Construction is underway at Village Oaks Elementary school.

City demands school plans

By CHRISTOPHER J. KOZLOWSKI
staff writer

Novi school district officials were given an ultimatum by the Novi Planning Commission — either submit all plans for expansion or construction of new facilities by 5 p.m. tomorrow (Sept. 11) or the city will take legal action to bring current projects to a halt.

Commissioners voted unanimously last week to issue the order, which would demand for the first time in the city's history that

the school district comply with planning procedures mandated by city ordinances.

Novi Community Schools Superintendent Robert Piwko said Tuesday he will not comply with the city's request by the end of this week, but will announce the school board's decision and future plans at the next school board meeting on Sept. 17.

A refusal to comply with the city's request could lead both parties into the court room to decide which entity has jurisdiction over con-

struction and expansion of educational facilities in Novi.

"Any information at the present time has been directed to our legal counsel," Piwko said Tuesday. "If any type of action is to be taken, it would probably be done at the Sept. 17 board meeting."

The school district this summer added classrooms to the Village Oaks and Orchard Hills elementary schools. Between 1988 and 1989, the district has plans to construct three new buildings, including a new maintenance building (construction

scheduled to begin next month), a new elementary school (construction scheduled to begin March 1988) and a new administration building (construction set to begin in March 1988).

In addition, the school board also has planned to remodel its Upper Elementary School (construction scheduled to begin December 1987).

According to Judith Johnson, chairperson of the planning commission, school officials historically

Senior's housing gets nod

By CHRISTOPHER J. KOZLOWSKI
staff writer

Senior citizens may soon have two new complexes from which to choose in the City of Novi as a result of action by the Novi Planning Commission last week.

Specifically, the commission granted preliminary site plan approvals for the first two projects to be proposed under the city's new senior citizen housing overlay zoning ordinance.

The South Pointe complex is to be located south of South Lake Drive off Walled Lake west of Novi Road, and received special land use approval and conditional preliminary site plan approval.

The Westminster Village senior complex, which would be located west of Haggerty Road just south of Ten Mile, received special land use and preliminary site plan approval.

The overlay zoning ordinance was adopted by the city council earlier this summer as a means to provide for new senior developments by allowing four types of senior complexes to be constructed in property zoned for residential uses.

Both new complexes approved Sept. 2 were approved according to the SCH-2 classification, which permits low-rise independent and congregate senior complexes.

Numerous area residents spoke out concerning the proposals during public hearings, and most spoke in favor of the plans. Many residents applauded after the commission approved the Westminster plans. Some residents, however, questioned how traffic concerns could be best met at each project's location.

SOUTH POINTE

The complex is comprised of 76 condominium units, which are located on 9.76 acres and occupy 41,208 square feet. Planning commissioners granted preliminary approval of the project, pending changes to the site plan's side yard setbacks and parking accommodations.

Most commissioners voiced concern that the sideyard setbacks and parking lots about too closely to neighboring residential developments.

Despite the fact that the plan does not add a major thoroughfare — South Lake is a residential collector road — commissioners recommended Zoning Board of Appeals approval because of the nature of traffic use on South Lake Drive.

During the public hearing, residents expressed concerns that traffic generated by the project would impede existing traffic on South Lake Drive. They also voiced concerns that speed bumps which are in place on South Lake Drive may impede emergency vehicle traffic which may need access to the senior facility.

Rodney Arroyo of Barton-Aschman, Inc., the city's traffic consultant, said traffic generated by the project would not be excessive. He also said emergency vehicle traffic would be able to provide service to elderly residents safely despite the speed bumps.

Citing traffic concerns, commissioners objected to two proposed

Gentle giant

The careful art work of Novi resident Wilma Young shows up in the beautiful detail of this doll house. Young is one of many area artists participating in the annual 'Art at the Oaks' show this weekend at the West Oaks Shopping Center. Young will display doll houses and wooden doll equipment. The show runs Saturday and Sunday, September 12-13

Candidates state platforms for election

By ANN E. WILLIS
staff writer

Labor Day has barely passed, yet Novi candidates for city council and mayor are out on the streets stumping hard for votes.

The Novi Jaycees held a Candidates Night on Sept. 1 at the Red Timbers restaurant. Nancy Covert and Matthew Quinn — candidates for mayor; Richard Clark, Rico Digrolamo, Martha Hoyer, Edward Leininger, Laura Lorenzo, Edward Phelps, Bob Schmid, and Joseph Toth — council candidates,

all attended the evening's discussion.

Covert and Quinn are vying for the office of mayor. Jerry Sheridan, whose name will appear on the ballot, has formally withdrawn from the mayoral race. Current Mayor Patricia Karevich decided not to run for re-election.

The eight candidates for council are competing for three open seats. All three council incumbents — Hoyer, Leininger and Toth — are running for re-election on the Nov. 3 ballot.

Each candidate was allotted five minutes for an introductory speech. Candidates then fielded questions from the audience.

NANCY COVERT/mayoral candidate: "I'm Nancy Covert and I'm a candidate for mayor in the City of Novi. Perhaps you'll recognize the person whose story I'm about to tell

you. Maybe others of you will be able to relate to the story or to identify with the scenario.

"Moving here in the early 1980s this person was very impressed by what she saw about Novi. There were many attractions that Novi had that other communities would only attempt to rival. Some of these attractions included country life environment, fine highway access, excellent schools, wooded areas, natural resources, and one of the best designed malls in the country — Twelve Oaks.

"The move here went very smoothly as did the first year, and then something happened. And I'm wondering how many homeowners can relate to something happening — a shock. When they suddenly realized that something was going to be changed that maybe would have a large impact on the quality

of their lives.

"In this instance it was the first major change, proposed change to the master plan of 1980. People had relied on this plan to protect their neighborhood. What was happening was — a large amount of property — some 72 acres was being considered for change from residential zoning to office service commercial. The possibility of five-story commercial or office building going next to homes.

"On the heels of this shot came yet another one. People found out who lived here, that there were no laws protecting the character and the integrity of their neighborhood other than what was provided for with covenants and restrictions. Never before had this person been involved politically, but she was fast becoming a leader and a

spokesperson for homeowners' interests.

"Along the way it became obvious that this was a growing city with many issues — community wide issues. For instance, how would officials in the city plan and manage the fast-paced growth? Would the master plan be followed? In 1985 friends and acquaintances urged her to run for public office. She did, promising to represent homeowners.

"Two years ago in November 1985 I was elected to Novi City Council. Since then I have had a record of consistently representing homeowners. I am one candidate who you know will keep her promise or promises.

Mayor's race trimmed; Sheridan ends attempt

By ANN E. WILLIS
staff writer

It would appear that although a "peanut farmer could be president," a barber won't be Mayor of Novi this November.

Jerry Sheridan, or "Jerry, The Barber," as he prefers to be known, has officially dropped out of the race for mayor.

Sheridan sent City Clerk Geraldine Stipp a letter dated Aug. 28, citing increased business concerns as his reason for withdrawing from the race.

Although in receipt of his letter on Tuesday, Sept. 8, Stipp said she had no control over the names on the ballot at this late date. Sheridan's

name will appear on the ballot in November, although he will not formally campaign for votes.

Sheridan's withdrawal leaves the field to the remaining two candidates — Nancy Covert and Matthew Quinn. The election will take place on Nov. 3.

Sheridan said he decided to pull out of the three-way mayoral race after talking over his commitments with his wife. He has started a new business, Instant Signs, opening on Novi Road, in addition to his barbershop. Sheridan said time commitments of the two businesses and his active family life led him to the decision.

"I'm just way too busy," he said. "There's just not enough time. I

didn't think I'd have to give all those speeches. You can only do so much and work. You've got to have time for this (the mayor's position)," he said.

Sheridan said he will remain active in city affairs, speaking out against plans he considers unhealthy for the city. Sheridan said he is against strip malls. He also said he believes that any development the size of the Town Center project should have been voted on by the citizens of the city, "instead of 20 people telling 20,000 what they wanted."

"If I was mayor, those things wouldn't happen," Sheridan said. "And I truly believe I could have been mayor."

Speed increases could raise rates

Increasing the speed limit to 65 mph could result in substantial car insurance rate hikes for Michigan consumers.

Auto insurance premiums will have to rise an estimated 10 percent in states which change their speed limits, according to a recent study conducted by Metropolitan Insurance Companies. Half of the increase would be needed to compensate for the greater number of crashes resulting from higher speeds, while the rest would cover severity of accidents.

This conclusion is based on national statistics showing a 4.6 percent reduction in accident frequency and an 11 percent decrease in the motor vehicle death rate when the speed limit was lowered to 55 mph in 1974. Martin Deede, who prepared the study for Metropolitan, says these reductions will be reversed as speed limits are increased.

In Michigan, traffic accident frequency decreased 2.9 percent in 1974 compared to the previous year, according to Terry Buckles, president of Michigan Association of Insurance Companies. The death rate dropped 8.5 percent.

Michigan consumers paid a little more than \$3 billion for auto insurance last year. Buckles said that premium rates already are increasing 7 to 15 percent annually due to inflation, the cost of "high-risk pools," crime, court rulings and other factors.

According to Dan Kummer, legislative analyst for the Alliance of American Insurers, the Metropolitan study makes many valid points for keeping the speed limit at 55 mph.

Federal legislation enacted earlier this year gives states the option to raise speed limits on rural interstate highways to 65 mph without loss of highway funding.

In explaining his conclusions, Deede pointed out that the number of U.S. accidents per vehicle mile driven decreased 4.6 percent between 1973 and 1974. "A comparison of the number of accidents per vehicle mile driven for any other two consecutive years shows only a very small variation. Accordingly, the frequency change experienced between 1973 and 1974 is statistically significant."

Moreover, it is logical to conclude that the 4.6 percent reduction in accident frequency experienced in those years will be reversed today in those states that abandon the 55 mph speed limit.

"The laws of physics also dictate that a seemingly small 10 mph increase in vehicle speed will have a substantial impact on accident severity," Deede noted. "Because the force of impact in a collision increases with the square of the increase in vehicle speed, a change from 55 to 65 mph represents a 40 percent increase in the force of impact even though the change in vehicle speed is only 18 percent."

"A figure of 5 percent for the increase in severity in states which abandon 55 mph is predicted, rather than a complete reversal of the 11 percent figure, as a result of an allowance for the increased use of seat belts and child safety seats, as well as the better medical care which prevails today," Deede said.

Novi News/CHRIS BOYD

Class of 2000

The first day of school for most students in the Novi Community School District was Tuesday, Sept. 1. But for the members of the prestigious 1987-88 kindergarten class didn't begin school until a day later — Wednesday, Sept. 2. Orchard Hills Principal Paul

LePae is pictured above escorting some of the entering kindergartners off the bus for their first day of school. This year's entering kindergartners will graduate in the year 2000.

POW/MIA service at Oakland Hills

The second annual 24-hour POW/MIA vigil will be held at Oakland Hills Memorial Gardens in Novi on Saturday and Sunday, Sept. 19-20. The vigil is sponsored by Chapter 154 of the Vietnam Veterans of America. Oakland Hills Memorial Gardens is located at the corner of Twelve Mile and Novi Road.

Purpose of the vigil is to make the public aware of the POW-MIA situation which still exists and that Michigan has the first POW-MIA memorial.

In addition, a new flag pole donated by the Ford Motor Company will be

dedicated during the vigil. The vigil will begin Saturday, Sept. 19, at 5 p.m. with opening ceremonies, flag pole dedication, posting of the colors and color guard, wreath presentation, speakers and a candlelighting ceremony.

The names of the 75 of the Michigan men listed as "missing in action" will be read each hour in conjunction with the changing of the guard.

The vigil will end Sunday, Sept. 20, at 5 p.m. with closing ceremonies, speakers, a 21-gun salute, tap and the retiring of the colors and color guard.

Upper EI — to Novi Meadows?

The days are numbered for Novi Upper Elementary School — at least for the name.

A five-member committee last week recommended that the Novi school board change the school's name to Novi Meadows Intermediate School. The board took no action on the recommendation last week in order to hear opinions on the new name.

The board is scheduled to vote on the recommendation next Thursday, Sept. 17. The board adopted the Upper Elementary name last year for a one-year trial period. The school,

part of the Novi Community School District campus on Tati Road, houses all the district's fifth and sixth grade students — an unusual arrangement in Michigan public schools.

Earlier this summer, board president Robert Schram appointed the committee to consider new names and make a recommendation to the board on adopting a new name or keeping the old. The school also has been known by several other names including Middle School North.

The committee members were two parents, a teacher, a member of the Board of Education and a representative of the district administration.

Board member Sharon Peichat, who chaired the committee, said at Thursday's meeting that the group's members wanted to continue the "nature" theme in the names of the district's elementary schools — Novi Woods, Orchard Hills, and Village Oaks.

The term "intermediate" was recommended because "it gives us the idea that it's different from an elementary or a middle school," Peichat said.

The next board meeting is scheduled for Thursday, Sept. 17 at 7:30 p.m. at Orchard Hills Elementary School, 41900 Quince.

Wrong or undone work plagues city

By CHRISTOPHER J. KOZLOWSKI staff writer

Novi planning commissioners are trying to figure out what to do about 3,900 feet of concrete sidewalk that no one planned to utilize in the city's safety path master plan.

The 4-foot concrete sidewalk was laid at the Town Center instead of the asphalt bike path that was planned for the site, and city planners are preparing to discuss how the mistake occurred in an effort to rectify a problem that is plaguing more than one development in the city.

According to Ernest Aruffo, planning commission secretary, mistakes in the actual construction of proposed projects are occurring, and the commission will discuss a refined checks and balance system at its next meeting, Sept. 17.

"That's what we want to get to the bottom of — whose responsibility really is it?" Aruffo said. "Sidewalks that are missing, building facades that are being changed, roadways that disappear. The general gauntlet of things is that because we are moving so rapidly, someone is not paying enough attention," Aruffo said.

"We know who should be doing it," Aruffo said. "But it is a question of the monitoring."

"Sometimes everybody's business is nobody's business," Aruffo added. "And there is sort of a fine line of who is really responsible to see to it."

Aruffo: 'Sidewalks that are missing, building facades that are being changed, roadways that disappear. The general gauntlet of things is that because we are moving so rapidly' someone is not paying enough attention.

A stray sidewalk is not the only problem facing Town Center, however. In addition to the safety path, Aruffo told commissioners last week that facade materials on one retail outlet were not the same as originally proposed.

Aruffo said the Vic Tanny facade material was supposed to be colored blue, and instead appears to be bronze.

Aruffo said planning commissioners will now discuss ways to refine the city's monitoring process in addition to defining whose responsibility it is to make sure that projects are built the way in which they were proposed.

"I personally feel it is the responsibility of the engineers and of the planning consultant," Aruffo said.

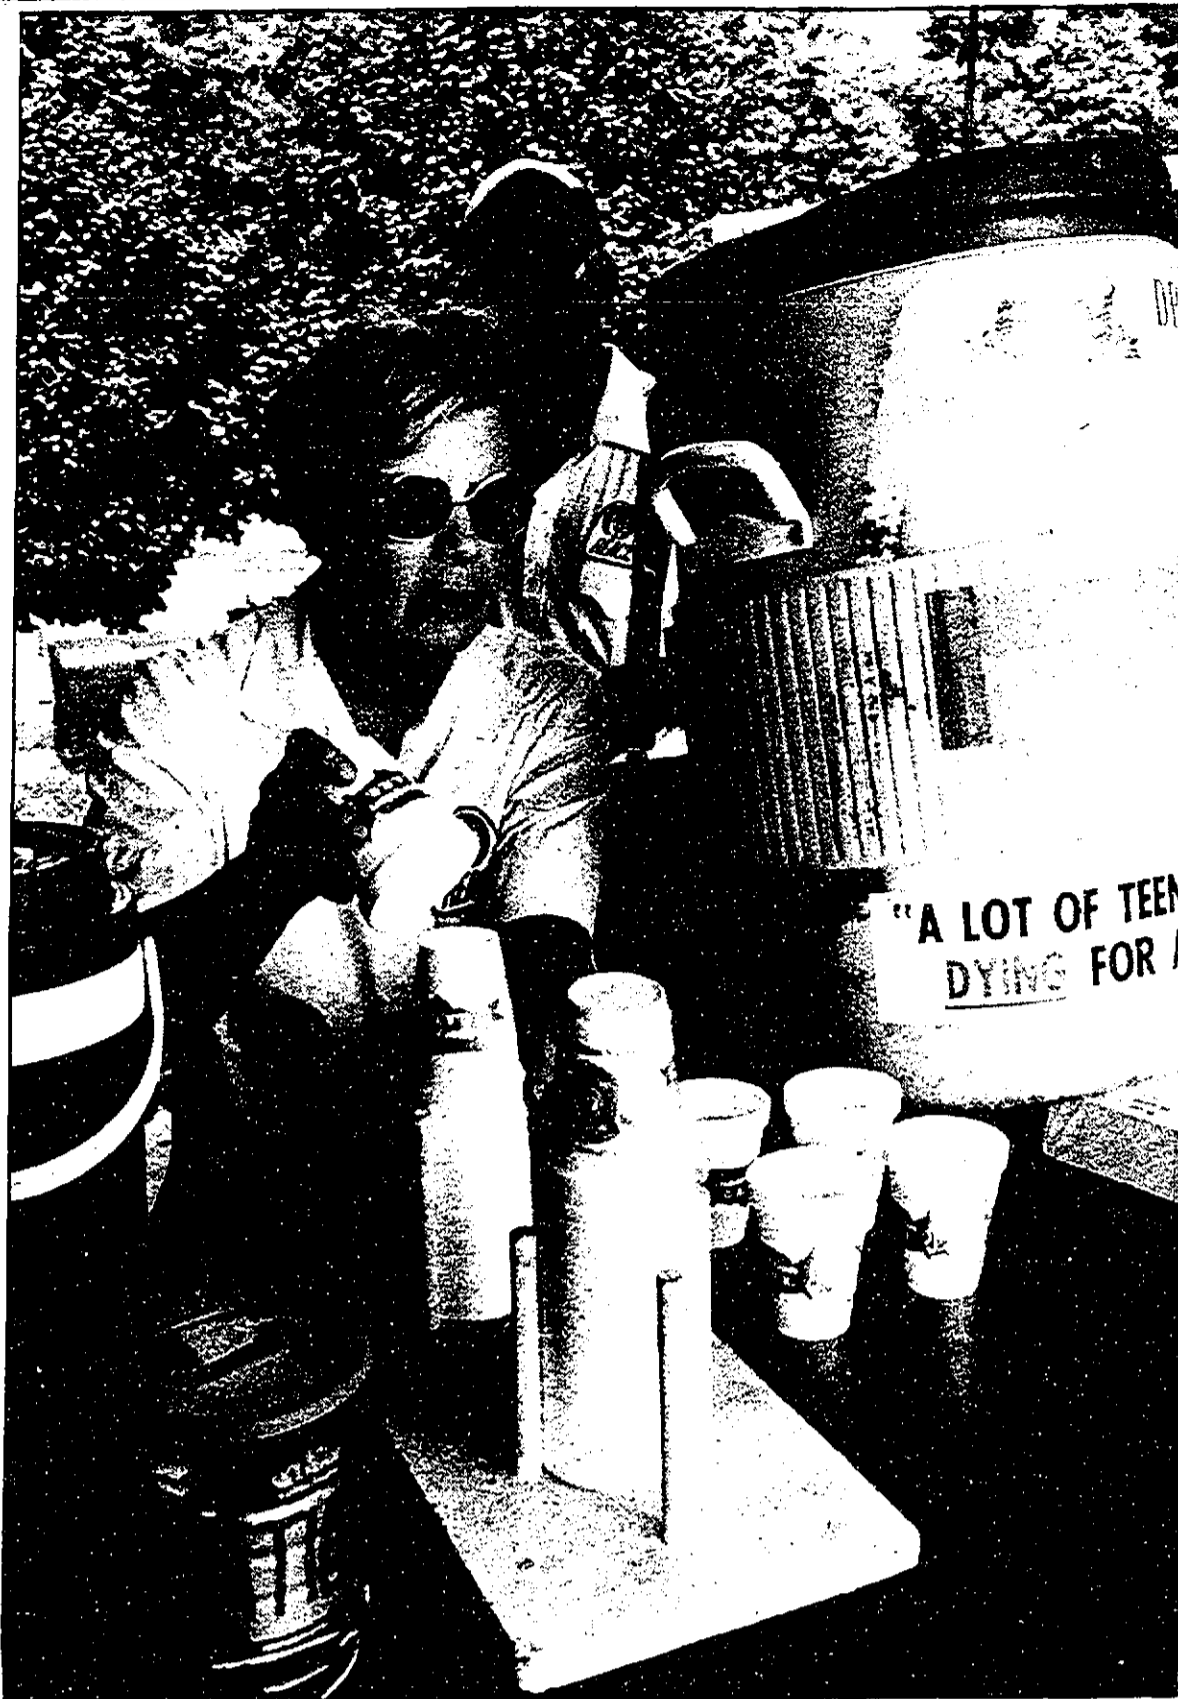

Deficiencies were previously discovered in the construction of the West Oaks II shopping center by planners in June. Developers had proposed construction of a berm to screen the center from view north of

Twelve Mile, but the berm failed to appear in the construction phase. Referring to original site plans, city officials took action to see that the berm would be constructed.

In terms of the new sidewalk at Town Center, Aruffo said there may be an easy solution for the problem.

Actually, because the sidewalk was acquired through a Special Assessment District (SAD), Aruffo said the solution for the city will not be so sad.

"There is a good solution," Aruffo said. "The suggestion has been that across the top (along Crescent Drive), the SAD does continue with a road that goes beyond that spur," Aruffo said. "So the true bicycle path could follow that SAD route. It would go on a semi-circle back over to Eleven Mile Road, then continue easterly to Meadowbrook, goes across the street and connects with the Toledo route (along I-75). That would be the logical thing and not make them tear up all that sidewalk."

Novi News/PHILIP JEROME

Safety break

Summer came to an unofficial end with Labor Day last Monday. And even though most Novi residents enjoyed the long weekend, members of Novi REACT were busy passing out coffee and donuts to weary motorists at the rest stop on eastbound I-96. Serving up cups of fruit punch in the picture above is Novi REACT member Janet

Bristol. The Novi group sets up shop at the I-96 rest stop over both Memorial Day and Labor Day weekends in conjunction with the Michigan State Police effort to encourage motorists to take a break from driving in order to promote highway safety.

Thief nabs a purse, with car

A 74-year-old Taylor woman was victimized by a purse-snatching incident as she was walking through the parking lot at Twelve Oaks Mall on Tuesday, Sept. 1.

The woman told police that she and her daughter were walking on the right side of the traffic aisle in the Red Lot on their way to the mall at approximately 1:45 p.m. when they observed a small, white car coming up the aisle behind them.

As the car approached, the occupant on the passenger's side stuck his arm out the window, grabbed the woman's shoulder bag and pulled it away from her.

The vehicle then sped away.

Police reports indicated that the older woman suffered injuries to her hands and shoulders as a result of having the shoulder bag pulled away from her.

Witnesses described the car as a dirty, white, small two-door vehicle. A description of the two occupants was unavailable, although a witness told police the arm that grabbed the purse appeared to have been "white-skinned."

The stolen purse was valued at \$30 and contained \$70 in U.S. currency as well as several credit cards, according to police reports.

Openings to retirees

LIVONIA — Schoolcraft College has an immediate need for retired individuals to provide special assistance to instructional and student services programs through the Retired Senior Volunteer Program (RSVP).

RSVP volunteers perform many different duties at the college.

Currently, the college's Learning Assistance Center is looking for individuals to tutor basic math and English and work in the office. The Music Department has requested two volunteers for the Music Library.

Volunteers also are needed for the Radcliff Center in Garden City.

RSVP volunteers are compensated for their transportation costs, and funding is provided for lunch. For more information call Volunteer Coordinator Maud Piggot at 453-6478.

Suspect sought for break-ins

Police are investigating the possibility that the same individual is responsible for a series of break-ins in the Pavilion Court Apartments in recent weeks.

Police Beat

Investigating officers report that the *modus operandi* in the incidents is similar and the responsible party appears to have a key to the apartments.

A quantity of jewelry was stolen from a residence on Terrace Court in the Pavilion Court Apartments in a break-in that occurred Aug. 31 between 8:30 a.m. and 12:15 p.m.

The complainant said he returned home with his family shortly after noon to find the front door closed but unlocked. Officers said it appeared a key had been used to enter the apartment.

The only items that appeared to have been stolen were several pieces of jewelry.

ANOTHER RESIDENCE on Lodge in the Pavilion Court Apartments were broken into by unknown individuals on Aug. 31 between 7:30 a.m. and 6:05 p.m.

Investigating officers said it appeared the responsible party had a key to gain entry to the apartment. Once inside, the burglar looked through kitchen cupboards, knocking a pair of sticks off the refrigerator, then entered a bedroom where he knicked over a wooden clothes stand outside a closet door.

The thief appeared to have searched the room for items of value.

Stolen property included a Canon 35mm camera and an unknown amount of old U.S. coins.

AN EXPENSIVE 12-PLACE William Roger silverware collection was stolen from a residence on Summerhouse in the Pavilion Court Apartments during another break-in that occurred Aug. 31. The complainant said he left home at 7:35 a.m. and discovered the theft when he returned at 6 p.m.

Throughout the residence, entering the kitchen, living room, bedrooms and a computer room while looking for valuables. Police found no signs of forced entry.

The silverware collection was contained in a woodgrain box which the responsible party moved into a bedroom and emptied into a pillowcase taken from the bed. He also dumped various other items into the pillowcase, including the contents of several jewelry boxes and a quantity of U.S. coins.

The stolen silverware collection was valued at \$2,675. Also stolen were \$500 in cash, a Panasonic AM/FM radio, women's jewelry valued at \$1,000 and a woman's charm bracelet valued at \$650.

The theft was discovered by a construction supervisor who said he found the front door of the residence closed but unlocked. There were no signs of forced entry and nothing else inside the model home appeared to have been disturbed.

A KENMORE refrigerator was stolen from a model home on Plaisance in the Dunbarton Pines subdivision sometime during the night of Sept. 4-5.

The thief was discovered by a construction supervisor who said he found the front door of the residence closed but unlocked. There were no signs of forced entry and nothing else inside the model home appeared to have been disturbed.

TWO FOLDING CHAIRS were stolen from the front porch of a residence on Dunbarton Drive in the Dunbarton Pines subdivision sometime between Aug. 27 and Aug. 29.

The stolen chairs were valued at \$20 apiece.

SEVERAL VEHICLES parked outside their owners' residences in Dunbarton Pines were damaged by vandals during the night of Aug. 30-31. Police said a high-powered bb gun or pellet gun was used to damage the vehicles.

The rear window of a 1987 Renault parked outside the owner's residence on Dunbarton Drive was shattered during the spree of vandalism.

A GOLD CHARM BRACELET valued at \$750 was stolen from a residence on Villageview in the early morning hours of Sept. 5.

The complainant told police she arrived home after several hours of shopping to find the front door unlocked. She said she was certain she had locked the door upon leaving.

The charm bracelet was stolen from a jewelry box located in a bedroom. The bracelet contained eight gold charms that had been collected in various European countries.

THE WINDOW of a 1985 Merkur parked outside the owner's residence on Sheridan in the Village Oaks subdivision was shattered by vandals during an incident that occurred during the night of Sept. 1-2.

