City raises curfew

By PHILIP JEROME managing editor

Did you know there's a curiew in the City of Novi for children under 12 years old?

There is:

Or, more correctly, there was. The Novi City Council toughened up its curiew ordinance by raising the age limit to apply to all minors "under 15 years old" at its Aug. 21

As a result, the curfew ordinance now states that no minor under the age of 15 years shall "loiter, idle or congregate in or on any public grounds, street, highway, public place or buildings between the hours of 10 p.m. and 6 a.m. unless the minor is accompanied by a parent or guardian or where the minor is on an emergency errand or legitimate business directed by his parent or guardian or other adult person having custody of the minor."

Raising the age limit on the curfew ordinance has been ap-plauded by Karen Bartholomew of Novi Youth Assistance and John Zimmer. Juvenile Officer for the Novi Police Department.

A rezoning request that could lead to an expansion of the Fountain Park Apartments on Grand River has been recommended for denial by the Novi Planning Commission.

Specifically, the commission voted 8-0 following a public hearing on Aug. 16 to recommend denial of a request to rezone a .93 acre parcel near the Meadowbrook Glens sub-division from its existing R-A (single-family residential) classification to a RM-1 (multiplefamily residential) designation.

The rezoning request was made by Robert Brody, president of The Brody Group which developed the 265-unit Fountain Park Apart-

The property is located along the east property line of Fountain Park. It is set back approximately 580 feet from Grand River and abuts the Meadowbrook Glens subdivision to the south. The property to the east of the parcel is also zoned R-A and

currently is vacant.
Two residents — Becky Staab and Laura Lorenzo -- expressed opposition to the rezoning during the public hearing. Staab, a Meadowbrook Glens resident, noted that the .93 acre parcel cannot be developed with multiples because of its long, narrow configuration and charged that The Brody Group was seeking the rezoning "as a door" to additional multiple development to the adjacent vacant property to the east.

Two of the biggest names in show business packed them in at Twelve Oaks Mall on Sunday.

And who were these giants of the silver screen?

Why Mickey and Minnie Mouse, of course. The world's most famous mice were in town over the weekend to promote the opening of the new Walt Disney store at Twelve Oaks. The store, which opened Aug. 5, is the 28th in a chain of Disney stores throughout the

And the chance to let their children meet and have their pictures taken with the two Disney stars prompted parents to travel from near and far.

Eberhart said she had no idea of how many people showed up to meet Mickey and Minnie at Twelve Oaks on Sunday. She added, however, that the lines appeared to be longer than they were on Saturday when the famous mice were present to open the Disney store at Fairlane Town Center in Dearborn.

Indeed. The line of parents and youngsters waiting to see Mickey and Minnie stretched half the length of the lower level of the mall. And parents reported waits of anywhere from one to two hours.

Eberhart estimated the average wait at approximate ly one hour and 15 minutes. One of the parents who endured the wait was Tom

Council okays resolution for Haggerty plan

By PHILIP JEROME managing editor

The Novi City Council took another step toward making the proposed Haggerty Road Connector a reality by adopting a resolution of "independent utility" at its Aug. 23

The decision was far from unanimous, however, as the council approved the resolution on a 4-3

City Manager Edward Kriewall said approval of the "independent utility" resolution is important to the future of the Haggerty Road Connector which calls for construction of an interchange west of Twelve Mile west of Haggerty Road and a new roadway from Twelve Mile to Pontiac Trail

Project cost has been estimated at \$72 million.

The resolution was requested by officials from the Michigan Department of Transporation (MDOT) at an Aug. 9 meeting of the com-munities directly affected by the Haggerty Road Connector Project and the Oakland County Road Commission, 9.

Although all governmental units impacted by the project have endorsed one of the alternatives for the roadway, several passed resolutions which call for road im-provements in addition to the Haggerty Road Connection

Working in conjunction with a city-appointed citizens group dubbed the "Shoreline Planning Committee," Eldridge developed plans for the project and received site plan approval from the city in Aug. 1987.

Eldridge told commissioners that

work on "The Landing" has not yet started because the city has not been able to provide a clear title to the property and, consequently, he has been unable to secure financing.

The Novi Planning Commission stopped short of approving a request for revised site plan approval of the Burger King at its Aug. 16 meeting, voting instead to table consideration of the matter until obtaining additional information regarding the pro per functioning of the site.
City Planning Consultant Brandon

Rogers said revised preliminary site plan approval was required because of a couple of minor changes in the building footprint.

Specifically, Rogers said the only changes involved the relocation of a transformer across from the drive up window and the proper designa-tion of the size of a cooler unit. The depth of the cooler was indicated as six feet on the original site plan, but it is, in actuality, more than 12 feet deep, impacting the areas designated for customer parking. paratuses in the road right-of-way, the council is now attempting to come to grips with a second aspect of the issue - what to do with basketball hoops located in the front and

side yards of residences. It tends to be something of neighbor-to-neighbor issue. Some residents like to play basketball in their driveways; some neighbors resent the noise and encroachment on

Adding to the controversy is the fact that City Attorney David Fried has submitted a legal opinion that basketball apparatuses are accessory structures and therefore are prohibited by ordinance from being

development process in Novi.

Novi Planning Commissioner Judith Johnson made a valid point recently when she suggested the city should consider criteria for circumstances under which it will extend site plan approvals.

She made the suggestion at the end of the commission's Aug. 16 meeting -- a meeting at which the commission had voted to extend site plan approval for The Landing, the proposed multi-million dollar hotel, conference center, restaurant and marina facility on the shores of Wall-

It was the second time the com mission has granted an extension of site plan approval for The Landing. Plans were initially approved in the summer of 1987. A one-year extension was granted last summer, and the commission granted a four-month extension of the approval last week.

The Landing may be a poor example of the issue which Johnson feels should be addressed. To be fair. it should be noted that the developer Jay Eldridge of Eldridge, Inc. – is not solely responsible for the lack of progress on The Landing.

The Landing is to be developed on property which has been assembled by the city under a unique agreement between the city and a private entity. But the city was not able to provide Eldridge with a clear deed to the property until March of this year because of legal proceedings involved with the condemnation of property And without clear title, it was not possible to secure financing for the development from lending institu-

Still, Johnson noted that there have been several other occasions when the commission granted an extension of site plan approval when the lack of progress could be attributed to nothing other than the developer's inability to get the project under way.

A good example, she suggested, justifiable reason for the delays.

Many of the events we are remembering happened within days of each other in '69. The nation was stunned when Mary Jo Kopechne died in a car driven into Nantucket Sound by Senator Edward Kennedy. But a few days after that, the Manson murders became one of the most notorious crimes in United States history. Yep, I'm the guest Bach jock on "Guess Who's Playing the Classics" with Charles Greenwell, a cascade of knowledge on the subject. But more of Chas, later.

My favorite radio program as a kid was "The Lone Ranger," which used a lot of classical music between acts, not just the linale of Rossini's "William Tell" overture.

"The Lone Ranger" originated 50 years ago in Detroit. The reason I know that is because WQRS played "William Tell" earlier this year on the anniversary. I called Dick Wallace, the mid-day DJ, and suggested one could do a whole program of "Lone Ranger" music. He allowed as to how It was a good idea. Little did I realize I'd get to do the program myself, tonight.

Monday evenings you could hear "The Telephone Hour" with such guest artists as Lauritz Melchior and the legendary violinist Fritz Kreisler. The latter helped turn me into a violin zealot.

Attending Detroit public schools didn't hurt either. Every so often they would pop us on a bus to the Masonic Auditorium to see Valter Poole conduct the Detroit Symphony Orchestra. It turned out to be almost a much fun as when the safety patrol boys got treated to the Shrine Circus.

Pleasant associations

I have to tell you a story about the programming genius of my host, the erudite Charles Greenwell.

A few years ago, Greenwell conducted the Plymouth Symphony for a season. Now for a young people's concert, most conductors, instead of playing two hours with an intermission, will play 75 minutes without intermission. Not Chas.

He programmed a full two hours and 12 minutes, with intermission, of high quality opuses. The kids didn't run up and down the aisle to the restroom. They didn't twitch and fidget or buzz to each other. They didn't slump and doze off. Everyone paid rapt attention to the end.

That was superb programming.

Well, station manager Dave Wagner has approved, with compliments, my list of recordings for this evening. Here's hoping I can do for others what "The Lone Ranger and Valter Poole did for me back in the Pleistocene Era of my youth.

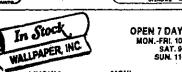

Trivia question: On "The Lone Ranger" radio program, who was trumpet soloist in the "William Tell" overture?

First clue: Since the program originated in Detroit, you can guess which orchestra was employed. Second clue: The musician is still active in the Detroit area, though no with the DSO.

City Council Member Martha Hoyer, a strong supporter of the Hag-gerty Road Connector and a member of the Haggerty Corridor Planning Committee, also urged the council to approve the resolution of "Indepen-

approve the resolution of "maependent utility."
"Basically, we have three choices," said Hoyer. "We can wait two years until the Environmental Protection Agency completes the Environmental Impact Statement (EIS) for extension of a north-south roadway beyond Pontiac Trail and then find ourselves responsible for 7.5 percent of the state's share of the overall project cost.

