### SOCIAL SECURITY

Many people are wrongly rejected when they apply for Social Security Disability benefits. Money was taken out of their paychecks for Social ecurity taxes to easure that they would receive disability benefits it they could no longer work full-tim Sadly, the government denies approximately 60% of those who apply for disability benefits.

Attorney J.B. Bieske can often make a winning difference at the application stage. And, if an appeal is necessary Bieske has won several hundred cases before a court date is

Those denied can appeal on their own but statistics for many years reveal that those represented by attorneys win a much higher percentage of appeals. And attorneys who specialize in Social Security Disability cases win a much higher percentage yet.

Attorney Bieske has represented only Social Security Disability clients for over 27 years. That is the only tipe of law he practices. And, he personally meets with all clients and appears himself at all court hearings Many large firms assign clients to young associate attorneys with much

In addition to practicing only scial Security disability law Bleske has written a book for attorneys about the subject. He also has been interviewed on various radio and television programs and has given

PUBLIC NOTICE Michigan Department of Environmental Quality Water Resources Division

The Michigan Department of Environmental Quality proposes to deny a groundwater discharge permit application pursuant to Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), being Sections 324,3101 through 324,3119 of the Michigan Compiled Laws, and the administrative rules promulgated these under these widers.

The applicant proposes to continue discharging a maximum 62,000 gallons per day (22,630,000 gallons per year) of treated sanitary sewage to the groundwater by means of rapid infiltration basins. The discharge area is located in Novi Township, Oakland County,

The denial is based upon the applicant being unable to meet the requirements of R 323.2218 and R 323.2222 in their existing discharge. The Part 22 Rules require that the facility have a wastewater treatment and disposal system that is approved by the Michigan Department of Environmental Quality, the system is capable of meeting permit effluent limits which are established based on the standards described in R 323.2222, and the facilities discharge is not injurious to groundwater. discharge is not injurious to groundwater.

Comments on the proposed denial received by June 27, 2011 will be considered in the final decision to deny the permit application. Persons desiring information regarding the draft, procedures for commenting, or to request a hearing abould contact: Groundwater Permits Unit, Permits Section, Water Resources Division, Department of Environmental Quality, P.O. Box 30458, Lansing, Michigan 48909-7773, Telephone: 517\_373\_8148.

Copies of the public notice and the draft denial may be obtained at the Water Resources Division, Groundwater Discharge Unit, Permits Section, Southeast Michigan District Office, located at 27700 Donald Court, Warren, Michigan 48092-2793, Telephone: 586\_753-3700.

### **Honor sacrifice** Memorial Day is time to recall those who paid ultimate price

Every year at this time, we pay tribute to those who have given their lives in the defense of this country. This year, in the wake of the killing of Osama bin Laden, we have even more of which to be proud than ever. Without a single loss of life — or even major injury - our military scored perhaps the biggest victory yet in the war on terror.

That stunning success, however, does nothing to overshadow the contributions made by the thousands of our military servicemen and women who have given the ultimate sacrifice to ensure Americans continue to enjoy the freedoms secured

On Monday, we pause to remember those who have made that sacrifice. There will be parades, memorial services and flags fluttering on the graves of the servicemen and women who have given their lives so we can live free.

It's the one day of the year set aside for the nation to get together to remember, reflect and honor those who have given their all in service to their country. In the Gettysburg Address, Abraham Lincoln called on Americans to complete the unfinished task of ensuring that liberty "shall not perish from the

Americans have never wavered in that commitment to freedom, nor in the effort to help those who seek to be free. Americans have fought in two World Wars for freedom, in Korea and Vietnam. Americans have fought a Cold War, in Desert Storm, in Iraq and Afghanistan against tyranny,

However, the traditional observance of Memorial Day has diminished over the years. Some people think the day is for honoring any and all dead, and not just those fallen in service to our country. For many, Memorial Day and the three-day weekend marks the official start of summer. People use the time to open their pools and their cottages and gather for pic-nics.

Some will take time to observe ceremonies like the parades

n Novi and Northville, which both begin at 10 a.m. on

People will attend similar ceremonies and spend some time observing the meaning of the day but, by and large,  $\Delta mericans\ will focus on having fun.$ 

To help re-educate and remind Americans of the true meaning of Memorial Day, the National Moment of Remembrance was established in 2000. It asks that at 3 p.m. on Memorial Day all Americans voluntarily and informally observe in their own way a moment of remembrance and respect, pausing from whatever they are doing for a moment of silence or lis-

tening to Taps. An e-mail we received surns up best what we should pon-der, during that moment of silence. The author is unknown,

### Kids section needed

I am writing to you in regard to the newspaper itself. I believe that if you add a kids/teens section, then it might increase newspaper sales. I know that not as many people have

been buying, but if we add a kids section, then it will appeal to all ages. In the kids section, you could include games, coloring contests, new ƙids mov ies and articles that kids would enjoy: " Some games could include tic-tac-toe

or a crossword puzzle that's not too hard. Overall, just some games that are easies for kids/teens. For the coloring contests, you could

have kids either color in what you draw, or you could have them draw their own. After they do it, they could send it in and they could win a small prize if theirs was good enough. You could include movies that are PG and under and include a short summary of them. For example, the new movie "Hop" could be one. If there are no movies, then you can include

Lastly, the articles could be like, "Five bunnies saved from fire." Just something like that, that kids would enjoy to read and not get bored or confused by big

So, in all, if you start writing a kids section, you might be able to increase newspaper sales. Kids will be able to read the newspaper and enjoy it as much as adults. They will finally have something to read without having to use a book or magazine.

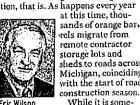

Let's bring this generation back to eading newspapers!

## The alternative to those orange barrels is much worse

BY ERIC S. WILSON GUEST COLUMNIST

he annual summer migration has begun. . The orange-barrel migra-

remote contractor storage lots and heds to roads across Michigan, coinciding with the start of roadconstruction season. While it is some-

times frustrating when herds of these cylindrical orange traffic-control devices descend on our travel routes. it's also a good thing. It means the road is about to be repaired or

In fact, as much as we all cringe as we hall their arrival, the truth is this county and state desperately need more of their kin to descend on our roads. That's because years of underfunding have left our road system ing and congested.

Sadly, declining road funding tens of thousands of orange barels penned up on storage lots or locked away in contractor sheds across Michigan — barrels that ought to be employed as part of road improvement projects. In other words, the pent-up orange barrels are merely a symptom of our much larger problem: a failing and underfunded road system. And if you think orange barrels are an

diment to business or qualit of life in Michigan, think about the impact of a failing road system. The Michigan Asset-Management Council, the group appointed by the governor to champion the implementation of the business concept of "asset management" in the world of public-sector road agencies, monitors the condition of Michigan's roads. Tragically, the group has documented a continuing decline in the condition of roads

across the state in recent years. Even worse, the MAMC predicts that, at the current level of road funding in Michigan, the rate of the deterioration of the road system is going to increase in coming years. That means every year we're likely to have increasing numbers of roads in poor conditio

In case that sounds a little too academic, let me put this in more simple terms. In every year going forward, we will have more and more roads filled with bone-jarring, tie-rod-busting, rim-bending, tire-blowing potholes. What does that type of road do for local businesses? Just ask those businesses located along Orchard Lake Road between 13 Mile and 14 Mile roads. Or those on Dequindre near M-59. Or along the numerous other roads in Oakland County and around the state that are already in terrible shape, and for which

there is not enough money to make To be blunt, unless we start to improve our roads, Michigan and Oakland County businesses will suffer as will motorists who have to pay to repair their damaged vehicles. Sure it's temporarily rough for businesses and commuters when the orange barrels take over their road. But it's a whole lot worse when the road becomes so rough

that motorists avoid the road alto-

gether — for years.

Additionally, the longer we let the roads go, the more it will cost to repair them later. That means if and when we finally do get new money, more of that money will be needed to fix the long-neglected

So, I think it's time to start a Barrels movement. We need to make sure the state Legislature provides an adequate amount of road funding so that the orange barrels can return to their traditional spring migration and more of me in encouraging our legislators to adequately fund our roads. Free

# Trail unveiling part of River Day activity

A twofold milestone awaits yclists, joggers and other outdoor enthusiasts as organizers prepare to formally unveil a newly restored sec tion of the I-275 recreation away from Canton to Novi and the improved Lower now connected by pedestrian bridges from the interstate

west to Canton Center Road The celebration occurs 9 a.m. to 3 p.m. Saturday, June 4 - coinciding with River Day - and dozens of events are planned, rain or shine, across Plymouth and Livonia.

Jubilant recreation leaders say the official opening of the two recreation trails marks the culmination of hopes and

a decade ago. "We've been working on it for 11 years," Bob Belair, assistant township engineer for Canton, said, referring to plans to connect the Lower Rouge River Recreation Trail with a series of eight wooden pedestrian bridges. Belair estimated the entire

Hometown Weeklies | Thursday, May 26, 2011

project, mostly paid for with county and state grants, cost some \$2 million. John Bailey, spokesman for the I-275 Metro Trail, estimated that project cost \$4 million

 primarily, he said, using federal grant dollars. **BIG IMPROVEMENT** Planners say the projects signal a vast improvement for reation offerings in western

Wayne County, using dollars set aside prior to a sharp eco-

between Michigan Avenue and Hines Drive, with smallerscale repairs made along the Meadowbrook Road in Novi.

"It's a major milestone because that trail had been falling into serious disrepair, Bailey said. "I think we've got the momentum (and voluteers) now to keep that trail in good shape."

A section of trail south of Michigan Avenue remains closed for repairs, but Belair said it is expected to open later this year. It's all part of a 40mile recreation trail that runs through communities such as Farmington Hills, Northville Township and Novi.

The trail improvements mark one of the biggest facelifts the I-275 trail has welcome news for people like Bailey, who rides his bike along the path three or four days a week, as much as 15 miles weekdays and 25 miles

Belair said more and more nature enthusiasts also are starting to use the Lower Rouge trail, which can be accessed from Canton Center near Palmer and followed all the way to 1-275. It's a pristing trail that users say provides a peaceful escape from the bustling township it intersects.

### BIKE RIDE

Bailey said bicyclists are encouraged to join a group bike ride that is expected to start at 9:30 a.m. June 4 at the Lower Rouge trailhead on Morton Taylor north of Michigan Avenue, where a parking lot is available. The ride will make its way to the I-275 trail and then south to the rest stop near Cherry Hill Road, where ribbon-ci ting ceremonies are planned including a band at 10 a.m.

improving their record to 14-0-2 and grabbing the KLAA Kensington Conference title With a furious home stand, Novi wrapped division play with an 8-0 win over South Lyon (3-13-3, 1-8-1 Central) May 17 and 8-1 over South Lyon East (10-9-0, 1-9-0 Central) last Thursday before taking a 5-1 decision from

Ann Arbor Skyline on Friday A clean showing in the division set up a rematch. with Canton on Monday for the conference championship Novi defeated the Chiefs 3-2 a March 28 season opener. After leading 3-2 at the half on Monday, the Wildcats finished with three more unanswered goals to clinch the gold with a 6-2 victory.

The win sets up an intriguing matchup for longtime supporters of the program. Novi was scheduled to face Brighton (10-3-0, 8-2-0 West) for the association title last night. The Wildcats defeated the Bulldogs for the state title in 2005 and Brighton has yet to return to the title game after three losing appearances in four years. Meanwhile, Novi has not only returned three more times, but also won the 2006, 2007 and 2010 champion-

After the KLAA finale, the Wildcats face North Farmington 6 p.m. Tuesday in a district quarterfinal.

days to earn a share of the KLAA Central Division title. Novi (5-3) dropped a 149-160 decision to Northville (7-1) last Thursday. Sopliomore Brad Kozinski led the Wildcats with a 37, while senior Sam Palmer shot a 40, sophomore Jason Carless shot a 41 and junior Johnny Walker shot a 42. Stephanie Crawford, of Novi, has been invited by Maccabi USA to join the U.S. women's soccer team to compete in the open division of the 13th European Maccabi Games in Vienna, Austria in July. As a member of the team that won the open division gold medal in Israel at the 18th Maccabiah Games in 2009, Crawford scored five goals. She is selling raffle tickets to pay the \$5,000 cost of the Austria trip. The University of Michigan senior is the daughter of Jeff and Libby Crawford. Injuries forced her to decide to leave the Wolverines after playing her freshman year and focus on being a full-time student. At Novi High School, she made the Michigan High School Soccer Coaches Association Dream Team twice and was a three-time state champion Wildcat. The 22-year-old is en route to a bachelor's degree

Summit Health receives MEGA Tax Credit to establish headquarters in Novi

As an incentive to create and retain business in Michigan, the State of Michigan MEGA ved a three-year MEGA tax credit to Summit Health, Inc., a provider of nationwide on-site wellness programs, including and educational seminars.

Based on the Michigan Economi Development Corporation's (MEDC) recommendation, the MEGA Board approved the \$514,000 tax credit to encourage the company to establish sites in Indiana, Tennessee and Wasi In an effort to retain Summit Health's

Michigan presence, the City of Novi contributed administrative fees to support the project. mmit Health plans to invest \$11.4 million to establish its headquarters and research and development facility which will support a clini-cal reference laboratory, home blood test kit assembly and delivery, data servers, medical record processing, medical claims processing, and educational health and wellness video production. The company expects the project to create up to 252 direct new jobs in Novi. "The consolidation and expansion of Summit

Health's headquarters and research center in Novi is a perfect complement to the high-tech and to Novi's commitment to healthy active lifestyles" said Ara Topouzian, Economic Development director.

Work begins on NOVI Energy plant in Fremont

NOVI Energy LLC announced the Fremont Community Digester (FCD) power project has secured financing and begun construction.

The complete mix anaerobic digester plant in Fremont, Mich. closed financing on May 13 and is scheduled to begin commercial operation in summer 2012. It is one of the first large-scale anaerobic digesters using co-digestion to be

built in the United States.

The \$22 million project will utilize proven co-digestion technology to process approxi-mately 100,000 tons per year of both organic waste and agricultural waste into "green" bioe) which will be used to generate approximately three megawatts of renewable electricity. The power will be sold to Consumer. Energy under a long term contract. The plant will also produce dilute liquid fertilizer and compost for purchase by regional agricultural

NOVI Energy is an entrepreneurial company that provides a broad range of services in enerinfrastructure project development for utility, industrial, institutional and commercial clients across the United States and the world,

The Fremont Community Digester will educe the amount of organic waste sent to andfills near its feedstock suppliers, improve the sustainability of area farms as they use FCD's organically-based fertilizer instead of traditional fossil fuel-derived fertilizers and improve the environmental quality of runoff water in the area. The project has signed feed-stock supply contracts with Fremont-based Gerber Products Company and several other major regional food processors and agricultural perations. Supplying organic waste to the digester can be a key component of an organiza

Tom Kiurski, training coordinator for the Livonia Fire Department, said, "We see the same pro that you see nationally. A lot of pcople like to barbecue, so we see th same number as everyone else."

A grill is designed for outdoor use "The heat can certainly set anything on fire," Kiurski said. Heat can quickly go through vinyl siding. "The heat always wants to go up.

Things stored in attic rafters can catch on fire easily. "You've got radiant heat that comes off, obviously," he said. There's also a risk for carbon nonoxide with either propane or charcoal grills.

An unattended grill is a bad idea

'We like to have somebody watch the barbecue all the times," Kiurski said. "The kids, they don't pay attention. They go where the ball goes or where the Frisbee goes. You've got to have a watcher and you've got to A hose or pitcher of water is good

near the grill, although for propane shutting off gas is best, he said. You can rinse down your home or garage with a garden house until the fire department arrives.

You should look a grill over and make sure it's in good shape each year when you start to use it.

"If you use lighter fluid, you've got
to be smart on that, too," Kiurski
said of the flammable liquid on charcoal grills. Don't spray it while briquettes, light them and let them

He agreed you should quickly call the fire department if things get out of hand with your grill and fire. "Any kind of fire, gives us a call. We do quite a few of those every year. Not a problem."

SAFETY TIPS

•Propane and charcoal barbecue grills should only be used outdoors. •The grill should be placed well away from the home, deck railings and out from under eaves and over

hanging branches.

•Keep children and pets away from the grill area.

Keep your grill clean by removing
