Of all things purchased, few give so much useful service and PROTECTION at such low cost as the telephone.

**"COOL COOKING"**

... my ELECTROCHEF never overheats the kitchen!

"It's really amazing how much I can use the oven of my Electrochef electric range, without overheating the kitchen. Even when I spend the whole afternoon baking or roasting, the double air-space oven insulation keeps the heat inside the oven. A cool, comfortable kitchen atmosphere is such a relief, especially during the warm summer months."

"Friends who see my Electrochef admire its snow-white surfaces and remark that the range LOOKS cool. Its smooth, rounded corners and gleaming porcelain are unusually attractive, and the range is as cool as it looks. My Electrochef has taught me what cooking COMFORT really is. Now I wouldn't be without it!"

**"SIX CYLINDERS NO MORE-NO LESS,"**

*says America*

**Anything more and you sacrifice economy—anything less and you sacrifice smoothness.**

**B**UYERS everywhere are comparing low-priced cars. Lifting hoods. Counting cylinders. And the result? An overwhelming verdict for the six, in preference to cars of fewer or more cylinders.

**"SIX CYLINDERS. No more—No less!"** And America backs up that conviction by purchasing more six-cylinder Chevrolets—far more than any other type of low-priced car. Since January 1st, buyers have chosen more Chevrolet Sixes than the combined total of all fours and all eights priced under \$1000.

Why such decisive preference? America knows its automobiles. . . and America has found that real economy and real smoothness can be combined in only one type of engine: the SIX!

With more than six cylinders, you sacrifice Chevrolet's famous economy of gas, oil and upkeep.

With less than six cylinders, you sacrifice built-in smoothness.

But with a six—a Chevrolet Six—nothing is sacrificed. You get everything you want.

You get economy—the greatest all-round economy available in today's motor car market.

You get smoothness—the built-in smoothness that makes driving really restful and enjoyable.

You get power, too—60 horsepower. And speed—65 to 70 miles an hour, easily! And pick-up—a smooth, lightning-fast getaway from a standstill to 35 miles an hour in less than 7 seconds!

So, when buying a new low-priced car, settle the question of cylinders RIGHT, and you can't go WRONG. **"SIX CYLINDERS. No more—No less!"**

In addition to a six-cylinder engine, Chevrolet provides Free Wheeling; Syncro-Mesh shifting; big, spacious Fisher bodies. Due to new reduced prices, you'll be money ahead buying a new Chevrolet instead of keeping the old car another season.

**"All God's Chillun Want Things"**  
 By HENRY T. EWALD  
 Pres. Campbell-Ewald Co., Detroit

Editor's Note—And isn't it the wholehearted truth?

Amid all the pessimism over business conditions, there is one hidden but powerful force at work which will carry America upward again as surely as the seasons unroll: the growing human wants and needs for products of all kinds.

We have had a three-year slump in consumer buying—and therefore a three-year rise in potential demand—because there is no real "saturation point" in human desire. It runs strongly today all through life, from the small boy calling for a radio set to world leaders seeking a solution to politico-economic problems which affect the buying power of millions. "All God's Chillun want things!"

The volume of pent-up demand may be measured by the following record of consumer purchases in four typical industries "during 1931" compared, not with 1929, but with the more normal year of 1926:

1. America's investment in food products during 1931 was one-and-a-half billion dollars less than in 1926!
2. In men's and boys' clothing, expenditures were less than half of those of five years ago.
3. In residential building, last year's record was less than a third that of 1926.
4. And in the automobile industry, always looked upon as an index of consumer buying, orders were less by a million and a quarter cars than the record of 1926.

"Down—down—down" has run the gloomy song of consumer purchases during these past few years. But meanwhile "up—up—up" has run the cheerful song of potential demand. With more than forty-three millions of our people still gainfully employed—with our gross income greater than that of all Europe combined—with "Our Poor Little Rich Country" still rich in many ways even today—there need be little doubt as to what will eventually happen. Now "The Depression" if you will—later "The Deluge" of pent-up buying unloosed.

Business organizations, large and small, will participate in the rewards in direct proportion to their courage, preparedness and sustained selling and advertising effort.

