Tuesday primary in Novi

A light turnout is anticipated in the Tuesday, September 10 primary election despite two important city issues on the ballot. Voters will eliminate two candidates from the mayoral race, and also decide the fate of a proposed \$7.3 million Civic Center.

On the ballot for the office of mayor are Walter Cronkhite, Patricia Karevich, Carol Mason and Robert Schmid. The two top vote-getters in the primary will move on to the general election in November.

Cronkhite, the resident who paid a \$100 filing fee to add his name to the ballot, thereby forcing a primary election, does not consider himself a contender for the mayor's seat. He told the News he took the action as a "concerned citizen" to eliminate the possibility of a three-way race in November being subject to a court challenge.

If he should happen to make it through the primary, Cronkhite has said he still would not wage a campaign.

City Clerk Geraldine Stipp noted the city now has 16,310 registered voters, an increase of about three percent over last year. She expects 20 percent, "or maybe a little more" of those voters to attend the polls September 10.

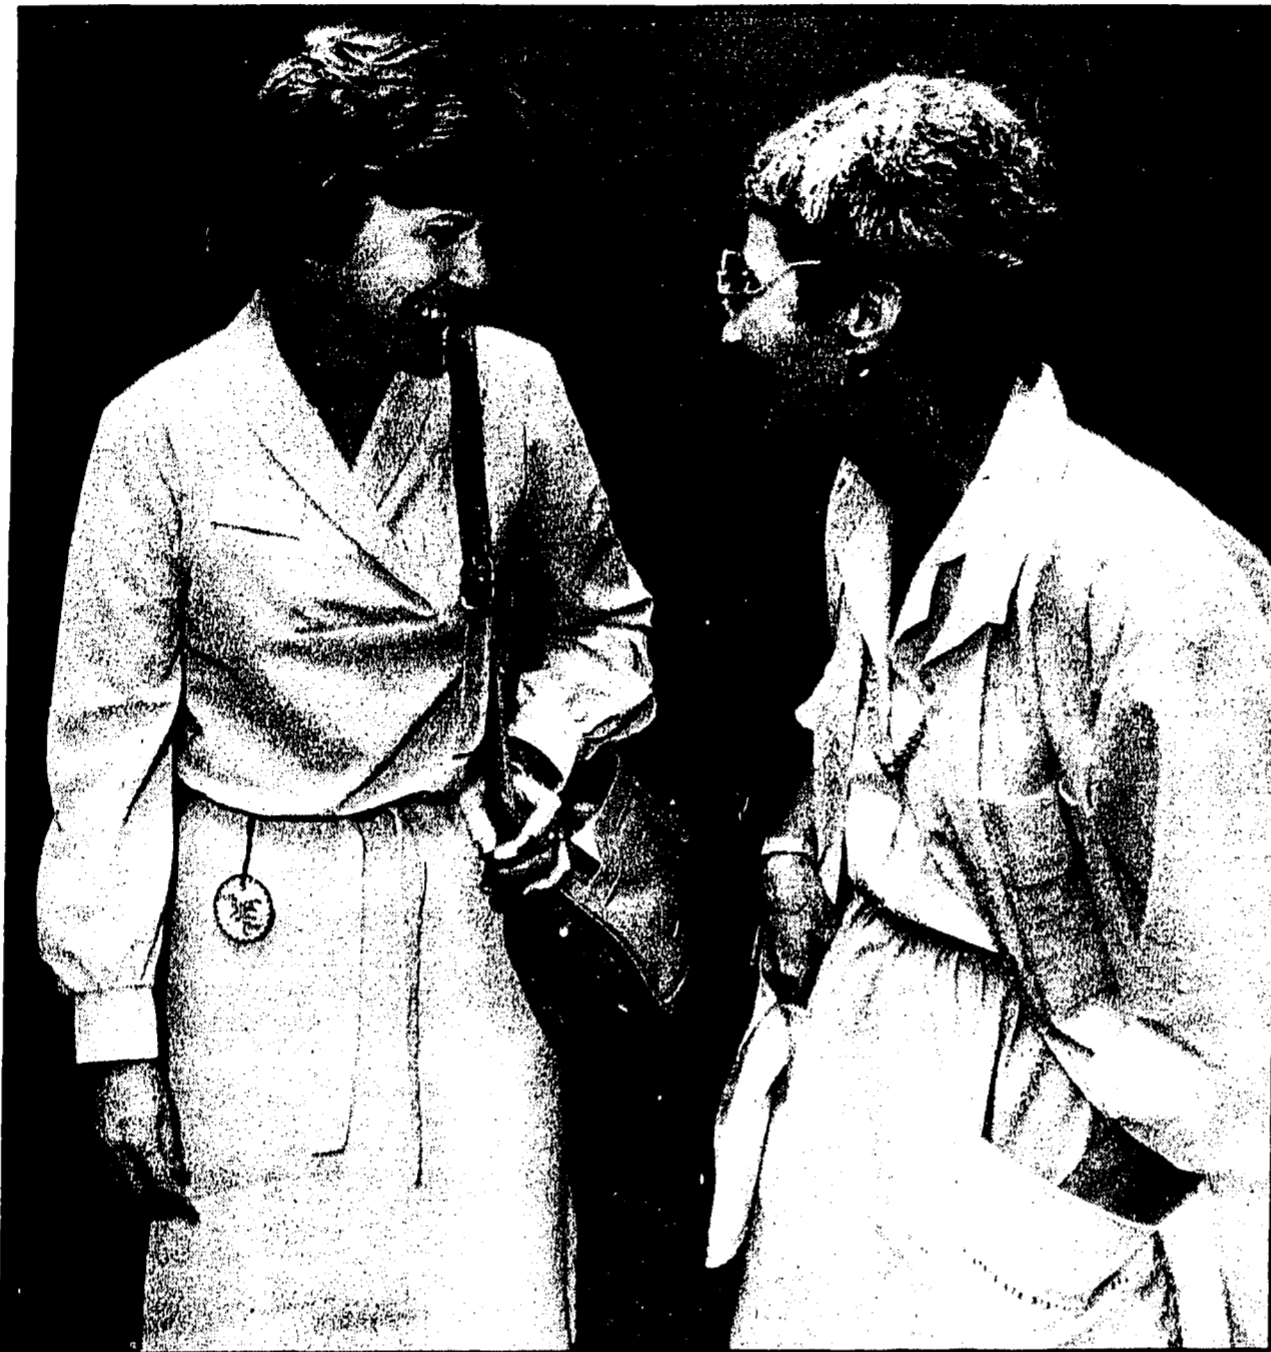

Stipp said 100 absentee ballots have been received for the primary. Approximately 500-600 are typically mailed for general city elections.

Primary turnouts in Novi are traditionally low, Stipp said. In the 1983 primary, only 7.5 percent of the registered voters cast ballots, to eliminate one council candidate from the general election race. In 1981 10.5 percent of the voters attended polls in the primary to eliminate one mayoral candidate.

"Questions definitely will up the turnout somewhat," Stipp noted.

In 1982 the city placed two funding proposals for a stormwater management plan on the primary ballot. Twenty-eight percent of the city's registered voters attended the polls — one of the highest primary turnouts in the city's history.

But Stipp noted the 1982 primary

Mayoral candidates Patricia Karevich (left) and Carol Mason shared a laugh before sharing their views at the Rotary-sponsored Meet the Candidates last week.

also was a state primary, "which normally gets out more voters than a city primary."

The polls will be open Tuesday from 7 a.m. to 8 p.m. Novi voters can cast their ballots at the following polling locations, which are unchanged from last year:

- Precinct 1 — Church of the Holy Cross, 46200 Ten Mile
- Precinct 2 — Middle School South, 25299 Taft Road

- Precinct 3 — Public Library, 45245 Ten Mile
- Precinct 4 — Lakeshore Park Community Building, 601 South Lake Drive
- Precinct 5 — Orchard Hills Elementary, 41900 Quince Drive
- Precinct 6 — Fire Station No. 1, 42975 Grand River
- Precinct 7 — Willow Oaks Elementary, 23333 Villagebrook
- Precinct 8 — Chateau Estates, 42000 Carousell

- Precinct 9 — Novi High School auditorium, 24602 Taft Road
- Precinct 10 — Fire Station No. 3, 42785 Nine Mile

Byers selected as replacement school trustee

By MICHELE M. FECHT
 staff writer

Despite little prior involvement with Novi Community Schools, Raymond L. Byers was appointed by the board of education last Wednesday to fill the remaining term of former trustee Ron Milam.

Byers, a Winthrop resident and three-year member of the Novi Parks and Recreation Commission, was selected for the post from a field of three finalists. In addition to Byers, the school board interviewed Diana Canup and Stephen J. Hitchcock.

Noting that all three finalists were "exceptional candidates," board president Robert Schram said only a few points separated each during the ballot voting.

Byers, a former teacher now with Ford Motor Company, was commended by Schram for his resume and letter of intent to the board.

"Of the seven applicants (applying for the vacancy), we knew most of them," Schram said. "But we didn't know you."

"It's a tribute that you made it to the final three without anyone knowing you."

The board conducted last week's interviews in an open session with all members present. Each candidate was asked the same questions during the 30-minute interviews, and board members voted by ballot in their final selection.

