Are You Willing to Pay \$15 to \$60 for Each Person in Your Household, Every Year Forever To Help Pay for a Subway in Detroit?

GUEST EDITORIAL

This editorial is submitted by Richard Wilcox, who is an Oakland County Commissioner representing District One.

For years SEMTA (South Eastern Michigan Transportation Authority) has been conducting studies and holding hearings to determine what type of public transportation should be provided for the residents of Wayne, Oakland and Macomb Counties. During that period of time they have provided bus service for some areas of the region and have operated a train from Pontiac to Detroit.

I am not against regional transportation. I am not even against a regional system that makes Detroit the hub of the system and is supported partially with my tax dollars. I am against a system that takes such a big share of the money for the hub that there isn't enough left to build the spokes and give adequate public transportation to the rest of the region.

The big decision for SEMTA has centered around a subway for the City of Detroit. I have campaigned against a subway from its inception. The cost of building a subway is too great. The money it will take to build a subway could be better used for an all bus system that would serve a lot more people.

In the past I have sponsored resolutions to the Oakland County Board of Commissioners that said we would withdraw from SEMTA if they decided to build a subway. Those resolutions didn't pass but they did receive a lot of support.

Several weeks ago SEMTA voted to adopt a plan that included a subway from downtown Detroit to 6 Mile Road and surface rail from 6 Mile to 10 Mile Road in Oakland County.

That plan was sent to the State Legislature who must vote to approve the plan and appropriate almost One Million Dollars for preliminary engineering. Last week the Senate voted 18 to 18 on the bill. It takes 20 votes for passage and most of the experts feels that it will be reconsidered this week and that it will pass.

If the State appropriates the money for preliminary engineering and the Federal Government comes up with the grant money to build the subway (which they have promised) the subway still may not be built.

Wayne, Oakland and Macomb Counties have to tax themselves to operate the system. Present estimates are that every person in the region will be taxed anywhere from \$15.00 to \$60.00 per person, per year, forever to pay the operational costs of the system.

Under the present statutes each county will have to put the tax question on the ballot and it will have to pass in each county. Some supporters of the tax proposal are trying to get the statute changed so that if a majority of the voters in the region approve it it will become law. Under that method, Macomb and Oakland could defeat the tax proposal but it could still pass if enough people in Wayne voted for it. Also

"If we don't have some better roads in North Oakland County we won't even be able to drive our cars out to a point where we can get the public transportation..."

Richard Wilcox, County Commissioner

State Representative Ryan is working on a proposal that would make you pay the tax without having an opportunity to vote on it.

If you don't like the subway proposal there is another alternative. This is what I propose. Oakland County can withdraw from SEMTA (18 of its 27 Commissioners must vote for it) and set up their own Transportation Authority. They would then be eligible for some funding to set up a public transportation system that will serve the residents of Oakland County. We will still have to come up with some money to operate the system. But the money raised in Oakland County will be used for transportation in Oakland County, not to operate a subway in Detroit.

It does not make sense to have a regional system and spend all of the money to put a subway down Woodward Avenue in Detroit. If we don't have some better roads in North Oakland County we won't even be able to drive our cars out to a point where we can get the public transportation.

How do you feel about public transportation? Do you favor the subway? Do you think Oakland County should stay in SEMTA? I would like to know your opinion. Call me days 627-2843 or write 260 M-15, Ortonville 48462.

special events

Clarkston Hosts Color Guard Competition

On Sunday, February 24, at 8 p.m. the Clarkston Band Boosters will be hosting a Midwest Color Guard

Circuit-Clarkston Open Competition at the Clarkston High School gymnasium. Fourteen guards representing Michigan, Indiana, Ohio and Illinois will be competing. The big attraction will be the all male Cavalier Guard from Park Ridge, Illinois. The Clarkston Winter Guard has already competed in four Midwest Competitions this season. Two in Illinois and two in Indiana. Tickets may be purchased at the door.

American Squad: Jayne Sheehy and Karen Thomas. Flag Line - Pam Bachor, Toni Biagini, Debbie Dobson, Carolyn Green, Cindy Hawley, Kim Kline, Audrey Mandilk, Wendy Priebe, Karen Soltes, and Nancy Soltes.

Rifle Line - Deanna Brewer, Dennis Farmer, Laura Little, Shelley Little, Donna Lucas, and Debbie Ragatz. Instructors - Dave Austin, Lori Garner, Becky Hill, Scott Kuhlrow, and Grover Clark. Sponsor - Yvonne Wilson.

Designers to Speak to ABWA

The Inde-Spring Charter Chapter of the American Business Women's Association will hold its monthly dinner meeting at 7 p.m. Tuesday, February 26, at Spring Lake Country Club in Clarkston. The guest speaker will be Dianne Offer, an interior designer at Beattie Interiors of Waterford. The vocational speaker will be Ann Morgan from The Clothes Tree in Clarkston. For more information, call 625-8036 after 5:30 p.m.

Lakeland Players Present Comedy

Lakeland Players present "Move Over Mrs. Markham", a comedy in two acts at Mason Junior High School, Walton Boulevard, February 29 and March 1, 7 and 8.

Cranbrook to Show "Small Change"

Comedy laced with realistic drama characterizes the Cranbrook P.M./Encore Cinema film "Small Change" to be shown at 8 p.m. February 25 and 26 in the Cranbrook Institute of Science auditorium, 500 Lone Pine Road.

Francois Truffaut, who directed the 1976 film, worked with non-actors to construct a vision of childhood steeped in both trauma and hilarity.

Following the showing, Cranbrook School English teacher Jeff Welch will discuss the entertaining aspects of the film.

Tickets, at the door, include the film and its commentary, an open discussion, program notes and gourmet dessert with coffee to be served at 7:30 p.m.

Cranbrook P.M. presents twice a year a series of educational, practical and recreational courses at Cranbrook and Kingswood schools. Proceeds go to the schools' general scholarship funds.

Nurses to Meet February 28

St. Joseph Mercy Hospital, Pontiac, will host a meeting of the North Oakland Chapter of the Nurses Association - American College of Obstetricians and Gynecologists (NAACOG), on Thursday, February 28, from 7 - 9 p.m. in the hospital auditorium.

All nurses involved in obstetrics, gynecologic and neonatal nursing are encouraged to attend. Membership in the NAACOG is not required.

For further information please call Hazel Stewart, RN, St. Joseph Mercy Hospital, at 858-3560.

Publicity chairpeople please note:
Send all coming events information to

Dinner Theatre at Spring Lake

Brandon S.T.A.G.E. is currently in rehearsal for "The Last of the Red Hot Lovers" to be presented in dinner theatre in April at Spring Lake Country Club in Clarkston.

"Red Hot Lovers" has been cast by Director Becky Roberts. The play is an adult comedy set in the late 1960's, another success by Neil Simon. All four characters are central to the action of the play. They are as cast Barney Cashman, Dick Williams (Don Thompson); Elaine Navazio, Marge Forbes (Faith Harris); Bobbie Michele, Fran Moore (Nancy Pierson); Jeanette Fisher, Betty Dewilde. (The second cast appears in parenthesis).

Immunization Deadline Nears

The Oakland County Health Division is providing two free immunization clinics for Oakland County children from 10:00 a.m. to 3:00 p.m., Saturday, March 1 at 1200 North Telegraph Road, Pontiac (County Complex).

Any child who is inadequately immunized may be brought to the clinic during these hours. Parents should bring:

1. All records of previous immunizations; and/or
2. The letter received from the school indicating immunization needed.

No immunizations will be given without a parent present to sign consent forms.

Anyone with questions on immunizations should call the Oakland County Health Division's "Nurse-on-Call", 858-1406 at the Pontiac office, or 424-7050 at the Southfield office.

The following school districts have an exclusion date of Monday, March 3, 1980, for students who have not submitted a record of adequate immunization:

1. Grade 10 - Avondale, Berkley, Birmingham, Bloomfield Hills, Clarkston, Clawson, Farmington, Holly, Lake Orion, Oxford, Pontiac, Rochester, Royal Oak, Troy, and Walled Lake.
2. Grade 5 - Avondale, Bloomfield Hills, Clarkston, Clawson, Farmington, Holly, Lake Orion, Oxford, Pontiac, Rochester, and Troy.
3. Kindergarten and New Enrollee from outside Oakland County - Bloomfield Hills, Clawson, Holly, Lake Orion, Oxford, Pontiac and Rochester.

WHOM SHOULD I CALL AT THE TIME OF DEATH?

Many phone calls will have to be considered after the death of a member of the family. Here are the calls you should plan to make immediately.

Immediate family members - perhaps one or two could be placed and they in turn could call others.

Your clergy person - he can provide spiritual support and sustenance to help you with the emotionally difficult tasks ahead. He will also work directly with the funeral director to assure that the funeral service meets all your needs.

Your funeral director - he will provide the necessary professional services required for proper disposition of the body. His services also include suggestions as a helpful guide to further calls that may have to be made.

Our services provide co-operative planning with clergy, fraternal and family members to make possible a funeral service that is personally planned for you.

Solar Power: Two Proponents Explain How

Donna McCall

Landscaping Important to Solar Home

by Carol Balzarini

Donna McCall, horticulture and landscape instructor at the Northwest Oakland Vocational Education Center (NWOVEC), is one of the principle participants in a series of passive solar energy seminars sponsored jointly by the Waterford School District and the North Oakland County Builders Association.

The session held Saturday, February 9, was the first of five slated to run through March 15 at the district's administrative offices. The seminars are being conducted as part of a federal grant awarded to the district to construct a passive solar energy house.

With only a half dozen of these grants awarded nationwide, Waterford is the only school district in Michigan to receive one. A project of the building trades classes of the three high schools, the site is located near the administrative offices on Pontiac Lake Road.

In her presentation to those attending the opening seminar, McCall explained the importance of landscaping and planting in the overall success of a passive solar energy house.

(Note: Passive, as opposed to active, means thermal

Continued on Page 10

Solar Power Free, Why Not Use It? Asks Michael Clark

by Carol Balzarini

Michael Clark has been to at least two recent Independence Township Board meetings making his presence known by asking questions and offering suggestions.

At one he asked how energy efficient the new DPW building on Fennings Lake Road was going to be. At the other he suggested that federal revenue sharing funds be used to conduct energy audits in every home and business in the township when requested. People would then know where and how energy could be conserved, he said.

Who is Michael Clark and why is he so concerned about energy conservation?

Michael Clark lives with his wife and child in a 50-year old home on Clintonville Road built by his grandfather R.J. Clark. Because his father was with the Air Force, he lived all over the globe as a child but spent his summers at Torch Lake in Northern Michigan. Because Clark lived with his grandfather while attending the University of Detroit earning a degree in architecture and environmental studies, he considered his roots to be right here in Clarkston.

