Budget Presentation*

PRESENTED TO

Oakland County, Michigan

For the Fiscal Year beginning January 1, 1986

The Government Finance Officers Association of the United States and Canada (GFOA) presented an Award for Distinguished Budget Presentation to Oakland County, Michigan, for its annual budget for the fiscal year beginning January 1, 1986.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communications medium.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Oakland County

Finance Committee-Transmittal Letter

Ladies and Gentlemen:

The Finance Committee has reviewed the data submitted by the various departments, as well as the recommended budget from the County Executive. This year the Committee developed an analysis of all line items, adjusted for 1987 anticipated salary, fringe benefits and cost increases, compared to the 1986 adopted budget. The committee also began an approach to programmatic budget review by requesting every department to identify service components which they considered least important or marginal, as well as their high priority new programs. The Committee's final action resulted in a total budget recommendation of \$241,359,132. Expenditure appropriations and reserve requirements are within available resources. This budget is \$1,500,000 higher than the County Executive's revised recommendation, reflecting the Committee's decision to recognize and utilize the unappropriated accumulated interest in the Federal Revenue Sharing Trust Fund. The Federal Revenue Program was discontinued by the United States Congress effective October 31, 1986. The Finance Committee's recommended changes in departmental spending plans and the Committee's acceptance of additional changes recommended by the County Executive resulted in a net increase of \$107,085 in the Contingency Account.

Although the economic expansion in the Detroit metropolitan area has slackened a bit, primarily in the manufacturing sector in late 1986, construction and real estate sales continue to be strong. These two sectors directly affect County revenues. Total revenues and available resources utilized in the 1987 recommended budget were \$12,293,784 or 5.4% over 1986, reflecting continued optimism regarding the overall

economic activity. Gross property taxes including the Parks and Recreation levy increased 7.7 % or \$5,966,458. County property taxes continue to represent approximately one-third of the revenues necessary to support general operations and the Parks and Recreation activities. Following past practice, the property tax millage rates have not been increased. The 4.6391 mills levied for general county operations and the .25 mills levied for Parks and Recreation are 11.3% below the total millage authorized by the County electorate in 1978 and 1984, respectively. Land transfer taxes, state income tax, Register of Deeds revenue, Health Division revenues and other economically sensitive revenues were also increased to reflect the continued improvement in certain select segments of the economy. Federal Revenue Sharing was reduced \$1,017,000 which is the net result of the discontinuance of the program and the utilization of the balance of the Federal Revenue Sharing Trust Fund. Investment income was also decreased \$1,000,000 due to the reduction in the transfer from the Delinquent Tax Fund.

The increase in total budget appropriations and reserve requirements over 1986 exceeds the anticipated inflation rate by 1.37 percentage points. The Federal Court Consent Judgment, which requires the County to take whatever steps are necessary to relieve jail overcrowding, continues to be a major contributor to cost increases. In 1986 the Board of Commissioners awarded a contract for construction of an addition to the County jail which is expected to be the last requirement to satisfy this court order. Although the Board has not as yet determined the method of financing this jail construction, the Finance Committee has identified sufficient funds to cover the project. In this budget \$1,500,000 of operating funds are transferred to the Capital Improvement Fund and the five-year Capital Improvement Plan has been reprioritized to make available an additional \$5,000,000 for jail construction. Favorable earnings on investments in the Retirement Fund should allow the County to reduce its Retirement Fund contributions, thus making available approximately

\$6,000,000 over a two-year period. The Finance Committee has reduced the 1987 Retirement contribution by \$2,348,800. The remaining funds necessary for the jail construction are available from the accumulated surplus in the Department of Facilities and Operations Fund. These surpluses were generated through effective energy cost controls and service privatizations.

Juvenile maintenance costs in private and state institutions will increase \$710,000 as a result of service needs and program delivery decisions made by the Probate Court. The operating costs of the County's juvenile facilities, which are primarily fixed, have not experienced a compensating reduction. To meet this problem, the Board of Commissioners has adopted policy changes to allow the County to contract with other counties and the Department of Social Services for utilization of available beds in County facilities. This action is expected to raise sufficient revenue to offset a major portion of these cost increases.

The County Mental Health budget will increase \$4,222,000, as a result of program expansions approved by the State of Michigan and Oakland County in 1986. This program is funded 90% by the State of Michigan and 10% by Oakland County. A newly established central Case Management System accounts for 47% of this increase. Other operating cost changes include a \$500,000 increase for the Tri-Party Road Improvement Program, \$250,000 to restore the reduction made by the County Executive and \$250,000 in program improvements. \$190,636 was added for additional positions in the Prosecuting Attorney's office to continue and improve his efforts to fully prosecute habitual offenders. A \$106,000 increase was necessary to fund the Pretrial Services Program which will assist in relieving the overcrowding at the County jail facility. The cost of providing defense attorneys for indigents by both the Circuit and Probate Courts will increase \$579,000. A recent court ruling which expanded the time frame under which the County is

responsible for the health of prisoners will increase the cost of prisoner hospitalization by \$305,000. This budget also contains \$292,000 for the County's share of the newly instituted 9-1-1 emergency communication system.

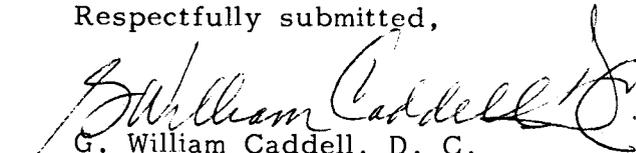

The Board of Commissioners has finalized the Salary Administration Project by adoption of Phase II. This project which covers the majority of County employees has reduced the number of salary ranges from several hundred to twenty-one. It also establishes a quantitative or numerical approach to evaluating internal relationships of the various County job classifications. The plan is expected to result in long-range administrative efficiencies and greater ease in responding to labor market conditions. The recommended budget contains a 4.5% salaries reserve to fund this project. It is planned that funds equal to 3.35% of salaries will be used for an across-the-board increase for salary grades 1-15. The balance will be used to continue the process of funding the changes required by Phase I of the Salary Administration Project. An equivalent amount has been set aside to fund increases for management employees included in Phase II of the Salary Administration Project, as well as appointed officials and employees in classifications excluded from the plan as market exceptions. A specific annual increase and funding mechanism for these employees will be recommended by the Personnel Committee in 1987.

This budget also reflects some of the cost savings from Phase I of the Commissioners' program to review and revise the entire employee fringe benefit program. Phase I increased retirement benefits, provided term insurance in place of employee premium participation insurance, provided long and short term disability insurance, substituted five annual personal days in lieu of sick leave days, and eliminated the

unrestricted accrual of annual leave days. Phase II which entails a complete review of health benefits has not yet been completed. However, some preliminary recommendations have been included in the budget recommendation. Minor modifications were made in the health insurance program resulting in a savings to the County. Some of the savings were utilized to provide a new employee optical insurance benefit.

The Finance Committee recommended budget is sufficient to meet the demands of 1987 and to maintain the excellence of performance for which the County is recognized without increasing the burden on the County taxpayers.

OAKLAND COUNTY
COUNTY EXECUTIVE - 1987 BUDGET MESSAGE

October 1, 1986

Ladies and Gentlemen:

I am delighted to present my 1987 Budget Recommendation.

It has been said "the great money need or problem is not how much one has to spend but how to spend well what one has." Our County has been fortunate - its policymakers have spent what is available well rather than seeking to spend more.

The 1987 Recommendation was developed within the tradition of balanced finances, emphasis on service delivery and reduced administrative overhead.

The Recommendation continues the optimism expressed in past Budgets dating back to the early '80's. It conveys optimism which has fostered Oakland County's economic revival and propelled the County to the forefront of economic development, job creation and improvement. It expresses our dedication to the quality of our citizens' lives.

Today Oakland County is leading the economic recovery in Michigan. This is due, in no small part, to its citizens and its government's willingness to invest optimism and resources in the future.

The 1987 Recommendation identifies available resources (revenues) first, and from that base it establishes budget parameters within which elected officials and department heads are given maximum flexibility to shape their programs and priorities. This resulted in another balanced, financially conservative, service oriented Budget Recommendation.

The 1987 Recommendation maintains the current tax rate of 4.6391 mills for general operations and .25 mills for Parks and Recreation. Total revenues for 1987, excluding the Road Commission, are estimated to be \$238,322,000 up from the 1986 level of \$234,183,000. (The \$238 million includes a \$3 million surplus carried forward which is approximately the same as in the 1986 Budget.) The increase is due primarily from property taxes generated from new construction, land transfer activity and state support for Mental Health and economic improvement.

Against these increases are the losses of \$2.5 million in revenue sharing and \$1 million in investment income due to lower investment rates.

Property taxes continue to be the largest single revenue source, however, at \$76,609,000 it comprises only 32% of anticipated revenue for general County operations. The remaining \$161,712,000 comes from user fees, charges for services, interest income and state and federal sources.

It should be noted property taxes are \$10 million less than the voter authorized levy. This restrained use of property taxes demonstrate this County's desire to live within its means and to maintain some capacity to meet future needs.

Expenditures for 1987 are proposed to be \$236,722,000 and \$1.6 million in the contingency for unanticipated programs and expenses, (the contingency is approximately the same as 1986) for a total budget of \$238,322,000. As of this date, no new programs or significant program expansions are anticipated. However, if the economic expansion continues, some service expansion may be required. Some major cost increases include:

- o The federal consent judgment continues to consume more County resources with the addition of more than \$1 million to jail costs.
- o The Juvenile Court showed a dramatic increase in juveniles placed in non-County institutions at an increased cost of over \$800,000.
- o Liability Insurance continues to be a significant cost although the \$2.7 million anticipated in 1986 should be sufficient in 1987.

A net increase of nine positions is included. Most of the added positions are either grant funded or funded by user charges. There also are a number of personnel shifts and four positions are being deleted during the year. These personnel changes reflect not only an increased workload, but an effort to maximize available resources.

To fund the second phase of the salaries administration project as well as continue implementation of the first phase, the equivalent of 4.5% of payroll and related fringe benefits has been built into the budget. This modest increase will continue steps taken in 1986 to reflect workloads and market conditions for those in grades 1-15 as well as extend those considerations to management employees.

