the question.

THIS NOTICE is given pursuant to the requirements of Section 5(g) of Act 297. Public Acts of Michigan, 1909, as amended. Further information concerning the matters set out in this notice may be secured from the City Clerk's of-

Novi pursues appeal of foster care home

By filing an appeal of a previously-denied complaint. Novi has taken another step in its attempts to block the opening of an adult foster care home for six developmentally disabled and emotionally disturbed adults at 41386 Llewelyn.

Novi has objected to the denial of its complaint on the grounds that: • the Department of Social Services has ignored the state standard for placement of adult foster care homes which requires homes be 1,500 feet apart: and.

 it was denied on the basis of an opinion that has since been overturned by the courts.

Novi originally filed a complaint, opposing the licensing of the home on the grounds that there is an existing foster care facility within 1,500 feet of the facility and to license another home would result in an over-concentration of facilities within the city The city also argued that mentally ill persons would be placed in the home and the state does not allow placement of mentally ill persons.

Those complaints were denied by the State Department of Social Services, forcing the city to file an adminstrative appeal. The administrative appeal is the second step in the formal administrative appeal process spelled out in the foster

In the appeal the city attorney argues that the complaint should not have been denied. The appeal states that although unlicensed, the home at 41720 Eight Mile, where a mentally retarded man is being cared for, should be recognized as

an existing foster care facility. "The department must recognize that the statute does not require licensure or that an application for licensure be filed, before an existing 'adult foster care facility' is recognized under the act," the appeal states. Approving the license of the group home would

result in an "excessive concentration" of adult

foster care facilities since there is an existing foster

care home within 1,500 feet of the proposed home, The appeal states that the Adult Foster Care Facility Licensing Act does not require licensure, or

at 41720 Eight Mile Road, must bar the establishment of the proposed group home," the appeal "The department would clearly be in error if it licenses the proposed facility and causes the

an application for licensure to be the determining

establish a boundary of excessive concentration.

For this reason the existing adult foster care facility

"Clearly the Act finds the 1,500 feet radius to

factor in establishing "excessive concentration."

establishment of two adult foster care facilities within 1.500 feet." Novi's appeal states further that denial of the city's earlier complaint was based in part on a decision that has been overturned in circuit court.

"The department should be well aware that the administrative opinion in the Canton Township case cited ... has been judicially rejected in the case of Charter Township of Canton versus Department of Social Services.

'(The decision was in error) as a matter of law and fact in denying the complaint of the City of Novi. The license requested by Humanistic Services for the Developmentally Disabled for a proposed

Llewelyn will violate the department's authority

and must be denied," the appeal states. Assistant City Attorney Michael Lewis said court action has not been started even though the city council has authorized the attorney's office to seek a court order which if granted would prohibit the licensing of the home...

"The city anticipates that in light of the Wayne Circuit Court decision the Department of Social Services will re-evaluate its position and make its licensing determination in conformity with the law. We believe the city is legally correct," Lewis said. He noted that the attorneys are "ready to go to

court at any time" if licensing of the home pro-Meanwhile, Rod Krupka of Clinton Valley Community Placement has revised earlier estimates that the home is nearing licensing. He noted that paper work could be six weeks to several months

"It's still pretty indefinite." Krupka said. "There's really nothing new: we're still pro-

Villagers support lake hour use extension

boating on Wolverine Lake was overwhelmingly supported by two dozen residents attending the April 7 Wolverine Lake Village Council meeting. After a public hearing, council members unanimously approved a resolution to ask the Department of Natural Resources to extend highspeed boating one hour during week nights on Wolverine Lake. Council Member Geri Matkowski

Only six villagers were against the extension, which will allow waterskiing until 8:30 p.m. weeknights instead of 7:30 p.m. if the DNR ap-

proves the resolution. While the village council originally said the resolution would ask for a temporary change in order to see what effect the extension would have. the final motion was actually for a permanent change to add an hour to speedboat use on the lake.