Questions ranged from what book each finalist last read to their thoughts on tax increment financing. All three finalists were asked how they would vote Thursday night when the board considers extending a purchase option on the old Novi Elementary property.

The school board has gone on record opposing any type of tax increment financing for the 11-acre school parcel, which is considered a key to development in the city's Town Center District.

The finalists also were queried as to whether they would run for election to the school board next June.

Asked where improvements could be made in Novi Community Schools, Byers noted he has been "very impressed" with the district.

"My major concerns are what is going to happen between now and the year 2000," he said, adding that he is

Blue-ribbon band: Novi's tops at fair

DETROIT — With two prestigious first-place performances at the Michigan State Fair, the Novi High School Marching Band and Flag Corps came away with more than two blue ribbons. They came away with two trophies and \$750.

More than 10 high schools were entered in the fair's marching band competition August 23, but it was Novi's 165-piece marching band under the direction of Craig Strain which impressed judges enough to earn the first-prize trophy and \$600 award.

Bands were judged on variety, originality, general effect and attire.

"I knew we'd have a pretty good shot at it," Strain said proudly. "Our two-week workshop this summer really gave us an intense preparation for the competition."

"This year for the first time our band is moving up to the MCBDA (Michigan Competitive Band Drill Association), which is a competitive level that's a notch higher than where we've been before. We're going to come up against some bands who always get a lot of rehearsal time than we can, so we'll have to work just that much harder."

The 32-member Novi Flag Corps and eight Rhythmettes also took first in flag corps competition, held the same day. They also received a first-place trophy and a prize of \$150.

Each high school's flag corps per-

formed a dance and flag routine and was judged by a three-member panel.

"The routine they used was one they learned at their camp in Ashland, Ohio this summer," Strain said. "It was kind of a last-minute thing to enter them — we weren't sure we could work it around everybody's schedule. But in the last couple of weeks, they put it all together."

Strain emphasized that the first-place efforts wouldn't have been possible without the dedication and assistance of several friends who helped coordinate the band and flag corps drills, particularly Lee Beatty and Novi High School alumni Jim Wright, Vince Noble and Joan Noble. "We were on a low budget, and they volunteered to help us mostly because they wanted to see their alma mater do well," Strain said.

The funds the band and drill corps raised will go toward the band fund to help finance band travel expenses and purchase of new musical equipment. "We're trying to buy six new tubas for next year; that's one of our goals," says Strain.

Ambulance firm pulls out of city

By KEVIN WILSON
 staff writer

Novi Ambulance is no more.

John Early, owner of the sometimes-controversial private ambulance service, folded his tent in late August, saying he was "sick and tired of the politics, sick of dealing with the bureaucrats and officials."

Emergency services were picked up immediately by Meda-Care Ambulance, a Dearborn firm that moved vehicles into the area and took over Novi Ambulance's emergency phone line. The firm had provided some services in early August, filling in gaps while Novi Ambulance went through a phase-down of operations.

"There was no lapse in service, no danger to the public," Early said last week regarding the Meda-Care takeover.

He said he did not sell his business, though he has

sold a few vehicles. Early said his intent is to begin a new business in an unspecified southern state.

"I'm going to get so far away from this stinking city . . ." he said, the frustration of more than three years of battling government officials evident in his voice. "I don't want no part of the system here."

Meda-Care sales and marketing director Dan Haczyk said the 15-year-old firm owned by his father opted to move into this area because "there's lots of potential there" and the company believes it offers services unique to the area.

Meda-Care does not now hold a license to provide Advanced Life Support (ALS) in Oakland County, though it does offer ALS service in Wayne County (based at Oakwood, Outer Drive and Garden City hospitals).

Service to the area is presently provided by roving vehicles or, if needed, by an ambulance stationed at Six Mile and I-275. Haczyk said he is searching

the area for local quarters, not needing a facility the size of Novi Ambulance's since Meda-Care's main business office is not located here.

"We're basically looking for a place to house the cars and the crews," he said.

Early's was the dominant ambulance service operating in this area until the formation of Community EMS nearly three years ago. Prior to the creation of CEEMS, which operates out of Botsford Hospital, police and fire departments in Northville, Novi and Farmington all called Novi Ambulance when emergency medical care was required at accident scenes.

Under contracts between Novi Ambulance and the local governments, Early's firm was provided with ambulance quarters in various locations and police dispatchers were instructed to contact his

Options being studied for I-696 ramps

By PATRICIA N. BOWLING
 staff writer

Representatives of state, county and local government met in Novi last week to discuss a solution to the traffic problems plaguing southwest Oakland communities.

"Clearly, the portion of I-696 that extends from I-96 to I-275 is not providing the function we want it to provide," explained Bob Adams of the Michigan Department of Transportation (MDOT).

When I-696 was opened to traffic in 1963 and 1964 it was designed to provide limited access to the freeway system from the rural southwest Oakland suburbs. "But the area has developed from a rural area to a rapidly developing commercial and office area," Adams noted.

As a result, the four-lane freeway is inadequate to handle the current peak hour traffic generated by Farmington, Farmington Hills, West Bloomfield, Commerce and Novi. MDOT completed an I-696 access

Adams: 'The area has developed rapidly . . . Our goal is to come up with a solution to the problem.'

study in March, but the recommendations fell short of a solution for the western communities. The study committee recommended widening I-696 to six lanes between I-275 and Telegraph Road and constructing an interchange at Inkster Road.

In addition, the committee suggested MDOT initiate a west I-696 access study from Novi Road to Orchard Lake Road to determine a western interchange location.

These recommendations were approved by the local I-696 Access Study Policy Committee and the Southeast Michigan Council of Governments (SEMCOG) General Assembly.

The goals of the west end study are to determine the location for an inter-

change to provide improved access to the Novi and Farmington Hills area. The interchange should facilitate north-south travel in southwestern Oakland County.

"Our goal is to try to come up with a solution to the problem and to assist in seeing that the solution can be implemented. The solution must include a financing plan to make it feasible," Adams told the local policy committee for the MDOT access study.

The local policy committee includes Novi City Council Member Martha Hoyer, along with representatives from the City of Farmington Hills, the Oakland County Road Commission, SEMCOG, SEMTA and the Federal Highway Administration. Ex-officio members of the committee

include representatives from Commerce, Milford, White Lake and West Bloomfield townships.

Possible interchange locations considered by the committee include Haggerty Road, Drake Road, Halsted Road, Farmington Road, Meadowbrook Road and Beck Road.

But Robert Kirkbride, of MDOT's project development and implementation section, said Farmington, Halsted and Meadowbrook roads have all been eliminated as alternatives.

"Farmington Road has been eliminated because of the existing land use around the area. (To construct an interchange) would involve taking very valuable property," he stressed.

Halsted and Meadowbrook roads have been eliminated because they lack continuity.

Although Haggerty presents tremendous engineering difficulties, it remains the favored alternative.

Theft's a haul — four tons worth

Area Blotters

Nearly 8,000 pounds of stainless steel

castings valued at more than \$5,000 were reported stolen from the TemperForm warehouse, 25460 Novi Road, August 26.

A TemperForm employee told Novi Police the burglary occurred between 2 p.m. August 24 and 6:15 a.m. August 26, when it was discovered. Police said entry was gained by prying open a window on the west side of the building.

Once inside, the police report states, the culprit(s) evidently opened a shipping door to gain access to a loading dock, since the door was found partially open.

Each casting weighed about 35 pounds. TemperForm was attempting to produce a detailed listing of the missing items to assist in further investigation of the burglary.

An air compressor and accessories together valued at more than \$5,000 were reported stolen from a construction site in the 41000 block of Vincenti August 23.

The owner told police the compressor was left on the building site at 5 p.m. August 21 and was missing when he reported for work at 9 a.m. August 23.

The blue Curtis air compressor was rated at 10 horsepower with 59 gallon capacity and valued at \$3,850. Also stolen were an aftercooler valued at \$300, an air dryer priced at \$1,250 and miscellaneous compressor accessories with a total value of \$225.

Owners of a home in the 1600 block of East Lake Drive reported August 22

that unknown persons stole the engine from their lawn mower sometime between 10:30 p.m. and 2:30 a.m. the previous night.

The owners told police the 3-horsepower Briggs & Stratton engine, valued at \$100, was removed from the mower stored in their backyard. They also reported the earlier theft of a \$500 Sears aluminum rowboat.

The owner of a 1976 Ford Granada told Novi police August 23 that his \$225 Lafayette CB radio was stolen from the car while it was parked at the N.I. Industries lot in Orchard Hill Place.

The owner told police he locked the car when parking it at 7 a.m. but found when he returned at noon that the radio had been taken. Police detected no signs of forced entry.

A man who parked his car in the Novi Hilton Hotel parking lot August 23 told police items valued at \$380 were stolen from inside the car.

Reported stolen was \$100 in cash, a \$30 leather wallet, a \$250 radar detector and miscellaneous credit cards and checks.

The owner of the items told police he locked the car when he parked it at 9 a.m. and returned at 2 p.m. to find the

passenger door unlocked. The reporting officer said he believes the door was jimmed, though there was no sign of forced entry.

A 17-year-old Brighton resident told police \$200 was stolen from her purse August 20 when she left it in a Twelve Oaks Mall dressing room.

The woman told police she was shopping at J.C. Penney and tried on some clothes in the fitting room. She said she left the room for five minutes to get other clothes to try on and, when she returned, noticed the money missing from her purse. The incident occurred between 5 and 4 p.m., police reported.

At least two trucks were vandalized and gasoline was stolen from others parked at the Yankee Peddler building on Heslip Drive August 23 and 24, police reported.

An employee told police the trucks were in good repair at 9 p.m. August 23 but damaged at 10 a.m. August 24.

Unknown persons removed the right outside mirror (valued at \$30) from a 1985 GMC cargo van, stole the right front windshield wiper assembly (\$10) and punctured the radiator twice, doing \$150 worth of damage.

Also attacked was a 1983 Ford van. According to the police report, both out-

side mirrors, with frames and posts, were stolen (\$80), the brake lines cut (doing \$50 worth of damage) and the radio antenna broken off (\$10 damage).

In addition, owners reported, an undetermined quantity of gasoline was evidently siphoned from various trucks parked in the lot.

A Whistler radar detector valued at \$120 was reported stolen from a 1982 Chevrolet pickup truck parked at a residence in the 45000 block of Byrne August 24.

The owner told police the theft of the nearly new detector occurred between 10 and 10:37 p.m.

The driver's side T-top was reported from a 1984 Chevrolet two-door parked outside the Marty Friedman Chevrolet Service Department August 26.

The police report of the incident estimates value of the stolen T-top at \$600 and lists the owner as the General Motors Proving Ground in Milford.

A grandmother reported the August 21 theft of two newly purchased jackets.

According to the police report, the Farmington woman said she took her two grandchildren into the A&W restaurant on Novi Road at 12 Mile after purchasing two new girls' jackets at Sears.

She said she set the Sears bag down on the floor beside her feet while she ate lunch with the girls, but that it was gone when they were ready to leave.

"Many establishments primarily serving liquor also have become increasingly aware of offering patrons a choice of alcohol-free refreshments," Cullen said.

"The jackets were valued at a total of \$64.90.

This drinking contest is for those who don't

The Christmas-New Year's holiday season is less than four months away, but those with a flair for creating festive non-alcoholic drinks can enter AAA Michigan's Fifth Annual "Zero-Proof-Mix-Off" competition now.

Winning recipes will be included in a "Great Pretenders" party booklet. The booklet, which will be distributed free at 60 AAA offices statewide in early December, is designed to promote the sensible use of alcohol over the holidays.

Top prize in the contest — which is the centerpiece of AAA's "First A Friend, Then A Host" traffic safety program — is a \$1,000 trip for two to Florida. The second-place winner will receive \$250 cash; third place, \$150; and fourth place, \$100.

The entry deadline for this year's contest is September 16, and it is open to anyone age 18 and over. Previously, only professional bartenders could enter.

"Since many persons celebrate the holidays with at-home parties for friends and relatives, it is important that party hosts be aware of how alcohol affects their guests, especially those who must drive home," stated Robert Cullen, AAA Michigan Safety and Traffic manager.

"Many establishments primarily serving liquor also have become increasingly aware of offering patrons a choice of alcohol-free refreshments," Cullen said.

The jackets were valued at a total of \$64.90.

When you stand up for the homeowners in Novi, sometimes you stand alone.

Re-elect the Mayor. Bob Schmid.

Mayor Bob Schmid is fighting for a Novi we can be proud of: a town center, neighborhood compatibility, sticking to the master plan - not just development for the sake of development, but development the right way.

"Novi has to be more than just Twelve Oaks Mall. It has to be a home and a place to build our lives. That's the kind of Novi I'm fighting for. And if that means standing alone, then so be it."

The difference is, over the past ten years, Mayor Schmid has consistently represented the citizens of Novi.

Mayor SCHMID...the kind of fighter we need

Service

(sar'vis) n. an act of giving assistance or advantage to another. the result of this; benefit; advantage. friendly help. —Webster's New World Dictionary

At John Colone we believe that a Service Department should always remember what its name stands for. And we do. We're committed to friendly, fast, thorough service. Our service technicians are state and A.S.E. (National Institute of Automotive Service Excellence) certified. We use high quality Mopar parts. We give free loaners to customers who have purchased a car from us within two years. Or you may rent a Chrysler vehicle for far less than any of the national car rental companies will offer. We will service your car to your satisfaction.

Our purpose is service. Our goal is to be the best. Bring in this ad for 15% off parts and labor on any repair.

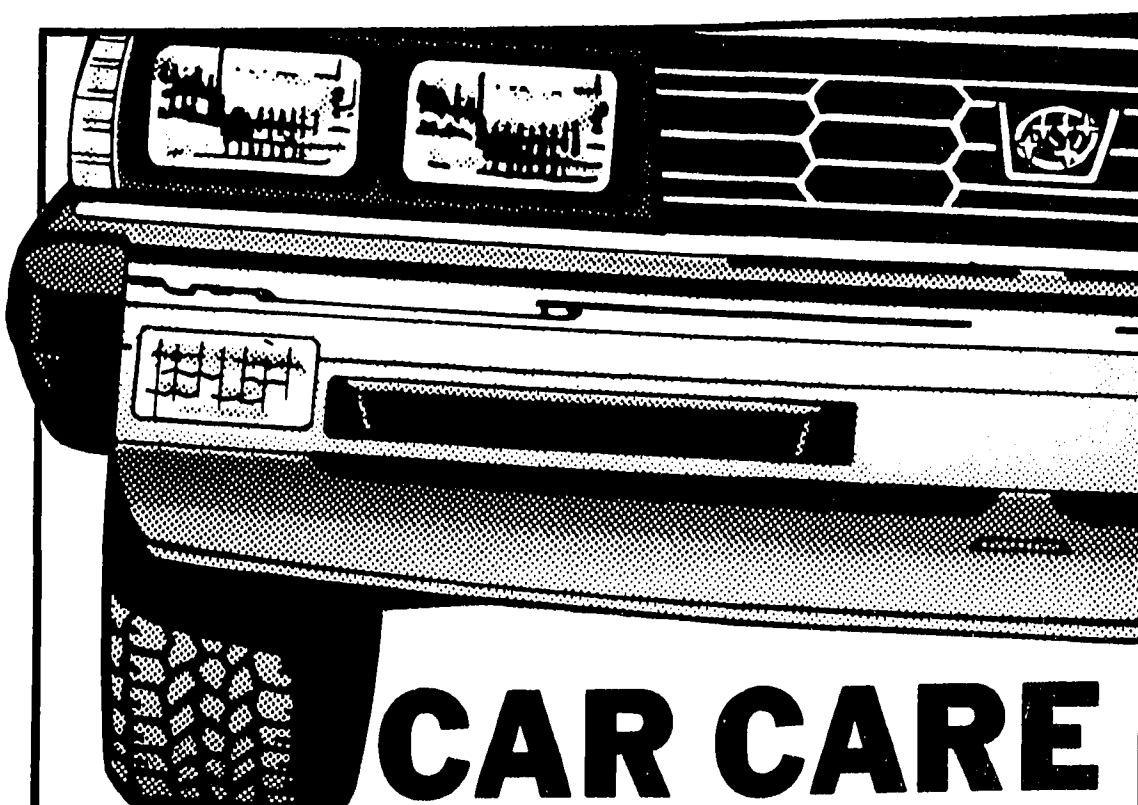

Not to be used in conjunction with any other offer. Offer expires September 27, 1985.

CAR CARE

There's no doubt about it. We're a society on wheels, especially in the Motor City. We drive to school, work, home and play. With such a dependence on the automobile, it's important that we keep our cars in top condition. That's why we're publishing Car Care, a special section that will help our readers with important information on car care. Along with our feature stories and photographs, we hope you'll add your advertising message to this section. You should not miss this opportunity. It's a sure-fire way to put yourself in the driver's seat with our customers.

HOWELL Since 1968 **517/546-2250**

WILSON FORD-MERCURY ANNOUNCES

7.7% ANNUAL PERCENTAGE RATE PLUS

Thunderbird ESCORT F150 Crown Victoria ECONOLINE

CHOICE #1 7.7% APR FINANCING

Your participating Ford dealer allows you the option of 7.7% financing for up to 48 months or 8.9% for 60 months. Financing must be arranged through Ford Credit. Take delivery from stock by October 2. Qualified retail buyers only. Dealer contribution may affect customer savings. Limit one. An example:

1985 Ford Escort	Base Price	Down Payment	Amount Financed	Monthly Payment
2.0L V6 (48 Months)	\$1,856	\$500	\$1,356	\$107.57
4.0L V6 (60 Months)	\$1,856	\$500	\$1,356	\$108.59

CHOICE #2 CASH ALLOWANCE

Here's a choice you can't get anywhere else. If you choose to arrange your own financing or pay cash, Ford will write you a check for up to \$1,000 if you take delivery of your new Ford by October 2 from a participating dealer. You may keep your allowance or apply it to your purchase. The offer is limited to one purchase per retail customer. These are the cash allowances available to you:

Model	Cash Allowance
Escort	\$400
Mustang	\$400
F150	\$400
Lincoln	\$500
Mercury	\$500
Thunderbird	\$500
Crown Victoria	\$500
Full-Size Trucks	\$500
Continental Cars	\$500
Club Wagons	\$500

CHOICE #3 RED CARPET LEASE

Here's another choice you may want to consider. Ford Credit's Red Carpet Lease Plan. Ford Credit has now made available to participating dealers attractive lease terms, as shown in this example for Ford Escort.

