Opinions ACTION NEEDED TO SOLVE SEWER PROBLEM/14A

may construct sewage plant

By PHILI managin

Faced with a shortage of sewage treatment capacity and the apparent demise of the so-called "Super Sewer" project, the Novi City Council is proceeding with discussions to construct its own sewage treatment facility.

City Manager Edward Kriewall and Joseph Kapelczak of JCK and Associates, the city's consulting engineering firm, presented a

proceeding to construct sewage treatment facilities at a joint meeting of the city council and planning commission Monday.

The information presented by Kriewall and Kapelczak included cost estimates and four proposed locations for construction of sewage treatment facilities within the city, as well as a status report on the city's remaining sewage treatment

The importance of adequate sewage treatment capacity is tied commodate additional development. After the city's existing capacity in current treatment facilities has been exhausted, further development will be severely limited if not terminated entirely.

The most critical news presented at Monday's informational meeting was that Novi may have used up all its existing capacity within the North Huron Valley/Rouge Valley Wastewater Contgrol System within two years.

Kapelczak reported that the city currently has approximately 1,500 sewer taps remaining in the system.

"We're using up about 160 taps per quarter with development as we're experiencing it today," said Kapelczak "At that rate, we've only got 21/2

years until we've used up all our existing capacity.' Planning Commission Chairman

Ernest Aruffo added that projects currently before the city would consume all the remaining capacity. "We have projects before us at

this very time that will take up

more than the 1,500 sewer taps we have left," said Aruffo. "Even if nothing else is submitted, it would appear likely that we could run out of sewage capacity before the 21/2 years have expired.'

The interest in constructing municipal sewage treatment facilities at this point in time is directly related to the apparent demise of the proposed North Huron Valley/Rouge Valley Wastewater Control System, known popularly as "Super Sewer."

Kriewall noted that the proposed

regional sewage treatment system has been in the planning stages for better than 25 years, but that it still has not materialized.

"We applied for a federal grant back in the mid-1970s to construct our own treatment facilities, but we were turned by the Environmental Protection Agency (EPA) and told to work in conjunction with the Super Sewer project," said Kriewall.

Continued on 10

Sites proposed near Nine Mile

If the city should proceed with plans to construct its own sewage treatment plant to handle an anticipated shortfall of sewer taps within the next 21/2 years, the facility could well be built somewhere in the vicinity of Nine Mile between Novi and Meadowbrook roads.

City Manager Edward Kriewall and Joseph Kapelczak of JCK and Associates, the city's consulting engineering firm, laid out four proposed alternatives for the site of the proposed sewage treatment plant at a joint meeting of the city council and planning commission Monday

All four sites are near the Meadowbrook Lake subdivision. The four sites, in order of priori-

ty, are as follows:

☐ A 35-acre parcel south of Nine Mile in Section 35. Kapelczak maintained that this site is ideally located from a construction standpoint since it is situated adjacent to the city's existing storage and pumping facility and also abuts the receiving stream (Middle Rouge

"Also, it is close to Northville Township, which could be a factor if Northville is to be a partner in the construction of the plant," said Kapelczk.

The site is bordered on the north by the sanitary storage facility and a developing industrial subdivision. The C&O railroad tracks run along the west side of the property, and there is proposed residential development to the east and south.

Would you like a sewage treat-

staff reporter

Are sewer plants

good neighbors?

The parcel is part of the so-called Chase property which is slated for development under an R-2 (singlefamily) zoning classification. The proposed developer of the subdivision has offered to sell the site to the city for sewage treatment

11 The second site is located on the north side of Nine Mile between the Meadowbrook Lake subdivision and the Novex One Industrial Park. The 35-acre sit currently is proposed for development with another industrial subdivison, which has been strongly opposed by Meadowbrook Lake residents.

Kapelczak said the site is less ideal than the first site from a construction standpoint, but not far enough away from the diversion and discharge point to be a major cost factor. The major drawback, said Kapelczak, is its proximity to the Meadowbrook Lake subdivi-

☐ The third site in order of preference, according to Kapelczak, is located between Nine and Ten Mile, directly east of the C&O railroad tracks. The site lies immediately north of the second site and a portion of the Meadowbrook Lake subdivision.

Kapelczak said the site is farther away from the existing holding facility and discharge point south of Nine Mile and therefore would require the cost of additional piping and pumping facilities.

City Manager Edward Kriewall

described the group's visit to the

Holly Wastewater Treatment

Center as an eye-opening ex-

perience. "We turned into a

residential street and the treatment

center was at the end of that street.

We thought we were lost at first.

The treatment center buildings

matched the surroundings so well,"

Jamie Milazzo watches traffic speed by her home with children Matthew, 4, and Danielle, 5

Novi News/CHRIS BOYD

South Lake citizens fear traffic

Residents on South Lake Drive have a traffic

And it isn't the one cited by Ann Triff at the Nov. 10 Novi City Council meeting. "In the good old days," Triff told the council, "my father's only complaint with South Lake Drive was trying to get around the dogs that slept there."

Now residents are complaining about what they feel is a potentially dangerous problem with traffic volume on their street.

Homeowners living along the shores of Walled Lake said they have watched the traffic and speeds increase to such an extent that it is only a matter of time before someone is killed.

Discussion of traffic problems on South Lake Drive came on the heels of the council's approval of funding to close East Lake Drive just south of the Fourteen Mile intersection. The closure of East Lake Drive is designed to protect the safety of residents along the road from excessive traffic and speeding cars.

Triff said South Lake Drive residents support council action on the East Lake matter, but they needed similar consideration for the problems on their road. Traffic speeds and volume began to in-

crease following the paving of a dirt section of South Lake Road this fall.

Jamie Milazzo, another South Lake homeowner, representing a group of concerned lake-side residents, said the council created a dangerous situation when it paved the road, turning a quiet residential street into an expressway.

"Certainly you were well aware of the problems on East Lake Drive and undoubtedly you knew this paving would bring about the same consequences to the South Lake Drive residents," she told the council.

Milazzo noted that South Lake is a unique situation. Property owners have their residences on one side of the road and their beaches and picnic areas on the other side of South Lake Drive. Residents must cross the street to get from their homes to their lakefront lawns, she said.

Milazzo said residents are concerned for the safety of children and the elderly. "Children cannot judge how fast a car is going, or how far away it is, and after all children do make more mistakes than adults and should be given more protection. They're attracted to the lake, and with their property on the other side of an expressway, the City of Novi has created a monster," she said.

Milazzo said that she and her husband bought their house seven years ago and have put a great

deal of money into making it a pleasant place to raise their two children. "It's not like we bought on Telegraph where you could expect all this traf-

fic." she said. South Lake residents say that in addition to fears for their safety, there have been major changes in their idyllic lake front existence due to the traffic. Picnic tables sit 15 to 20 feet from the road, and Milazzo said, "We've lost our privacy. And all we can hear now is the sound of rushing traffic and the screeching of brakes."