Currently, high-speed boating and waterskiing are prohibited between 6:30 p.m. and 10 a.m. (7:30 p.m. and 11 a.m. for areas affected by Daylight Sayings Time) by the DNR under a provision of the Marine Safety Act. The village fell under the act when in 1974 the council first voted to accept a resolution stipulating hours of use by the DNR. Slightly confused on wording of hours, the village council at that time then passed the resolution again in 1975 to comply with wording on the state act,

limiting high-speed boating from 6:30 p.m. to 10

a.m. (or 7:30 p.m. to 11 a.m. Daylight Savings Council members believe that the village's understanding at the time was the law would pertain to jet boats, not speedboats and waterskiing. However, Clerk Donna Thorsberg notes at least five public hearings and two special elections were held

on the issue. "So I do think somewhere along the

Yielding 14.22 Annually In A 30-Month IRA Account

Plus A \$10 Cash Bonus

Also Available: 13.75*18-Month IRA

I Wage Farner
+Security IRA=Lower'82 Taxes

line people had to know what they were doing," Thorsberg said. She feels residents simply weren't aware of to what extent the change would affect

Because the village falls under the act's jurisdiction, a simple resolution to change the hours is not sufficient, said Village Attorney Thomas Connelly. Instead, the village must make a resolution to the DNR, which could look into the issue by conducting a public hearing to get residents' input, Connelly said. The DNR would then decide whether or not to 'If they refuse to react (to the request), you have

no recourse," Connelly said. One other option would be for Wolverine Lake to repeal its ordinance giving the village local control to enforce the state act, which would leave enforcement up to the state.

Council Member John Coxeter backed the resolu-

tion to change the hours, which he had proposed. "I've always wanted additional time in the evening for waterskiing," Coxeter said, explaining that he often gets home from work shortly before 7:30

"I recognize that a lot of people like to have the lake quiet in the evenings," he said. "But it always struck me as kind of sad that we had to suspend the boating at 7:30, right in the middle of the evening during July and August. The lake just sits there." The handful of residents protesting the expansion cited concerns that boaters from outside the village

would head to Wolverine Lake if the hours were extended, making the lake too busy for a quie But Council Member Edward Sienkiewicz contended the lake's only public access site would not

permit a great influx of boaters within the short amount of time of one additional hour. "It's true (that some outside boaters might take advantage of extended hours)," Sienkiewicz said. "But you have to remember our access site is very

Said Coxeter: "It's got to be a lake for everybody We've got to equal it out a little bit. This is the only lake I know of that says you can't go waterskiing

Wixom unveils CIP program

A Capital Improvements Program (CIP) totalling almost \$470,000 for the 1982-83 fiscal year was outlined to the Wixom City Council last week by Assistant to the Mayor Stephen Bonczek.

included among the capital improvement projects are purchase of a rescue truck for the fire department, purchase of three vehicles for the police department, resurfacing of Charms Road and recreation projects totalling \$103,000. The CIP, which will be addressed by the council

during budget deliberations, was presented in conjunction with the proposed use of 1982-83 Federal Revenue Sharing (FRS) revenues. Bonczek reported that the city expects to receive some \$98,660 in FRS entitlements from the federal

government in 1982-83. Added to an anticipated fund balance of \$57,707. Wixom officials project that the city will have a total of \$171,167 in FRS funds available during the upcoming year. According to the proposed \$470,000 CIP for 1982-83, Wixom will utilize approximately \$151,000 in

FRS and an additional \$314,300 from the general fund to finance the improvements The two largest areas for capital improvements are the Department of Public Works which is slated to receive some \$201.800 and the Parks and Recreation Department which is slated to receive \$103,000. Following is a breakdown of proposed CIP expen-

ditures for 1982-83: Department of Public Works (\$201,800). Most of the funds are slated for resurfacing Charms Road (\$122.100). Subdivision sealcoating is budgeted for \$28,200 and the sealcoat program is budgeted for an additional \$26,000. The CIP also proposes purchase of a DPW radio system for \$7,500.

has been budgeted for bike paths, while \$20,000 has been earmarked for tennis court lighting and an additional \$20,000 is proposed for Willis Park development. Resufacing the tennis courts at city hall is also slated in the amount of \$3,000.

\$12,000 for payments on a fire truck. • Police department (\$33,646). Purchase of three

chase of radio equipment is budgeted for \$5,800.

wrapped up in personnel costs.