R.J. Clark exerted considerable influence on his grandson as far as his environmental concerns. The elder Clark, in cooperation with Oakland County, diverted Sashabaw Creek through his property, dammed it creating a lake and wetland area, stocked it with fish and planted wild rice.

Another influence on Clark was the late architect Frank Lloyd Wright who advocated working with nature in his environmental designs. Clark said Wright was saying in 1949 what is being said today about the importance of conservation and cooperation with nature.

To coin a term of another recent generation, Clark could be called "anti-establishment". He chose not to become a licensed architect criticizing those affiliated with the American Institute of Architects as being afraid to rock the architectural boat.

They have, he said, too many connections with other large corporations such as oil companies and utilities.

"Their (the architects) idea of conservation is an extra inch of insulation. Big deal..."

Michael Clark

Power is too centralized in this country. Too few make too many decisions for the majority.

"Their (the architects) idea of conservation is an extra inch of insulation. Big deal! They won't take the time to cost out utility costs which may exceed house payments one of these days. That's my objection to being a registered architect."

Instead, following graduation, Clark married Lisa Braun of Clarkston and took her to live in his cabin at Torch Lake. There the two of them began to research solar energy products finding there was no real source of information even on the federal level. Their work had to

You Deserve a Plant Today from Bordine's

Take a break from the mid-winter doldrums and come to Bordine's Greenhouses where you can rediscover how nice it is to be around plants. Get to know some of the 600 or more varieties and pick out one for yourself.

Hanging Baskets

Pothos (Devil's Ivy) Heart-shaped, green waxy leaves marbled with golden yellow. 8" basket **\$8.98**

Lipstick Plant Red two-inch tubular flowers resemble tubes of red lipstick when unopened. Cascading 12-18" stems and medium green leaves for a very full, eye-catching basket. 8" basket **\$8.98**

Cacti & Succulents

Aloe vera (Medicine Plant) Rosettes of long, pointed light green leaves flecked with gray-white. Juice of leaves said effective for minor burns. 4" pot **\$2.98**

Hoya (Wax Plant) Easy care, vining plants with trailing stems. Fragrant star-shaped flowers in summer. Three varieties to choose from:

'Rubra' or 'Tri-color' 4" pot **\$1.49** each
'Regalis' (Hindu Rope Plant) 4" pot **\$1.98** each

Lithops (Living Stones) Succulent leaves imitate both the shape and coloring of rocks. Grow in stemless-clumps of paired leaves about 1-2" in diameter. 2" pot **\$2.98**

50 Varieties of Cacti Something for every gardener from the sunny windowsill gardener to the avid collector. Unusual plants that are sure to draw comment from friends and visitors.

Large, Interior Designer Plants

Ficus Benjamina (Weeping Fig) The indoor tree used in homes, offices and malls for architectural effect. Graceful arching branches of glossy, dark green, pointed leaves. 6' tree **\$129.98** 8' tree **\$169.98**

Ficus Decora (Rubber Tree) Very durable, easy to care for plant. Dark green, leathery leaves with red highlights. Multiple branched specimens. 5' tree **\$29.98**
6-8' tree **\$75.00**

energy is collected, stored, transported and released without the aid of pumps, fans, or other mechanical devices.)

She urged builders present to preserve and maintain the natural vegetation found at a building site and to work around it. She told them landscaping could be used to achieve maximum energy efficiency.

Other points McCall made included using proper landscaping to reduce heat loss in the winter and to reduce the need for air conditioning in the summer. It can also be used to control snow drifting or to allow snow to be used as an insulator.

Plantings, she continued, can provide natural air filtration while dirt from the foundation excavation plus excess building materials can be used to create earth berms.

Evergreens provide a natural wind break. Deciduous trees, those which lose their leaves in winter, provide shade in summer and allow penetration of the sun in the winter. Vines can be planted to insulate a house when trees cannot be keeping a house cooler in summer.

McCall divided evergreens and deciduous trees into categories according to their growth rates, slow, moderate, fast and very fast, saying that should also be a determining factor in selection.

She said later that she had little knowledge of solar building techniques prior to the seminar preparation although she was interested in the concept. She said her input in the seminar was mainly to increase the saleability of the house by making it more aesthetic. She was also anxious to pass what she learned on to her students whom she said had to be trained for the future rather than just for today's market.

McCall said her students would be doing the actual planting at the solar house once the weather improved while she had done the layout of the plantings herself. They hope to have the landscaping finished in time for the open house but that date is, as yet, unset.

Landscaping is the other half of the program offered at NWOVEC in addition to greenhouse management. The students spend the spring and fall months outside and the rest of the school year in the greenhouse.

Michael Clark

Continued From Page 7

be done independently.

While living somewhat primitively in their cabin, the couple used a "crude but effective" solar water heater so hot they could make coffee from the tap, Clark said.

Research eventually turned up a company in Clearwater, Florida, willing to give him on-the-job training. It made heat exchangers, storage tanks, collectors, complete solar systems. Clark bought the Tampa Bay franchise and was in business.

Later he became a consultant for the parent company and "really got an education" traveling all over the country in behalf of solar energy. At one time he testified in Lansing when State Representative Perry Bullard of Ann Arbor co-sponsored legislation giving tax credits for solar energy installation in homes. The state allows a 25 percent tax credit while the federal government allows 30 percent. Few people know this, Clark said.

Few also know that solar energy works as well in Michigan as it does in Florida, the size of the collectors and the storage just has to be increased. That's why Clark is here advocating solar energy and not in the sunny south.

He is currently working in Clarkston as a solar energy consultant while waiting for a cannery in Traverse City to be converted to an assembly plant for solar energy components. With the cost of winter heating what it is today, Clark feels it's absolutely essential to "sell" the concept of solar heat in the northern areas.

Clark was as critical of the newly-created Department of Energy as he was of architects. He claimed it was "designed not to advance solar energy. The government is run by the oil companies and utilities, they pull the strings," he said.

It was only created, he said, to benefit those corporations. Politically it sounds good "but they're not doing anything. We and the media have been led around by the nose."

Clark said nuclear and coal energy are still centralized power and that is why they are being advocated by the utilities. Solar power is free, that's why they aren't pushing it. They can't put a meter on the sun. The utilities are really not interested in having people conserve energy even though they say they are, he charged.

On the subject of what Clark has called an Energy Mobilization Task Force, he said, "It's a good idea. Once it gets going, people will come to us here in Independence Township to see how we did it. What better way to spend federal funds?"

An energy audit, he explained, for homes and businesses would tell people how to save money. The

utilities will not give an unbiased survey because they are in the business of selling energy.

"Rich or poor, this audit will help everyone in the township. We can work within their income and make a list of priorities," Clark said. That way conservation methods can be installed when the individual has the money for them, they won't all have to be done at once.

Clark was clearly enthusiastic about the project saying he'd like to do all 5,000 residences in the township in the next two years.

"When one or two people get results in lower fuel bills, their neighbors will want to get involved... We can also collect information on where to get these things done, agencies which will pay for it if someone can't afford to make the recommended changes. We'll try to hit the low and fixed income people first, but everyone ought to take advantage of it (the audit)."

Conservation can even be built into local zoning ordinances, Clark said. In the City of San Diego, new houses must have a solar hot water system. Other communities are requiring 2 X 6 construction instead of the traditional 2 X 4.

A solar hot water system runs about \$2,200, Clark said, and can pay for itself in five years. With it comes a tax credit of \$7-800. The average family of four nationally spends \$20-25 per month for electric hot water heating. The utility base rate is based on hot water consumption, the greatest useage of electricity, second only to heat in northern areas and air conditioning in southern areas.

Clark will also be working with builder Bob Futrell in the near future building solar homes. Builders and architects, he reiterated, should be leading the cause of energy efficiency.

Planning Commission Approves Amusement Park Concept

Despite suits, countersuits and negotiations with the county, Pine Knob went ahead with its plans to add an amusement park to its resort area gaining Independence Township Planning Commission approval of the concept on a 6-2 vote.

Pine Knob representatives Gary Francell and Anthony Locricchio told commission members a suit filed by Borg-Warner this week in federal court would have no effect on their plans. In fact, they said they have filed their own suit for \$15 million against Borg-Warner which, they said, has violated an agreement to not

interfere with the development of the rest of the complex. They had no comment on a rumored law suit over the loss of a proposed 21-story hotel rejected by referendum vote last October.

Borg-Warner owns about 200 acres on the south side of the property with plans to build an eventual 650 homes. Francell and Joseph Locricchio own the remainder including the mansion, golf course, ski lodge and music theatre.

In the meantime, negotiations and deliberations continue with Oakland County over the feasibility of county purchase of the financially troubled resort. Director of Parks and Recreation Eric Reickel is pursuing the purchase which must ultimately have the approval of the Oakland County Commissioners.

Francell, however, told the planning commission these negotiations were "tentative" and that no purchase price had even been discussed.

The question of an amusement park to be located between the music theatre and the ski lodge was tabled from the January 24 meeting to seek the attorney's opinion of the subject of the park itself in a recreation district and the question of the heights of certain proposed structures such as the ferris wheel and a parachute drop.

In a letter to township building director Tim Palulian, attorney Richard Campbell said research and review showed the law tended to favor amusement parks in recreation areas and that courts were inclined to treat the implementation and operation of amusement parks and recreation areas with a "reasonable amount of liberality."

"Judicial attitude reflects the social attitude" in favoring this type of recreation, something to be considered by the planning commission, he said. Rulings were favorable if the park were well done and well run.

It was also Campbell's opinion that planner Tod Kilroy

was correct when he told the commission a ferris wheel and a parachute drop could not be considered buildings and therefore not subject to the township's two-story height limitation. He contended it would be "ludicrous" to approve the park but not the ferris wheel.

Much of the concern of the planning commission members centered on questions of boundaries for the park and hours of operation coupled with noise. Chairman Jim Smith stated "severe limitations" should be a part of any approval of the concept.

Kilroy reminded them the application had been made for concept approval only on that particular site. They must determine if the proposed use is compatible with the other uses of the property. Legal descriptions would come in final site plan approval.

On a motion by Mel Vaara to give conceptual approval, seconded by John Gray, the planning commission voted 6-2 to approve. Only Jean Saile and Jean Benzing voted no.

Parents Pack Board Meeting to Protest High School Attendance Policy

by Carol Balzarini

Monthly board meetings of the Clarkston Community Schools usually generate little public interest with attendance limited to teachers and administrators with a couple of reporters thrown in. The February meeting was an exception, however, as some 100 people filled the board room.

The primary reason for such interest was a change in the attendance policy of Clarkston High School which seemed to have caught some parents unaware. They came to protest the change itself and its application and to even question its legality.

