## City's focus shifts away from growth

By KATHY JENNINGS  
Novi editor

NOVI — There will be less emphasis on community development and more emphasis on planning as a result of a recently approved redirection in the Community Development Department.

With the resignation of Community Development Director John Hazelroth, the city council has reviewed the director's duties and decided to emphasize the planning aspects of the job.

The position has been retitled Planning Coordinator and former planning clerk Janice Rom has been named to the position.

Rom has a background in business administration and is studying for a master's degree in urban planning. During her tenure with the city she has been responsible for coordinating planning board duties such as site plan and ordinance review.

"Janice is very competent and we expect she will rise within a short period of time to the potential of doing everything John Hazelroth has been doing," said City Manager Edward Kriewall.

In the interim she will handle less expansion and development work and increase the amount of planning coordination.

The move comes at a time when the city is uncertain about its ability to provide sewer service to future development. The Environmental Protection Agency recently denied funding of the North Huron Valley-Rouge Valley wastewater treatment project, known as Son of Super Sewer. The EPA's decision means the regional sewer project will not be eligible for 75 percent federal funding. The decision could kill the project if communities cannot afford the higher cost of the sewer system.

Novi has nearly reached the limit on the amount of sewage it can send downstream. Without construction of the regional sewer project, it is not known how the city will provide sewer service to new development. Those considerations, coupled with

**Schmid: 'If we don't promote ourselves, we'll get whatever comes.'**

the fact the community development department is handling more work than it can handle, prompted the council to cutback the director's responsibilities.

Even with a reduction in community development activities the position calls for a 50 hour work week.

Kriewall said the emphasis on planning means "we will more adequately address our immediate problem by providing more administrative and clerical support to our planning process."

The planning coordinator position was created "so we could keep up with the concerns of the planning board and development in a general way," Kriewall said.

Other city administrators, such as the city manager and parks and recreation director, will assume some of the duties which formerly fell to the community development director.

"We'll be backing away from some community promotion and community development in the short run," Kriewall said. "We will distribute some of these roles back to other departments during a transitional period."

As Rom becomes more familiar with the new job, she is expected to assume some of Hazelroth's former community development responsibilities.

Kriewall noted the city's experience with the two-year-old community development department

## Census tabulation scheduled to start

NOVI — Census enumerators are scheduled to take to the streets Monday, October 15, according to Census Chief Patricia Loder.

"You can be expecting a knock on your door," Loder said.

Novi is conducting a mid-decade census. If the population rises as anticipated, the city could be eligible for additional state and federal funds. Revenue sharing funding formulas are based in part on population.

The city also could receive an additional liquor license. A community receives one liquor license for every 1,500 residents. Novi awarded its last liquor license to the Hilton Hotel and is now seeking additional licenses.

Census takers will be asking the name of each person living in the residence. Loder said it is a "requirement of law" that residents report their name, address and the names of others living in the home.

Enumerators will carry a badge

with their picture and credentials from the State of Michigan. "If you have any suspicions call city hall or the police department," Loder said. Both have information regarding each of the census enumerators.

Enumerators will be working throughout the city, Loder said. Novi has been divided into 23 districts for the purpose of the census, and each district is covered by an enumerator.

Census takers will attend a school conducted by the State of Michigan and be authorized to start the census after completing the course. Loder said ambitious census takers may start the count as early as October 12.

Loder's goal is to complete the physical counting of the population within three weeks. But she noted bad weather could delay the count. Follow-up work, such as compiling the information and completing the necessary paperwork, could take one to two months after the count is completed, Loder said.

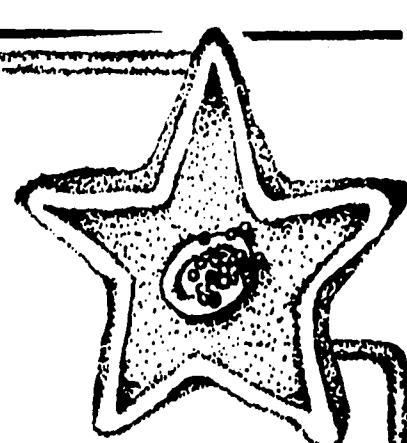

Enumerators will carry a badge

**Lend us your recipes**

Do you have a special recipe which everyone raves about? How about sharing it with our readers?

Sliger-Livingston Publications will publish a collection of recipes submitted by readers in a tabloid section December 5. The recipes can be geared to any season.

All recipes must be clearly typed or written on 8½ x 11-inch paper and include standard cooking measurements. Please print clearly before mailing or dropping off your recipe at:

The Novi-Walled Lake News, 104 West Main, Northville, Michigan, 48167.

The deadline for submitting recipes is Friday, November 9.

At the bottom of the recipe, please include your name, town in which you reside and telephone number.

## Surrounded by Eagles

Novi halfback Tom Marcus finds himself surrounded by tacklers during the Wildcats game against the Lakeland Eagles last Saturday. Coach John Osborne's charges struck for two touchdowns, but it wasn't enough as Lakeland notched a fourth quarter touchdown to hand the Wildcats a 21-14 setback. Novi is now 0-5 on the season.

## Board opposes 'Voter's Choice'

NOVI — Vote "No" on Proposal C. That's the firm recommendation of the Novi Board of Education which last week voted unanimously to adopt a resolution in opposition to the so-called Voter's Choice Amendment on the November 6 ballot.

Specifically, the board adopted a resolution which states it is in opposition to the proposed tax amendment and "strongly recommends that all registered voters of the State of Michigan and particularly the Novi Community School District 'Vote No' on Proposal C..."

Board President Robert Schram said he believed it is important that the school board make voters aware of proposed legislation that will affect the school district adversely.

Trustee Michael Meyer called Proposal C "a way of getting back at an income tax increase that has already been rolled back and was the only intelligent way at the time it was passed to save the state from bankruptcy."

In expressing its opposition to Proposal C, the Novi school board has joined a long list of organizations and public bodies to come out against the proposed amendment. Additional opposition to the proposal has come from the State Department of

Transportation, Michigan Association of Rehabilitation Facilities, the Michigan Infrastructure Coalition and the State Bar of Michigan.

In essence, Proposal C would amend the state constitution to prohibit changes in the base (state equalized valuation) or rate (millage rate) of any state or local tax which would increase its revenue yield or adoption of new taxes unless approved by voters.

Of particular interest to local school officials is a section of the proposal which would make void 90 days after adoption any new or increased rate or base of state or local taxes since December 31, 1981, unless or until it's approved by the voters.

In presenting the resolution in opposition to Proposal C, Superintendent Robert Plivko said school officials are concerned about what effect adoption of the amendment would have on the two millage renewals approved by local voters since the December 31, 1981, rollback date.

Assistant Superintendent William Barr further assailed the proposed amendment, saying it is filled with ambiguities that create confusion.

"Are they trying to say any millage which has been voted on since

December 31, 1981, will be eliminated and have to be voted on again?" asked Barr.

"What if there's a reduction in the base as we experienced in the Novi School District several years ago?"

"If Proposal C is adopted, it's so poorly written and filled with so many ambiguities that it automatically will go to the courts for interpretation. It looks like something which was drawn up by attorneys for the purpose of getting it into the courts."

Barr added that he did not think Proposal C will be passed. "At least it shouldn't be," he added.

The resolution adopted by the board in opposition to Proposal C maintains that:

- the proposed tax amendment, if approved, would lead to a drastic drop in revenues which derive from tax laws enacted since December 31, 1981, and consequent loss of vital state and local service if these taxes are not restored with voter approval;

- approval of the proposed amendment would significantly alter the representative relationship between the voters and state (legislature) and local governing units (boards of education) on tax and revenue issues

**Self...  
lawsuit heard**

NOVI — Although indications are that money for a regional sewer in western Wayne and Oakland counties is gone, the fight to keep those funds from being spent by other communities continues.

Wayne County Assistant Corporation Counsel John Breen said Monday that despite an initial setback in its suit against the Environmental Protection Agency (EPA) the county will pursue the case.

Wayne County filed suit in U.S. District Court last week to keep the EPA from giving \$21 million earmarked for the first phase of the North Huron Valley-Rouge Valley wastewater project, known as Son of Super Sewer, to lower priority projects.

A related lawsuit first was filed in Wayne County Circuit Court by Plymouth and Canton townships. In that case, Judge Sharon Finch granted an order October 1 restraining the distribution of the funds. Wayne County went on to file suit in U.S. District Court since the circuit court has no jurisdiction in the matter, Breen explained.

But at the federal court level the request for a temporary restraining order was denied by Judge Phillip Pratt.

"The money is not gone," Breen insisted. He explained the funds are offered to communities and they have 15 days to accept them. "That process has not been completed," Breen said.

