"Change is the name of the game." This truly describes the changing responsibilities of the Reimbursement Division during the year of 1973. We shall attempt to list these changes chronologically as they occurred.

Much research was conducted by the Circuit Court judges, and in particular, Judge Robert L. Templin, on the feasibility of seeking reimbursement for Court appointed attorney fees from clients in accordance with their ability to repay Oakland County. This program was put into operation the first of February, and for the following eleven months, just under \$18,000.00 was recovered. Since the inception of the collection of Court costs, etc., in October of 1973, a larger percentage of these attorney fees are being collected, as we now have direct contact with many of the clients.

Those patients under twenty-one years of age, who were hospitalized in state mental facilities, and for whom Oakland County has been responsible for payment of the per diem cost of care to the state for the first year, became eligible for benefits under the Federal-State Title XIX program, providing they met the established criteria. Unfortunately, the Bureau of Social Services, and the Departments of Mental Health and Treasury, were not ready to coordinate this program until late 1973. In fact, some areas were not resolved as late as March, 1974. The delay in implementing this program resulted in considerable extra work and double handling for the Reimbursement Division. Because of the confusion, delay and uncertainty, and as Oakland County was charged for these patients on the Support of Patients, the Reimbursement Division processed insurances and collected from individual payees, so the resulting net adjustment that was received in 1973, and will be received in 1974, will be the amount of expenditures, less payments received. (See detailed report on Page 7.)

It was determined some two years ago by the Civil Counsels of Wayne and Oakland Counties that counties had been improperly charged for the cost of patients in forensic centers and Ionia State Hospital, dating back to 1967. The Reimbursement Division has been negotiating with the Department of Treasury for credit of some \$145,000.00, and \$77,000.00 was received as adjustments on the Support of Patients during

May 31, 1974

November and December, 1973. However, as these Support of Patients (adjustments) were not actually received until April of 1974, they will not be reflected in the general accounting procedures of the County until 1974, but are being included in this report.

The responsibility for collecting assessed court costs, restitution, and fines (approximately 1,200 accounts) was transferred from the Probation Department to the Reimbursement Division as of October 15, 1973. For those two and one-half remaining months of 1973, \$27,000.00 was collected.

During the year 1973, the bed availability improved markedly at Clinton Valley Center, which eliminated the need for emergency beds at Woodside Medical, Inc. You will note there was a decided increase in state institution expenditures for the mentally ill in the amount of \$300,000.00 (1973-\$1,244,000.00, and in 1972 - \$944,000.00), and a decrease in the cost of emergency mental care at Woodside Medical of \$157,000.00 (1973 -\$171,000.00 and in 1972 - \$328,000.00), which is a net figure after insurance payments have been deducted. This decrease included an increase in per diem rate beginning on January 1, 1973, from \$35.00 per day to \$52.00 per day.

Also, there has been a trend away from court processed cases to voluntary admittances (952 in 1973, and 279 in 1972), as detailed on Page 7. Because Oakland County is charged the per diem cost (presently \$44.58 per day) for voluntary patients, as well as patients admitted under court orders, the Reimbursement Division conducts the financial investigations and makes recommendations to the superintendent of the hospital as to ability to pay by the patient and/or the responsible relatives.

Yes, we did have a busy, changing year. Please call me if I can answer any questions.

The Reimbursement Division is responsible for collection of all charges ordered by the Probate Judges for care supplied by the County through the Juvenile Court. Whenever a child receives this care, a financial statement is taken and an order is entered commensurate with the parents' ability to pay.

* This amount includes \$2,366.18 credited to Oakland County on the State Support of Patients and represents one-half of the Social Security and Veterans' benefits collected by the Department of Revenue.

** Probate Support accounts represent monies collected and paid out as received to the person caring for the child. This is as decreed by the Probate Court order.

It is the responsibility of the Reimbursement Division to collect monies due the County of Oakland, as ordered by the Probate Judges, on all active and past due mental hospital accounts. All responsible relatives are interviewed by the Reimbursement Division and a detailed financial statement is compiled and submitted to the Probate Judge to assist him in making his determination as to ability to pay. Through these interviews, the need for verification of settlement and residence is often indicated, and the matter is investigated by the Reimbursement Division. Many hundreds of dollars each year are saved by this county as a result of these investigations; the charge is properly billed to the patient's county of residence, or assumed by the state-at-large, rather than by our county, the committing county.

Adjustment due Oakland County: \$353,871.88

Oakland County was charged for the above patients under twenty-one years of age during the year 1973. Because they qualify for benefits under the Federal-State Title XIX program, they will be reclassified as a State-At-Large charge, and Oakland County will eventually receive adjustment for these patients. Some \$182,800.00 of these adjustments were credited on the November and December Support of Patients and are included in this report, but were not actually transmitted to Oakland County until late April, 1974, so will not be reflected in the general accounting figures until 1974.

The above report was compiled from the "Support of Patients" - the form used by the Department of Revenue, State of Michigan, to bill counties for the first 365 days of hospitalization in state institutions. Oakland County is charged for the first 365 days an Oakland County resident is hospitalized, and care after this initial period is as a state-at-large patient. Therefore, a percentage of those patients listed as discharged might still be hospitalized as state-at-large charges.

Please see pages 12 thru 13 for a more detailed report of individual hospitals.

EMERGENCY MENTAL HOSPITALIZATION

During the year 1973, the number of individual cases hospitalized at Woodside Medical, Inc., under our emergency mental program, totalled 403, in contrast to 1,066 cases in 1972.