"We can proceed with the resolu-

tion of 'independent utility.'
"Or we can forget any hopes what-

soever for a north-south roadway. MDOT is not going to shove anything down our throats. They are lots of people begging for the funds that have been allocated to this project, and MDOT will use the monies elsewhere if we can't agree on the

need for this project."

Opposition to the resolution was led by Council Member Joseph Toth, a strong critic of the Haggerty Road Corridor.

Part of Toth's opposition is based on his perception that the Haggerty Road Connector does not meet all the needs for a coordinated north-south traffic system through Novi and Oakland County. Toth renewed that opposition at Monday's session.

Noting that the current Haggerty

Road Connector plans call for con-struction of only half the Twelve Mile/Haggerty Road interchange connecting I-275, I-696 and I-96, Toth said he did not want to proceed with approvals until he sees guarantees that the rest of the interchange will

be constructed

Additionally, he noted that current plans show no improvements whatsoever on Haggerty Road. In the absence of a coordinated program to improve north-south traffic flow. Toth said he could not approve a par-

tial program.
"There are no plans whatsoever in this program to improve Haggerty Road," he said, "so we will have ef-fectively done nothing to improve Haggerty Road."

Two of the affected communities -Commerce Township and Wolverine Lake Village — aiready have approved "independent utility" resolutions for the Haggerty Road Connector. In-itially, those two communities endorsed the project contingent on improvements to other roads.

Kriewall said Monday that the Oakland County Road Commission also is considering a resolution which will recognize the "independent utility" of the Haggerty Road Connector.

To date, Novi residents deposit about 30 cubic yards of paper and 400 pounds of plastic each week, Jadun said. In addition, about 20 cubic yards of glass are dropped in the recycling bins each month.

The glass is crushed to be remade into more glass, and the plastics are ground down to make drainage tiles and other products.

and other products.

But it's the appliances that will undergo the really dramatic transformation after they are hauled from Novi to Detroit by Vito's Salvage Company, which also works with the City of Warren's recycling

program. No money changes hands in the transaction.

Owner Vito Stramaglia said the appliances are shredded and then passed through a conveyor belt where a magnet separates the metals from the insulation, wiring, rubber and plastics. All of the material is then

"when you see a car or a couple of appliances come in here and get chopped up, it makes you think 'I'm glad 1 didn't fall in that hole,' " Stramaglia said. In the past, used appliances were often dumped in landfills.

"The landfills are all filling up. Refrigerators, stoves, the amount of

footage they take up is so great. If you recycle the appliances, you're saving the space," he said.

Sometime this year, a one-day drop-off for toxic household chemicals like paints, solvents and drain cleaners could be scheduled. but no date has been set as yet, said Chuck Kureth, chair of the Novi Environmental Advisory Committee and Planning Commission.

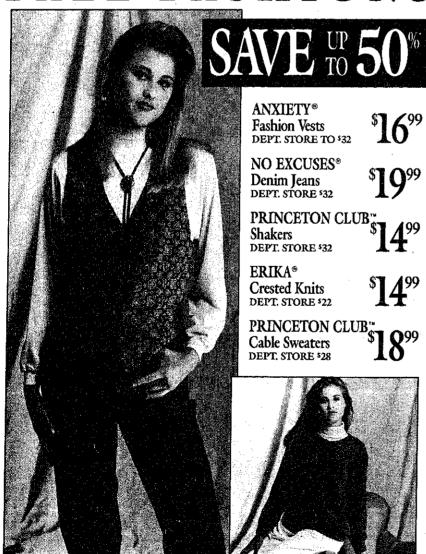

Meanwhite, Jadun cautions par-ticipants in the recycling program who are taking their used motor oil to Sear's Auto Department at Twelve Oaks or at Sovel's Service Center at 41425 Ten Mile Road to limit their deposits to about four quarts per trip. The restriction is necessary to avoid overwhelming the facilities.

General admission seat

You can get 'lawn seating' at Meadow Brook and Pine Knob, but you can't get 'bike rack' seating at either place like you can at Novi's Summer Sounds Concert Series. That's Christine Caskey,

Pet shop owner has grand plans to add services

By JEFF HAWKINS

"Lions and tigers and bears - oh my. Lions and tigers and bears — oh my," sang Dorothy in fear during the 1939 film classic, "Wizard of Oz."

But according to Yvonne Jacques, owner of Sunshine Pet Center in Northville, not all animals are as scary as Dorothy describes. In fact, a lot of as bottony describes. In lact, a lot of the smaller and cuter animals carry a nice potential for profit. "We carry fish, kittens, hamsters and other small animals, small

lizards and parakeets," Jacques

The most popular, according to Jacques, appear to be the fish and

'We sell a lot of fish (like piranha and oscers) that like to eat other fish," Jacques said. "But our main emphasis is on dry goods such as dog food and aquatic set-ups."

The thing that makes Sunshine Pet Center special is that the store buys all its animals locally

Jacques contends that it isn't fair to import animals because it infringes on their rights for safety and

As far as the success of the store, Jacques attributes a confident, knowledgable staff with starting a trend towards giving the public the

kind of service it deserves.
"The Pet Center is serving competitively with a professional staff I think of as trendsetters because they are so knowledgable," she said.

With such a rare commodity on her side and a strong growing clientele, Jacques remarked that her longrange goal is to open a pet center complete with a veterinary clinic, a groom shop, a pet store that sells dry goods and a kennel, so the owners of an animal can go on vacation and leave their pets in complete care of Jacques' special store.

But that's all in the future because her present concern is with the store she already has.

'The Pet Center is serving competitively with a professional staff I think of as trendsetters because they are so knowledgable.'

> Yvonne Jacques. Sunshine Pet Center

"It would be nice if I could eventually branch out," Jacques said, dreaming of the day the possibility could become a reality. "But I don't want to spread myself too thin because this store is still growing.

"What I really want is for this store to reach its full potential."

Jacques has been around the pet store industry for over 13 years and has traveled all over the United States in the process.

"The last job I had took me all over, and I learned a lot about the industry," she said. "When the money became available for me to buy a store, I decided to go for it."

And as Jacques walks down her yellow-brick road to her own special Oz, she realizes that along the way she will encounter a Wicked Witch or "I really don't like customers who

get irate at my staff or myself," Jac-ques said. "I sometimes wonder about people like that."

But for the most part, Jacques has enjoyed her days in the area and contends that it's a fine community which appreciates the job she's do-

Need bigger, better zucchini?

By Patrick Denton

I have a few timely items of interest to share with my gardening friends today.

Zucchini Super Seeds

Gardeners who routinely save seeds from their openpollinated flowers and vegetables often tell me that over the years, by carefully selecting seeds produced by the best individual flowers and vegetables from several of the most healthy, vigorous and productive plants of each kind every year, they have been able to improve the beauty and fruitfulness of their gardens.

A tip especially for seed-saving gardeners is to superpollinate zucchini blooms by brushing the pollen of male flowers onto female flowers. This extra pollination on top of the work done by the bees apparently causes the fruit to form seeds that will grow superyielding plants.

The male flowers are easy to select, as they have longer stems than the females, which bear a bulge (the embryonic fruit) at the bloom base. Simply remove a fresh male flower, pull back its petals and gently rub its center against the center of two or three female blooms.

Try this experiment with open-pollinated varieties only. not with hybrids. And be aware that other squashes within the same species planted nearby will cross-pollinate with a zucchini you want to save seed from. The seed resulting from such a cross will produce a mixed-up plant of varied leaf and fruit shapes.

Other squashes and vining crops that will cross-pollinate with your selected zucchini variety include: acom squash, crookneck and cocozelle, pumpkins, marrows, spaghetti squash, Delicata (sweet potato squash) and scalloped

Herbes de Provence

One of the small covered dishes kept on the counter above our kitchen range is filled with a treasured gift from a graciously aging aunt. It's a packet of Herbes de Provence, a blend that adds delicious savor and aroma to many dishes. We sprinkle it liberally on meat and fish, add it to eggs and potatoes and serve it on salads and hot buttered French bread.

The ingredients in Herbes de Provence can vary, but the main ones are rosemary, sweet marjoram, thyme and tar-ragon. Optional additions are basil and savory, parsley, bay, dill-and chives.

The other day, as I was dashing the fragrant French herb mixture onto some yeal chops, I considered the eventual replacement of this current blend with a homemade

product from the garden. It wouldn't be difficult. The herbs chosen to grow can be selected according to personal taste. All are easy to grow and dry. And small jars and packets of home-grown Herbes de Provence would be delightful little gifts for friends and relatives on special occasions.

Drying Herbs

I aim for a period of dry, sunny weather for gathering herbs to dry. And to be sure the foliage will be clean, I wash the plants thoroughly with jets of water from the hose the day before. Late in the afternoon, after the sun has dried the dew from the plants, is an ideal time for cut-

Herbs can be dried in small bunches of one kind hung upside down in a dry, airy place out of direct sun. I use elastic bands to hold the stems together, as they contract with the drying stems. The branches can also be dried on paper arranged on the floor of a dry and airy room or in a food dryer set at temperatures no hotter than 105 degrees

Label the gathered herbs, for they can sometimes be difficult to identify once dried. When the foliage is crisp and crumbles easily, it is ready to be stripped off the stems store them away from heat and bright light, preferably in glass jars.