Milazzo asked the council to consider ways of changing what is currently an easily accessible through street to a less convenient one. She also requested immediate help in stopping the excessive speeding and illegal passing on the twolane road.

Milazzo said she had been told by city officials that speed bumps were illegal and that stop signs were not possible. "We would appreciate it if the City of Novi could try and figure out an alternative, using their traffic engineers," she said.

Council members were sympathetic to the residents' problems. Mayor Patricia Karevich said, "There is a problem, we agree. The police department is sending out patrols and working on getting the passing and the speeding stopped."

crediting Office in Ann Arbor and to

Novi High School. Graham stressed that the role of the visitation team is not to address the issue of accreditation but determine whether the high school is doing what it has set out to do in Its self-study.

Novi High School administrators and staff began working on a selfstudy last year in preparation for the North Central visitation.

During its self-study, the high school staff determined its strengths and weaknesses and recommended changes to improve the program.

The last North Central visitation of Novi High School took place during the 1979-80 school year. Visitations take place every seven years.

Free jazz concert tonight

Anyone who likes jazz will want to be sure to attend a free concert at Novi High School's Fuerst Auditorium tonight (Wednesday, Novi. 19) at 7:30 p.m.

Featured will be the Novi High School Jazz Band under the direction of Craig Strain and the Novi Singers under the direction of Paula Joyner The concert is presented free of charge to thank the community for its support of the high school music program over the years and to give the students an opportunity to per-

form publicly.

ever had in Novi. The Jazz Band will perform "Theme from Night Court" and "Milestones," the Miles Davis classic, as well as a Reggae tune entitled "Sittin" Pretty.

In addition, the Jazz Band will present "Skylark, the Hoagie Carmichael classic, featuring Heather Rosalik on vocals, and "Night in Tunisia," the Dizzy Gillespie hit, featuring a trumpet solo by Jay

Another feature will be a Spanish piece entitled "Carnavel del Sol," featuring Novi's outstanding drum-

Alert given for poisons

The Michigan Veterinary Medical Association reminds animal owners of two common fall poisonings. Horses are susceptible to the toxic effects of the dried leaves and bark of Red Maple (Acer rubrum). When eaten, these cause the red blood cells to break apart or otherwise become unable to carry oxygen. The horse may actually suffocate unless it receives treatment, which may in-

clude blood transfusions. Horse owners are advised to rake and remove the fresh leaves from the pasture before they dry. Michigan State University reported three horses affected with the poisoning during the last week of October.

Dogs and cats (as well as children) are very susceptible to the toxic effects of anti-freeze (ethylene glycol). and frequently results in death, especially if treatment is not begun

NOTICE - CITY OF NOVI

REQUEST FOR BIDS -

COMMUNICATIONS TOWER

The City of Novi is seeking bids to furnish and install a communica-

tions tower, antennas, cable and all necessary hardware at the DPW

Bids will be received until 3:00 P.M., prevailing eastern time Wednesday, December 3, 1986 at the Office of the City Clerk, 45225 W.

Ten Mile Road, Novi, Michigan 48050. Bids will be publicly opened and read at that time. All bids must be signed by a legally authorized agent of the bidding firm. Envelopes must be plainly marked, "COM-MUNICATIONS TOWER BID," and must bear the name of the bidder.

The City reserves the right to accept or reject any or all bids, any

part of the same, to waive any irregularities, and to make the award in

Novi Briefs

TIMBER RIDGE ESTATES is scheduled to be considered for tentative preliminary plat approval at the Novi Planning Commission tonight (Wednesday, Nov. 19) at 7:30 p.m.

Timber Ridge Estates is a proposed 89-lot subdivision on a 39-acre site near the southwest corner of the Nine Mile/Novi Road intersection. The site is proposed for development with a single-family subdivision by The Selective Group. The property formerly was owned by Kalin Johnson. The difficulty of developing the site is compounded by the existence of what has been described as "a magnificent stand of trees" on the 39-acre

TIME IS RUNNING SHORT for individuals interested in enrolling in the Novi Community Education Department's '87 winter session. Registration for residents of the Novi Community School District started Monday and will continue through next Wednesday, Nov. 26. Registrations will be accepted at Community Ed offices today and tomor-

row (Wednesday and Thursday) from 10 a.m. to 7:30 p.m. and this Friday Registrations for Winter '87 classes will be opened up to non-residents of the school district next Monday, Nov. 24. Applications from residents and non-residents will be accepted Monday, Tuesday and Wednesday of

next week from 10 a.m. to 7:30 p.m. More information about registration procedures is available by calling Community Education offices at 348-1200.

OFFICIAL TREE-LIGHTING CEREMONIES for the City of Novi will be held outside Novi City Hall on Monday, Dec. 1, at 7 p.m. The event is cosponsored by the Novi Parks and Recreation Department and the Novi

All Novi residents are invited to attend the fourth annual "Light Up the Holidays" celebration. In addition to official tree-lighting ceremonies, the event will include caroling, a visit from Santa Claus for the youngsters and light refreshments. The caroling will be led by the Novi High School Choir which also will perform a variety of Christmas carols.

COMPACT DISCS ARE AVAILABLE at the Novi Public Library. The library has a limited collection of the new recording form with music ranging from big band hits by Enoch Light to Mozart, Gershwin, Springsteen and New Age music.

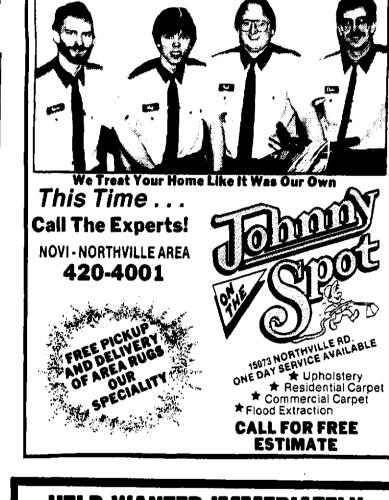

The library also contains a large collection of traditional phonograph records in a variety of categories as well as audio-cassette tapes that include books on tape, non-fiction subjects and old-time radio programs. All records, tapes and discs may be checked out for one week.

Sleight of hand

More than 200 youngsters showed up at Village Oaks Elementary School last week to watch Darryl Hurst work his sleight of hand and feats of magic. In the picture above, Bobby Hart tries unsuccessfully to meet Hurst's challenge of guessing the length of the string on the end of a colored ball. By the look on his face you can tell Hart is a lot more amused than he is perplexed.

Council should act to resolve problem

Sewer" appears to be dead for at least (tax base) and the property tax burden another year and the City of Novi is are the same people who lead the debeginning to run out of sewage capacimand for more city services and better ty in the Detroit Water and Sewerage schools.

The upshot of those two circumstances is that Novi city officials are studying the possibility of constructing a municipal wastewater treatment facility as a solution to the levels. anticipated time when the city has depleted its sewage capacity.

Engineering Consultant Joseph Kapelczak of JCK and Associates told the council Monday that the city currently has 1,600 taps remaining in the Detroit system. At the current rate of development, Kapelczak added, Novi will have exhausted its supply of sewage capacity within approximately

Further, Kapelczak reported that it would take approximately five years before the city could build its own wastewater treatment facility — leaving a period of 2½ years in which further development would or could not

Obviously, the situation is serious and involves a series of complex

being combined into a single issue to ticularly in light of the need to provide the detriment of a complete, rational city services and improvements to understanding and analysis of each in-roads, etc.

discussions of density levels and, even, growth is a desirable goal. the "no-growth" alternative.

simplest terms in order to promote capacity problems. orderly discussion and reasoned decision-making.

First, the "no-growth" alternative. It is a frequent source of irritation that the newest residents in any ci-will still move in, he claims, because ty, including Novi, are the most ada- city and school officials, whether mant about keeping everyone else out.

As George Athas, a former city manager, once declared: "The last person who moved to Novi wants to be just exactly that.''

Denis Berry, a former council member, once told a group of angry residents from the Olde Orchard Condominiums that he could remember driving past Olde Orchard on Ten Mile when it really was an "old orchard."

"We made room for you and we'll make room for the next guy," Berry told the residents.

It's a bit hypocritical for the last person who moved into the city from Southfield, Livonia or wherever else to stand up and claim that he doesn't want his or her "rural atmosphere" tarnished with any more development. The truth of the matter is that there would be no demand for strip shopping centers, subdivisions, apartment complexes, and even regional shopping centers if those individuals had stayed where they were in the first place.

It's also interesting to note how often the people who shout loudest blem.

The latest version of "Super about non-residential development

The "no-growth" alternative is unrealistic, at best, and hypocritical at some other point along the spectrum. What is more appropriate is a discussion of housing stock and density

The 1980 Master Plan would have produced a population of an estimated 80,000 people under total development. Recent revisions to the city's zoning ordinances have reduced that number to an estimated 60,000.

It has long been our position that the city has been perhaps too generous in its density levels for the property west of Novi Road. Our proposal in the mid-'70s was that there should be a gradual decrease in density levels extending along the mile roads west from Novi Road. Our proposal would have placed 80-foot lots between Novi and Taft roads, 90-foot lots between Taft and Beck roads and half-acre to oneacre lots west of Beck Road to the city

That scenario was lost when the city permitted development of R-4 (80foot lot) subdivisions west of Taft What is unfortunate at this point in Road. Nevertheless, the density level time is that some of these issues are question remains valid to this day, par-

While we reject discussion of the Specifically, discussion of the ci- "no-growth" alternative out of hand, ty's need to attain additional sewage we find the density level discussion to treatment capacity is being tied to be entirely appropriate. Controlled

Although both of those issues are Admittedly, the issues are inter- related to the sewage capacity issue, related to one degree or another. At the they should not be permitted to cloud same time, however, it is important to or delay implementation of apbreak each of the issues down into its propriate alternatives to the sewage

> Planning Commissioner Joseph Toth makes a valid point when he suggests that running out of sewage capacity will not halt growth. People anyone cares to admit it or not, have done a moderately respectable job of making Novi a desirable place to live up to this point.

Instead of hooking-up to an established wastewater freatment system, Toth points out, the newcomers will build their homes with septic fields. And septic fields invariably lead to pollution problems.

In fact, pollution problems created by septic tanks were the reason that sewage treatment systems were needed in the first place. Any one who doubts the importance of some sort of a sewage treatment system should go out and talk to the residents in the Pioneer Meadows or the Echo Valley subdivisions.

Discussion of density levels is an important subject which should be addressed further. At the same time, efforts to delay appropriate solutions to the sewage capacity situation are counter-productive in the short run and potentially harmful in the long run.

The city should move expeditiously to resolve the sewage capacity pro-

Letters welcome

The Novi News welcomes Letters to the Editor. We ask, however, that they be issue oriented, confined to 500 words and that they contain the signature, address and telephone number of the writer. Names will be withheld on request, but a brief explanation of why the request is being made should accompany the letter. Deadline for submission is 3: 10 Monday p.m.. We reserve the right to edit letters for brevity, clarity and libel.

More than a 'little' theft

the basket containing coins from the front counter at The Novi News office needed the money. It wasn't that much money, maybe \$5. And it isn't that the basket containing the coins was irreplaceable. It wasn't. But you took something that was irreplaceable, a bit of our sense of community.

For more years than our current staff has been with the paper, there has always been a basket containing coins on the front counter, a basket that people who purchased The News could use to pay for their paper and to make their own change.

That was part of the charm of the newspaper. We trusted you and you trusted us. But that trust has been shaken because someone last Friday decided he or she needed that money. And he or she took the basket and

That basket, complete with money, had sat on the front counter through boom times and bust times, through snow storms and hot summer days. And all through that time, no one really counted the money, there didn't seem to be any need to do so. After all, we were all neighbors.

But because of the Friday theft, that friendliness has been challenged. Maybe it is necessary to count money. Maybe we can't trust everyone anymore. Maybe now we will have to put the money away - lock it up in a cash register. It seems like a shabby way to

Choose me

We had the same attitude that many crime victims have — it can't happen to me. We also had the attitude that there are some things that are more important, things like showing our neighbors that we trust them.

This community has been lucky in many ways. We don't really experience either the amount or the severity of criminal activity that occurs in other communities of similar size. Certainly there are reported incidents of break-ins, shopliftings and auto thefts, but those are isolated incidents. People in Novi realize those things don't happen every day.

The Novi News staff has read all the reports, noting how the citizens can protect themselves from becoming victims of crime. But until now, it really didn't seem necessary to take those precautions here in our own office. We had the same attitude that many crime victims have — it can't happen to me. We also had the attitude that there are some things that are more important, things like showing our neighbors that we trust them.

Whoever took the money made their point very well it can happen to us and it doesn't pay to trust your neighbor. He'll only take advantage of you.

Forum By Chris Boyd

Getting old not all bad

that all along, of by background information barely are tolerated. Opinions that differ course, but the point home last Thursday. when I was

ting older

talking with Henderson in his office at the Faith Community United Presbyterian Church in Novi.

Faith Community is about to elebrate its 10th anniversary, and Henderson thought it might be interesting to write an article about how the church has grown. That's what we were talking

about. Henderson had been the assistant minister at the Northville Presbyterian Church before venturing out to start a Presbyterian church in Novi. The Northville Presbyterian church is the church in which I was raised. I always used to sit in the balcony, and my brother and I took turns ringing the bell signalling the start of the service.

I wasn't at the first service for Faith Community. But I was there in: my official capacity with the paper when the young congregation held groundbreaking ceremonies for its 🌘 🛮 🗗 new building on Ten Mile in May of

I was there with my camera, and one of the things I remember best is that I saw a very pretty little girl, all dressed up in a long, ruffled dress, running around carrying a snake she had found in the field. After I took the picture, I asked the little girl her name and learned it was Jennifer Henderson, the minister's daughter.

I finished my interview with Henderson last Thursday and finally got around to writing the story late Monday night. I also ordered up a copy of the groundbreaking picture I shot six years ago to accompany the 10th anniversary story.

And that's how I know I'm geting older. I'll bet there are a lot of people out there who can't remember the vacant field where Faith Community church now sits. But I can.

And it's a warm feeling to have been around long enough to see little girls grow into fine, young ladies and fledgling churches grow up to become important institutions in the community,

Business Briefs

WILLIAM F. HEISE, MD

open Monday through Friday.

JERRY W. DILLARD

WILLIAM F. HEISE, II recently announced the opening of an internal medicine practice for adults at 2344 S. Commerce in Walled

Dr. Heise, a board certified specialist in internal medicine, is a member of the medical staff of Huron Valley Hospital in Commerce Township. He also has staff privileges at Harper-Grace Hospitals in the Detroit Medical Center.

Dr. Heise comes to the area with impressive credentials. He received a bachelors degree in cellular biology from the University of Michigan, a masters degree in biology from Wayne State University and a masters degree in public health from the U-M School of

Public Health. He is a graduate of the WSU School of Medicine and completed a rotating internship and residency program in the WSU Affiliated

Hospitals Program at the Detroit Medical Center. Dr. Heise, a resident of Dearborn, is active in several professional societies including American College of Physicians, Michigan State Medical Society and the Oakland County Medical Society. The Walled Lake office is located west of Decker Road and is

JERRY W. DILLARD of Northville has been named to the newly-created post of manager, health and safety, for The Budd

Company. Dillard, 41, has more than 20 years of health and safety experience in the automotive and aerospace industries, according to Robert J. Wangbichler, vice president of employee relations. Dillard spent most of those years in safety engineering assignments with the Ford Motor Company. Most recently, he was Ford's corporate safety

Dillard, a native of Chattanooga, Tenn., has a BA degree in chemistry from the University of Tennessee, a master's degree in personnel management from Central Michigan University and credits toward a master's degree in metallurgical engineering.

He is a certified safety professional, past chairman of the Safety Council for Southeast Michigan and Supervisor's Section Treasurer of the Greater Detroit Chapter of American Society of Safety Engineers. He lives in Northville with his wife and three children.

The Budd Company, headquartered in Troy, is a leading supplier to the automotive industry. A subsidiary of Thyssen AG, Duisburg, West Germany, Budd makes a wide variety of automotive stampings and assemblies from sheet metal and plastics, wheel and brake products, castings, prototypes and aftermarket items. It operates 31 plants throughout North America.

RUSSELL E. ANGER JR. of Northville, president of Anger Manufacturing Co. at 777 Base Line Road, has been elected to the national board of directors of the American Metal Stamping Association (AMSA) for 1987. The honor was announced at the annual AMSA meeting Oct. 26-30, in San Diego.

The 1,000 member companies of AMSA represent the \$21 billion metal-forming industry of North America and include leading producers of metal stampings, spinnings, washers and precision sheet metal fabrications as well as suppliers to the metal-forming in-

DR. NICHOLAS S. DOINIDIS of Novi has completed Sections One through Four of an on-going certification program conducted by the American Disability Evaluation Research Institute (ADERI) of Ann Arbor and was awarded certificates of competency in independent exams and evaluation of disability claims, medical/legal responsibilities, quantification and qualitative analysis and diagnosis, objective mensuration, comprehensive evaluation and

He also qualified for membership in the National Association of Disability Evaluating Physicians. The Doinidis Chiropractic Clinic is located at 41616 West Ten Mile in Novi.

ADERI trains physicians to perform more thorough and objective independent examinations for Workers' Compensation, Social Security and Personal Injury disability claims. Doctors also are trained as expert witnesses in the legal aspects of claim cases. The emphasis is on providing objective facts instead of opinions.

GARY A. BEATTIE, new vehicle salesperson for Oakland Dodge in Madison Heights, has received an award for individual per-

formance in selling Dodge vehicles. A resident of Milford, Beattie has reached the Silver level of recognition in Dodge's unique Sales Professionals Club.

Specially-designed incentives and awards are provided for outstanding product knowledge and sales achievement at three performance levels — Bronze, Silver and Gold. Membership in each is determined by points earned for sales of new cars and trucks.

The program continues throughout the 1986 model sales year. The top 50 Dodge retail sales personnel will win a trip to a three-day national sales conference.

MICHIGAN BELL'S 4,000 company vehicles soon will be equipped with a new specially-designed safety device which will automatically turn on their headlights - and keep them on - while

The device automatically keeps a vehicle's headlights on when the engine is running, said Marcia Buhl, the company's local corporate affairs manager.

"Some of our drivers stop and start their vehicles 15 or 20 times a day," she explained. "This will make it safer, simpler and more con-

Buhl said the new device eliminates the need for drivers to remember to flip the switch. "It's an automatic feature designed to reduce front-end collisions and it also will help keep maintenance and repair costs down," she said.

"Because we have so many company-owned vehicles on the road, the chances of one of them being involved in an accident

Buhl said installation of the automatic switch began this fall and is expected to be completed on all vehicles by March, 1987.

DRINKING AND DRIVING CAN KILL A FRIENDSHIP

| WHAT OTHER CHARITY

Society are prepared to do whatever tricks it takes to gain your support. They'll sit up for your donation which provides shelter, love, medical care and emergency rescues for thousands of sick, injured, abused and abandoned animals.

They'll roll over for a contribution that helps cover the expenses of investigation and prosecuting thousands of cruelty cases every year. They're begging for your money. Do you have the heart to send them away empty-pawed?

Give to the Michigan **Humane Society** 7401 Chrysler Dr., Detroit, MI 4821.

minutes

The amount needed varies with the size of the bird. If there is additional stuffing left, place in a small dish, cover and bake along with the turkey, using giblet broth to keep it

whenever she cooks chicken, she seasons with celery or parsley and then saves the broth, freezing it in ice cube trays and then storing the cubes in the freezer in plastic bags. Score the chestnut, then blanch When thawed, there's broth for

Saute the livers, onion, shallot and garlic in butter for 3 minutes. Chop the livers and then add to the chestnuts; add the remaining stuffing ingredients. Mix thoroughly.

Helen I. Hopping of Northville, author of Helen's Cookbook, Home Cooking for Parties Large and Small, and a popular local caterer, was in the process of making five apple pies from Northern Spy apples ("the best") and had just made fresh raspberry tarts, when asked how she stuffs her Thanksgiving turkey. The active octogenarian relates

but one she watched her mother She also offers an economical hint, suggesting that whenever sandwiches are made and the crusts taken off, take the remain-

that her recipe is not a written one,

the oven for the bread stuffing. HELEN'S STUFFING

ing pieces and cook until dried in

Dried bread stuffing Celery, use genèrous amount Chicken broth, or Broth from giblets

Run celery through food processor to cut fine. Saute finely chopped celery and sliced onion in butter. Mix with bread crumbs and

Helen Hopping notes that

Northville stuffs her turkeys with a

family recipe that basically came from Italy about 75 years ago. It's unusual in that it contains spinach. ITALIAN STUFFING

Brown: 2 pcs. mashed garlic l medium onion

1 pat butter to 1 lb. ground bee tsp. poultry seasoning or sage Stir until color is changed. Cool in a bowl

1-2 slices bread, crumbled 1 T. to 1/4 C. chopped parsley

1/4 to 1 C. chopped celery 1 10 ounce pkg., or ½ to 1 lb. fresh Cook, drain and chop spinach. Mix with other ingredients and

stuff a Thanksgiving turkey than those who have done it over the decades. Mary Ann Weston, a senior citizen of Allen Terrace. was contacted and willingly shares ner tried and true recipe for stuff-

OYSTER STUFFING

ing that includes oysters.

2 C. celery ½ C. onions 4 C. butter 6 C. dried bread crumbs i T. chopped parsley 3 C. chopped oysters (reserving li-

Experienced cook or beginner who is stuffing a turkey for the first time, you'll draw everyone to the kitchen next week as I bay leaf your turkey cooks. There's nothing like the aroma of the Thanksgiving bird filled with a succulent dressing. While 2 beaten eggs every cook has a favorite stuffing recipe, often handed down in the family, you might like to try a variation, or stuff each

Cook celery and onions in butter recipes. Here are their recipes for dressing the turkey for new until soft, but not brown. Add salt and pepper to taste, crumbs, parsley and mix. Add oysters, bay leaf, poultry seasoning and eggs. Add enough li-

Longtime Northville resident Marge Bolton is known for her baking abilities through her long association with Mizpah Circle. King's Daughters, and its benefit bake sales. For years she has stuffed her turkey with cornbread dressing, originally making the cornbread from scratch. Now, she says, she achieves the same results by using corn muffin mix.

CORNBREAD STUFFING

1 pkg. corn muffin mix 1 pkg. Pepperidge Farm herb stuf-1 C. diced celery

1/2 C. chopped onion 1 tsp. salt ½ tsp. black pepper 2 tsp. dry sage 2 C. hot water 44 C. melted oleo

Mix and bake corn muffin mix as directed in 9 by 9-inch pan. Cool.

Break into pieces Add package of stuffing mix and other ingredients. Mix and stuff turkey. Any additional dressing may be baked in a greased, covered casserole for two

- Recipe will stuff a 10-12 pound

Daphene Hansor, manager of the kitchen at Novi Middle School, obligingly shared her sage stuffing

SAGE STUFFING

l lg. onion, diced 2 stalks celery, diced ¼ C. butter 1 loaf bread 11/2 tsp. sage

Dash salt

Dash pepper Saute onion and celery in butter until clear. Tear bread loaf in

pieces, adding salt, pepper and Mix all, adding water to moisten. Stuff turkey or bake in covered dish at 350 degrees for 35-40

cavity with a different dressing. We've asked local cooks,

homemakers and experts in our area to share their stuffing

success this Thanksgiving.

Local church joins national fast

Messenbring: 'The fast is a sim-

ple and direct method of sharing

Hope Lutheran Church will take direct action to help the world's hungry on Thursday, Nov. 20. Exactly one week before Thanksgiving, the Hope Lutheran congregation will join other Americans participating in Oxfam America's 13th annual "Fast for a World Harvest." Rev. Victor Mesenbring, pastor of

the church, said, "One week before we celebrate our abundance, we've chosen to recognize and act on the fact that millions of people in the world live with much less. "The fast is a simple and direct

Library's Friends offer silk flowers

The Friends of the Novi Library will sponsor a silk plant sale at the library this Friday, Nov. 21, from 10:30 a.m. to 12:30 p.m. The public is invited to attend and choose from a large selection of reenery, flowers and flower plants. christmas wreaths, roping and oinsettias also will be available.

Barbara Pipas, president of the

riends, said the excellent quality

and reasonable prices contribute to

the popularity of the silk plants,

which can be used for home or office. The plants also make great gifts. Orders must be accompanied with payment by check, Visa or Master-Card. The silk plants will be delivered to the library in two weeks. A percentage of the sales will be used by the Friends to purchase plants for the library, Pipas reported. Pipas also noted that the Friends

and when it needs to be returned. The "reminder cards" are available at the front desk in the library. The Friends of the Novi Library is a group of individuals who volunteer their time to help improve the library. More information about membership in the Friends is

Program focuses on mission work

Pastor Paul Kelm, recognized as one of the country's leading spokesmen for church growth, will be the guest speaker at a Mission Emphasis Service on Sunday, Nov. 23, at the Good Shepherd Evangelical Lutheran Church in Novi.

Formerly Dean of Students at Wisconsin Lutheran College in Milwaukee, Kelm currently serves as Director of Evangelism for the Wisconsin Evangelical Lutheran

In addition to the Mission Emphasis Service on Sunday, Kelm will lead an area-wide seminar entitled "Witnessing Where Your Are" on Saturday, Nov. 22. Emphasis of the seminar will be on explaining how every Christian can fullfil his calling as a spokesperson for the Gospel.

This Saturday's seminar has been enrolled to capacity, but the public is invited to attend the Mission Emphasis Service on Sunday at 10 p.m. The Wisconsin Evangelical Lutheran Synod, the smallest of the major Lutheran church bodies in America, has experienced strong growth during the past decade by

WE ARE MICHIGAN

ELIAS BAUMGARTEN, PH.D. Professor of Philosophy and Medical Ethics Adviser and Consultant

"The best part of teaching at UM-D is having the opportunity to get to know your students both inside and outside the classroom. I appreciate the diversity in age and ethnic background of our students. Most of all, I appreciate their love of learning."

RANA KHALIL UM-D Sophomore Working towards a degree in International Business

"What I discovered at UM-D is that professors don't just teach the material in a book—they give you a whole new way of looking at things. You don't just earn a degree. You gain a new vision."

IT TAKES MORE THAN MODERN COMPUTERS AND library books to make a great university. At UM-D, we know that talented, motivated students are just as important as a first-class faculty. It is the synergism that occurs in the classroom every day between a great faculty and a great student body that is the true indication of a quality education.

Novi, Northville clash looms ahead in playoffs

By NEIL GEOGHEGAN staff writer

The Novi and Northville girls basketball teams didn't meet during the '86 regular season. It was the first time in many years the two schools, located just a few miles apart, didn't compete.

But by the luck of the state district playoff draw. the two teams may be on a collision course in the district final this season. Northville will host Livonia Stevenson, North Farmington, Farmington and Novi in district play that begins tomorrow (Thursday) when the Mustangs take on Stevenson in the opening round. The second round will be Saturday (Nov. 22) and the finals are slated for next Tuesday (Nov. 25).

With Novi and Northville in separate brackets. the two could conceivably meet in the finals, and it is something both teams are looking forward to . if it happens. The Wildcats were bumped off the Mustang schedule this season, much to the chagrin of Novi Coach Bill Ayotte and Athletic Director John Osborne, to accept an invitation to play in South Lyon's pre-season tournament. Since last year's meeting was in Northville, Ayotte and Osborne just assumed an '86 meeting would take

"I'm still disappointed that we didn't play them during the regular season and, frankly, I can't understand why we didn't." Ayotte said. "If we

can get by Farmington e would love to get a times to grab the district title, Kritch is optimistic. chance to play them." can win it," he admitted. "We think we can pull off

For the Wildcats to make to the finals, it would take a win over the weak loons, a team that has won just twice this seaso- both wins coming against winless Farmingtofarrision. "This is the first year in while we haven't had to play a real tough team in district opener, but

every game is tough for \ Ayotte said. "We definitely won't be looking & Farmington. "I know Northville is too especially in their own place, but the brackactually favors us somewhat. The fact that weve a chance to win it is exciting."

Northville, despite the ho court advantage, has a much tougher road the finals - the Mustangs must beat Steven on Thursday and then North Farmington on Sday. Stevenson's 5-15 overall record isn't very ressive, and Northville trounced the Spartans20 points earlier

So it stands to reason the renailenge will be against the Raiders, who stul the Mustangs earlier in the year "We certainly can't overlotevenson, and North Farmington has alreadaten us," Nor-

thville Coach Ed Kritch said, we can get by those two, then we'll start think bout Novi - it would be a very big game for hey are a big Even though his team would to win three

And there are so many other colorful, exciting delights for Christ-

rnas 1986 to lift the spirits. Don't

three in a row. It's the toughest way to go, but it's also an advantage to play on Thursday. The other three teams will be off for a week and a half and we're only off a week." Both Novi and Northville are heading into the

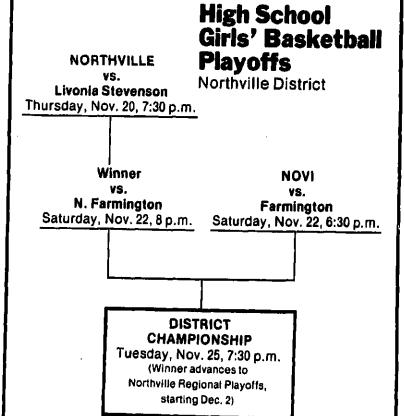

"If things start to break right for us, we think we

districts with the same frame of mind. The Wildcats never had a chance in the Kensington Valley Conference race with undefeated South Lyon in the way. Northville was in the hunt for the WLAA Western Division crown most off the season, but a recent slump dropped the Mustangs to third place. Both squads would like nothing more than to put their league failures behind and end the campaign with a district crown.

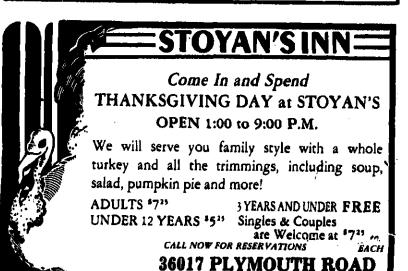

"There was no way we were going to win our league so obviously we feel we have a better shot at the districts," Ayotte said. "We are really looking forward to it."

For Northville, the goal of a district title has been in place all season. When it became obvious the Mustangs weren't going to catch Plymouth Canton in the race for the WLAA title, the districts took on more emphasis.

"We've been preparing solely for the districts for two weeks now," Kritch said. "We think a 10-10 record and a district title is more successful than

agility all seemed to come together during his senior year. "Franz was definitely our most improved player this year and probably our best blocker as well," Osborne said. "He's been a surprise to us — he really did a nice job. He's a very intelligent player, has good strength

KURT SCHUSTER, Novi, lineman: This 5-9, 165-pounder may not be big by lineman standards, but Schuster is able to successfully transfer his wrestling skills to the gridiron. What he lacks in size, the senior make up for in quickness, technique, attitude and determination. He's been a starter on the Wildcat line for two seasons and Osborne rarely had to worry about the blocking on his side

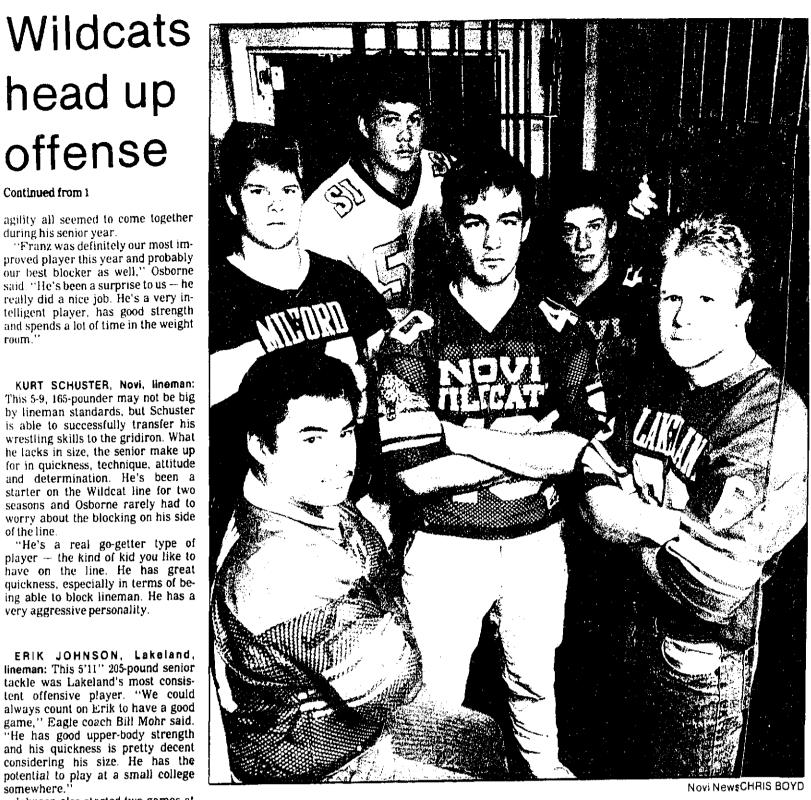

"He's a real go-getter type of player - the kind of kid you like to have on the line. He has great quickness, especially in terms of being able to block lineman. He has a very aggressive personality.

ERIK JOHNSON, Lakeland, lineman: This 5'11" 205-pound senior tackle was Lakeland's most consistent offensive player. "We could always count on Erik to have a good game," Eagle coach Bill Mohr said. "He has good upper-body strength and his quickness is pretty decent considering his size. He has the potential to play at a small college

Johnson also started two games at defensive tackle, recording seven solo tackles, three assists and one

ROB KORESKY, Milford, lineman: Several colleges, including Eastern Michigan University, are interested I think Rob can compete at the Divi-fall. He had 33 solo tackles, nine very valuable to the Mustangs this sion I level," MHS coach Jim assists, two fumble recoveries and season.

importantly, he wants to play!" Schroder added that Koresky, a shot put and discus thrower in the spring, is looking for a college where JACK SYLVESTRE, Northville, kicks came from 37, 25, 21 and 45 thville Coach Darel Schumacher Koresky also compiled some im- offensive weapon for any area team. 54 and 44, the last one was attempted 50, we started to thik field goal

Grid quiz headed by Odom

Michigan loses to Minnesota. Low ty Northwestern knocks off Michigan State, UCLA and Washington play to a-tie. And Clemson and Maryland play to a tie.

If you suspect nobody did very well in The Novi News/Northville Record football contest last week, you're absolutely right as the vast majority of entrants had seven and eight incorrect predictions.

The best anyone was able to do was six mistakes (ties are recorded as incorrect answers), and there were four of those so once again the tiebreaker had to be called into play to determine the winners.

After the tabulations had been completed, Northville's Chris Odom was declared winner of the \$15 first prize. Odom predicted Penn State and Notre Dame would score a total of 45 points in the tiebreaker contest, just two off the actual total of 43 in Penn State's 24-19 victory.

Mike Lang of Northville won the \$10 second prize as his prediction of 46 points in the tie breaker was just three off the actual total, and Northville's Steve Lang claimed the \$5 third prize by predicting 39 points would be scored in the tiebreaker was just four points off the actual

Jim Murray of Novi just missed the top three. Murrary also missed six games, but his prediction of 48 points in the tiebreaker was five away from the actual total in Penn State's narrow victory over the Fighting Irish.

Those are the results from the 11th week of the 1986 football contest, leaving just one more week for regular entrants to break into the winner's circle. So sharpen up those pencils and get down to work. It's

986 fiscal year, the Daily 3 again hi roven to be the most popular of all Michigan Lottery games. And, even with wide player support of the bureau's newer games, the Daily 3 is still increasng in popularity statewide. The follow ng answers some of the most frequent! sked questions about this game. Q_i Isn't the Daily 3 a lot like th

A: Yes In fact, the Daily 3 was intr luced in 1977 to compete with the illegal games And, players in the Daily 3 know hat it is honest, that all prizes will be and and can easily be collected at any Daily Game retailer, and that no evenues help finance education i

All-Area defenders are tough

Northville and turned out to be one of the area's best defensive backs. At 5-10, 185 pounds, McRae was big enough to fight off blockers and make the big tackles, but it was his pass coverage that surprised some McRae made 29 solo tackles, 17 assists and one fumble recovery as the Mustang monster back.

In pass coverage, he failed to get an interception, but did have three pass deflections and was very rarely beaten by a receiver. "The interceptions don't show it but John was very aluable to us in the secondary coach Darrel Schumacher said.

JEFF HINKLE, Lakeland, back: A 6'1" 180-pound senior, Hinkle has been the Eagles' leading tackler for two straight years. "Jeff's a possible college player." LHS coach Bill Mohr said. "He's probably a solid Division II. He'd like to go higher, but I think a lot of it depends on baseball. If he has a good senior year, he may try to find a college where he can play both." Mohr describes Hinkle as "a true competitor'' on game day. Hinkle had 56 solo tackles, 17 assists, two interceptions, two fumble recoveries and one sack from his cornerback slot. He also was receiver on offense,

DAN ZIMMERMAN, Milford, back: "There's no doubt in my mind that this kid is our hardest hitter," Redskin coach Jim Schroder said. "He can really smack people." Those are some pretty strong words for a player who weighs only 150 pounds, but Zimmerman beat the odds game

compiling 11 receptions for 149 yards.

after game this season The 6'0" senior recorded 28 solo tackles, five assists and three interceptions from his cornerback position. Offensively, he played wide receiver and caught 18 passes for 205 yards. "Dan's size will keep him off most college teams," Schroder added. "But he may catch on with some junior college."

TOM URBAN, South Lyon, punter: This 5'11" 170-pound senior got better with every game according to Coach Bob Scheloske. "Tom went from an average punter to an excellent punter during the course of the season," he said. "His hang time was great and his release was quick. Those are the things you want from a high school punter.'

Wildcat swimmers dunk two more opponents

The most successful season in Novi girls swimming history continued to cruise right along without a hitch

The Wildcats dunked two more opponents to wrap up their regular season and keep momentum high heading into the season finale.

Novi routinely disposed of Farmington Harrision 105-64 on Nov. 11 and then did the same to Dexter 102-65 last Thursday. It was the team's fourth and fifth straight wins, keeping alive a win streak that started after the Wildcats last lost back on Sept. 30 to Northville. Novi's record is now a sparkling 10-2 overall.

"This is the best team we've ever had here, Wildcat Coach Chad Balk said. "All you have to do is look at the school records - we are consistently rewriting the records books with every meet now."

Balk's team is deeper and more talented than any Novi squad since the program was started eight years ago. And the team's 10 wins are an all-time high.

"One of the big things is there is competition within the team itself and everybody seems to push each other on," Balk said. "In our meets with Harrison and Dexter, the scores really weren't an issue."

Against Harrison, the Wildcats won seven of the 11 events and set another school record. Gwen Rowlands' 2:08.84 in the 200-yard freestyle set a new mark, but she didn't even win the event. The Hawks' Catharine Tucker won the race with a 2:05.49.

Christie Duthie was first in the 200 IM (2:33.04), Hope Turner won the diving event (129.75 points), Julie Sommers was victorious in the 100 freestyle (1:09.63), Mara Deline won the 500 freestyle (6:00.34) and Beth Surowiec was first in the 100 backstroke (1:06.11).

Both Wildcat relay teams also were winners. Surowiec, Sommers, Stacy Milam and Deline teammed for a first in the 200 medley relay (2:07.96), while Duthie, Deline, Rowlands and Surowiec combined for a win in

the 400 freestyle relay (4:00.65).

Second place finishers were Milam in the 100 butterfly (1:10.34), Rowlands in the 100 freestyle (58.98), Chris Marker in the 500 freestyle (6:03.49), Michelle Patail in the 100 backstroke (1:11.27) and the 200 medley relay sqaud of Maggie Sigler, Carol Bekkala, Peggie Balagna and Marker (2:18.51).

Kim Black (2:41.92 in the 200 IM), Sigler (30.96 in the 50 freestyle), Patail (2:17.78 in the 200 freestyle) and Kelly Burkowski (1:29.52 in the 100 breaststroke) all grabbed third places.

The Dexter meet was very similar. Novi took firsts in eight events and added yet another new school record. For the third time this season, Surowiec broke her own record in the 100 freestyle with a 57.62. She also added a win in the 200 IM (2:22.95).

Other winning efforts by Wildcat swimmers came from Deline in the 200 freestyle (2:14.36), Rowlands in the 50 freestyle (27.60). Duthie in the 100 butterfly

(1:06.00), Marker in the 500 freestyle (6:01.96), Michelle Patail in the 100 backstroke (1:10.14) and the team of Deline, Duthie, Rowlands and Surowiec in the 400 medley relay (4:01,23).

Second place finishers included Marker in the 200 freestyle (2:14.51), Patail in the 200 IM (2:39.29), Sommers in the 100 butterfly (1:09.75) and 100 breaststroke (1:21.06), Nancy May in the 500 freestyle (6:17.75) and the team of Patail, Sommers, Duthie and Rowlands in the 200 medley relay (2:07.20).

Third place finishers were May in the 200 IM (2:44.03). Mara Huffenbaecher in the 50 freestyle (28.84), Turner in diving (145 points), Deline in the 100 freestyle (1:02.71) and Ashley Piavis in the 500 freestyle (6:52.47).

The Wildcats will end the season tomorrow (Nov. 20) on the road at the Chelsea Invitational. Because Novi is an independent in swimming, the Chelsea meet is considered the season's most important event.

Mustang star attracts major college recruiters

By NEIL GEOGHEGAN staff writer

Everyone knows that offensive players get all the glamor in football. When was the last time a defender won the Heisman Trophy?

If you aren't a quarterback or running back, your chances are almost non-existent. Maybe that's what makes our Sliger/Livingston All-

Area Player of the Year so special. Northville's Tony Briningstool is a linebacker, and even though it's a high-profile position, it just happens to be on the defense. But the 6-foot-5, 220-pound senior had such an outstanding season and showed such a tremendous amount of talent that it school player I've ever been didn't matter. Briningstool was the most valuable, most talented and most recruited player in the area nobody else even came close. Praise, even from opposing coaches, was

"Tony Briningstool is an exceptional player," Novi Coach John Osborne said, "In watching the films of our game with Northville, he was

Despite playing for the 2.7 Mustangs, Briningstool is receiving a great deal of attention from Division I football coaches across the country. Of course, Michigan, Michigan State and Notre Dame want him - he is one of the most sought-after linebackers in the midwest. But schools like UCLA, Boston College, Arizona State, Penn State, Alabama and North Carolina also have shown interest. Definitely, big time stuff.

"He is definitely the best high associated with," Northville Head Coach Darrel Schumacher said. "We've had 11 players in the last few years go on to college, but it's nothing like Tony. I don't think many coaches get the privilege to work with a legimimate blue-chipper. You hope recorded half as many tackles. for them every year, but you only get one maybe once in a lifetme."

Briningstool entered his senior year with some exposure and all the promise in the world. Now, with the season completed, he has the satisfaction of knowing he has lived up to those expectations and can virtually name the school he will allow to pay his way through college.

"I felt, even though our record wasn't great, that we had a good year and I think it was the best season I've ever had in football," Briningstool said. "The coaches told me I was trying to do too much at times in the beginning — they told me to just relax and do the things I'm supposed to do and not try to do everything."

The statistics are quite awesome. Briningstool dominated every game he played. Twice he had over 30 tackles in a single game, finishing the season with 109 solo stops and 82 assists. No other player in the area

He added three sacks, three interceptions, two blocked kicks, caused four fumbles, recovered one of them and had two pass deflections. All while the opposition either ran away from him or double and tripleteamed him.

"I kind of liked it that way because it will make me a better player," Briningstool said, "I looked forward, going into the games, knowing that (the opposition) prepared to run away from me because I felt like if they were going to key on me, then that's going to leave my friends open to make the play."

Briningstool's unselfishness, determination and heart were the things that really made an impression on his coaches, not just the football skills. The tendency was to turn the conversation from Briningstool's

football talents to his personality. "This may sound corny, but I think what makes Tony so special is his

Briningstool family has given him such support, love and concern that the young man is just determined to succeed at anything he does. He is an extremely hard worker - not just on the football field but in the

Briningstool carries a fine 3.4 grade point average and plans to maior in pre-med in college. And instead of looking at football first and academics second when he makes his decision, Briningstool has the priorities straight.

"I'm interested in a strong premed program," he said. "When I'm looking at a school, football is important but the academic part is more important.

Mail has been rolling in from major colleges all over the country, and he's been visiting schools just about every weekend — but Briningstool

family," Schumacher said, "The hasn't actually talked to coaches yet. The official date when colleges are allowed to talk with recruits is Dec. 1.

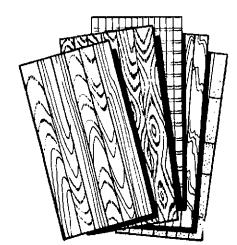

"I'm not leaning toward any school or program," he said. "I'm looking forward to December when I can talk to everyone and consider all the op-

"Tony is very logical," Schumacher pointed out, "and he's going to really think it through. He'll listen to everybody and then make a choice that's best for Tony in terms of his goals in life — not just foot-

The first day for football seniors to sign a binding letter of intent is Feb. 11, 1987. That will be the day most blue chippers will decide where they will attend school and play football.

"I'll sign that day," he vows. One thing's for sure, Briningstool will make some football coach very happy that day.

Per Gallon

The outer shell is made of tough waterresistant Beaver nylon (50% cotton /50% nylon) that won't snag in the underbrush.

The protective pad consists of 10 layers of loose-woven "Polymid" fiber with ribbing on the back of the pad to prevent it from sticking to the wearer's leg when perspiring.

DNSEfed

Two-Cycle Engine Oil

- Superior performance in all two-cycle engines (air- or water-cooled), for all applications (premix or injector), of any horsepower!
- Clean-burning at all mix ratios 16:1 to 50:1. Eliminates ring-sticking and hard ash deposits
- BIA Certified TC-W Severe Service
 - Pours, mixes and stays mixed with fuel even at 30°F. Unequalled resistance to just, oxidation, varnish and pre-mix separations