A special meeting at Walled Lake's Decker Elementary School Monday to discuss the possibility of closing a second elementary school was somewhat predictable in that the heat generated was far greater than the light shed.

Like many school districts in Michigan and state government itself, the Walled Lake School District is faced with substantial financial difficulties. Specifically, the district is looking at a proected deficit of some \$3.2 million in its 1982-83 budget at the present

Added to the financial difficulties is a second problem which also has been felt by many school districts throughout the state, particularly in the metropolitan Detroit area declining enrollment.

Enrollment has declined some 2,000 students (from 11,600 in 1976-77 to 9,600 in 1981-82) over the past five years and district officials project a further decline of 300 to 400 more students in the 1982-83 school year.

Although proposals to close schools are almost always greeted with strong opposition, a responsible school board and administration must face up to the overpaid in relation to their issues of finances and declining counterparts throughout the enrollment if they are to meet their responsibilities and exercise sound management prin-

Although the special meeting at Decker Elementary on Monday served its purpose of providing parents with pertinent information and giving them an opportunity to express their opinions, it also had its depressing aspects.

Perhaps the most depressing aspect was a general tendency to castigate the administration and school board for the district's current problems, even though some of the allegations involved halftruths or, in other instances, no truth at all.

For example, administrative expenses were once again dragged out as a whipping boy for the problems. The fact of the matter is that the Walled Lake district has deleted eight administrative positions in recent years. Further, the school board presently has on the table a proposal that non-union administrative employees receive a pay freeze for 1982-83. So far, non-union administrators are the only group which is confronted with a pay

Additionally, the percentage of general fund revenues expend- \$3.2 million budget deficit. ed for administrative services in Walled Lake rates among the lowest in the 28 Oakland County school districts.

Other concerns expressed by not solve the problems. In fact, it may well stand in the way of a parents involve class sizes and itinerant programs such as art and music. Parents should be concerned about class size and itinerant programs. Certainly. teacher/student ratios are an important element in the educational process. Likewise, instruction in art and music as well as reading, writing and arithmetic have got to work together instead is a valuable element in a well- of casting stones and engaging in rounded education.

We welcome letters

This newspaper welcomes Letters to the Editor. We ask, however, that they be issue oriented, confined to 500 words and that they contain the signature, address and telephone number of the writer. Names will be vithheld on request, but a brief explanation of why the request is being made should accompany the letter. Deadline for submission is 3:30 p.m. Monday. We reserve the right to edit letters for brevity, clarity and libel.

Parent urges support of keeping Decker open

Quality education. I'm certain that this is your chief concern and so I urge you to get involved with "Save Decker School." Since we've all been made aware of Oaklev

few of the educational advantages of Decker elementary. The structure of our building also allows teachers to pursue many different philosophies (whatever that means). Nine-and-one-half years is the minimum time any of our 15 outstanding teachers have been associated with Decker. This

proves without a doubt that there is an exceptional

relationship between parents, teachers and

Oakley Park has stated that they have larger classrooms, shared learning environment and team teaching. You would have to prove to me that that is an advantage over Decker's individual, personal interest in each student.

How is it possible that the use of more floor space is an advantage to a child's learning ability as compared to the excellent record the teachers have in their minimum 9½ years teaching at Decker? Is it Oakley Park's floor space that teaches

It is of importance that all concerned parents make their opinions known. This can be easily done by writing to area newspapers, Dr. Don Sheldon or School Board Members Patricia Jackman, Robert Cooper or Mario Tozzi. Decker's Wildcats are worth fighting for.

Don't close Oaklev Park

The closing of Oakley Park Elementary School would be a tremendous setback for the children and for the taxpayers of our school system. They would be losing a valuable building designed for today's education and for tomorrow's growth in education

in our community The building is centrally located in the school district and is surrounded by nature, clean air, less traffic and has one of the largest playgrounds of the elementary schools in the system.