This year there is a 24-hour limit on call-ins for

excused absences. Beyond that, they are unexcused. Principal Dom Mauti explained that in the past parents of students with absences over the limit could come in at the end of the semester and validate those absences.

The attendance policy plus its stated changes were sent home to the parents in two newsletters, one in September and one in December, with the word SAVE printed at the top of the page.

In addition, Mauti said, the policy was to have been read to every student in his homeroom at the beginning of the semester and a student handbook given to each. Also every teacher was to have explained excused and unexcused absences plus tardy policies.

If, at the end of the semester, a student has been absent more than five days in a marking period or ten days in a semester, credit may be withheld. The student must pick up an appeals sheet in the office and take it to all of his teachers.

If one or more teachers indicate credit will be withheld, the student then goes to the appeals committee made up of Mauti, assistant principals Jan Gabier and John Kirchessner, and three teachers. In the past only the three administrators comprised the committee.

The committee reviews the case and either upholds or denies the appeal. If denied, the student and his parents may make an appointment with school administrators to review the situation again.

Given a hypothetical case of a student with twelve excused absences and two skips, Mauti said an appeal would more likely be granted if the skips occurred at the beginning of the semester rather than at the end of it. The student would theoretically have learned from being warned about truancies.

Mauti concluded by saying, "We think its (the policy) fair and reasonable. The students have been informed. I don't believe they were unaware."

He did not anticipate any changes in the policy this year but said next year there may be greater emphasis on unexcused absences, tardies, and skips.

Superintendent Milford Mason said the new policy was an effort to curb "dramatically rising absenteeism," and that school philosophy equated proper attendance with achievement. Eighty-three percent of the 1660 high school students were not affected by these changes in attendance procedures, he added. The 288 who appealed their cases represented 667 individual cases. Of the 288, 193 appeals were granted.

CLARKSTON MILLS MALL
20 W. Washington
625-2500

**Deposit \$100
and earn
high interest
for 2 1/2 years**

**NOW...almost everyone can
afford high interest!**

Annual Rate	Effective Annual Rate
10.650	11.402
CONTINUOUSLY COMPOUNDED	

You'll earn top-of-the-market, continuously compounded interest in a First Federal of Oakland 2 1/2-Year Certificate Savings Account... and all it takes is an easy \$100 minimum deposit.

The interest rate varies each month on this type of certificate but, once you open your account, the current rate is "locked-in" — GUARANTEED — for the entire 2 1/2 year

term*. And that's especially important today, since many experts predict interest rates may fall during that period.

So put your money to work earning guaranteed high interest. Come on in to First Federal of Oakland and open a 2 1/2-Year Certificate Savings Account today. It's easy to earn high interest at First of Oakland... and it only takes \$100!

**First Federal Savings
of Oakland**

Main Office: 761 W. Huron St. Pontiac, Mi 48053 313-333-7071
With offices serving Oakland, Macomb, Lapeer,
Benihar and St. Clair counties

*Federal regulations require a substantial interest penalty for early withdrawals from certificate accounts

Clarkston Office: 5799 Ortonville Rd., 625-2637

Angela Benscoter Wins Davisburg Elementary Spelling Bee

In conjunction with the Detroit News Spelling Bee the Davisburg Elementary fifth and sixth graders took part in a school spell-down involving the ten top spellers in each of the fifth and sixth grades. The school winner is Angela Benscoter, a sixth grade girl; with the school runner-up being determined as Kim Brohl, another young lady in the sixth grade.

Local Girls to Perform in New York

Two local girls, Stacy Nichols and Molly McGuire, are traveling to New York February 20 - 24th with the Academy of Popular Vocal Arts directed by Gene and Audry Grier, who sing with Norman Luboff. They will be performing in New York at the American Choral Directors Association convention.

The group meets at Oakland University every Saturday from 9 - 5 p.m. They have made one record album and are recording another one in the Spring.

April 26 they will hold a concert at Varner Hall at Oakland University.

To Your Health from the Sunshine State

The Psychic

by Eileen Corey Norwood

After telling my sister of a psychic flash I had, she turned to me and said: "Eileen, you're crazy, you know that is not going to happen." My inner sense caused me to stand firm that it would happen, as each psychic experience I had in the past, did happen.

It is not easy to be called crazy when each day you see

Anderson Appointed

Matthew J. Anderson, recently appointed sales representative for Braberry Sales Corporation to cover the state of Michigan. Braberry is a nationwide distributor of parts for automatic screw machines, accessories and tooling. Anderson and his family live in Clarkston.

things happening that your inner sense envisioned ahead of time. I told her some day you will be one who is blessed with having a vision and people will tell you you're crazy. She laughed and replied: "That will be the day to call the paddy wagon, when I have a vision."

Months passed, it was Spring and I had located my grandfather's grave site through my psychic powers. It was more than she could stand, so she called Mary, my other half sister to tell her about it. They decided to find the gravesite of my older half sister's grandfather.

It was a bright sunny day when my sister decided to take her lady friend riding to the Brevort Cemetery to locate the gravesite of our oldest sister's grandfather. She then searched and found the stone, which had the death date and birth date of Joseph Metty on it. She wrote down the information from the stone and also the inscription of the grandmother's stone. Lillian called Mary to tell her she had found both tombs and had the data from them.

The Sunday following Mary drove over a hundred miles round trip to visit the gravesite of her grandfather along with sister Lillian who had located it. They searched the whole graveyard and found no such monuments in the place.

Much to sister Lillian's surprise, she had a psychic vision and the dates she had taken off the tombs were the same dates registered in the family Bible.

A few days later I went to visit sister Lillian, she met me at the door laughing, as she said: "You're going to

think I'm crazy at what happened". I Replied: "No, I know you're crazy, as you had a vision of gravestones that weren't there, but I vision things that really take place." Her psychic vision was the funniest thing and her first.

absentee ballots for public elections may be mailed free of postage was adopted.

LOT SPLIT -- Lot 20, Supervisors Plat 12; Norman Road. Request that Lot 20 be split and combined with Lots 19 and 21. Approved.

OLD BUSINESS:

1. Electrical Ordinance adopted.
2. Letter and map received regarding proposed scheduling and routing of M-275.
3. Parks and Recreation Master Plan approved.
4. Amendment to Frosty Boy Site Plan was approved.

NEW BUSINESS:

1. Rezoning.
A. Request by Russell that 14.85 acres located at the corner of Bigelow Road and Rattalee Lake Road be rezoned from PUD to R-2 was approved.

B. Request by Brandel that approximately 3 acres at 9539 Dixie Highway be rezoned from C-1 to M-1 was denied.

C. Request by Underwood that Lots 79 - 82, Bridge Lake Subdivision, Dixie Highway be rezoned from R-3 to C-1. Mr. Underwood modified his request to change the proposed zoning from C-1 to O-S. The request will be sent back to the Planning Commission for their recommendation.

2. Letter from the Village of Holly notifying the Township that the charge for Fire Department dispatching will be increased from \$2,500 to \$8,000 effective April 1, 1980.

3. Letter from the Oakland County Clerk's Office indicating that Townships may choose not to elect any Constables. It was the determination of the Board not to elect a Constable at the next election.

4. Opinion statement by Supervisor Walls regarding Michigan Department of Public Health.

5. Senior Citizen Housing Report by Supervisor Walls.

6. Resolution in opposition to the Presidential Primary was adopted.

7. Letter and map received from SEMCOG regarding the Sewer Service Area Plan for 1990.

8. Letter and resolution received from the Oakland County Drain Commission regarding regionalizing of the Detroit Water and Sewer System. No action taken.

9. Letter from the Oakland County Road Commission requesting that Supervisor Walls circulate petitions for the abandonment of the uncertified sections of Ware Road and Tucker (Eaton) Road. No action taken.

10. Presentation by Mr. Harry Mosher of Mosher-Mead-Kapelczak, Township Engineers, regarding a Township Subdivision Construction Policy.

11. Discussion regarding an Ordinance Enforcement Officer as recommended by the Planning Commission. No action taken.

12. Authorization given for Mr. Walters, Township Clerk, to attend the second session of the International Clerk's Institute to be held at the Kellogg Center in Lansing April 13-18, 1980.

13. Allocation of \$1800 for office partitions approved.

14. Authorization for Supervisor Walls to attend the Four-Township Cooperative meeting as representative of Springfield Township.

OTHER BUSINESS:

1. Letter to the Township Historical Society regarding designation of a historical district.

2. Information and attorney's opinion regarding Economic Development Corporation.

BILLS:

Authorization to pay the bills as presented.

General Fund: \$6,634.80

Fire Department: \$1,567.22

ADJOURNMENT:

The meeting was adjourned at 10:00 p.m.

Respectfully submitted,

J. Calvin Walters

Springfield Township Clerk

Why Not Ask Carolyn?

take vacation time to make this possible if your mother lives too far for your husband to commute back and forth to work.

Another suggestion would be for your husband to stay home with you for a week or so to help you around your apartment.

Whatever way you can work it out, I do think it will be important for you to have help after you deliver.

Thoughtfully,
Carolyn

c/o The Reminder
6561 Dixie Highway
Clarkston, MI 48016

Dear Carolyn,

I am due to have a baby in March. It's our first and I'm a little scared about how to care for a new baby. My mother wants me to come to her house for a week or two so she can help me. We only have a one bedroom apartment right now so it would be too difficult for her to come here. My husband isn't too excited about me going there. He wants me home. I don't know what to do.

Mother-to-be

Dear Mother,

I can understand your husband wanting you and the baby home. I can understand your concerns and your mother's concerns.

From the standpoint of your physical health, you will need some time to regain your strength before resuming full care of your family and home. Mothers are also wonderful at helping you learn how to care for a newborn.

I think it is very important you, your husband, and baby be together as a family from the very beginning. It is important both you and your husband share in the care of your baby. This helps mold you together as a family unit.

With this in mind, would it be possible for all three of you to go to your mother's? Perhaps your husband could

Wolves at Their Best in Silverdome Debut

by John Huttenlocher

"I was really impressed with the facilities, but it is such an open atmosphere, the crowd doesn't seem to be an important factor. The crowd really doesn't matter, as long as we're a team, though I do love big crowds." Those were the words of Tim McCormick after the Wolves down-right defeated the Davison Cardinals in the Silverdome 75-58.

If you saw the game, you'll know that McCormick had some fun. He chalked up 15 rebounds, 26 points, and 3 dunks. Not just dunks, but slam-dunks.

Ed Haddad and Chuck Nicolai also hit double figures in the dome. Haddad with 16, Nicolai with 12.

Three Skiers Win Medals at Regionals

Three Clarkston High School skiers won medals in last week's regional ski meet held at Pine Knob.