Avoid powdering the dried foliage or crushing it finely until it is used, as this will result in some loss of flavor. Avoid also the use of paper bags for storage, as the paper will absorb some of the flavorful oils and reduce the delicious pungency of the herb.

Multiple use decking can expand family's living space

Decks are springing up behind, around sides and in front of homes all through the area.

Whether you construct your own or hire a builder, decks are an addition that will enhance the appearance of

If you want to do it yourself, your local lumber company can help. Not just may you purchase the necessary materials there, but the workers can offer advice, deck plans and, in some cases, will even do the work for you.

But although doing it yourself can mean saving money, the more elaborate your dream deck, the higher the cost: deck materials can run anywhere from \$500 — for a very basic, 10-foot by 12-foot deck, to

One extremely neat feature offered in this area is computer-generated deck plans. The computer-aided design system, called the Design Center, is available at Timberlane Lumber, 42780 10 Mile, in Novi. It's a computer-aided design system that can produce a complete

deck plan, including a materials list and step-by-step directions as well as a computer-drawn picture of what the finished deck will look like, in about 15 minutes.

And it's free. Assistant Manager

Bob Misslitz does note that there is a catch, however. Until the customer decides to purchase the materials, all they get to leave the lumber store with is the picture.
The plans can be customized with

certain options, including how high the homeowner wants the deck, whether it will be attached to the house or free-standing, with or without steps, rails, spindles . . . to

'You come in with an idea of what you want, and we go in, turn on the machine and go to work," Misslitz

This process is relatively new to lumber companies. This machine, experimented with last year, hit the general market this spring.

Since it is such a new procedure, it still has a few inadequacies: it can only deal with square shapes, for ex-

However, come October that flaw will be remedied, Misslitz said, as software becomes available that will work with angles and odd shapes more readily.

Misslitz said that both professional

builders and do-it-yourselfers avail themselves of this service.

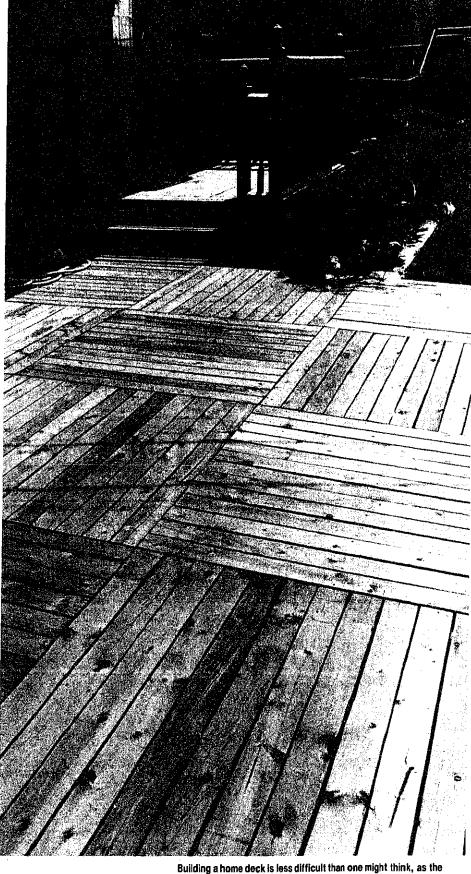

"It's nice for a builder to come in and get this picture to show customers what he'll actually build," he explained. "And it gives the customer an idea of what it will look like, so if he doesn't like it he can change his mind before he buys all the materials and builds the deck.

Misslitz offers this advice for anyone considering building their own deck: it's not a difficult project.

"Anybody who can swing a ham-mer and cut a straight line can do it," he said. "The most important thing is to make sure the posts are squared and level. After that, it all just falls into place.

Building your own deck can save between \$500 and \$1,000 in labor costs over hiring a builder, Misslitz said. However, he added that the bigger and fancier the deck, adding railing,

Snug cottage plan uses every inch

By James McAlexander

The Truman 1 is a snug little cot-tage, with an economy of design that wastes no space inside or out. The Tudor half-timbered theme is continued throughout the arched entry, the domed living room windows and the framing of the garage doors.

Inside, space separation has been maintained despite the small floor plan. A formal entry hall opens left

into the living room. The dining area is not divided off but is visually demarcated by the borders of the bay window in the left wall. The kitchen is traditional and hidden from the eating area. A snack bar looking out on the back deck allows easy serving

The largest proportion of space is given to a master suite and two smaller bedrooms to the right of the entry hall. The master suite is compact, but still includes a private bath,

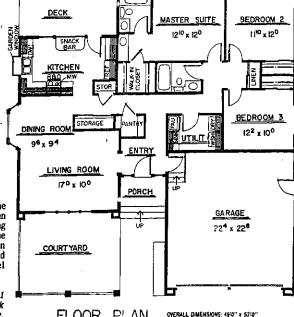

vanity and walk-in closet. A second bath serves the other bedrooms and a separate utility area is located in this part of the house for efficient laundry

handling.
With all this efficiency, what is missing in the Truman 1 is uncommitted space for work or recreation. A couple or small family could use one of the bedrooms as a den. If that wouldn't work, an easy way to add square footage would be to move the living room wall out a few feet and turn it into a living/family room.

Another option would be to frame in the deck and move the kitchen back, creating a new living/dining area where the kitchen is now. The present living room would then become a spacious family room and no one would have to feel claustrophobic on rainy days.

III In the Kitchen

Keep things simple, safe when children cook at home

Think back to your favorite food memories as a child. They probably come from traditional goodies at family gatherings—your grandmother's best cake or your aunt's

Little did we know while growing up that these baked goods were actually our family signatures. Over the past few years, however, families have been recognizing the sentimental, as well as practical, value of recipes and have begun collecting them into family memorabilia

These family heritage cookbooks have been put together as creatively as the recipe's themselves. Many in clude photographs of the recipe's masters. It is a wonderful way to look these people as well as the occasions. When starting your own kids out in the kitchen, these favorite family recipes are a great place to start. For the recipes to receive "family status," they undoubtedly will have

been repeated and prepared time after time, becoming streamlined in the process. These quick-and-easy methods make them the perfect place to start your kids cooking. Also, the kids will know just how the finish-

Good Things Come to Those Who Wait ... and Now the Wait is Over.

AT last it's here—a neighborhood with all the warmth and charm of rolling hills and tall pine trees—Waling Woods. After months of careful planning and design, two beautifully decorated and furnished model homes from Hauser & Baun Custom Home Builders, Inc., are now open and you're invited for a grand tour. Come stroll through our spacious rooms, take in the time-

less beauty and livability of traditional architecture and detailed styling with contemporary comfort that give Waling Woods its distinctive appeal.

Waling Woods is not simply a development of exceptional homes, it's an exceptional small community. When complete, it will include a more than 3 acre park with bike and

jogging paths, creating an environment ideally suited for the At last, the home you've been waiting for has finally arrived—Waling Woods—recapturing a tradition in fine living.

THURSDAY August 24,

Story by Lisa Felicelli

Becoming a published author has little to do with why a person should write for children, 1980 Newberry Award winner Joan Blos told aspiring children's writers at Borders Book Shop in Novi recently.

Shop in Novi recently.

The distinguished children's writer, author of A Gathering of Days, joined Katherine Brown Teacien, associate editor at Harper & Row Junior Books Groups, and Ruta Drummond, who purchases children's books at Book Inventory Systems, for a workshop discussion of what rakes a children's writer successful.

what makes a children's writer successful.
"I've brought along my Newberry Award
just to show you that there is such a thing,"
said Blos, holding up the medal, "but receiving this was the last reason I began writing for children.

Blos explained that she writes to convey and communicate her ideas to young people, not to be famous and win awards

She added that writing for children is not harder or easier than writing for adults; it's just different.

"Is a poem easier to write than a novel because it's shorter?" she asked her listeners. "Any creative activity requires a great amount of time, frustration, effort and en-

amount of time, frustration, eitort and enthusiasm. Creating something out of words is
very strenuous — it shouldn't be undertaken
unless you have something to say."
Her Newberry Award winning book, A
Gathering of Days, endured dozens of rewrites
over a dozen years before it became the
distinguished piece of children's literature that
it is today.

it is today.
"You must say something worthwhile to children, something that rewards them for the attention that they've paid you," Blos said. "As a writer you must always ask yourself, 'How will my words help a child to grow? What will be do with those words?' " he do with those words?

She emphasized that the writer is only the first step in a child's growth through reading.

Teacien, a children's editor at Harper &

Row, said she oversees the production of about 16 books per year — from manuscript to the ac-

tual bound pages in a bookstore.
"Each book is given enormous care, time and consideration," Teacien said. "We receive over 10,000 manuscripts a year and only sign up

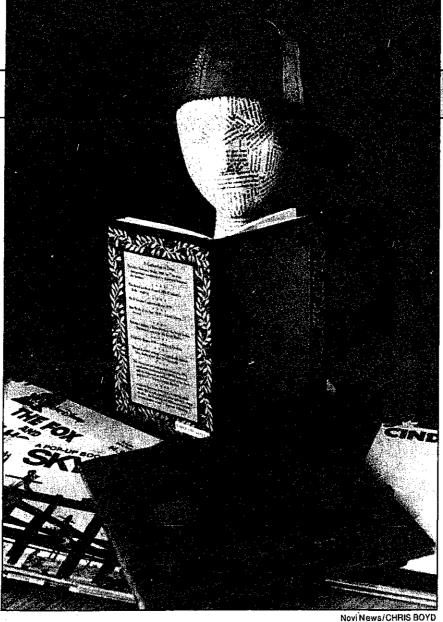

those that contain many positives."

She noted that books which encourage creativity, inspiration, history and sensitivity in addition to teaching values most often make her selection list.

"Of course, published authors receive preference," Teacien added. "But we're eager to work with unpublished authors who show promise as well. It's very refreshing to see their enthusaism and optimism."

Teacien offered a number of suggestions for beginning writers striving to break into the

"First of all, the best books come from the author's heart," she emphasized. "And of course, the manuscript should contain

developed characterization, a strong plot, a

compelling story."

Teacien added that fancy packaging and decorative cover letters don't impress editors who are primarily concerned with finding

who are primarily concerned with initialing quality work.

Secondly, Teacien suggested that novice writers send their manuscripts to a specific editor, rather than just mailing their work off to a publishing house.

"Editors are listed accordingly in the "The Literary Market Place," which contains various aspects of the market in addition to royalties and so forth," she said.

Teacien also recommended that unpublished writers avoid hiring an agent. She explained that an agent is really only beneficial when the author is established and can afford to bicker

about bigger advancements.

"One point that's not commonly known is that illustrators and authors don't normally work together," Teaclen noted. "While authors see the pictures for their text one way, il-lustrators may view it another, and if the author intrudes on the illustrator's creative freedom, a poor illustration is usually the

result."
Illustrations are often what sell a children's

book, Drummond added.
"Fortunately or unfortunately, it's usually the illustrations that determine whether a book will get read or not," she said. "It's a sad fact

Finding a publisher who can match the author with a complementary illustrator — one who demonstrates the same spirit and style of the writer — should be the primary goal after manuscript is completed, Drummond

"illustrations are, of course, the first thing that the prospective reader or buyer sees," she said. "If they don't promote interest, the text rarely gets a chance to."

Drummond emphasized that after an author and illustrator have been established, "folded and gathered sheets" help to sell the book. These are rough drafts of what the actual book will look like after it's published, and they give the buyer a clearer idea of what is being of-

"I can't stress the importance of these sheets enough." Drummond said. "If I don't have at least a preliminary copy of the book, I only have the catalog to look at. And as with clothes, the same product you see in the catalog isn't usually the same product you receive."

All three children's literature professionals emphasized that writers should tailor their stories to specific age groups. These consist of young adult, junior high, chapter books, easy

readers, picture books and board books.

She explained that board books are made of cloth and wood . . . they are meant to be chewed on and played with.

"Let's face it. The text isn't that important,"
Drummond said. "But I do attribute my own child's avid interest in reading to the board books he used to eat as a tiny tot. Apparently, they were delicious.'

The Northville Record and The Novi News

Volunteers

Stabler indexes history

By DOROTHY NASH

If you live in the area, you live here by choice — even if you were born here — and you may want to keep the small-town atmosphere of Northville and Novi. But do you know anything about the people who set the pace and maintained it?

You'll be able to find out as soon as volunteers like Jean Stabler complete a Northville Record indexing project, which is being pro-moted by the Friends of the Northville Public Library.

Using grant money, volunteers have had microfilm tapes made of all existing Record newspapers, dating from issue one in 1869. Then with the use of two micro-copy machines, Stabler said, she and

twenty other volunteers have been taking turns in the last eight months for about an hour a week each, reading through the old papers, jotting down the names of people and places and the dates of issue and type columns in which they appear.

A library employee then feeds them into a computer in alphabetical order so that when the project is completed, Stabler said, "all of the pages on which a particular name is found" will be available.

Also twice in a year in which they are working, she said, "we pick up the ads so as to know what businesses were in town then."

The project is a long way from completion, she said. "I sign in on the book when I come and look to see where the last person stopped. Then when I'm through, I write down my last Record issue date for

the next person to start with."
"It's fascinating work," Stabler commented, "and we could use

more volunteers," she added.

Anyone interested should call the library at 349-3020 and ask to be put in touch with Mernie Hines, project

DRUG ABUSE COUNCIL: Don't be

alarmed if you see red ribbons tied around city structures this fall. At the latest meeting of the Novi Council on Drug Abuse, members made plans for community-wide participation in the national Red Ribbon Campaign, scheduled during the week of Oct. 23-30.

The National Federation of Parents for Drug Free Youth assumed the leadership role in 1988 by sponsoring the first National Red Ribbon Campaign. The red ribbon has become the symbol for reducing the

demand for drugs.
This year the Novi Council on Drug Abuse will sponsor a week-long red ribbon campaign and seek to involve schools, service groups, local government and residents with the ribbon symbolizing "My choice free." The campaign will start Oct. 8, with an invitation to all churches. Congregation members are asked to The group also expects to conduct a

city-wide rally, including special speakers and the release of red helium balloons. Members will contact parents through local parent Novi Council on Drug Abuse also plans to host a special workshop in early November under the leader-

"We've been stuck before and (Novi's) helped us, so we didn't hesitate at all when they needed help," Colligan said. "There is a very open, friendly, relationship between administrators in Novi and here — John (Fundukian) and I get along very well."

As the host city of the National Amateur Baseball Federation (NABF) Sophomore and Junior World Series, Northville always needs an extra field to play numerous consolation bracket games each summer, and Novi is always glad to oblige. These are just a few examples of an understanding that benefits both communities

"It's a nice reciprocal arrangement we would do the same for Northville if they were in a similar situation." Fundukian said. "It's very nice of them to help us out."

Lion cage coach resigns position

John Kearney resigned as South Lyon's boys' basketball coach last week to take a similar position within the Stanton Central Montcalm school

Kearney, 30, will direct both the boys' and girls' programs at Central Montcalm, a Class B school with a rich basketball tradition.

When asked about the decision to leave South Lyon after four years, the coach explained some of his frustrations. He also supported a common belief that South Lyon is not

a basketball school.
"Nothing against football, but it's defintely the main sport at South Lyon," Kearney said. "Basketball is secondary here. I'll have a lot better chance getting the athletes at Mont-

"I'm tough on myself when we lose," he added. "Going 2-19 last year was real hard. Then, to top it off, only six or seven kids wanted to do anything in the summer. That hit me hard. That's when I made up my

mind to look around."

Kearney shopped around conser-vatively, applying for the Rockford job among others. Ironically, last year's Montcalm coach, Steve VanHyde, ended up with the Rockford postion.

"That's how I got the job," Kearney explained. "When I found out VanHyde got the job, I asked where he was from and they told me Montcalm, So I called them.

After tw interviews, Central Montcalm administrators offered Kearney a teaching-coaching posi-tion. Kearney will teach five hours of physical education (three at the middle school) and one hour of history.

"It's a great set-up," Kearney said. "You have two gyms right there, and a community college real close. It's ideal for summer tour-

By NEIL GEOGHEGAN

With a state title in the Pepsi/NBA HotShot basketball competition last winter, Karen Pump has established herself as one of the top shooters in the country among girls age 13-to-15. This summer, Pump went a step

further. As a member of the Michigan Great Lakers — a team in the first annual World Youth Basket-ball Festival in Milwaukee from July 30 through Aug. 7 — Pump proved she's a solid all-around player and team contributor.

'It was lots of fun," she said. "It was pretty much what I expected. All the players were very good especially the Russians.

The festival included 41 teams from 17 countries in four different divisions: boys 19-and-under, girls 19-and-under, boys 16-and-under and girls 16-and-under. The Lakers were

one of eight squads in the 16-and-under girls division that included teams from Wisconsin, England, Ita-ly, Russia and Arlzona.

Pump — at age 14 — was one of the youngest members of the eightplayer Great Lakers squad. The team was coached by Jan Sander, who is the girls varsity coach from Warren Woods High School. The team was based in Mount Clemens, and most of the players came from Macomb and Oakland counties.

"I think (the tournament) made me a better player," Pump said.
"I'm used, to playing against girls who are older than I am. I decided to try out for the team because it sounded like fun and I thought it would be a good opportunity to improve. The traveling was neat, too."

Although Pump lives in Novi, she resides within the Northville School District.

Northville suffered heavy gradua-

tion losses - including stars like Debbie Stevens, Karen Baird and Heather Sixt — and a number of starting positions on the 1989 Mustang basketball squad should be available. Even though she is only a sophomore, Pump will be on the varsity squad this fall and may

challenge for a starting spot.

The 5-foot-7 Pump saw plenty of action at both forward and guard posi-tions in Milwaukee, and helped lead the Great Lakers to a 3-2 record and a fourth-place finish overall.

"I thought I did pretty well," Pump said. "We only had eight players, so we had a rotation system and everybody got a chance to play in all the games."

In the first two tournament games, the Great Lakers registered victories over the Wisconsin Vikings (Red) from Eau Claire and a team from Rome, Italy, call Auxilium Testac-cio. The Vikings White team then

Aug. 2.
A win over OGRW Dragons of Wales on Aug. 4 put the Great Lakers into the consolation finals, but they fell to the Lady Spartans of

Milwaukee in the third-place game. "I'm going to try to play for the (Great Lakers) again next season when I'll be 15," Pump noted. "It will be held in Milwaukee again, and I think it's worthwhile."

All the tournament games were played on the campus of the University of Wisconsin-Milwaukee

"The idea for the Milwaukee World Youth Basketball Festival is the result of Sports Tours' involvement in literally hundreds of organized and disorganized basketball events in most countries in the world," said Lee Frederick, President of Sports Tours International, the tournament

1. Requires strong military deterrents including well equipped and trained conventional forces and commitment to assist depressed nations. Security is increased by careful monitoring of defense dollars and lessening international tensions to reduce the threat of nuclear holocaust. Our economic and social health is a vital part of our national security.

2. Yes. Have fought to pass legislation to: - establish spending limits through voluntary, partial public financing; - limit Political Action Committee (PAC) contributions; - close existing campaign finance loopholes; - limit use of personal wealth.

3. A top personal priority is to meet need for comprehensive pre-school and lat hikey programs providing quality, affordable care (am author of federal latchkey law); involve parents in establishing standards; must improve training and salaries for staff, assist low income families. Expand resource and reterral programs to improve parental choices.

President Reagan has restored the readiness of our national defense system, we must continue policies that guarantee the security of this nation and provide adequate safeguards against terrorism and acts of aggression. First priority must be world peace. We must also do all we can to promote international human rights.

I strongly support restrictions on the role that political action committees (PACs) should play in political campaigns. At present, their role is fall too dominate and does not serve the public interest. We must curtail the amount of influence special interest groups have in our political process.

Child care is fast becoming one of the most important national issues due to the reliance from two-income families that work every day. I would support a system that would permit working mothers to receive tax credits for the purpose of finding work, in place of welfare.

Similar to corporate directors. Regents make general policy
decisions to guide the administration. A major responsibility is
the budget. Tuition has increased at an alarming rate. We must
control costs, preserve the commitment to educational and
research excellence, and convince the State to increase its
commitment to the University.
The relationship should be marked by cooperation to joint
venture some research projects, educational programs and

duplication. In some situations, healthy competition is
essential to produce creative tension resulting in better
programs and research projects.

Governing Boards oversee higher educational institutions on behalf of the people of Michigan. It is a role of trust and fiduciary requiring trustees to establish policy guidelines and select administrators needed to manage an institution's educational programs, financial, human and physical assets and to provide equal access to qualified clitzens.

Effective use of public funds degrapts, that the three Universities cooperate and avoid deplication whenever possible. Created with different educational missions, each school can contribute to the two goals by striving for excellence in programs in which they are unique and strong; cooperating with complimentary and joint offerings where possible.

Political Party Preference **Public Act 275**

(This information was furnished by the Michigan Bureau of Elections.)

Public Act 275 of 1988, enacted on July 18. 1988, provides that a presidential primary will be held in Michigan on the third Tuesday in March in each presidential election year. The first in each presidential election year. The first presidential primary will be held on Tuesday, March 17, 1992.

The new law requires those voters who wish to participate in the presidential primary to declare a party preference at least 30 days before the primary is held.

Voters who wish to cast a ballot at the presidential primary to be held in Michigan on March 17, 1992 must declare by February 17, 1992, a preference for a political party participating in the primary. Voters who go to the polls on Tuesday, November 8, 1988 will be handed a post card which gives them the opportunity to make such a party declaration. The post card can be completed and given to the precinct inspectors working at the polls, taken from the polls and completed at a later date, or rejected.

Voters do not have a obligation to declare a political party preference unless they wish to participate in the 1992 presidential primary.

The party preference declarations made by the voters will only be used to administer the presidential primary; all of the other primaries conducted in the state will continue to be administered as "open" primaries.

2. My goal is to get the people of Waterford and White Lake townships our "fair share" of money for schools and local government from Lansing. As an experienced legislator and member of the majority party in the Michigan House, I know I can do better than the incumbent has done.

3. President Reagan's FY 89 budget proposal will cut Michigan grants by \$147.3 million. It will be difficult for the state to replace these funds. 2. The 60th District needs a full-time legislator. That is one who will not be distracted by maintaining a separate law office and treating membership in the Legislature as a part-time job. Western Oakland County is a rapidly developing area. The state legislator can fill a real leadership need by maintaining a readily accessible office in the district and by being al-

3. Michigan has always paid more in taxes to Washington than it has received

in federal services. However, a major wave of plant closings could change that. It is in our interest to fight major cutbacks of federal social welfare spending. It would be unfair for us to have paid so much into the system over the years, only to discover the benefits aren't available when we finally need to use them.

4. Education is a multi-billion-dollar a year industry in Michigan. We have to involve business, industry and state government in education. In the future, foreign language and computer instruction will be necessary for more and more youngsters to find good jobs. But the quality of a child's education depends not on his academic gifts but upon the tax base of the school district in which he happens to reside. Two major problems are the size of government, encompassing both the pleth-

2. Among my priorities are to join Rep. O'Connor as a part of the principled 'No' caucus, to introduce a part-time legislature amendment, and tointroduce legislation aimed at improving education for our children.

3. Hopefully, we will use this opportunity to begin trimming state government to appropriate levels. Since most state legislators, once in Lansing, are unwilling to produce budgets comprising only expenditures pertinent to government's proper function, loss of federal dollars will force them to re-examine the role of government in our lives.

4. a) Quality education will be served by mandating competency testing and merit pay for teachers. 1. The lack of affordable housing for our state's low-income residents is reaching epidemic proportions in many areas of the state and will continue to rise unless the state develops a comprehensive plan to address Michigan's housing woes. Drugs and drug-related crimes are destroying the fiber of our society and are also reaching epidemic proportions through human toil and destruction.

2. To continue to make housing a priority in the state of Michigan by increasing my efforts and advocating for increased funding for housing and rehabilitation projects to assist the low income residents, senior citizens and handicapped individuals to secure permanent, decent and affordable housing. Environmental cleanup and water quality projects remain a priority.

3. The proposed federal budget cuts will mean devastation for many social programs in the state of Michigan and across the nation. The poor and disadvantaged citizens will literally be left out in the cold as programs which have traditionally served our less fortunate will be forced to close their doors. If this should happen, it will certainly bring with it an increase in crime, the homeless, sickness and disease and even death.

4. Support legislative efforts to provide for a more equitable public school finance system in the state. The first step in assuring quality in education is to ensure the proficiency of instructors. Second, I believe it is the responsibility of the parents

to reinforce what instructors are attempting to teach; to work with the child and become involved in the overall teaching and development. Third, emphasize the importance of education to our children.

1. Getting a business climate favorable for business to move to and stay here in Michigan. This includes reform of single business tax burden, reform of unemployment compensation, business property tax relief. Providing quality education for our young. We must provide equal funding for students. Property tax relief for homeowners, but any sales tax increase must be directly for education.

Make all laws that collect taxes include an expiration date. We are always raising taxes to "cure a problem," but rarely undo those laws; we just find new ways to spend the revenue.

3. Fewer job training funds. We must become more effective in spending the money we get for job training. It doesn't do any good to spend \$5,000 or \$8,000 training someone to do a task and then not have them work in that field after training.

4. Property tax reform, but a sales tax increase only if it is specified for education. We must not let a sales tax increase go into the general fund, because the governor will find other uses for it there, and schools will continue to be in trouble.

states. Must prevent and clean up environmental abuses, preserve quality of life.

2. Work to insure Michigan's business competitiveness by lowering unemployment insurance costs, pass meaningful products liability reform, prevent new state mandated benefits that lose jobs to other states, continue effort to get greater share of earmarked money for badly needed roads, fight tax increases, and prevent runaway growth in state government.

ROSE M. WRIGHT, 39, Libertarian, Bloomfield Hills. Occupation: vice president of operations for Detroit office of National News & Media Distribution Service, eight years. Education: Lawrence Institute of Technology, business management. Background: Daily Tribute, newsroom; member, Society of Professional

Journalists, Detroit Press Club; member, Libertarian Party since 1975.

 Decline of quality education and underemployment.

 Creating educational alternatives (unleashing free market forces). Ensuring that those who damage the environment are held fully accountable through triedand-true common law remedies. Improving business climate in this state; work toward reducing onerous tax burden on Michigan citizens and businesses.

Freedom.

4. a) Institute alternatives, e.g., voucher systems (thus eliminating double taxation of Michigan citizens). b) Implement open market (eventually free market) public education systems, giving students the right to attend the public school of their choice (recently adopted in Minnesota).

3. The 1989 federal budget proposal program cuts totalling over \$150 million for Michigan. Most of these reductions are in programs assisting low-income persons or local units of government. The trend toward spending fewer federal dollars in these two areas is continued and has serious implications for state and local budgets.

4. The compromise bills passed by the House move toward higher quality and greater equality in education. The proposal reduces reliance on property taxes, thus offering greater equity among rich and poor school districts, and provides new money to improve equity. There are also incentives to improve quality.

GREG GRUSE, Republican, Madison Heights. No reply.

MARY MEADE, Workers Against Con-

cessions Party, 27, Madison Heights. Occupation: interior landscape worker. Education: Warren Mott High. Background: grew up in Warren; gone through what many young people face today—working iow-paying jobs without benefits, going to school part-time.

 Unemployment and concessions, too many peolpe are without jobs. Working people face worse conditions on the job with cutbacks and speedup. Our standard of living is going down, while the rich make huge profits. The two big parties share control of the government now, and have only made matters worse.

2. The interests of working people should come first. We should have a decent life since we do the work. The corporations and bankers should be the ones to pay the costs for the mess the have made. Everyone should have a job, decent standard of living and good education.

3. Children are hurt. Single parents suffer more. Older people are not able to retire with the dignity and care they deserve. The budget deficit keeps going up,
even with all the cuts against the working
and poor people, because spending on
those who don't need it, the corporations,
keeps going up.

are placing Michigan in an unfavorable light for attracting business, and it's making it harder every year for first-time home buyers to get their start.

2. To help the people of Michigan keep what they earn by fighting against all tax

 I have long thought that Michigan did not get the lion's share of federal monies (in comparison to some other states), so I do not expect as large an impact as some people are predicting.

4. (a) The public education system can be improved by putting it in competition with private schools. Instituting a voucher system for public education can accomplish this. (b) The answer for (a) would automatically create equality by giving parents a choice of which school they wanted.

 Tax on residents' homes. School taxes to be transferred to state general fund.

To reduce tax rates on homes to a permanent lower rate and remove the burden of schools from residents in Michigan.

3. To supply services to citizens without raising taxes. To fight for a larger share

on revenue sharing from U.S. government as we are being shorted by the federal government with the large cuts to the aforementioned revenue sharing.

4. Would like to see a bill through the system to remove school taxes from homes to general fund and transfer the power to spend to school boards instead of state mandated orders on how to run local schools. Put the running of schools in the hands of the people in the area with their local needs.

1. Meeting the challenge of foreign competition by improving our education and business climate. Reallocating and reducing, if possible, the tax burden to accom-

plish the above.
2. Resolve the deadlock on educational funding reform. Work towards improving the serious road situation in Oakland

County.

3. While the Reagan Administration proposed significant cuts in Medicare and Medicaid that would affect older citizens in Michigan and also proposed cuts that would affect senior housing, Congress is expected to maintain these programs at

current levels.

4. (a) Establish mandatory minimum curriculum standards. (b) Reduce property taxes and increase sales taxes with monies redistributed to better equalize per student spending in accordance with variances in local costs and salary structures.

Property tax and school aid reform—too much reliance has been placed on property taxes to fund education. This has created very real hardships on residents with limited fixed incomes. Developing incentives to encourage a strong business climate to offset the loss of large automotive industries.

3. Michigan traditionally been on the low end of having its share of federal taxes returned to the state. If budget cuts are not resolved, it will result in a reduction of services for Michigan residents.

4. As a former teacher, I value educa-

tion. This area enjoys a quality educational system. We need to maintain the high standards with appropriate funding and citizen input. Equality of education will be realized when funding comes by means of a voter approved school aid reform bill with local input.

 Improving the conditions in nursing

2. Improving the conditions in nursing homes, including increased training for lower-level employees. Working for total state financing of our local courts. Providing more respite care for families with developmentally disabled children and those who are family caregivers of the elderly and Alzheimer victims. Providing more pre-school programs.

3. With the loss of federal dollars, we will be asked to do more with less. Already tight budgets and programs will have to be cut back at both the state and local levels. Therefore, we must continue to develop new jobs and create our own revenues to offset these losses.

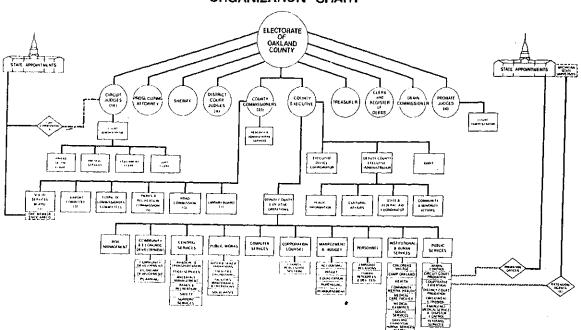

4. Make pre-school education a top priority. Help develop more multi-school district programming for advanced students, those students needing remedial help and provide courses for other students too expensive for an individual school district to provide. Find alternative funding sources so amount of state aid can increase.

OAKLAND COUNTY GOVERNMENT ORGANIZATION CHART

OAKLAND COUNTY OFFICES

County executive

Oakland was the first county in Michigan to adopt a county executive form of government. Under it, the executive pre-pares the annual budget for approval by the Board of Commissioners, appoints and supervises heads of county departments and has veto power over actions by the Board of Commission-

Term of office is four years. Current salary is \$89,223. Candidates were asked to summarize their biographies in 35 words or less and to answer each of the following questions in 😘 50 words or less:

- 1. Describe two of the major issues facing Oakland County and how you would address these issues.
- 2. Would you recommend any amendments to Public Act 139 which establishes the office of county executive? Explain.

WILLIAM G. WOLFRAM, Democrat. 42, Birmingham. Occupation: practice of law in Franklin, with emphasis on appellate litigation. Education: graduated Michigan State University 1967; University of Michigan Law School, 1970. Background. ground: assistant prosecuting attorney,

1. Our county is entitled to a more equitable share of state-collected vehicle fuel taxes in order to help fund repair of our deteriorating road system. Coordination of the law enforcement work of our numerous local police departments should be encouraged, combined with those of neighboring counties.

2. No. However, the state Legislature should provide the local option to abolish the office of drain commissioner, to be absorbed by the existing Department of Public Works, and so avoid duplication of administrative costs by amending other stat-

publican, 64, Sylvan Lake. Occupation: Oakland County executive. Education: Wayne State University, 1946-50. Back-ground: appointed Oakland County register of deeds, 1956; 1958 elected to that post and served until 1963 when appointed chairman, Board of Auditors; 1973 elected first Oakland County executive, re-elected

The future of Oakland County depends upon maintaining the excellent quality of life and diversifying and strengthening our economy. Maintain our relationship with our neighboring counties and the city of Detroit so that all of the Greater Detroit area can prosper. Continue to make certain our county's fiscal condition remains excellent.

2. I have consistently recommended that PA 139 be amended to more accurately reflect what county reform should be - that is, a unified management of the county's affairs. Administrative responsibility for all county functions, except headed by other elected countywide officials, vested in the county executive.

County treasurer

The county treasurer receives, maintains custody of, invests and disburses all county monies, and prepares tax assessments, rolls and statements. Term is four years. Current salary

Candidates were asked to summarize their biogrphies in 35 words or less and to answer the following question in 50 words or less: Describe two of the major issues facing your department and how you would address these issues.

STEVE ALLEN, Democrat, 40, Ortonville. Occupation: practicing attorney in Pontiac. Education: BA, Oakland University; JD, Wayne State University Law School. Background: patrolman 14 years, Sheriff's Department.

1. To obtain meaningful input, as the chief fiscal officer, with the way that the county tax dollar is spent. The county commission should look to the treasurer for advice as a fiduciary. Method: attend all commission meetings and ensure that comeptitive bidding was utilized for all expenditures

2. Make county government more responsive and accessible to citizens of Oakland County. Method: strive for the opening of satellite facilities, and through the of flex-time, open county government up during evening hours.

C. HUGH DOHANY, incumbent, Repub-

lican, 68, Novi. Occupation: Oakland County treaurer nearly 20 years. Background: I have a proven record as a trusted public servant, trained and experienced in finance, management, accounting and automation.

1. It is vital that all county monies are fully invested at the highest possible rates using the most prudent type of investments for the protection of our public funds. Over the years, my investment returns have helped reduce the county tax rate to taxpayers.

act business with the county treasurer's office. As county treasurer, I have com-pletely automated the entire operation, making all business with the public fast and efficient. I have established a south office to serve the southern portion of the county.

Prosecuting attorney

The county prosecuting attorney represents the people of the state of Michigan in issuing criminal warrants and in subsequent court proceedings. Term is four years. Current salary is \$77,141.

Candidates were asked to summarize their biographies in 35 words or less and to answer each of the following questions in 50 words or less:

What would be (or is) your basic policy as Oakland County prosecutor?

2. Do you believe plea bargaining should be eliminated entirely in Oakland County? Explain.

3. Should the prosecuting attorney's office, which is ultimately responsible to the public, submit regular reports on its operation? Explain.

BARRY E. KRAEMER, Democrat, 39, Clawson. Occupation: Oak Park public safety efficer since 1970. Education: BS in criminal justice, 1972, and MA, 1977, from Michigan State University; JD, Detroit College of Law, 1981. Background: Lifelong Oakland County resident, married, two children.