Oakley Park is capable of absobing Union Lake school students and has the land to accommodate the future growth of the school district. whereas Decker school is in an area where only minimal future growth is possible. Teachers are easily transferrable or replaceable but better-designed,

newer-equipped schools are harder to come by. especially in today's economy. Safety of our children go hand in hand with their education. As former teachers, who each walked to

our own elementary school (Decker Elementary and Walled Lake Elementary), we are pleased and relieved as parents to have our children riding a bus that allows them to be under constant supervision to and from school without the worry of whether or not they arrive at school safely without being harrassed. followed or picked up by any strangers or kooks. Demographics (Time Magazine, February 22, 1982) show that the children that are in

kindergarten today represent one of the nation's lowest birthrates, below 15 percent per thousand, while children born in 1981 and 1982 are up 17.1 percent per thousand If Oakley Park is converted into a service center now that means when additional school

rooms are necessary, the taxpayer is hit for more millage increases to build yet another new elementary school because someone didn't plan today for the future growth of our community tomorrow. The taxpayers of the school district want the best for their children and the most for their hard-

That is why it is essential that Oakley Park Elementary remain a a school. Janice R.T. Leonhardt

Latest research confirms MERIT delivers the taste of cigarettes having up to twice the tar.

Many low tar cigarettes make taste promises. But only 'Enriched Flavor's MERIT offers proof not promises. Proof through extensive smoker taste tests.

MERIT Taste Does It.

In impartial new tests where brand identity was concealed, the overwhelming majority of smokers reported MERIT taste equal to—or better than—leading higher tar brands. Even brands with up to twice the tar.

Moreover, when tar levels were revealed, 2 out of 3 chose the MERIT combination of low tar and good taste.

MERIT Taste Sparks Switch.

In a separate part of this extensive new study, MERIT smokers report that taste is a major factor in completing their successful switch from higher tar brands.

Confirmed: 9 out of 10 former higher tar smokers say MERIT is an easy switch, that they didn't give up taste in switching, and that MERIT is the best-tasting low tar they've ever tried.

Year after year, in study after study, MERIT remains unbeaten. The proven taste alternative to higher tar smoking—is MERIT.

THE INSTITUTE OF TAX Consultants has conferred the title of Certified Tax Practitioner upon Gerry Besh of Northville in recognition of her having fulfilled the requirements and thorough examina-

The certification signifies a high degree of professionalism and a commitment to a program of continuing education in the area of taxation. The award was presented at the annual convention of the Illinois Chapter of the National Association of Income Tax Practitioners in

Chicago. Besh has been in the tax business for 14 years and has offices in Dearborn Heights. She and her husband Richard live in Northville and

BEVERLY ENTERPRISES Administrator Chris Bekish states that the nurses at Beverly Manor do make a difference. Beverly Enterprises is a national health care company that owns and operates Beverly Manor in Novi.

"Nursing Does Make a Difference" is the theme for Michigan Nurse Week (May 2-8), which is sponsored by the Michigan Nurses Association and supported by Beverly Enterprises.

Bekish said the expertise of nurses at Beverly Manor in geriatric nursing combined with their compassion helps meet the needs of the residents at the skilled nursing facility at 24500 Meadowbrook Road. Because most patients at a long term care facility are older, they have illnesses characteristic of their age group and also are dealing

with the aging process, Bekish said. That's how geriatric nurses can make a difference, he continued. They are trained to handle residents' physical needs as well as their emotional needs. Besides carrying out physicians' orders, the nurse might extend a listening ear or a smile to a resident feeling a bit lonely.

returning players.

Western carries big bats Young bowler eyes pros Kiwanis seeks members Wixom hosts graphoanalyst

The team is young, but with the future of softball in the Walled Lake

School District in doubt, there is no "wait till next year" attitude at Wall-

Coach Nancy Smith has her eye on an improvement for the Vikings

And since pitching is the name of the game, Smith said, the bulk of that

change-up and is working on a drop. She had a good year in basketball

Narducci was the winning pitcher in all four of Central's victories last

season and will likely pitch just about every game. Mary Ann Gregart, a

Corky Kitzman returns after hitting .333 last season and she will be

"Kitzman's really an intelligent player. She knows the rules amd is a

leader. She has a strong arm and won't get riled, and that's what you need

Central's other strength, according to Smith is in the infield. Robin

Wheeler, a second-team All-Inter Lakes Conference choice as a

freshman, will be at first base. Last year she hit .296, knocked in 16 runs

Senior Laurie Raiger and sophomore Holly Hysell, a transfer from

Walled Lake Western, hold down second and short respectively, with

Baker has never played fast-pitch softball, while Hysell, who Smith

said has the strongest arm on the team, was on the Western junior varsity

"The infield is good desensively. That's what I stress the most,"