The complainant said unknown individuals threw a glass wine cooler bottle through the passenger's side window, doing an estimated \$120 worth of damage.

A BEACHWALK APARTMENTS resident reported the theft of his 1986 Ford Mustang GT.

The man said the car was stolen from the carport outside his residence during the night of Aug. 30-31. The vehicle was valued at \$11,000.

VANDALS SMASHED a window of a 1986 Dodge stationwagon while it was parked outside the owner's residence on Center Street.

The complaint told police that unknown individuals threw a rock through the rear driver's side window on Sept. 2 between 9:15 and 9:45 p.m.

UNKNOWN INDIVIDUALS did an estimated \$200 worth of damage to the lawn at the Novi Meadows Mobile Home Park on Aug. 29 at approximately 2:30 a.m.

The park manager told police a witness reported seeing a red Ford Escort drive over the curb and across the lawn outside the entrance to the mobile home park.

Investigating officers said there were approximately 150-feet of tire tracks across the lawn.

Novi Briefs

So long, Pat Brunett: Pat Brunett has resigned as Novi's representative on the Southwestern Oakland Cable Commission, citing a desire to spend more time with his family and community involvement.

Brunett served two years as chairperson of the Cable Access Committee. In addition to helping others learn to produce shows, he produced the award-winning program entitled "Meet Rick," a dramatization of the life of a handicapped person.

Raffle with a heart: Bea Lindoerfer of BeLynn's Hair Styling at the corner of Novi Road and Ten Mile has a plan for the upcoming Christmas gift-giving season.

Lindoerfer built a doll house which is currently on display in her shop's window. The other women in the shop are all helping to furnish the house — and Lindoerfer is going to raffie off the finished product.

The money collected will be sent to the Vanda Muscatello fund, Lindoerfer said, to help her buy Christmas presents. Muscatello was severely injured in the June 21 tornado that struck the Chateau Estates Mobile Home Park. Her husband Michael was killed in the storm. Her infant son was also injured. The family had no medical or home insurance.

Fixed up the doll house raffle are \$2, or \$5 for five. The raffle will be held on Nov. 28. For more details stop by the shop or call Bea at 348-1220.

Novi Choralaires: Auditions for the Novi Choralaires will be held Tuesday, Sept. 15, at Nvi Middle School. Interested candidates are asked to attend the rehearsal at 7:30 p.m. Call Becky Staab at 348-2919 prior to Sept. 15 for audition reservations.

The Choralaires will be providing entertainment at this year's "Art at the Oaks" fair, Sept. 12. For more information on the Choralaires contact Ruth Sill at 348-6276.

Novi Players: The Novi Players Community Theatre Group is looking for new blood — actors, directors, stage crew, publicity — for the 1987-88 season.

The Players will present "Wait Until Dark," "Man With The Plastic Sandwich" and "Everybody Loves Opal." For more information on the Players call 349-7673.

Home School Membership: The deadline for filing the Home School Membership Report with the Oakland Intermediate School District is Nov. 1. Parents teaching their children at home are required to file the report annually.

Copies of the form and state procedures are available from the Department of Pupil Personnel Services at Oakland Schools, 2100 Pontiac Lake Road, Pontiac, Mich. 48054.

Additional information about filing the form or state rules regarding home schools is available from Jan Doolittle of the Oakland Schools at 858-2088.

Second annual Crop Walk: Dust off the walking shoes and start stretching. The second annual Novi Crop Walk is scheduled for Sunday, Oct. 11.

The money received from walkers' pledges will be donated to the World Hunger Control Fund and the Novi Emergency Food Program. Last year this six-mile walk through the community netted \$5,200. This year organizers have set a goal of \$8,000. Sponsor envelopes are available at area churches.

For more information contact the Meadowbrook Congregational Church at 348-7757.

Play Ball! Tired of seeing Novi city officials at city council meetings? Anxious to see them come out from behind the table and take their lumps on the baseball field? Well, now's your chance.

On Sept. 13 the Novi Old Timer's senior citizen baseball team will take on the members of the Novi City Council and assorted city officials in a warm-up match at 12 noon at Power Park.

The real game will be between the Dewal Corporation team, a combination of Dewal employees and city employees, and the Tiger Alumni team at 2 p.m. The game is being sponsored by the Dewal Corporation and proceeds from the benefit will be donated to the Police and Firefighters Associations.

A minimum goal of \$5,000 has been set. The police will be donating to the Inster Police Memorial Fund, and the firefighters will be donating proceeds to the University of Michigan Burn Center. Tickets to the game are \$1. Call the Novi Parks and Recreation Department at 349-1976 for more information.

Novi News/CHRIS BOYD

Dan and the beanstalk

Well, more accurately Dan Skiba and his ten foot tall tomato plant, Skiba is a Lakewood Park condominium resident and in order to make good use of the space available to him, he staked this plant

near the corner of his house. A little water, some pruning and attention — and voila — a larger than life tomato plant.

Rotary Club to begin new exchange with Australia

The Novi Rotary Club is participating in a Group Study Exchange which will send a team of four to five non-Rotarian business women to Australia.

Novi Rotary is part of Rotary International District 638 which includes southeast Michigan and western Ontario. District 638 is working with Rotary International District 946 in western Australia to sponsor the Group Study Exchange.

The two districts will exchange teams of four to five non-Rotarian business women between the ages of 25 and 35. Each team will spend six weeks studying their economic, social and professional counterparts

from the exchange company. The American/Canada group will be selected by Oct. 1, 1987, and go overseas in February 1988.

More information about the Group Study Exchange is available from Bob Maynes of Novi Rotary at 349-2188.

Since Group Study Exchange Programs were started in 1966 more than 13,500 people from some 150 countries have had the opportunity to experience first-hand the daily life in other lands while acting as ambassadors of good will from their own country.

The Rotary Foundation is spending \$2 million worldwide in 1987-88 to fund the team's international travel. Team meals, lodging and local travel arrangements are provided by the host Rotary districts. Visitors normally stay with Rotarian families from the host country.

Rotary International, the world's first and most international service club association, unites more than one million business and professional people across the world. Purpose of the organization is to provide humanitarian service, encourage high ethical standards in all vocations, and help build good will and peace in the world.

There are more than 22,000 Rotary clubs in 161 countries.

Novi Jaycees win awards at state assembly meeting

The Novi Jaycees continue to pile up awards as they cement their claim to being the top Michigan Jaycee chapter in the state.

The latest round of awards came at the Michigan Jaycees' Summer General Assembly in Ironwood.

In Population Division V, the Novi Jaycees were honored in the major emphasis areas of public relations, financial management and planning.

In the Community Development Area (Population Division V), the Jaycees were honored for their school board candidates night. In the Individual Development Area (Popu-

lation Division V), they were honored for their "Get Physical" program and parliamentary procedure training of board members.

Vice Presidential Incentive Awards were given to Individual Development Vice President Bernie Johansen, Management Development Vice President Liz Howie, and Community Development Vice President Terry Mercier.

President Sandy Ayers was named a "Fast Start President" for the first quarter.

Novi was named "Chapter of the Quarter" (Population Division V) in

the areas of individual development, management development and community development. The individual development area also was named "Chapter of the Quarter" for all population divisions within the Michigan Jaycees.

Liz Howie was the overall winner in the Write-Up competition. District Director Charley Staab, a past president of the Novi Jaycees, was named No. 3 District Director for the state in the first quarter.

The Novi Jaycees also were honored overall as "Chapter of the Quarter" for Population Division V.

Children need security number, too

Parents are reminded they need a Social Security number for each dependent age 5 and older whom they list on Federal tax returns filed after December 31, 1987. This is required by the Tax Reform Act of 1986.

One can apply for a number in person or by mail at the Social Security office at 26840 W. Seven Mile in Northville. If the dependent needing a number is 18 or older or was born outside the United States, the application must be made in person.

Proof of the dependent's date of birth, U.S. citizenship or lawful alien status and identity are required when a person applies. If the dependent was born in the U.S., usually an original or certified copy of a public, hospital or religious birth record can establish proof of both date of birth and citizenship. School, medical, day care and insurance records can be used for identity.

South Redford and Redford Union School districts have been contacted by Social Security to sign up dependents for Social Security numbers in

the schools. Schools who have not yet had a sign up visit will be re-contacted in the fall. Private schools will also be contacted. Preschools in these communities are now being contacted for sign up visits this summer.

School personnel and parents have been very pleased with Social Security visits. For more information about applying for a Social Security number, call 1-900-410-INFO. There is an 85 cent charge for this call.

Planner's Section 10 plan OK'd

By CHRISTOPHER J. KOZLOWSKI
staff writer

The process of reducing the amount of planning designated for commercial development in the City of Novi is under way.

Despite opposition from existing property owners, the Novi Planning Commission unanimously approved a rezoning plan for Section Ten at its Sept. 2 meeting. Section Ten is the square mile of property from Twelve to Thirteen Mile between Novi and Taft roads.

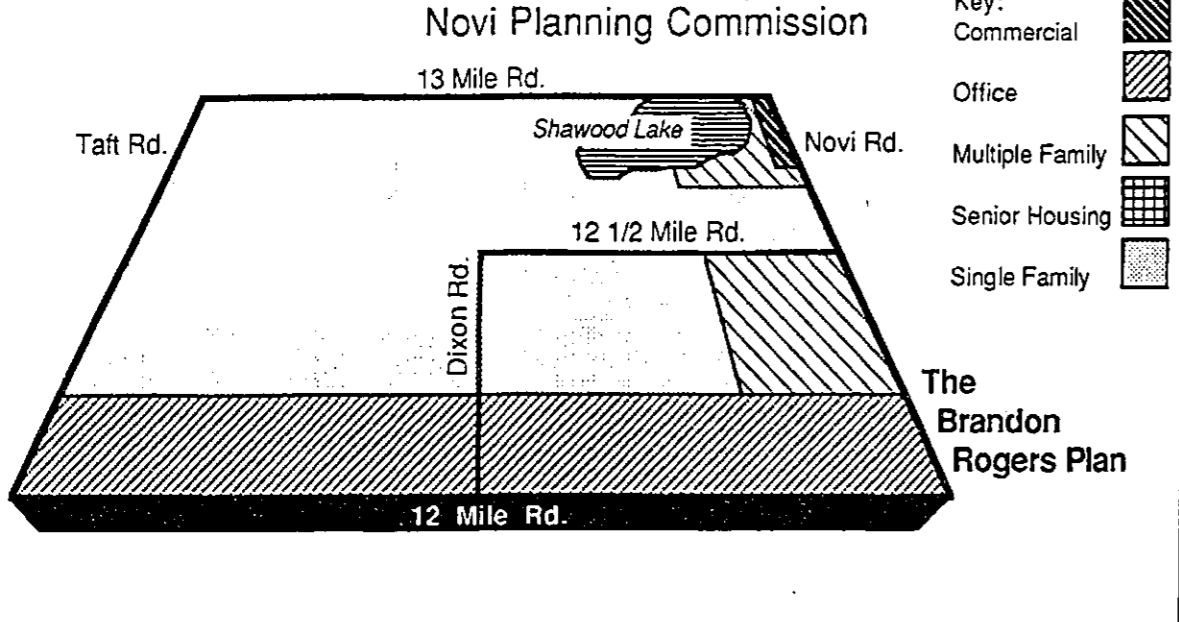

Specifically, the commission adopted a rezoning proposal set forth by City Planning Consultant Brandon Rogers. In so doing, the commission rejected an alternate proposal developed by the property owners, which was based on the city's 1980 Master Plan and would have retained more commercial zoning than is included in Rogers' revised plan.

The commissioners chose Rogers' proposal following a public hearing because it reduced the amount of commercial zoning in Section 10. Commissioners expressed concern in the particular with the potential for the proliferation of additional commercial development north of Twelve Mile.

Commissioner Richard Clark commended Section 10 property owners for the thoroughness of their plan, but said he did agree that additional commercial land north of Twelve Mile would enhance the land use transition from the heavy commercial uses located to the south with Twelve Oaks Mall and West Oaks II.

"I cannot in good conscious see

Novi's Section 10: As recommended by the Novi Planning Commission

how we are going to solve one problem by creating another problem on the north side of Twelve Mile Road," Clark said. "Somewhere you have to draw the line, and I think the place to draw the line is at Twelve Mile Road. "If we allow it to go across Twelve Mile Road, we would open the flood gates, and it would be a matter of time before we get pressure to spread commercial further north," Clark added.

Commissioner Edward Kramer lauded Rogers' plan as one which would provide an effective "buffer" between heavy commercial uses to

the south and the residential uses which comprise most of Section 10. Residents of the section, who together with professional planners formed the Northwest Novi-Twelve Mile Group last fall, formulated their own "mini-master plan" for the section, which included commercial land and a parcel specifically designated for senior housing. The residents said stripping the section of commercial property would cause them great economic hardship and not serve as a sound transitional use from the heavy commercial use south of Twelve Mile.

"About 99 percent of the residents (in Section 10) and land owners are in favor of retaining the current Master Plan," said resident Tom Gerhart. "This change would drastically affect the planning that our group has already done. It would be extremely, if not impossibly difficult for us to attract development under Brandon Rogers' plan," Gerhart added. Farmington Hills developer William Bowman Sr., who has worked closely with Section 10 residents in developing their plan, also attended last week's public hearing and outlined the group's proposal.

Area Briefs

Drug testing for school employees has been proposed by a member of the Plymouth-Canton school board. Dean Swartzweider said all prospective district employees should be tested for drug use as part of a screening process.

Swartzweider, a board member, proposed that the district draw no response from other board members. Swartzweider said he is not in favor of testing current employees because the district has a mechanism in place for problems. Norman Kee, assistant superintendent for employee relations, said after the meeting that he has not formulated an opinion on the proposal. "I would like to get an attorney's opinion before we make any decision," he said. Carole Rundo, president of the Plymouth-Canton Education Association, said she is opposed to any drug testing. "I believe the MEA (Michigan Education Association) has taken a stand against drug testing on the basis that it is an invasion of privacy," she said.

Property losses from theft and vandalism to the Farmington Public Schools cost approximately \$17,000 during the 1986-87 school year. That's the bad news; the good news is that the \$17,000 figure represents a dramatic improvement over previous years.

The \$17,000 gross loss from thefts and vandalism in 1986-87 is significantly lower than the average loss of \$31,160 for each of the six previous years. The high point came in 1983-84 when the Farmington Public Schools had \$66,659 in losses due to theft and vandalism. More than half the district's losses in 1986-87 occurred at the three high schools — Harrison (\$4,465), Farmington (\$4,083) and North Farmington (\$2,265).

Japanese language classes may be taught in the Plymouth-Canton school district beginning in the 1988-89 academic year.

A team of four Plymouth-Canton language teachers has begun study of the Japanese Language this fall through a home study/self-instruction program that uses video and audio tapes provided by Temple University in Philadelphia. An estimated \$5,500 will be spent to train the teachers and implement the program. The impetus for offering Japanese came from a survey of middle and high school students two years ago. "The students saw Japan as a strong, emerging nation," said Dr. Michael Homes, assistant superintendent for instruction.

A five-story, 130-unit complex designed to provide affordable housing to senior citizens and families has been approved by the Birmingham City Commission.

The commission granted the special land use permit needed to build the housing to the non-profit Baldwin House Inc. and its commercial partner, North Cranbrook Associates. The commission's approval follows a 15-year struggle marked by controversy and a federal lawsuit to bring such housing to the city. The complex will be built in the city's civic center area which includes the Baldwin Public Library, Shain Park, the Birmingham Post Office and the Birmingham City Hall.

Construction is still booming in Southfield which is well on the way to racking up a new development value of more than \$100 million.

Through the first seven months of 1987, the city has issued 548 construction permits valued at \$96.4 million. Those figures compare to 505 starts at \$65.4 million for the comparable 1986 period. The increase is attributable to the start of three new office/warehouse buildings and two large apartment projects, according to Southfield Building Official Harry Billington.

NOTICE TO TAXPAYERS

Beginning October 1, 1987, an additional penalty of \$10.00 will be added to each 1985 and prior years delinquent tax that appears unpaid on the records of the county treasurer. This amount is added according to the provisions of Section 211.59 and 211.60 compiled laws of Michigan to cover the expense of sale at the next May tax sale.

Immediate payment will save you this additional penalty and keep your property from appearing in the public list of lands to be offered at tax sale.

C. HUGH DOHANY
OAKLAND COUNTY TREASURER

North Office: 1200 N. Telegraph Rd. Pontiac, MI 48053
South Office: 31001 Lahser Birmingham, MI 48010

Eight candidates race for council

Novi voters will have no shortage of choices in the upcoming election. The November 3 election will pit eight candidates in a battle for three available council seats.

Richard Clark, Rico Digirolamo, Martha Hoyer, Edward Leininger, Laura Lorenzo, Edward Phelps, Bob Schmid and Joseph Toth are the candidates for that position. The eight have varying degrees of experience in public office. Hoyer, Leininger and Toth are currently serving on the council. Clark is a member of the planning commission. Schmid served for six years on the council and for four additional years as Mayor of the City of Novi.

Two candidate's nights have already been held and more are walking the streets of Novi, from subdivision to subdivision introducing themselves to prospective voters. Also on the November ballot will be a race to fill outgoing Mayor Patricia Karevich's spot on the council. Nancy Covert and Matthew Quinn are candidates for that position. Karevich declined to run again. She served two years as mayor. In addition voters must decide on a proposal for a 1.8 mill special millage for police and fire personnel for the city. The millage request was the result of a study conducted by the Police and Fire Needs Committee.

Martha Hoyer

■ Age: 48
■ Residence: North end of Novi
■ Family: Married, two children
■ Experience: Has served three consecutive terms on the city council. Prior to her election to council, served two years on the planning board. Elected vice chairperson of Southeast Michigan Council of Governments. Serving on state committee for M-59/M-9.

■ Quote: "There are a lot of things that we've begun that I'd like to see through. This is an interesting period in Novi history and I have the background for it. We have a lot of rezoning underway to change smaller lot sizes to larger. We're trying to reduce the residential density."

Edward Phelps

■ Age: 37
■ Residence: North end of Novi
■ Family: Married, three children
■ Experience: No current experience on boards or commissions.

■ Quote: "I don't like the way the city of Novi is operating. There are several major flaws with the present operation. The city as a whole is lagging behind where it should be. For their tax dollars the residents are not getting a justified return on their investment. I'm not against development provided city services can provide it. Tax assessments have risen, the tax base has grown and the money should be in the bank for services before development continues."

1987 NOVI ELECTIONS

Richard Clark

■ Age: 46
■ Residence: Turtle Creek
■ Family: Married, two children
■ Experience: Presently serves on planning commission. Has been on commission for over two years. Member of the Task Force on Excellence in Education for the Novi school system.

■ Quote: "I would like to see Novi develop as a quality community. I would like to participate in long range planning for the future. As the city continues to develop we may have some problems that we have not faced in the past and that may call for some unique solutions."

Edward Leininger

■ Age: 41
■ Residence: Meadowbrook Glens
■ Family: Married, three children
■ Experience: Finishing first term on city council. Served on the advisory council for Community Education. Cub Master of Pack 54. President of Novi Jaycees, 1980-81. Chairman of Senior Citizen Housing Needs Committee, member of the Ordinance Review Committee, Town Center Committee and the Consultant Review Committee.

■ Quote: "I'd like to continue the activities we have going. I'd like to include the planning of west Grand River and see some densities relieved a bit. I feel I can contribute a very objective opinion on the council."

Robert Schmid

■ Age: 55
■ Residence: Summit Hills
■ Family: Married, three children
■ Experience: Served 10 years on city council, six years as a council member and served as mayor from 1981-1985.

■ Quote: "I have a great interest in how the city of Novi develops. Deciding to run was a very tough decision. It is very time consuming and difficult to serve on the council. There has been a deterioration in the quality of development in the city. There is a greater emphasis on satisfying certain developers and less emphasis on how the city is developed. I think a better job can be done in representing the citizens."

Rico Digirolamo

■ Age: 33
■ Residence: Meadowbrook Lake
■ Family: Married, two children
■ Experience: Treasurer and on Board of Directors of Meadowbrook Lake Subdivision Association. Served on Resident Committee for City of Novi rewrite of Light Industrial ordinance. Was a Wolverine Lake Planning Commissioner and served on Wolverine Lake Zoning Board of Appeals.

■ Quote: "I think Novi needs new blood. The biggest issue is the future growth of the city. I really think Novi is at a crossroads of future growth. I think I can make a difference. I believe in people getting involved in the process of government."

Laura Lorenzo

■ Age: 29
■ Residence: Lexington Green
■ Family: Married
■ Experience: Served on election campaigns for Nancy Covert and Robert Schmid. Past president and vice president of Lexington Green Homeowners Association, presently serving on board of directors.

■ Quote: "I feel the residents of Novi are not well represented currently. Sound planning has been preached but not practiced. Before you approve projects you make sure the infrastructure can support them. Try to acquire as much park land for recreational uses as possible."

Joseph Toth

■ Age: 51
■ Residence: Village Oaks
■ Family: Married, five children
■ Experience: Appointed to council in January, 1987. Served nine years on the planning commission. Member of the Senior Citizen Housing Needs Committee.

■ Quote: "I'm a strong supporter of the first responder program. I support the additional firefighters and police personnel and I'm against destructive vandalism. Basically I'd like to see controlled growth. I'd like to take a sensible, rational approach — I'm not radical one way or the other."

City planners ease deck regulations

In an effort to ease a growing burden on the city's Zoning Board of Appeals (ZBA) and planning department, Novi planning commissioners recommended that the city council lessen restrictions on the addition of rear-yard decks to homes in the city.

Commissioner Edward Kramer voted against the recommendation because he said an approval would permit residents and developers to cover up as much land as possible and reduce the percentage of allowable lot coverage.

The amendment will relieve homeowners of the need to seek variances for such decks. As part of the same proposal, planning commissioners rejected a suggestion that the encroachment of front porches to front setbacks be reduced from 10 feet to four feet.

Senior housing projects OK'd

Continued from Page 1

curb cuts onto South Lake Drive and requested the developer to limit access to the project to one driveway.

Arroyo estimated the project would generate 30 trips (15 in and 15 out of the complex) during peak hours, and said they would not be enough to severely impact the existing traffic of 3,700 cars per day.

Commissioner Gary Phillips, who lives near the proposed location of the South Pointe project, disqualifies himself from considering the project.

WESTMINSTER VILLAGE

Commissioners unanimously granted special land use and preliminary site plan approval to this 161-unit apartment rental project.

The project will include a 16-unit cluster of one-story apartments with a separate unit for a live-in manager. The project is planned on a 18.5-acre parcel of land, occupying 166,980 square feet, and would include a community building, which would house service-oriented businesses to meet future needs of the village's aging community.

Michael Kahn of the Singh Development Company said the village is in an opportune location for a senior citizen development because of its proximity to shopping centers and medical facilities. He added that a shuttle bus system would eventually be placed into operation to serve the needs of the seniors.

Kahn said units along the perimeter of the project would be

Tuomaala: 'It integrates the senior citizens... into the proper setting in your community, and does not isolate those people behind some shopping center or in some remote industrial center.'

larger (5,500 square feet) and feature attached garages. Units in the center of the project would be smaller and priced modestly to accommodate "a broader base" of seniors.

Kahn said the rents for one-bedroom units located on the perimeter of the project would range from \$500 to \$600 per month. He said units in the center of the project would be priced at about \$500. Two-bedroom units would range between \$650-\$700.

Albert Wise, a resident of the neighboring Stonehenge subdivision, said he supported providing new senior housing in the city, but questioned whether Haggerty Road could handle increased traffic flow.

Wise said he is in favor of this 100 percent because Nov does need good senior citizen developments." Wise said, "But, which is coming first, the Haggerty interchange or the senior housing? Now if the senior housing comes first, those people are going to have a hard time getting onto Haggerty Road."

The city's traffic consultants recommended approval of the pro-

ject, saying that it would generate a minimum amount of traffic and not impede existing traffic flow.

According to an evaluation letter from Barton-Aschman, the project is estimated to generate 47 peak morning trips and 64 peak afternoon trips, "substantially fewer trips per unit than a comparable apartment complex."

John McClain, a neighboring Burton Court resident, questioned the city's notification procedure as it pertains to area residents affected by proposed projects. He said he was not informed soon enough to be able to evaluate the proposal and questioned whether many of his neighbors knew of the developer's plans.

"Yesterday morning was the first time I received... information on the development of this project," McClain said. "If I just received mine yesterday morning, then I do not know how many folks on Burton have had a chance to review this and see this."

"This is the first time I have heard of the project... Why was the letter so late in getting out to my neighborhood in letting us know about tonight's meeting?"

"The commission and the city have missed the mark here in that obviously I was missed all along, the letter did not arrive in the mail until yesterday (Sept. 1), therefore I am suggesting that the neighbors had no time or opportunity to really present any facts or opinion."

Commissioner John Balagna called Westminister an "exciting opportunity for our community." Commissioner Richard Clark said its location is a perfect one for this type of development.

Novi Chamber

The Novi Chamber of Commerce will hold its next general membership luncheon meeting at the Red Timbers on Tuesday, Sept. 15. Cocktails will be served at 11:30 a.m. and the luncheon begins at noon. Call Executive Director Connie Mallett at 349-3743 for reservations.

More than 80 people attended the Chamber's luncheon meeting in August to hear the candidates for the Novi City Council. The candidates for the office of mayor of the City of Novi have been invited to speak at the October meeting.

A "Five O'Clock Connection" will be held at the Novi Hilton on Thursday, Sept. 10, to celebrate the final days of summer with friends and business acquaintances.

The event is hosted by the Novi Hilton and co-sponsored by the Chambers of Commerce from Livonia, Novi, Dearborn, Northville, Westland and Garden City. It is open to the public at a cost of \$5 for chamber members and \$7 for non-members. Hors d'oeuvres and a cash bar are provided. For reservations or more information call the Livonia Chamber of Commerce at 427-2122.

The 1988 Novi business directory will be going to press soon. Target date for distribution is Nov. 15 - in time for the holiday shopping season.

Information on advertising in the directory is available from Executive Director Connie Mallett at 349-3743. Additions or corrections to your listing should also be called in to Mallett at the same number.

A Business Connection will be held at Five Electric on Tuesday, Oct. 6, from 5:30 to 7:30 p.m. There will be hors d'oeuvres and a cash bar. Five Electric is located at 4260 Nine Mile between Novi and Meadowbrook roads.

The Connection gives Chamber members an opportunity to promote their businesses; table space is available. For reservations call the Chamber at 349-3743 or Diane Fenrich at Talbot's at 349-6500.

A membership drive will be held during October. Businesses will be encouraged to join the Novi Chamber with an offer of 14 months of membership for the price of 12 months.

A new member reception will follow the drive at the Farmington Hills Holiday Inn on Thursday, Oct. 29.

"A Taste of Novi," the annual event designed to highlight Novi's fine dining establishments, will be sponsored by the Novi Chamber at the Sheraton Oaks on Thursday, Nov. 5, from 6:30 to 8:30 p.m.

City gives ultimatum to schools

Continued from Page 1

have never complied with proper planning and construction procedures in the city. She said last week that city officials had hoped the matter could be settled without going public, but that official action on the city's part appears to be the only way to resolve the current conflict.

City Manager Edward Kriewall said he formally approached Novi School Superintendent Robert Pivko last May, requesting that the district submit all plans for expansion and new construction.

Kriewall said he then met with Assistant Superintendent William Barr, but that an agreement could not be reached.

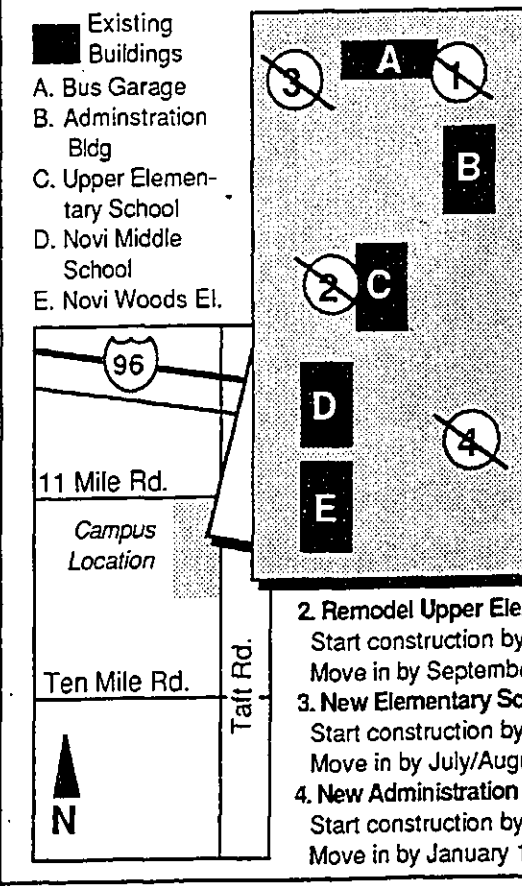

"We talked about the opinion from our city attorney and (Barr) indicated that it was the school's attorney's opinion that they would not have to submit for site plan approval, except for the maintenance garage and the administration building" which school board officials believe may not fall under state jurisdiction because they are not strictly educational facilities," said Kriewall.

"They indicated they would submit all the plans they were having developed for everything... for administrative approval," the city manager added.

Kriewall said the city then requested the school district's legal opinion in writing, but has yet to receive such documentation. Kriewall said he then turned the matter over to the commission for official action.

Pivko said he has indicated in a letter to the city that the school district would be willing to submit plans on an informational basis, but that the board would not be expected to meet with city officials.

"What we indicated in the letter, from an administrative standpoint, we would be more than happy... (to share) with them directions where we are going," Pivko said. "But not from the standpoint from their granting or denying approval."

School Plans

Planned construction halted on the Novi Schools Taft Road Campus by the city planning commission.

Construction Halts

1. Maintenance Bldg Start construction in October Move in by April
2. Remodel Upper Elementary School Start construction by December Move in by September 1988
3. New Elementary School Start construction by March 1988 Move in by July/August 1989
4. New Administration Building Start construction by March 1988 Move in by January 1989

During last week's commission meeting, City Attorney Dennis Watson said legal precedence has been established to give the city the right to review school construction. Historically, school officials considered that only the state board of education has jurisdiction over construction of educational facilities.

In a memo dated April 7 to City Planning Consultant Brandon Rogers, the city's attorneys summarized two state legal cases which they said would mean the Novi school board would have to comply with all city ordinances and procedures: Cody Park Association vs. Royal Oak School District (1983) and Lutheran High School Association vs. Farmington Hills (1986).

In the Cody Park case, Novi Attorney David Fried said the state Court of Appeals ruled that the School Code of 1976 failed to disclose any intent for school districts to have exclusive jurisdiction, and that the Royal Oak School District was subject to local zoning relative to the use of a building.

Fried said in the Lutheran High School Association case, the court upheld the Cody Park ruling, adding that the school district was also subject to zoning in relation to whether the operation of the school would be permitted on the proposed site.

The court recognized previous statutes which vested control over school building construction with the state, but held that the provision would not be construed to exempt school districts from local zoning.

"We conclude that the school district is subject to the city of Novi Zoning Ordinance," wrote Fried.

"Moreover, we construe Section 2516 of the Ordinance to require site plans for the renovations proposed."

Johnson hand-delivered official notification of the commission's action to Pivko's office Friday afternoon.

"The (planning commission) is quite adamant that the impact of these projects on various city facilities and services be studied and evaluated by our professional engineers, planners and the planning commission," said the notification.

"The commission directed that the formal action be forwarded to the appropriate Novi School District and Board of Education authorities, and further, that City of Novi representatives be requested to initiate whatever procedure is necessary to insure compliance," said the notification.

Before issuing the order last week, commissioners said new school projects have very direct impacts upon the city and should meet the same review requirements that every other new development in the city must meet.

Commissioner Richard Clark said it would be inappropriate for the city to let an organization or agency to have special building status in the city. "I think it is awfully arrogant (for the school district) to take that attitude that is the case," he said.

Clark proposed that city building department officials "red flag" projects in progress immediately.

"We are merely enforcing ordinances that they ignore," said Commissioner Edward Kramer.

Commissioner John Balagna noted that school projects impact city parking, traffic, storm water management, the drinking water system and the tax rate - adding that the city and its residents should have some say in school construction. He summed up the issue now as a "battle of attorneys."

Don't 'Just Say No' to Jaycee tournament

A benefit golf tournament will be sponsored by the Novi Jaycees and Financial Planning and Investment, Inc. at the Bay Pointe Golf Club on Tuesday, Sept. 22.

Funds from the event will be used to benefit the "Just Say No" to drugs and alcohol program and the proposed Novi Jaycee Park.

Sponsors of the benefit golf tournament are currently seeking golfers, businesses to sponsor prizes, and donations of door prizes. Information is available by calling the Novi Jaycees at 348-NOVI.

The event will include a continental breakfast, buffet luncheon and a New York sirloin dinner as well as 18 holes of golf (including golf carts, door prizes and an open bar).

Gary Cubberly of Channel 2 will be featured as the keynote speaker at the dinner. All proceeds will be donated to the "Just Say No" Foundation which develops educational materials for students of all ages and the Novi Jaycees Park which is being planned at this time.

Housing prices way up in Novi/Northville area

By BRIAN PERKINS
staff writer

Anyone who wants to buy a house in Novi or Northville but has only \$70,000 to \$100,000 to spend won't find much of a selection.

"There's nothing being built in Novi or Northville that costs between \$70,000 to \$100,000," said Conrad Jakubowski, president of the ERA Rymal Symes office at 4160 Ten Mile in Novi.

The cost of single-family housing in the Novi/Northville area is "usually \$125,000 and up," according to Jakubowski.

"The cost of land has skyrocketed since the recession of '81 and '82," said Jakubowski. "A lot can cost \$30,000 to \$35,000. In Northville, a lot without a house can cost up to \$75,000."

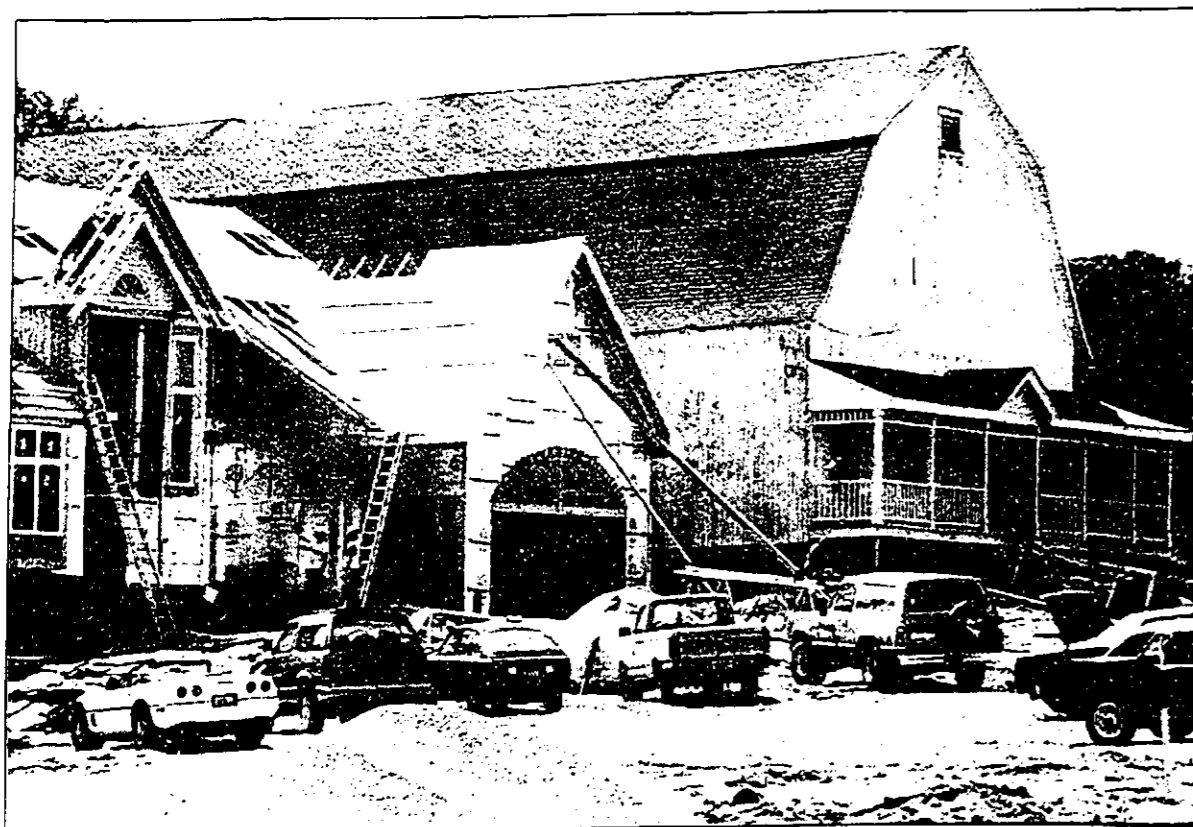

So what are the attractions that draw home buyers to Novi and Northville? Proximity to I-275 is one of the biggest advantages to those who are thinking of moving here.

"We also have I-94 and I-96," Jakubowski said. "These major expressways gives residents flexibility when they want to travel somewhere."

People also move here for the high level of public education, good parks and recreation, and the opportunity to live within five miles of Kensington Lake.

Land on which to build houses is very much available in both Northville and Novi, Jakubowski said. He guesses that over 50 percent of land is still available for residential home development in these areas.

However, Jakubowski said one of the biggest obstacles to single-family development in the Novi/Northville

Homes in the Timber Ridge subdivision are expected to sell fast to anxious home buyers

area is the shortage of sewage capacity. And when will additional capacity become available?

"Now we're getting political," Jakubowski said. "You'll have to ask (Detroit Mayor) Coleman Young that."

Even though there is room to grow, buyer's income will always be the key on what will be purchased, he said.

Houses in other parts of the coun-

try tend to be priced much higher than homes in Michigan, Jakubowski noted. And the weather has nothing to do with the fact that housing prices are significantly less expensive in Michigan.

"Go to New Jersey and their weather is much like ours," he said. "We are not so concentrated as they are, we generally have larger lots. We are more spread out."

Since summer is here, and many

people are on vacation, the housing market is somewhat soft at this time. In other words, homes are not selling as they were before the summer.

Since 1980, this state has been through eight recessions. But the housing industry was effected in only two of those eight recessions.

"And they immediately popped back up," he said. He adds that many homes which sold for \$70,000 to \$100,000 about 10

years ago are now selling for a higher price today. So those people who own those homes are in a position of making higher profits if they sell them today.

Carol Mason, owner of Carol Mason Realty at 41766 Ten Mile in Novi, believes the next housing boom will be in a city next door.

She states that a house with 1,200 to 1,400 square feet, two-car garage and one and one-half baths is selling for about \$102,000 in Novi. But in South Lyon, that same house might sell for \$80,000 to \$89,000.

Mason said there are homes in Northville that would sell for \$69,000 to \$100,00, but nobody is selling them. The main reason is the prices of the next level of houses.

"Houses after that are priced over \$130,000 in Northville," she said. Many two-income couples can afford to pay more for a house and, as a result, those houses are bringing in \$80,000, she said.

Mason admitted that many young, single people, just starting off in their professions, may find it hard to afford a new home in this area.

"And that's a shame," she said. "Many couples will buy a condo so they can get money in April," she said. "They want property. After they sell their condo, they move up to the \$80,000 to \$89,000 level." After that, many will buy the next price level of houses, which cost over \$100,000.

Dennis Cohoon, co-owner of Century 21 Suburban at 43133 West Seven Mile in Northville, said that only six of 66 houses on the market in Northville are priced under \$100,000. Of the 85 available houses in Novi, 20 are priced under \$100,000.

"The average sale price for Nov-

thville homes is about \$146,000," he said. The average sale price in Novi is about \$115,000.

His business is up 33.14 percent over last year, counting the other cities and townships where he sells homes.

Clients who buy homes in the Novi/Northville area have the following characteristics — 53.7 percent are married; 28.4 percent are either single, widowed or divorced; nine percent fall into miscellaneous categories and nine percent are company-owned.

The 35 to 50 year olds make up the majority of his clients, with 74.6 percent not being first-time buyers.

Cohoon said home owners in Novi and Northville have different lifestyles. Northville residents want to keep the historic aspect of their city, he said.

"It seems as though the people who buy homes in the Novi community are more mobile," Cohoon said. "Being middle managers, they tend to get transferred in and out."

"In Northville, you don't see the turnover in homes as often as we do in Novi. They tend to be in homes for longer lengths of time, but I'm not sure of the reason."

Cohoon said many people consider homes in Northville and Novi to be their dream homes. "Many would call it a goal to move here."

He adds that builders often have no choice but to charge higher prices for new homes.

"It may cost \$50 to \$60 a square foot to build," he said. "If they build a 1,000 square foot house, we're talking \$50,000 to \$60,000 a house, not counting the lot. Sometimes you can save as much on land as on a house."

"The average sale price for Nov-

Used car assistance offered

The Michigan Consumers Council has published a new brochure entitled "Buying a Used Car."

The brochure covers such important financing considerations as warranties, service contracts and actual mileage. A list of appropriate enforcement agencies that deal with purchasing problems also is included.

All information is presented in a simple, straight-forward manner for the first-time buyer of a used car as well as the experienced purchaser.

The brochure advises consumers to shop around for the best deal and to read all paperwork before they sign. Problems such as odometer-tampering, verbal promises and buying at a fair price also are covered.

A major feature of "Buying a Used Car" is the Used Car Checklist, which provides a handy listing of interior and exterior features for inspection as well as what to look for under the hood and during a test drive.

The Consumers Council advises that the checklist be completed with the assistance of a qualified independent mechanic.

Copies of "Buying a Used Car" are available free of charge by calling the Michigan Consumers Council at 1-517-373-0947.

The Michigan Consumers Council is a state legislative agency providing consumer information and referral and counseling services on a variety of consumer topics. The agency also acts as a consumer advocate on matters before the Michigan legislature.

Chore aid to seniors

Senior citizens can receive assistance with certain chores in and around their homes through the new North Oakland Chore Service.

The Chore Service is operated by the Oakland Livingston Human Service Agency (OLHSA) and is open to people 60 years of age who live in Novi, Walled Lake, Wyand, South Lyon, New Hudson, Milford and Wolverine Lake Village.

Specific chores provided through the program include heavy house cleaning (windows, walls and floors) and outdoor work (snow shoveling, lawn mowing and gutter cleaning). Assistance is also available for such minor home repairs as installation of weather stripping, caulking windows, and replacing fuses, light bulbs, electrical plugs, door jacks, window latches and faucet washers.

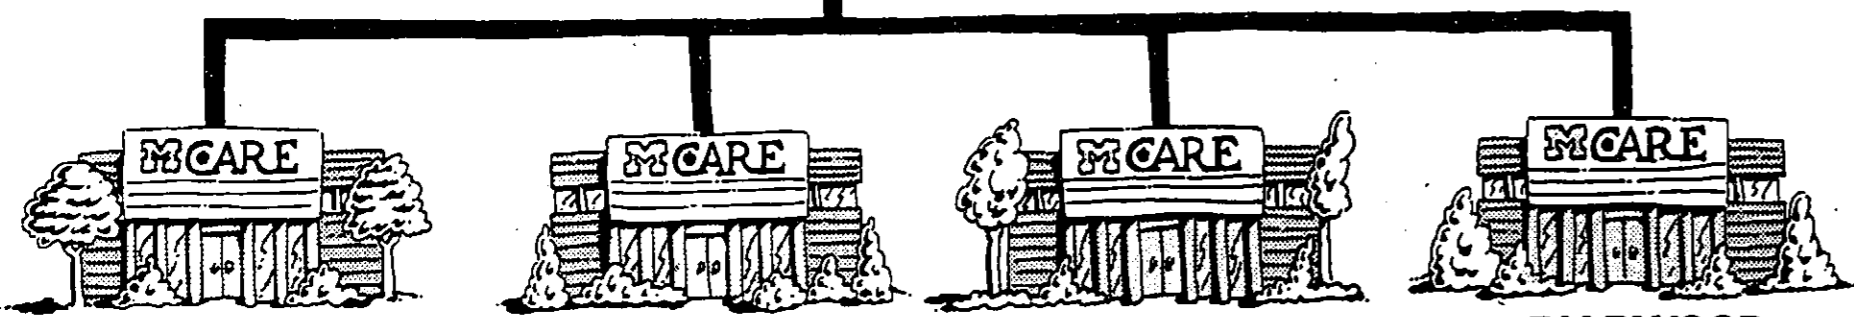

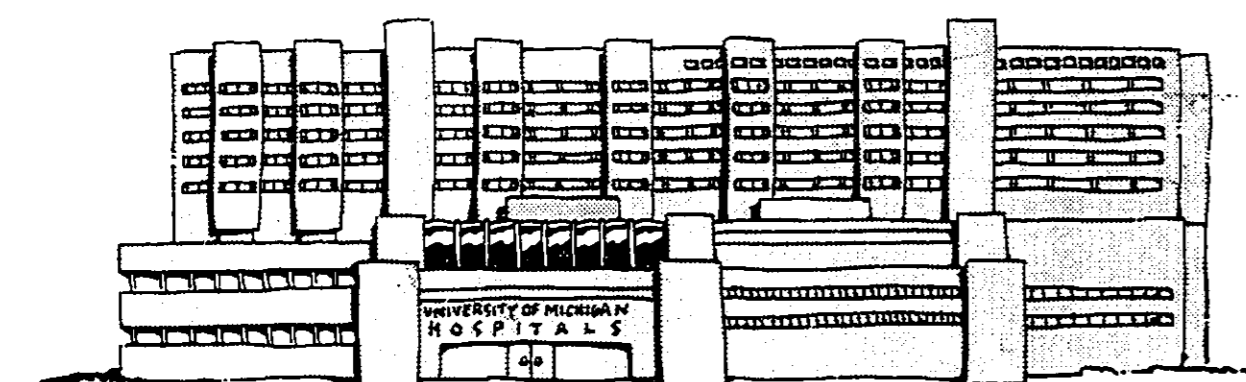

Senior citizens who have the highest priority for receiving chore assistance are those who are low income, homebound, physically unable to perform the chores or who are unable to secure assistance from another adult in their geographic area.

OLHSA is now taking applications from individuals willing to perform the chores. Both males and females who are at least 18 years old are needed. They must have their own transportation. OLHSA will pay \$1 per hour plus mileage for qualified workers.

Anyone interested in receiving assistance or applying for work may call Helen Fust at 349-3780 on weekdays from 10:30 a.m. to 2:30 p.m.

INTRODUCING THE M-CARE HEALTH CENTERS.

THE SAME EXPERTISE WE OFFER IN OUR HOSPITALS WE'RE OFFERING IN YOUR NEIGHBORHOOD.

NORTHVILLE

Because it's staffed by physicians from the University of Michigan Medical Center, the M-Care Center in Northville can meet the entire range of your family's health care needs with the entire range of modern medical knowledge. Novi Choralaires seeking singers

Anyone interested in performing choral music is invited to join the Novi Choralaires for a sing-along at Novi Middle School on Tuesday, Sept. 15, at 7:30 p.m.

The community chorus is looking for new members as it begins its 1987-88 season. Anyone interested in performing with the group is welcomed to join in the sing-along. Following the sing-along, prospective members will be given the opportunity to audition for voice placement with Janet Wassilak, director of the Choralaires.

Individuals planning to attend the sing-along are asked to contact Choralaires President Becky Slab at 348-2919 as soon as possible so she can determine the amount of "extra" music that will be needed for the evening.

The Choralaires held their first rehearsal of the new season last week in preparation for their appearance at the "Art at the Oaks" arts and

crafts fair at the West Oaks shopping center this Saturday, Sept. 12. The Choralaires rehearse every Tuesday from 7:30 to 9:30 p.m. from Labor Day until Memorial Day.

Slab said the Choralaires are looking forward to one of their best seasons ever this year. In addition to their performance at "Art at the Oaks," the group will perform throughout the year at local nursing homes and various other locations throughout the Metro Detroit Area. The Choralaires also present a major spring concert at Novi High School's Fuerst Auditorium in conjunction with Mothers Day.

Anyone interested in scheduling a performance of the Choralaires during the 1987-88 season is asked to call First Vice President Ruth Sill at 349-8782.

The Choralaires are assisted financially by the Novi Parks and Recreation Commission.

Senior Power Day set in Southfield

SOUTHFIELD — Oakland County Senior Power Day will be held at the Southfield Civic Center on Thursday, Sept. 17, from 10 a.m. to 4 p.m. The Civic Center is located at 26000 Evergreen Road in Southfield.

Keynote speaker will be former Michigan Governor G. Mennen Williams, Williams, who also served on the Michigan Supreme Court, is now retired. Greetings for the event will be extended by State Senator Douglas Cruise.

Following the opening program, there will be workshops on Transportation and Medicare Rights/Responsibilities.

Entertainment during lunch will be provided by the Hazeltones, a senior group.

After lunch, participants may cir-

culate through the Resource Fair which features organizations, both public and private, that provide services to senior citizens.

The event is sponsored by the Oakland County Senior Power Day Steering Committee. Registration begins at 8:30 a.m. and the program will get underway at 10 a.m. Reservations for lunch may be made at senior centers, senior organizations or by calling 658-5163.

This is the fifth consecutive year that Oakland County Senior Power Day has been held. This year's sponsors are the Area Agency on Aging (Region 1-B), Southfield Parks and Recreation, the Southeastern Michigan Transportation Authority and the Oakland Livingston Human Service Agency.

Novi Hilton hosts beauty workshop

The Novi Hilton is teaming up with Jeffrey Bruce to present a two-day overnight workshop for women interested in hair styling, make-up application and secrets of glamor on Saturday and Sunday, Sept. 26-27.

Billed as America's most famous make-up artist by Hour Magazine talk show host Gary Collins, Bruce will present a program featuring a variety of experts in the area of make-overs.

To complement the program, the Novi Hilton will offer a wine and hors d'oeuvres reception Sunday at 8 p.m., overnight accommodations, Monday morning brunch with Bruce from 9-11 a.m. and an opportunity to use the hotel's indoor pool, hot tub, sauna and exercise room.

Guest speakers and topics of discussion will include Florine Mark of the Weight Watchers Groups and Dr. Gale and Marcy Goldin on cosmetic dentistry. Dr. Harold Roland and Les Lee Roland will speak on fashion eye wear and contact lenses. Dr. John Alter will speak on plastic surgery. David Hockney of GINGER Group in Birmingham will speak on hair styling. Nadene Thompson will speak on glamor nail care, and Sharon Stein of the Detroit News will speak on fall fashion

JEFFREY BRUCE

Good Shepherd classes resume

Good Shepherd Evangelical Lutheran Church will resume Sunday school classes this Sunday, Sept. 13.

Classes follow the 10 a.m. worship service and run from 11:15 a.m. to noon. All children from three to 14 years of age are invited to attend. Good Shepherd is located at Nine Mile and Meadowbrook Road in Novi.

The Sunday school course is entitled "God So Loved the World." Rev. Gene E. Jahnke, pastor of Good Shepherd, said the biblical lessons emphasize God's love and help children develop Christian virtues.

Classes for adults are taught by Gene Jahnke during the same period as

children's classes on Sunday mornings.

In addition, a week-night Bible class will be offered on Tuesdays from 7:30 to 9:45 p.m. beginning Sept. 22. The 16-week course is entitled "Life with God."

Jahnke said the Bible is the only textbook required for the Tuesday night class. The class will cover a wide range of important Christian teachings, making it an ideal class for the person who wants to begin exploring what the Bible says.

More information about the classes is available by calling 349-0565. Good Shepherd Evangelical Lutheran Church is affiliated with the Wisconsin Synod.

WE CAN'T RUN ON EMPTY.

GIVE BLOOD American Red Cross

Nearby

'The Sound of Music' will open at the historic Marquis Theatre in downtown Northville this Saturday, Sept. 12. The enchanting Rodgers and Hammerstein musical will be performed every Friday, Saturday and Sunday through Oct. 11. Performances will be held Fridays at 8 p.m. with tickets priced at \$9. Saturdays at 8 p.m. with tickets priced at \$10 and Sundays at 2:30 p.m. with tickets priced at \$8. Tickets can be purchased in advance by telephone with Visa, MasterCard or American Express by calling 349-8110 or 349-0868. Tickets also are available at the Marquis Box Office or the Marquis Stores at 135 East Main Street in Northville. A group rate discount of 10 percent is available for groups of 20 or more.

Chivalry will come alive as the eighth annual Michigan Renaissance Festival continues this Saturday and Sunday, Sept. 12-13, in Holt. Knights on sturdy steeds will exercise feats of wonder on the tilt yard. Contact jousting is performed daily at 1:30 p.m. and the U.S. Fencing Association will hold a sanctioned tournament. There also will be demonstrations in Renaissance cooking, fighting and crafts by the Society for Creative Anachronism. The festival continues every weekend from 10 a.m. to 7 p.m. through Sept. 27. Call 645-9640 Monday through Friday for more information.

The 37th annual Old Car Festival will turn Greenfield Village into a wonderland of antique cars this Saturday and Sunday, Sept. 12-13. One of the nation's most popular and prestigious car meets, the Old Car Festival features hundreds of 1896 to 1929 cars and trucks in running condition during two days of judging and demonstrations. In addition to familiar names like Oldsmobile, Ford and Buick, the event will feature bygone brands like Paige, Stanley, Reo, Maxwell and Tudhope. Early motorcycles and antique bicycles also will be represented. There is no charge for the Old Car Festival beyond regular village admission.

'Brunch with Bach' is back at the Detroit Institute of Arts. Coming up this Sunday, Sept. 13, soprano Edith Digory and pianist Alan Smith perform Copland and Bernstein for the 100th birthday of Nadia Boulanger. On Sept. 20, Thomas Hellman, tenor, and Mary Springfields, viola da gamba, with harpsichord accompaniment, in "Music and Eloquence" explore the revival of "Renaissance" ideals during the 16th and 17th centuries. And on Sept. 27, James Forger, saxophone, and Deborah Moriarty, piano, perform music of Finney, Rorem and Bozza. Tickets for a full brunch of a hot entree, fruit, beverage and bread are priced at \$8.50, while tickets for a continental brunch of nut bread and butter, fruit, cottage cheese and beverage are priced at \$7.50. There also are a limited number of "no frills" carpeted staircase seats at \$3 for the concert only. Call the DIA ticket office at 832-2730 for tickets or more information.

The Soviet space program will be the subject of an AstroFest film and lecture program at the University of Michigan this Friday, Sept. 11, at 7:30 p.m. The free public program will be held in Auditorium Three of the Modern Languages Building. AstroFest Director Jim Loudon said he will explain with rare photographs how the Soviet Union was able to start the world by beginning the Space Age with the launch of Sputnik 1, the world's first man-made satellite, 30 years ago this October. The program marks the beginning of the 18th year in the series of detailed, but non-technical, programs about astronomy and space sponsored by the U.M.'s Exhibit Museum and Department of Aerospace Engineering. Call 747-1847 for details.

'42nd Street,' the Tony Award winning musical, will be presented at the Birmingham Theatre through Oct. 11. The song-and-dance extravaganza is about a stage-struck kid in the chorus who becomes a star because "the show must go on." In addition to the title song, musical numbers include "Lullaby of Broadway," "Shuttle Off to Buffalo," "We're in the Money" and "You're Getting To Be A Habit with Me." Ticket information is available by calling the Birmingham Theatre box office at 644-3333.

Oakland Hills Singles will host a dance for non-smoking singles at the Farmington Knights of Columbus Hall on Friday, Sept. 11, at 8 p.m. The hall is located on Middlebelt Road between Grand River and Nine Mile. All non-smoking singles are invited to attend. Admission is \$4 per person and proper attire is required. Call 565-5527 for more information.

'Dogman's Last Stand,' a contemporary comedy, will kick off the opening of the Attic Theater's 12th season on Friday, Sept. 11, at 8 p.m. The play will run through Sunday, Oct. 4. Based in the Rust Belt, "Dogman" is the story of Dogman Thompson, a laid-off steel worker, eccentric ex-biker and collector of stray dogs. Author Rick Cleveland calls it "a dramatic and comic look at one man's struggle amidst the decay of his blue-collar neighborhood." Show days and times are Thursdays and Fridays (8 p.m.), Saturdays (5:30 and 9 p.m.) and Sundays (2:30 and 7 p.m.). For reservations or ticket information call the Attic Box Office at 875-8284.

'Detroit Expressionists: Recent Paintings and Sculpture' is the title of an exhibit at the Nawara Gallery in Walled Lake from Sept. 12 to Oct. 17. An opening reception, open to the public, will be held Saturday, Sept. 12, from 4-7 p.m. Twelve artists will be featured in the exhibit which focuses on large, colorful intense paintings as well as painted constructions and works on paper. The Nawara Gallery is located at 1160 Welch Road in Walled Lake, west of Haggerty Road and just north of Maple Road. The gallery is open Tuesday through Friday from 11-5 p.m. and Saturday from 11 a.m. to 5 p.m. by appointment. Call 669-9543 for details or appointments.

Informal modeling is featured during luncheons the second Friday of each month from noon to 2 p.m. at the Novi Hilton's Orchard Cafe. Offered in conjunction with Twelve Oaks Mall, modeling is done by the Twelve Oaks Fashion Guild, which consists of career women from local communities. Styles and designs for vacations and cruises will be showcased from the following Twelve Oaks stores: Career Image, Laura Astley, Susies Casuals, Gantos and August Max. Luncheon reservations are requested and can be made by calling 349-4000, extension 1060.

To have an event listed in Nearby, write to: "Nearby," Novi News, 104 West Main, Northville, MI 48167 at least two weeks in advance of the event. Photos and artwork welcome. For information, phone 349-1700.

Reunions

Chadsey High School/1937: The 50th reunion for Chadsey High School's January and June 1937 graduating classes will be held Sunday, Sept. 27, at the Monsignor Hunt Knights of Columbus Hall at 7080 Monsignor Hunt Drive in Dearborn Heights. Graduates from the classes of 1936, 1938, 1939 and 1940 also are invited to attend. Early responses are requested to assist in planning. For more information call Stan Padyas at 582-0992 or Steve Stevens at 937-2257.

Cooley High School/1962: 1962 graduates of Cooley High School are planning a 25th reunion. Members of the class are asked to call 553-7363 or 471-3896 as soon as possible.

Detroit Finney/1967: The 1967 graduating class from Detroit Finney High School will hold its 20th reunion at Penna's of Warren on Friday, Sept. 25, at 7 p.m. Classmates may obtain more information by calling 286-5533.

Northville High School/1938: Northville High School's Class of 1938 is planning a 50-year reunion. For more information call Gwen Marburger at 349-524 or Leona Leavenworth at 455-2523.

Corps seeks Third World help

An intensive search for foresters, agronomists and biological science graduates has been initiated by the Peace Corps in an effort to offset the alarming rate of deforestation occurring throughout Third World regions in Africa, Asia, Latin America, and the Caribbean. "The cumulative effects of deforestation are beginning to be disastrous," said Peace Corps official Stephen Halcomb. A natural resources specialist by training, Halcomb spent four years heading conservation programs in the Dominican Republic. "We are already seeing dramatic fuel wood shortages in much of the Caribbean where people still depend on cooking fires and where forest destruction is causing erosion, climate changes and agricultural deterioration. Unrestricted clear cutting, conver-

sion of forest land to marginally productive farm land, and industrial mismanagement are all accelerating the problem, according to Halcomb. Increasing populations, inequalities in land distribution, and even starvation, particularly in the Sahel region of Africa," Halcomb stated. The Peace Corps has been one of the few international organizations offering forestry assistance to developing countries and the only U.S. government agency working directly with the rural poor who live in and around tropical forests. In 1987, nearly 500 of the total 5,700 Peace Corps volunteers serving overseas were engaged in forestry-related programs. The agency plans to increase that number by 50 percent in 1988. According to Halcomb, the Peace Corps is the most widely used avenue for foresters seeking a future in international forestry with more than two thirds of all U.S. Agency for International Development (AID) foresters having served as volunteers. The World Bank has estimated that 90 percent of the people in the tropics rely on wood to cook their food and heat their homes, and that fuelwood cutting accounts for about 80 percent of the loss of tropical forests. One dramatically visible result is a belt of denuded land extending for a radius of 10 or more miles around many tropical cities. "When trees, shrubs and other plants must be burned because there is no other energy source within the means of the people, the land becomes barren," Halcomb explained. The savannah forests, less dense than the tropics, are also under pressure. The grasslands under the forests are facing ever increasing herds of domesticated livestock, in addition to the wildlife already present. "So great is the grazing pressure that the land is completely stripped around many water sources. The result is soil erosion, stream sedimentation and flooding. When the topsoil is eroded away, the remaining hard surface is virtually impenetrable to roots or water," Halcomb stated. Individuals with forestry, agriculture or conservation experience are encouraged to contact the Peace Corps by calling (313) 226-7928, ext. 456, or by writing: The Peace Corps, 477 Michigan Ave., Room M-74, Detroit, MI, 48226.

Novi library gifts make good tribute

If you're looking for a unique way to honor an individual and benefit the community at the same time, the Friends of the Novi Public Library has a suggestion. Barbara Pipas, president of the Friends, suggests that donating a book to the library is an appropriate way to honor an individual who has made a significant contribution to a specific organization or the community at large. "A gift to the library's collection is one of the most satisfying ways of insuring that your gift will continue to be read and enjoyed," she said. "It can reflect the taste of the giver or, in the case of memorials, the individual in whose memory it is given. It also is an excellent way for an organization to help the community with books or materials in the field in which they are especially interested," she added. Pipas suggested that a person interested in history might increase the library's collections in the fields of history, biographies, maps and pictures. Individuals from other countries might want to provide for the purchase of language records of the literature of their native land. The Friends president stressed that book gifts do not necessarily have to be "in memoriam."

Books can be donated to the library to commemorate a specific occasion, birthday, anniversary or other milestone. Acknowledgement of the gift is given to the donor and to the person (or relatives of the person) being honored. In addition, bookplates are placed inside the front cover of the book so that people who use it will know the book was donated in honor of a particular individual. More information about donating books to the library is available by calling 949-0720. All contributions are tax deductible.

Children's Palace

A COLE NATIONAL COMPANY

GRAND OPENING

Join the celebration on Sunday, Sept. 13 beginning at 11 AM across from 12 Oaks Mall in NOVI

Discover how much less toys can cost!

- Everyday prices so low other stores have to run sales to match us!
- Aisle after aisle of the hottest toys that kids want most!
- A Learning Center with educational tools for pre-school to college-age kids!
- Terrific prices on diapers plus a huge selection of nursery furniture!

FREE prizes for children!

- Surprise Toy Bags to the first 2,000 kids
- Balloons to the first 5,000 kids

Costumed character appearances!

11 AM-5 PM Peter Panda
11 AM-2 PM Patty Rabbit, He-Man, Mega Man & Teddy Ruxpin
2 PM-5 PM Bobby Bear, Hordak, & Popples

Grand Opening drawing!

- Any Huffy bike in our selection
- Speak 'n' Spell, Speak 'n' Math or Speak 'n' Read
- Talking Mickey Mouse

One winner chosen for each prize. Register at our store or mail your name and address on plain 3" x 5" paper to Children's Palace. All entries must be postmarked by midnight Friday, Sept. 18. Contest closes Saturday, Sept. 19 at 5 PM when the drawing takes place. You need not be present to win. No purchase necessary. Decision of judges will be final. Employees of Children's Palace and their families are not eligible.

Open Monday-Saturday 9:30AM-9:30PM Sunday 11AM-6PM

Country construction

If you've driven by the Country Epicure restaurant lately, and wondered what all the new wood and construction equipment is for — wonder no further. The restaurant itself is undergoing some renovation and work on an addition. Shops and boutiques are being added — round the restaurant to complete the country store look.

Health Alliance Plan has specialists in all of the following locations.

At Health Alliance Plan, we know that keeping you healthy is more than a one-doctor job. That's why we offer you more than 500 personal care physicians and more than 1,100 specialists in virtually every medical field. And these specialists are also located at points all over southeastern Michigan. Health Alliance Plan is affiliated with 18 major hospitals, 23 medical centers and hundreds of private doctors' offices. So you'll never have far to go to get the kind of health care you need. For more information, call 872-8100. And find out why Health Alliance Plan is just what the specialists ordered.

Your health deserves the best.

Haggerty sewer plans unacceptable to DNR

By ANITA CRONE staff writer

NORTHVILLE — Plans for the construction of the Haggerty Road sewer have hit another snag, albeit a minor one. Permits for the sewer, which was proposed to service building along Haggerty Road as well as existing homes and new construction on Six Mile, Seven Mile and Eight Mile, are now being withheld by the Michigan Department of Natural Resources' Land and Water Management Division, as well as by the department's Surface Water Quality Division.

Brooks B. Williamson, water quality specialist, wrote Northville Township officials that the DNR could not authorize the (Haggerty Road sewer) project as proposed. "Overall, the proposed route for the sanitary sewer is reasonable... The present proposal calls for the placement of the sanitary line in a wetland area..." Williamson wrote in a letter dated Sept. 1. The water quality division is also withholding a construction permit until Northville Township can show it has sufficient capacity downstream for the additional flows that would be realized if the sewer is built. "The problem which we have pointed out is only a minor one," Williamson said Tuesday. "Frankly, were the township to move its proposed lines closer to Haggerty Road and not cut through the wetland, it could possibly save some money and we would be willing to approve the plan."

In his letter, Williamson said the township has 30 days to provide revised plans for the sewer. "We have asked the township to redesign its sanitary line so the wetland is not disturbed. But if that is not possible and if the township can show us documentation as to why it is not possible, we might be willing to approve the plan as designed," Williamson said.

The wetland in question is located on Haggerty Road near Eight Mile and is part of a 21-acre wetland that sits on the site proposed for the Hampton Inn being developed by Jonna Construction. Hampton Inn officials have received a permit to mitigate its portion of the wetland, and on-going construction by Jonna in Livonia does not touch the wetland. Williamson said a permit request by Jonna had been denied. The portion of the wetland located in the township is a very small part of the entire wetland, Williamson said, noting that the Hampton Inn portion of the wetland is between 6 and 75 of the entire emergent scrub/shrub wetland and the portion on which the Haggerty Road sewer would impact is even smaller.

"The problem which we have pointed out is only a minor one," Williamson said Tuesday. "Frankly, were the township to move its proposed lines closer to Haggerty Road and not cut through the wetland, it could possibly save some money and we would be willing to approve the plan." Matt Modrack, Northville Township community development director, said he had not talked to the DNR directly, but that he had the sewer the location of the sewer was a minor issue. "I believe the engineers were aware there could be a problem with a stream crossing, and my sense is that we can design around it," Modrack said. Hampton Inn, however, is faced with mitigation — building a new wetland in another location. Donald Tilton, a principal with Johnson, Johnson & Roy, said his firm was currently working on the mitigation on property in Commerce Township. Tilton said the mitigation project would involve altering hydrology on the Commerce Township site, changing the plans on the site and in essence creating a wetland where none exists. Under terms of the state's Wetland Protection Act, if approval is given to mitigate an existing site, the new site must match as nearly as possible the wetland that is being built upon. Johnson, Johnson & Roy currently handles about 40 wetlands-related permits each month, although only about 13 or 14 total permits have involved mitigation, Tilton said. The firm has had great success with its projects, Tilton noted. "There is only one mitigation that in its first year did not come along as quickly as we had hoped." That mitigation involves the site on which the Metro West Industrial Park now stands in Plymouth Township. But there is another concern with mitigation, a concern that hovers behind any proposal approved by the DNR — if the mitigation does not "take," the DNR, which retains jurisdiction, can impose penalties or force the company which was given the mitigation approval to continue to invest in the mitigated parcel until it meets DNR approval.

Gasoline dealers required new labeling regulations

Michigan retail gasoline dealers will now be required to label dispensers with information on grading standards and fuel additives following passage of Regulation 562 under the Motor Fuels Quality Act, announced Michigan Department of Agriculture (MDA) Director Paul Kindinger. The Joint Administrative Rules Committee and the Michigan Commission of Agriculture recently approved the new labeling requirements. The regulation was sent to Secretary of State Richard H. Austin and will become effective in 90 days (September 22, 1987).

"This regulation will ultimately improve the quality of gasoline sold in Michigan," said Kindinger. "Consumers can be confident the fuel they purchase in Michigan is pure and free from harmful contaminants." The labeling regulation will require dealers to post on each dispenser special labels stating the percentage of methanol, ethanol and alcohol contained in the grades of gasoline. The labels also will assure consumers the fuel meets "Michigan's Quality and Purity Standards" and will provide the number for a toll-free consumer complaint hotline: 1-800-MDA-FUEL. Originally drafted in 1984, the Michigan Motor Fuels Quality Act also mandates the licensing of Michigan gasoline stations and the establishment of gasoline quality grades. The MDA Food Division is responsible for preventing fraud in weights and measures, labeling and advertising. If you have any questions, call MDA's Food Division at (517) 372-1060 or one of the seven MDA regional offices.

TWO CARATS OF NATURAL ELEGANCE, \$2,750.

What more extraordinary a gift? A sapphire two carats in size, surrounded by three-fourths of a carat of diamonds. A ring of size. Of quality. Of value. Classically styled in 18k yellow gold. In the classic tradition of C.W. Warren.

City releases accident figures

By CHRISTOPHER J. KOZLOWSKI
staff writer

Six intersections with Novi Road were cited last week in a new listing of the highest ranking accident intersections in Novi by Barton-Aschman Associates, Inc., the city's traffic consultants.

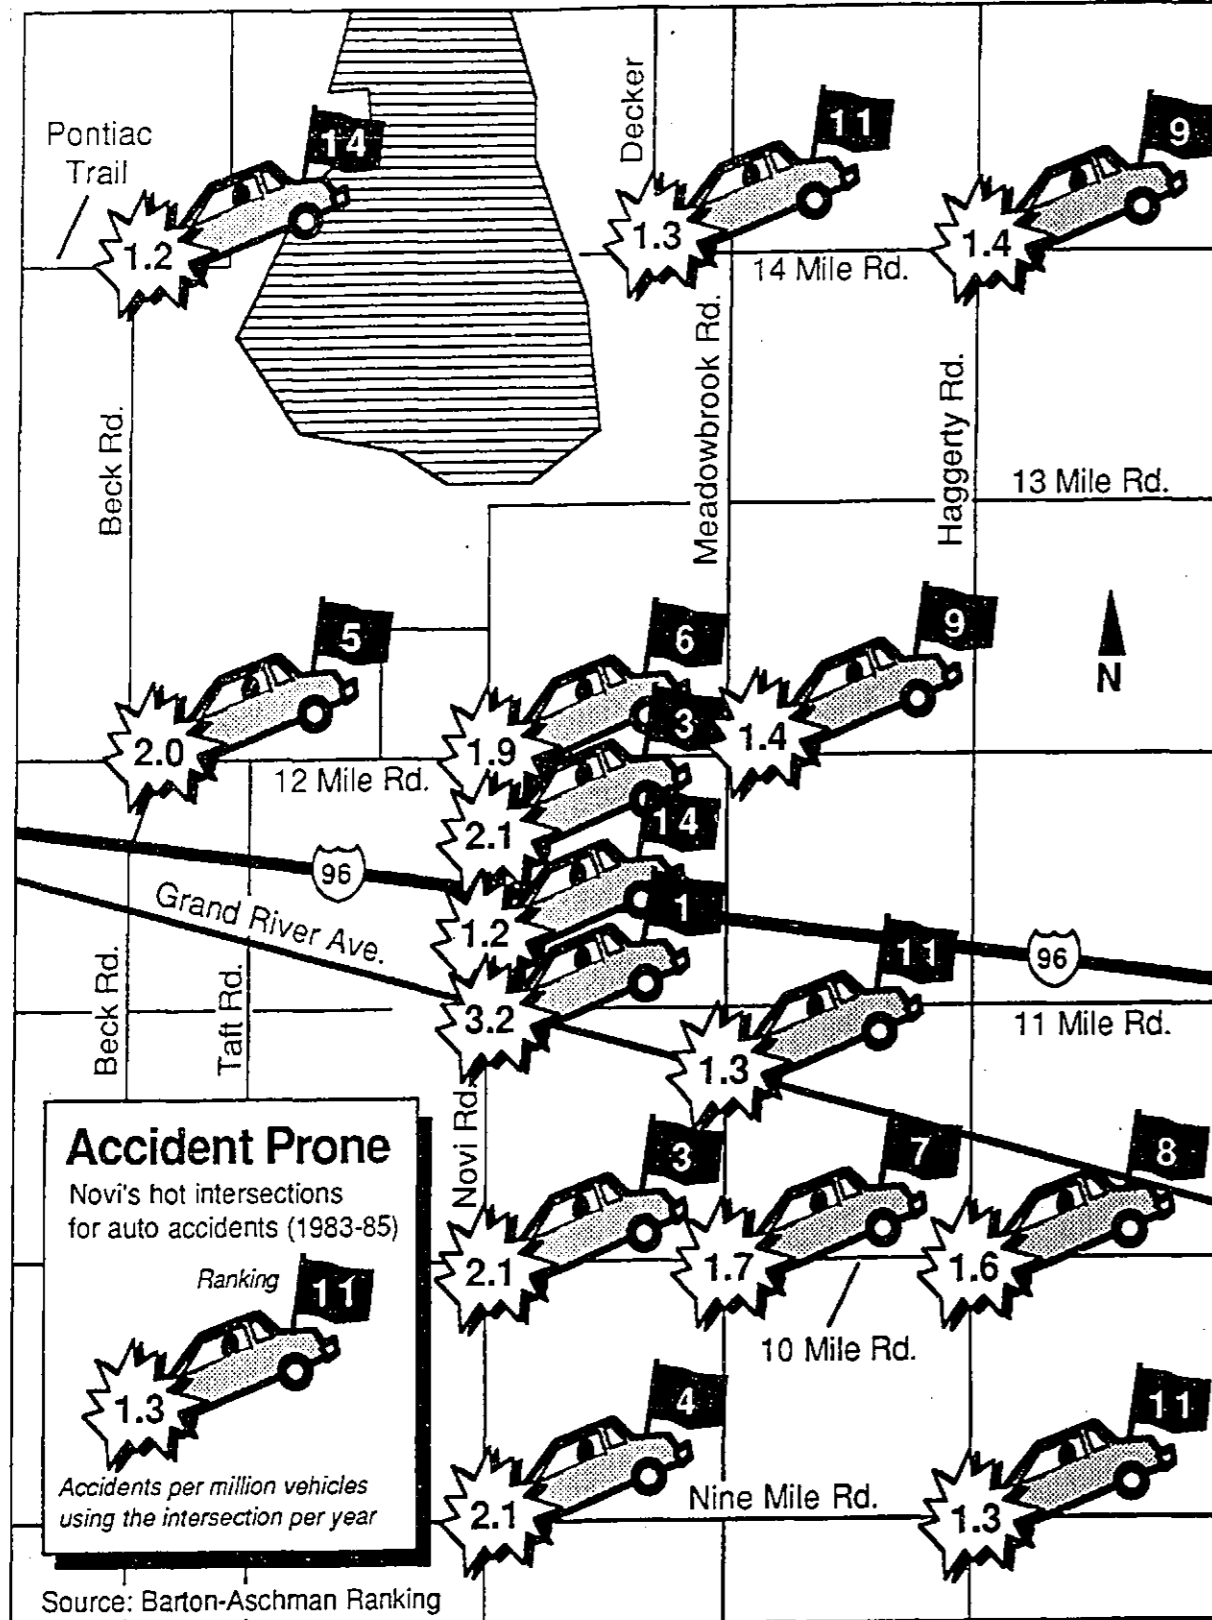

More traffic accidents occur annually at the Grand River Avenue/Novi Road intersection than any other intersection in the city, according to the ranking, which compares accident rates per million vehicles entering the intersection.

According to the new listing, an average of 32 accidents occur annually at Grand River/Novi Road for an average of 3.2 accidents per million entering vehicles.

The following is a listing of the highest ranking accident intersections in the city, including an annual accident average and an average per million entering vehicles (MEV):

- Novi Road/Ten Mile: 29 accidents annually, 3.1 MEV;
- Novi Road/I-696 ramps (west-bound): 18 accidents annually, 2.1 MEV;
- Novi Road/Nine Mile: 12 accidents annually, 1.4 MEV;
- Beck Road/Two Mile: 24 accidents annually, 2.0 MEV;
- Novi Road/Two Mile: 24 accidents annually, 1.9 MEV;
- Meadowbrook Road/Ten Mile: 17 accidents annually, 1.7 MEV;
- Haggerty Road/Ten Mile: 24 accidents annually, 1.6 MEV;
- Haggerty Road/Fourteen Mile: 17 accidents annually, 1.4 MEV;
- Meadowbrook Road/Two Mile: 7 accidents annually, 1.3 MEV;
- Haggerty Road/Nine Mile: 15 accidents annually, 1.3 MEV;
- Decker Road/Fourteen Mile: 7 accidents annually, 1.3 MEV;
- Meadowbrook Road/Grand River: 9 accidents annually, 1.3 MEV;
- Beck Road/Pontiac Trail: 7 accidents annually, 1.2 MEV; and
- Novi Road/I-696 ramps (east-bound): 9 accidents annually, 1.2 MEV.

The intersection accident listing was prompted by speculation concerning the traffic situation near Walled Lake by residents who opposed construction of the city's 12-acre lakefront hotel/entertainment complex (The Landing).

"There were repeated comments made at various board meetings and committee meetings by citizens addressing the shoreline project relative to the lack of traffic planning and lack of improvements in this area of the city," said James Wahl, city planning director. "A lot of these statements were inaccurate and misleading to the public."

Wahl and the city's traffic consultant, represented by Rodney Arroyo, said numerous road improvements in

the city are improving the safety of Novi roads and that improvements in the Walled Lake area are positively affecting traffic.

"The one statistic that really hit me was that the number of traffic accidents that occurred at the Novi Road/Thirteen Mile Road did not increase since 1984, while the traffic in the area increased 16 percent," said Novi Planning Commissioner Charles Kureth.

The intersection of Novi Road and Thirteen Mile and the intersection of

Thirteen Mile and South Lake Drive were combined to improve traffic flow in June 1986.

In addition to the Thirteen Mile improvements, engineering upgrades also took place at the Ten Mile/Meadowbrook Road intersection and the intersection of I-696 and the westbound ramp. Improvements are also scheduled to take place at the intersection of Haggerty and Nine Mile and at the intersection of Decker and Fourteen Mile.

Health Notes

A Stroke Support Group is being formed by the Department of Speech Pathology and Audiology at Oakwood Canton Health Center in Canton.

Purpose of the group is to offer educational and social activities for individuals with a past history of strokes as well as their spouses and families. The first meeting will be held Saturday, Sept. 12, at 10 a.m. For more information call the Speech Pathology Department at 459-7030.

A series of six diabetes classes for adults will be offered at the Novi Middle School Library from 7-9 p.m. beginning Thursday, Sept. 10.

The classes are for adult diabetics and their family members. They are taught by a public health nurse and a registered dietitian. Topics to be discussed include the nature of the disease, dietary management, medications and suggestions for coping with everyday problems.

There are no fees for the classes, but interested individuals are asked to pre-register because enrollment is limited. To register or for more information call 424-7042.

Expectant parent classes will be offered by the Oakland County Health Division at two locations beginning in September.

The series of six classes will be offered at the Health Division's Southfield office beginning Wednesday, Sept. 16, and at the Bartlett Friendship Center in South Lyon beginning Wednesday, Sept. 30.

Classes will be offered at both locations from 7-9 p.m. and be taught by public health nurses. There's no charge for attending, but pre-registrations are requested since enrollment is limited.

Topics to be discussed include maternal physical changes, good nutrition, growth and development of the fetus and baby, labor and delivery, infant care and parenting. The Health Division advises that you enroll as early in your pregnancy as possible. To register call 424-7042.

Weight Watchers weight reduction classes are offered at Botsford General Hospital every Tuesday from 4:30 to 6 p.m. in the Administration and Education Center at 2050 Grand River in Farmington Hills.

The classes are offered in conjunction with Weight Watchers, Inc. For more information call 471-8090.

An adult stuttering therapy group is being formed by the Department of Speech Pathology at the Oakwood Hospital Canton Center in Canton.

Participants will learn techniques to control dysfluency as well as discuss social and emotional problems often related to stuttering.

For more information call 459-7030. The Canton Health Center is located at 7000 Canton Center Road in Canton.

Breast imaging service: Providence Hospital and the Michigan Cancer Foundation (MCF) will provide breast imaging and education services at the Providence/Novi Center.

The breast imaging center will emphasize diagnosis, education, self-examination, referral and research in keeping with both organizations' commitment to the value of early detection, prevention and treatment. The breast care center will use standard detection methods refined by more than 20 years' experience at MCF's Breast eteion Center in Detroit.

Proven to be 90 percent effective in detecting breast lumps, the program combines the latest low-dose radiation mammography technique with breast palpitation. A comprehensive medical history is taken from each woman, and she is taught breast self-examination.

For more information call the Providence/Novi Center at 471-4300.

Asthma as a matter of fact is a free on-going program offered the second Monday of each month at the Center for Asthma in Southfield from 7-9:30 p.m.

The program focuses on the needs of children, adults and families in living with asthma. Call 353-2270 for more information.

Blood pressure screenings: Botsford General Hospital's Health Development Network offers free blood pressure screenings the second Monday of every month from 1-4 p.m.

The screenings take place in Botsford's Administration and Education Building at 2050 Grand River in Farmington Hills. For more information call 471-8090.

Ten Novi candidates attend pre-election forum

Continued from Page 1

"For example, when Walled Lake residents over a year ago came to us, city council, indicating they did not want more multiples put on the lake, I supported them. Orchard Ridge homeowners told us little more than a year ago that they were concerned about offices being put adjacent to them and I voted to retain the area residential."