Make no mistake about it, the volume and the kind of Advertising which individual businesses do or fail to do today will have an inevitable effect upon the fortunes of those businesses both now and later. Advertising can and will win results for good products in the present market and still greater results in the future. The vital need is for good Advertising—definitely geared to the mood and manners of today—well planned, well directed, well sustained, that is may create a strong identity and an indelible preference for the particular product.

America has only begun to live, to aspire, to achieve. The business content may not seem overly exciting at the moment, but the facts show that "all God's chillun want things."

Who will rule our various industries in this pent-up demand break—old champions or new?

"The time has come, the Walrus said, to talk of many things—Of shoes—of ships—of sealing wax—of cabbages and kings."

**When a Bank is an Aggravation**

Niblick, the mascot at Davisburg Golf Course, is the recipient of many gifts. His friends frequently give the pet monkey coins to watch the fun he has playing with them.

Last week a thoughtful lady brought him a bank so that he might have a way of keeping these donations. Giving him the bank and two pennies, she was quite amused to see him drop the coins carefully into the bank.

This procedure seemed perfectly satisfactory to Niblick for a little time, but then he discovered that he had no way of recovering the coins once they had dropped down in. Then the tussle began and Niblick refused to give in until he had wrecked the bank sufficiently so that he could reach his precious coins and play with them when he so desired.

never held political office, but says he sees the need of conservative legislation to meet the needs of the times. He pledges, if nominated by his district, September 13th, and elected at the November election, to devote himself to a constructive program that he feels sure will help all classes.

First, his program will be to promote tax revision to relieve real estate of its excessive tax. He then will work for the repeal of the Covert Road Law. Mr. Deah also would reduce the auto weight tax 50% on cars 3 years old or older. Again he asks the voters, why should the laboring man pay 6 times the interest rate the rich pays, as he does under the small loan law. Mr. Deah believes this law should be so amended as to cut the rate from 3 1/2 per month, the present rate, to 1 1/2 per month.

He also would favor the adoption of a quarterly payment plan for auto licenses, optional to the purchaser, instead of the yearly plan, to help the working man. Mr. Deah will promote universal traffic laws as a means of reducing accidents. He believes that delinquent taxes should be reduced in keeping with the reduced value of properties upon which they were assessed.

Mr. Deah would give new construction two years tax free to encourage the builder, and as an aid to labor. He believes there should be no tax exempt bonds or tax free mortgages; he would reduce all salaries commensurate with the increased buying power of the dollar.

June Shows Rise in Chevrolet Sales

Chevrolet dealers reported the sale of 48,218 passenger cars and trucks in May, within 200 units of domestic production for the month. W. S. Knudsen, president and general manager, announced today.

In the first ten days of the month, dealers reported the sale of 13,870 units. In the second like period the total advanced to 16,227 units, and in the last period it climbed to 18,121 new cars and trucks, Mr. Knudsen stated.

This entrance into June on a rising sales curve is one of the most hopeful signs for the month now evident, Mr. Knudsen pointed out.

In June the Chevrolet Company, largest in the industry, is conducting an intensive new car campaign among more than two million owners of low priced cars two and three years old now in need of replacement. Mr. Knudsen stated.

**Annual Brides and Grooms Day**

The annual Brides and Grooms Day of the Vassar Baptist Church is to be held on Sunday, June 19, at 10:30 a. m., so writes Rev. J. Wallace Jacobus, who is the pastor. This unusual event, now of many years' observance, has persisted in sustaining life and interest through many of the "Brides and Grooms" have well established families now. Of course there have been new couples along the years, but the young people of Clarkston and Waterford, where Mr. Jacobus was pastor from 1915 to 1921, retain the main interest. However, these young people now scattered over considerable of Michigan, like to return on this anniversary observance and bring with them the memories of the originating happy occasion.

The gatherin is not confined to the "principal parties", but many of the parents and relatives accompany them.

After the church service, which is planned with special reference to the day, those who bring picnic or basket dinners with them, assemble on the spacious lawns or porch and enjoy dinner together. An afternoon of good fellowship and renewal of friendships makes nearly a perfect day, ere they vote the occasion both unique and enjoyable and start the homeward journeys.

So, many requests for the date came in this year, Mr. Jacobus informs us, that any thought of abandoning the plan was out of the question. It is hoped, therefore, that not only the "Brides and Grooms", but as many as possible of the old Waterford and Clarkston friends may join the company again this year. M-15 is the company again this year. M-15 is the company again this year. M-15 is the company again this year.