Donna Weber returns in center field for the Vikings, but the senior fly-

catcher is the only established outfielder. Sophomores Sue Slais and Sue

Hayes, along with Wheeler and returning junior Sue Kohler will see some

Kohler can play any position and is one of the team's six returning

"We're a young, inexperienced team. The desire is there. We're going

to work," commented Smith. "I think we'll do better than last year. We

Smith tabbed perennial league powers Farmington and Waterford

Township as the teams to beat in the Inter Lakes Conference. Township

has the edge because they return pitcher Chris Dietz, she said, while Far-

"It's hard to say (how the Vikings will finish). We're inexperienced and

we've moved a lot of kids around, so it's hard to say what we're going to

have to keep the desire and the intensity up and we'll do all right."

players. Other utility players include Gregart, sophomore Annette Posey

sophomore Kathy Baker, another Western transfer, at third base.

moving from the infield to behind the plate. The senior speedster stole 17

pressure will be focused on returning senior pitcher Kathy Narducci. "I hate to lay it all on Narducci's shoulders, but it's pitching (that's the key to success)." she stated. "She looks real good. She's learned a

and volleyball and I hope she can keep it up."

junior, could see a few innings of spot duty.

bases last year to top the team.

from a catcher." Smith observed.

and stole 12 bases.

remarked Smith.

action in the outfield.

do." Smith noted.

and freshman Tracie Engle, all infielders.

last vear.

over last season's 4-11 mark. That means a lot of pressure on the six

Western's Don Peasley (left) falls to Central's Daryl Pigeon

Viking tennis team nets first win Western coach Noah Gregory said both matches could have gone either way which would have made and Scott Armstrong easily defeated Chris Rigg and

for a closer match.

Coach Frank Jasieniecki's Walled Lake Central boys' tennis team had a tougher time than the score indicates with its 6-1 win over non-league city rival Walled Lake Western Monday afternoon.

The Vikings came away with three-set victories at second and fourth singles to make it look like they had an easy time over Western, when actually the Warriors could have easily won the match

Central's Jim McLeod triumphed over Western's Chris Smith, 3-6, 7-5 and 6-1, at second singles, while Steve Herwin came from behind as well to defeat the Warriors' Karl Buttenmiller, 7-5, 5-7 and 6-4 at

fourth singles.

Solomon is out with a hand injury and no one is quite sure when he will be able to return to the courts. Bill Harper, another top singles player for Gregory, was not back from his vacation. Both players were lated for starting slots, Gregory said.

Novi runs set

Registration is now open for the second annual Providence Hospital Novi Run on Sunday, May 2 The 5.000 and 10,000 meter runs are co-sponsored by the Providence Hospital Ambulatory Care Center in Novi and the Novi Parks and Recreation Department.

The run begins at 9 a.m. at Novi High School on Taft Road, just south of Ten Mile. The 10,000 meter (6.2 miles) course will be run on 50 percent pavement with rolling hills and 50 percent dirt roads. The 5,000 meter (3.1 miles) course will be run on flat pavement. Pam Ashworth, coordinator for community

health education at Providence and one of the planners of the event, said the Novi run helps emphasize Providence Hospital's commitment to nelping people develop healthy habits. Entry fee for the race is \$5 before April 30 and \$7 the day of the run. The first 350 entrants will receive a souvenir T-shirt the day of the race.

Viking diamond future a mystery Bowling is right up Grace's alley

mystery story entitled "The Walled Lake Central Baseball Team" and even coach Ken Butler wouldn't be able to ell you how the story ends. All the Viking coach can do is speculate about the ability of his players. The terrible spring weather followed directly by the spring vacation prevented him from getting much more than a glance at his 1982 baseballers.