The only significant accounting change proposed is the moving of \$1.5 million from separate grant funds into the overall Health Budget. This State induced change will require careful monitoring to ensure that State participation in these programs will continue at current levels and that the resources are better utilized.

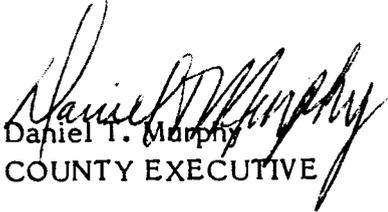

Service delivery remains the emphasis of County operations. Human services in the form of mental health, child care, social services, health services and medical care will consume \$57.8 million. Law enforcement, under the demands of the jail consent judgment will consume in excess of \$32 million. The Courts (Circuit, Probate and District) will cost in excess of \$25.8 million. Public Works and Drain Commission operations account for \$59.2 million and other services such as Parks and Recreation, Computer support of local police agencies, Community Development, Employment and Training, Veterans' Services, Animal Control, Emergency Medical Services, the Clerk-Register consume most of the remaining resources.

Only about 6 percent of expenditures go for administrative support in the form of personnel, purchasing, accounting, budgeting and cash management.

This Recommendation continues my emphasis on service delivery and represents the management's efforts to maximize the value of each dollar entrusted to us by the taxpayers.

As in the past, my staff is ready to assist you in your budget deliberations.

Respectfully submitted,

Daniel T. Murphy

An accrued deficit shall be the first item of expenditure in the general appropriations measure.

12. The County Board of Commissioners shall fix the time and place of a public hearing to be held on the budget and proposed appropriations measure. The Clerk/Register shall then have published, in a newspaper of general

No later than December 31, the Board of Commissioners shall pass a general appropriations measure providing the authority to make expenditures and incur obligations on behalf of the County of Oakland. The supporting budgetary data to the general appropriations measure shall include at least the following:

- (a) Expenditure data for the most recently completed fiscal year,
- (b) The expenditures budget as originally adopted by the Board of Commissioners for the current fiscal year,
- (c) The amended current year appropriations Budget,
- (d) An estimate of the expenditure amounts required to conduct, in the ensuing fiscal year, the government of Oakland County, including its budgetary centers,
- (e) Revenue data for the most recently completed fiscal year and estimated revenues for the current fiscal year,
- (f) Budgeted Revenue Estimates as originally adopted by the Board of Commissioners for the current fiscal year,

- (h) An estimate of revenues, by source, to be raised or received by Oakland County in the ensuing fiscal year,
- (i) The amount of surplus or deficit from prior fiscal years, together with an estimate of the amount of surplus or deficit expected in the current fiscal year,

(j) An estimate of the amount needed for deficiency, contingent on emergency purposes, and the amounts needed to pay and to discharge the principal and interest of the debt of Oakland County due in the ensuing fiscal year,

(k) The amount of proposed capital outlay expenditures, except those financed by enterprise, public improvement or building and site, or special assessment funds, including the estimated total costs and proposed method of financing of each capital construction project and the projected additional annual operating cost and the method of financing the operating costs of each capital construction project for three (3) years beyond the fiscal year covered by the budget,

(l) An informational summary of projected revenues and expenditures of any special assessment funds, public improvement or building and site funds, internal service funds, and enterprise funds,

(m) Any other data relating to fiscal conditions that the Board of Commissioners considers to be useful in considering the financial needs of the County.

(n) Printed copies of the Board of Commissioners Adopted Budget, Financial Plan or any facsimile thereof shall contain all of the above data unless otherwise approved by the Board of Commissioners.

14. The Board of Commissioners may authorize transfers between appropriation items by the County Executive or Fiscal Officer within limits stated in the appropriations measure. In no case, however, may such limits exceed those provided for in paragraph #21 of this resolution.

15. A deviation from the original general appropriations measure shall not be made without first amending the general appropriations measure through action by the Board of Commissioners, except within those limits provided for in paragraph #16 of this resolution.

16. Appropriations accumulated at the following three summary levels of expense within each County Division will be deemed maximum authorization to incur expenditures: Salaries and Fringes, Overtime, and Operating. The County Executive or the Fiscal Officer shall exercise supervision and control of all budgeted expenditures within these limits, holding expenses below individual line-item appropriations or allowing overruns in individual line-items providing that at no time shall the net expenditures exceed the total appropriation for Salaries and Fringes, Overtime or Operating expenses, respectively, for each division as originally authorized or amended by the Board of Commissioners. The Fiscal Officer shall submit to the Finance Committee a quarterly listing of all of the new line items created administratively for actual expenditures which were not properly classifiable in existing appropriation line-items. Line-item detail, division, unit or cost center detail and allotments, which provide a monthly calendarization of annual appropriations, as deemed necessary by the Fiscal Officer shall be maintained and utilized as an administrative tool for management information and cost control. The Fiscal Officer shall not approve any expenditure beyond that necessary to accomplish stated program or work objectives authorized in the general appropriation measure as originally approved or amended.

17. The Fiscal Officer shall maintain, for all budgeted funds, appropriation ledger accounts in which are to be recorded such expenditure encumbrances and obligations for the future payment of appropriated funds as he may approve.

18. Each purchase order, voucher or contract of Oakland County shall specify the funds and appropriation designated by number assigned in the accounting system classification from which it is payable and shall be paid from no other fund or appropriation. Instead, the necessary amount of the appropriation from such account shall be transferred pursuant to the provisions of this resolution to the appropriate general appropriation account and the expenditure then charged thereto.

19. No obligation shall be incurred against, and no payment shall be made from, any appropriation account unless there is a sufficient unencumbered balance in the appropriation and sufficient funds are or will be available to meet the obligation. In addition, all capital projects funded from the Capital Improvement Fund shall require approval of the Board of Commissioners on recommendation of the appropriate liaison committee (Planning and Building Committee) prior to initiation of the project. Any obligation incurred or payment authorized in violation of this resolution shall be void and any payment so made illegal.

20. The Fiscal Officer, after the end of each quarter, shall transmit to the Board of Commissioners a report depicting the financial condition of budgeted operations, including, but not limited to:

(a) A forecast of actual revenues by major source compared with budgeted revenues accompanied by an explanation of any significant variances.

(b) A forecast of actual expenditures and encumbrances by department compared with authorized appropriations accompanied by an explanation of any significant variances, and

(c) A forecast of actual expenditures, encumbrances and transfers from each of the several non-departmental appropriations and reserve accounts compared with authorized appropriations accompanied by an explanation of any significant variances.

21. Direct expenditure and/or transfers of any unencumbered balance or any portion thereof in any appropriation reserve for transfer account to any other appropriations or reserve account may not be made without amendment of the general appropriation measure as provided for in this resolution, except that transfers within and between budgeted funds and departments may be made by the Fiscal Officer in the following instances:

(a) Transfers may be made from the non-departmental overtime reserve account and fringe benefit adjustment account to the appropriate departmental budget as specific overtime requests are reviewed and approved by the Budget Division. Additionally, overtime appropriations may be transferred between divisions within a department at the request of the Department Head, if authorized by the Fiscal Officer or his designee.

(b) Transfers may be made from the non-departmental appropriation reserve accounts for Maintenance Department Changes and Miscellaneous Capital Outlay to the appropriate departmental budget as specific requests for these items are reviewed and approved by the Fiscal Officer.

(c) Transfers may be made from the non-departmental appropriation reserve account, Summer Employment, and Emergency Salaries as specific requests for these items are reviewed and approved by the Personnel Department.

(d) Fringe benefit rates shall be established annually in the budget process to charge all Governmental, Special Revenue and Proprietary funded agencies for actual employer fringe benefit costs. Such rates shall be sufficient to meet all fringe benefit costs including sick leave and annual leave accumulations, as well as retirees' hospitalization and retirement administration. All funds collected for Retirement, Social Security (FICA), Hospitalization for active and retired employees, Disability, Dental, and Life and Accident Insurance shall be transferred to the Employee Fringe Benefit fund as established by Miscellaneous Resolution #81-312. Sufficient funds shall be maintained in the Employee Fringe Benefit Fund reserve account for sick leave and annual leave to cover the accumulated liability at an amount equal to 50% of the sick leave accumulation and 100% of the annual leave accumulation. All funds collected for Workers' Compensation and Unemployment Compensation shall be transferred to their respective self insurance funds as established by Miscellaneous Resolution #81-012.

(e) An amount for capital improvements shall be added to the Building Space Cost Allocation charges. Funds collected as a result of this charge shall be accumulated in the Facilities Maintenance and Operations Fund for capital improvements. The transfer of these funds to the Capital Improvement Fund shall not be made prior to December 31, without approval from the Finance Committee of the Board of Commissioners.

22. The Board of Commissioners may make supplemental appropriations by amending the original general appropriations measure as provided by this resolution, provided that revenues in excess of those anticipated in the original general appropriations measure become available due to:

(a) An unobligated surplus from prior years becoming available;

(b) Current year revenue exceeding original estimate in amounts great enough to finance increased appropriations.

The Board of Commissioners may make a supplemental appropriation by increasing the dollar amount of an appropriation item in the original general appropriations measure or by adding additional items. At the same time the estimated amount from the source of revenue to which the increase in revenue may be attributed shall be increased, or a new source and amount added in a sum sufficient to equal the supplemental expenditure amount. In no case may such appropriations cause total estimated expenditures, including an accrued deficit, to exceed total estimated revenues, including an unappropriated surplus.

23. Whenever it appears to the County Executive or the Board of Commissioners that actual and probable revenues in any fund will be less than the estimated revenues upon which appropriations from such fund were based, the County Executive shall present to the Board of Commissioners recommendations which, if adopted, will prevent expenditures from exceeding available revenues for the current fiscal year. Such recommendations shall include proposals for reducing appropriations, increasing revenues, or both. After receiving the recommendations of the County

Executive for bringing appropriations into balance with estimated revenues, the Board of Commissioners shall amend the general appropriations measure to reduce appropriations or shall approve such measures necessary to provide revenues sufficient to equal appropriations, or both.

24. All appropriations are annual and the unexpended portion shall lapse at year end. Encumbrances and appropriations carried forward will be recorded as a reservation of fund balance and the subsequent year's budget amended to provide authority to complete these transactions, as defined in NCGA, Statement 1. The recommended year-end budget amendment shall be supported with a statement of revenues and expenditures and operating surplus or deficit which shall contain the following data: (1) budget as adopted; (2) budget amendments; (3) budget as adjusted; (4) revenues and expenditures, operating surplus or deficit; (5) accrued revenue and expenditures; (6) transfers; (7) total revenues and expenditures and transfers, operating surplus or deficit, including accruals and transfers; (8) encumbrances; (9) appropriations carried forward; (10) total revenues and appropriations utilized, operating surplus or deficit, including encumbrances and appropriations carried forward; (11) balance of revenues not collected, unencumbered appropriation balance, operating surplus or deficit; (12) detail of adjustments to designated and undesignated fund balance, detail of adjustment to reserves and/or any other utilization of surplus; (13) final surplus or deficit or undesignated fund balance carried forward to the subsequent year's budget.

25. A member of the Board of Commissioners, the County Executive, any elected officer, the Fiscal Officer, any other administrative officer or employee of Oakland County shall not create a debt, incur a financial obligation on behalf of the County against an appropriation account in excess of the amount authorized nor apply or divert money of the County for purposes inconsistent with those specified in the general appropriations measure as approved and amended by the Board of Commissioners. Funds shall not be expended or transferred from "off-budget"

or balance sheet reserve accounts, contingent liability accounts, designated and undesignated fund balances without specific appropriation or other appropriate action by the Board of Commissioners.

26. Any violation of the general appropriations measure by the County Executive, the Fiscal Officer, any administrative officer, employee or member of the Board of Commissioners detected through application of generally accepted accounting procedures utilized by Oakland County or disclosed in an audit of the financial records and accounts of the County shall be filed with the State Treasurer and reported by the State Treasurer to the Attorney General. Pursuant to Public Act 621 of 1978, the Uniform Budgeting Act, the Attorney General shall review the report and initiate appropriate action against the person or persons in violation. For use and benefit of the County of Oakland, the Attorney General or Prosecuting Attorney may institute a civil and/or criminal action in a court of competent jurisdiction for the recovery of County funds disclosed by an examination to have illegally expended or collected as a result of malfeasance, and for the recovery of public property disclosed to have been converted or misappropriated.

27. The provisions of this act shall be applied to the General Fund and all Special Revenue and Proprietary Funds of the County, including Enterprise Funds and Internal Service Funds.

Mr. Chairperson, on behalf of the Finance Committee, I move the adoption of the foregoing resolution which embodies the 1987 General Appropriations Act as detailed in the following document.

EMERGENCY SALARIES
 Recommended \$340,000

The Emergency Salaries Reserve is administered by the Personnel Department to provide the most economical and efficient means of temporary staff replacement to accomplish essential County work.

Emergency positions are created in 24 hour County operations such as Children's Village, Camp Oakland, and the Medical Care Facility to ensure minimum acceptable staffing coverage where dependent wards of the Court or medical patients require around the clock supervision or medical attention. Other departments utilize this resource when paid absences resulting from long-term illnesses, injury or maternity leave seriously impact the total work flow through the department. Emergency Salaries are not intended to cover functions or positions requested but not approved in the annual budget process.

The \$340,000 recommended for 1987 is a 13.3% increase over 1986 but 4% less than the \$354,000 budgeted in 1982, 83 and 84. Adjusted for inflation the \$340,000 recommended is substantially less than the amounts budgeted for those years.

Departments identified emergency salary needs for 1987 totalling \$453,934 or \$113,934 (33.5%) more than the \$340,000 recommended here.

It should be noted that Emergency Salaries funding was reduced 19.7% in the 1985 budget when the budget reduction objective was 2.5% for all departments. In addition, changes in the fringe benefit program have placed additional pressure on Emergency Salaries. Prior to implementation of the new benefit program, departments occasionally met their emergency staffing needs by filling positions temporarily vacated due to extended sick leaves, maternity leaves or other leaves without pay. With the new short-term disability plan, such positions are held vacant because the savings are intended to partially offset the cost of the benefit.

Centralized Emergency Salaries with tighter controls on the use of emergency staffing continues to be an economical method of meeting temporary emergency staffing needs.

OVERTIME RESERVE

Recommendation - \$73,000 (Total Fund \$1,449,994 with majority budgeted in departmental budgets)

The Overtime Reserve, within the Salaries Reserve Fund, has allowed funds to be budgeted for the payment of overtime without committing the funds to particular departments. However, the majority of the overtime reserve funds will be included in specific departmental budgets. Overtime is used only when the work and the time to do it are assigned by department authority and authorized by the department head, reviewed and approved by the Department of Management and Budget, Budget Division, in accord with overtime control provisions adopted by the Board of Commissioners. Only employees in certain categories are eligible for overtime pay as designated in the current County Salary Schedule. The County's computer maintains a running account of the overtime used, detailing it to the department and employee. The cost of pay for off-duty Court Appearance by law enforcement employees is also paid from this fund. \$1,449,994 is recommended for Overtime Reserve in the 1987 budget. Below is a summary of budgeted overtime expenditures since 1972:

1972 - \$ 603,140	1979 - \$ 993,049
1973 - 776,878	1980 - 1,242,646
1974 - 1,072,135	1981 - 1,279,518
1975 - 1,043,135	1982 - 1,310,733

SUMMER EMPLOYMENT

Recommendation - \$367,000

Oakland County has traditionally hired part-time non-eligible employees to perform a variety of routine jobs during the summer months. The program has been a benefit to County operations as well as addressing the growing need for summer employment opportunities in the County. Summer employees help to fill a large employment gap created by annual leave, usually taken during the summer by regular, full-time employees. They also perform seasonal work in the maintenance of County grounds and the operations of County parks. The hourly rates paid to summer employees in 1986 were:

	<u>FIRST YEAR</u>	<u>RETURNING YEARS</u>
Summer Employee - Level I	3.50 p.h.	3.75 p.h.
Summer Employee - Level II	3.80 p.h.	3.95 p.h.
Summer Employee - Level III	3.80p.h.	3.95 p.h.
Summer Employee - Level IV	3.95 p.h.	4.55 p.h.
Summer Employee - Level V	4.45 p.h.	5.05 p.h.
Seasonal Program Specialist I	5.25 p.h.	6.25 p.h.
Seasonal Program Specialist II	6.25 p.h.	7.25 p.h.

The Summer Employment Reserve is a centralized fund administered by the Personnel Department to accommodate program flexibility. The \$367,000 recommended for 1987 is the same amount as the 1986 amended Summer Program fund. In addition to the \$367,000 governmental summer employment fund recommended here, \$1,108,636 is anticipated for "proprietary/special revenue" summer employment (formerly "other sources" and "internal service" funding). Costs for "proprietary/special revenue" summer employees are recovered through charges to departments or Park user fees for services provided.

TUITION REIMBURSEMENT

Recommended - \$125,000*

Merit Rule 20 guarantees tuition reimbursement to County employees eligible for fringe benefits for successfully completed course work related to their present or probable future County job. The rule is currently capped at \$400 per session, per employee with a \$1,200.00 per year maximum reimbursement. Placing these monies in a line item in the Personnel Department budget allows County Administration, through the Personnel Department, to provide uniform coordination of the program and compliance with Merit System Tuition Reimbursement policy. It also allows the Personnel Committee to oversee this element of human resource development funded by the County with the employees investing their own time to take the coursework.

Tuition Reimbursement has become increasingly important as the County seeks to upgrade present employees to meet its growing need for specialists and technicians to deal with technological change in the work environment. The program provides opportunity useful in the County's affirmative action efforts.

It is anticipated that current Merit Rules and projected participation in the program will allow us to maintain program funding at the recommended level of \$125,000 through 1987.

The following is a historical breakdown of program expenditures totalling \$1,010,183.41 since the beginning of 1974.

CLASSIFICATION AND RATE CHANGES

Recommendation: \$ 100,000

The Salary Administration Study Group Report, as adopted by the Personnel Committee and Board of Commissioners, established a process for reviews and appeals of classification salary grade placements. Reviews occur on an on-going basis to ensure a fair and timely review of changes in job responsibilities. All recommended salary grade changes occurring as a result of the salary plan review and appeal process require Personnel Committee and Board of Commissioners approval prior to implementation and funding from this reserve.

SALARY ADJUSTMENT ACCOUNT

Recommendation: \$ 813,451

The recommended amount of \$813,451 in this account is to cover estimated increases for 1987 for all County employees in governmental positions. This includes monies estimated as necessary to fund possible retroactive pay increases for employees affected by retroactive labor contract settlements and for possible salary increases that may be granted or negotiated for 1987. The amount in this account does not cover increased costs for overtime or fringe benefits as a result of any salary increase. These funds are in the appropriate overtime and fringe benefit accounts.

TRANSFER RESERVE

RECOMMENDATION - \$0

Miscellaneous Resolution #8900, dated April 4, 1979, approved changes to Merit System Rule 4. These changes in part were aimed at providing a more efficient and effective employee transfer system within and between County departments. Prior to the changes in Rule 4, transfer lists were seldom utilized. The reason for this was the receiving department's inability to return a transfer employee with Merit System status to their original department if performance was unacceptable. The change in the rule allows a receiving department to return the employee to their former department and has, in fact, reestablished a workable transfer system. The Board of Commissioners, in approving the Rule changes, acknowledged the occasional necessity to temporarily overstaff in those departments where transferred employees have been returned.

Placing the funds in Salaries Reserve will allow the Personnel Department to facilitate the implementation of Rule 4 by reviewing temporary overstaffing situations, exploring funding alternatives and authorizing expenditures from the fund in accord with the intent of Rule 4. Although \$25,000 was budgeted for this purpose in both 1981 and 1982 and \$5,000 was budgeted in 1983, no expenditures have been necessary to date for the reasons cited in 1979 Miscellaneous Resolution #8900.