Sophomore Angela Balzarini took seventh place in the girls slalom and just missed another medal finishing eleventh in the giant slalom.

Junior Rick Emerson took a ninth place in the boys slalom and finished 23rd in the giant slalom.

Senior Bill Cattin, in the last meet of his high school career, went all out taking a tenth place medal in the

slalom and finishing 28th in the giant slalom.

Dan Rathsburg, Fred Roeser and Bob Cattin ranked in the upper half of the over 100 skiers entered in boys competition helping their team to finish in sixth place overall of the sixteen schools that included such powerhouses as Andover, Lahser, and Cranbrook.

The girls team as a whole was not so fortunate finishing in 13th place.

Balzarini and Emerson travel to the Detroit News-sponsored meet this week at Mt. Holly to meet a host of some of the best skiers in southeastern Michigan, those who ski at Pine Knob, Alpine, Mt. Brighton and Mt. Holly.

Ordinance No. 43

Electrical Ordinance - Springfield Township

AN ORDINANCE for safeguarding life and property by regulating, and providing for the inspection, the installation, alteration, repairing, servicing and maintenance of electrical equipment; to provide for the licensing and registration of Electrical Contractors, Master Electricians, and Journeyman Electricians; to provide for the administration and enforcement thereof; to provide for a Board of Electrical Examiners and its powers and duties; to provide a reciprocal arrangement for the recognition of examinations and licenses issued by other municipalities in the State of Michigan cooperating in the enforcement of a similar ordinance; to provide a penalty for violations thereof and to repeal all ordinances in conflict therewith.

IT IS HEREBY ORDAINED BY THE PEOPLE OF SPRINGFIELD TOWNSHIP:

SECTION I ELECTRICAL INSPECTION

A. The Board of Electrical Examiners, also referred to in this Ordinance as the Inspection Authority and Examining Board, shall have and hereby is given jurisdiction, subject to review as hereinafter provided, over the inspection of all electrical installations, including changes, repairs and additions thereto within the Township of Springfield. The Township Board shall appoint an Electrical Inspector who shall inspect all electrical installations and report to the Inspection Authority. This jurisdiction shall apply to the installation of wiring devices, apparatus and equipment for connection to electricity supply systems having voltages over 30 volts, except as provided in Section 4(B); however, jurisdiction shall apply in all systems and all voltages when safety to life and property is involved.

SECTION II FEES FOR INSPECTION

A. When an application is made for a permit required under the terms of this ordinance, a fee shall be paid in an amount as prescribed by the Township Fee Ordinance.

SECTION III RIGHT OF ACCESS TO BUILDINGS

A. The Electrical Inspector and/or his deputy shall have the right during reasonable hours to enter any building in the discharge of his official duties for the purpose of making any inspection or test of the installation of electric wiring, electric devices and/or electric material contained therein and shall have the authority to cause the turning off of all electric supply and cut or disconnect, in cases of emergency, any wire where such electrical currents are dangerous to life or property or may interfere with the work of the Fire Department.

SECTION IV PERMITS

A. No alterations or additions shall be made in the existing wiring of any building, nor shall any building be wired for the placing of any electric lights, motors, heating devices, or any apparatus requiring the use of electrical current at a potential over 30 volts, nor shall any alterations be made in the wiring in any building after inspection, without first notifying the Township Building Department and securing a permit therefore. Applications for such permit, describing such work, shall be made by the person, firm, or corporation installing same and permit when issued shall be to such applicant.

B. This section shall not apply to maintenance and repairs on the premises of a person, firm or corporation regularly employing qualified electricians for that purpose, nor such minor repair work as repairing flush and snap switches, replacing fuses, changing lamp sockets and receptacles, taping bare joints or repairing drop cords.

C. Persons to whom permits shall be issued:

1. A holder of an electrical contractors license.
2. A person employing a licensed electrical journeyman to actively supervise the new installation of electrical equipment on premises owned or occupied, and used, by the applicant in the conduct of his business, and at which premises the licensed electrician performs his duties in those instances where business or industrial procedure requires the regular employment of a licensed electrical journeyman. However, an affidavit form furnished by the administrative authority shall be signed by both the employer and the licensed journeyman. This affidavit shall be kept on file in the offices of the administrative authority, and shall contain the following:
 - (a) Name and business address of the person employing the licensed electrical journeyman.
 - (b) Name, address, and current license number of the licensed electrical journeyman.
 - (c) License numbers of 2 previous years, and the name of licensing authority in order to establish the holding of a license for not less than 2 years.
 - (d) Statement to the effect that the employer and the licensed electrical journeyman will comply with the provisions of the code regulating installation of electrical equipment in the state. A new affidavit shall be filed before permits are issued if the licensed electrical journeyman terminates his employment.
3. A homeowner who comes under the jurisdiction of the code.

SECTION V INSPECTION

A. Upon the completion of the wiring of any building, it shall be the duty of the person, firm or corporation installing the same to notify the Building Department, who shall notify the Electrical Inspector to inspect the installation as soon as possible, and if it is found to be fully in compliance with this ordinance and does not constitute a hazard to life and property, he shall issue on request to such person, firm or corporation for delivery to the owner a certificate of inspection

authorizing connection to the electrical service and the turning on of the current. All wires which are to be hidden from view shall be inspected before concealment and any person, firm or corporation installing such wires shall notify the Building Department, giving sufficient time in which to make the required inspection before such wires are concealed.

SECTION VI RE-INSPECTION

A. The Electrical Inspector may make periodically a thorough re-inspection of the installation in buildings of all electric wiring, electric devices and electric material now installed or that may hereafter be installed, within the Township and when the installation of any such wiring, devices, and/or material is found to be in a dangerous or unsafe condition, the person, firm, or corporation owning, using or operating the same shall be notified and shall make the necessary repairs or changes required to place such wiring, devices and material in a safe condition and have such work completed within fifteen days, or any longer period specified by the electrical inspector in said notice. The Electrical Inspector is hereby empowered to disconnect or order in writing the discontinuance of electrical service to such wiring, devices, and/or material so found to be defectively installed until the installation of such wiring, devices, and material has been made safe as directed by the Electrical Inspector.

SECTION VII CONSTRUCTION REQUIREMENTS

A. No certificate of inspection shall be issued unless the electrical installation is in strict conformity with the provisions of this ordinance, the statutes of the State of Michigan, the rules and regulations issued by the Michigan Public Service Commission under the authority of the State statutes, and unless they are in conformity with approved methods of construction for safety to persons and property. The regulations as laid down in the National Electrical Code, 1978 Edition, local amendments as listed in attached Schedule A, and in the Administrative rules and regulations established as hereinafter provided (Section 10, Par F) shall be prima facie evidence of such approved methods.

SECTION VIII APPROVED MATERIALS

A. It shall be unlawful to install or use any electrical device, apparatus, or equipment designed for attachment to, or installation on any electrical circuit or system for heat, light or power that is not of good design and construction and safe and adequate for its intended use. The Electrical Inspector shall have power to disapprove the use or installation of devices not fulfilling these requirements. Devices, apparatus and equipment approved by such generally recognized authorities as United States Bureau of Standards, Electrical Testing Laboratories of New York, or Underwriters Laboratories shall be held to have the approval of the Electrical Inspector unless explicitly disapproved by said Authority for reasons of faulty design and poor construction involving danger to persons and/or property.

B. It shall be the duty of the Electrical Inspector from time to time to inspect devices, apparatus and equipment offered to the public for use in installation to see that such items conform to the above requirements.

SECTION IX RECORD AND REVIEW

A. The Township Building Department shall keep complete records of all permits issued and inspections made and other official work performed under the provisions of this Ordinance.

B. When the Electrical Inspector condemns all or part of any electrical installation the owner or his agent may within five days after receiving written notice from the Electrical Inspector, file a petition in writing for review of said action of the Electrical Inspector with the Board of Electrical Examiners, upon receipt of which the said Board of Electrical Examiners shall at once proceed to determine whether said electrical installation complies with this ordinance, and within three days shall make a decision in accordance with its findings.

SECTION X LICENSE FOR ELECTRICAL WORK

A. A Board of Electrical Examiners is hereby constituted consisting of five members. Four of the members shall be the Electrical Inspector of the Township, a representative of an Electrical Utility Company, a licensed Electrical Contractor, who is also a licensed Master Electrician, a licensed Journeyman Electrician, and the said Electrical Contractor and Journeyman Electrician shall have had at least 10 years experience in electrical work. The members of said Board of Examiners shall be appointed by the Township Board for such terms as shall be designated at the time of appointment. This Board shall examine all applicants for either Master Electrician's or Journeyman Electrician's licenses. Applicants failing to pass will not be eligible for re-examination in any reciprocating Municipality for a period of thirty days. All applicants for license shall designate their legal address as the location of their residence in the case of Journeyman and Master Electricians, and their legal address as the principal place of business in the case of electrical contractors. All Electrical Contractors, Master Electricians, and Journeyman Electricians, having their legal address within the corporate limits of the Township of Springfield shall secure their license from the said Township.

The Board of Electrical Examiners shall prepare the application blanks, prescribe the examination and meet on call of the Township Supervisor to hold or review examinations or hear appeals. Due notice shall be given

applicants of the date of examination.

All applicants for examination shall be in writing. The examination shall consist of an oral or written examination as the Examining Board shall determine, and such other practical tests in examination at the discretion of the Examining Board.

B. It shall be unlawful for any person, firm or corporation to engage as an independent contractor in the installation, alteration, maintenance or repair of electrical wiring, equipment, apparatus or fixtures for light, heat, or power purposes where the electromotive force exceeds 30 volts in or about buildings and/or structures located within the Township without first having procured a license.

ELECTRICAL CONTRACTOR'S LICENSE REQUIREMENTS

An applicant for an electrical contractor's license shall be over 18 years of age and shall be the holder of a master electrician's license, or shall regularly employ a person who is the holder of a master electrician's license who shall be actively in charge of work for the applicant.

To be issued by community in which business is located.

C. It shall be unlawful for any person to engage in the occupation or trade of Journeyman Electrician in the installation, alteration, maintenance or repair of electrical wiring equipment, apparatus or fixtures for light, heat, power or medical purposes where the electromotive force exceeds 30 volts in or about buildings and/or structures within the Township without having first taken the examination and obtained a license as herein provided. This provision shall not apply to helpers and apprentices, provided such work as they may do is performed under the direction and supervision of licensed Journeyman Electricians who shall be on the premises at all times when such helpers or apprentices are performing such work on the premises.