1. To direct the prosecutor's office to a degree of professionalism which it has not seen in many years. To be responsive to the citizens of Oakland County and to the law enforcement community. To develop and implement an effective plan to attack the drug problem in Oakland County.

2. Plea bargaining in certain limited sit-

 Plea bargaining in certain limited situations can be a realistic and effective law enforcement tool. The law enforcement community needs all the means at its disposal to deal with crime and criminals.

3. Yes, the prosecutor's office has a professional responsibility to the citizens and law enforcement community in the county. The people are entitled to know that the prosecuting attorney and his staff are devoting their full time and energy to the job we are paying them to perform.

DICK THOMPSON, Republican, 51, Clarkston. Occupation: Chief Oakland County assistant prosecutor, 1973-present. Education: BA, 1959, U. of M.; WSU Law, 1964. Background: director, Oakland County Narcotics Enforcement Team; director, Prosecutor's Office anti-drug unit. Born 1937, Dearborn; captain, U.S. Army 1959.61

1. As prosecutor, I will continue the tough, anti-plea bargaining policies Brooks Patterson and I have implemented over the past 16 years — no deals for drug dealers, career criminals, robbers, burglars, and those who victimize senior citizens. Drug education for our children and victim rights will be our ton priority.

victim rights will be our top priority.

2. In serious or violent felonies, plea bargaining should be eliminated. We have done just that over the last 16 years in Oakland County, increasing the conviction as charged rate for drug dealers over 3,000 percent, confirming that plea bargaining is not a processor will

gaining is not a necessary evil.

3. Yes. The public must be informed about office operations in order to properly evaluate the performance of any public official. Over the past 16 years, we have annually submitted such reports in the budget process. We explain our personnel needs, performance, expenditures, accomplishments and plans for new programs.

County sheriff

The sheriff is a countywide law enforcement officer, operating primarily in unincorporated (township) areas, and is keeper of the jail. Term is four years. Current salary is \$87,500. Candidates were asked to summarize their biographies in 35 words or less and to answer the following questions in 50 words or less:

 Describe two of the major issues facing the Sheriff's Department and how you would address these issues.

Should the role of sheriff be restricted to jail administration or should it be expanded to become the chief law enforcement officer of Oakland County? Explain.

TOMMYLYLE DIZOTELL, Democrat, 51, Pontiac; 15 years of criminal justice education, training and experience in crucial areas of law enforcement, including supervision, dispatch, booking, records, gun registration, warrants, budget and detective bureau. Instructor of law enforcement communication, OCC.

 a) Effective utilization of personnel. Current administration has been unable to place appropriate personnel in key areas of law enforcement and jail administration. My education and experience give me the qualifications to remedy this problem.

b) Drugs. In order to properly combat our war on drugs, additional resources are required. As sheriff, I would order maximum utilization of forfeiture laws to pay for higher level of enforcement.

2. The office of sheriff exists by virtue of our constitution, with duties and powers provided by law. The state's duty of law enforcement for the protection of its citizens has been constitutionally delegated to the county in the person of the sheriff. There is no need to alter this precedent if the sheriff properly performs her duties.

JOHN F. NICHOLS, incumbent, Repub-

lican, Northville. BS, police administration, Wayne State University, 1968; 31 years police experience, Detroit, patrolman, superintendent, commissioner; three years understendiff, Oakland County; seven years police chief, Farmington Hills; retired USAR Ileutenant colonel, military police; won many citations and awards.

1. Opening and operating a new generation jail, training personnel properly at all
levels to insure compliance, continuing efforts to explore alternatives to correction.
Drug problem among top priorities. Increase emphasis and participation in drug
task force "Narcotics Enforcement
Team." Increase participation by other
law enforcement agencies; give presentations to Board of Commissioners, cities,
village boards so all are aware of problem
and need for resources.

2. Office of sheriff should remain as currently operated — a full service department; i.e., road patrol and jail operation; should not be restricted to jail operation alone; should not be a "caretaker" of local police units which are duly constituted and should be left responsive to governmental unit to which they belong. Should serve as support unit for functions local police cannot perform.

County clerk/ register of deeds

The county clerk/register of deeds' duties include: maintaining public records and recording land ownership; publishing official actions of the County Commission and Circuit Court; acting as secretary to the Road Commission; and administering elections. Term is four years. Current salary is \$67,500.

Candidates were asked to summarize their biographies in 35 words or less and to answer the following question in 50 words or less: Describe two of the major issues facing the Oakland County Clerk/Register of Deeds Department and how you would address them.

DIANA TRIVAX, Democrat, 31, Birmingham. Occupation: Oakland County attorney. Education: BA, cum laude, Eastern Michigan University. JD, Wayne State University. Background: Regularly produce, utilize and therefore familiar with documents filed with the clerk's office. Board, Michigan Trial Lawyers Assn.

1. The technology exists, currently, to have computerized satellite offices providing easy access to all parts of Oakland County. This innovation has been resisted by the present clerk. It could easily be accomplished without large additional expenditure of taxpayer dollars by using existing countywide facilities.

n, st th

2. One day each week, the clerk's office, including satellites, should be opened later for the convenience of working people. This could be accomplished without large additional expense by instituting a flex

time program and inviting employees to take part.

LYNN D. ALLEN, incumbent, Republican, 62, Pontiac; Pontiac High School; combat 8th AAF, World War II; BS, doctor of optometry, Illinois, 1950; post grad, Michigan State University, University of Michigan, 1958-present; clerk/register since November 1968; Michigan Judicial Institute; past president, Michigan Clerks; clerk of the year (Michigan, 1984).

 Continue to give efficient service to our citizens. We have modernized our operating using computer science but must continue to keep up with changes in field including optic disc and new software. All this will help speed our service and court activity.

Drain commissioner

The drain commissioner has jurisdiction over all established drains, including creeks, rivers, ditches, sanitary sewers and storm sewers. The office has responsibility for new drain construction, maintenance of drains and establishment of water management districts.

anagement districts. Term is four years. Current salary is \$67,500.

Candidates were asked to summarize their biographies in 35 words or less and to answer the following question: Describe two of the major issues facing your department and how you would address these issues.

DOUGLAS E. KUTHY, Democrat, 32, Southfield. Occupation: trial attorney. Education: University of Michigan graduate; Detroit College of Law graduate. Background: Prior to opening my own practice, I specialized in environmental law.

1. There is only one issue in this campaign. This issue is whether the office should continue to exist. The current drain commissioner was elected in 1974 on a platform promising to abolish the office. He is unable or unwilling to do so. I am able and willing to do so.

GEORGE W. KUHN, incumbent Republican, 63, Orchard Lake. Occupation: drain

commissioner last 16 years. Education: AB, Central Michigan University; post graduate work, Harvard Business School. Background: served 20 years, product development staff, Ford Motor Co.; mayor of Berkley, 10 years; state senator, four years; retired captain, USNR.

 The increase in new construction projects places a substantial burden on the drain commissioner to add new personnel and improve the ability to respond quickly to public works needs.

 Oakland County needs to consolidate all public works functions under the elected drain commissioner to eliminate unnecessary and wasteful duplication.

COUNTY COMMISSIONERS

Oakland County has a 27-member Board of Commissioners which functions much like a state legislature or city council. The board acts on proposals of the executive; can override an executive veto by two-thirds vote; passes the general government budget; and makes appointments to such boards as the County Road Commission, Southeastern Michigan Transportation Authority, Huron-Clinton Metropolitan Authority and oth-

Establish site criteria through logical and responsible methodology to determine the best possible sites for programs and facilities. Maximize the efficiency and effectiveness of programs for families, youths and seniors currently receiving county services.

2. First, we need to make a concerted effort to receive our fair share of roads funds from the state. Secondly, if needed, an additional gasoline tax, guaranteeing that Oakland County receive our full portion back, rather than the inequitable state formula, would fairly tax all users of Oakland County roads.

3. All inequities must be dealt with. Wayne County courts and other district courts are a financial drain on Cakland County taxpayers. The 52nd District Courts are well run and profitable. Considering the total judicial-penal costs associ-ated with all district courts, the 52nd courts are more equitable than they ap-

Newspaper, television and radio coverage can force the county prosecutor and other public officials such as the attorney general to investigate cases of alleged corruption or of criminal fraud. The court system must maintain fair and swift adjudication and protect the person's sixth amendment right to a fair trial.

Courts have a duty to educate the juror and the people of Michigan to make sure that our courts are responsive to the needs of the disadvantaged and middle class. Many people want to avoid jury duty because they distrust the jury system and the court system in this state.

In my court, not at all. The news media has its legitimate place in society and in the marketplace, but it has no role whatsoever in the resolution of cases subject to the jurisdiction of the court. The business of the court is to insure due process of

law. Supreme Court must insure that Judges are sensitized to need for tolerance, patience and temperance with all who come before them. Supreme Court has a duty, long ignored, to closely monitor lihe conduct of individual Judges, to insure treatment of public and attorneys in an atmosphere of calm and understanding.

BACKGROUND—1 suppport the use of principled judicial activism to strike down legislation that violates either property rights or political/intellectual rights, as advocated by Bernard Siegan in his

Economic Liberties and the Consitution.

Courts should protect liberty and property against governmental encroachment, but today they generally sanction and enforce such encroachment (e.g., through eminent domain and governmental immunity). Often the only defense people have against judicial decisions supporting violations of individual rights is the counts' fear of media exposure.

When citizens must deal with monopoly courts, they come before them as supplicants, and will necessarily be intimidated. The judicial system must be opened up to competition, by privalizing its functions and having users pay directly for judicial services. Courts will then treat citizens as customers rather than subjects.

PROPOSAL A

RESTRICT USE OF TAX FUNDS FOR ABORTIONS FOR PERSONS RECEIVING PUBLIC ASSISTANCE

Public Act 59 of 1987 is a law that states that tax funds shall not be used to pay for an abortion for a person receiving public assistance unless necessary to save the life of the mother.

Should the law be approved?

BACKGROUND AND CURRENT LAW.

In 1978, members of the Michigan Legislature introduced and passed the first bill prohibiting state-funded Medicaid abortions. The bill was veload by Governor Milliam Milliken, Attempts to prohibit state funding for abortions were veloed 17 times by Governors Milliken and James Blanchard. Each attempt to everride the veloes of both Governors was unsuccessful, in April 1987, 395,751 polition signatures submitted by the Michigan Riight to Life campaign were certified by the State Board of Carivassers. Both chambers of the legislature passed the initiative into law during the June, 1987 session, but did not pass immediate effect which required a two-thirds vote. The People's Campaign for Choice then filled suit to prohibit the abortion ban from taking effect. Ultimately, the Michigan Supreme Court upheld a decision by the Court of Appeals to restore funding. The Choice campaign submitted language to the Secretary of State on April 29, 1987 and gathered 229,128 signatures to place the question on the ballot in 1988.

PRO: Those supporting a ban on Medicaid funding for abortions say that even though abortion is legal, Michigan taxpayers should not bear, the financial burden for the abortion.

CON: Individuals opposing the ban on Medicaid funding for abortions say that since abortions are legal, denying the procedure only to poor women is bad law and unfair public policy. They believe no exceptions for rape, incest, or AIDS is too stringent and further say the right to privacy in reproductive matters should be available to all women.

PROPOSAL B

PROPOSAL TO INCLUDE CRIME VICTIMS' RIGHTS IN THE CONSTITUTION

The proposal would amend the constitution to provide: 1) That crime victims shall have certain rights throughout

attend trials; confer with prosecution and make a

1) That crime victims and have certain rights throughout the crimnal justice process.
2) That crime victims' rights, as provided by law, shall be the right to be treated with fairness and respect for their dignity and privacy; be reasonably protected from the accused; be notified of court proceedings and

statement to court at sentencing; restitution; timely disposition of the case; and information about conviction, sentence, imprisonment and release of accused.

3) That legislature may enact laws to enforce crime victims' rights and provide for assessments against convicted defendants to pay for crime victims' rights. Should the proposed amendment be adopted?

> YES NO \square

BACKGROUND AND CURRENT LAW:
The Crime Victim's Rights Act became law in Michigan in 1985 and has served as a model for similar legislation across the country. The law already gives a victim the right to be kept informed of the progress of a case, to make an impact statement for use in sentencing, to receive restitution, and to be notified of the final disposition of the case and the earliest possible release date of the defendant. Constitutional expression of victims' rights exists or is proposed in a number of states. Currently, the Victim's Rights Act requires the Senate to reimburse prosecutors and courts for their expenses in implementing victims' rights similar to those contained in the proposed resolution. Should the Legislature exercise the option within the proposal to give it the right to provide an assessment against convicted defendants to pay for crime victims' rights, the amount the state would be required to pay could be reduced by an indeterminate degree.

PRO: By fisting the rights of crime victims in the State Constitution, the proposal will strengthen those rights and grant them a degree of recognition thus far given only to the rights of the accused. recognition thus lar given only to the rights on the accused.

CON: The Constitution is intended to serve as a broad framework for the State, but the proposal would clutter it with a listing of victims rights already provided for by statute. The rights of the accused protected by the Constitution are actually the rights of all clitzens to due process of law, rights established to protect comparatively powerless individuals against the possible excesses of the State.

PROPOSAL C

PROPOSAL TO AUTHORIZE BONDS FOR ENVIRONMENTAL PROTECTION PROGRAMS

The proposal would:

 Authorize the State of Michigan to borrow a sum not to exceed \$660 million dollars to finance environmental protection programs that would clean up sites of toxic and other environmental contamination, contribute to a and other environmental contamination, contribute to a regional Great Lakes protection fund, address solid waste problems, treat sewage and other water quality problems, reuse industrial sites and preserve open space; and

2) Authorize the state to issue general obligation bonds pledging the full faith and credit of the state for payment of principal and interest on the bonds; and

3) Provide for repayment of the bonds from the general fund.

LWV -- Page 23

BACKGROUND:
The Governor, in his 1988 State of the State message, recommended an environmental protection bond issue similar to proposals that had been introduced in the legislature over the past five years. There was considerable debate in the legislature concerning what types of programs should be included and how the programs should be operated, although there was early agreement on the general concept. The final wording was approved on September 7, 1988.

PRO: We must, in order to protect the public health, the quality of our environment, and our economic strength, make a major effort now to clean up identified contamination sites and pollution sources. The state has a low debt at present so we can afford to obligate the money to pay back the bonds.

CON: Even \$450 million won't come close to paying for the needed clean-up. The polluters, not the public, should pay for clean-up. There are many other pressing needs in this state and we should use the money for these. Instead of funding new programs we should take advantage of our present low debt level and lower taxes.

PROPOSAL D

PROPOSAL TO AUTHORIZE BONDS FOR STATE AND LOCAL RECREATION PROJECTS

The proposal would:

 Authorize the State of Michigan to borrow a sum not to exceed \$140 million dollars to finance state and local public recreation projects; and

2) Authorize the state to issue general obligation bonds pledging the full faith and credit of the state for payment of principal and interest on the bonds; and 3) Provide for repayment of the bonds from the general

Should this proposal be approved?

YES NO 🗆

BACKGROUND:

The Governor's 1988 State of the State message called for supporting and enhancing the quality of Michigan's state park system and proposed a revenue bonding program to be funded by user fees. The Legislature first combined this proposal with the environmental protection bond proposal, also including funding for local parks, and then separated the two proposals. Proposal D provided for the bonds to be repaid from the general fund, as with those issued under Proposal C, and not from user fees, as the Governor initially recommended.

PRO: Our pergetting tarillities are in poor condition. This is affecting

PRO: Our recreation facilities are in poor condition. This is affecting tourism and the quality of life for Michigan residents. We put off these expenditures earlier during hard times, but now we can afford them. CON: User fees should pay for recreational facilities. We have many other more pressing needs. Local park facilities should be paid for by local governments.

OAKLAND COUNTY BALLOT PROPOSAL

Motor Vehicle Registration Fee "Shall a \$25 (Twenty-Five Dollar) motor vehicle registration fee be imposed on each motor vehicle regis-tered to an owner residing in the County of Oakland, with the revenues therefrom being used exclusively in Oakland Countyu and spe cifically ermarked for th epurposes set forth in the "Local Road Im-provements and Operations Revenue Act," being Public Act 237 of 1987, with said fee to be effective for vehicle registrations for a period of ten

A proposal to allow a \$25 motor vehicle registration fee. The proposal would allow an addi-

tional \$25 vehicle registration fee to be charged to an owner who resides in Oakland County.

Background and current law In December of 1987, the Michigan Legislature passed Public Act 237 (introduced by Senators Fessler and Binsfeld) which was signed by the governor Dec. 28, 1987. This ac enables county boards of commis-sioners to place a countywide motor vehicle registration fee of up to \$25 on a ballot. The Oakland Con Board of Commissioners voted to place the \$25 motor vehicle registration fee on the Nov. 8 general elec-tion ballot.

and are licensed for road use.

What is proposed
The type of vehicles that would be subject to the fee are: automobiles, vans, pickups, commercial trucks, semi-tractors, hearses, ambulances, wreckers, taxicabs, motorcycles, station wagons, carryalls, motor homes, buses, trucks, moving vans, truck mounted cranes and other simterrain vehicles (ATVs), off-road vehicles (ORVs) that meet safety codes

The fee would not apply to: snow mobiles, historic vehicles, mobile homes, agricultural vehicles, all trailers including semi-trailers, boat trailers, camping trailers, pole trailers, utility trailers, tanker trailers; road graders, bulldozers, earth movers, mopeds, boats, ATVs and ORVs that do not meet safety codes and are registered for off-road use

Pro arguments Those in favor say that all the funds generated in your community

will be returned to your community

with the exception of a minor collection fee for the Secretary of State.

The funds will be used for road improvements or operations on any county road or city street and that up to 10 percent can be used for pub-lic transportation services for the

Con arguments

Those opposed say that vehicles registered in other counties will enjoy traveling on the improved Oak-land County roads without paying the \$25 fee and suggest that the additional vehicle fee should be assessed statewide to be more equitable. Some say that people will move their primary residence to a cottage or vacation home outside Oakland County to avoid the \$25 vehicle reg-