"If the court issued an order (restraining the EPA) this whole process would back up," Breen said.

Although the temporary restraining order was denied, Breen said it was only the first step in legal remedies the county is seeking.

The next step will be a show-cause hearing to find "why the DNR and the EPA should not be stopped from implementing their by-pass procedure," Breen said. The by-pass procedure is the official name for passing over a higher priority project

**DR. WILLIAM BARR**  
by preventing the state legislature and boards of education (and other local governing units) from acting without direct voter approval; and

Town Center plans delayed

NOVI — A meeting with Zuchelli, Hunter and Associates was cancelled at the company's request when it became apparent the second report would not be completed in time for the meeting scheduled Tuesday, October 9.

"The company said they were not comfortable with the land use design portion of the report and requested an extension," said Planning Coordinator Janice Rom. "They said they did not feel prepared and would not

have the entire project ready in time for the meeting."

Rom determined the next available date for a meeting with the planning consultants, who are developing plans for the commercial property surrounding Grand River and Novi Road, would be Monday, October 22.

Zuchelli, Hunter and Associates has indicated they do not want to delay the project by two full weeks, but Rom said there was no alternative date.

The report will be presented at a joint meeting of the city council and planning board. A discussion of a proposed physical design plan and additional information regarding a market analysis study is scheduled to be presented.

The land use plan will be general in nature rather than a parcel by parcel breakdown.

The meeting has been rescheduled for Monday, October 22 at 8 p.m. in the Novi Public Library.

## Planners to study Grand River route

NOVI — A proposed study of the city's office potential that was sent back to the drawing board by the city council has been transformed into a Grand River corridor study.

A detailed study of office development in the current master plan recently was rejected as too comprehensive by the city council, which asked that the scope of the study be drastically reduced.

Community Development Director John Hazelroth presented a proposal to the planning board that would provide an analysis of the proposed land uses along Grand River between Haggerty and Novi roads.

"When we presented the study off to the city, it was received with a demand for commercial zoning at Grand River and Haggerty and a request for industrial zoning," Hazelroth said. "There is a lot of activity in the area," Brett said.

Planners made no decision on whether to give the study to Vilcan-Leman or send it out for bids. Planning Consultant Charles Cairns said Vilcan-Leman could conduct the study for \$1,000-\$3,000.

"I think there are two issues the Grand River corridor needs to be re-examined — pressures from the east and pressures from the west. Pressure for certain types of land uses are coming down both ends of Grand River, we noted.

"With the development pressures moving west from Farmington Hills and the pressure we expect from the Town Center, we felt this whole area

should be studied," Hazelroth explained.

"There's a demand for commercial that could ruin the corridor," Hazelroth warned. "It's important that this study be done now."

Hazelroth said rezoning the area could occur eventually because commercial zoning already exists in parts of the Grand River corridor and much of it is on shallow lots, creating the potential for strip development with many curb cuts.

Planner Joseph Brett also noted that the city has received a request for of- fice zoning at Grand River and Haggerty and a request for industrial zoning.

"There is a lot of activity in the area," Brett said.

Planners made no decision on whether to give the study to Vilcan-Leman or send it out for bids. Planning Consultant Charles Cairns said Vilcan-Leman could conduct the study for \$1,000-\$3,000.

## Groups set for concert

NOVI — Area music lovers will be in for a treat of gala proportions when singers from five local communities assemble for the third annual "Recreation Sings" concert this Sunday, October 14, at our Lady of Mercy High School in Farmington Hills at 3 p.m.

The Novi Chorale will join community choral groups from Farmington Hills, Plymouth, Livonia and Dearborn to form a combined chorus of 400 voices.

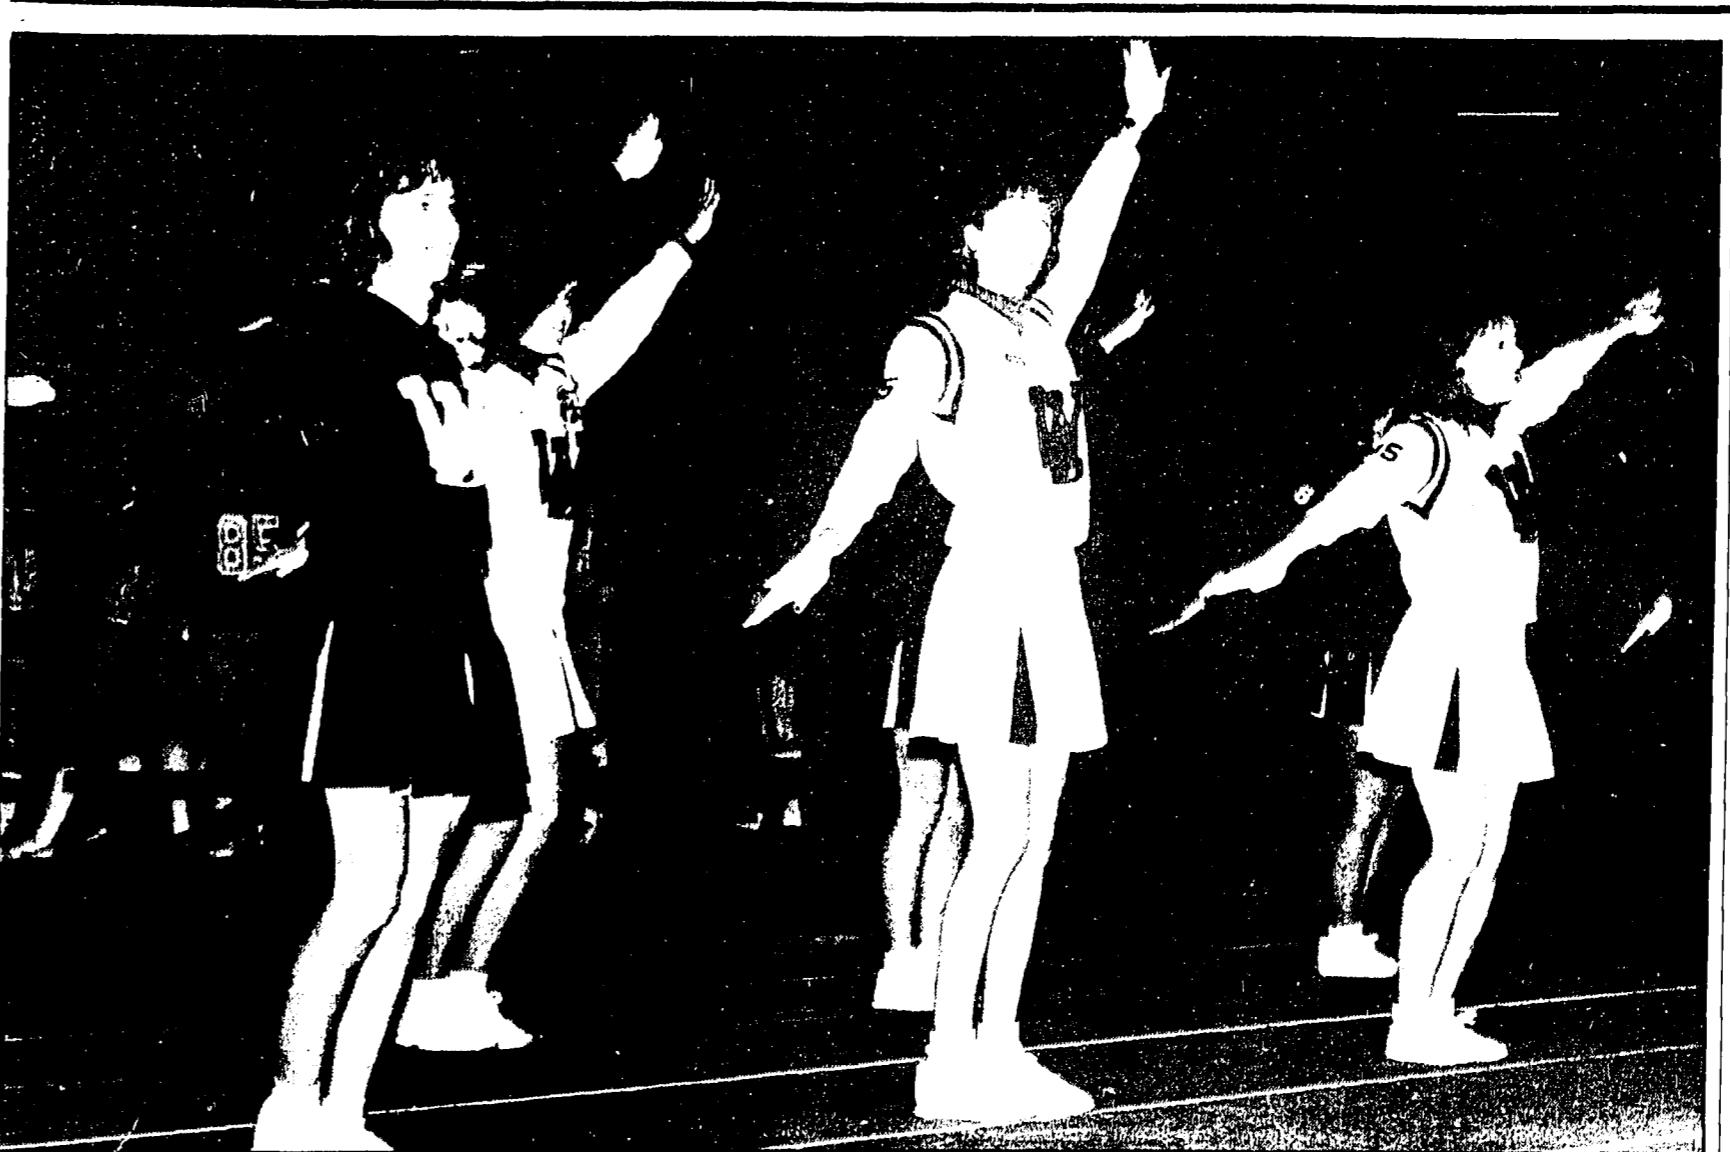

A \$3 donation will be accepted at the door only. Our Lady of Mercy High School is located at the corner of Middlebelt and Eleven Mile.

The concert will highlight performances from each of the participating groups and be culminated by two combined numbers: "Gonna Spread a Little Light" by Lani Smith and Barry Manilow's powerful "One Voice."

The concept of "Recreation Sings" began in 1982 as a result of the desire of area choruses to share together musical and social ties. Each of the groups is an adult chorus sponsored by their local Parks and Recreation Department. The Farmington Hills Parks and Recreation Department is hosting this year's event.

Planners agreed to recommend the study of the Grand River corridor to the city council, which must approve funding for the project.

"With the development pressures moving west from Farmington Hills and the pressure we expect from the Town Center, we felt this whole area

Viking victory

Novi-Walled Lake News/STEVE FECHT

Walled Lake Central cheerleaders had plenty to yell about as the Vikings outscored Livonia Churchill 27-21 Friday for Central's second victory of the season. With spirit week beginning next

Wednesday, the Central squad is preparing for another big outing at the Homecoming game against Livonia Bentley Friday, October 19.

## Novi principal earns degree

NOVI — Timothy Falls, assistant principal at Novi Middle School South, has earned a Ph.D. from the University of Michigan.

A teacher in the Novi Community School District since 1970, Falls said the title of his doctoral dissertation was "Problem Solving Abilities of High School Chemistry Students Requiring Preparation for Testing as Affected by Item and Task Conditions."

Falls is the second building administrator in Novi to earn a doctorate. The other is High School Principal Robert Youngberg.

Falls' achievement was recognized by the school board at its October 4 meeting. Superintendent Robert Pivko said the district will utilize Falls' research in improving its science curriculum.

Falls, 37, received his B.S. degree from the University of Michigan in 1969 and began working as a science teacher at Novi High School in August 1968. He received his MA in the field of Education: Curriculum and Instruction from Michigan in 1974.

Vocational Director Lester Carlson explained that the Williams program, if approved, will be partially funded by a grant from the state Department of Economic Development.

The proposed training program would help entry-level employees, such as maintenance people, upgrade themselves by obtaining additional skills.

Carlson worked with McMullen, SWOVEC Principal John Xenos, SWOVEC placement counselor Gary Sundquist and a representative of the state Department of Economic Development in designing the program. The district's director of planning and evaluation, Sam Alan, also was called to the meeting at the October 8 regular meeting.

The suggestion for a training program of joint benefit to the district and Williams International was first forwarded by Daniel McMullen last March, prior to his election to the school board. McMullen is a personnel manager for the Commerce Township-based engine manufacturing plant.

The program involves six hours of training a week for 20 weeks. The classes will provide enough background in machine tools to qualify employees for entry level machine jobs, Carlson explained.

The cost of the entire project, including instruction, supplies and equipment, is estimated at about \$16,000, Carlson said. The district is looking for a contribution from the state of about \$7,000,

## Schools reach out to business

WALLED LAKE — A program to train 20

Williams International employees in machine tool basics at the Southwest Oakland Vocational Center (SWOVEC) has been approved in an effort to strengthen the tie between the business/industrial community and the school district.

"We've been trying to build bridges with the business and industrial community for 2-3 years now," commented Trustee Merlin Reeds of the Walled Lake school board. "I see this as leading to a very positive and expanded relationship with the business community."

The Williams proposal was presented at the school board's Monday, September 24, study session. The program will be considered for approval at the October 8 regular meeting.

The suggestion for a training program of joint benefit to the district and Williams International was first forwarded by Daniel McMullen last March, prior to his election to the school board. McMullen is a personnel manager for the Commerce Township-based engine manufacturing plant.

The program involves six hours of training a week for 20 weeks. The classes will provide enough background in machine tools to qualify employees for entry level machine jobs, Carlson explained.

## Huron Valley arranges funding for construction

By LEANNE ROGERS  
news staff writer

**COMMERCE** — Agreements between the proposed Huron Valley Hospital and HGH Health Systems were signed last week — a move apparently aimed at securing financing for the proposed hospital.

Huron Valley officials were unable to obtain funding through the state Hospital Finance Authority. But HGH Health Systems President Dick Sejnost said funding for the \$41 million project has been secured through Comerica Bank. He said the

funds would be borrowed by Huron Valley with a guarantee from HGH Health Systems.

HGH Health Systems is a recently formed organization including Harper, Grace, Huzel and Hutzel Warren hospitals, all part of the Detroit Medical Center, and 10 other hospitals in various affiliates. HGH Health Systems is considered one of the largest not-for-profit health care systems in the country.

"We can trim about \$9 million off the financing with HGH because of better interest rates," commented Huron Valley Hospital Attorney

James Foresman. HGH officials indicated the affiliation would benefit Huron Valley by providing services and specializations at the Detroit Medical Center and the Wayne State University Medical School. As a result, Huron Valley will not have to duplicate those services.

Under the affiliation, the current Huron Valley Hospital Board of Directors will be enlarged from nine to 12 members. Two-thirds of the board must be filled from the five-township service area, which includes Commerce, Highland, White

Lake, Milford and West Bloomfield. Among the current board members are Ralph Wiese, Dr. Charles Armstrong, Jay Eldridge and State Representative Robert McGee (R-24th district).

The affiliation with HGH will be completed between Huron Valley and West Oakland Hospital Services, a consulting firm operated by Dr. Martin Trepel. State Hospital Finance Authority officials claimed Trepel could have made huge profits from the agreement with Huron Valley.

"The contract between Dr. Trepel and the hospital becomes null

and void when the affiliation (with HGH) is finalized," he noted.

Trepel was present at the press conference held to formalize the affiliation but refused to make any comments.

In another step toward construction of the hospital, Foresman said HGH has filed a complaint with HHS challenging a federal Department of Health and Human Services decision denying Medicare-Medicaid funding for Huron Valley. The decision would have cost the hospital substantial revenue.

## Assistant needed for cable work

By LEANNE ROGERS  
news staff writer

**WALLED LAKE** — A field of 53 applicants seeking the administrative assistant position for the West Oakland Cable Authority will be narrowed to 12 candidates at a Thursday, October 18, meeting.

"We are trying to pick as a group to decide on four of them (12) candidates to be interviewed by the authority," commented authority Chairman and Walled Lake City Manager J. Michael Dornan. "Nothing is set hard and fast yet. The authority has not decided whether to hire someone."

The authority recently advertised for a part-time administrative assistant on a three-member subcommittee including Geri Matkowsky of Wolverine Lake Village, John Bell of Lyon Township and Richard Olson of Commerce Township, developed a job description for the position.

"They really did a super job developing the paper presented to the authority," Dornan said. "They reviewed the specific necessity for management services. They recommended that a management services agreement be developed."

Under the subcommittee recommendations, the administrative assistant would research, collect and present information to the authority, prepare agendas and meeting minutes, maintain the office agreement to insure enforcement and serve as liaison between the authority and its professional consultants. The administrative assistant also would keep the authority's financial records and aid in drafting requests for services.

"This position would provide a more efficient interface with Greater Media," said Dornan. "The work is basically being done in-house by Walled Lake. We have been glad to do it, but I think the time has come for other arrangements."