JOURNEYMAN ELECTRICIAN LICENSE REQUIREMENTS

An applicant in order to qualify for examination for a Journeyman Electrician License shall have attained the age of 18 years and shall be able to show four years of practical experience in the type of electrical construction or maintenance work for which a license is required. In lieu of four years of practical experience, an applicant shall present evidence of a total of not less than four years in a combination of practical experience and training at a recognized trade or technical school, provided this includes a minimum of one year practical experience. Evidence in writing from employers and technical schools shall be submitted by the applicant, showing type of work performed and length of time employed. All applicants shall submit to an examination as hereinafter provided.

D. MASTER ELECTRICIAN LICENSE REQUIREMENTS

An applicant for a Master Electrician License shall submit to the examination hereinafter provided and have attained the age of 18 years. Said applicant for a Master Electrician License shall have passed the examination for and had issued to him a Journeyman Electrician License for a period of at least two years. He shall further agree that if a Master Electrician License is issued, he will notify the Board in writing within 72 hours (three working days) of a change of employment where such employment was necessary to qualify his employer as an electrical contractor. Willful or negligent failure to give such notice to the Board shall be grounds for suspension or revocation of such license.

E. The fee for an Electrical Contractor's, Master Electrician's and Journeyman Electrician's license shall be prescribed by the Township Board. Licenses shall expire on December 31st of each year, and shall be renewed upon application by the licensee, together with the payment of the prescribed fee. After March 1st, all licenses not renewed shall be considered cancelled and not be renewed except upon approval of the Examining Board. Electrical Contractor's, Master Electrician's and Journeyman Electrician's licenses shall be issued by the Township Building Department upon recommendation of the Examining Board. Licenses issued under this ordinance shall be non-transferable and shall be displayed when required. Electrical Contractor's licenses under the terms of this ordinance shall not secure permits for work to be done by any person not employed by said electrical contractor, and license may be revoked for violation of this rule.

No license shall be recognized by the Township unless such licenses are issued by a cooperating Municipality having an Examining Board or the State of Michigan.

The Township shall permit Electrical Contractors lawfully licensed by other municipalities of the State of Michigan to install, alter or repair electrical wiring, equipment, apparatus or fixtures for light, heat or power purposes within the corporate limits of the Township, upon payment of a prescribed registration fee, provided that such municipalities reciprocate in recognizing Electrical Contractors who are duly licensed under the provisions of this ordinance by granting them the same privilege and charging the same uniform license and registration fees. Provided further, that the licensing ordinances are substantially equal to the requirements of this ordinance. Journeyman Electricians duly licensed by any municipality cooperating in the reciprocal arrangement shall be permitted to work in the Township without the payment of a registration fee. Provided, however, that any Journeyman Electrician doing work within the Township and holding a license from a cooperating municipality, shall register with the Building Department.

No Electrical Contractors' licenses shall be recognized, for the purpose of registration, by the Building Department, of

applicants who maintain their principal place of business in a municipality which fails to approve, by affirmative action of its legislative body, the reciprocal and mutually interchangeable licensing arrangements covered by this ordinance unless licensed by the State of Michigan or approved by the Examining Board.

Corporations applying for Electrical Contractors' licenses, whose principal place of business is not in the State of Michigan, should obtain such license from the State of Michigan Electrical Administrative Board upon the payment of the prescribed fee.

Any Electrical Contractors, Master or Journeyman's license may, after a hearing, be suspended or revoked by the Examining Board having issued such license upon evidence presented that false statements have been made upon application for license or upon evidence presented that the person, firm or corporation holding such license willfully or by reason of incompetence repeatedly violates any rules and regulations relating to the inspection, maintenance, alteration or repair of electrical wiring, devices, appliances or equipment.

F. The Board of Electrical Examiners is hereby empowered and it shall be their duty to promulgate and recommend such rules and regulations concerning electrical work in the Township as may be required to properly provide for the situations therein. The rules and regulations so made by the Board of Electrical Examiners shall be effective upon approval by the Township Board and shall take precedence over plans, specifications and National Electric Code Rules.

G. A licensed electrician shall not be required for any wiring in or on a home and accompanying outbuildings owned, occupied or to be occupied by the person performing the installation, alteration or repair of wiring, devices, appliances and appurtenances, providing the Inspector deems such person qualified to perform such work and such person obtains a permit as required by this code.

SECTION XI EXCEPTIONS

The provisions of this ordinance shall not apply to the following:

A. The installing of radio receiving sets and equipment. The installation of convenience outlets for power supply to a radio set shall be subject to such rules and regulations.

B. This ordinance and its provisions shall not apply to apparatus and equipment installed by or for any public utility operating under the jurisdiction of the Michigan Public Service Commission in the exercise of its function as a utility and when such apparatus or equipment is used primarily for the generation or distribution of electric current or for signal or communication purposes.

SECTION XII PENALTY

A. Any person, firm or corporation who shall fail to comply with any of the provisions hereof, shall upon conviction thereof, be subject to a fine of not more than \$500 or imprisonment for a period not to exceed ninety (90) days, or both such fine and imprisonment in the discretion of the Court.

SECTION XIII LIABILITY

A. This ordinance shall not be construed to relieve from or lessen the responsibility or liability of any party owning, operating, controlling or installing any electric wiring, electric devices and/or electric material for damages to person or property caused by any defect therein nor shall the Township be held as assuming any such liability by reason of the inspection authorized herein, or certificate of inspection issued as herein provided.

SECTION XIV REPEAL OF PREVIOUS ORDINANCES

Any previous ordinance or portions or ordinances inconsistent with or conflicting with the provisions of this ordinance, are to the extent of such inconsistency hereby repealed. Specifically Ordinance #21.

SECTION XV ADOPTION AND EFFECTIVE DATE

This ordinance shall be effective on and after April 6, 1980. Made and passed by the Township Board of the TOWNSHIP OF SPRINGFIELD, Oakland County, Michigan this sixth day of February, 1980.

Collin W. Walls
Supervisor
J. Calvin Walters
Clerk

Subscribed and sworn to before me this 11th day of February, 1980.

Mary J. Watson
Notary Public
Oakland County, Michigan
My Commission expires February 8, 1981.

SCHEDULE A AMENDMENTS TO THE 1978 EDITION OF THE NATIONAL ELECTRICAL CODE

Rule 1. Circuit Interconnection

Section 210-4 is amended to read as follows:

210-4 Multiwire Branch Circuits

(a) Branch circuits recognized by this Article shall be permitted as multiwire circuits. Multiwire branch circuits shall supply line to neutral load only.

Except No. 1.: A multiwire branch circuit supplying a single appliance.

Exception No. 2: Where all ungrounded conductors of the multiwire branch circuit are opened simultaneously by the branch circuit overcurrent device.

(b) Circuit Interconnection. Neutral and ungrounded circuit conductors for two, three or four wire circuits shall originate at the same outlet or panel. Neutral and/or ungrounded conductors for circuits shall not be tapped from different locations in the wiring system.

Rule 2. Motor-Operated and Combination Loads.

Section 210-22(a) is amended to read as follows:

210-22(a) Motor-Operated and Combination Loads. Where a circuit supplies only motor-operated loads, Article 430 shall apply. Where a circuit supplies only air conditioning and/or refrigerating equipment, Article 440 shall apply. Fixed appliances with motors larger than 1/8 HP rating shall be connected to circuits supplying motors only.

Rule 3. Branch Circuit Requirements - Summary.

Section 210-24 is amended to read as follows:

210-24. Branch Circuit Requirements-Summary. The requirements for circuits having two or more outlets, other than the receptacle circuits of Section 220-3 (b) as specifically provided for above, are summarized in Table 210-24. Branch Circuits in dwelling type occupancies shall not be connected to serve more than one dwelling unit.

Rule 4. Dwelling type Occupancies.

Section 210-24(b) is amended to read as follows:

210-25(b) Dwelling-type Occupancies. In every kitchen, family room, dining room, breakfast room, living room, parlor, library, den, sun room, bedroom, recreation room, or similar rooms, receptacle outlets shall be installed so that no point along the floor line in any wall space is more than 6 feet, measured horizontally, from an outlet in that space, including any wall space 2 feet or more in width and the wall space occupied by sliding panels in exterior walls. The wall space afforded by fixed room dividers, such as free-standing bar-type counters, shall be included in the 6 foot measurement.

In kitchen and dining areas a receptacle outlet shall be installed at each counter space wider than 12 inches. Counter top spaces separated by range tops, refrigerators, or sinks shall be considered as separate counter top spaces. Receptacles rendered inaccessible by the installation of stationary appliances shall not be considered as these required outlets.

Receptacle outlets shall, in so far as practicable, be spaced equal distances apart. Receptacle outlets in floors shall not be counted as part of the required number of receptacle outlets unless located close to the wall.

At least one wall receptacle outlet shall be installed in the bathroom adjacent to the basin location.

For a one-family dwelling, at least one receptacle outlet shall be installed outdoors.

At least one receptacle outlet shall be installed in each basement and attached garage.

Laundry equipment duplex receptacle in dwelling-type occupancies shall be mounted on the wall not higher than forty-eight (48) inches above the floor within 6 feet of the intended location of the equipment. A laundry lift pump of less than one-sixth (1/6) HP shall be permitted to be connected to the laundry circuit.

At least one receptacle outlet shall be installed for the laundry.

Exception No. 1: In a dwelling unit that is an apartment or living area in a multi-family building where laundry facilities are provided on the premises that are available to all building occupants, a laundry receptacle shall not be required.

Exception No. 2: In other than single-family dwellings where laundry facilities are not to be installed or permitted, a laundry receptacle shall not be required.

Exception No. 3: A dwelling that is a unit in a hotel, motel, motor court, or motor hotel, a laundry receptacle shall not be required.

As used in this Section, a "wall space" shall be considered a wall unbroken along the floor line by doorways, fireplaces, and similar openings. Each wall space two or more feet wide shall be treated individually and separately from other wall spaces within the room. A wall space shall be permitted to include two or more walls of a room (around corners) where unbroken at the floor line.

The purpose of this requirement is to minimize the use of cords across doorways, fireplaces, and similar openings.

The receptacle outlets required by this Section shall be in addition to any receptacle that is part of any lighting fixture or appliance, located within cabinets or cupboards, or located over 5 1/2 feet above the floor.

Lavatory: At least one duplex receptacle outlet shall be installed on the same wall as the wash basin or on a wall immediately adjacent to the wash basin. The receptacle shall not be more than four (4) feet from any wash basin and shall be installed not less than thirty (30) inches and not more than forty-eight (48) inches above the floor and rated 15 amperes, 125 volts.

Halls, corridors, etc., multi-family dwellings shall have at least one receptacle outlet for each twenty-five (25) linear feet or major fraction of hall length.