ON-CALL PAY

A total of \$49,800 is contained within this budget for On-Call pay in these departments as follows: Prosecuting Attorney, \$15,600; Sheriff, \$19,500; Medical Care Facility, \$14,700. The recommended amounts for 1987 represent no increase from the projected 1986 expenditure levels. The Prosecuting Attorney On-Call pay has been in effect since 1972, and is now at a rate of \$300 per week, for payment to the one Assistant Prosecutor who is designated as being on-call for professional assistance to the public twenty-four hours a day for a seven consecutive day period. Such duty also requires holding limited office hours over the weekend. The Sheriff's Department On-Call pay has been in effect since 1974, and is now at a rate of \$375 per week, for payment to the one Captain who has been assigned as the On-Call command officer for the department during other than normal office hours in a seven consecutive day period. Such duty also requires being physically present at the Sheriff's Department during limited hours on each of the two weekend days. The Medical Care Facility On-Call pay has been in effect since 1973, for payment to the Chief-Medical Services for being On-Call by telephone or paging device for professional services during other than normal office hours, including weekends. Below is a summary of recent budgeted expenditures by year:

<u>Year</u>	<u>Budget</u>	<u>Expenditures</u>
1979	36,920	32,500
1980	32,500	47,200
1981	45,100	45,100

DEPARTMENTAL STATISTICS

The judicial branch of county government is made up of the Circuit, Probate, and 52nd District Courts. The Circuit Court is a constitutional court mandated by Article VI of the State Constitution of 1963; it is the court of highest judicial authority in the county.

The Circuit Court has original jurisdiction over criminal cases wherein the maximum penalty is in excess of one year imprisonment. The court hears all civil damage claims in which the amount in controversy exceeds \$10,000. The Circuit Court's jurisdiction also includes domestic relations matters and other equitable actions. In addition, the Circuit Court, sitting as an appellate court, reviews decisions of inferior courts and tribunals.

The Sixth Judicial Circuit Court, Oakland County, Michigan, has 14 judges. The court's budget includes the judicial and administrative staffs, as well as the Friend of the Court and Pretrial Services staffs and operating budgets. The Friend of the Court, established by legislative authority, is an arm of the Circuit Court. The Pretrial Services Unit was established in 1986 under the administration of the Circuit Court Administrator. The unit provides information to judges to assist them in making bond decisions.

Department: Board of Commissioners
Division: Library Board

The Oakland County Library Board oversees and coordinates the operations of the Law and Reference Libraries; provides library services best accomplished on a County-wide basis; and maintains and strengthens interlibrary cooperation in Oakland County. They support continuing education opportunities for librarians and library trustees in Oakland County and maintain communication with such groups as the Oakland County Public Library Trustee Association, the Oakland Schools Library and the Oakland County Literacy Project. The Board also appoints a representative to serve on the Board of Directors of the public library cooperative, the Wayne Oakland Library Federation. They insure access to materials for the blind and physically handicapped citizens of Oakland County through continued funding and support of the Oakland County Subregional Library which is housed at the Farmington Community Library.

The Adams-Pratt Oakland County Law Library serves the legal information needs of thousands of patrons each year. In addition to servicing the needs of the main library, the Law Library services 30 satellite libraries in other County offices and departments, including the Prosecuting Attorney's libraries, Corporation Counsel, the County Executive's Department, and a small law library housed in the Law Enforcement complex for use by inmates. Additionally, the Law Library Director serves as the Library

Board Administrator handling correspondence, preparing monthly agendas and packets, and maintaining the files and records of the Board. The Library Board Administrator serves as the Board's liaison with the Subregional Library and administers the Library Board Administration budget.

The Reference Library provides research assistance to the residents, employees, businesses, students and municipalities of Oakland County and provides supplementary services to other libraries in the County. The unit furnishes leisure reading materials to inmates of the Oakland County Jail, Southfield Jail facility, Trusty Camp, all other jail facilities, and to the residents of Children's Village. At the direction of the Library Board, the Reference Library Director serves as County Librarian acting as a liaison with libraries and local, state and national library associations. The County Librarian works to expand knowledge of library services available in the County and to strengthen interlibrary cooperation within the County through improved communications and public relations activities.

Division: Economic Development Group

The Oakland County Economic Development Group was organized on April 12, 1984 by the Board of Commissioners (Miscellaneous Resolution #84094). Approval of the "concept" of the "Economic Development Plan of Implementation for Business Attraction and Expansion" was also approved by the Board of Commissioners on the same date (Miscellaneous Resolution #84048).

The fundamental economic development mission of the County is to foster full employment, with equal opportunity, by encouraging and facilitating the maintenance and creation of private sector jobs.

The primary focus of the County's economic development efforts will be to retain those basic businesses currently operating in the County, to help such businesses identify and pursue expansion opportunities and to facilitate the creation of new businesses through entrepreneurial development. In carrying out these efforts, the County's principal role will be to serve as a catalyst and support organization to local communities and groups engaged in economic development.

Attraction of new businesses also represent an essential component of the County's mission. Efforts in this area will be leveraged by taking full advantage of ongoing regional and statewide programs designed to promote, market and attract new businesses to the southeastern Michigan area.

BA7

The objectives which are to be achieved by the Economic Development Group to accomplish this mission are:

- A. Enhance the County's ability to service and support local economic development efforts.
- B. Establish a stronger and more service-oriented relationship with the County's business community.
- C. Support and encourage the entrepreneurial process in both start-up and growth-stage companies.
- D. Support and encourage the development of "destination areas" and protect existing business and infrastructure investments in established areas.
- E. Promote and create new sources of financing and continue to leverage the County's financial resources devoted to economic development.
- F. Expand relationships with the County's educational institutions to define and promote ways to leverage their impact on economic development.
- G. Target industry marketing efforts by developing a fuller understanding of the composition and growth characteristics of the County's labor force and businesses, and other relevant environmental factors.
- H. Maximize the use of existing state and regional programs to leverage the County's own marketing and business attraction efforts.
- I. Elevate and increase the visibility of the Economic Development Group to attain a leadership role and image in economic development for the County.

Function: County Executive

Department: Management and Budget

Division: Purchasing

The Purchasing Division was established as a clearinghouse to provide goods and services to various County departments through its centralized procurement, and Stores activities. It provides timely, effective and efficient service to using agencies and to vendors doing business with Oakland County through the use of a material management and total supply concept of operation to purchasing. It maintains open communication with the news media, through the County Executive's Public Information Office. Purchasing advertises on "How to do Business with Oakland County" semi-annually. It promotes competitive bidding to reduce the cost of equipment, supplies and services purchased with the expenditure of citizens' tax dollars. Purchasing has returned \$1,500,000 to its various funding agencies through the coordination of a semi-annual auction of surplus and stolen property. Purchasing provides cooperative purchasing contracts to other governmental agencies within the State, which promotes greater volume purchases and lower costs.

Function: County Executive

Department: Management & Budget

Division: Equalization

- (a) To annually update the appraisal file.
- (b) To prepare all forms and reports for the State.
- (c) To act as Secretary of the Board of Review.
- (d) To prepare tax rolls and statements.

At no cost to Oakland County, the Equalization Revolving Fund enables the Equalization Division to reappraise properties located in local assessing districts under contract. Also, the County is the assessor for 15 units that do not have certified assessors and assistance is given to other assessors under contract in their duties of appraising, computing and listing property for assessing purposes.

The Equalization Division, as established under the authority of Public Act 139 of 1973, assists the Finance Committee of the Board of Commissioners in establishing the equalized property tax base for the County. They compile sampling data, reports and statistics on property valuations in the County for use by the Committee. They also assist local assessing officers upon their request in dealing with difficult or unusual assessing problems.

The Equalization Division assists assessing officers in all 61 assessing districts in processing their changes through the Computer Services Division. This includes such items as sales studies, State required reports, batch input for keypunch, written instructions for special requests and the subdivision file. In addition, the Equalization Division trains assessing personnel, at their request, in use of all systems.

In 1970 the Division negotiated its first contract for the reappraisal of the City of Sylvan Lake. Since then, contracts to reappraise or load on the Master Appraisal File have been signed for 32 cities and townships, representing approximately 230,000 parcels.

Under the General Property Tax Laws, responsibility for the assessment functions has now been added to the many duties and functions of the Equalization Division. Some townships and cities have signed agreements appointing the Manager of the Equalization Division as the assessing officer. Some of the duties of the Assessor are as follows:

Function: County Executive

Department: Management and Budget

Division: Reimbursement

The Reimbursement Division is responsible for the recovery of monies as ordered by the Circuit Court and Juvenile Court for court costs, attorney fees, restitution, fines and child care.

The Circuit Court Unit interviews defendants and establishes a plan for the repayment of their fees. In addition, this unit reviews requests for return of bond to ascertain if there are monies owing to the County.

In addition, the Oakland County Medical Care Facility forwards all of their delinquent accounts to this office for collection.

Recommendations are also made to the Probate Court by this office as to whether the County should assume costs for patients and their families for miscellaneous expenditures associated with the Mental Health procedures. It also pursues collection of the fees for attorneys that are appointed to represent patients at their hearings for involuntary hospitalization.

As provided in Chapter II of Public Act 232 of 1953; the Circuit Court Unit of the Probation Division is a service agency that specifically provides the Circuit Court Judges with thorough information demanded by statute in the sentencing process. This gathering of information is called pre-sentence investigation, which encompasses all aspects of a defendant's life from time of birth; the specific criminal involvement; and a complete analysis of the individual's juvenile and adult criminal record.

A further responsibility of the Circuit Court Unit of the Probation Division is providing supervision of those deemed treatable in the community and placed on probation. These services are provided towards the rehabilitation of such persons and through the use of vocational, educational, and psychological counseling that may be required to assist the probationer in becoming a productive and responsible member of the community.

Function: County Executive

Department: Central Services

Division: Probation

Unit: District Court

The District Court Probation Unit is a service agency that provides the 52nd District Courts (Divisions I, II, and III) with probation services as provided in Michigan House Bill No. 2763, Sec. 8314--., "District Courts may establish probation departments within a district control unit... The expense of such probation department shall be borne by the district control unit." The County of Oakland is the "district control unit" responsible for the 52nd District Courts. The District Court Probation Department provides pre-sentence investigation reports, court conference investigation reports, alcohol assessments and evaluations as mandated under P.A. 309 of 1983 and special investigation reports as ordered by the 52nd District Courts. The compilation of a pre-sentence investigation report, for example, requires the objective gathering of information by a probation officer, which covers all relevant aspects of a defendant's life; the past and present specific criminal involvement and the analysis and evaluation as to the most appropriate recommended sentence and subsequent treatment.

The District Court Unit is responsible for providing court ordered probation supervision to offenders treatable in the community under the guidance and counsel of a probation officer. The purpose is to assist offenders toward more productive and responsible community participation, prevent recidivism and decrease the use of costly jail incarceration.

Also provided is the Court Community Service Program which provides community service jobs, employment counseling and supervision to criminal offenders as ordered by Oakland County Circuit and District Court judges as an alternative sentence to jail confinement.

Division: Maintenance and Operations

Unit: Telephone Communications

This Unit furnishes telephone services to all county departments and related agencies; provides receptionist services at the Courthouse Complex; reviews telephone billings, prepares departmental billing breakdowns of these billings, and compiles monthly telephone communication cost reports. In addition, departmental communication systems and equipment needs are evaluated, and recommendations are prepared by the Facilities & Operations administrative staff.

As an Internal Service Fund this Unit bills back its services to user departments including a markup on all centrex and non-centrex department billings. The 1986 rate of 15% should be reduced to 13.5% for 1987.

Function: County Executive

Department: Institutional and Human Services

Division: Health

The Division operates under the broad powers of Act 368, P.A. 1978 creating local health departments to protect the public's health. This mandate is carried out in a variety of ways, many of which are covered by specific legislation either at the Federal, State, or County level.

The Division is charged with the responsibility to gather, analyze, and report data that gives a clear reflection of the health of the community. It is also charged with assisting in the determination of which health services are to be declared basic to a person's health and then making arrangements to have these services available and accessible to all people within the County.

In protecting the public's health, the Health Division uses the primary tools of education, consultation, and inspection leading to knowledge and approval or licensure. It is necessary to use secondary tools such as early casefinding, diagnosis, and treatment when preventive methods fail in order to reduce the spread of existing problems. Certain aspects of mental health as well as physical health and the environment are concerns of public health.

Function: County Executive

Department: Institutional & Human Services

Division: Medical Care Facility

This facility provides highly skilled care to residents of Oakland County. Prospective patients are screened for appropriateness of care by the Utilization Review Coordinator, working closely with the Medical Director. Chief of Nursing Services assists in screening when appropriate. Financial information is obtained so that if a prospective patient needs skilled level of care, the admission may be facilitated. When the admission is not deemed appropriate, or no bed is available, prospective patients are advised and referred to other agencies that may be of assistance.

Patients are provided continuing care as initiated by multidisciplinary care plan. This plan includes skills of nursing as well as meeting the medical, rehabilitative, dietary, environmental and diagnostic needs of the patient. The facility maintains Pharmacy, Laboratory, Radiology, and Rehabilitation Units.

The Oakland County Medical Care Facility participates in three major reimbursement programs:

1. MEDICARE - A Federal program for elderly and disabled persons funded by Social Security contributions.
 2. MEDICAID - A Federal/State program for medically indigent patients administered by the Michigan Department of Social Services.
 3. BLUE CROSS/BLUE SHIELD OF MICHIGAN
- BA7

The balance of reimbursement is derived from commercial insurance or private payment. Additionally, revenue is realized by the sale of services and supplies to other County Departments, such as pharmaceuticals charged to the Health Division, Mental Health, the Jail Infirmary and Children's Village. Revenue is also generated from rental of space to therapy contractors, sale of pharmaceuticals to employees, and meals on wheels program.

Camp Oakland is a residential child care facility with a capacity for 51 adolescents between the ages of 13 and 16 and consists of three separate programs, Boys' Ranch, Girls' Ranch and Work Education. The adolescents are wards of the Probate Court and are selected for the three programs by the Juvenile Court Screening Committee.

The programs at Camp Oakland are designed to prepare the adolescent to return home. The adolescents from the Ranches attend public schools and other community activities, while Work Education is a self-contained program that provides all services to boys on the grounds. The average length of stay at Camp Oakland is nine to ten months.

The operation of Camp Oakland is under the supervision of the Executive Director of Camp Oakland.

The Oakland County Children's Village is a child care facility that houses neglected or delinquent boys and girls under the jurisdiction of the Probate Court -Juvenile Division. Programs include detention services for youngsters pending court, various treatment programs for youngsters who have had their court hearing and the services of a Shelter Care Unit for neglected children. The Division also provides the Children's Village School operated by the Waterford Township School District.

The County pays for the entire cost of this program. However, under the State Foster Care Act, it is reimbursed 50% of all monies spent.

DEPARTMENTAL STATISTICS

Department: Institutional and Human Services

Division: Medical Examiner

The Medical Examiner is the County official responsible for investigating and determining the cause and manner of death of any person who has died suddenly, unexpectedly, accidentally, violently, or as the result of any suspicious circumstances; or without medical attendance during the 48 hours preceding death; or as the result of abortion; or in the case of any prisoner in custody.

The results of these investigations provide State and Federal authorities with evidence relating to injuries for purposes of prosecution and settlement of estates. They also provide Public Health authorities with information relating to communicable disease and other causes of mortality for program direction.

To aid the Medical Examiner with his determinations, a staff of volunteer deputy medical examiners, professional investigators, laboratory and morgue personnel expedite the handling and disposition of cases reported.

Function: County Executive

Department: Public Services

Division: Cooperative Extension Division

The Cooperative Extension Division provides instruction and practical information via demonstrations, publications, workshops, events, consultation and mass media to county residents in food and fiber production; food and fiber marketing; commercial and home horticulture; human nutrition; food safety; family resources management (money, credit, time, energy); child development and family relationships, creating and offering positive youth development experiences (involving volunteer leaders and youth); public affairs, pond and water management; woodlands management; energy and soil management; and related subject areas.

Congress, the legislators of the State of Michigan, and Commissioners of County governments "cooperate" in making the service available to local constituents. Federal and State funds go to Michigan State University, the land-grant university in Michigan. Michigan State University, via cooperative arrangement with counties, makes the service available to local county constituents. Subject matter "specialists" are retained by MSU Cooperative Extension Service to specialize in specific subject matter and its research to provide county-based staff current research information. Campus "Extension Specialists" provide assistance to counties at no cost to the County.

County program initiatives are locally determined to meet the needs of local constituents. Smith-Lever Act and Food Security Act of 1985, Section 1435 is the enabling legislation for Cooperative Extension Service.

Function: County Executive

Department: Computer Services

The Computer Services Department currently provides data processing services to 37 County departments, 35 local police departments, 26 cities, 22 townships, 11 villages, 4 non-county District Courts, all Federal District Courts in Michigan, County of Washtenaw, 2 independent non-profit agencies and one State agency, a Municipal Information Technology Program, a cooperative venture with local jurisdictions, provides local governments an economic means for utilizing information technology as a tool for improving services for their taxpayers.

The services are made up of systems analysis, systems design, programming, data preparation and computer processing. The Department's responsibilities include: long-range planning; feasibility, and cost justification studies; evaluation and projections of equipment, systems and manpower needs; production of current work; enhancement of existing systems; development, testing and implementation of new systems and procedures and user relations.

The latest study showed that over 750 different reports were prepared a total of 26,000 times, accounting for over 22,500,000 pages and forms printed in a calendar year. Over half of the equipment associated with Computer Services is located at the user organization's work site. More than half of the Department's work load is "on-line" which recorded over 40 million transactions in 1985. This system allows users to communicate with their information in the County as well as the LEIN, NCIC and Secretary of State computers, over a teleprocessing network.

BA8

Current major applications include a land file from which assessment rolls and tax bills are calculated and printed for all but two of the County's 61 local governments; CLEMIS (Courts and Law Enforcement Management Information System) including a Precious Metals Program which currently services 38 of the County's 42 police departments including the Oakland County Safety Division and the County Sheriff's Department; FIMIS (Financially Integrated Management Information System); the combined payroll/personnel system; the Judicial System serving the Circuit Court and the County Clerk/Register of Deeds; the Treasurer's system; District Courts and many others.

In addition to maintaining the above, the Department has embarked on an extensive new system development program affecting virtually all County departments, along with extensive departmental upgrades.

OAKLAND COUNTY
1987 BUDGET
FINANCIAL STRUCTURE

I. FORM OF GOVERNMENT

Oakland County is organized under the authority of Public Act 139 of 1973 (as amended by Public Act 100 of 1980) the optional Unified Form of County Government Act. Policy formulation is a function of the twenty-seven member Board of Commissioners, a partisan elected-body representing equally populated districts and serving a two-year term. Administrative responsibilities are a function of the County Executive, an elected official serving a four-year term. The Executive has veto authority over Board action which requires a two-third majority vote to override.

II. ORGANIZATION AND FINANCIAL STRUCTURE

The County Budget is prepared in such a way as to maintain accountability both by programmatic cost center and by source of funds. Organizationally, the budget parallels the service delivery structure of County government including the following major programs and departments:

Administration of Justice

Circuit Court
District Court
Probate Court

Law-Enforcement

Sheriff
Prosecutor

General Government

Clerk/Register
Treasurer
Drain Commissioner
Board of Commissioners

County Executive

Management & Budget
Central Services
Public Works
Personnel
Human Services
Public Services
Computer Services
Administration
Corporation Council
Public Information
Community Affairs
Economic Development
Grants Coordinator
Auditing
Non-Dept. Appropriation

The County's financial resources are budgeted by two major categories: Governmental Funds, and Special Revenues and Proprietary Funds. The former includes:

General Fund	Camp Oakland Fund	Friend of the Court Fund
Childrens Village Fund	Health Fund	Juvenile Maintenance Fund
Mental Health Fund	Medical Care Facility Fund	

Special Revenue and Proprietary Funds include all grant funds, internal service funds and enterprise funds.

Revenues are further categorized by: Taxes, Intergovernmental Revenues, Charges for Services and Miscellaneous Resources including Investment Earnings. Expenses are controlled at the Division level by three appropriation categories:

Salaries and Fringe Benefits,
Overtime, and
Operating Overhead.

III. BUDGET POLICY AND PROCEDURES

- A. Budgeting policies and procedures are delineated in the General Appropriations Act adopted annually by the Board of Commissioners and complies with Public Act 621 of 1978, the Uniform Budgeting and Accounting Act for Local Units of Government in Michigan. This act mandates a balanced budget, designates the County Executive as the Chief Administrative Officer and the Director of Management and Budget as the Chief Fiscal Officer. The act further spells out the fiduciary responsibilities of all County employees, elected and appointed, specifies the minimum contents of the budget document and prescribes appropriate actions in the event of violation.
- B. The budget is prepared in conjunctin with the full accrual accounting policies practiced by Oakland County and is developed via the following budget calendar:

They shall also submit any other information deemed relevant by the Fiscal Officer and/or the Board of Commissioners and Committees thereof on such forms and at such times as he/they may direct; and

The Fiscal Officer may require that the estimates for the ensuing fiscal year be calculated on the basis of various assumptions regarding level of service. The Fiscal Officer may also require a statement of the purposes of any proposed expenditure and a justification of the services financed by any expenditure; and

5. The Fiscal Officer shall prepare estimates of revenue for each budgeted fund for the ensuing fiscal year, classified in order to show in detail the amount expected to be received from each source. Estimates of expenditures and revenues shall also be classified by character, object, function and activity consistent with the accounting system classification; and

6. The Fiscal Officer shall review the agency estimates with a representative from each agency of the County of Oakland that has submitted such estimates. The purpose of the review shall be to clarify the estimates, ensure their accuracy, and to determine their adherence to the policies previously enumerated by the Fiscal Officer and the Board of Commissioners or Committees thereof as herein required; and

7. The Fiscal Officer shall consolidate the estimates received from the various agencies together with the amounts of expected revenues and shall make recommendations relating to those estimates which shall assure that the total of estimated expenditures including an accrued deficit does not exceed the total of expected revenues including an unappropriated surplus.

8. The recommended budget shall include at least the following:

(a) Expenditure data for the most recently completed fiscal year and estimated expenditures for the current fiscal year,

(b) An estimate of the expenditure amounts required to conduct, in the ensuing fiscal year, the government of Oakland County, including its budgetary centers,

(c) Revenue data for the most recently completed fiscal year and estimated revenues for the current fiscal year,

(f) An estimate of the amount needed for deficiency, contingent or emergency purposes and the amounts needed to pay and discharge the principal and interest of the debt of Oakland County due in the ensuing fiscal year,

(g) The amount of proposed capital outlay expenditures, except those financed by enterprise, public improvement or building and site, or special assessment funds, including the estimated total costs and proposed method of financing of each capital construction project and the projected additional annual operating cost and the method of financing the operating costs of each capital construction project for three (3) years beyond the fiscal year covered by the budget,

9. Not less than ninety (90) days before the next succeeding fiscal year, the County Executive shall transmit the recommended budget to the County Board of Commissioners. The recommended budget shall be accompanied by:

(a) A proposed general appropriations measure, consistent with the budget, which shall set forth the anticipated revenue and requested expenditure authority for the ensuing fiscal year in such form and in such detail deemed appropriate by the Board of Commissioners or Committees thereof. No appropriations measure shall be submitted to the Board of Commissioners in which estimated total expenditures, including an accrued deficit, exceed estimated total revenues, including an available surplus.

(b) A budget message which shall explain the reasons for increases or decreases in budgeted items compared with the current fiscal year, the policy of the County Executive as it relates to important budgetary items, and any other information that the County Executive determines to be useful to the Board of Commissioners in its consideration of proposed appropriations.

(c) A comparison of the recommended budget to the current year adopted budget, together with an analysis and explanation of the variances therefrom, such variances being divided to show the portion attributable to the current year budget amendments and the portion resulting from the recommended budget.

10. The County Board of Commissioners, or any committee thereof may direct the County Executive and/or other elected officials to submit any additional information it deems relevant in its consideration of the budget and proposed appropriations measure. The Board of Commissioners or the Committees thereof may conduct budgetary reviews with the Fiscal Officer, and/or County Departments and divisions or agencies, etc., for the purpose of clarification or justification of proposed budgetary items.

11. The County Board of Commissioners may revise, alter, or substitute for the proposed general appropriations measure in any way, except that it may not change it in a way that would cause total appropriations, including an accrued deficit, to exceed total estimated revenues, including an unappropriated surplus. An accrued deficit shall be the first item of expenditure in the general appropriations measure.

12. The County Board of Commissioners shall fix the time and place of a public hearing to be held on the budget and proposed appropriations measure. The Clerk/Register shall then have published, in a newspaper of general circulation within the County of Oakland, notice of the hearing and an indication of the place at which the budget and proposed appropriations measure may be inspected by the public. This notice must be published at least seven days before the date of the hearing.

13. No later than December 31, the Board of Commissioners shall pass a general appropriations measure providing the authority to make expenditures and incur obligations on behalf of the County of Oakland. The supporting budgetary data to the general appropriations measure shall include at least the following:

- (a) Expenditure data for the most recently completed fiscal year,
- (b) The expenditures budget as originally adopted by the Board of Commissioners for the current fiscal year,
- (c) The amended current year appropriations Budget,
- (d) An estimate of the expenditure amounts required to conduct, in the ensuing fiscal year, the government of Oakland County, including its budgetary centers,
- (e) Revenue data for the most recently completed fiscal year and estimated revenues for the current fiscal year,

- (j) An estimate of the amount needed for deficiency, contingent on emergency purposes, and the amounts needed to pay and to discharge the principal and interest of the debt of Oakland County due in the ensuing fiscal year,
- (k) The amount of proposed capital outlay expenditures, except those financed by enterprise, public improvement or building and site, or special assessment funds, including the estimated total costs and proposed method of financing of each capital construction project and the projected additional annual operating cost and the method of financing the operating costs of each capital construction project for three (3) years beyond the fiscal year covered by the budget,

(l) An informational summary of projected revenues and expenditures of any special assessment funds, public improvement or building and site funds, internal service funds, and enterprise funds,

(m) Any other data relating to fiscal conditions that the Board of Commissioners considers to be useful in considering the financial needs of the County.

(n) Printed copies of the Board of Commissioners Adopted Budget, Financial Plan or any facsimile thereof shall contain all of the above data unless otherwise approved by the Board of Commissioners.

14. The Board of Commissioners may authorize transfers between appropriation items by the County Executive or Fiscal Officer within limits stated in the appropriations measure. In no case, however, may such limits exceed those provided for in paragraph #21 of this resolution.

15. A deviation from the original general appropriations measure shall not be made without first amending the general appropriations measure through action by the Board of Commissioners, except within those limits provided for in Paragraph #16 of this resolution.

16. Appropriations accumulated at the following three summary levels of expense within each County Division will be deemed maximum authorization to incur expenditures: Salaries and Fringes, Overtime and Operating. The County Executive or the Fiscal Officer shall exercise supervision and control of all budgeted expenditures within these limits, holding expenses below individual line-item appropriations or allowing overruns in individual line-items providing that at no time shall the net expenditures exceed the total appropriation for Salaries and Fringes, Overtime or Operating expenses, respectively, for each division as originally authorized or amended by the Board of Commissioners. The Fiscal Officer shall submit to the Finance Committee a quarterly listing of all of the new line items created administratively for actual expenditures which were not properly classifiable in existing appropriation line-items. Line-item detail, division, unit or cost center detail and allotments, which provide a monthly calendarization of annual appropriations, as deemed necessary by the Fiscal Officer shall be maintained and utilized as an administrative tool for management information and cost control. The Fiscal Officer shall not approve any expenditure beyond that necessary to accomplish stated program or work objectives authorized in the general appropriation measure as originally approved or amended.

17. The Fiscal Officer shall maintain, for all budgeted funds, appropriation ledger accounts in which are to be recorded such expenditure encumbrances and obligations for the future payment of appropriated funds as he may approve.

18. Each purchase order, voucher or contract of Oakland County shall specify the funds and appropriation designated by number assigned in the accounting system classification from which it is payable and shall be paid from no other fund or appropriation. Instead, the necessary amount of the appropriation from such account shall be transferred pursuant to the provisions of this resolution to the appropriate general appropriation account and the expenditure then charged thereto.

19. No obligation shall be incurred against, and no payment shall be made from, any appropriation account unless there is a sufficient unencumbered balance in the appropriation and sufficient funds are or will be available to meet the obligation. In addition, all capital projects funded from the Capital Improvement Fund shall require approval of the Board of Commissioners on recommendation of the appropriate liaison committee (Planning and Building Committee) prior to initiation of the project. Any obligation incurred or payment authorized in violation of this resolution shall be void and any payment so made illegal.

20. The Fiscal Officer, after the end of each quarter, shall transmit to the Board of Commissioners a report depicting the financial condition of budgeted operations, including, but not limited to:

(a) A forecast of actual revenues by major source compared with budgeted revenues accompanied by an explanation of any significant variances.

(b) A forecast of actual expenditures and encumbrances by department compared with authorized appropriations accompanied by an explanation of any significant variances; and

(c) A forecast of actual expenditures, encumbrances and transfers from each of the several non-departmental appropriations and reserve accounts compared with authorized appropriations accompanied by an explanation of any significant variances.

21. Direct expenditure and/or transfers of any unencumbered balance or any portion thereof in any appropriation reserve for transfer account to any other appropriations or reserve account may not be made without amendment of the general appropriation measure as provided for in this resolution, except that transfers within and between budgeted funds and departments may be made by the Fiscal Officer in the following instances:

(a) Transfers may be made from the non-departmental overtime reserve account and fringe benefit adjustment account to the appropriate departmental budget as specific overtime requests are reviewed and approved by the Budget Division. Additionally, overtime appropriations may be transferred between divisions within a department at the request of the Department Head, if authorized by the Fiscal Officer or his designee.

(b) Transfers may be made from the non-departmental appropriation reserve accounts for Maintenance Department Changes to the appropriate departmental budget as specific requests for these items are reviewed and approved by the Fiscal Officer.

(c) Transfers may be made from the non-departmental appropriation reserve account, Summer Employment, and Emergency Salaries as specific requests for these items are reviewed and approved by the Personnel Department.

(d) Fringe benefit rates shall be established annually in the budget process to charge all Governmental, Special Revenue and Proprietary funded agencies for actual employer fringe benefit costs. Such rates shall be sufficient to meet all fringe benefit costs including sick leave and annual leave accumulations, as well as retirees' hospitalization and retirement administration. All funds collected for Retirement, Social Security (FICA), Hospitalization for active and retired employees, Disability, Dental, and Life and Accident Insurance shall be transferred to the Employee Fringe Benefit fund as established by Miscellaneous Resolution #81-312. Sufficient funds shall be maintained in the Employee Fringe Benefit Fund reserve account for sick leave accumulation and 100% of the annual leave accumulation. All funds collected for Workers' Compensation and Unemployment Compensation shall be transferred to their respective self insurance funds as established by Miscellaneous Resolution #81-012.

(e) An amount for capital improvements shall be added to the Building Space Cost Allocation charges. Funds collected as a result of this charge shall be accumulated in the Facilities Maintenance and Operations Fund for capital improvements. The transfer of these funds to the Capital Improvement Fund shall not be made prior to December 31, without approval from the Finance Committee of the Board of Commissioners.

22. The Board of Commissioners may make supplemental appropriations by amending the original general appropriations measure as provided by this resolution, provided that revenues in excess of those anticipated in the original general appropriations measure become available due to:

- (a) An unobligated surplus from prior years becoming available;
- (b) Current year revenue exceeding original estimate in amounts great enough

to finance increased appropriations.

The Board of Commissioners may make a supplemental appropriation by increasing the dollar amount of an appropriation item in the original general appropriations measure or by adding additional items. At the same time the estimated amount from the source of revenue to which the increase in revenue may be attributed shall be increased, or a new source and amount added in a sum sufficient to equal the supplemental expenditure amount. In no case may such appropriations cause total estimated expenditures, including an accrued deficit, to exceed total estimated revenues, including an unappropriated surplus.

23. Whenever it appears to the County Executive or the Board of Commissioners that actual and probable revenues in any fund will be less than the estimated revenues upon which appropriations from such fund were based, the County Executive shall present to the Board of Commissioners recommendations which, if adopted, will prevent expenditures from exceeding available revenues for the current fiscal year. Such recommendations shall include proposals for reducing appropriations, increasing revenues, or both. After receiving the recommendations of the County Executive for bringing appropriations into balance with estimated revenues, the Board of Commissioners shall amend the general appropriations measure to reduce appropriations or shall approve such measures necessary to provide revenues sufficient to equal appropriations, or both.

24. All appropriations are annual and the unexpended portion shall lapse at year end. Encumbrances and appropriations carried forward will be recorded as a reservation of fund balance and the subsequent year's budget amended to provide authority to complete these transactions, as defined in NCGA, Statement 1. The recommended year-end budget amendment shall be supported with a statement of revenues and expenditures and operating surplus or deficit which shall contain the following data: (1) budget as adopted; (2) budget amendments; (3) budget as adjusted; (4) revenues and expenditures, operating surplus or deficit; (5) accrued revenue and expenditures; (6) transfers; (7) total revenues and expenditures and transfers, operating surplus or deficit, including accruals and transfers; (8) encumbrances; (9) appropriations carried forward; (10) total revenues and appropriations utilized, operating surplus or deficit, including encumbrances and appropriations carried forward; (11) balance of revenues not collected, unencumbered appropriation balance, operating surplus or deficit; (12) detail of adjustments to designated and undesignated fund balance, detail of adjustment to reserves and/or any other utilization of surplus; (13) final surplus or deficit or undesignated fund balance carried forward to the subsequent year's budget.

25. A member of the Board of Commissioners, the County Executive, any elected officer, the Fiscal Officer, any other administrative officer or employee of Oakland County shall not create a debt, incur a financial obligation on behalf of the County against an appropriation account in excess of the amount authorized nor apply or divert money of the County for purposes inconsistent with those specified in the general appropriations measure as approved and amended by the Board of Commissioners. Funds shall not be expended or transferred from "off-budget" or balance sheet reserve accounts, contingent liability accounts, designated and undesignated fund balances without specific appropriation or other appropriate action by the Board of Commissioners.

26. Any violation of the general appropriations measure by the County Executive, the Fiscal Officer, any administrative officer, employee or member of the Board of Commissioners detected through application of generally accepted accounting procedures utilized by Oakland County or disclosed in an audit of the financial records and accounts of the County shall be filed with the State Treasurer and reported by the State Treasurer to the Attorney General.

Pursuant to Public Act of 621 of 1978, the Uniform Budgeting Act, the Attorney General shall review the report and initiate appropriate action against the person or persons in violation. For use and benefit of the County of Oakland, the Attorney General or Prosecuting Attorney may institute a civil and/or criminal action in a court of competent jurisdiction for the recovery of County funds disclosed by an examination to have illegally expended or collected as a result of malfeasance, and for the recovery of public property disclosed to have been converted or misappropriated.

27. The provisions of this act shall be applied to the General Fund and all Special Revenue and Proprietary Funds of the County, including Enterprise Funds and Internal Service Funds.

By John J. McDonald

IN RE: CIRCUIT COURT - ONE (1) ADDITIONAL COURT REPORTER III POSITION TO THE OAKLAND COUNTY BOARD OF COMMISSIONERS

Mr. Chairperson, Ladies and Gentlemen:

WHEREAS MCR 8.018 and MCL 600.1101 provides for court reporters in the circuit courts of this state; and

WHEREAS constant availability of a court reporter is important to maximize bench time of the County's Circuit Court Judges; and

WHEREAS the Circuit Court employs one (1) relief Court Reporter III to substitute for unavailable reporters in addition to contracting for professional relief Court Reporters as necessary; and

WHEREAS it has been necessary to schedule 256 outside reporters over the past twelve months, ending November 30, 1986, creating a disproportionate burden on administrative staff to coordinate and schedule these substitutes; and

WHEREAS the Circuit Court Administrator believes it is in the best interests of the Court to request that an additional Court Reporter III position be created to provide more dependable and cost effective services; and

WHEREAS the Circuit Court Administrator anticipates that a second Court Reporter III relief position will significantly reduce the need to schedule outside reporters.

NOW THEREFORE BE IT RESOLVED that one (1) temporary position of Court Reporter III be added to the Circuit Court Administration unit of Circuit Court for 90 days, effective January 1, 1987, in order for the Board to further evaluate the need for the position.

GLOSSARY

ACCRUED EXPENSES. Expenses incurred but not due until a later date.

ACCRUED INTEREST PAYABLE. A liability account reflecting interest costs incurred but not due until a later date.

ACCRUED TAXES PAYABLE. A liability account reflecting taxes incurred but not due until a later date.

ACCUMULATED DEPRECIATION. A valuation account to record the accumulation of periodic credits made to record the expiration of the estimated service life of fixed assets.

"ALL-INCLUSIVE" OPERATING STATEMENT. The basic financial statement which, under NCGA Statement 1, consists of the operating statement and the statement of changes in fund equity combined into a single GAAP basic financial statement.

ALLOTMENT. A portion of an appropriation which may be expended or encumbered during a certain period of time, e.g., monthly.

AMORTIZATION. (1) Gradual reduction, redemption, or liquidation of the balance of an account according to a specified schedule of times and amounts. (2) Provision for the extinguishment of a debt by means of a Debt Service Fund.

ANNUAL BUDGET. A budget applicable to a single fiscal year. See also **BUDGET** and **OPERATING BUDGET**.

ANNUAL OPERATING BUDGET. See **OPERATING BUDGET**.

APPRAISE. To make an estimate of value, particularly of the value of property. If the property is valued for purposes of taxation, the less-inclusive term "assess" is substituted for this term.

APPROPRIATION. An authorization granted by a legislative body to incur obligations and to expend public funds for a stated purpose. An appropriation is usually limited in amount and as to the time when it may be expended.

APPROPRIATION ACCOUNT. A budgetary account set up to record specific authorizations to spend. The account is credited with original and any supplemental appropriations and is charged with expenditures and encumbrances.

APPROPRIATION BILL, ORDINANCE, RESOLUTION, or ORDER. A bill, ordinance, resolution, or order by means of which appropriations are given legal effect. It is the method by which the expenditure side of the annual operating budget is enacted into law by the legislative body.

ASSESS. To value property officially for the purpose of taxation.

ASSESSED VALUATION. A valuation set upon real estate or other property by a government as a basis for levying taxes.

ASSESSMENT. (1) The process of making the official valuation of property for purposes of taxation. (2) The valuation placed upon property as a result of this process.

ASSESSMENT ROLE. In the case of real property, the official list containing the legal description of each parcel of property and its assessed valuation. The name and address of the last known owner are also usually shown. In the case of personal property, the assessment roll is the official list containing the name and address of the owner, a description of the personal property, and its assessed value.

ASSETS. Resources owned or held by a government which have monetary value.

AUDIT. A methodical examination of utilization of resources. It concludes in a written report of its findings. An audit is a test of management's accounting system to determine the extent to which internal accounting controls are both available and being used.

AUDIT REPORT. The report prepared by an auditor covering the audit or investigation made by him. As a rule, the report should include: (a) a statement of the scope of the audit; (b) explanatory comments (if any) concerning exceptions by the auditor as to application of generally accepted auditing standards; (c) opinions; (d) explanatory comments (if any) concerning verification procedures; (e) financial statements and schedules; and (f) sometimes statistical tables, supplementary comments, and recommendations. The auditor's signature follows item (c) or (d)

AUTHORITY. A government or public agency created to perform a single function or a restricted group of related activities. Usually such units are financed from service charges, fees, and tolls, but in some instances they also have taxing powers. An authority may be completely independent of other governments or partially dependent upon other governments for its creation, its financing, or the exercise of certain powers.