Under the franchise agreement with Greater Media, a \$25,000 grant is provided to the authority for operational costs. Dornan said the salary for the part-time administrative assistant would use a portion of that grant.

"The salary for this position has

## Students enjoying lunch out with pastor, school principal

**WALLED LAKE** — Father Leo Broderick of St. Williams Catholic Church was "out to lunch" (as they say) last month. So was St. Williams School Principal Alice Kotwick and several St. Williams students.

Father Broderick, Sister Alice and the students weren't confused or disoriented, they were just participating in a new school program.

The program stems from a school philosophy adopted in August by the St. Williams' staff. It emphasizes the development of positive self-esteem among students, as well as academic excellence. It is St. Williams' year to "Celebrate the Child" — and they've chosen luncheon for the celebration.

Kotwick explained that the school has chosen a special method of celebrating birthdays. Each month, all students with a birthday that month place their names into a pool. Kotwick draws two names from the pool and treats those students to lunch at a local restaurant.

"They love it," Kotwick notes. "The students' response has been very positive — and it's been enjoyable as far as lunch is concerned."

In September, fourth grader Lissa Steffick and eighth grader Ed Otewaki both had lunch with Kotwick at Burger King. The lunch hour provides them an opportunity to

share family backgrounds, plans for the future and favorite hobbies. "It's an opportunity for them to know that principals are human, too," Kotwick noted.

The school also is celebrating students' efforts to improve academically or personally. At the end of each year, five students are recognized from each grade as those who have shown the most improvement in areas such as conduct, courtesy, maturity or citizenship. All 45 nominees are given a certificate of achievement. Then two names are randomly selected for a special reward.

## Lakes Area Briefs

**FOCUS HOPE** will distribute food on Thursday, October 18, at the Dublin Community Center.

The center is located at 685 Union Lake Road, Union Lake. Distribution will be from 10 a.m. to 3 p.m.

**Focus HOPE** provides food supplements to pregnant and postpartum mothers, infants and preschool children. Foods such as dry milk, cheese, canned vegetables and fruit juices, egg mix, meat and infant formula are available.

The Dublin Community Center is a temporary distribution site for October only. Focus HOPE still is in need of a winter distribution site in the Walled Lake area.

**SPIRIT WEEK** at Walled Lake Western High School will be postponed due to delay in completing the gymnasium floor.

Spirit Week originally was scheduled for October 8-15. It has been rescheduled for October 22-27. Homecoming has been rescheduled for October 26-27.

**SEVERAL SENIOR CITIZENS** from the Walled Lake Villa gathered in front of the Novi Square Plaza shopping center yesterday for a progress report on a proposed crosswalk for Villa residents.

The crosswalk, a joint venture of the Villa, the Oakland County Road Commission and Novi Square Plaza, was to have been completed this summer. Walled Lake City Manager J. Michael Dornan, Novi Square Plaza owner Sid Barbour and an Oakland County Road Commission representative met on the site Tuesday, October 2, to discuss delays in completing the project.

Novi Square owners have said engineering problems have held up construction of the sidewalk across the front of the shopping center. However, Dornan said those problems seem to have been resolved. Work on the sidewalk is expected to proceed soon.

**WINTERFEST '85** will be held February 2-3, the Lakes Area Chamber of Commerce has determined.

A planning meeting is scheduled for 7:30 p.m. tomorrow (October 11) at Walled Lake City Council chambers. For additional information call Winterfest Chairman Wendell Allen at 624-6968, Vice Chairman Jon Rehder at 624-1531 or chamber offices at 624-3226.

Our committee members for the festival include Kitty Dunger, advertising; Bill Lawson, mobile home; Emery Jacques, concessions; Don Clegg, sandwich; Carol Keren, softball; and Bill Senior, fishing.

Fourteen concession spaces are available.

**TWO DUPLEX BUILDINGS** are planned on Pontiac Trail, east of the Decker Road intersection, across from the Walled Lake Missionary Church.

Local developer Paul Profit last week received city council approval of the project he requested to allow construction of two duplexes on the site. The property was rezoned Duplex Family Residential from Multiple Family Residential.

Profit has received tentative site plan approval for the two buildings. He still requires a variance from the zoning ordinance to allow both units to be constructed with a 90-foot frontage, rather than 100 feet as specified in the ordinance.

A Novi woman reported her \$18,000 Cadillac Seville was stolen October 2

from the drive of her home in the 2000 block of Haggerty.

The woman said she discovered the theft when she left for the morning of October 2. Police said it appeared the car was broken into through a window.

The woman told police the lock on the door of the storage area had been pried open.

While patrolling the Beachwalk parking lot, police allegedly discovered the pair hiding in a grey Mazda. The police became suspicious when they saw a man running from the parking lot and entering with intent to commit a larceny.

They were released on \$2,000 personal bond with examination set for October 11.

## Sheldon pay hiked

Continued from Walled Lake, 1

Sheldon's contract is a four-year agreement that expires June 30, 1985. The contract called for a salary of \$22,000 in the first year (1981) and \$26,490 for the following three years. In addition, the contract provides the following fringe benefits: a \$5,000 annual tax sheltered annuity; full retirement contributions to the Michigan Public School Employees Retirement Fund; term life insurance in the amount of \$100,000; premium payments on a \$25,000 "premature income" life insurance policy; a leased automobile; 30 days paid vacation per year, which may be accumulated to a total of 60 days; personal business days on an "as needed" basis.

In addition, the adjustment was intended to bring Sheldon's salary plus annuity closer to the average in the county and the region. The average superintendent's salary in Oakland County is approximately \$57,200, excluding annuities. However, among districts with similar enrollment (7,000-10,000), the superintendents' salaries range from \$59,500 (Rochester) to \$71,600 (Farmington).

"We are committed to maintaining the quality of life and the water in the area. We are also committed to providing health care,"

Sejnost said. "We delivered them to the Oakland County Health Division and Department of Public Works. There should be time for public review and comments before the meeting."

Foreman said he hoped the WRC would handle 100,000 gallons per day,

but some obstacles still exist before construction can begin on the 153-bed hospital, to be located on Sleeth Road. The state Water Resources Commission (WRC) has approved a discharge permit for the hospital. But engineering plans and other related documents still must be approved by the WRC before the system is built.

The treatment facility, which would handle 100,000 gallons per day, has been the subject of much controversy. Residents opposed to the hospital claim the treatment plant would damage unprotected groundwater. The Oakland County Health Department and the state Toxic Substance Control Commission have raised similar concerns.

"We are working with the Department of Natural Resources (DNR) on

meets its wastewater discharge requirements.

But without the public health permit, Huron Valley is unable to obtain building permits from Commerce Township.

"The DPH wants us to wait (on WRC approval of the treatment plant), but all that will accomplish is to make our construction costs go up," Foreman said. "The costs in construction are costing the hospital about \$20,000 per month, according to Foreman. Getting foundations laid before winter is becoming a great concern, he said.

"We plan about 21 months construction time. Hospital Building and Equipment will receive bonuses for earlier construction," Foreman said. "We might be closer to 18 months in construction and have the doors open in 20-21 months."

Development of the Novi-IBMOD is

## Novi views student achievement

Continued from Walled Lake, 1

NOVI — The term "IBMOD" may not sound particularly important.

But it is the vehicle by which the Novi Community School District hopes to achieve many of the goals laid out by the Novi Task Force for Excellence in Education.

"The DPH wants us to wait (on WRC approval of the treatment plant), but all that will accomplish is to make our construction costs go up," Foreman said. "The costs in construction are costing the hospital about \$20,000 per month, according to Foreman. Getting foundations laid before winter is becoming a great concern, he said.

"We plan about 21 months construction time. Hospital Building and Equipment will receive bonuses for earlier construction," Foreman said. "We might be closer to 18 months in construction and have the doors open in 20-21 months."

Development of the Novi-IBMOD is

predicated on research that indicates individual schools are the largest educational units in which meaningful change can be implemented and (2) school principals are the key agents for overseeing that instructional goals are carried out with the classroom as the primary delivery point.

The IBMOD is comprised of three key elements: (1) a statewide testing program to measure achievement in reading, a Building Planning Team headed by the principal in each of the six Novi schools and a Cabinet Office Team comprised of the superintendent, assistant superintendent, educational programs director and special services director.

The process begins with the administration of a districtwide testing program. Piwko said the tests will be administered in January/February and again in May.

The programs developed by Building Planning Teams then will be reviewed

"The question has been to determine

what we can do to accelerate student achievement so that we know we're being as effective as possible in meeting the educational needs of our students and educational expectations of the community," said Piwko.

"We know we've been successful in the achievement of our objectives as measured on the state testing program," he added. "We feel this tool will enable us to go considerably farther than that."

## As We See It

### City should retain recruitment effort

Novi's redirection of the Community Development Department from development to planning cannot be allowed to become a permanent policy.

Given the circumstances, the decision to de-emphasize community development is appropriate. The move comes at a time when the city cannot guarantee sewer service to prospective developers. Novi stepped up its active pursuit of development when it believed the sewer capacity problem was resolved. Now that capacity is again in question, the city has to pull back from community development.

The city can ill afford to provide that support at the expense of community development. If it were not for the sewer situation, the move would be considered even more serious.

One planning board member recently noted communities that don't participate in community development are "putting their heads in the sand." With stiff competition for development in the metropolitan area, Novi could lose many prime developments to its neighbors if it abandons the community development business.

Mayor Robert Schmid correctly described the situation, saying, "If we don't promote ourselves, we'll get whatever comes." Acquiring quality development and the solid tax base that comes with it is a goal that must be pursued, not simply left to chance.

Redirecting the department should provide the necessary administrative and clerical support for the planning board, hopefully alleviating some of the backlog. Improved administrative support for the planning board was long overdue.

Despite the short tenure of the majority of planning board members, the board is running smoothly, initiating needed studies and setting priorities. There also is

### Paint job is a 'piece of cake'

I'm becoming quite the handywoman. I'm not up to changing the oil in my car or fixing the plumbing yet, but I have accomplished a few more simple tasks — the most recent of which was repairing my mother's first color television. My job was to hold the mirror, which enabled him to see the picture tube while he adjusted the wires inside the back of the set.

I think I picked up my propensity for handwork from my father, who was one of the most meticulous do-it-yourself people I've ever known. I loved being "Daddy's little helper." I remember spending hours in his basement workshop "helping" him build our family's first color television. My job was to hold the mirror, which enabled him to see the picture tube while he adjusted the wires inside the back of the set.

Later on, when I was a little older, I had more hands-on involvement. When we wall-papered my bedroom, for example, I was the tape-measure holder, the keeper of the razor blade (for cutting), and the extra pair of hands needed to keep the paper in line while he struggled to match the pattern.

Somehow these experiences with my father planted the notion in my head that most things are done best when you do them yourself. So last month, when I asked the management about having our apartment painted, and was informed we would not be eligible until we'd lived there four years (FOUR YEARS!), I naturally decided to take on the task myself.

Novi's action shows the effects of the Environmental Protection Agency's decision not to fund a regional sewer for western Wayne and Oakland counties already are being felt. Novi is nearing the limits of its sewage capacity. Without the regional sewer, the city cannot promote growth.

A circumstance which probably carried as much weight in the decision to realign the community development department was the high volume of activity currently handled. City administrators calculated that even with the director and planning clerk working overtime, as they currently do, there are approximately 20 hours of work each week they simply cannot complete.

Redirecting the department should provide the necessary administrative and clerical support for the planning board, hopefully alleviating some of the backlog. Improved administrative support for the planning board was long overdue.

Fortunately, the steps the city has taken were designed to be temporary. As the new planning coordinator becomes more familiar with the job, she is to assume more community development responsibilities.

When that happens, the city must recognize the equal importance of providing administrative support for the planning board, as well as community development.

### Citizens lose out

The Walled Lake school board this week approved formation of a Finance Committee designed to "advise and inform" Assistant Superintendent for Business Patrick Donahue.

As originally proposed, the committee was to serve a three-fold purpose. First, Donahue would benefit from board, administrative and community input prior to making a public presentation of his proposals. Second, board members would have the opportunity for a closer working relationship with the business office. Finally, community participation would help promote a better understanding within the district of the financial operations of the school system.

Unfortunately, as approved, the committee can only hope to accomplish one of those objectives, and even that only partially.

The committee includes the school board treasurer, Superintendent Don Sheldon, Supervisor of Accounting and Purchasing Paul Martini, two additional board members and one administrative representative. Two community members originally proposed for the committee were dropped at several board members' request.

Of course, by eliminating community members, the aspect of community involvement is lost altogether. It is unfortunate the board does not seem to realize the value of inviting community participation at any time other than "audience participation" at public meetings.

The issues likely to be discussed by the finance committee —

### Learn voting place before November

NOVI — If you are not sure if you are registered to vote in the November 6 election, don't wait until election day to find out, warns City Clerk Geraldine Stipp.

Stipp expects a large turnout for the presidential election and says polling will proceed faster if residents find out ahead of time if they are registered and where they are to vote.

"I can save a lot of time on election day if they call us ahead of time," Stipp said.

Residents can call the city clerk's office during business hours to obtain the information they need. They also should contact city hall if they have moved.

"If you've moved from one area of Novi to another and try to vote at your new precinct when you are still registered at your old precinct, you're going to have a problem," Stipp said.

Although registration deadline for the November election has passed, by ac-

tion, those who qualify for absentee ballots received through the mail also is approaching. Stipp explained the clerk's office cannot mail out absent voter ballots after 2 p.m. Saturday, November 3.

If necessary, those who qualify for absentee ballots can appear at city hall, Monday, November 5, to have the ballot administered to them by the city clerk.

Those eligible for absentee ballots are those who cannot physically attend the polls, are 60 years of age or older, expect to be absent on election day and/or have religious beliefs that prohibit them from voting on election day.

For more information about registration or proper precincts, contact the city clerk's office at 349-3300 during normal business hours.

"How many times that's been passed by the people is null and void?" Stipp asked, referring to the passage last December of the five mills for five years proposal passed last December.

Topping off

Orchard Hill Place Developer Joseph Gerak (left) confers with Gary Selbert during "topping off" ceremonies recently at the Novi Hilton. Selbert has been named general manager of the newest addition to the Hilton chain which is under construction on Haggerty Road at Eight Mile. "Topping off" ceremonies indicate the last steel beam is in place. Hotel officials are hoping to open in June 1985.

## City shifting focus

Continued from Novi, 1  
shows the amount of work that can be created for the department is unlimited. City council and planning board members must be conscious of the administrative burden they create by uncontrolled initiation of planning activities.

But Kriewall said the department still has the potential of handling community development and community promotion. "It's difficult to separate planning and community promotion. The Town Center study flowed from a feeling that community development should occur in that area."

Council members generally supported the city manager's recommendation. Martha Hoyer said she thought the mayor's comments about the potential for overseeing the community development department were appropriate. "We have to be careful or we'll see this department grow even more," she said.

Council Member Arlen Schroeder requested the drafting of a new job description. He also questioned the director's work load. "Conceptually,

it bothers me to create a position that starts with 50 hours a week," Schroeder said.

Mayor Robert Schmid expressed concern that the city should not abandon community development. "If we don't promote ourselves, we'll get whatever comes. It's important to go out after quality development. Let's not sit back and allow (quality developers) to go where ever and then we take what's left. If we stop community development, we're in trouble."

Following her appointment, Rom said she is "excited about the possibility of picking up where (Hazelroth) left off." She noted the promotion was "sooner than anticipated" but it was a goal she had set for herself. "It was something I ultimately wanted to do."

Rom said she is particularly pleased to be working in an "exciting" community like Novi where "so many things are happening." The people she works with also make the job enjoyable. "Everyone works as a team," Rom said. "You get a lot of support."

We at the Gittfiddler just want you folks to know what we're doing here!

Everyone knows we offer lessons in guitar & banjo (all styles) but we don't stop there...

## DDA to purchase water tank

COMMERCE — Municipal water could be available to township businesses within a matter of months as a purchase agreement and bids are being finalized.

Details on the purchase of a 3.2 million gallon water tank from Detroit Edison have been agreed upon, according to Assessor Wynn Berry. "The papers have not yet been signed. We have a letter of intent and their agent talking about that," he added.

The township board approved the project at its meeting last week. The water tank, located on Haggerty Road south of Walnut Lake Road, is to be purchased with tax increment financing through the Downtown Development Authority (DDA).

The municipal water generates revenues from property taxes on an established district. Property assessments will be frozen within the district. Although assessments in the district will continue to rise, revenues above the frozen level will be recaptured and used to finance the public improvements.

## Island removal beats rains

NOVI — The dredging of Meadowbrook Lake, the first phase of a major citywide drainage project, has been completed.

Working late into the night Friday, the Lower Construction Company finished the dredging operation before the weekend rains hit.

Removal of an island from the center of the lake, which council members added to the project as it was nearing completion, was finished last week. Engineering Consultant Raymond Cousineau said the island removal probably added two weeks to the project.

As a result of the dredging, Meadowbrook Lake is now 12-feet deep throughout.

Construction of the dam is 95 percent complete and should soon be finished.

Berry said the cost for acquiring the 3.2 million water tank, pumps, drilling new well and installing pipes is \$1.2 million, to Berry. He said that figure does not include capitalized interests on bonds.

"We expect it will take less than two years to pay off the project with tax increment financing," Berry said. "The plans have been approved by the township board. Now we are seeking bids for the installation."

The municipal water would be available in an area west of Haggerty Road between Fourteen Mile and Richardson Road. The properties are zoned for industrial, commercial or mixed-use development. A 1.4-million-gallon municipal water system will include improved fire protection through sprinklers needed by larger industrial operations. Smaller industrial, commercial and residential users also will benefit from reduced insurance premiums by having fire hydrants installed.

The tank was erected by Edison to store oil during the energy crisis of the early 1970s, but has only been used to store water. Berry said plans call for the tank to be repainted and have interior sandblasting.

Construction bids indicate companies could install pipes immediately, Berry said. The water service could be available early next January or February 1985. "That is really the earliest. It might be next spring before we can get the pipes installed," Berry said. "I really can say I know how the bids come in."

The tank was erected by Edison to store oil during the energy crisis of the early 1970s, but has only been used to store water. Berry said plans call for the tank to be repainted and have interior sandblasting.

DEBBIE MARSHALL

## Business Briefs

JOHN J. O'BRIEN, owner of the O'Brien Chapel of the Ted C. Sullivan Funeral Homes, Inc., attended the fall conference of the Michigan Funeral Directors Association at Boyne Mountain. The conference program concerned "pre-need," the planning of arrangements and funding for funerals before death occurs.

"The future of funeral service is definitely in pre-need," said O'Brien. "The information gathered from pre-need topics discussed at the conference will greatly enhance our ability to serve the public."

Pre-need involves both the pre-arranging and pre-funding of funerals and has grown rapidly in popularity and acceptance by the public in recent years. "Forward-looking individuals view it as one more aspect of prudent estate planning," said O'Brien.

O'Brien cautioned that many people are selling pre-need funerals who are not entirely ethical. "The conference made it clear to me, more than I previously had realized, how unscrupulous some people can be in selling funeral or burial goods and services," he said. "The wise consumer should be careful in knowing just who he is dealing with. Most funeral homes will be happy to supply information to any interested person."

HARTLAND AREA DENTISTS, Drs. Ken McDaniel and John Cabell, and staff invite the public to view their office from 10 a.m.-2 p.m. Saturday at their new location, Hartland Professional Center, 11499 Highland Road (M-59), Hartland.

Referrals will be served and many of the recent advances in dentistry will be demonstrated—including cosmetic bonding, sealants, intercusp orthodontics, x-rays and more.

For the children, there will be prizes and a Charlie Brown film on tooth care.

The new building, Dr. Cabell said, is larger and more versatile with 3,500 square feet. The interior is bright and open and the exterior is distinctive with its brown fieldstone and cedar roofing and siding.

Hours are 8 a.m.-5 p.m. Monday, Wednesday and Friday, 8 a.m.-9 p.m. Tuesday and Thursday. For more information, call 632-5533.

HILTON HOTELS CORPORATION and Orchard Hill Place have announced the appointment of Gerhard Seibert to General Manager and Debbie Marshall to Director of Sales for the new Novi Hilton.

Seibert has been with the Hilton Hotel Corporation in management positions for 11 years, including the Northfield Hotel in Troy, the Fontainebleau Hilton in Miami Beach and the Dallas Hilton. His most recent assignment was at the Hilton of Philadelphia on the University of Pennsylvania campus.

A Purdon University graduate, Seibert is a Rotarian and a member of the American Hotel and Motel Association Committee on International Tourism. A native of West Germany, he became a U.S. citizen in 1972 and served in the U.S. Army from 1969-72, including one year with a helicopter unit in Viet Nam.

Seibert and his wife Kathryn and son, Matthew and Jonathon, will reside Nov. 1.

Marshall is a Detroit native and previously served on the staff of the company's Detroit National Sales Office. She joined Hilton in the Sales Office of the Northfield Hilton in 1976. The following year she joined the Hilton Personnel Development Program and upon completion was appointed Sales Representative for the same hotel.

Marshall in 1978 was promoted to Assistant Sales Manager of the Northfield Hilton, later progressing to the positions of Sales Manager and Director of Sales, where she stayed until being assigned to the National Sales Office. She attended Michigan State University.

The Novi Hilton, currently under construction on Haegergy Road at Eight Mile, is scheduled to open in June 1985. It will feature 240 guest rooms and suites, two restaurants, a lobby bar and an entertainment lounge as well as extensive meeting facilities to include a 9,000 square foot ballroom and a 100-seat amphitheater.

And the SX beats the competition...

• Super quiet operation

• Extra-compact design for easy service and installation

• Carrier-pioneered features for sale performance

• Deluxe quality: Carrier reliability and fuel savings... all wrapped up in an affordable price.

**THE CARRIER WEATHERMAKER® SX** Carrier's most efficient, with every deluxe feature.

## Money Management

### Small business tax altered

Small businesses will discover that the 1984 Deficit Reduction Act plugs loopholes and requires better record keeping, while also granting certain tax breaks, says the Michigan Association of CPAs.

A business owner who decides to buy either a new or used building to house the business will have to settle for smaller deductions over a longer period of time.

Another deduction for owners of business property may take some of the sting out of losing depreciation dollars. You can obtain up to \$35,000 in deductions for expenses incurred removing architectural and transportation barriers that hinder the elderly and handicapped. The maximum deduction was eliminated in 1983 and it had a ceiling of \$35,000. The new law provides for the larger deduction both this year and next.

Another tax break for businesses—that was extended in 1985—comes from the Targeted Jobs Credit, which gives employers a tax credit for employing disabled-to-hire persons, such as economically disadvantaged Vietnam veterans.

Those who are thinking about setting up a business should examine those provisions of the new law concerning startup expenses and a series of new tax advantages granted employee-owned businesses. Expenses businesses incur before they are officially open to the public, such as advertising for a grand opening, have been a source of confusion among taxpayers.

Business owners felt these expenses should be deducted as a current year operating expense. But the IRS maintained that since no business exists at the time these expenses are incurred, startup expenses should be capitalized and deducted over a five-year period.

## Consumers in Eyes and Ears Program

Local officials of the Utility Workers' Union of America, AFL-CIO, Local 105 and Consumers Power Company announced plans to launch the Eyes and Ears Program. The announcement was made on September 19 in Northville.

The Eyes and Ears program is a joint effort by which Consumers utility employees assist local law enforcement agencies by using their radio-equipped vehicles to report emergencies or other incidents.

The employees of Consumer Power Company's Northville Headquarters and its radio-equipped vehicles are the latest to be added to the program, which has proven its success in other areas.

A special logo denoting participation in the program will soon be seen on all Consumers Power Company radio-equipped vehicles operating out of the Northville headquarters.

The signs, officials explained, may act as warnings to criminals that they

### MGDC aids procurement company

The Metropolitan Growth and Development Corporation is cooperating in the implementation of a new private sector service to assist metropolitan area companies in developing or expanding marketing programs for sales to the federal government.

## Library reports annual 'Design-a-Plate' program

By JEANNE CLARKE  
news special writer

The popular "Design-a-plate" program will be held at the Novi Public Library this Saturday at 1 p.m. in conjunction with Library Specials. Advance registration is required and the fee is \$2 per child.

The annual "Design-a-pumpkin" contest will be held at the library October 27 with prizes for best designs.

The library's popular videotape collection has over 370 films and families now permitted to check out three videos at a time.

The Friends of the Library will hold its annual book sale during regular library hours on October 18-20. Donations of books are still being accepted.

FAITH COMMUNITY: A rummage-bake sale will be held at Faith Community Presbyterian Church this Friday and Saturday. Hours are 10 a.m. to 5 p.m. on Friday and 9 a.m. to noon on Saturday. The church is located on Ten Mile at Christina Lane.

Members of the Fellowship Committee will work Thursday to sort and price articles for the sale. Receipts will be given for donations of usable items. Call the church for more information.

A new program called "Faith Outreach" will begin this Wednesday.

Young people are busied to the church from school and adults show up for dinner and stay for adult classes at 6:30 p.m. Classes for children include crafts, recreation and choir.

The golf outing will be held this Sunday at Pebble Creek at 2 p.m. There's a \$2 fee for golfers and a \$1 fee for non-golfers.

WALLIED LAKE: The Walled Lake Book Discussion Group will meet October 27 at the Henderson home at 10 a.m. for breakfast and to discuss "The Scarlet Letter."

ORCHARD HILLS: The Orchard Hills Booster Club will sponsor a paper drive Friday and Saturday, October 19-20.

Students will be asked to donate 10 items of clothing, 10 items of food and 10 items of school supplies to the food bank.

The Boosters have asked each family to make a "wish list" of needed equipment and bring it to the general

## Novi Highlights

membership meeting on October 25 at 7 p.m. Fund-raisers will be scheduled to fill on the waiting list for membership in the Novi "Good Stuff" Food Co-op.

The groups meets at the Novi Methodist Church every Saturday at 9:30 a.m. to shop and share fresh produce from such places as the Eastern Market in Detroit and the Wherewell in Ann Arbor.

The Co-op charges a membership fee which is refunded when people leave the program. Members are required to volunteer three hours per month to work in the program.

NOVI CHAMBER: Ron Ward of Ward & Associates will speak on "Marketing for Survival in the '80s" when the Novi Chamber of Commerce meets at the Red Tin Can at 10 a.m. on October 16.

Agenda items include discussion of the social mix to be held at the Goat Farm under the direction of Rose Crain on October 16 and the Business Expo slated for November 9-10.

New chamber members include Michael Brenzel of Groundwater Resources, Delita Mehl of Hoffman Construction, Terri Ritter of Ritter's of Energy Research, Inc., Andrew Lenz of Little Hornbeck Day School, Merv Gergis of Wine Shoppe and 2nd Alley of the Novi Education Association. The chamber now has 120 members. Anyone interested in joining the chamber may call Executive Secretary Elaine Cook at 349-5143.

ATHLETIC BOOSTERS: The Novi Athletic Boosters are planning to sponsor a vehicle in the October 12 Homecoming parade and the annual Fall Sports Banquet November.

Parents will attend a Smoking Convention in Milwaukee this week to learn the newest innovations in this fast-growing hobby. Anyone interested in membership in the guild may call Novi Education Association at 349-7048.

PERSONALS: Teri Burgess, daughter of Reverend Mr. and Mrs. Richard Burgess, will be married Saturday, October 29 to Robert Scott. Harmon at the First Baptist Church in Lansing. The couple is honeymooning in Mexico and will make its home in Novi.

Hildred Hunt and Violet Howard were guests at a birthday dinner at Jennie Champion's home. Eight friends helped them celebrate.

Doris Dean and Eva Behrendt will represent the independent Rebekah Club at their monthly meeting at Mrs. Darling's home.

Longtime resident John Richter is a patient at Botsford Hospital where he is undergoing tests.

FOOD CO-OP: Anyone interested in

good food at economical prices is invited to call Dan Mullendore at 476-4707 to get on the waiting list for membership in the Novi "Good Stuff" Food Co-op.

The women's group will meet at the church tonight (Wednesday) at 7 p.m. to make plans for the annual bazaar on November 3. The group also will have a CPR workshop on Wednesday, October 17, at 7 p.m.

The young adults will hold a potluck dinner meeting on Saturday, October 20, at 5:30 p.m. Children are welcome; families will work on a Halloween craft project.

Meyer will speak on the topic "Windows and Missions" at the annual meeting of the Detroit Metropolitan Association in Port Huron on October 20.

SIXGATE SQUADRON: Captain Philip Presnell of the Northville Township Police presented the Sixgate Civil Air Patrol (CAP) squadron with several items donated by the Stuckey family, including a half-section of propeller, a pair of oxygen tanks and a 1930s era picture. Mr. Presnell was interested in the aviation industry and interested in CAP. He had been a student at Parks Air College and an aircraft crewmember in 1934.

## Lakeland stops Wildcats, 21-14

NOVI — Led by junior tailback Dan Baenziger, Lakeland stuck the Novi Wildcats with their fifth straight loss of the season Saturday, 21-14.

Baenziger's 102 yards rushing and touchdown run upstaged some fancy passing by Novi quarterback Jeff Tandery. After a slow start Saturday, Tandery was replaced by Novi's usual QB, Bob Huotari. Then Huotari and third-string quarterback Keith Motyka were both sidelined by temporary injuries.

Tandery, only a sophomore, has had his ups and downs this year, but Saturday he had a quiet game with 10 passes for 104 yards and two touchdowns — most of those passes made with a hurling passing arm.

"Jeff made a nice comeback Saturday," said Coach John Osborne. "He handled his responsibilities very well ... I give our offensive line a lot of credit for giving him some time to throw."

The Wildcats never got the ball out of their own territory in the first quarter. Novi stopped the Eagles twice inside the Wildcat 10, but the defense finally yielded a nine-play 40-yard scoring drive capped by Baenziger's six-yard run.

Novi finally managed some field position for the first time in the second quarter. Novi stopped the Eagles twice inside the Wildcat 10, but the defense finally yielded a nine-play 40-yard scoring drive capped by Baenziger's six-yard run.

Fortunately, Osborne has a plan.

"They have a very strong running game and the ability to pass," said the veteran coach. "If we can take care of those two things we can make a game of it."

Now there's some good old football wisdom.

## Huotari leads runners

NOVI — The high-flying Hartland Eagles continued to soar last week. The undefeated Class B women's cross-country powerhouse drubbed Novi 18-42 Tuesday of last week.

Redeeming the loss somewhat was the performance of Kris Huotari who broke up the Eagles' clean sweep of the first seven places with a third-place time of 21:02 at Cass Benton.

"We had kind of a bad day," Novi Coach Norm Norgren admitted. "We ran a hard practice the previous day,

knowing we'd be hard pressed to stay with Hartland. But I was hoping our times would be a little better."

Roundout Novi's finishers were Kelly Hayes (21:50), Cathy Johnson (22:24), Marlene Hall (20:10, 22:40), Mindy Park (12th, 23:00), Julie Watkins (13th, 23:25) and Leslie Helling (14th, 23:31).

Novi (3-3 overall, 1-3 KVC) now will play on a large field at the Oakland County meet at Marshbanks Metropark in West Bloomfield Township on Saturday.

## Canton runs past Warriors, 34-6

WALLED LAKE — Some sort of Western defense扼制了 Lake Canton's offense over the last two weeks.

Roundout Novi's finishers were Kelly Hayes (21:50), Cathy Johnson (22:24), Marlene Hall (20:10, 22:40), Mindy Park (12th, 23:00), Julie Watkins (13th, 23:25) and Leslie Helling (14th, 23:31).

Novi (3-3 overall, 1-3 KVC) now will play on a large field at the Oakland County meet at Marshbanks Metropark in West Bloomfield Township on Saturday.

"I just don't know happened," he added. "It's a hard to put a handle on why we played the way we did." Western dropped to 1-4 overall with the defeat.

The Warriors got on the scoreboard first after Chris Denomme caused a Canton fumble on the 39-yard line.

Western scored eight plays later when quarterback John Doria hit Doria with a 10-yard pass to the 10-yard line.

"It's not in the second half we drove inside the 10 and didn't score one," said Apap. "Our offense was blocked."

But that was about it for the Warriors as Canton dominated from that point on. The Chiefs scored their next possession as Dave Knapp ran in from the one. And that was followed minutes later by a three-yard touchdown run by Mike Johnson,

after a Canton interception. Leading 14-6, the Chiefs added two more touchdowns in the second quarter, one on a five-yard run by Rod Boyd and a nine-yard run by Tony Aikens with a minute to go.

Western drove to the Canton eight early in the third quarter only to have the lead killed by an interception.

The Chiefs added the next play as Dennis Harvey sprang 75 yards.

The Chiefs added the next play as Dennis Harvey sprang 75 yards.

But that was about it for the Warriors as Canton dominated from that point on. The Chiefs scored their next possession as Dave Knapp ran in from the one. And that was followed minutes later by a three-yard touchdown run by Mike Johnson,

after a Canton interception. Leading 14-6, the Chiefs added two more touchdowns in the second quarter, one on a five-yard run by Rod Boyd and a nine-yard run by Tony Aikens with a minute to go.

## Rasinske's 'best' doesn't save Novi

NOVI — Sue Rasinske's "best game ever" wasn't enough to topple Lakeland last Thursday, as the Eagles tripped Novi 48-43 to hand the Wildcats their second league loss.

Having Sherry Lawton on the court with Rasinske might have been enough, but Lawton picked up her third foul after only six minutes. With the senior point guard/forward confined to the bench for nearly a full quarter, Lakeland's pressure defense gave fits to Novi's inexperienced guards.

Rasinske really caught fire during a second-half surge that trimmed Lakeland's lead from 12 points to two with two minutes remaining. The senior power forward/center fired in 20 second-half points.

By the final buzzer, she had a game-high 30 points, 15 rebounds, a handful of steals and had played exceptionally well defensively.

"That's the best game I've ever seen

her play," observed Novi Coach Bill Ayotte. "She really had to carry the whole team for us to win that game, and she just about did."

"I give credit to Lakeland. They're a pretty good team — big, well-balanced. They had five players with at least five points and those are the kinds of teams we have trouble with."

The Eagles ran an effective ball-control game in the final two minutes to drop Novi's record in the Kensington Valley Conference (KVC) to 1-2. The Wildcats are 7-2 overall.

Leach, a senior guard, will remain sidelined for at least six weeks, according to Coach Tom Stiener, who has been beset by problems this season.

"Considering the circumstances, we've progressed exceptionally well as a team," he said. "We've had a lot of adversity, but we've got the kids who step in and do a super job to help."

The return of All-State center Valerie Hall is the best news Stiener has had recently. Next week the Lady Warriors will start practicing on their home court at Western for the first time this season.

With Leach out, Western's perimeter shooting ability is weakened, but Stiener said his team will

be able to adjust thanks to its bench players.

"We had just a super team effort against Bentley," said Stiener. "Our perimeter people played really excellent and Barb Watts did a super job filling in for Leach."

Western's perimeter shooters, Sheri Davis, Sue Baglow and Watts, accounted for 28 points, while the team's inside players, led by Hall and Carol Croll accounted for 27 points.

Hall led the attack with 16. She also had nine rebounds. Croll picked up 11 points and eight rebounds, while Davis collected 12 points from the outside. Baglow and Watts hit for six points apiece.

Western took a 15-14 lead after the first quarter, but trailed 28-27 at the half. The Lady Warriors then outscored Bentley 18-7 in the third quarter to take a 43-33 lead only to have the Bulldogs battle back to knot the score at 47-47 with four minutes left.

Dawn Edwards, another Warrior substitute, broke the tie with a 15-footer and the squad took her cue.

"We could have folded at that point, but Dawn hit the 15-footer," said Stiener. "After that Hall hit a couple and Croll hit one. We kept our composure and outplayed them in the final four minutes."

"On the whole our shooting was very balanced," he added. "Hall had a good game considering she's only at 68 percent. It's going to be a slow process to bring her into shape. We hope to have her 100 percent by the end of the season."

The Lady Warriors outscored Harrison 15-0 in the second quarter of their Tuesday game and went on to a 67-24 cakewalk.

Hall tallied 16 points, while Croll added 15. Edwards, Watts and Baglow had nine each.

Western led 13-12 after the first period then turned on the defense and had a 28-12 lead at the half. The Lady Warriors kept up the attack in the third quarter, outscoring Harrison 14-2, and then wrapped up the victory with a 22-10 edge in the final stanza.

"We came out lethargic and then decided to play defense," said Stiener. "I guess we were looking ahead to Bentley."

"Those middle two periods were the difference," he added. "The girls really picked it up."

Western travels to Plymouth Canton tomorrow (Thursday) before facing Walled Lake Central next Tuesday.

## Hawks post two more wins

UNION LAKE — Quarterback Steve Dabbs completed a 30-yard touchdown pass to receiver Nicholas Pogogna to lead the Union Lake Hawks' freshman team to a 14-0 victory over the Livonia Cardinals.

The Hawk freshman also got a 50-yard touchdown run from running back Ben Doughty. Dabbs passed to David Fisher for one extra point and Scott Moran added an extra-point run.

Jason Edinger and Derrick Barber led the freshmen defense to the shutout.

The Hawks also won the junior varsity game, defeating the Cardinals 13-0 as the Hawk defense posted its second straight shutout. Mike Bolling scored on a 75-yard razzle-dazzle play and Jason Cameron added a TD to make the final score 13-0 and boost the Hawks' record to 4-1.

Alex Brown scored a touchdown after an interception and Nicolas George rushed for another TD, but the Hawk varsity dropped a 32-13 decision.

## O'Dell's wins Wixom crown

WIXOM — Mark Matchulat smacked three home runs to lead O'Dell Chiropractic Center to a 16-4 mercy-rule victory over Hawk Tool last Thursday in the Wixom Parks and Recreation Tuesday-Thursday Softball League championship game.

Bob Dietrich and Frank Boteler also belted round-trippers for the victors, who got 4-for-4 hitting performances from Dietrich and Matt Spencer.

O'Dell and Hawk Tool were both 13-1 going into the final game. The two teams had split their two regular-season confrontations against each other.

"The last time we played they beat us 21-20," chuckled Thursday's winning pitcher, Dick Spencer. "It was like we missed the extra point kick."

Tom Mussen and Mark Ponkey each delivered a pair of hits for Hawk Tool, runner-up in the eight-team league.

## Stackowski paces Wildcat golf victory

NOVI — The Wildcats saved their best for last in league golf play, nipping South Lyon by one stroke 165-166 for their only Kensington Valley Conference (KVC) victory of the season.

"We're shooting right about where we should be right now," Coach Robert Wolf said Monday. "Hopefully, this will get us going for this week's tournaments."

Novi will compete at the 19-team

Class B Regional at Raisin River Golf Course in Monroe on Friday. If they continue to play well, Wolf believes the Wildcats have a chance to qualify for the state meet.

"If we shoot 165 over each nine at Raisin River," he pointed out, "it would give us 330 for 18 holes. Last year, that would have qualified us for state."

Mike Stackowski led the Wildcats

against the Lions at Salem Hills Friday with a 40. Jack Martin carded a 41, one of his best scores this season, and Gary Plotovich and Bruce Valamont each carded rounds of 42.

Two days before, Novi fell to Walled Lake Western 152-165. Despite the Warriors' 13-stroke advantage, Wolf was happy with the Wildcats' showing — particularly since he used all freshmen and sophomores in the match.

Freshman Steve Warthman and

sophomore Jim Young each shot rounds of 40 at Godwin Glen. Gary Plotovich, a sophomore, and Bruce Valamont, a freshman, each shot 43.

The previous Monday, Novi lost big to Howell at Faulkwood Shores 167-180. Plotovich carded the Wildcats' low round of 43.

The Wildcats go into this week's KVC tournament with a record of 1-5 in the KVC. Novi is 3-7-1 overall.

## Warriors harriers nearing WLAA title

WALLED LAKE — Don't look now, but Walled Lake Western's boys cross-country team is narrowing in on the Western Division championship of the Western Lakes Activities Association (WLAA).

The Warriors posted their fourth straight WLAA victory last week, knocking off Plymouth Canton 24-31.

The Warriors, now 4-0 in the WLAA and 4-1 overall, need just two more wins to capture the WLAA's Western Division title. Western is 2-0 in the Western

Division with Farmington Harrison and Livonia Churchill remaining on the division schedule.

Against the Chiefs, Western's top four runners closed up their times so much that Coach Dennis Keeney thinks his squad is almost ready for the big meets ahead.

"Our top four ran really well," said Keeney. "Maybe our top five can run within 30 seconds of each other from here out. It would be a nice development

and it would make us a lot tougher."

Steve Creech, Western's top runner all season, finished second against Harrison in 17:31, while John Thompson and John Kody finished third and fourth with times of 17:44 and 17:45 respectively.

Kevin Fust finished sixth (18:08),

Dave Zenher was ninth (18:28), Bill Stanford was 12th (18:55) and Paul DeRoche was 14th (19:19).

Western faces Harrison tomorrow (Thursday) at home before running in the Oakland County meet at Marshbank

this Saturday (October 13).

"We'll shoot for the top 10 at the county meet," said Keeney. "If we get everybody there, we'll have a good shot at it."

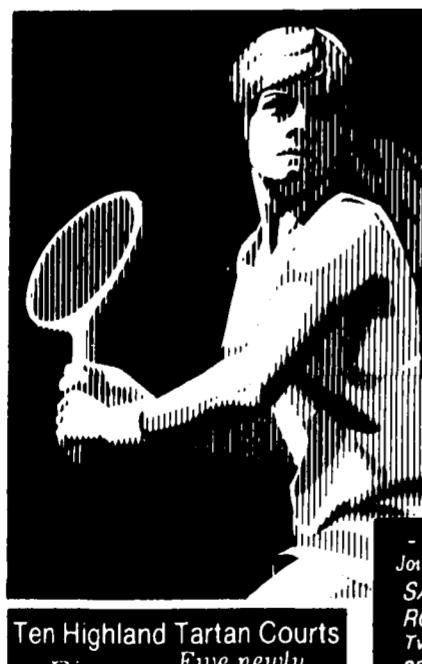

Keeney's other top runner, Mark Tucker, is recovering from an ankle injury.

"The team isn't looking forward to running the county," said Keeney, "and that's not a good sign. We'll still have to overcome a big crowd to do well."