Receptacle outlets located more than twenty-four (24) inches above the floor or more than twenty-four (24) inches above a fixed work surface that are intended to serve and pendant receptacle outlets are not to be counted as any of the receptacle outlets required by Section 210-25 (b) and (c) of the National Electrical Code except as provided for in lavatories.

Unfinished attic space in dwelling-type occupancies adaptable for living which is accessible by permanent stairs shall be provided with at least one receptacle outlet which shall be wired on an independent circuit of at least 15 ampere capacity.

Rule 5. Receptacle Outlets [In other than dwelling-type occupancies].

Section 210-25(e) is added as follows:

210-25 (e) Receptacle Outlets (in other than dwelling-type occupancies).

(a) Receptacle outlets shall be supplied by a circuit of minimum 20 ampere capacity in industrial plants, machine shops, service garages, gasoline stations or similar occupancies.

(b) Receptacle outlets in commercial buildings shall include not more than nine (9) on circuits of 20 ampere capacity and not more than six (6) on circuits of 15 ampere capacity.

(c) Receptacle outlets shall not be connected to circuits supplying general lighting, including office portions of buildings.

(d) A readily accessible duplex receptacle, fed from any 115 volt receptacle circuit, shall be installed on the roof within twenty-five (25) feet of each roof top heating, air conditioning and refrigeration unit or any combination of these units.

Rule 6. Dwelling-type Occupancies.

Section 210-26(a) is amended to read as follows:

210-26(a) Dwelling-Type Occupancies. At least one wall switch controlled lighting outlet shall be installed in every habitable room; in hallways, stairways, and attached garages; and at outdoor entrances.

At least one lighting outlet shall be installed in an attic, underfloor space, utility room and basement where use for storage or containing equipment requiring servicing.

Wall switches located for convenient and readily accessible use shall be required for all ceiling lighting outlets, except closets, storage spaces and unfinished basements. Lighting outlets over sink and dinette portions of kitchens, in halls, vestibule, and at outdoor entrances, shall not be combined in any manner and shall be switched separately. If more than one lighting outlet is installed in any one of these areas, such lighting outlets shall be permitted to be combined on a single switch.

Laundry lighting outlet in dwelling-type occupancies shall be provided for use in the laundry area and shall be permitted to be connected to the same circuit which supplies the laundry equipment receptacle outlet.

Exception No. 1: In habitable rooms, other than kitchens or bathrooms, one or more receptacles controlled by a wall switch shall be permitted in lieu of lighting outlets.

Exception No. 2: In hallways, stairways, and at outdoor entrances remote, central, or automatic control of lighting shall be permitted.

Rule 7. Basement Lighting.

Section 210-26(c) is added to read as follows:

210-26(c) Basement Lighting. Basements in dwelling-type occupancies shall be wired for a minimum of one lighting outlet in each 200 square feet or major fraction of area for use as general illumination. All enclosed areas that may be walked into such as toilet rooms, fruit storage rooms, utility rooms, excavated areas under porches, etc., shall be provided with at least one lighting outlet (except coal bins).

Rule 8. Stairways and Hallways [In dwelling-type occupancies].

Section 210-26(d) is added to read as follows:

210-26(d) Stairways and Hallways (in dwelling-type occupancies).

(1) Stairways shall be provided with a lighting outlet or outlets so placed that each stair section shall be adequately illuminated. Such lighting outlets for basement, second floor or attic stairs shall be located directly over stairway section or at head or foot of stairs. These lighting outlets shall not be counted as comprising any of the required lighting outlets for basement, attic rooms, etc.

(2) All stairway lighting outlets shall have multiple switch control at head and foot of stairway unless supplied by house meter and controlled by time clock or controls accessible to authorized persons only.

(3) Unless served from separate house meter, stairway lighting outlets shall be supplied from circuits of the dwelling units using the stairway.

(4) Hallway Lighting. A minimum of one lighting outlet shall be installed for each twenty-five (25) feet or major fraction thereof.

Rule 9. Switches [In other than dwelling-type occupancies]

Section 210-27 is added to read as follows:

210-27. Switches (in other than dwelling-type occupancies).

(a) Switches shall be installed to control general lighting outlets. These switches may be wall switches or disconnecting means incorporated in a readily accessible distribution panel. Individual switches to control specific fixtures shall be permitted to be installed if desired. A switch adjacent to entrances to all areas that may be walked into shall be provided to control a fixture or fixtures located so as to furnish sufficient illumination for persons to see their way into those areas.

(b) All stairway lighting outlets shall have multiple switch control at head and foot of stairway unless supplied by house meter and controlled by time clock of controls accessible to authorized persons only.

Rule 10. Space Heating Equipment [other than electric heat].

Section 220-3(e) is added to read as follows:

220-3(e) Space Heating Equipment (other than electric heat).

(1) At least one (1) individual branch circuit of not less than 15 ampere capacity shall be installed for the heating equipment.

(2) Only those motors which are an integral part of the heating equipment shall be permitted to be connected to the circuit required by (1).

Rule 11. Location of Service Equipment and Distribution Panels.

Section 230-72(c) is amended to include the following:

230-72(c) Location of Service Equipment and Distribution Panels. In dwelling-type occupancies, service equipment and distribution panels shall not be located in coal bins, bathrooms, lavatories or clothes closets. Where practicable, they shall be located in the basement, utility room or garage. In single and two-family dwellings, this equipment shall be at least four (4) feet from the floor and shall not be subject to mechanical injury or shall be provided with suitable protection. Sufficient clearance and accessibility shall be provided when installed near laundry trays, oil tanks, or other permanently installed obstructions.

Continued on Next Page

Springfield Township Electrical Ordinance Continued

Rule 12. Wiring in Attics.

Section 334-13 is amended to read as follows:

334-13 Wiring in Attics: Non-metallic sheathed cable and armored cable installed in attics of dwelling-type occupancies shall conform to Section 336-9 National Electrical Code except, if headroom in any portion of the attic is four (4) feet or over, wiring shall be installed as concealed wiring at least to the point where headroom is reduced to three (3) feet. In liveable attics, or attics adaptable under the Building Code for future living, wiring shall be installed as concealed wiring at least to a point of one (1) foot clearance of roof rafters and attic floor joists.

Rule 13. Non-metallic Sheathed Cable. Uses permitted or not permitted.

Section 336-3 is amended to read as follows:

336-3 Uses Permitted or Not Permitted. Type NM and Type NMC Cables shall be permitted to be used in one and two-family dwellings, or multi-family dwellings and other structures:

(a) Type NM. This type of non-metallic sheathed cable shall be permitted to be installed for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

Type NM cable shall not be installed where exposed to corrosive fumes or vapors; nor shall it be imbedded in masonry, concrete, fill, or plaster; nor run in a shallow chase in masonry or concrete and covered with plaster or similar finish.

(b) Type NMC. Type NMC cable shall be permitted for both exposed and concealed work in dry, moist, damp, or corrosive locations, and in outside and inside walls or masonry block or tile.

(c) Uses Not Permitted for Either Type NM or NMC. Types NM and NMC cables shall not be used as: (1) service-entrance cable, (2) in commercial garages, (3) in theaters and similar locations, except as provided in Article 518, places of assembly, (4) in motion-picture studios, (5) in storage battery rooms, (6) in hoistways, (7) in any hazardous location, (8) embedded in poured cement, concrete, or aggregate.

Rule 14. Lampholders.

Section 410-49 is amended to read as follows:

410-49 Lampholders.

(a) Lampholders installed in wet or damp locations shall be of the weatherproof type.

(b) Porcelain or metal shell sockets used as cord pendant lighting outlets shall not be permitted within reach of grounded portion of buildings.

Rule 15. Residential Food Waste Disposers.

Section 422-8(d) is added to read as follows:

422-8(d) Residential Food Waste Disposers. All such equipment and controls in dwelling type occupancies shall be provided with an independent disconnecting means within sight of the equipment and it shall be readily accessible. Food waste disposers of one-half horsepower or less shall be wired only with heavy duty 3-wire minimum No. 16 hard service cord and approved cap and three wire "U" slot grounding type receptacles. On new construction, a disconnect switch shall be mounted in the wall adjacent to the sink.

Rule 16. Space Heating Equipment (other than electric heat).

Section 422-21(c) is added to read as follows:

422-21(c) Space Heating Equipment (other than electric heat).

(1) A readily accessible disconnect switch shall be mounted on the exterior of the heating equipment or on a surface adjacent to the heating equipment.

(2) Heating equipment which is not readily accessible shall have an additional disconnect installed at the nearest readily accessible location.

Rule 17. Elevator Rooms.

Section 620-73 is added to read as follows:

620-73 Elevator Rooms shall be wired for at least one lighting outlet controlled by a wall switch, and one receptacle outlet.

Rule 18. Conductor Physical Protection.

Section 725-18 shall be amended to read as follows:

725-18 Conductor Physical Protection.

(a) Where damage to remote-control circuits of safety control equipment would introduce a hazard, as covered in Section 725-4, all conductors of such remote-control circuits shall be installed in rigid metal conduit, intermediate metal conduit, electrical metallic tubing, Type MI cable, Type ALS cable, Type CS cable, or be otherwise suitably protected from physical damage.

(b) Low Energy Wiring. Remote control, signaling, and power limited circuits.

(1) Conductors shall run parallel to or through joists.

(2) Conductors shall run parallel to beams and/or pipes if within one (1) inch, or shall be run on sill plates.

(3) Low energy wiring shall comply with (1) and (2). Vertical drops of conductors to furnaces, heaters, etc., shall be mechanically protected by securing to gas or oil pipes or electrical raceways, or securing to ducts, frame structures or back boards, or installing in metallic or non-metallic raceways, or forming in spiral coils for vertical drops of eighteen (18) inches or less.

Rule 19. Minimum Standards for Existing Dwelling Units.

Chapter 10 of the code is added as follows:

1000-1 Inspection: If inspection reveals that the wiring system of an existing dwelling type occupancy is inadequate, or if certification as a habitable dwelling is requested, the following minimum requirements shall be complied with:

(a) Entrances and exits: Where two (2) or more entrances and/or exits exist, at least two (2) entrances and/or

exits shall be illuminated by exterior lights. Lighting outlets shall be controlled by interior wall switches, located for convenient and readily accessible use.

(b) Living Room: Living room shall be provided with illumination. Lighting outlet shall be controlled by a wall switch, located for convenient and readily accessible use; one of the receptacle outlets controlled by a wall switch in lieu of ceiling lighting outlet is acceptable. Convenience duplex receptacle outlets shall be provided. Receptacle outlets shall be equally spaced around the room with at least one duplex receptacle outlet on each wall.

(c) Kitchen: Kitchen shall be provided with illumination. Lighting outlet shall be controlled by a wall switch located for convenient and readily accessible use.