AUTHORITY BONDS. Bonds payable from the revenues of a specific authority. Since authorities usually have no revenues other than charges for services, their bonds are ordinarily revenue bonds.

BASIC FINANCIAL STATEMENTS. Those financial statements, including notes thereto, which are necessary for a fair presentation of the financial position and results of operations of an entity in conformity with GAAP.

BOND. A written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate. The difference between a note and a bond is that the latter runs for a longer period of time and requires greater legal formality.

BOND DISCOUNT. The excess of the face value of a bond over the price for which it is acquired or sold. The price does not include accrued interest at the date of acquisition or sale.

BOND FUND. A fund formerly used to account for the proceeds of general obligation bond issues. Such proceeds are now accounted for in a Capital Projects Fund.

BOND ORDINANCE OR RESOLUTION. An ordinance or resolution authorizing a bond issue.

BOND PREMIUM. The excess of the price at which a bond is acquired or sold over its face value. The price does not include accrued interest at the date of acquisition or sale.

BONDED DEBT. That portion of indebtedness represented by outstanding bonds.

BONDS AUTHORIZED AND UNISSUED. Bonds which have been legally authorized but not issued and which can be issued and sold without further authorization. This term must not be confused with the term "margin of borrowing power" or "legal debt margin," either one of which represents the difference between the legal debt limit of a government and the debt outstanding against it.

BONDS ISSUED. Bonds sold.

BONDS PAYABLE. The face value of bonds issued and unpaid.

BOOKS OF ORIGINAL ENTRY. The record in which the various transactions are formally recorded for the first time, such as the cash journal, check register, or general journal. Where mechanized bookkeeping methods are used, it may happen that one transaction is recorded simultaneously in several records, one of which may be regarded as the book of original entry. Memorandum books, check stubs, files of duplicate sales invoices, etc., whereon first or prior business notations may have been made, are not books or original entry in the accepted meaning of the term, unless they are also used as the media for direct posting to the ledgers.

BOOK VALUE. Value as shown by books of account. In the case of assets which are subject to reduction by valuation allowances, "book value" refers to cost or stated value less the appropriate allowance. Sometimes a distinction is made between "gross book value" and "net book value," the former designating value before deduction of related allowances and the latter after their deduction. In the absence of any modifier, however, the term "book value" is understood to be synonymous with "net book value."

BUDGET. A plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year. The term "budget" is used in two senses in

practice. Sometimes it designates the financial plan presented to the appropriating body for adoption and sometimes the plan finally approved by that body. Budget does not include any of the following:

1. a fund for which the County acts as trustee or agent
2. an intragovernmental service fund
3. an enterprise fund
4. a public improvement or building and site fund
5. a special assessment fund

BUDGET DOCUMENT. The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body. The budget document usually consists of three parts. The first part contains a message from the budget-making authority, together with a summary of the proposed expenditures and the means of financing them. The second consists of schedules supporting the summary. These schedules show in detail the information as to past years' actual revenues, expenditures, and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue, and borrowing measures necessary to put the budget into effect.

BUDGET MESSAGE. A general discussion of the proposed budget as presented in writing by the budget-making authority to the legislative body. The budget message contains an explanation of the principal budget items, an outline of the government's experience during the past period and its financial status at the time of the message, and recommendations regarding the financial policy for the coming period.

BUDGETARY ACCOUNTS. Accounts used to enter the formally adopted annual operating budget into the general ledger as part of the management control technique of formal budgetary integration.

BUDGETARY COMPARISONS. Governmental GAAP financial reports must include comparisons of approved budgeted amounts with actual results of operations. Such reports should be subjected to an independent audit, so that all parties involved in the annual operating budget legal appropriation

process are provided with assurances that government monies are spent in accordance with the mutually agreed-upon budgetary plan.

BUDGETARY CONTROL. The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

BUDGETARY EXPENDITURES. Decreases in net current assets. In contrast to conventional expenditures, budgetary expenditures are limited in amount to exclude amounts represented by noncurrent liabilities. Due to their spending measurement focus, governmental fund types are concerned with the measurement of budgetary expenditures.

CAPITAL BUDGET. A plan of proposed capital outlays and the means of financing them. See **CAPITAL PROGRAM.**

CAPITAL OUTLAYS. Expenditures which result in the acquisition of or addition to fixed assets.

CAPITAL PROGRAM. A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or otherwise.

It sets forth each project or other contemplated expenditure in which the government is to have a part and specifies the full resources estimated to be available to finance the projected expenditures.

CASH. An asset account reflecting currency, coin, checks, postal and express money orders, and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits. All cash must be accounted for as a part of the fund to which it belongs. Any restrictions or limitations as to its availability must be indicated in the records and statements. It is not necessary, however, to have a separate bank account for each fund unless required by law.

CASH BASIS. A basis of accounting under which transactions are recognized only when cash changes hands.

CERTIFICATE OF CONFORMANCE IN FINANCIAL REPORTING PROGRAM. A voluntary program administered by GFOA to encourage governments to publish efficiently organized and easily readable CAFRs and to provide peer recognition and technical assistance to the finance officers preparing them.

CERTIFIED PUBLIC ACCOUNTANT. An accountant to whom a state has granted a certificate showing that he or she has met prescribed educational, experience, and examination requirements designed to insure competence in the practice of public accounting. The accountant holding such a certificate is permitted to use the designation Certified Public Accountant, commonly abbreviated CPA.

CHIEF ADMINISTRATIVE OFFICER. The elected County Executive.

COMBINED STATEMENTS - OVERVIEW. The five basic financial statements comprising the first of the financial reporting pyramid's three reporting levels containing GAAP basic financial statements. They include: (1) Combined Balance Sheet - All Fund Types and Account Groups; (2) Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - All Governmental Fund Types; (3) Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - General and Special Revenue Fund Types (and similar governmental fund types for which annual budgets have been legally adopted); (4) Combined Statement of Revenues, Expenses, and Changes in Retained Earnings (or Equity) - All Proprietary Fund Types; (5) Combined Statement of Changes in Financial Position - All Proprietary Fund Types; and (6) Notes to the Financial Statements. Trust Fund operations may be reported in (2), (4), and (5) above, as appropriate, or separately. The Combined Statements - Overview are also referred to as the "liftable" general purpose financial statements (GPFS).

COMBINING STATEMENTS - BY FUND TYPE. The second of the financial reporting pyramid's three reporting levels containing GAAP basic financial statements. Such statements are presented for each fund type for which the government

maintains more than one fund. They include GAAP basic financial statements for each fund of a particular fund type in separate adjacent columns and a total column which duplicates the column for that fund type in the Combined Statements - Overview.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR). The official annual report of a government. It includes five Combined Statements - Overview (the "liftable" GPFS) and basic financial statements for each individual fund and account group prepared in conformity with GAAP and organized into a financial reporting pyramid. It also includes supporting schedules necessary to demonstrate compliance with finance-related legal and contractual provisions, extensive introductory material, and a detailed Statistical Section.

CONTINGENT LIABILITIES. Items which may become liabilities as a result of conditions undetermined at a given date, such as guarantees, pending law suits, judgments under appeal, unsettled disputed claims, unfilled purchase orders, and uncompleted contracts.

CONTROL ACCOUNT. An account in the general ledger in which are recorded the aggregate of debit and credit postings to a number of identical or related accounts called subsidiary accounts. For example, Taxes Receivable is a control account supported by the aggregate of individual balances in individual property taxpayers' subsidiary accounts. See **GENERAL LEDGER** and **SUBSIDIARY ACCOUNT**.

COST. (1) The amount of money or other consideration exchanged for property or services. Costs may be incurred even before money is paid; that is, as soon as liability is incurred. Ultimately, however, money or other consideration must be given in exchange. Again, the cost of some property or service may, in turn, become a part of the cost of another property or service. For example, the cost of part or all of the materials purchased at a certain time will be reflected in the cost of articles made from such materials or in the cost of those services in the rendering of which the materials were used. (2) Expense.

COST ACCOUNTING. That method of accounting which provides for assembling and recording of all the elements of cost incurred to accomplish a purpose, to carry on an activity or operation, or to complete a unit of work or a specific job.

COST LEDGER. A subsidiary record wherein each project, job production center, process, operation, product or service is given a separate account to which all items entering into its cost are posted in the required detail. Such accounts should be so arranged and kept that the results shown in them may be reconciled with and verified by a control account or accounts in the general books.

COST RECORDS. All ledgers, supporting records, schedules, reports, invoices, vouchers, and other records and documents reflecting the cost of projects, jobs, production centers, processes, operations, products, or services, or the cost of any of the component parts thereof.

COST UNIT. A term used in cost accounting to designate the unit of product or service whose cost is computed. These units are selected for the purpose of comparing the actual cost with a standard cost or with actual costs of units produced under different circumstances or at different places and times. See **UNIT COST** and **WORK UNIT**.

COUPON RATE. The interest rate specified on interest coupons attached to a bond. The term is synonymous with nominal interest rate.

Through this process, the entire cost of the asset is ultimately charged off as an expense.

They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative statement on the application of GAAP to state and local governments is NCGA Statement 1. The objectives of governmental GAAP financial reports are different from, and much broader than, the objectives of business enterprise GAAP financial reports.

GENERALLY ACCEPTED AUDITING STANDARDS (GAAS). Measures of the quality of the performance of auditing procedures and the objectives to be attained through their use. They are concerned with the auditor's professional qualities and with the judgment exercised in the performance of an

In Statement 1, the NCGA redefined governmental GPFS to consist of financial statements for each of the eight fund types in use and for both account groups presented in separate adjacent columns on the financial reporting pyramid's five Combined Statements - Overview.

statements; (4) interest on special assessment indebtedness which may be recorded when due rather than accrued, if approximately offset by interest earnings on special assessment levies; and (5) principal and interest on long-term debt which are generally recognized when due. All governmental funds and Expendable Trust Funds are accounted for using the modified accrual basis of accounting.