"The weather and Easter have really

been a problem," stated Butler. "Yesterday (Sunday) was the first good workout we had.' Adding to the lack of definite knowledge about the team is the fact that only four starters return from last season's 9-13 team, which was a disapget seven to 10 strikeouts per game," pointment to Butler. They and two returning starting pitchers provide the

limb, but we'll be all right if we get good likely be Dan Gilbert in right and

When Steve DeMar rattles off the graduation losses from the 1981 Walled Lake Western baseball team, it sounds a little like last year's starting line-up. Mike Xenos, Jim Kelly, Jim Woods, John Coe, Bobby Reuter...and the list

In fact, just four veterans return from the 1981 squad which finished in second place in the Western Six (W-6) Conference with a 6-4 record and a 10-14 overall

But if you think DeMar is crying the blues over having "to start over," think again. The fact of the matter is that the veteran Warrior mentor sounds almost optimistic about the upcoming season. With 12 juniors, a freshman and just four seniors on the '82 team, DeMar would be justified in talking about "next year," but the year he's talking about

"Sure we lost a lot from last year's team, but I think we're going to be pretty good this year, too," said the Western coach. "We had the finest jayvee team we ever had last year (13-5) and now those kids are coming up to play on the varsity. I'm real encouraged about our chances. Although most high school teams find offense to be their biggest problem,

DeMar believes the 1982 edition of the Warrior nine will plate plenty of runs. His biggest concerns are pitching and defense Guy Whittington, who lettered last year as a sophomore, and Kirk Czarnecki, the starting third baseman from last year's team, promise to head up this year's mound corps. Although Whittington was only 1-5 as a sophomore, DeMar says he pitched much better than his record indicates and will be counted on

heavily in the upcoming season. Vying for the third and fourth spots in the Warrior pitching rotation are freshman righthander Dan Gabriel and a pair of junior southpaws, Mike Beshears and Mike Sorrenting

Backstopping duties are no problem this year as DeMar has a pair of strong candidates to replace John Coe. Mark Dennis, a senior, was back-up catcher last year, while Rick Hunter, a junior, was the starting catcher on the jayvee

Both players are being counted on heavily by DeMar this spring. After the starting job is determined, the other will be moved into an outfield spot. "They're just too good not to be in the starting line-up," DeMar explained. With two starters returning from the '81 squad, the Warriors' infield seems to be just about set. Senior Steve Sharpy, who hit .303 for the varsity last year,

returns to his accustomed spot at first base. And Doug Day, another returning senior, will once again hold down the all-important shortstop spot. At second base, DeMar is looking at both Czarnecki and David Meyer. Czarnecki started at third base last year and was voted the squad's most valuable defensive player, but is being moved to second to allow him to concentrate on his pitching responsibilities. Meyer played second base on the jayvee team last year, but DeMar may move him to centerfield this year to take advantage of his speed and ballhawking abilities.

Mitch Panczyk, a junior up from the jayvees, is the reason DeMar believes he can afford to move Czarnecki off the hot corner. He's described as a good hit/good field type who should give the Warriors two solid years of third base play. Oakley Watkins, another junior up from the jayvee team, is one of the reasons DeMar expects his offense to be more productive this year. Big and strong, Watkins has both speed and power, and is slated to hold down left field. Meyers will probably get the nod in centerfield if he isn't playing second base, and Mark Dennis and Rick Hunter will be called on to patrol rightfield when one or the other is not behind the plate.

Mark Johnson is another candidate for the outfield, as is Brad Krysiak, who also is slated to back-up Sharpy at first base. 'I definitely think we're going to score some runs this year,'' commented the Warrior mentor. "We've got a lot of good bats in the line-up.

"The big question for us is our pitching. We just don't have that much experience on the mound, and you never know how well your kids are going to come through until they've actually got some game experience behind them." Still, DeMar is clearly optimistic as the Warrior nine heads into the 1982 season. And as for 1983...

Softball squad to be tough

Graduation was rough on the second-year coach of the Walled Lake Western girls' softball team, robbing him of such all-conference performers as centerfielder Margaret Grubb, shortstop Tracey Grubb, third sacker Kris Mellema and outfielder

Those players comprised the heart of the Warriors' outstanding 1981 squad which ran up a 16-6 record (7-3 in the Western Six) and topped the season by winning a district championship. And to make matters worse, Kathy Artley, the top hurler from last year's team, managed to break the finger on her throwing hand and isn't expected back until the districts — at the earliest.

Disaster-city, right? Guess again, bunkie. The Warriors will be tough again this year and Szocinski's biggest headache at this point is to determine which of three outstanding pitchers will get the call on the mound until Artlev returns.

The starting pitcher may be Tammy Graves, a senior, who ran up a 6-1 record on the varsity last year. Or it could be Renee Kane, who posted a 10-1 for the Western jayvees last year and is, according to Szocinski, the fastest pitcher "I've ever seen in " the Western Six.''

But it's likely to be Kelly Hunter, a senior? transfer student from Texas, who Szocinksi calls? one of the best pitchers he's ever seen. Kathy Sidor, the starting catcher from the '81'

squad returns for another season, but Szocinski plans to move her out to second base and insert; Tanya Kittle, a junior up from the jayvee team, behind the plate instead. With Dinkins now at OCC, Szocinski plans to use

Val Hall, a 6-3 freshman at first base. Sidor will be at second where she'll team with Bridget Arens to form the Warriors' keystone combination. Arens was an all-conference choice at second base after hitting in the .450 range last year and is just a fine all-around athlete who excels in every sport she undertakes.

That leaves third base to Kane, the junior hurler who was 10-1 last year with the junior varsity. In the outfield, the Warriors will feature Peggy Hathaway, a senior co-captain and second team all-conference choice last year, in left; Michelle Lynch in center and Michelle Shekell in right. Lynch hit at a .300 clip last year and Szocinski expects her to improve that mark considerably in the upcoming season. Shekell is up from the 1981 junior varsity squad.

Bowling has been up Ed Grace, Jr.'s alley since he was a mere toddler of

three years old. Since that time the 12-year-old Novi resident has quickly been making his mark on the local bowling scene and he doesn't intend to stop here, either. Despite his young years. Grace has his sights on joining the Professional Bowlers Association Tour with the

altimate goal of winning the prestigious

PBA Firestone Tournament of Cham-

pions in Arkon, Ohio. Is it possible? Consider that Grace now is competing in a Saturday morning Farmington Youth League for 13 and 14 year olds at Farmington Lanes because his own age group league was 'no competition.'

His per game bowling average is 172, which is five pins below his 177 high water mark he held briefly. Also, he recorded a 235, just three pins below his league single high game, two weeks ago and currently is the three-game high series leader at 605 for the second hal His personal high game is 243 which was done during practice. For the first half of the Farmington

Youth League, Grace was the holder of the high game (224) and three-game high series (596) categories. "I've always been the high game and high series leader in every league I've bowled in," Grace proudly remarks. Not only that, but bowling 200 games

"I bowl at least one 200 game a week," Not bad for someone who first learned to bowl when he picked up an eight has been Grace's best teacher, aside pound ball at three and started rolling it from helpful tips every once in while down the lanes using the famed bet- from his father, Ed, Sr., and Dave ween the legs method.

is becoming commonplace for Grace.

Freedom Lutheran sets rummage sale

The Freedom Lutheran Church will hold a rummage and bake sale at the Nov Community Building on Saturday, May 1.

Pastor Thomas Scherger reported that clothing and household items will be of fered for sale throughout the day, beginning at 9 a.m. and running until 5 p.m. All rummage during the last hour of the sale will be going for \$2 per bag. "Our communities often feel the pinch of hard economic times," said Scherger. "The members and friends of Freedom Lutheran of Novi feel obligated to help place people's rummage into the hands of other people who can make good use of the items at very reasonable costs.

"Our closets and garages are probably filled with good quality items that may be another person's 'economic lifesaver,'" he added. Anyone who has usable, good quality items to contribute, is asked to bring them to the community building on Friday, April 30, from 5-9 p.m. Volunteers will be on hand to sort and mark the usable items and provide the donors with income tax

The Novi Community Building is located on the east side of Novi Road, between

I-96 and Grand River Avenue.

BE YOUR OWN INTERIOR DECORATOR.

Our free classes can help.

We'll teach you how to coordinate colors...fabrics...furniture styles. In fact, we'll teach you everything we know about the fine art of decorating. And it's

Class will be conducted by our resident decorator, Pauline Varilone.

Class meets Thursday, April 22, at 7:30 p.m. Class will be held right in our store. Please register in advance - class size is limited. No purchase necessary.