A separate kitchen appliance circuit shall be provided, supplying a minimum of three (3) grounding type duplex receptacle outlets. Two (2) of these receptacles shall be readily accessible for convenient use of portable appliances. New appliance circuits shall be twenty ampere capacity.

(d) Bathroom: Bathrooms shall be illuminated. Lighting outlet shall be controlled by a wall switch. A receptacle outlet separate from the light fixtures, shall be provided, and shall be located at least thirty (30) and not more than forty-eight (48) inches above the floor adjacent to the wash basin and not more than four (4) feet from the basin.

(e) All other Habitable Rooms: Illumination for each habitable room shall be provided. Lighting outlet shall be controlled by a wall switch. Wall switches shall be located for convenient and readily accessible use. Convenience duplex receptacle outlets shall be provided a minimum of two (2) receptacle outlets equally spaced around the room. An additional receptacle outlet controlled by a wall switch is acceptable in lieu of a lighting outlet.

(f) Basement: Basement shall be wired for a minimum of one lighting outlet in each 200 square feet or major fraction of area for use as general illumination. All enclosed areas that may be walked into, such as toilet rooms, fruit storage rooms, utility rooms, excavated areas under porches, etc., shall be provided with at least one lighting outlet (except coal bins). Stairwell and laundry area lighting outlets shall not be counted as part of the required basement lighting outlets.

(g) Laundry Areas: Laundry areas shall be provided with illumination. Laundry circuits shall be an individual circuit. A wall-mounted grounding type duplex receptacle outlet shall be provided, located near the laundry equipment.

An existing drop cord receptacle outlet on a separate circuit shall be acceptable providing it is a grounding type receptacle outlet not more than five (5) feet six (6) inches above the floor.

(h) Space Heating System: Heating equipment requiring electrical energy for operation and/or control shall be provided with an individual circuit. A disconnect switch shall be provided on, or adjacent to the heating equipment. (Exception: Thermo-Pile controlled furnaces).

(i) Stairwells: Stairwells shall be adequately illuminated. Lighting outlets shall be controlled by wall switches. Wall switches shall be located for convenient and readily accessible use. Switches shall not be located where it is necessary to use darkened stair sections for their operation. All stairwells to finished portions of dwelling shall be provided with multiple switch control, one at the head, the other at the foot of the stairwell.

(j) Service and/or Feeder: Service to existing dwelling unit shall be a minimum of one hundred ampere, three wire capacity. Service equipment shall be dead front having no live parts exposed whereby accidental contact could be made. Type "S" fuses shall be installed when fused equipment is used.

Exception: Existing service of fifty-five ampere three wire capacity, and feeders of thirty ampere or larger two or three wire capacity shall be accepted if adequate for the electrical load being served.

(k) Existing Wiring and Equipment: Existing wiring and equipment shall be in good repair. Circuit extensions made with flexible cord wiring in lieu of permanent wiring shall be eliminated.

1000-2 New Work: All new work shall conform to the National Electrical Code and these rules.

1000-3 Evidence of inadequacy: Evidence of inadequacy shall be any of the following:

(a) Use of cords in lieu of permanent wiring.

(b) Oversizing of overcurrent protection of circuits, feeders or service.

(c) Illegal extensions to the wiring system in order to provide light, heat or power.

(d) Electrical overload.

(e) Misuse of electrical equipment.

(f) Lack of lighting fixtures in bathroom, laundry room, furnace room, stairway or basement.

SCHEDULE B

ADMINISTRATIVE RULES

As recommended by the Reciprocal Electrical Council, 1971.

ARTICLE I

GENERAL

101. DEVIATION FROM REQUIREMENTS. In cases of practical difficulty or unnecessary hardship, the Electrical Inspection Authority is hereby granted discretionary powers to permit deviation from the provisions of this Code, provided that such a proposal to deviate is first submitted for proper determination in order that health and safety requirements, as they pertain to electrical equipment, shall be obtained.

102. PLANS AND SPECIFICATIONS. A detailed set of plans and specifications shall be submitted with application for building permit for any wiring or alterations to the electrical system in all buildings using over six (6) circuits except single and two-family dwellings. The electrical drawings shall include such details as lighting layout, circuiting, switching,

conductor and raceway sizes, wattage schedule, service location and riser diagram, calculations and proposed method of construction drawn with symbols of a standard form. All conductors are assumed to be copper unless otherwise stated on the plan. Specifications when provided shall also include this information. The selection of suitable disconnect and overcurrent devices to provide proper coordination and interrupting capacity for a wiring system is the responsibility of the designer. The Electrical Inspection Authority when approving electrical plans assumes no responsibility for the design nor any deviations from any applicable codes not explicitly agreed upon at the time of approval of electrical drawings.

103. INSTALLATION PROCEDURE. Electrical contractors shall in no case install permanent electrical equipment that may be damaged by the roughing in or heating, ventilation and plumbing construction and before the roof is covered.

A. ACCESSIBILITY. No installation of plumbing equipment, refrigeration equipment, space heating equipment, duct work, cabinets, partitions or materials shall be made in such a way as to render the wiring in any electrical service equipment, distribution panel, outlet, splice, junction or pull box inaccessible.

104. TWENTY-FOUR HOURS' NOTICE at least shall be given the Electrical Inspection Authority before inspection is required.

105. INSPECTION BEFORE CONCEALING. No person shall conceal or cause to be concealed any electrical equipment before it has been approved by the Electrical Inspection Authority.

106. BLUE PRINTS AVAILABLE ON JOB. Blue prints or plans approved by the Electrical Inspection Authority or a certified copy thereof, where required, shall be available for the use of the electrical inspector on the job.

107. REPRESENTATIVE FOR INSPECTION. The Electrical Inspection Authority reserves the right to require a representative of the contractor to be on the job when inspection is made. A licensed electrical journeyman or master electrician shall be present at all times that electrical construction is in progress.

108. NOTICES OF INSPECTION. Any notice of inspection of electrical equipment shall be posted in or on the job by the electrical inspector only.

109. INSPECTION NOTICES shall not be removed, defaced, or altered by anyone except by a representative of the Electrical Inspection Authority.

110. CODE INTERPRETATIONS. The Electrical Inspection Authority shall not be responsible for Code interpretations or other information relative to electrical installations given over the telephone. Requests for such information should be made in person or in writing.

111. CARNIVALS, CONVENTION DISPLAYS, PRODUCT AND STREET SHOWS ETC. Electrical equipment for such places shall require a permit for inspection and approval must be obtained prior to the time of opening. For special requirements, consult the Electrical Inspection Authority.

112. CERTIFICATE OF INSPECTION shall be issued on request from the person or persons to whom permit is issued, but shall not be issued until after the installation has been tested with current on wires and all electrical equipment permanently installed, or if this is not possible, until after every outlet has been tested by the applicant or his representatives in the presence of the inspector and approved by that inspector.

113. ADVERTISING. It shall be unlawful for a person to use any word or words in any sign, display, business form or document, or advertising medium which indicates, or tends to indicate, that a person is qualified to supervise, install, repair, replace, remove or service any electrical which requires a permit and/or inspection hereunder from the Department, unless such is uttered, published or displayed by authority of a licensed electrical contractor whose licensed name and license number is included in such media, and such shall be given prominence at least equal to that of the said advertiser's name.

ARTICLE II

FILING OF PERMITS

201. ELECTRICAL PERMITS are required for the installation of all electrical equipment.

202. TEMPORARY PERMITS must be filed under any of the following conditions:

A. For connection to temporary service drop and for equipment to be used for construction purposes, a temporary permit is required for the number of circuits to be used or number of power units to be installed.

B. For connection to permanent service or for installation of temporary lighting or power equipment not included on original permit, a separate permit based on the permit fee schedule is required, except that in single or two family dwellings temporary connection of the permanent service equipment may be included on the original wiring and fixture permit without additional fee provided service is ready for inspection at the time of the first rough inspection call.

C. For connection to permanent service for heating equipment, a temporary permit will be issued if a regular permit for permanent connection of the heating equipment is issued or is on file at the time the temporary connection is requested.

203. ADDITION TO A PERMIT. After permit has been issued and the fee deposited, no additional work shall be included. In cases in which additional work is to be installed, a new permit shall be secured and the fee paid, except when additional circuits of wiring, additional sockets or fixtures, or additional units for heat or power are installed, and on which inspection has been made on the original call but not included in the permit, the fee for such additional work shall apply.

204. ADDITIONAL PERMITS shall be required as follows:

- A. If more than one inspection is necessary on any violation notice.
- B. For special inspections required for the investigation of any ordinance violations.

ARTICLE III

DEFINITIONS, PERMIT REGULATIONS, FEES

A. DEFINITIONS

For the purpose of these rules, certain terms used herein, in addition to those lawfully adopted from Chapter 1, Article 100 of the National Electrical Code of 1975 are hereafter defined:

301. Approved means that electrical equipment, method or procedure which the Electrical Inspection Authority designates as acceptable having been by demonstration and/or test proven workable and safe for its intended purpose.

302. Board means Board of Electrical Examiners.

303. Electrical Equipment means material such as conductors, fittings, devices, appliances, fixtures, apparatus, and the like, used as a part of, or in connection with, an electrical installation.

304. Emergency Systems shall mean the installation, operation and maintenance of circuits, systems and equipment intended to supply illumination and power in the event of failure of the normal supply, or in the event of accident to elements of a system supplying power and illumination essential for safety to life and property as hereinafter required.

305. Independent Electrical Contractor means any person, firm, co-partnership, association or corporation and their legal successor, engaged independently in the business of installing, maintaining, repairing, servicing or altering electrical equipment.

306. Master Electrician means any person who engages in the trade of installing, maintaining, repairing, servicing, or altering electrical equipment, and who has the necessary qualifications, training, experience and technical knowledge to supervise the installation of wiring and equipment in accordance with the regulations governing such work.

307. Journeyman Electrician means any person who engages in the trade of installing, maintaining, repairing, servicing or altering electrical equipment as an occupation.

308. N.E.C. means the National Electrical Code, 1975 Edition.

309. Owner means any natural person, firm, co-partnership, association, or corporation and their legal successors.

310. Person means any natural person, firm, co-partnership, association, or corporation and their legal successors.

311. Electric Sign, whether inside or outside a building, means a sign whereon letters, figures or designs are formed, bordered or outlined by incandescent lamps, gas filled luminous tubes, or by a transparent medium illuminated by means of electric lights or gas filled luminous tubes contained within the sign. Flood-lights or spotlights, which are not an essential element of the sign proper, are not classified as electric signs.