Lease Payment is based on the Manufacturer's Suggested Retail Price. Payments shown and total amount due may vary depending upon the options you choose. All lease calculations are based on a 48-month lease. Total mileage allowed during the lease period is 15,000 miles per year. A mileage charge of \$0.08 per mile is charged for all mileage over 60,000 miles at lease end. Lessee is responsible for excess wear and damage.

As a lessee, you may have an option, but not an obligation, to purchase the vehicle at a lease-end price to be negotiated with the dealer at lease inception. Your lease, of course, is subject to approval and responsibility as determined by Ford Credit. Your first month's lease payment and a refundable security deposit are due in advance. You must take delivery out of dealer stock by October 2, 1985. See your Ford Dealer soon to discuss price and terms.

Monthly Lease Payment	Residual Value	Total of Payments	Total of Residual
\$114.54	\$6,854	\$5,492	\$5,492
\$114.54	\$6,854	\$5,492	\$5,492
\$114.54	\$6,854	\$5,492	\$5,492

the fairy godmother's secret is out!

Don't let that "magic wand" fool you! She's tried to make us believe that with a wave of that wand, she can turn pumpkins into carriages, mice into white horses and rags into white gowns. But we know she's just like the rest of us! When we want to turn a baby crib into cash... an older car into a new one... or change from sales clerk to doctor's receptionist... the only magic wand we hold in our hand is a telephone receiver and the only thing we wave is our index finger as we dial the Classified Department of our newspaper! It's like magic the way good things come true for us with the help of Want Ads. And besides, we have a strong feeling that's the way the fairy godmother makes all her magic, too!

Back to SCHOOL LUNCHES

By Michele M. Fecht

Remember the days when school-provided hot lunches consisted of tuna-noodle casserole, fruit cocktail, a carton of milk and chocolate pudding in the guise of a brownie loaf? While such limited culinary offerings may have provided the essential nutrients for growing boys and girls, such lunches most often were used as ammunition for food fights rather than fuel for energetic students.

For those who have not set foot in a school cafeteria in at least a decade, late note.

Gone are the days of runny macaroni and cheese, scoops of goulash and peach slices in heavy syrup.

Today's students — from preschoolers to high schoolers — no longer are turning up their noses with every step down the cafeteria line. And it's easy to see why.

Salad bars, pizza and lasagna, homemade cookies, freshly baked breads and rolls, tacos, French toast, bagels and cream cheese, fresh fruit and hot pretzels are just a few of the items now served in school cafeterias.

Pat Hill, director of food services for Novi Community Schools, attributes much of the variety of today's school lunches to the offer vs. serve provision now utilized by most districts.

Since 1976, when offer vs. serve made its debut at the senior high level, school districts have had the option of allowing students to "select" from a variety of food items rather than being automatically served.

At the senior high level, students are offered five items of the school lunch pattern in the required amounts, but have the option of selecting a minimum of three from the five offered.

The same holds true for elementary and middle school students with some variance in the number of items selected and size of portions on items refused.

The provision not only has provided variety for students but also has given food service personnel a chance to use their imagination when planning school menus, Hill notes.

There also is less waste with students selecting their own meal items.

Yvonne Stevens, supervisor of food services for Northville Public Schools, explains that while offer vs. serve provides more options at the middle and senior high level, it has been very successful at the elementary level since implemented in 1981.

"It's surprising how individual students are at the elementary level," Stevens notes. "I may only put out 12 spinach salads, but they'll all be gone."

Hill attributes much of that individually changing lifestyles. "Kids are very sophisticated today because they eat out so often," Hill notes, adding that she often gets requests for Mexican and Chinese food.

Such sophistication has provided a considerably greater challenge for menu planners. Both Hill and Stevens solicit assistance from food service staff, parents and students when planning school lunches.

In Novi, a Parent-Student-Teacher Advisory Committee helps with menu planning, program promotion, special days and integration of school lunch ideas into the curriculum.

"We even take students to the food brokers on field trips," Hill adds.

If field trips are anything like the Oakland County Mini Food Show held August 22 at Waterford Mott High School, it's no wonder they've become a popular outing.

The show, open to all Oakland County food service personnel, brings together some 30-40 food exhibitors featuring the latest in everything from fruit rolls and granola bars to pizza flavored hot dogs and fish mugglets.

The show not only offers food service employees a chance to sample new lunch items but to discuss packaging, handling, price and content with brokers.

Hill notes that she often brings the brokers into the school to meet with the advisory committee prior to ordering a particular item.

"Novi is a very nutrition conscious area," Hill explains. "I try to respond to that."

In keeping with the wishes of staff, students and parents, Hill emphasizes the district uses no preservatives.

"Everything we make is from scratch," she says.

Novi is fortunate to have its own bakery housed at Middle School North which serves up fresh rolls, biscuits, muffins, breads, cookies and hamburger and hot dog buns.

Aside from the baked goods, other food items are prepared in the kitchens at Novi High School and Middle School North.

Like Novi, students in Northville also have a say in what is prepared in the school kitchen.

"We do sound the kids," Stevens says, adding that she meets with parents, teachers and students at all levels to discuss meal planning.

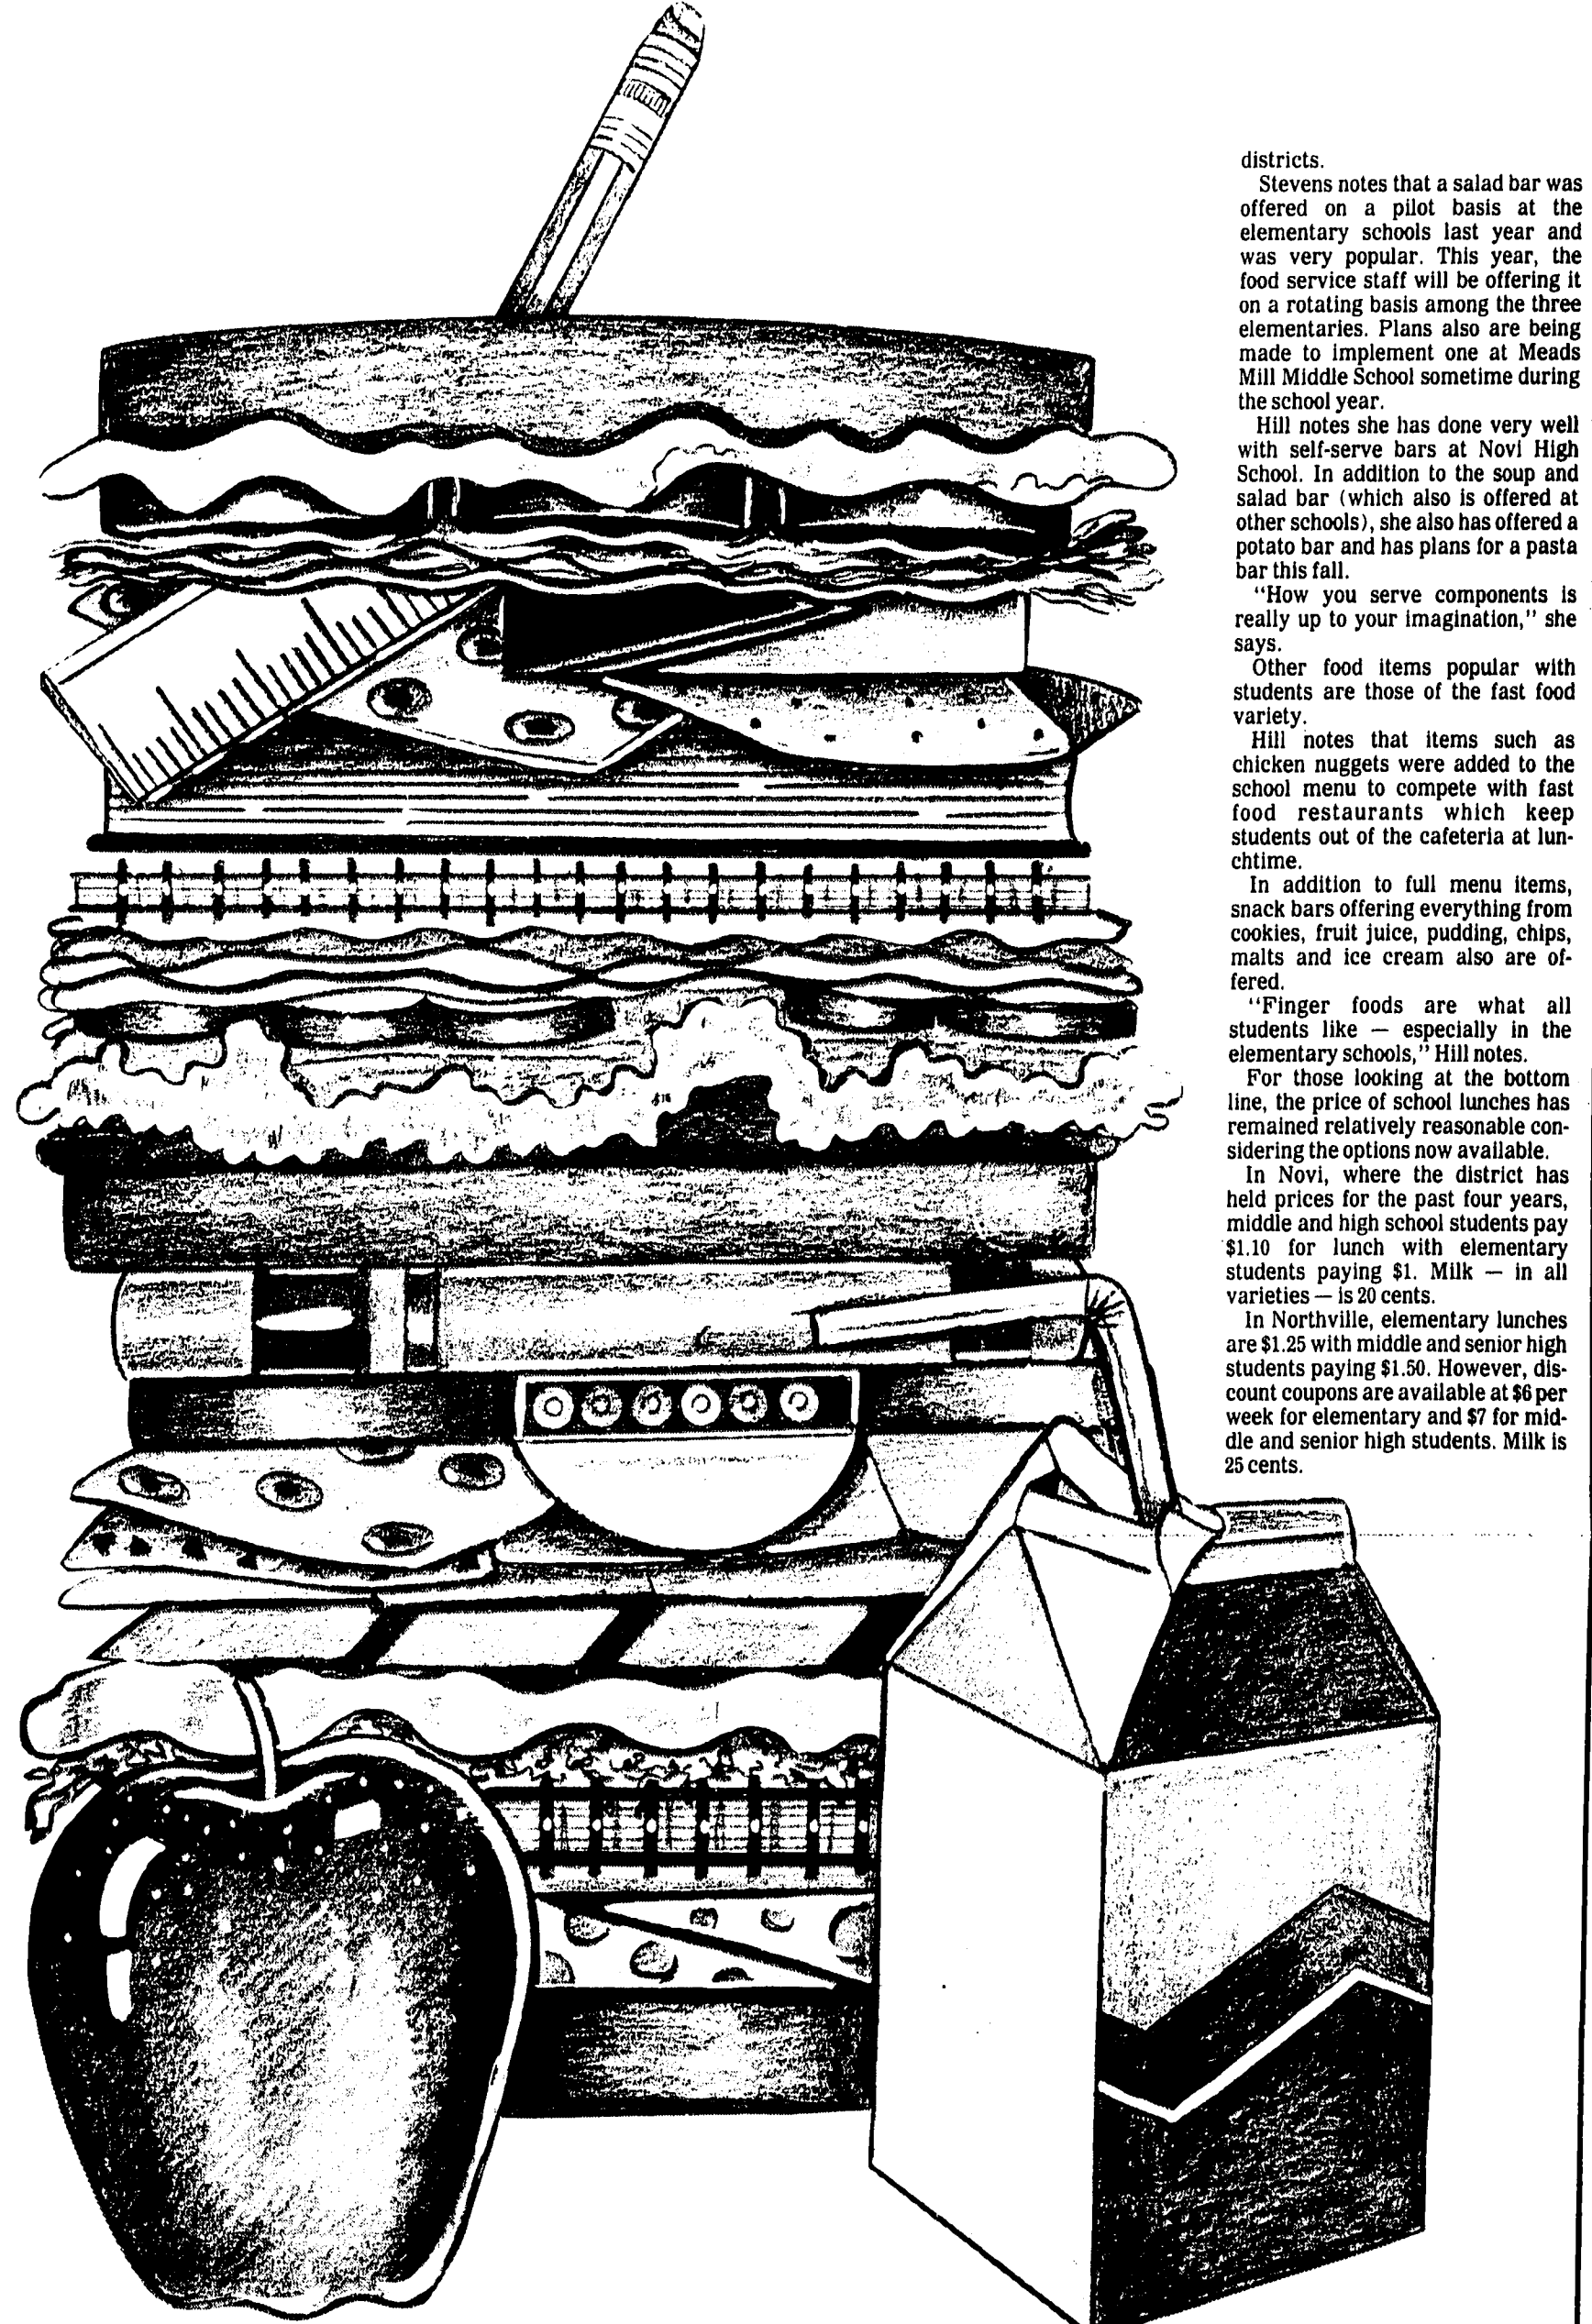

"My staff is constantly listening, too," she notes.

While student suggestions may sound horrific to those with vivid imaginations, both Stevens and Hill admit some of their most popular offerings come from kids.

Salad bars are among the most well received lunches in both school.

While students who pass up school-provided lunches for mom's peanut butter and jelly special may be getting a taste of home in their lunchbox, it's possible they could be getting much more unless a few simple rules are followed.

"The biggest concern I have is safety," says Yvonne Stevens, who notes that food poisoning can occur when the wrong foods are packed for school.

She notes that parents should keep away from chicken, egg or tuna salad that might be kept in a hot locker four or five hours prior to the lunch period.

Stevens recommends sandwiches such as peanut butter and jelly or fully cooked lunchmeats like bologna which will keep much better. However, if using lunch meats, Stevens cautions to hold the mayo — it can grow harmful bacteria if not refrigerated.

"Parents also should think about things that kids can open easily," she notes.

To help parents plan nutritious and safe lunches for kids, Stevens has offered a few tips available through the United States Department of Agriculture and recipes from the Expanded Food and Nutrition Program through Michigan State University's Cooperative Extension Service.

POINTERS FOR PACKERS

- Wrap each food separately — use plastic bags, waxed paper, aluminum foil. Save food containers.
- Pack soft foods on top.
- Use insulated bags and vacuum bottles to keep cold foods cold and hot foods hot.
- Remember plastic spoons, paper napkins and paper cups.

LUNCHBOX VS. BAGS

Lunchboxes, especially insulated ones, hold the cold much better than paper bags. Plus, a box is easy to keep clean and sanitary. If you do use "brown bags," buy them specifically for lunches and use them once. Don't use bags in which you bring home leftover lunches, groceries or other items because of possible insect infestation or contamination from food leakage.

For parents looking to add something a little different to Junior's new lunchbox, MSU's Cooperative Extension Service offers some nutritious, easy recipes for packing a sack.

PUMPKIN BREAD

¾ cup honey
½ cup corn oil
2 eggs
1 cup canned pumpkin
1½ cups whole wheat flour
¾ teaspoon salt
2½ teaspoon baking powder
1½ teaspoon cinnamon
½ teaspoon nutmeg
¼ teaspoon cloves
½ cup shell pumpkin seeds

Mix together honey and oil in a bowl. Add eggs and beat well with egg beater.

SESAME SEED SQUARES

½ cup honey
¼ cup peanut butter
1 cup powdered milk
½ cup shredded coconut (unsweetened)
1 cup sesame seeds

Heat honey and peanut butter in a sauce pan. Add powdered milk, coconut, sesame seed. Mix and pat into a square pan. Refrigerate to set. Cut into cubes. Makes 20 small servings.

PEANUT BUTTER BREAD

2 cups flour, whole wheat
½ cup sugar
2 teaspoons baking powder
1 teaspoon salt
¾ cup peanut butter
1 cup milk
1 egg, well beaten

Sift dry ingredients into bowl. Add peanut butter, blending with fork. Stir in milk and egg. Pour into greased 9 x 5 inch loaf pan. Bake at 350 degrees for about 30 minutes.

SUNFLOWER COOKIES

1 cup margarine
¾ cup finely chopped bell pepper can be added for flavor, crunch and Vitamin C.

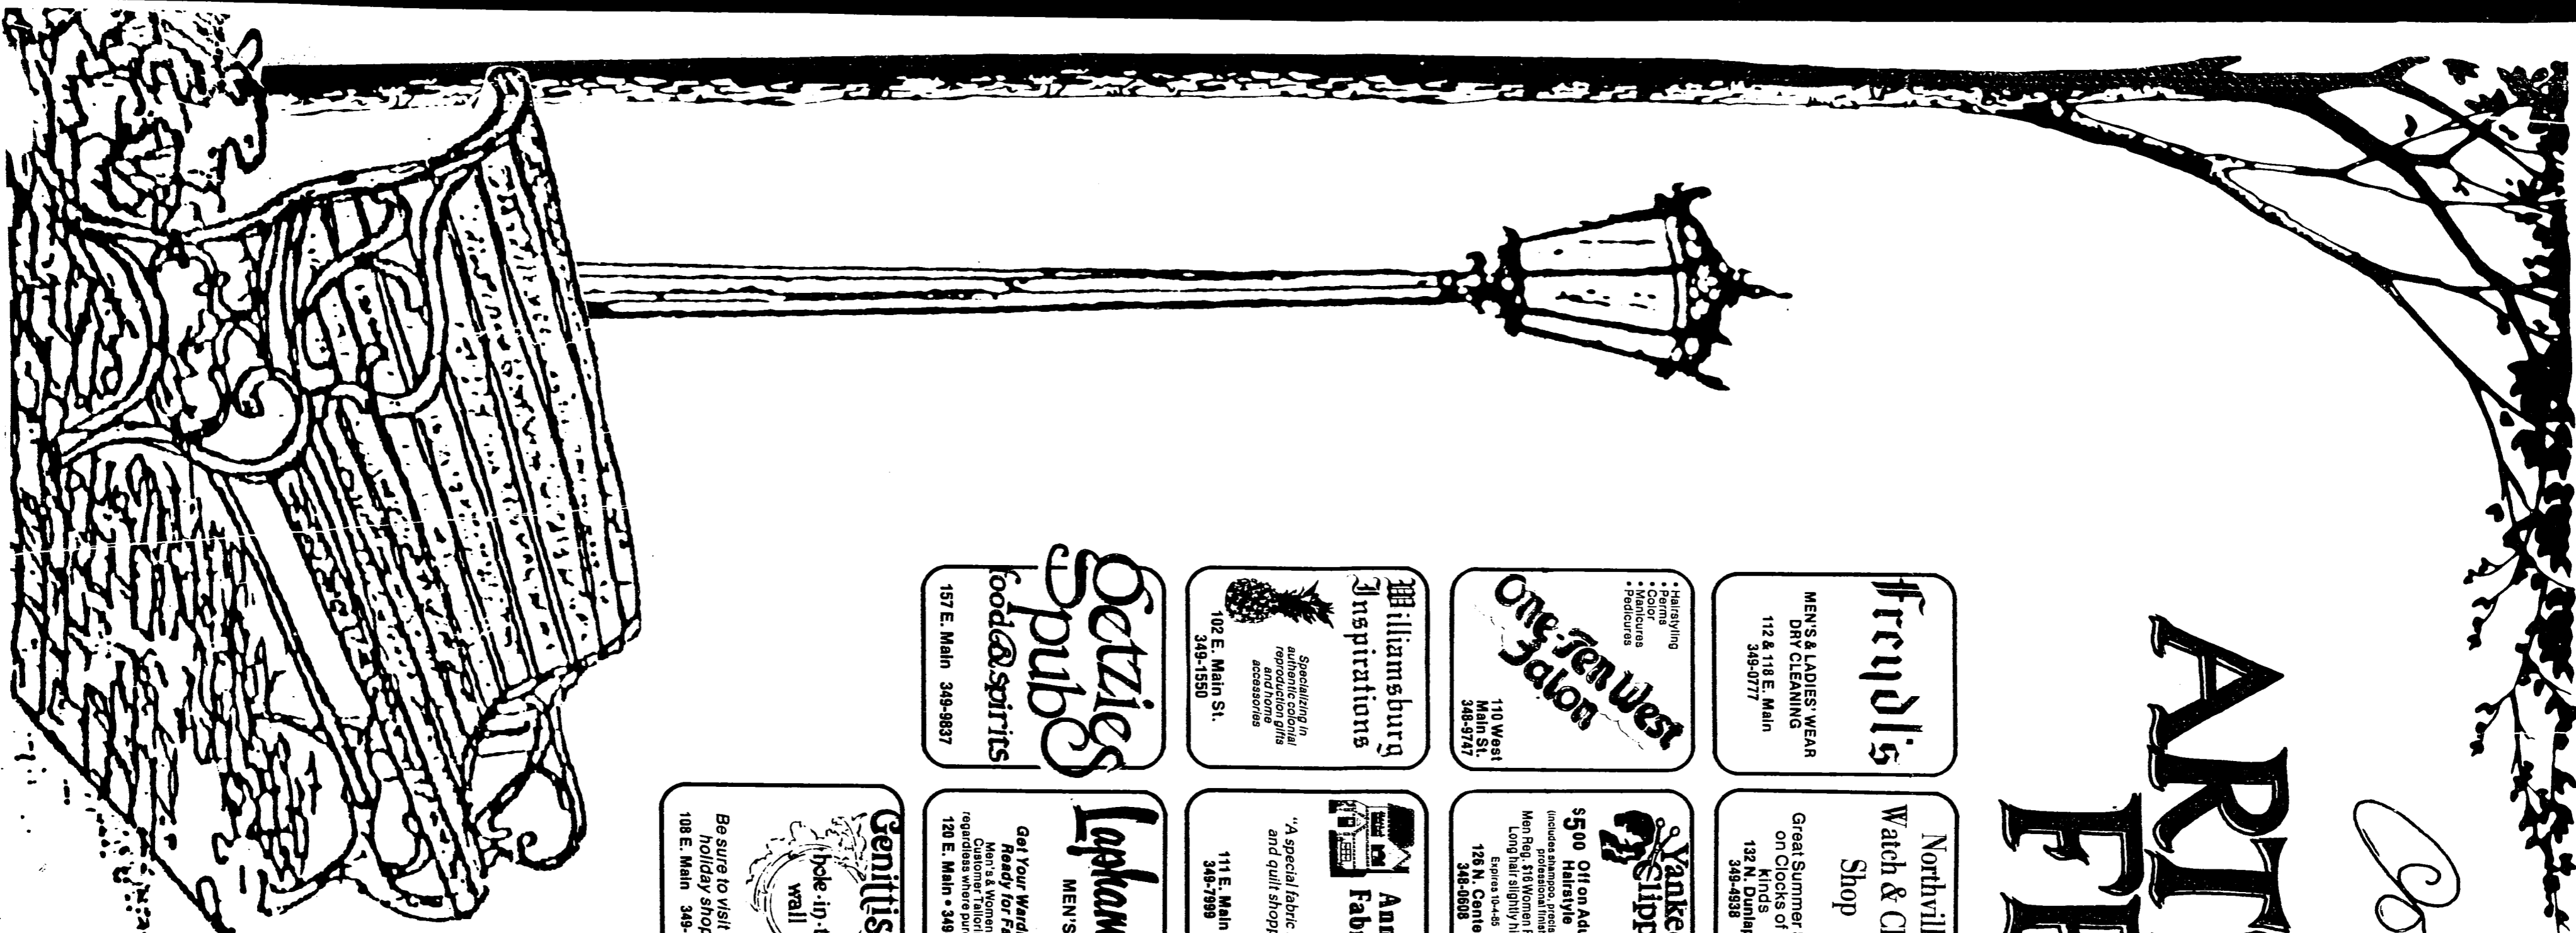

CREAM MARGARINE AND SUGAR. Add eggs and vanilla. Beat well. Add flour, salt, soda and rolled oats. Mix thoroughly. Blend in sunflower seeds. Form into rolls about 2-inches in diameter wrapping with plastic wrap or wax paper. Chill thoroughly. Slice off cookies and bake on ungreased cookie sheet at 350 degrees for 10 minutes. Makes 8 dozen cookies. (Ambitious chefs could also make a double batch and freeze half the dough in rolls and save for later. Just slice and bake.)

CHEESE PUFF COOKIES

1 heaping cup grated cheese (Cheddar or Swiss)
½ cup flour
2 tablespoons butter or margarine water

With your fingertips, mix lightly the cheese, flour, butter and enough water to make a stiff dough. Roll dough into small ¾-inch balls. Place on a greased cookie sheet and bake at 400 degrees until lightly browned, about 10 to 15 minutes.

¾ cup firmly packed brown sugar
1½ cups flour
¾ teaspoon salt
1 teaspoon soda
3 eggs
1 teaspoon vanilla
3 cups rolled oats
1 cup sunflower seeds

"Orin's Your Family Diamond Store"

Just three years ago, Lakeland High's football team earned a berth in the Class A state playoffs and made it all the way to the semifinals before bowing out.

The accomplishment was incredible when one takes into consideration that the Eagles' program had existed for just seven years.

Kent Griffiths was the coach of the 1982 "wonder boys," who finished the regular season with a 9-0 record, defeated Grosse Pointe South in the state quarterfinals, 17-7, and then lost a heartbreaker to Farmington Harrison in the semis, 6-3.

But now Griffiths is gone. The four-year LHS mentor has decided to take some time off from coaching football. He said that "I just couldn't get fired up for the upcoming season."

Enter Bill Mohr, who has been an assistant under Griffiths since the remarkable 1982 campaign. He was named head coach in early June.

"I'm having fun," he said, during a lunch break at practice last week. "It's a little different being in charge of everything, but coaching the kids is still the same."

Mohr has handled the Lakeland defense in the past three years, but this season he's working more with the offense. He said that his system is very similar to Griffiths', although "there may be a few new wrinkles."

The Eagles were 4-5 overall and 2-4 in the Kensington Valley Conference last year, and that was with a senior-dominated line-up. Obviously, inexperience is one of Mohr's main concerns.

"It would have been ideal to take over a team with 50 seniors and 20 returning starters, but you can't have everything," he joked. "This year, we have three full-time players back on offense and two on defense."

"It's something that we're going to have to deal with, and deal with fast. We play Waterford Kettering our first game and they were 9-3 last year with a lot of juniors. Then our second game is against Howell, and everybody knows

Lakeland rookie coach Bill Mohr has plenty of pre-season worries, but his offensive backfield isn't one of them. The Eagles plan to spend a lot of time in opposing end zones this year behind the direction of quarterback Darren Brown (22). Standing in the back row are Ken McKee (33), Dan Baenziger (15), Tom Weglarz (21) and Bob Leist (44).

what they're suppose to be like this year.

"The kids will be under fire, but I think they'll be able to handle it. If we get through those first two games okay, that will be a major accomplishment."

Leading the way for the '85 Eagles are senior tailbacks Dan Baenziger (5'11", 150 pounds) and Ken McKee (5'11", 180), both of whom missed most of last season with injuries. According to Mohr, the two running backs will split time, with Baenziger also seeing action at wide receiver.

"Dan's as fast as ever," Mohr commented. "He's definitely a break-away threat. As for McKee, he's not quite as quick as Dan, but he's got good strength."

Baenziger is best known for his outstanding performances on the track. The speedster has been a mainstay on Lakeland's track team over the last three years, the highlight being a 9.7 clocking in the 100-yard dash.

The fullback for LHS this year is junior returning starter Bob Leist (5'10", 180), while the quarterback is senior Darren Brown (5'10", 168), who barked signals for the junior varsity squad last fall.

"Our offensive backfield is the strength of our team," Mohr said. "Basically, we'll be a running team. We'll go with the option a lot and some control passing."

One of the changes Mohr has installed this year is drop-back passing. He also said the Eagles will use a lot of motion and multiple formations.

Lakeland's top receiver is senior Pat Corcoran (6'0", 195), who returns to his tightend position. The wide receivers are seniors Todd Miller (6'0", 161) and Eric Rose (5'11", 158), both of whom have good hands but lack exceptional speed.

"Our offensive line is kind of small," Mohr said, while shaking head back-and-

forth. "We average about 185 pounds, and compared to teams like Howell and Brighton, we're at a big disadvantage."

Senior Frank Cooper (6'0", 178) is the center, while classmates Paul Frescoln (5'11", 180) and Mike Andrus (5'11", 180) are the guards. Mohr will go with youth at the tackle slots in junior Eric Johnson (5'11", 212) and sophomore Mickey McBride (6'1", 195).

"I think the key to how well we move the ball is the improvement of our offensive line," Mohr stated. "They have to give line. We're good at the skill positions, so if we get any kind of blocking we'll be tough."

Defensively, Mohr plans to alternate junior Tony Lasecki (5'7", 160) and sophomore Todd Balok (5'8", 207) at nose guard, and seniors Eric Davis (5'11", 170), George Lasecki (6'0", 185) and Bob Simmons (5'11", 220) at the tackles.

Vying for the end chores with Cooper and McBride are seniors Keith Andrews (5'11", 180) and Eric Forbes (5'11", 165).

Junior Mike Gontenbowski is Lakeland's top linebacker, while Frescoln and seniors Barrett Gorman (5'9", 165) and John Wallace (5'10", 155) are battling for the second spot.

Defensive backs for the Eagles are junior returners Jeff Hinkle (6'0", 166) and Joe Hinkle (5'11", 168), who are twin brothers, senior Chad Levek (5'11", 145) and McKee.

"We'll rely on quickness to the ball," Mohr said of his defensive strategy. "We'll need a team effort to make up for lack of game experience and lack of size."

Lakeland opens its season Friday night at the Pontiac Silverdome against Kettering. The game is part of a six-team package, with Waterford Mott and Pontiac Central dueling at 4 p.m., Milford and Walled Lake Central playing at 6:15 and Lakeland-Kettering at 8:30.

1985 SOUTH LYON LIONS

The offense isn't quite where it needs to be, but it's getting there," says head coach Bob Scholteske. "The defense isn't quite where it needs to be, but it's getting there."

Scholteske, who said the team is "not quite where it needs to be," said the team is "not quite where it needs to be."

The Lions' defense, on the other hand, is "not quite where it needs to be," says Scholteske. "The defense isn't quite where it needs to be, but it's getting there."

The Lions' offense, on the other hand, is "not quite where it needs to be," says Scholteske. "The offense isn't quite where it needs to be, but it's getting there."

South Lyon's defense line this year features quickness, strength and a few intense faces. Pictured from left to right are end Darin Daugard, tackle Rex London, nose guard Dennis Krenchuk, tackle Scott Knapp and end Tom Flack. According to Scholteske, the five-some may be the Lions' key to success.

South Lyon LIONS

Football players at South Lyon High School currently are adjusting to their third head coach in as many years. But instead of complaining, they're hoping that the new kid on the block can pull another rabbit out of his magic hat.

The Lions were directed by Dan Skatka in 1983, but his contract was not renewed the following season. John Switczenko took over in 1984, only to resign two months after the conclusion of the season. In both cases, poor relations with administrators at SLHS were the cause of the exit.

This year South Lyon's football program is headed by Bob Scholteske, a former head coach at Battle Creek Pennington High School (1972-75) and

Southgate Aquinas High School (1980-84). At both schools, the 36-year-old mentor was credited with turning a struggling program into a power.

Pennfield hadn't posted a winning season in 10 years prior to Scholteske's presence, but after just two years, they were considered one of the top teams in the Twin Valley League.

As for Aquinas, the progress began in 1980 with the school's first winning season in three years and peaked last fall with an appearance in the Catholic League Prep Bowl. Aquinas lost just three times to teams other than Birmingham Brother Rice and Detroit DeLaSalle.

Scholteske also has college coaching

FRONT ROW: Dean Phillips, Richard Taylor, Mike McKee, Dennis Korenchuk, Kevin Collins, Dave Iatolla, Ray Rick, Brett Heppner, Joe Oddo, Mike Sawley, Head Coach Bob Scholteske. **SECOND ROW:** Eric Hoag, Rex London, Scott Knapp, Eric Grudzien, Kirk Linton, John Race, Dion Earehart, Pat Leslie, Mike Nuens, Wes Brant, Assistant Coach John Kearney. **THIRD ROW:** Joe Strange, Tom Urban, Steve Woodward, Adam Nlemur, Jim Hantz, Ray Klan, Richard Staffin, Shon Roarty, Tony Mancinelli, Mike Andrews, Doug Baaki and Assistant Coach Jamie Izzo. **FOURTH ROW:** Keith Grzywacz, Brian Cash, Robbie Klein, Richard Benson, John Harding, Darin Daugard, Eric Hoke, Pete Bergin, Tim Fox, Darren Warford. **FIFTH ROW:** Trainer John Maisonnville, Chris Kelly, Tom Flack, Scott Horst, Mark Koronka, Paul Briggs, Todd Leach, Toddy Pennycuff, Steve Atchinson and Trainer Matt Walters. **BACK ROW:** Assistant Coaches Bob Smith, Tony Tubaro, Ed Baldwin and Jim Joyce.

good lately, and he's improving on the option."

Junior Brian Worrell (5'11" 170) and senior Jim Mitchell (6'2" 160) also should see some action in the backfield according to Schroder.

Milford's receiving core features senior tightend Tom Dao (5'9" 155) and junior Brad Petru (5'9" 155) also will be snagging passes from Stanley at the wide-out position.

The offensive line consists of six seniors — center Pat Golden (6'11" 165); and guards Mike Golden (6'11" 165) and Kirt Radzville (6'2" 175); and alternating tackles Carl Strand (6'1" 195), Walt

Comis (6'2" 220) and Jerry Capps (5'11" 270).

"The size of our offensive line is much bigger than usual," Schroder said. "We should be able to hold our own up front."

"I really believe our running game has to work for us to be successful. If we can get some blocking, I'm sure our backs are capable of producing some points."

On defense, the strength is the backfield, which features three returning seniors — Mitchell, Mike Nielson (5'9" 165) and Scott Young (5'7" 145). Both Nielson and Young were honorable mention selections on the all-Kensington Valley Conference team.

The fourth member is senior Dave Badour (5'9" 155), who Schroder says will fit right in.

"They should be real tough," he said. "They play very well together... they're all quick with their

Milford High quarterback Jerry Stanley (11) is rolling out the welcome mat to opposing defenses this year. Stanley has three explosive offensive weapons to work with in the MHS offense — Jim Mitchell (left), Bill Grawlin (middle) and Joe Costello (right). According to Coach Jim Schroder, the Redskins have the potential to light up the scoreboard this season.

Continued from 12

feet... and they're good tacklers."

Milford's two linebackers this year are senior Dave Sherry (6'3" 200) and junior Rob Koresky (6'8" 210). Sherry is a returning starter, and Schroder is very high on Koresky.

Up front, the Redskins list senior Dave Robinson (6'3" 170) at nose guard. Robinson, recognized for his exceptional quickness, was a second-team all-KVC pick in 1984.

The two tackles are senior Paul Dixon (5'11" 200) and junior Mark Orofino (6'11" 230), while the ends are junior Chris Bakila (6'4" 165) and senior John Kramer (6'1" 175).

"We're trying to avoid having players go both ways," Schroder said. "I've always felt that if you have 22 different starters, you can break a team down by the fourth quarter. We'll just have to see how it goes, though."

Schroder also mentioned that Markus Harker, an exchange student from West Germany, has been booming the ball on kickoffs and field goal attempts.

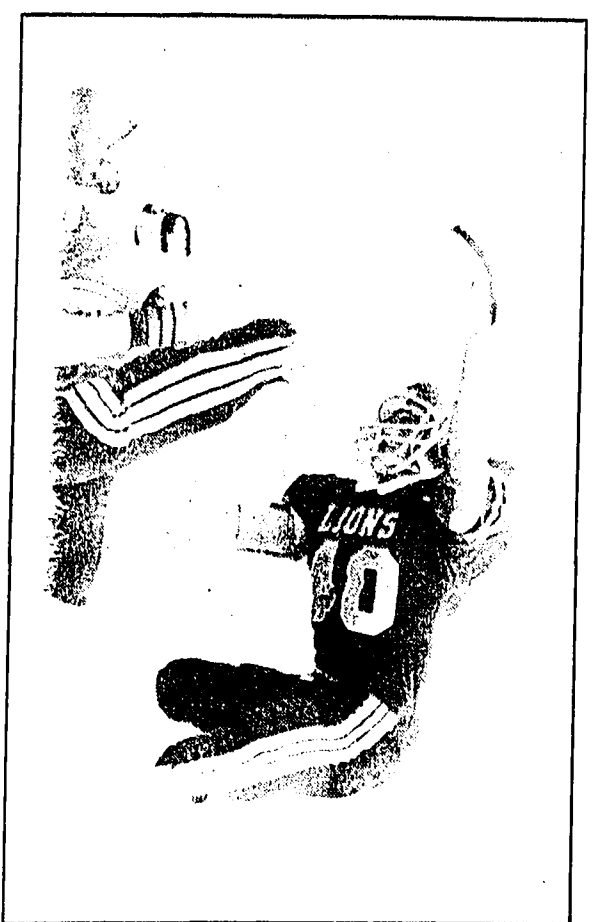

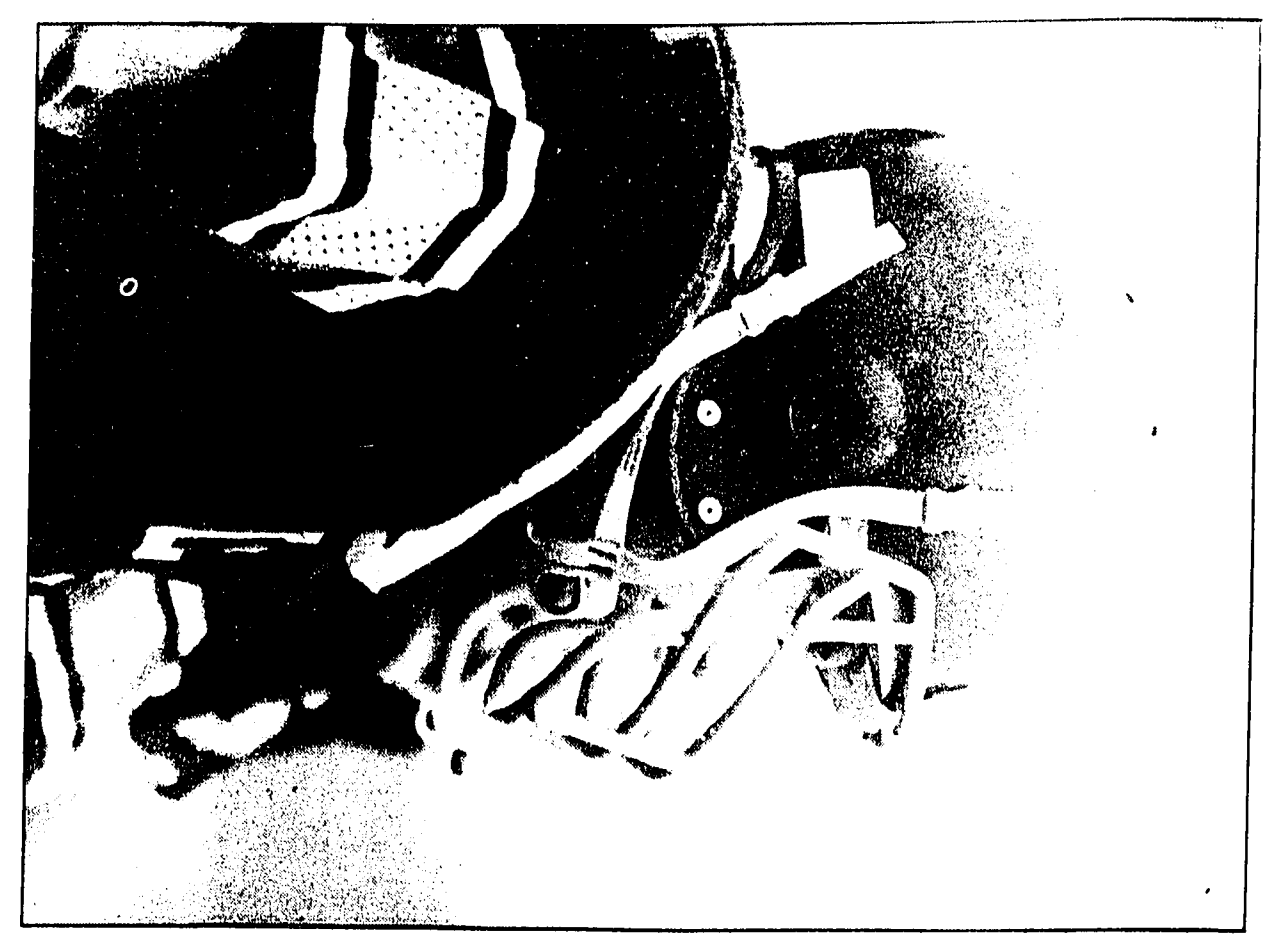

"He really doesn't know a whole lot about the game of football, but he's learning. He may do some kicking for us, though."