"About a year ago Meadowbrook Lake residents came to council urging that we follow the master plan and retain property adjacent to them — residential instead of zoning it industrial. I introduced a motion that night to the effect that we keep with the master plan, keep the area residential."

"Meadowbrook Glens residents recently contacted me, asked me to attend a homeowners meeting because they were concerned about industrial uses that might go next to them."

"I'm running for mayor. I'm concerned about traffic. I will offer planning to deal with that. I am an advocate of open space planning. I have been involved in the assessment issue to see what we can do about reducing taxes."

MATTHEW QUINN/mayoral candidate: "I would certainly like to thank the Novi Jaycees for taking this big step forward in the programming to allow this type of forum to take place. I know gradually over the years it has went from a very small localized 'meet the candidates' night to something that I think the Novi Jaycees can be proud of and also the City of Novi that supports the Jaycees for being the very best chapter in the state as they were last year."

"My name is Matthew Quinn and, of course, I am a candidate for the office of mayor of the City of Novi. I think it's a great honor and privilege to have the opportunity to run for this office because there is no better way to have an impact upon your local community."

"And I expect and anticipate to have a great impact on this community not only over the next two years, but over many years to come. Because, number one I intend to stay in this city for the rest of my life and I would like this city to grow and to be planned in such a way that I can enjoy it in my senior years, which are

not that far away. And most importantly for my children who are 16, 11 and five, to be able to develop and grow in this city and enjoy the City of Novi as much as I have and all the great things that it has to offer."

"Now, what I hear most when I'm out talking to people is 'Well, who in the world are you anyway, where have you been and what have you been doing?' Well I'm 41 years old, I've been in Novi approximately 10 years, started out living in Meadowbrook Glens and now presently reside in Turtle Creek subdivision."

"During the period of time I've been here in Novi, the very first thing I did was to become active in the community and to become active in the Novi Jaycees. First of all as Community Action vice president, then as president of this organization. As president, and developing the leadership skills that this organization is known for, I was fortunate enough to lead the chapter to become the number one chapter in the State of Michigan within our population division. That was the first time this happened."

"Continuing in my leadership opportunities, I continued to be active in the city. Became active first of all in the community education association for the vita-course program in Power Park and became active in the Novi Civic Center Committee, both in the planning committee, the millage committee and presently still active in the implementation committee, and I think all of you can see the results that that committee has had by the tremendous building that is going up that will be a benefit to all both as a community center and as a city hall."

"Before I ever got to Novi, leadership was a point of my life. Going through high school, college, everything I found myself doing I was always the leader, the person in charge. When I was drafted into the army, I became a leader by attending the NCO academy, and after being in the army for 11 months and graduating first in that particular academy I was offered the rank of staff sergeant so that when I went to Vietnam I had the opportunity to lead people, make decisions, all of the time — both on a daily basis, a momentary basis but also with planning that is necessary to make appropriate decisions."

"Why am I running for council?"

Because I believe that Novi can and will be and continue to be a great place to live. I believe that through my leadership capabilities that I have been practicing and learning my entire life that I can lead this council to the goals that we want to achieve."

"What are these goals that we want to achieve? Obviously we want to control the growth of our city. We have to think of Novi as a growing tree. We all talk about park land and trees. And figure a tree as it grows, if you let it grow wild it's uncontrolled. But what you have to do is as this tree grows, you have to trim it, you have to prune it, you have to shape it."

"Shaping our future together is my campaign slogan. And shaping our future together will rely upon the input of each one of you here, and every resident of the city. And I believe that in shaping our future we can do this together to continue to make Novi a great place to live."

"I think that in our growth, in our planned growth, what's important is to keep the residential character of our community. The battle lines are going to be drawn in the western half of our city, and the northeast corner. Battle lines will be for the commercial and retail development versus the continued residential nature of those areas. I'm for lowering the density in those areas, making larger lots."

RICHARD CLARK/council candidate: "I've been a resident along with my wife Diane and daughters Lisa and Laura in the City of Novi since 1979. I presently reside in Turtle Creek. I've been active at the community level, first becoming active in the issue of housing ordinance. It became a very important issue for the residents of this community. I've also served on the Task Force for Excellence in Education in this community and the results of that task force have led, I think, the schools in this community to a continuing position of leadership and to in some areas surpass standards even those set by the State of Michigan in terms of educational excellence. I've also served for the last several years on the planning commission in the City of Novi."

"I have been asked as I have begun to talk about the community as to what do I stand for, what do I feel the issues are in this particular campaign? Let me begin by saying that

the focus of my campaign from now until election day will be the residents of this community. The residents of this community — their concerns are first and foremost on my mind."

"The greatest asset in my mind, that any community can have, are its residents. I think that kind of goes hand-in-hand with the (Jaycee) philosophy. I think that the greatest service that any politician, or any would-be politician can provide to the residents in the community is what that person may do who either is in a position of leadership or aspires to a position of leadership in terms of enhancing the quality of life in that community for its residents."

"I think that the greatest disservice a politician or would-be politician could do is to take actions that would be detrimental to the interests of the residents and the quality of life in the community and the quality of life to the residents in that community."

"How does one enhance, preserve and protect the quality of life in the community? I propose to you ladies and gentlemen that that is done through proper planning. Especially in the issue of housing ordinance, proper planning when you are talking about a community such as Novi, which up until just a few short years ago was essentially a rural, undeveloped for the most part, community."

"I'd like to help Novi grow so it will become a place that future residents will be proud to live here and call their home. This is what I call government for the people."

"A little bit about me. We moved here four years ago, my wife Kathy and our two kids, second and fourth grade at Orchard Hills grade school, from the Village of Wolverine Lake. While we lived there I was chairman of the planning commission for three years for the Village of Wolverine Lake and oversaw the complete rewriting of our zoning ordinance to more carefully take a look at the residential growth in that city and to plan for it properly."

"I was also a member of the Zoning Board of Appeals for three years. After moving into Meadowbrook Lake I joined the board of directors

people. What does 'by the people' mean? 'By the people' means it's all of us. Not only is it everybody's right to help govern but it's our responsibility to help govern."

"We all must participate. How do we do that? The best way is to vote and get out and work Nov. 3. But you can also help in some other fashion, you can actively participate in the city council and the various commissions on a variety of topics."

"During the past year we have proven not only did the participation work but the city in fact welcomed it. We provided some constructive influence on the property to the west of our subdivision, Meadowbrook Lake, which was received extremely well. In fact, a thorough review of the light industrial zoning ordinance took place and kind of handled by an ad hoc committee made up of citizens who brought forth for review items and the light industrial zoning ordinance was changed."

"Second a group of concerned residents only recently from Meadowbrook Glens has brought constructive input regarding the use of property adjacent to that subdivision. Action is being taken. Newspapers are covering it and it's government by the people."

"For the people' means representation. Representation is a basic cornerstone of my candidacy. My purpose in running this campaign is to provide further representation to the citizens of Novi. To be a voice of those citizens that currently call Novi their home and that will wish to call Novi their home as the city expands to the west."

"I'd like to help Novi grow so it will become a place that future residents will be proud to live here and call their home. This is what I call government for the people."

"I am committed to each and every one of those items as they may impact upon the future of this community."

RICO DIGIROLAMO/council candidate: "I have chosen as my campaign theme in this 20th anniversary of the constitution the first three words of that document — 'We the people.' One of the greatest documents ever written. Why did I choose that? Because it stands for two things. It stands for government by the people and government for the

in that subdivision and was the treasurer and was involved in taking a look at the zoning of the property directly next door to the subdivision."

"Why am I running for council? I think Novi is changing community and will continue to be changing community. Over the past 10 years it has changed greatly from what was once farmland to what is now a major residential district, a major regional shopping center and the city of the future for the western part of the city. In fact, it is one of the two fastest growing cities in the state."

"I believe that when the city is changing so quickly it needs a new look. It needs a new look on the city council and it needs a new look on all the commissions and it needs a new look through the management of the city. That's why I'm running for city council."

"I believe I can make a contribution. I believe that good business acumen, which has been my experience for the last 10 years, provides the best experience, leadership and direction. I feel I can make a genuine contribution. The city has new, fresh ideas that need to be reviewed. The city is currently at a crossroads. It's important that a variety of new positions and ideas are advanced to city management and brought forward to the residents."

"Although I believe the major issues are in the upcoming election, as everybody has said before me and I'm sure everybody will say after me, the future growth of the city is extremely important as is traffic. They are really one and they go together. We've seen it happen in cities like Southfield, we've seen it happen in Troy and we've seen it happen in Farmington Hills and we will see it happen in Novi."

"To conclude, my candidacy is based on representing the citizens of Novi. My basic purpose is wishing to participate in government for the people, by the people. If I could leave everyone with one important message — not only those here but those that may hear this. It is important that we do participate in government, each and every one of us and I encourage everybody to get out there and vote. It's the most important thing you can do."

Our son. The Father.

All parents want what's best for their children. We want them to be happy. To do something worthwhile with their lives, and something that they'll enjoy doing.

The trouble is sometimes we think we know what that is even better than our children do. So when our son first told us he wanted to be a priest, we were surprised, to say the least. Disappointed. Even a little angry. It was all we could do to let him go off to Sacred Heart Seminary, thinking in time he might change his mind.

His time at Sacred Heart has been good for all of us. He's more sure than ever he's made the right choice. He's gotten a college education, done graduate work. And we've come to realize that he hasn't changed all that much. He's still our son. The same likes and dislikes, the same funny sense of humor.

Today he's a priest as well. Sure, that means he's giving up some of the things we wanted for him, or for us. But he's not giving up anything that's important to him. Not at all. He's counselor, helper, listener, and spiritual leader for a whole lot of people who call him "Father."

He's doing just what he wants to do. And that's as much as we could hope for any of our children.

We invite you to call.

The work is hard. But the rewards are infinite.
Sacred Heart Seminary 868-2700

Mervyn's is looking for people like you!

If you're looking for a great place to work, Mervyn's is looking for you! We're a family department store where it's a pleasure to shop and exciting to work. A division of the Dayton Hudson Corporation, Mervyn's is one of the fastest growing retailers in the country. We're opening eight new stores in Michigan this October. 1987 NOVI ELECTIONS

Continued from 15
MARTHA HOYER/council candidate: "I have been on council for 12 years plus one three-month specialy elected term when an appointment could not be made..."

"The theme of this evening is 'Reaching for Excellence' and I think that's what we're doing in the City of Novi..."

EDWARD LEININGER/council candidate: "When we first moved here we were looking for a city..."

"I like to dwell on some of the important things that have happened in the '83-'87 council term in response to the wishes of the residents..."

"Purchase of sensitive lands is an issue that many people are interested in. We've received 3,000 of a voter-approved millage this year for the purchase of wetlands..."

"To use Brandon Rogers' term, the planning commission is now under way with a residential de-densification study..."

"The kids who go to our schools, the best school systems in the nation. These kids are proud of it..."

"There's been the creation of an environmental committee that has been working very hard for research and recommendation of ordinances relating to toxics and other materials..."

believe that a community must be planned for and with its residents. And that the majority of Novi residents did not move to Novi to be surrounded and smothered by concrete, steel or a skyline of tall buildings..."

"I walk the land, I talk to the people. I look at the entire city as a whole before making a decision..."

"Four years ago they said - 'nothing to it, Ed, two meetings a month, a little bit of study...' Well, it's not exactly two meetings a month..."

"When I was a Parks and Recs commissioner we did a master plan and we looked at bicycle paths, we looked at parks, we looked at the city..."

"I'd like to dwell on some of the important things that have happened in the '83-'87 council term in response to the wishes of the residents..."

"The kids who go to our schools, the best school systems in the nation. These kids are proud of it..."

"There's been the creation of an environmental committee that has been working very hard for research and recommendation of ordinances relating to toxics and other materials..."

review and billing mechanical, civil and environmental. This would save thousands both now and in the future. And it would also eliminate possible conflicts of interest..."

"If you vote, vote for who you think will accomplish what is necessary, who will do what has to be done regardless of what opinions others might hold of him even if these people are in office..."

ROBERT SCHMID/council candidate: "I appreciate the opportunity to look out amongst this group to see any faces that I met during my 10 years of serving on city council..."

"Essential police and fire protection and infrastructure improvements must be carefully addressed prior to development..."

"While we plan on a big scale, we cannot forget that big things are made of small things..."

"I've served on council for 10 years, 1975-1985, four of those years, the four last years of your mayor, I understand responsibilities and the leadership that is necessary to carry this city on..."

"I said at that time Novi could be a quality community. It could be a community that would stand the test of time..."

"I said at that time Novi could be a quality community. It could be a community that would stand the test of time..."

Continued on 17

Continued from 16

one. I said a lot of things about quality. I was elected in 1975. I did serve on council for six years, the last four years, equalling 10 - as your mayor..."

"We could have been another Canton, and I hope there's nobody from Canton here; we could've been another Westland, and I hope there's nobody from Westland here..."

"I think there's been some innappropriate zoning decisions made in the last two years that infringed on residential property..."

"The one thing about it that's been the most, and again, this is not anybody in particular's fault, I think, ladies and gentlemen, that the developers in this community have the ear of the council more than the residents..."

"I also served on the woodlands committee. From the woodlands committee we developed the Woodlands Ordinance..."

"I've lived here for 18 years. I have five children. I have four in four different schools - so I get a lot of traveling around the city..."

"I've lived here for 18 years. I have five children. I have four in four different schools - so I get a lot of traveling around the city..."

1987 NOVI ELECTIONS

"This has been this so-called quality. What we are building here is a base for the city. We're making sure that what is existing here, what is quality we're trying to keep..."

"Let's talk about this. The developers at that time that built these subdivisions would refer to the residential areas as being near greater Farmington, or near Northville, and not mention the name Novi..."

"Bob (Schmid) alluded to the fact that we've built some quality into this city. We have. We've done an awful lot of work in the past 10-12 years..."

"Let's talk about some of these. I served on the stormwater program. The stormwater program is city-wide. It eliminated a lot of these so-called mosquito-infested retention ponds..."

"The most important people in this committee are its citizens and they should be heard and their thoughts and ideas should be put forth..."

"I've lived here for 18 years. I have five children. I have four in four different schools - so I get a lot of traveling around the city..."

Drive set for blood

The Providence Hospital Novi drive will host its annual blood drive on Friday, Sept. 25, from 10 a.m. to 4 p.m. The Center is located on the corner of Ten Mile and Haggerty Road. Most healthy people between the ages of 17 and 66 are eligible to donate blood. Giving blood is easy and takes only 45 to 60 minutes from the time of registration to a post-donation snack.

If you don't smoke...

Farmers can insure your home or apartment for less. For years, Farmers has been helping non-smokers save money on life and auto insurance, with special policies that give better risks a better deal. Now non-smokers can save on home owners' packages or fire coverages alone - available whether you own a house or condominium or rent. If no one in your home has thousands of people every day. Find out from a fast, fair and friendly Farmers agent.

Economist offers credit record tips

Mistakes on your credit record - sometimes minor identities - can cloud your credit future. Your credit rating is important, so be sure credit bureaus' records are complete and accurate. Elaine Glasser, home economist for the Michigan State University Cooperative Extension Service of Oakland County, said you may examine the credit bureaus' records and have any errors corrected.

GET A FREE INSTANT CAMERA WITH AN ALMOST INSTANT LOAN.

Now you have another good reason to get an Almost Instant Loan from a Security Bancorp Bank. A free Polaroid Spirit 600 camera, worth \$49.97. And all you have to do for your free camera is to get an installment loan of \$2,500 or more between now and October 31st. It makes sense to give you an instant camera. Because our loans work the same way. Now you can get your money almost as fast as you get your pictures. That's because Security Bancorp Banks ask fewer questions and give you faster answers. Usually you can get a loan in 24 hours or less. You see, we want to give you a loan. So we're making it as easy and pleasant as possible. You can borrow for a new or used car, truck, RV or boat, for any home improvement, for a vacation, for college tuition, or for any good reason at all. You can also get a home equity loan from \$5,000 to \$20,000. Call or come in to one of our offices to apply for your loan. Only Security Bancorp Banks give you Almost Instant Loans and a free instant camera. At Security Bancorp Banks, we make borrowing money almost as nice as spending it. Home equity loans are usually approved within 24 hours. Closing of the loan is usually within one week. You need all the Security you can get. SECURITY BANK & TRUST (313) 281-LOAN

As We See It

Board should seek site plan approval

A legal battle is shaping up between the City of Novi and the Novi Community School District over the issue of the school district's construction program.

Government

The school board has constructed additions to both Village Oaks and Orchard Hills elementary schools this summer without obtaining site plan approval from the city.

Over the next two years, the school district will undertake additional building projects — a maintenance building, a new elementary school and a new administration building. In addition, the school board plans to remodel Upper Elementary School.

At this point, it appears the school district plans to proceed with all its building projects without securing site plan approvals from the city.

The school district's apparent disregard for city zoning standards has angered city officials who now are threatening to "red-tag" the building projects and take the issue to court to force compliance.

It should be noted in fairness to school officials that there is a legal question as to whether school districts are required to comply with city zoning standards. The same question exists about construction projects undertaken by other governmental agencies, including federal and municipal governments. The U.S. post office on Novi Road is in violation of city requirements, but city officials were unable to force compliance because the federal government is exempt from local zoning restrictions.

The city fire station on Nine Mile also does not comply with city standards. In essence, the city was able to disregard its own standards because of a legal opinion which states municipalities are exempt from their own zoning standards.

As a result of the Nine Mile fire station, we editorialized several years ago that the city should submit to its own zoning standards.

Substance, please

Fall is here and with the changing colors of the leaves comes the increased amount of political rhetoric from candidates vying for council seats and a shot at the title of Mayor of Novi.

Candidates need to get their faces and names known to the public. This country has a proud tradition of long — and long-winded political campaigns. Local politics too often are a microcosm of the larger political scene. As candidates on national and state levels talk in circles about the problems facing the country and state — so, too, do local candidates. As senators hoping to get party bids for higher office seem to pinpoint weaknesses without supplying solutions — so, too, do local candidates.

The Nov. 3 election will take place in just under two months. The 10 candidates — two for mayor and eight for three council vacancies, have already participated in two candidate's nights. Each candidate is accepting invitations to speak at homeowner's meetings around Novi. As the days count down toward the election, voters will hear more and more from the candidates.

These in-person speeches are valuable for the voters of Novi. Local politics can and should be a much more personal look at the people running our city. This is an ideal opportunity for residents to ask intelligent questions and get to know

the individuals who may soon be planning the future of their city.

But a speech is only as good as the person making it. The candidates owe it to the people of Novi to begin to address actual issues facing the city. Too much time is being spent on vague references to existing problems. Too much time is being spent on advertising-like rhetoric.

The City of Novi is facing a future of tremendous growth. Attendant to that growth comes a host of related problems. Traffic, sewer capacity, residential density, commercial growth, police and fire services and quality of life issues such as parks, woodlands and wetlands — must all be addressed by any serious contender for elected office in this city. The city is facing a millage question in November which has serious future repercussions.

These issues must be addressed in a responsible manner, however. Slipshod references to past administrations; inaccurate responses to direct questions and no knowledge of many issues should not be tolerated by the voters of this city. The candidates should not only point out present weaknesses, but offer real solutions to them. Everyone can find fault, but an elected mayor or council member should go a step beyond and be able to find rational and possible solutions to those faults.

Candidates should speak to the issues and avoid emotional appeals to the voters. Let the voters make intelligent choices this November.

Preserving family tradition

Ann Willis

Grandma Willis showed me how to can tomatoes last week. We spent the afternoon turning the beautiful round, red fruit into the frothy wonderful juice that we poured into canning jars.

It really is a symbolic tradition, the canning of tomatoes. Those wonderfully aromatic plants are planted early in the summer, when cold nights are still a possibility and you only dream about jumping into a lake for a swim. They ripen during the golden days of summer, under high suns. If you brush by a tomato plant in July, you can smell the ripening fruit. In my grandmother's garden she saved the squirrels for the fruit. For every one my family ate — the squirrels chomped two. It wasn't an equal distribution of the spoils, but as in most of nature — one with which we were forced to live.

In early September the tomatoes are at their peak and that's when canning goes into high gear. I've talked to at least two people in the last week who were going to spend one day canning tomatoes. One woman said her family didn't even really like them in anything — she canned because it's what you do at the end of summer.

Anybody who has ever canned knows what a thrill those clear jars filled with tomatoes give a person. There they sit on the drain board, cooling. You look at them and imagine the spaghetti sauce, the soups, the stews — all the winter dishes that these summer jars will fill.

I felt like I had done this tremendous thing. "There,

the family will be set for winter," I thought. Forget the fact that you can buy tomatoes at gas stations nowadays — that is not the point. The point is that you did something yourself for once.

I remember the year my father planted a small garden in our backyard in Detroit. In a desperate attempt to be a gentleman farmer Dad planted corn. The squirrels would not let the poor little ears ripen. They ate them when they were small. They ate them all the time. Dad would come into the house after walking around his garden. (The garden was planted in the dirt left by a small swimming pool. The walk did not take long.) "How will I feed my family this winter?" my father would wail each time he found a bitten ear. My father tended to the overdramatic and it's a trait I've inherited.

One of the neat things about learning how to cook from grandmothers is you learn more about traditions and family than you do about cooking. When I asked Grandma a question about why she did something her answer tended to be "That's the way Mama always did it." My Grandmother's mother taught her to can and to cook on a farm in North Carolina. Store bought tomatoes for stews and soups was unheard of then, and it's a tradition we've managed to keep right up until today.

My Grandmother is moving today. She is leaving the house she has spent so many years in, and she doesn't like it. One of the things that I hope she'll remember as we move her boxes of canned peaches, pears and chili sauce, as well as the tomatoes, is that we've managed to hang on to a little bit of the past wherever we've gone. Next year we'll need to can tomatoes again — just as we have every year since she learned the art so many years ago on the farm. Whether it's a house or an apartment really isn't the point. It's her, passing on the tradition.

The art of making newspapers

Phil Jerome

Forgive my vocational prejudice, but it's hard for me to imagine anything better than making newspapers for a living.

Maybe a lot of people feel that way about what they do for a living. Perhaps mechanics get pleasure from doing a great job of repairing an engine. Or CPAs get excited about doing a really thorough audit or tax return.

But, as far as I'm concerned, making newspapers has got to be as fine a job as there is. The only things that might even come close are writing novels or making serious films. I live in awe of Woody Allen screenplays. And Oliver Stone movies.

I suspect my staff wearies at times when I talk about newspapers as an art form. Literature and photography are recognized art forms. And both are main ingredients of a newspaper. And even though it may not be recognized as such by the majority of readers, so is newspaper layout and design.

The other thing that impresses me about making newspapers is that it involves so many elements. Good reporting, good writing, good editing, good photography, good editorials, good design. A snappy feature story. An informative article that people can read and adapt for their own use to make their lives better.

All this is by way of introduction to another element of a good newspaper — good headline writing. It's not as easy as it looks, folks. Try writing a 42 point headline that has to fit in 38 picas (newspaper talk). It can't be too short or it will look funny. And it definitely can't be too long or it will run off the side of the page.

Along with everything else, we've been trying to put more emphasis on the quality of our headlines in recent months. We award a weekly "atta, boy (or girl)" to the writer with the best headline.

A recent story about a stolen puppy led to "Dog gone... customer sought." Another story about a stolen baby goat led to "Thieves get goat... no kidding."

Corny? Probably. But writing catchy headlines is another thing we do to try to make your hometown newspaper reading experience more enjoyable.

Park needed more than marina

To the Editor:
First of all, thank you for your coverage of the Lakeshore issue. We appreciate your thorough, objective coverage. In response to your editorial of Sept. 3, 1987, there are some comments with which I take issue.

Letters

The city's records may show that their obligations were met in keeping the area residents informed, they could — and should — have made greater efforts to notify us by using the Spinal Column, which is delivered to us weekly. Recent sales and subscription increases in this area may be directly linked to your coverage of this issue.

I make sure that I tell anyone who asks to subscribe to The Novi News. They really want to know what's going on in the city. Regarding calendars: several residents have asked how they can get a Novi calendar. Many of these residents have lived in this area for years and have not seen them. Are they mailed from the developer? How can that possibly benefit all Novi residents?

When the city is trying to justify increased taxes, the need for a 1.8 police/fire protection millage, how can that loss of our monies be explained? This is a critical year in Novi politics. If you're happy with the way things are going, then vote incumbent or don't vote at all. If, however, you're getting fed-up with the apparent pro-developer/anti-resident attitudes and our "puppet" administration, then be sure you're registered to vote and make sure you do vote on November 3. Our city's future is up to you!

Sarah J.G. Phelps

engineering and surveying fees — for \$10. In all fairness, the developer is to install \$1.5 million in improvements, which I presume must be the boardwalk and/or marina. Should the DNR deny the marina permits, the developer will pay the city \$375,000.

My fear is that the marina permits will not be granted and the city will lose over \$600,000 of the total expenditures. Is this in the city's best interests? By the way, the city will not own the lake frontage, but will be granted an easement for its use for the developer. How can that possibly benefit all Novi residents?

When the city is trying to justify increased taxes, the need for a 1.8 police/fire protection millage, how can that loss of our monies be explained? This is a critical year in Novi politics. If you're happy with the way things are going, then vote incumbent or don't vote at all. If, however, you're getting fed-up with the apparent pro-developer/anti-resident attitudes and our "puppet" administration, then be sure you're registered to vote and make sure you do vote on November 3. Our city's future is up to you!

Sarah J.G. Phelps

Preservationist

To the Editor:
I have often expressed my environmental commitment and concerns at various Novi planning and council meetings.

I have a deep sense of appreciation for the natural world and its wild creatures. I believe that our precious natural resources are an essential part of all our lives and must be protected and preserved as much as possible. If a balance between the needs of people and nature is ever to be achieved, it will require a greater

commitment from developers and residents alike.

I believe that it is important to encourage open/natural space subdivisions in which development occurs around wetlands and woodlands and does not intrude upon them and damage their integrity at all.

I strongly support zoning for large-lot subdivisions which would provide the maximum preservation of individual and clusters of trees on each lot, more open space (breathing room) between homes and would ease the stress and strain on our infrastructure.

I also believe that we should try to purchase as much park land as possible for designated wildlife preserves and recreation.

In order to fund park land acquisition, we could consider capturing a portion of our revenues, applying for any available State and Federal (and other) grants whenever possible and a dedicated millage if residents so choose.

Naturalist Aldo Leopold once said — "We abuse the land because we regard it as a commodity belonging to us. When we see land as a community to which we belong, we may begin to use it with love and respect. There is no other way for land to survive the impact of mechanized man. I couldn't agree with him more.

Laura J. Lorenzo

Problems remain

To the Editor:
I recently have been concerned with so much land vanishing to progress. So I looked into what we can do as a community to control it. I was told by our current mayor there is no way to preserve open space, there is no money available in our city coffers for parks and there is no land

owned by our city saved for parks. Mr. Toth and Mr. Leininger have said repeatedly throughout their campaigns they would like to see larger lot sizes for the west end of our city. Yet in the past two years that they have been seated on council this area of our city has remained R-3 and R-4 on our city's zoning map. The smallest lot sizes were allowed a builder in Novi at the last council meeting.

I watched in frustration, along with a room filled with residents, as our council sold a large chunk of prime city-owned property on the shores of Walled Lake for only \$10. An entitlement to a developer to build yet another large development in Novi on land I feel would have best served this city and better enhanced our community being utilized as a park. The proposed building that will soon break ground is a beautiful edifice yes, and would be an asset to a large metropolitan area that can handle such a conglomeration of businesses.

Members of Novi council, you had best beware of what you have wished for us all. For when this sleeping beauty awakens on our tiny residential shores, it may be you who regret your dreams did not include the nightmare of troubles that can come from rapping a community of its natural assets to promote more business growth.

Had we been allowed the opportunity to do so I am sure we the residents, whom already owned this land, would have gladly each given \$10 to preserve this property for a park.

Yvonne Martin

Campaign thanks

To the Editor:
The Committee to Elect Jerry Sheridan for Mayor wishes to thank each and every one of you for your support during this campaign.

I'm still falling for football time

Neil Geoghegan

So what is it about this time of year? Although we are still officially in summer, to me it's already fall, or autumn. I don't care what the calendar says, as soon as school starts and football season gets underway, it's fall to me — and I love it!

It's always been one of my favorite times of the year for a lot of reasons, but until recently, I've never been able to enjoy it to the fullest. As a kid, autumn always meant going back to school, and the thought of homework, algebra and bus rides somehow spoiled the luster. Up until college graduation, the close of summer always featured at least a hint of anxiety. It really didn't matter what age, as August drew to a close, I couldn't help but wonder what happened to the summer. With school days behind me,

there really isn't anything left to taint this time of year.

When fall rolls around, it means the grass wouldn't have to be mowed every weekend, the heat and humidity wouldn't be unbearable, and the long baseball season was winding down. It's not that I dislike baseball, it's just too long of a season for me. I get excited when it starts in April, tire of the whole thing usually by June and then get back into the flow of it by September.

When the Tigers are doing well, I may pay more attention to the season, but I still tire of what seems like endless foul balls, pitching changes and seventh inning stretches. But with the fall comes the pennant races, the playoffs, the World Series — it pumps new life into the game and into me.

I have to admit, however, that football is the one factor that makes autumn so attractive. It's not necessarily the game itself — although I do like the game — but rather the atmosphere of the big games. What can be better than a tailgate picnic prior to a Big Ten showdown? What about walking into the

high school stands on a Friday night with the band blaring the fight song and the teams preparing for a key conference battle?

For me, nothing in sports can compare to that feeling of a football Friday or Saturday. There is a chill in the air, and excitement is everywhere. The band director barks out last minute instructions, the public address announcers test the equipment, the cheerleaders discuss routines and the offensive line coach reminds his troops that the opposing defense likes to blitz on third and long. Students arrive in bunches, usually late, while parents stir nervously as they try to locate their son on the field underneath all the gear.

Autumn may be dreary by some. The colorful leaves of late September must be raked and bagged in October, and the weather continually gets cooler with every passing week. No more swimming, sun bathing, short pants and bikinis. But it marks the end of mosquitoes, sunburns, humidity and air conditioning.

This is my time of year.

'Letters' provides open forum

Phil Jerome

Some people have suggested we're being used and abused. Others say we're providing a valuable public service. They're talking about the same thing — "Letters to the Editor."

And both opinions probably have some validity. Our "Letters to the Editor" page has been busy lately. It's a good sign. A busy "Letters" page tends to be an indication the newspaper is doing a good job of providing a forum for public opinion in the community.

One of the reasons for the busy "Letters" page is that a vigorous campaign is being conducted for the office of mayor and three vacancies on the city council. And candidates have found that writing "Letters to the Editor" gives them an opportunity to make their positions known to the voters in addition to helping provide name recognition.

She won the election, but we also received criticism of a candidate."

Perhaps as a result of those letters during the 1985 campaign, other candidates for public office in Novi have followed the same tactic. It happened in the school board race last June. And it seems to be happening again in this year's city election.

With that in mind, it seems an appropriate time to lay down the ground rules established in our "Letters to the Editor" policy.

First, we do not permit blatant letters of endorsement. People who want to say "vote for so-and-so" will be advised to buy an ad.

Second, the policy states that "letters from politicians, unless in response to a previous attack, should not be accepted within the last 30 days before an election." Further, the policy states that "an editor, however, may waive this rule if the letter, in his estimation, has overriding importance for the community."

Although the policy prohibits endorsements of candidates, it does permit criticism of candidates. Specifically, the policy states that "we should attempt to publish all political letters as long as they

are issue oriented. This may include criticism of a candidate."

Finally, the policy states that we will not accept "Letters to the Editor" the week prior to the election that open new issues. "Only responses to already published issues will be accepted, with this newspaper being the final arbiter."

And that, in a nutshell, is our policy regarding political letters. It was not arrived at casually. Every item was debated in considerable depth by our editorial staff. And questions still remain.

Is it right to allow criticisms of candidates and not permit endorsements of others? Legitimate question. Another legitimate question is whether we should permit candidates to wage their campaigns on our "Letters to the Editor" page. Some editorial board members feel candidates should be required to buy an ad to express their political viewpoints. "Why," they ask, "should the paper provide free political advertising?"

The high level of interest in the upcoming city election is a positive sign. In the weeks ahead, The News will be doing its utmost to provide readers with as much information as possible about the various candidates. And that coverage will include "Letters to the Editor" within the guidelines of our policy.

Auto parts store keeps expanding list of services

By PAUL GARGARO

Perhaps you've passed by Champion Parts Inc. on the southeast corner of Pontiac Trail and Grand River in New Hudson and thought to yourself, "Huh, there's another auto parts store."

But proprietors Jim and Lynda Champion know otherwise. The Champions opened their store in 1980. Initially, the couple undertook the business of purchasing wrecked Chevettes from insurance pools to salvage the usable parts for retail.

The expansion, though, did not stop with sheet metal. In April of 1987, the Champions decided to carry auto parts through the National Automotive Parts Association (NAPA) to increase their inventory.

Their NAPA connection has proved to be a positive move. "Our greatest asset is the tremendous support system that NAPA offers to its dealers," said Jim.

With the backing of a corporation which has 6,500 dealerships nationwide, including 80 in southeastern Michigan, the Champions can proudly boast of such amenities as overnight delivery from seven regional NAPA warehouses, computerized invoice and inventory, and, coming this fall, a computer with extensive cataloging capabilities.

"People used to come in locally and from the expressway in need of new hoses, belts, et cetera. Before we hooked up with NAPA, we weren't always able to accommodate them. Now we can," said Lynda.

"We've got an awful lot of truck fleets, gravel operations and agriculture in this area," added Jim. "For years, people would drive by here and say what we needed was a parts store. We listened to our customers."

With the NAPA connection, Champion Parts Inc. now appeals not only to local residents, but also to farms and a number of surrounding industries. Founded in 1923, NAPA is the largest and oldest auto parts distributor in the country. One of NAPA's trademarks is to offer sound product guarantees — some extending for lifetime.

Though there are other NAPA

Owners Jim and Lynda Champion (left) stand with employee Grant Gardner and NAPA representative Mark Russell in their remodeled auto parts store at the corner of Grand River and Pontiac Trail in New Hudson

Business Briefs

SUZANNE DIMITROFF JUDY BELL CREMER

SUZANNE DIMITROFF of Northville has joined the Troy-based advertising agency of Michael Flora & Associates, as an account executive.

Before joining Flora, Dimitroff served in a similar capacity at Metropolitan Detroit magazine. Dimitroff also worked as advertising sales manager for Sliger Livingston Publications.

In her new position, Dimitroff will service a number of Flora's retail accounts, including Car Tunes Mobile Electronics and Ray Lighting Centers.

JUDY BELL CREMER of Novi was named first runner-up to the Director Queen of Personal Sales at Mary Kay Cosmetics' 24th annual national seminar. Cremer, who joined the 140,000-member sales organization in May 1982, received the prestigious award for outstanding achievement as a professional businesswoman.

"Judy has helped scores of women achieve their career potential," said Mary Kay Ash, company founder and chairman of the board. "She is a shining example of entrepreneurial leadership."

As first runner-up to the Director Queen of Personal Sales, Cremer received a white mink jacket with bluish mink insets on the shoulder and a medium 14-carat gold and diamond bee pin. She was honored during an awards ceremony by 6,000 Mary Kay Beauty consultants and sales directors.

The seminar's 1987 theme, "Success Express," celebrates the company's tradition of recognizing women for business achievement. The Mary Kay seminar consists of four consecutive three-day meetings at the Dallas Convention Center attended by 24,000 independent businesswomen from across the United States, who receive intense product, business and sales training.

Mary Kay Cosmetics, Inc. is an international manufacturer and distributor of premium skin, hair and body care products, cosmetics, toiletries and fragrances.

A SAFETY AND SECURITY traveling program sponsored by AAA Michigan will be presented at the Meijer store in Northville Monday through Friday, Sept. 14-18 at Meijer Inc. The store is located at 20401 Haggerty Road.

Gary Bubar, a AAA Michigan home security analyst, will staff the program from 10 a.m. to 6 p.m. each day.

The program will include advice on home and fire safety and inexpensive security protection from experts. The program is co-sponsored by Meijer, AAA Michigan and the Northville Township Fire Department.

"Burglary costs homeowners \$3 billion annually and we want to educate them on how to further secure their homes with minimal effort at low cost," stated Robert V. Cullen, AAA Michigan safety and traffic manager.

A large, eight-panel display prepared by AAA illustrates home security measures as well as causes of fires, how to use a fire extinguisher, how to take precautions when installing a wood stove and how to plan home exit drills. Security and fire prevention hardware, such as dead-bolt locks, various types of doors and windows and smoke detectors, will be available for inspection.

"Practical home security information and items also will be available to those visiting the display," Cullen said, noting that a home break-in occurs every nine seconds in this country and the average burglary only lasts about three minutes.

He noted that, contrary to popular belief, burglaries usually occur in the afternoon, not at night. He warned that thieves usually head for bedrooms first to search for jewelry and money, but the living room and kitchen, where television sets, video tape recorders and microwave ovens are kept, also are popular targets.

PARK PLACE, the newest apartment complex in Northville Township, has recently opened on Eight Mile, two miles west of I-275.

Park Place of Northville has one and two bedroom apartments with rents beginning at \$535. Each apartment has a fully-equipped kitchen, including a built-in microwave ovens; washer and dryers; private entrances and carports. The apartments were built by Mark Jacobson Associates, Inc.

DOUGLAS A. McCABE, local representative for Mutual of Omaha and United of Omaha, recently completed a course in family investment planning.

The course consisted of a program of home study and a formal two-day seminar which was conducted in Ann Arbor.

McCabe, a New Hudson resident, also is a licensed representative for the Mutual of Omaha Fund Management Company. He is associated with the James T. Borchardt Division Office, the Mutual and United Agency in Ann Arbor.

THE BODY TONER recently opened its doors at 2942 E. Highland Road in the Highland Corners shopping center. The establishment is owned by Sharon L. Walker.

In the picture above, Walker is shown with customer Bernie Lanni.

The Body Toner features seven Suntana tanning tables for muscle strengthening and tanning. There also is a tanning bed, which eliminates burning and maximizes tanning.

Currently, there are no membership fees. Clients can pay on a single-session or multiple-session basis. The Body Toner also offers a complimentary session for first-time users.

Walker, a Hartland Township resident for 11 years, is employed as a title examiner with First Metropolitan Title in Howell.

Store hours are Monday through Friday from 7 a.m. to 9 p.m. and Saturday from 9 a.m. to 3 p.m.

Book helps employers fight drug abuse

Michigan employers who are concerned about tackling the controversial issue of drug testing in the workplace are finding the help they need in a recently published book dealing with substance abuse in the workplace.

The first book of its kind written specifically for Michigan employers, "Combating Alcohol and Drugs in the Michigan Workplace," is a 168-page guide published by the Michigan State Chamber of Commerce and written by Gary Klotz, a Michigan attorney specializing in employment law.

State Chamber President James Barrett pointed out that personnel practices and the issues surrounding alcohol and drug abuse in the Michigan workplace are changing rapidly. He said new legislative proposals and court interpretations appear each year, posing a challenge for employers who are considering establishing new drug-related policies, re-examining old ones or instituting a drug-testing program.

"What Michigan employers need is a practical way to do something about drugs hurting them most, the ones being abused in their workplaces."

— Gary Klotz

"More than one year ago, the state Chamber's board of directors recognized there was a need to address the problem of substance abuse in the workplace," Barrett said.

"In the summer of 1986, the board approved a policy supporting efforts to protect the right of job providers to test employees and job applicants for illegal drug use. This action by our board provides guidance and direction in our on-going efforts to have positive impact on business-related issues important to the job providers of Michigan."

He noted that the state Chamber's 86-member board meets quarterly to establish policy on major economic, legislative and political issues that

have an effect on Michigan's business and economic development.

According to Barrett, this handbook for Michigan employers is designed to guide their approach to drug testing, when to test, how to test, and what to do with positive test results. He said the book also addresses the legal and employment relations consideration applicable to work rules about substance abuse, disciplinary measures and investigative alternatives to drug testing.

Klotz, who is a member of the law firm of Keywell and Rosenfield in Troy, is a frequent speaker/writer on the subject of employment law. He

New Hudson auto parts store sets open house

Continued from 1

dealers in Plymouth, Farmington, Union Lake and Hamburg, the Champions said their store fills a void in an area stretching west to Brighton, north to Milford and east to Novi.

With business on the rise, the future looks bright for Jim and Lynda Champion. Even so, they have not allowed their expansion to make them complacent. Recently, the Champions remodeled the store's interior, which included new lighting and painting work.

Inside, customers will find a tidy, well-run operation and two well-trained sales assistants to help with customer service.

The company conducts business on two floors, one measuring 3,500 square feet and the other 1,000 square feet. Champion Parts Inc. employs five persons, but has access to several area NAPA representatives

through a phone network.

"The future would like to direct our efforts toward the expansion of our machine shop. Presently, we have a break lathe for turning break drums and motors. Maybe sometime down the road, we'd like to get involved with full service and repair," said Jim.

The store will be holding an open house for the community on Friday, Sept. 18, from 8 a.m. to 6 p.m. and again on Saturday, Sept. 19, from 8 a.m. to 4 p.m. Jim said the open house is a good opportunity for do-it-yourself car and truck repair enthusiasts to obtain some useful information from NAPA representatives, who will be on hand to answer questions and make demonstrations.

"We just want to let the community know we're here. Everyone is welcome. Even novices would find it interesting," said Jim.

the NOVI NEWS

BAR

Julie Stockdale is not the typical girl next door. But she did not set out to be one in 1983 when she began what would turn out to be a successful body building career.

Five years later, after one failed marriage and many months of dieting, weight training and self discipline, Julie Stockdale says she has never felt better.

Stockdale, 30, is a tailor at Lapham's men's clothing store in downtown Northville, a career move she made after having manufactured her own custom-made activewear clothing. You might say sports had always played a part in her life.

In junior high school she was active playing baseball and training horses. That was the beginning.

"I actually never was a wimp," she said. Today, her waist measures 23 inches. Her thighs measure 23 inches (each). Her biceps measure 14 inches and her calves 14 1/2 inches. Expanded, her chest measures 41 inches.

Although she said she is not a power lifter, and admits she could probably lift heavier weights, Stockdale admits that she bench presses 185 pounds, and that she lifts 315 pounds during her leg squatting exercises.

"Most people ask me how I got started," Stockdale said. "When I was a kid I really liked Arnold Schwarzenegger's body. I was really impressed with the way he was built. At the same time, I nothing about women body builders.

"I heard there was a gym in Brighton (where women worked out). I was living in South Lyon at the time. I started going to that gym, and they asked what I wanted to do and I said I wanted to be a body builder. So they kind of set me up on a program. From then on, I learned a lot about it. I read magazines and every piece of material I could get on it, and found out a lot about my own body, and did what worked for me," Stockdale said.

It was about this time that she said she began growing independently of her husband, which eventually would result in the end of their marriage.

"My husband had a hard time accepting it, and we ended up getting a divorce," she said.

"(Body building) really did not cost me my marriage. It just kind of enabled me to see things more for the way they really were, and I realized I had to do some things for myself at that point. (Body building) made me more independent at that point in my life."

Back then, she said she trained three days a week. Today that routine takes six days, for at least two hours each day. Even longer before competition. She said she exercises her

Q: What's your favorite pizza topping?

4 said: Pepperoni

2 said: Mushrooms

2 said: Green pepper

2 said: Ham

Random Sample is an unscientific poll of 10 Northville/Novi area residents conducted by the staff of this newspaper

Eight tips for what's 'in' for this fall

What's new and now on the retail scene, as seen by Alan Teitel, forecaster of fashion trends in the making. The following items head up the "in" list.

1. SCUNCI — A new twist on the headband story, a must-have, loopy new elastic band in a variety of sizes and covered with oodles of fabric choices — silk, cotton, lace, plain or multicolored. Twist 'em round a pony tail for the haughty model look, wrap around the head, wrist or ankle to individualize sporty or dressy gear. Originally an avant-garde French import, now affordably priced in the \$2 to \$5 range so the trendies can own them by the dozen.

2. "SPUDS MACKENZIE" — Coming on like a masked avenger on the good side of humor and happy times: the Bud Light dog. He's given a whole new cachet to the plain face. His funny TV commercials shown in Florida and California have spawned a huge side business in T-shirts and buttons. Expect to (bow)wow Michigan

What's new and now on the retail scene, as seen by Alan Teitel, forecaster of fashion trends in the making. The following items head up the "in" list.

with equal vigor.

3. BOWLING — Will gentrification never cease? Now it has impinged on bowling, once the province of beer bellies and dingy alleys. Old prejudices are falling like nine-pins — suddenly it's an up-market yuppie pursuit. They're sending the craze around the country, making a tidy fortune for businesses catering to the bowling trade.

4. HUMIDIFIERS — No longer a luxury and not just for people with breathing problems. Already standard equipment in Vail and Aspen hotel rooms and about to be so anywhere guest comfort is carefully considered. Home use is often 24

hours a day, although the highest use is at night.

5. BLACK AND BROWN — Dark and moody colors, evocative of mystery and intrigue. You'll see them sulky and seductive or correct and conservative. Shapes will lose their sausage-wrapper tightness of past seasons and become more a sense of silhouette, hinting rather than revealing.

6. MEN'S COSMETICS AND ACCESSORIES — Gentlemen, place your bets. Cologne is outselling aftershave 3:1. The odds are excellent that Vitamin E and wrinkle creams, along with astringents for the face, will race neck and neck in popularity. And talking of necks;

part of the acceptable new male vanity is more accessories — tie and collar bars are hot. So are braces and suspenders, silk pocket squares and over-the-calf hosiery. Natural fabrics, all-cotton shirts, 100 percent wool suits are selling well, and men like the snap of alligator or crocodile leather.

7. TENNIS BRACELETS — Remember when a tennis bracelet was terry toweling to absorb sweat? Forget it; now it's been redefined in diamonds set in yellow gold and worn on the same hand as the watch. Costume jewelers, those great copycat artists, have made them affordable. Plus, yellow gold is more casual and can be worn in the afternoon. So the look will take center court, center stage any minute now.

8. FALSE EYELASHES — Definitely out for at least 10 years and supposedly dealt a death blow by the terry excesses of Tammy Faye Bakker, the eyelash is about to come fluttering back into favor. Long lashes can be long on eye appeal, as a whole generation is about to discover.

Parks and Rec slates adult volleyball leagues

By JEANNE CLARKE
special writer

The Novi Parks and Recreation Department will sponsor adult volleyball leagues again this year for anyone interested in playing.

Organizational meetings for the volleyball leagues will be held at Parks and Recreation offices on Wednesday, Sept. 16. The men's league will meet at 6:30 p.m., the women's league will meet at 7:30 p.m. and the co-ed league will meet at 8:30 p.m. More information about the leagues is available by calling 349-1976.

Parks and Rec also will sponsor a variety of bowling leagues this fall. A Saturday Youth Bowling League begins Sept. 19 and PeeWee Bumper Bowl begins Sept. 23. Also available are an "Every Other Weekend Couples League" and an Adult Youth League.

The annual Punt, Pass and Kick competition will be held at the Novi High School football field on Saturday, Sept. 19, at 10 a.m. Call 349-1976 to register or for more information.

"Art at the Oaks," the city's annual arts and crafts fair, will be held at the West Oaks I shopping center this Saturday and Sunday, Sept. 12-13. Fair hours are Saturday from 10 a.m. to 6 p.m. and Sunday from noon to 5 p.m.

The fair will have more than 60 exhibitors and is co-sponsored by Novi Parks and Recreation, Novi Community Education and Novi Youth Assistance. Admission is free.

Anyone wishing to lose weight is invited to join the Novi Parks and Recreation Nibblers Society (NPNRS). Members have lost a total of 80 pounds since the society was started recently. The program can be started any time. Annual dues of \$3 include a "Nutritious Nibbler" manual, weigh-ins, monthly support meetings, prizes and incentives. The group will hold a potluck dinner on Sept. 20 at 6:30 p.m. More information about the society is available from Kathy Crawford at 349-1976.

Registration deadline for Fitness Factory and Gymnastics by Dynamics classes is this Friday, Sept. 11, at 5 p.m. Both classes begin Sept. 14. Call 349-1976 to register or for more information.

Novi Highlights

VOICE: VOICE, the parent-teacher organization at Village Oaks Elementary School, is making plans for a "Meet and Greet" Night when teachers will be available to meet parents and talk about their children's education.

Volunteers are needed to serve as room mothers and library helpers and to assist on field trips and other projects at the school. Sign-up sheets for volunteers will be available at the "Meet and Greet" Night.

The next family roller skating party will be held at the Bonaventure on Wednesday, Oct. 14. VOICE also is making arrangements for students to see the Detroit Youth Theater presentation of "Magic over the Rainbow" at Novi High School.

The next VOICE meeting will be held at Village Oaks School on Oct. 12. Officers are Ruth Bones, president; Anita Yost, vice president; Pat Kearney, secretary; and Barb Bandermann, treasurer.

PARKS & REC SENIORS: There's a busy slate of activities for senior citizens from September through the Novi Parks and Recreation Department.

"Luncheon in the Park" will be held at Lakeshore Park at noon today (Thursday). Tickets cost \$2 and the menu includes fruit, salads and burgers. The event also will include bunco and bingo games.

A fall fashion show and tea for seniors will be held at the OLLISA Center in the Faith Community Presbyterian Church on Sept. 29 at 1 p.m. Tickets are \$1, and reservations can be made by calling Jan McAlpine at 349-3780. Fashions will be provided by Main Street, and there also will be refreshments and door prizes.

Tickets are still available for a Sept. 19 trip to the Michigan Renaissance Festival. Call Parks and Rec at 349-1976 for information or ticket reservations.

Coming up are a two-day trip to Amersyde Acres and a three-day trip to Cincinnati. More information about

all senior citizen activities is available from Kathy Crawford at 349-1976.

SPIRIT OF CHRIST: The Spirit of Christ Lutheran Church will hold a car wash at the church at 40780 West Ten Mile this Saturday, Sept. 12, from 2-5 p.m. to raise funds for the church building fund.

Following the car wash, members of the church will meet at 6 p.m. for a corn roast.

The church is in the midst of a building program to add space for programs and activities. The addition will create a larger narthex and kitchen as well as a multi-purpose room and additional storage space.

The youth choir led by Elaine Dixon and the adult choir led by Wilma Borvold have resumed rehearsals. Confirmation classes will begin Monday, Sept. 14 at 5:30 p.m. for students in the seventh and eighth grades.

The church will resume its regular schedule of services this Sunday, Sept. 13, with services at 8:30 and 10:45 a.m. Sunday school classes meet from 9:30 to 10:15 a.m.

More information about Spirit of Christ may call Pastor Tom Scherger at 477-6296.

PERSONALS: Mr. and Mrs. Frazer Staman celebrated their 55th wedding anniversary with friends and family on Sept. 3. Mrs. Staman has been a Novi resident since 1912. The Stamans were wed in the home of her father, Matt Moeren, at the corner of Grand River and Novi Road.

Mr. and Mrs. Bill Brown have returned from a two-week trip to the south where they visited their two sons, Duane Brown and Betty Officer and Class John Brown. They also visited Mrs. Brown's parents, Mr. and Mrs. Ed Sizemore of Kentucky, before returning home.

Maud Berger-Lamarque of Tours, France, was a guest at the home of Ray and Sarah Zwart in the Cedar Springs subdivision. She was head chaperone for a group of French

students visiting Michigan through the NACEL Cultural Exchange Program this summer.

Anna-Karin Risberg of Sweden will be an exchange student at Novi High School this year. She will live with the Tom and Giana Amati family during the year before returning home next June. The Amatis already have taken their new exchange student to see the University of Michigan campus in Ann Arbor as well as rollerskating at the Bonaventure in Farmington Hills.

Rev. and Mrs. Terry Domstad and their daughter Joy have completed a six-week trip through the south where they visited various churches to speak about their work as missionaries in Thailand. The Domstads are on furlough from their missionary work. Rev. Domstad will return to Thailand shortly to make plans for the family's return to the country in January.

Mr. and Mrs. Philip Jerome celebrated their 21st wedding anniversary with dinner at Chez Raphael's last Saturday. The Jeromes were wed Sept. 3, 1966.

BEREAVEMENT: Michael M. Meyer will lead a series of bereavement classes at the Providence/Novi Center, beginning Friday, Sept. 18, at 7:30 p.m. A local resident, Meyer is a former Minister of Education at Holy Family Church and the bereavement counselor at the O'Brien Chapel of the Ted C. Sullivan Funeral Home. He also is a member of the Novi school board.

The Novi Ministers Association has indicated there's a need for bereavement classes in Novi. The classes are designed for people who have suffered the death of a loved one and need assistance in dealing with their grief through counseling and talking with others in similar circumstances.

NOVI PWP: The Novi/Northville chapter of Parents Without Partners (PWP) will hold an orientation meeting on Sept. 15 for everyone interested in joining the organization. More information about the meeting time and place is available by calling 624-5540.

The Novi/Northville chapter recently won awards for a 38 percent increase in membership and for

making programs available to members who work during the evening and are unable to attend regular meetings.

PWP offers programs for single parents. There are children's programs, family programs and adult-only programs. The local chapter holds regular meetings twice a month as well as the special programs throughout the month.

Children's and family activities during September include a family birthday party at O'Sheehan's, a family picnic, a trip to a Tiger ball game and a trip to the Detroit Art Institute.

Adult activities include a trip to the Montreux Jazz Festival and lunch at Armando's in Farmington. There's a co-ed volleyball game at Novi Woods Elementary School every Monday night.

Topics to be explored in special discussion groups this month include "How to develop an open mind," "Dealing with parenthood" and "Dealing with life a day at a time." More information about PWP activities is available by calling 624-5540.

Novi Highlights is written by Jeanne Clarke. Clubs and organizations may have information published by calling her at 624-0172. Individuals with news about births, birthdays, anniversaries, vacations or other special occasions for the "Personals" section may call her at the same number.

AMERICAN LEGION: Novi American Legion Post has started a building fund to construct a new post home under the direction of Commander Arlin Krueger. Jerry Bertrand, Earl Bailey and Norm Schollett have been appointed to the

Fund-raising/Building Fund Committee which has set a goal of raising \$25,000.

Ken Bell, Roger Olson and Norm Schollett have been appointed to the Membership Committee. The goal is to increase membership to 126 members. Veterans interested in information about membership may call Bell at 476-5894 or Schollett at 477-5756. Dues are \$22 per year and members receive the national magazine, state newspaper, Veterans Rights Protection and other benefits.

The Novi Post will host a Service Officers School this month at the post home on Grand River. Ed Ruslow of the American Legion Headquarters in Detroit will lead the school which will have participants from posts in Livonia, Redford, Plymouth, Northville and Roseville.

Roger Olson and Norm Schollett have been appointed assistant post service officers. Veterans who have difficulties regarding their rights as veterans may contact them for assistance.

Youth Symphony begins 30th season

LIVONIA — The Livonia Youth Symphony Society (LYSS) will begin its 30th season on Saturday, Sept. 19, when more than 150 young musicians from 35 communities in Southeast Michigan assemble at Churchill High School in Livonia for their first rehearsal.

The LYSS features three orchestras — a Chamber Orchestra conducted by Atilia Farkas, a Strings Orchestra conducted by Yves Cohen and a Concert Orchestra conducted by Sara Garrett, who is in her first season with LYSS. She has a masters degree in music education from the University of Oregon and has taught strings since 1970.

Concerts for the 1987-88 season includes appearances at Pease Auditorium on Feb. 21 and Orchestra Hall on May 15. There are openings for interested young musicians in all three orchestras. Auditions will be held at Faith Lutheran Church in Livonia on Monday, Sept. 14, from 5-9 p.m. Call 455-1487 or 349-1894 to schedule an audition.

It's so easy to go to Windsor
And so much fun!

Just get in your car and head for the tunnel to Canada. And as soon as you're there, you're in Windsor! If you don't have a car, take your yacht—because there's lots of places to take a boat on the other side.

If you like sidewalk cafes, tree-lined boulevards and a lively bustling city, you'll like Windsor. It's great for lunch, dinner, with places like TBO's Other Place and the Hilton Park Terrace. You can walk anywhere you want to downtown, then get in your car and go shopping or sightseeing.

Enjoy shopping and enjoy saving, when your money's worth much more. At Devonshire Mall, you shop where Canadians shop—at 150 stores just 10 minutes from downtown Windsor. Save on housewares, clothing, jewelry, gifts, cameras and sporting goods.

Go for a drive along the river. You'll find 16 miles of riverfront where the best view of Detroit is from Windsor. Think of all the things you'll find along the way—wheely street fairs, lower parks, and little harbors full of fishing boats. You won't find a waterfront like it anywhere else in the country.

There's another country just a mile away from Detroit. And another city: Windsor. A blend of European charm, friendly people and plenty to see and do. It can be just the change of scene you need, and it's only minutes away.

Let's go to Windsor!

Michael Meyer and Sandra Lopatowski will lead the bereavement group at the Providence Center

Bereavement group scheduled

A new group has been formed in Novi to help those who have suffered the death of someone close to find support and understanding.

The self-help support group is a collaborative effort of area clergy, the O'Brien Chapel of the Ted C. Sullivan Funeral Home and Providence Hospital. The group plans to meet at Providence, 3500 West Ten Mile, just off Haggerty Road, on the third Friday of each month.

The first meeting is scheduled for Friday, Sept. 18, at 7:30 p.m. in Providence/Novi's community education room. Meetings are also scheduled for Oct. 6, Nov. 20 and Dec. 18 at 7:30 p.m. in the waiting room of the hospital's internal medicine office. The meetings are each expected to last until about 9 p.m.

Dr. Michael Meyer, the bereavement

Meyer: 'The impression sometimes in our fast-paced world . . . (is) that we have to 'hurry up' through grief. There are people who want to take time and tell their story over and over. You have to work at grief.'

member of the Novi Board of Education. Meyer said that each meeting of the new group will include opportunities for insight and sharing of one's journey through grief, as well as prayerful reflective moments.

"The impression sometimes in our fast-paced world . . . (is) that we have to 'hurry up' through grief," Meyer said. He explained that the support group may help people "adjust their stride" so that a person works through the stages of grief at a comfortable pace.

"There are people who want to take time and tell their story over and over," Meyer said. "You have to work at grief."

Fashion show set at Meadowbrook

"Images for All Seasons" a luncheon fashion show sponsored by the Northville Jaycees and Area Merchants from Northville and Twelve Oaks Mall, will be presented at the Meadowbrook Country Club this Saturday, Sept. 12.

The event will begin with cocktails from 11 to 11:30 a.m. followed by an update on nutrition at 11:40 a.m., a history of color at 11:50 a.m., lunch and door prizes at noon and the fashion show at 1 p.m. A drawing will follow at 2 p.m.

"This is a new concept in fashion shows," said Laura Davidson, who will be doing color arrangements. "Every model will represent his or her 'color season' from head to toe, including hair color, makeup, nail polish, clothing and shoe fashions."

Margo Kramer, owner of Northville House of Styles, and her employees will be doing all the hair styles and manicures. Lynne Belanger and Davidson will do color determinations and "compatible makeovers."

Northville Jewelers is supplying fine gold jewelry. All silk creations will be donated by Four Seasons and be available for purchase.

COTS will benefit from open house

An open house to raise funds and donations of toys for the Coalition on Temporary Shelter (COTS) will be held at the Village Oaks Clubhouse today (Thursday, Sept. 10).

The clubhouse is located at 22859 Brookforest near Nine Mile and Meadowbrook Road.

The open house in the Village Oaks clubhouse is part of a network of open houses being held throughout the Metro Detroit Area by Discovery Toys to benefit COTS and the increasing number of homeless children being housed at the emergency shelter, 8 and 10.

Area consultants sponsoring the open house in Novi are Pat Breaux, Dawn Frank, Donna Protar and Lane Norton.

In announcing the benefit open houses, Jeanne Sarnack, educational consultant for Discovery Toys, said all sales commissions earned will be donated to COTS.

"We are also urging toy buyers to purchase additional toys that will be sent directly to COTS for use by homeless children at the shelter," she added.

More information about the open house in Novi is available by calling 348-6636, 348-0269 or 349-2467.

Discovery Toys is a nationwide sales organization specializing in non-violent, educational toys, book and games primarily imported from Europe and sold exclusively through home demonstrations and fundraisers by independent consultants.

Seamstress tailors body shape

Continued from 1

body parts in groups — one day her chest and triceps, the next day her legs and biceps, and another for her back and shoulders.

Looking at her, muscled and solid, one may think she is invincible. But Stockdale knows better, and she is not afraid to let you know what such a physique has cost her, physically.

"I take my body just what the average person would accept," she said. "I live with pain everyday" because of intensive training.

Dedication is what Stockdale's sport demands.

When not preparing for competition, Stockdale said she eats whatever she wants to eat. But when readying for competition, when every bite counts and every weight lifted means that much more, Stockdale's exercise routine becomes obsessive and her diet

makes eating scarce.

"Normally, during the off-season I eat pretty much what I want," she said. "I do not eat junk food everyday, but I don't cut anything out of my life. If I want a pizza, or something, I eat it."

"But right before a contest, my basic everyday meal is egg whites, oat meal, rice cakes, chicken breasts and fish."

Immediately before competition, Stockdale said it is crucial to control her water weight. She said she drinks absolutely no liquids two days before competition, with boiled rice being her only source of liquid.

Biking becomes always an important part of her routine, but because of the nature of the competition, Stockdale said she cannot simply ride a bike like everyone else.

"I use a stationary bike because it is too dangerous for me to ride on the road," she said. "I mean, if I fall and scrape or bruise something before a

People

KRIS MAISONVILLE is shown writing a computer program during the Computer Programming/FORTRAN exploration which is a feature of Michigan Technological University's Summer Youth Program.

Maisenville, the daughter of Rick and Lynn Maisenville, was among 1,200 junior and senior high school students attending the 15th annual Summer Youth Program at Michigan Tech. She attends Novi High School where she is president of the German Club and a member of the symphony and marching bands.

Each student has the opportunity to participate in one of the 47 week-long explorations. Program design focuses on career exploration and development of new skills through laboratory, classroom and field experiences. Each exploration is directed by a Michigan Tech faculty member or a specialist in that area of study.

KATHY LYNN HAWN of Novi has been awarded an academic scholarship by Northwood Institute where she will begin studies in September. A 1987 Novi High School graduate, she is the daughter of James and Shirley Hawn.

Northwood's academic scholarships are based on demonstrated excellent academic and extracurricular performance. They are renewable if the student maintains the required grade point average.

KAREN ENSOR of Sycamore Drive in Novi has been selected by Eastern Michigan University to receive a 1987 Recognition of Excellence Award.

Winners of the \$1,000 scholarships must have earned a 3.5 grade point average in high school or community college and demonstrated outstanding leadership ability.

BETH HENDRIKS of Montmorency in Novi recently attended the American Youth Foundation's National Leadership Conference.

Founded in 1924, the American Youth Foundation is an independent, non-profit, non-sectarian leadership organization dedicated to assisting young people in life planning, leadership training and balanced four-fold living — mental, physical, social and religious.

CHERYL ANN SHANKEL of Philip Drive in Novi has earned a Bachelor of Arts degree from Western Michigan University. She is a Novi High School graduate.

Garden vegetables ready for harvest

Garden vegetables are ready for picking early this year, thanks to some tricks played on us by Mother Nature.

"Practically everything is ripe now," said Lois Thieleke, a home economist with the Oakland County Cooperative Extension Service.

"The whole harvest season has been moved up slightly because of the early spring and hot weather but it depends when you planted."

Many people were optimistic, feeling there would be no frost after April 1 and they were correct, Thieleke said.

"Many had their gardens in by the first of May or earlier and that is unusual," she said. "The normal time is the middle of May or later."

Horticulturist Vera Sullivan of the Wayne County Cooperative Extension Service said we are seeing harvests two to three weeks ahead of the normal schedule.

Corn was ready for picking in mid-July and isn't normally ready until August, Sullivan said.

"There will be time for a second planting for cool season crops like

Sullivan: 'There will be time for a second planting for cool season crops like lettuce, peas, cauliflower, spinach and cabbage.'

lettuce, peas, cauliflower, spinach and cabbage," Sullivan said.

And whether you are picking the early vegetables right out of your garden or stopping at the roadside stand, Thieleke said the best way to eat them is raw and fresh.

"The best thing in the world is to wash it off and eat it raw," she said. "That is when the nutrients are there in full power. When you cook or refrigerate, you will get some nutrient loss."

Thieleke said one good way to make use of the raw produce is to make a poppourt and marinate it in Italian salad dressing. It can be used as a snack, for dinner or for a cocktail party. It will keep in the refrigerator for a few days but not for

relishes with a yogurt or sour cream dip. Snow pea pods do well with dips or in stir-fry or in salads, she said.

For something different with sweet corn, which most people boil, she recommends soaking the ears, husk and all, in cold water and then putting them on the grill for 30 minutes. Let the husks cook a little before you handle them, she said.

Although Sullivan said some vegetables like peppers and tomatoes stop their production in very hot weather, as soon as the weather cools, ripening begins again.

The American Institute for Cancer Research recommends tomatoes as a great source of vitamin C and A, both of which have been associated in research with lowered cancer risk.

Vine-ripening is best because the more direct sunlight a tomato gets during its growth period, the more vitamin C it will contain. Picking tomatoes to ripen on the window sill will not improve vitamin content. The Institute says they will lose vitamins if not stored in a cool place, preferably with the stem end down.

NOTICE TO BIDDERS

The City of Northville, Michigan will receive bids up to 2:00 PM, September 21, 1987 for two (2) new 1988 police four door sedan cars. Specifications may be picked up at the Northville Police Department, 215 W. Main Street, Northville, Michigan 48167. The City Council reserves the right to accept or reject any or all bids. Address bids to Northville City Clerk, 215 W. Main Street, Northville, Michigan 48167 in a sealed envelope bearing the inscription:

BIDS FOR NEW POLICE CAR

At the close of bids, the bids will be opened in public. A decision on the bids will be made by the Northville City Council on September 21, 1987.

Wildcats roll past Western for 33-8 win

By NEIL GEOGHEGAN
staff writer

There was no looking ahead for Coach John Osborne's Wildcat football squad.

With the Kensington Valley Conference showdown against Brighton coming up (at Novi) this Friday, the Novi football machine crushed Valed Lake Western 33-8 last Friday (Sept. 4) at the Tom Evans Athletic Field.

The Wildcats' decisive season-opening victory kept the momentum going despite a nine-month layoff from last season's fine 8-1 campaign.

Novi looked particularly sharp in the first half of the non-conference triumph, outscoring the stunned Warriors 27-8. The second half was mop-up time for the most part, as Osborne emptied his bench and found playing time for nearly 70 Wildcats.

"It was certainly a good way to open the season," said Osborne, who is entering his 20th season at the helm of the Novi football program. "I thought we played the kind of game we are capable of playing."

The 'Cats opened the game with a flurry, just as they did a year ago against Western. In '86, it was a 96-yard touchdown run by Randy Parker on the opening kickoff — this time it was a fumble recovery deep inside the Western zone on the kickoff by Stacy Mareh. With the early break, Novi needed just five plays to cover the final 27 yards of the score — a one-yard plunge by junior tailback Scott Wladishkin. The Mike McGuffin point-after made it 7-0.

On its first possession, Western drove from the 27 to the Novi 24, thanks to some nifty running by senior Mike Hall — a four year starter. But after Hall ran a draw play for a key first down, he left the field with an undisclosed injury and never returned. Bad luck turned worse for the Warriors on the next play as quarterback Greg Hysell was intercepted in the left flat by senior Neil Garry, who raced 76 yards for the T.D. The extra-point attempt failed to make the score 13-0.

Late in the first quarter, the Novi offense put together a nice drive behind new signal-caller Brian Schram. The drive began on the Novi 26 and ended nine plays later with Wladishkin's second touchdown run. Wladishkin started on a sweep from the eight yard line, but reversed his field when the play didn't develop and outran the rest of the Western defense. Schram ran the ball into the end zone for the two-point conversion, and the 'Cats were in control 21-0 before the first quarter was over.

Wladishkin stopped the Warriors' next drive with an interception at the Novi 15, but the Wildcat drive

stalled after a first down. On the punt attempt, the Novi snip sailed over McGuffin's head, and only an alert play by Wladishkin avoided immediate disaster. The junior recovered the ball in his own end zone and ran it out to the 10 where Western took over on downs. Two plays later, Hysell connected with fullback Dave Julien for the touchdown from eight yards out. The two-point conversion, a pass intercepted by Steve Bonner, made it 21-8.

The momentum appeared to take another sharp turn when the Warriors recovered the ball on an on-side kickoff attempt at the 50 yard line. But the Novi defense, led by the two-point conversion, made Keir, held tight and forced a punt.

Novi took over on its own 20-yard line and proceeded to piece together its second long drive of the half. Wladishkin notched his third score of the game on an 18-yard touchdown pass from Schram to cap the 80-yard march, and the first half ended with a 27-8 Wildcat lead.

Things began to stagnate for both teams in the second half. A rash of penalties and temper flare-ups turned a dynamic game into a comedy of errors. At one point in the third quarter, a third-one play for the Novi offense became third-and-45 as the 'Cats were penalized 45 yards in one play.

In the fourth quarter, Osborne began to make wholesale substitutions. With Ken Hendrian subbing for Schram, Novi put together its final scoring drive, hitting paydirt on a 32-yard run from Hendrian to George Arnold.

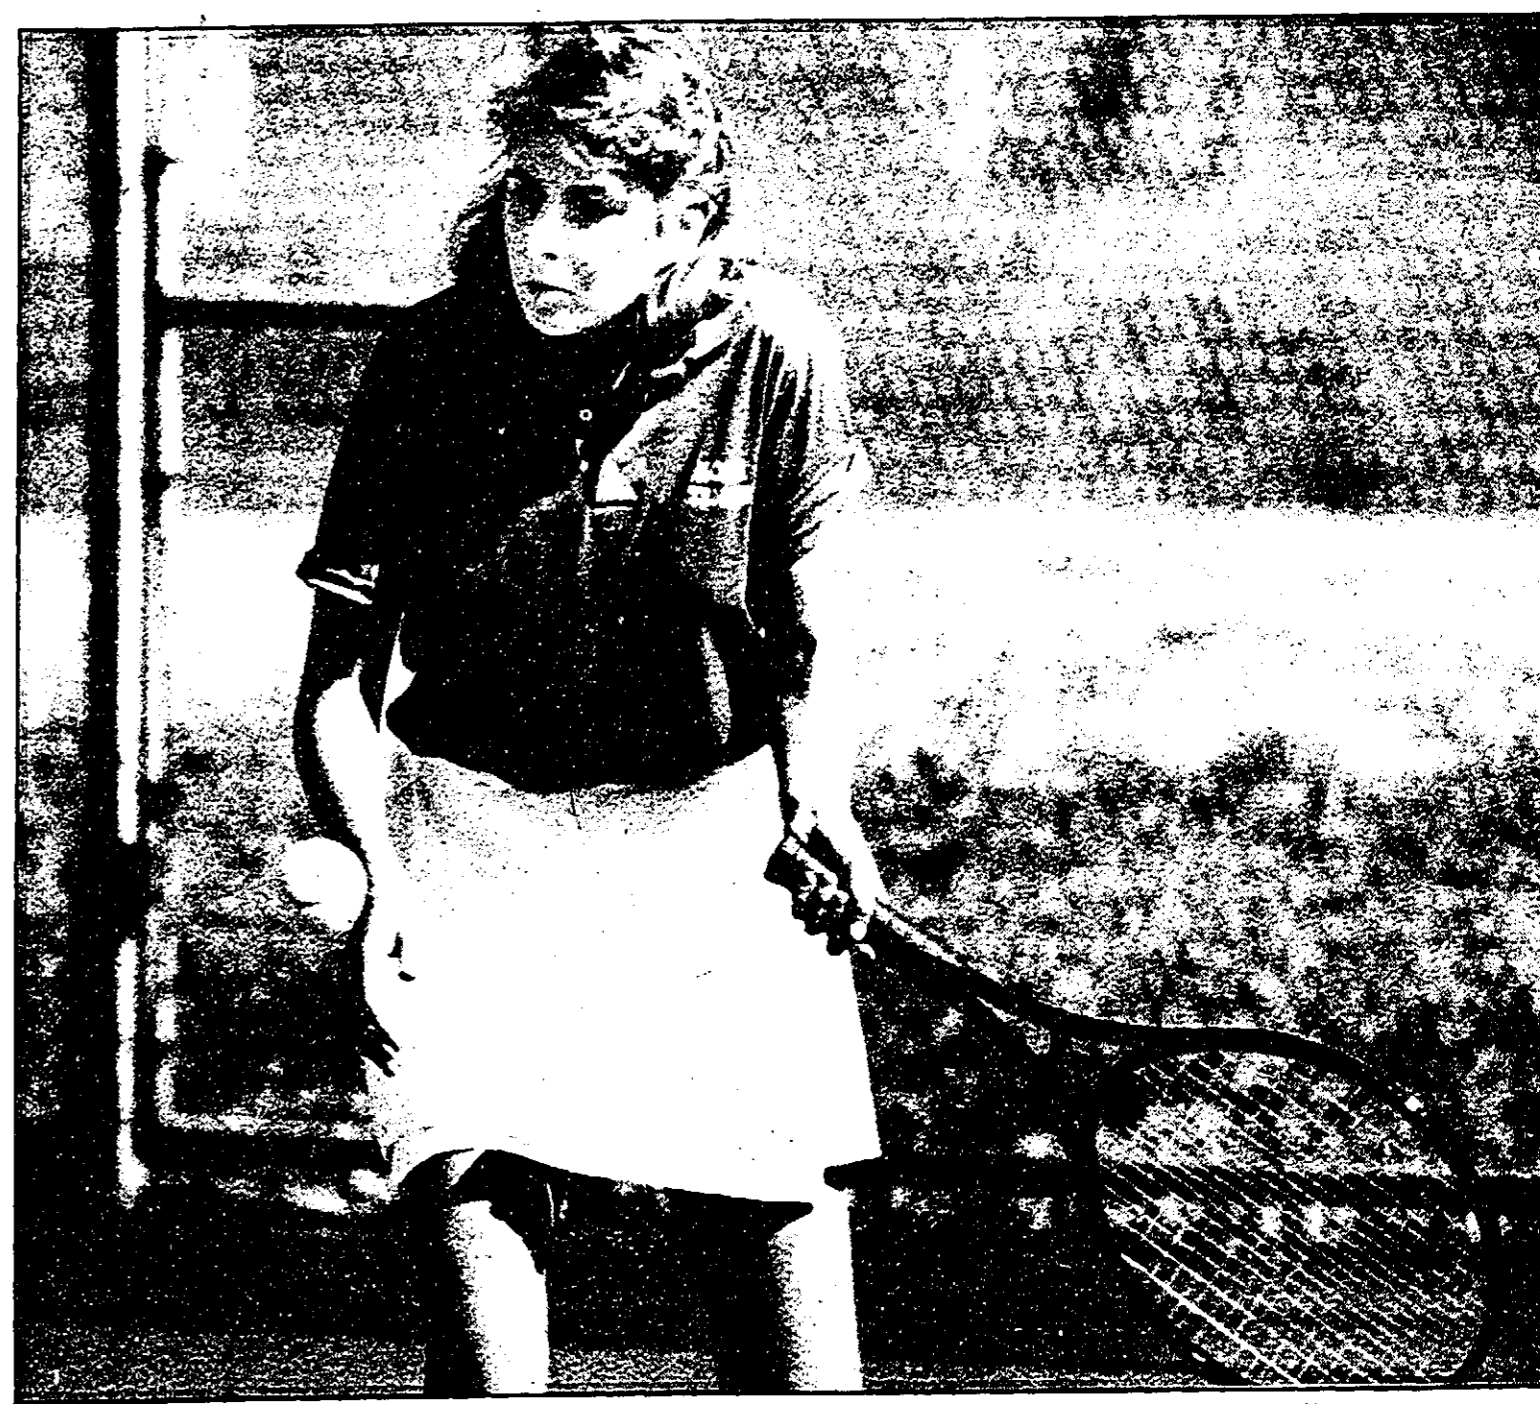

As for Schram, his numbers weren't outstanding, but he was effective nonetheless. The 6-foot-6 senior was 4-of-9 for 61 yards in the passing department, gained 11 yards in two carries and ran the Novi option very capably.

"Brian is just a great athlete," Osborne said. "Our option game worked nicely, and he did a nice overall job of directing the offense."

Wladishkin gained 100 yards on 18 attempts, despite the fact that he was credited with a 16-yard loss on the botched punt attempt. He also added three touchdowns and a pass interception.

Defensively, end Dave Skovos paced Novi with three solo stops and seven assists. Cornerback Jason Korte added nine solos, and lineman Matt Brinker received high marks from Osborne both offensively and defensively.

The Warriors were severely hampered with the loss of Hall, but Novi was also without one of its top offensive threats — wide receiver Randy Parker. The senior speedster missed the game with a groin pull, but is expected to be back tomorrow (Sept. 11) for the showdown at Brighton.

Novi's Kathy Bealor strokes a forehand en route to victory over Brighton

Novi News/CHRIS BOYD

Netters taking aim at KVC title

By NEIL GEOGHEGAN
staff writer

The Novi girls tennis squad, under coach Jim Hanson, has captured the Kensington Valley Conference crown two years in a row. It is a dynasty in the making?

"Not really," said Hanson. But the Wildcats do have a solid program. And Novi is expected to contend for the title again this year in what promises to be another wild race.

In the past two seasons the 'Cats have featured a fundamentally sound group of players, a relaxed attitude to the game that can be very frustrating at times, and a little luck. Those elements combined for a pair of conference championships, and Hanson is preparing his team for another run.

"I think we have the make-up of a team that can be very competitive, but you don't win championships on paper — you win them on the court," Hanson said. "I think we have as good a chance as anybody to win the KVC again this year."

Novi lost four starters to graduation, but return four regulars and a couple of part-time starters. The general consensus is that the battle for the KVC crown should be very intense with Brighton and Milford joining Novi as the co-favorites.

"If I had to pick a favorite, I'd say

Hanson: 'I think we have the make-up of a team that can be very competitive, but you don't win championships on paper — you win them on the court.'

Brighton or us, but Milford will be right up there too," Hanson said. "Howell should have a very good team, too, but I understand they aren't eligible for the title because of their millage situation. I feel sorry for their coach."

Hanson's top singles player will probably be senior Judy Piotrowski, who played second singles last year and is entering her fourth year on the varsity. She is closely pursued by junior Sandy Bragg, who teamed with Michele Benoit in '86 to grab the KVC championship at first doubles.

"Sandy, by far, has improved the most of any girl in our program since last year," Hanson said. "She's worked hard on her game and it shows. Judy has also improved

and right now they are fairly even. I think it's a good, healthy situation."

The third single player will probably be junior Kathy Bealor, a regular at fourth singles in '86. Her old spot will be handled by junior Melissa Cooper, the top player to move up from the junior varsity.

"Historically, doubles has been our strength, but I'm expecting singles to be our strong point," Hanson said. "I'm not giving up on our doubles, but they haven't been tested. This is one of the best singles groups I've had in four years here at Novi."

The top doubles team features seniors Kim Dasher and Lisa Kramer. Dasher teamed with Lisa

Latham a year ago to win the KVC title at second doubles, while Kramer was a part-time doubles player. Senior Renee Lindow and junior newcomer Pam Butler will probably form the second doubles tandem, while candidates at third doubles include senior Katie Hansen and sophomore Rita Kang. Hansen was on the team as a sophomore but skipped last season; Kang is up from the J.V. level.

Also vying for playing time will be juniors Dana Tooper, Pam Hsu, Christina Ingmire, Rachel Soszynski and Tracy Farnone and sophomore Cherrie Brown.

"The competition is extremely close at the bottom part of our lineup," Hanson reported. "All these players could be up on the varsity by the end of the season. I'm especially pleased with this junior class."

Hanson knows that as two-time KVC champs, the other teams will look to Novi as the one to beat. The 'Cats have depth but it is unproven, and the question mark is quality, not quantity.

"If we play the way we are capable, we will be O.K.," he said. "I have confidence in this team. It's tough to repeat so we just have to go out, have fun and play the best we can. We need to continue to cut down on the mental mistakes — tennis is a mental game."

McCarthy to spark Novi five

By NEIL GEOGHEGAN
staff writer

In a surprise move, longtime Novi girls' basketball mentor Bill Ayotte decided to step down from his coaching post, thus handing the reigns over to junior varsity coach Debbie Harris.

Harris inherits one of the most prolific scorers in Novi history, a couple of top-notch players from her J.V. team a year ago, and a couple of part-time starters from Ayotte's 13-6 club of 1986.

Gone are second leading scorer Sandy Maloney and three letterwinners who were expected back, but never made it — starting center Kelli Mountford, starting forward Tammy Onofrey and reserve Jennifer Nameth. Mountford and Nameth decided to forego their senior seasons in order to work, while Onofrey is running for Norm Norgren's cross-country team to better prepare for next spring's track season.

Lisa McCarthy heads up the Novi cage squad

Wildcats off to strong start with two straight victories

The more things change, the more they stay the same — especially for the Novi girls' tennis program.

Coach Jim Hanson already has a pair of Kensington Valley Conference titles (1985 and 1986) securely tucked away. And if the first week of the '87 campaign is any indication, a third one may not be too far away. The Wildcats opened the season by trouncing Walled Lake Western 7-0 on Sept. 1, and then followed it up with a convincing 4-1 triumph on Sept. 3 over a Brighton team that many expected to contend for the KVC crown.

Even Hanson had to admit the match with Western was a blowout. All seven matches were straight set wins, and most sets weren't very close.

Perhaps the best match of the day came at first singles where senior Judy Piotrowski held on to edge Kelly Leahy, 6-3, 6-4. At second singles, Sandy Bragg clobbered Vanessa Hoffman (6-0, 6-0). Kathy Bealor did the same to Kristen Anthony at third singles (6-0, 6-2), and Melissa Cooper had no problems at No. 4 with Amy Taylor (6-0, 6-3).

At first doubles, Kim Dasher and Lisa Kramer crushed Amy Hodson and Bernice Hoffman (6-1, 6-0), and the third team of Katie Hansen and Rita Kang bombed Backy Kanch and Lana Combs (6-2, 6-0). The second doubles match was a little more competitive, but the same results: Renee Lindow and Pam Butler were on the winning end of a 6-1, 6-4 match against Tiffany Wackery and Heather McHugh.

"We played the doubles at a different site so I didn't see it first hand, but it looks like they did a nice job,"

Hanson reported. "By far, our singles are the strength of our team, but you most often win with the doubles."

The Brighton match was similar in score but not in competition. Yes, Novi won six of seven, but almost every match was very close. Three of the matches went to three sets, but the Wildcats ended up winning all three.

"The score isn't indicative of the Brighton match," said Hanson. "We felt fortunate to win. It was very close, and we just seemed to pull out a lot of the close ones — that has to do with experience. I'm very happy with the way we played. . . we held tough and never quit fighting."

Piotrowski slipped past Lisa Cratty in a three-set marathon (7-5, 3-6, 6-3) at No. 1, but Bragg cruised to a 6-1, 6-2 victory at No. 2 over Stephanie Donahue. Bealor fought her way out of trouble at No. 3 and eventually wore down Sarah Holmes (3-6, 6-1, 7-5), while Cooper handled Henrietta Burr (6-1, 6-2).

At first doubles, Dasher and Kramer defeated L.eanne Fu and Carrie Rohrsheb (6-1, 6-1), and the Hansen/Kang tandem pulled out a 6-4, 6-4 victory at third doubles against Mary Burke and Brenda Hartman.

"It was a very good win for us," Hanson said. "I thought Bealor played an outstanding match, and our number one doubles team looked very strong."

The Wildcats next big test came last Tuesday (Sept. 8, after The News' deadline) against Milford, another KVC contender.

Continued on 6

Harris new coach for Ladycats

Continued from 5

"When you look at our losses — three starters are gone — it tells me that it's going to take time for us to find quality replacements," Harris said. "Losing Kelli is probably going to hurt us the most because of her size and rebounding."

When you talk Novi girls' basketball, you have to talk senior Lisa McCarthy. The little 5-foot-2 guard led the area in scoring a year ago with an 18.1 average and will have to carry the bulk of the offensive load again this season. In '86, McCarthy scored 42 percent of Novi's total points.

"Lisa is a great scorer and good defender because she hustles," Harris said. "She runs the show for us. As long as we can keep her under control, we're in good shape. Sometimes she tries to do too much or gets mad at herself, but it's only because she is such a competitor."

Harris is hoping some of the scoring load will be handled by 5-5 guard Nicki Casten, a junior who was the top player for Harris on the junior

Harris: 'When you look at our losses — three starters are gone — it tells me that it's going to take time for us to find quality replacements.'

varsity last year. Casten features a smooth shot that can be deadly, especially from the baseline.

"We think Nicki can help Lisa out in the scoring department," Harris pointed out. "Right now, she has the ability, all she needs is the confidence. She plays very similar to the way Onofrey plays so we are hoping she can fill that gap."

Slated for starting duty up front is senior forward Brenda Thal, who has good size (5-10) and some experience. In '86, Thal was an off-and-

on starter during the season, but really came into her own at the latter part of last year.

"Brenda has a lot of raw talent and natural ability — we just need to fine-tune it a bit," Harris said. "She will help us a lot on the boards."

Senior forward/center Kim Appleton (5-9) will probably start opposite Thal. Harris, who also received plenty of action in '86, is described as a smart player and good defender. Harris calls her "a stabilizer on the court."

At center, Harris has a pair of candidates and both may see extended playing time throughout the season. Junior Kathy McQueen (5-10) was a letterwinner last season, but is being pushed hard by fellow junior Chris Yankowski (5-9).

"Kathy has some really nice offensive moves and Chris has nice hands," Harris said. "We'll probably use both."

Also slated for duty is swingplayer Laura Case and guard Darcy Cupp. Case, a 5-5 senior returnee, is an aggressive player who always seems to make things happen. She has good basketball sense, according to Harris, and is a good rebounder for her size. Cupp, a 5-5 junior, is the heir apparent to the point guard position after McCarthy's departure. Harris says she is a good ballhandler who still needs work on her shot.

"I think realistically, we could be for third place in the KVC," Harris predicted. "We'll have trouble with South Lyon and we're hoping to split with Milford."

Wildcats of the Week

STACEY MILAM

SCOTT WLADISCHKIN

There wasn't much to cheer about at Novi's 18-41 girls' cross-country loss to Brighton last week, but the running performance of Stacy Milam deserves at least some mention. In past years at this time of year, Milam would be swimming for the Wildcats, but she decided to give cross-country a shot for her senior year. Coach Norm Norgren was glad to have her. Against Brighton, Milam finished her first-ever race in a fine time of 21:48, good for sixth overall and second among her Novi teammates. It was an effort worthy of "Wildcat of the Week" honors.

Novi's 33-8 football victory over Walled Lake Western couldn't have been a much better debut for tailback Scott Wladischkin. It was the first starting assignment in the offensive backfield for the junior speedster, and he made the most of the opportunity. Wladischkin scored three touchdowns in the game, and added a key interception on defense to stop a Warrior drive deep in Novi territory. Definitely "Wildcat of the Week" criterion. For the game, Wladischkin rushed for 100 yards on 18 attempts, and the total included a 16-yard loss after he recovered a blocked punt.

McCarthy's 31 points thwart Raiders

Not much has changed for the Novi girls' basketball squad since 1986.

Three starters are gone and the squad sports a new coach but the Wildcat team still revolves around senior scoring-machine Lisa McCarthy.

In the team's season opener on Sept. 3, McCarthy almost single handedly outscored the entire North Farmington team, leading Novi to a 34-38 road triumph.

"The girls played very aggressively and very hard, and that is very good to see," first-year coach Debbie Harris reported. "It was real nice."

The Novi press worked very well in the early going and after one quarter, the Wildcat lead was

already 19-6. North Farmington made some adjustments and the press wasn't as effective in the second quarter, but it was still paying big dividends. The Raiders trailed 29-20 at halftime.

North Farmington actually narrowed the gap to five points midway through the third quarter, but McCarthy went on another scoring blitz. The margin ballooned to 46-28 heading into the last quarter and the game was over.

Brenda Thal led the way on the boards with 10 rebounds, and Laura Case chipped in six assists.

"McCarthy looked really good, but it was good team effort," Harris said.

ran an effective fast break, and generally caused havoc for the Raiders all evening. McCarthy ended with a game-high 31 points (no it's not a career high), and got plenty of help from her teammates who helped the senior point guard score 10 of her 14 field goals on fast break layups.

"Of our press and in transition, we scored a lot of easy baskets," Harris reported. "We had tons of steals and fast break baskets. Lisa scored a lot, but it was her teammates, a lot of the time, that made it happen defensively."

The Novi press worked very well in the early going and after one quarter, the Wildcat lead was

Mike Ducker helped Novi come close to Brighton

Novi runners come close, but can't leash Bulldogs

Every year, it seems like Brighton mops up Novi in boys' cross-country — every year, that is, except this year.

The much-improved Wildcat harriers gave the Bulldogs everything they could handle before reluctantly giving up a 23-34 decision on Sept. 3 at Bishop Lake. It was as close as Novi's been to Brighton in a long time, and Coach Bob Smith liked what he saw from his runners.

"It was a very close meet," Smith said. "Brighton has always killed us, but we stayed close to them this time and almost had a chance to beat them. It was a real sea-saw affair — back and forth."

Number one Novi runner Rob Rasmussen stayed with the Bulldogs' top performer but was edged out for first place at the finish line. Rasmussen's time of 17:09 was only two seconds behind the winner.

"If we were running on our home course at Cass Ben-

ton, I honestly believe Rob would have won it," Smith said.

The battle for the third spot was also extremely close, and again, the Novi runner was edged out. Junior Bret Van Dyke finished fourth in a time of 18:01, just one second behind the third-place finisher from Brighton.

The next Novi runner was Mike Ducker, who came in seventh overall in a time of 18:22. He was followed by freshman Rob Herman (10th in 18:54) and sophomore Lee McMains (11th in 18:55).

"Of our top five runners, only one — Mike Ducker — is a senior," Smith said. "It looks good for the future, but I think our future is now — I thought we could have won it."

"I think the Brighton coach was generally concerned, although he probably would never admit it. Our one-through-five pack time is 1:45, which is still way too high, so we are going to work on that."

Novi's next KVC meet will be on Sept. 15 in Milford.

Rec Briefs

Punt, Pass and Kick: The third annual Punt, Pass and Kick competition in Novi is scheduled for Sept. 19 at 10 a.m. at the Novi High School football field. Registration for the event will start at 9:30 a.m.

Interested football enthusiasts from 8 to 15 years old as of Nov. 1 are eligible to compete. Winners from each age group will advance to the Regional Meet in Southfield on Oct. 24. Regional winners will then compete at the State Finals which will be held at the Pontiac Silverdome during halftime of the Lions/Cowboys game on Nov. 19.

Pepsi-Hotshot Contest: The Pepsi Challenge/NBA Hotshot Contest will be held at the Novi High School gymnasium on Oct. 3 at 10 a.m. Pre-registration starts at 9:30 a.m.

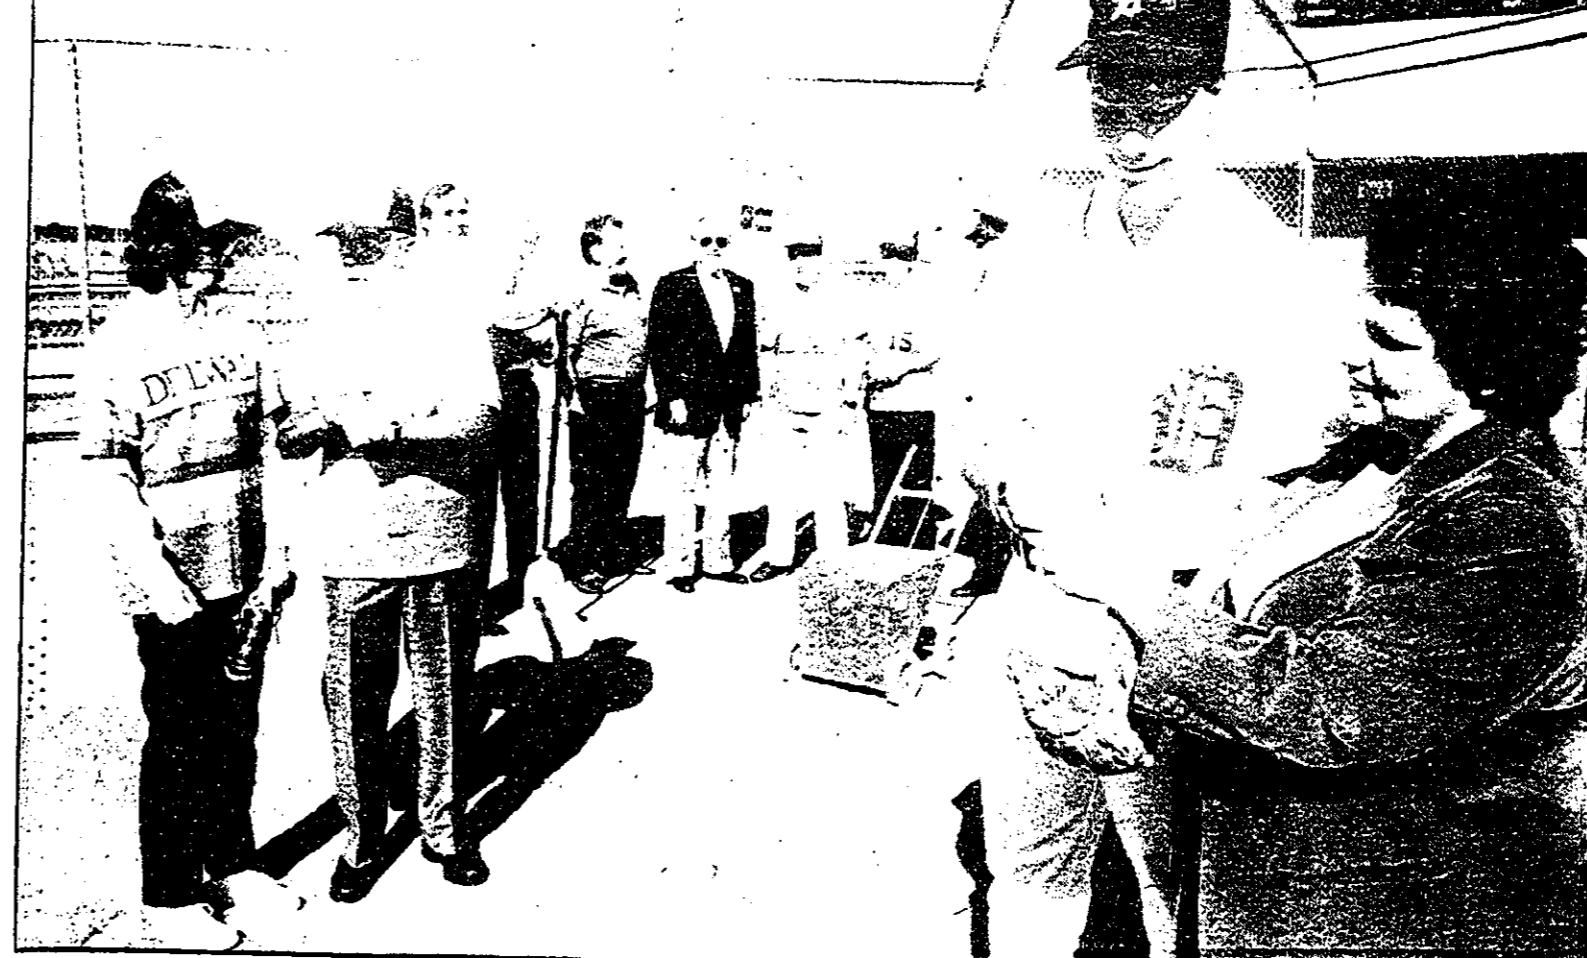

Boys and girls from 9-18 years of age are invited to participate. Local winners advance to area playoffs which will be held at Wayne State University. There will be a \$1 registration fee per contestant.

An aerobics-plus fitness class will be offered by the Walled Lake Community Education Department at Walled Lake Elementary school every Monday and Wednesday from 7-8 p.m. The class begins Sept. 14 and runs to Dec. 2.

The class will be taught by Theresa Wingfield, an IDEA certified instructor. The class will include muscle strengthening, flexibility and aerobic conditioning with emphasis on altering body composition. Call 624-6022 for more information or registration.

Karate classes for kids are being offered at Schoolcraft College. The eight-week course is designed for 6-12 year olds interested in learning self-defense techniques. Instruction will assist children in the improvement of self-discipline, confidence and good physical fitness.

The course begins Sept. 21 and there's a \$32 enrollment fee. For more information call Schoolcraft College at 591-6400, extension 410.

The families of the slain Inkster police officers will benefit from the proceeds of a special softball game at Power Park this Sunday. In the foreground, former Tiger hurler Larry Pashnick shows Delwal Corporation co-owner Christine Walker how to throw a split-finger fastball, while (right) Novi Mayor Patricia Karevich discusses pre-

game strategy with the other co-owner of Delwal Corporation, William Walker. Showing support in the background are Harvey Larson, Dan Davis, Dan Tyrell, Dave Haren, Bob Gatt, Art Lenaghan and Tom Linberg.

Game benefits Inkster officers

A charity softball game to benefit the families of the slain Inkster police officers will be held at Novi's Power Park this Sunday, Sept. 13, at 2 p.m.

The event is co-sponsored by the Novi Parks and Recreation Department and Delwal Corporation.

Former Detroit Tiger players, representing the Novi/Delwal team composition of city officials and members of the Novi Police and Fire departments, Novi Parks and Recreation department, and others.

In addition to benefitting the families of the slain

Inkster police officers, proceeds will go to the University of Michigan Burn Center. A minimum goal of \$5,000 has been set by the planning committee.

The committee includes Novi Mayor Patricia Karevich, City Manager Edward Kriewall, Police Chief Lee Begole, Fire Chief Art Lenaghan, Parks and Recreation Director Dan Davis, Mr. and Mrs. William Walker and former Tiger pitcher Larry Pashnick, current treasurer of the Tiger Alumni Association.

The former Tigers have agreed to sign autographs after the game. Hot dogs, pop and other snacks will be available. Pre-game ceremonies will include the release of 1,000 helium-filled balloons.

A warm-up softball game at noon will feature a battle between the Novi Old Timer's senior citizen baseball team and members of the Novi City Council and assorted city officials. Admission is \$1 per person, and tickets can be purchased in advance at the Novi Parks and Recreation Department or at the Novi Police and Fire departments. For more information call 349-1976.

Farmington too deep for Novi golfers

The Novi golf squad employed a very consistent, balanced attack against Farmington in a dual meet Sept. 3, but didn't get the top-notch scores needed to beat a good team like the Falcons.

The Wildcats eventually went on to win Glen Golf Course.

"We had some very steady scores against Farmington but we didn't have the great scores from the top of our line-up like I would have liked," Novi Coach John Peace said. "We were consistent but we weren't really close to Farmington 160-165 in the low."

Senior Bruce Vallimont paced the

win Glen Golf Course.

"We had some very steady scores against Farmington but we didn't have the great scores from the top of our line-up like I would have liked," Novi Coach John Peace said. "We were consistent but we weren't really close to Farmington 160-165 in the low."

Senior Bruce Vallimont paced the

Bulldogs run past Wildcat harriers

Norm Norgren, coach of the Novi girls cross-country team, didn't give his Wildcats much of a chance against Brighton in a dual meet on Sept. 3 at Bishop Park.

And he was right. The powerful Bulldog contingent captured the top three places en route to an easy 18-41 win over Novi.

"It went about as I had expected," Norgren said. "We had only five girls total running in the meet, so that made it all very difficult."

The big bright spot for Norgren was the performance of senior Stacy Milam, who is running on the cross-country team for the first time this fall after having competed in swimming in previous years. Running in her first varsity cross-country meet ever, Milam clocked in at 21:48, a very respectable time for a first race. It was enough for sixth overall and second on the Novi team.

The top Novi finisher was sophomore Jennie Galland, who placed fourth overall in a time of 21:29, a mark Norgren called "a wonderful, good time for Jennie."

In third place for the 'Cats was freshman Cherie Stewart (23:30), followed by seniors Kelli Rolles (23:20) and Jeanette DeLazarar (25:26). Rolles, normally Novi's number two runner, is still plagued by nagging injuries.

Norgren: 'Brighton is running healthy, and I'm at the opposite end of the spectrum.'

"I wasn't disappointed with Kelli's time," Norgren said. "She's been running stiff all year, and we are now trying desperately to get her back to her old self. I'm sure it will just be a matter of time."

"Overall, we were hurt by numbers. Brighton is running healthy, and I'm at the opposite end of the spectrum."

Norgren had nine days from the Brighton meet until his team gets back into action at the Walled Lake Invitational this Saturday to try and rectify the injury situation.

"We really need this week or heal," he said.

Parks & Rec tells tennis champions

The 1987 Novi Parks and Recreation Adult Tennis League is over. The top three finishers in each division are as follows:

Soccer coach looking forward to '87 campaign

By NEIL GEOGHEGAN
staff writer

Every fall, Novi soccer Coach Nick Valenti talks about building, molding and solidifying his program. But it's not all talk — it's what's happening.

The Wildcat soccer program may lag behind others in the area, but Valenti is narrowing the gap each season. The outlook for the '87 campaign is probably as bright as it's ever been in Novi, but Valenti isn't settling for just being respectable. He views the current year as another opportunity to build and build some more.

"We have nowhere to go but up, and our best years are ahead of us," asserted the Wildcat soccer coach. "But right now, I'm very pleased. Most of our players are returning

Valenti: 'We have nowhere to go but up, and our best years are ahead of us. But right now, I'm very pleased. Most of our players are returning and, at least on paper, we are experienced.'

and, at least on paper, we are experienced. We have only four newcomers to the varsity and two were on the J.V. last year."

The 'Cats have experienced starters back in every area — these same players were very important in last year's 5-6 season. It was the most

wins ever for a Novi soccer team and the chance for a winning mark in '87 is quite good.

The Wildcats will be counting on senior Matt Abate to pace the defensive unit, and Valenti is very confident in that particular area. Abate, entering his fourth year on the varsity,

is the team's most intelligent defender and is a key anchor along the back row.

Another returning defensive starter will be senior Tom Smith. He will be joined by junior Trey Neubauer, a transfer student with experience. Also vying for action on defense will be senior Tom Gilbert, a spot starter in '86, senior Carlos Alavarez and junior Chris McClellan, up from the junior varsity ranks.

The goaltending duties will be handled again this season by Donnie Hare, who was a regular as a sophomore in '86. Valenti has been very impressed with Hare's pre-season work and is expecting a stellar season from the Novi backstop.

"Donnie Hare is our goaltender this year and we expect good things

from him," he said. "He's an incredibly gifted athlete — probably one of the best goaltenders Novi's ever had. He's a real gamer and a committed player."

At midfield, the 'Cats feature returning starters like senior Jeff Stanislaw and junior Scott Pfeifer, along with letterwinner Jeff Mielke (junior) and transfer student Todd Wise (junior). Wise, who came to Novi from Indiana, is expected to start.

Up front, Novi boasts a slew of experienced strikers. Perhaps the top goal-scoring threat is super-sophomore Keith Parmley, who led the team in points as a freshman.

"Keith was a key to our offense as a first-year player and he's bigger and smarter this year," Valenti said. Also back are forwards Rich Burke

(senior), Brian Anderson (junior), Jeff Leininger (senior) and sophomore Kelly Justus. Burke, another four-year varsity player, is a definite starter.

"I expect all 16 of our players to see quite a bit of action this season," Valenti said. "I don't think we have anybody on the varsity that can't help us out."

"I have no doubt we'll be a better team than last year. Nobody's a one-position or one-dimensional player so it shows we are developing some depth as far as our players' abilities. There is some versatility there."

For the first time ever, there's is not a single freshman on the Wildcat varsity. It's a good indication the program is making strides toward becoming a more veteran and experienced type of squad.

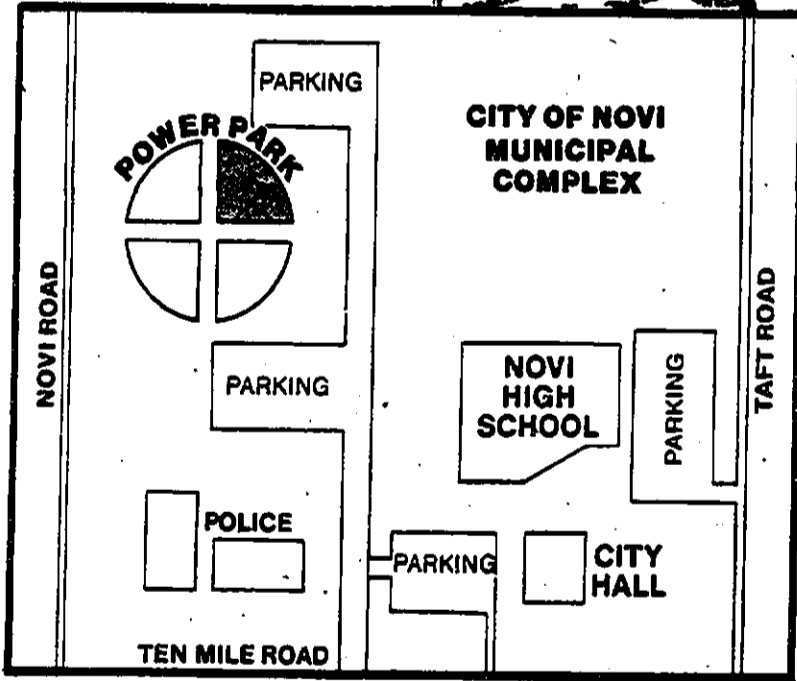

"We're coming to more stable times as a program, but we are still building for the future," Valenti commented. "As long as we can stay healthy, I have no doubt we are capable of doing good things this season."

DETROIT TIGERS Alumni Association vs NOVI-DELWAL TEAM

CHARITY GAME!

A charity softball game sponsored by the City of Novi and Delwal Corporation

**2 P.M.
SUNDAY SEPT. 13
POWER PARK, NOVI**

Rain or Shine!

• 2 PM Sunday, September 13, Rain or Shine!

• Former Detroit Tiger players, representing the Detroit Tiger Alumni Association, face a Novi-Delwal Team including city officials, members of the Novi Police and Fire departments, Novi Parks & Recreation and many, many others.

• All proceeds go to the families of the slain officers of Inkster Police Department, and the University of Michigan Burn Center.

• Admission: \$1 per person. Free parking at Power Park and Novi High School.

• The former Tigers will sign autographs after the game. Hot dogs and refreshments will be available. Pre-game ceremonies will include the release of 1,000 helium-filled balloons.

• Tickets can be purchased in advance at the Department of Parks and Recreation offices at 43315 Sixth Gate, Novi, or at the Novi Police and Fire departments. Call Novi Parks & Recreation at 349-1976 for further information.

Northville grad faces 'red-shirt'

EAST LANSING — Former Northville High School football star Tony Briningstool got his first taste of college football on Labor Day evening (Sept. 7) when Michigan State hosted the University of Southern California in a nationally televised game.

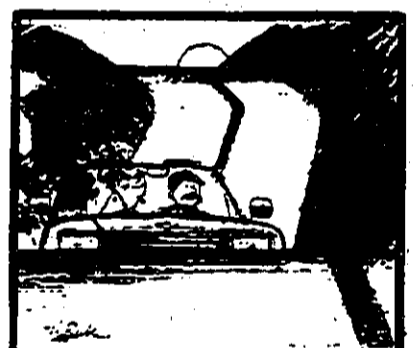

Although the 6-foot-5, 220-pound freshman linebacker didn't play a down for the Spartans, he was dressed and ready to go on the sidelines for Coach George Perles.

Briningstool cheered on his teammates as MSU turned back USC 27-13 in the first night game in Spartan Stadium history.

Briningstool is wearing number 54, the same number worn by former Spartan All-America Carl Banks before going on to stardom with the NFL's New York Giants.

Perles and his staff have moved Briningstool from the inside to an outside linebacker position, but it is unlikely that he will play even a down during the 1987 season. Perles would like to redshirt the Northville graduate and then have him available for four full seasons beginning next year.

Currently Briningstool is rated No. 3 on the depth charts but probably won't see any action unless the Spartans run into serious injury problems in the linebacker ranks.

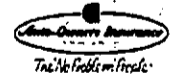

The last thing you need when you're over 55, is a problem paying for your car insurance.

Age has its rewards. Sometimes.

It does with Auto-Owners. They give good drivers age 55 or older a discount. So instead of raising your premiums or reducing your coverage you may pay a little less for your auto insurance.

Auto-Owners respects maturity and a good driving record.

Just ask your "no problem" Auto-Owners agent how he can save you money on your car insurance. When you hear the news, you'll be glad you've got a few years behind you.