312. Portable Electric Sign means a self-contained single unit sign, wired in conformity with methods recognized by N.E.C. Such signs are intended for indoor use only, employ incandescent lamps, fluorescent lamps or both, but no more than four such lamps; shall weigh not more than 50 pounds; have a voltage between any two conductors or between any conductor and ground, of not more than 150 volts; with provisions made for standing on a horizontal surface or for being suspended, and shall be equipped with not more than six feet of flexible cord and an attachment cap. All other signs are considered non-portable and require inspection by the Local Inspection Authority, unless the sign bears a label of approval by the recognized National Testing Laboratory. A connection permit is required for all non-portable signs.

313. Scoreboards (See Electric Sign)

B. PERMIT REGULATIONS

314. To Whom and How Permits are Issued. Permits covering the installation of electrical wiring and/or equipment in the Municipality shall be issued only in the names of persons authorized by the Electrical Ordinance to perform electrical work.

315. Home Owners Permit. A bonafide owner of a single-family residence which is, or will be on completion, his own place of residence, and no part of which is used for rental or commercial purposes, nor is now contemplated for such purpose, may do his own work, providing he applies for and secures a permit, pays the fee, does the work himself in accordance with the provisions hereof, applies for inspections and receives approval of his work by the Electrical Inspection Authority. Failure to comply with these requirements will subject the owner's permit to cancellation.

316. Fraudulent Application for Permit Illegal. It shall be unlawful for any person to present any fraudulent information in making application for any permit from the Inspection Authority. Furthermore, it shall be unlawful to use the name of another person in order to secure an electrical permit unless regularly employed by and directly authorized by the holder of such electrical contractor license.

It shall be unlawful for an independent electrical contractor to file an electrical permit for work contracted for or performed or to be performed by others without specific permission of the Electrical Inspection Authority.

317. Permits Revoked. Any permit issued in violation of the Laws of the State of Michigan, these Rules or any other ordinances, or as a result of false or fraudulent information, or misinterpretation of conditions, shall be subject to revocation at the direction of the Inspection Authority. The person holding the permit shall be notified to appear and show cause why the permit should not be revoked and failure to appear shall be deemed sufficient to cause the permit to be revoked.

318. Permits Expired. If work for which a permit is issued is not started within six (6) months of the date of issue or if work is abandoned for a period of six (6) months, the permit shall lapse and cease to be in effect. The Inspection Authority may

reinstate an expired permit within one (1) year of its date of issue, but such reinstatement shall not be obligatory. Permits which have expired, lapsed, or abandoned one (1) year or more may only be reinstated by resolution of the Inspection Authority in each case.

319. Incompleted Installation, Notification of Quitting Installation Required. Should any person to whom a permit has been issued for an installation and inspection of electrical equipment quit the installation for any reason, he shall notify the Inspection Authority.

320. Inspection of Partial Installation Quitted, Required. If an installation has been partially completed, the person upon quitting the installation shall notify the Inspection Authority and request an inspection. Acceptance of or violations against the work installed shall be recorded by the inspector on the permit record according to the findings of the inspector. No refund shall be granted to the permit grantee of the permit fee covering electrical equipment installed and inspected.

321. Owner's Notification to the Inspection Authority. If a permit grantee quits an installation after the electrical equipment is installed and fails to notify the Inspection Authority, the owner or his agent may notify the Inspection Authority and request inspection. Upon inspection, the permit grantee shall be sent a notice of any violation. The owner shall be notified that he may secure another licensed contractor to proceed with the work.

322. Refunds. If no work has been done, a permit grantee shall be entitled to a refund on his permit in accordance with established rules of the Municipality.

323. Transfer of Permit from Contractor to Contractor. In case the permit grantee gives written permission or appears in person with another contractor and grants permission, the permit shall be transferred to the latter licensed contractor, provided the latter contractor pays established transfer fee. If permission is not granted by the original permit holder, the contractor who completes the installation shall secure a permit covering the work he does, and the later contractor shall be responsible in either case for all work done under his supervisor.

324. Transfer of Permit from Owner to Contractor. An owner who secured a permit to make installation of electrical equipment in his residence may transfer his permit to a licensed contractor, providing the owner notifies the Inspection Authority of his intention, receives inspection of the work done by him and has his contractor pay the established transfer fee to the Inspection Authority.

325. Owner Completing Work Started by Contractor. Before proceeding with any electrical wiring installation which has been started by any other permit grantee, an owner shall request the Inspection Authority to inspect the installation for which a permit was granted and also to inspect any work performed, and shall also obtain an owner's permit for the remaining part of the installation. The original permit grantee may, if he desires, transfer his permit to the owner upon the owner's payment to the Inspection Authority of the established transfer fee.

C. PERMIT FEES - Consult the local municipal office for permit fees.

**BOARD OF REVIEW
SPRINGFIELD TOWNSHIP**

The Springfield Township Board of Review will meet at the Springfield Township Hall, 650 Broadway, Davisburg, Michigan for the purpose of hearing appeals of 1980 assessments.

Any questions regarding the value placed on properties may be reviewed with the assessor. Anyone wishing to appeal the assessment before the Board of Review must make an appointment in advance. Appointments may be made from 9:00 to 4:30 daily by phoning 625-4802 or 634-3111.

The Board of Review meetings are scheduled as follows:

March 10, 11th:	9:00 a.m. to 12:00 noon 2:00 p.m. to 7:00 p.m.
March 12th:	1:00 p.m. to 5:00 p.m. 7:00 p.m. to 9:00 p.m.

Tentative Equalization Factor:

Real: 1:00
Personal: 1:00

COUNTRY KITCHEN VERY FUNCTIONAL

PERFECT RECTANGULAR HOUSE BUILDS CHEAPER

FEATURE HOMES

By W. D. Farmer

This house has a wide front porch, the full width of the house. It will accommodate a full scale party if desired but is especially comfortable for all types of porch furniture or seating areas. There is an

entrance foyer separating the great room and country kitchen.

The country kitchen provides more than ample space for eating and food preparation and there is a washer-dryer area enclosed here, too. Notice bonus pantry and basement stair at double garage entry. An end wall fireplace, with ash dump and gas jet, and extra wall space for fur-

niture placement are included in the great room.

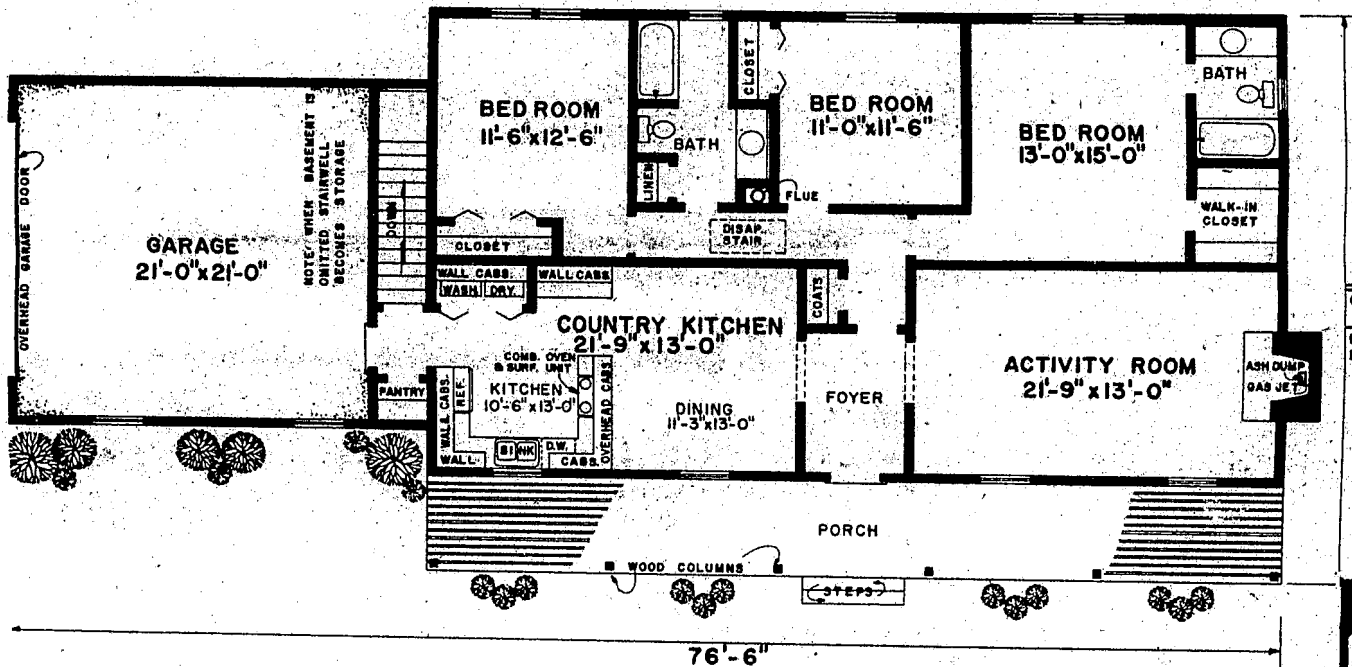

There are three bedrooms and two full baths and there is good closet space. A disappearing stair to attic is shown for extra storage.

The perfect rectangle on the main body of the house will provide greater economy in construction.

The country exterior is accented by wide porch with

multiple square columns, triple dormer, vertical board and batten, rustic shutters and the large end chimney.

The plan is Number 593. It includes 1,596 square feet of heated area. All W. D. Farmer plans include special construction details for energy efficiency. For further information write W. D. Farmer, P.O. Box 49463, Atlanta, Ga. 30359.

Bob Hope says,
"Help keep
Red Cross
ready."

A Public Service of This Newspaper & The Advertising Council

One of the best values on the market is this well built 3 bedroom brick ranch, with a fireplace in the family room, attached 2-car garage all in a park-like neighborhood where pride shows in every home. \$71,900.

WRITE YOUR OWN ACTION AD

1970 CHEVY Impala station wagon.
Power steering and brakes, air.
Clean, runs good. \$750 or best offer.
444-4444 after 6.

1 IDENTIFY
Abbreviations may
be clear to you, but
they're not to a pro-
active buyer!

2 DESCRIBE
Over-enthusiasm leads
to overpricing. Get
realistic.

3 DON'T EXAGGERATE
Make your pitch at-
tractive but also
make it believable.

4 INCLUDE PRICE
Research the market
price - promises
greater response. If
price is negotiable,
say so.

5 BE HOME
Specify the hours
you can be reached.
Some people will
never call back if
they can't reach you
the first time.

It's easy! Fill in the blanks below with what you want to see in print. Complete and clip coupon sending it along with your check or money order, 10 words or less, just \$3.00 for two weeks; 20¢ each additional word. (Zone 2 Prices Only).

To run your ad in both Zone 1 and Zone 2 papers, the price is \$5.00 10 Words or less, 30¢ each additional word.

Please Run the Following:
