# fiss Helen-Chéeséman Meets President Hoover

Miss Helen Cheeseman, who wa first "Miss Clarkston," then "Miss Oakland County" and then accorded the honor or being selected as the Peach Queen to reign over the Romeo Peach Festival next week, has been to visit President Herbert Hoover and gagements, during this week.

The trip to the White House was made by aeroplane and Miss Cheeseman left here at 7:30 Wednesday morning, arriving in Washington, D. C., at 11:40 a. m. She took with her home of Miss Ila. Burt on the banks a basket of peaches which she pre-sented to President Hoover. We are especially interested in this basket of peaches as about half the fruit was picked at the McClelland Heights Orchard, property of our village president, David McClelland. These peaches were some of the beautiful Hales and were accorded much praise by the folks at the airport and those who saw the basket as Miss Cheeseman left with it.

From 7:30 to 8:00 pr m. Tuesday evening the Peach Festival was given. a one-half hour program over the air from WWJ, of Detroit and Miss Cheeseman talked over the microphone to many listeners throughout the country.

After the visit to the White House and President Hoover's reception on Wednesday noon, Miss Cheeseman flew to Cleveland to attend the air races and to be presented there. From Cleveland they flew to Chicago where Cheseman broadcast over WENR on the national hook-up. The Chicago trip was sponsored by the Benton Harbor-St. Joseph Fruit Association.

From the time the plane left here with Miss Cheeseman and her maids of honor, in company with the wife-of the mayor of Romeo, telegrams have been received periodically by Mr. and Mrs. C. J. Cheeseman, parents of the peach queen, and by Romeo officials, keeping in constant touch with the

The Romeo Peach Festival begins Saturday of this week with much festivity, including the Mummer's Ball, a street masque ball for everyone, and continues through Sunday and Monday, with the last day mentioned the most important and gala day of the festival. On this day will be the big parade with many beautiful floats. The Peach Queen, Helen Cheeseman, will be coronated at 11:00 a. m. Monday. In the parade in the afternoon she will ride on one of the most gorgeous floats ever decorated for the festival.

The festival this year will present one of the finest peach crops ever harvested in the state and will include some fruit from McClelland Heights Orchard. The three-day event is always well attended is certainly worth while seeing.

## **Leonard 45 Years Old Wins Prize**

Mr. Frank C. Gale of Corunna is the proud owner of a brand new electric refrigerator all because he had in his home one of the oldest ice boxes in the United States.

Early in July, Buhl Sons company of Defroit, distributors for the Leonard Refrigerator company, started a quest for the oldest Leonard ice box in its territory, which embraces Corunna. The company offered to exchange for this veteran cooler a new electric refrigerator, bearing the same trade name.

Mr. Gale closely examined his ice box for labels setting forth dates and then confirmed his findings by digging out of the family records evidence that the box had been purchased in 1887. He submitted a sworn statement as to the age of his box and attested to the fact that it had been in constant use for forty-five years. From the thousands of entries in the Detroit area he was selected as the fortunate person who would receive a new electric refrigerator in

exchange for his ice box. The aged box, still fit for dependable service, it to be used for display purposes by the Detroit concern. The new electric will, henceforth grace the kitchen of Mr. Gale, giving him ed the bride as bridesmaid and the constant, carefree refrigeration and bride's brother, Ralph BrBandt, servadvantages of which he has never dreamed.

## School Opens Sept 6 All Propects Good

Economy Without Loss of Benefit to Pupil Is Rule; Same Staff to Return

When the doors of the Clarkston School open next Tuesday, September i, there will be every reason to expect successful year of work. The school board and the teaching staff are well organized and it is expected that year will progress smoothly and with the most economical program.

The teaching staff is composed of eleven, all of whom hold degrees or life certificates. Superintendent D. M. Winn, who holds a Bachelor of Arts degree from the Michigan State Normal College at Ypsilanti and a Master of Arts degree from the Uni-versity of Michigan, will direct the school work and will also teach mathematics and have charge of some session rooms.

The remainder of the High School staff is as follows: Robert Waters—A, B. degree from

Michigan State Normal College. Mr. Waters will coach all boys' athletics and will teach science.

Elsa Buchmanan A. B. degree from Ohio. Miss Buchmanan will teach English and Latin.

Isabel King-A. B. degree from Michigan State College. Miss King will have charge of social sciences and domestic science.

Dorothy Huttenlocher-Life Certificate from Michigan State Normal College. Mrs. Huttenlocher will teach English and the 7th and 8th grades, or Junior High School. She will also have charge of the girls' basketball. Last year she guided the girls to a district championship and the mater-

ial this year looks mighty good. Kathryn Winn—Commercial Life Certificate from Michigan Normal College. Mrs. Winn will have charge of all the Commercial work for the high school.

All four of the grade teachers hold Life Certificates from Michigan State Normal College at Ypsilanti. Mrs. Charlotte Hyde Hutton will teach kindergarten, first grade, and music; Mrs. Margaret Rockwell will have second and third grades; Mrs. Emily Beardslee will have the fourth and fifth grades and Mrs. Prudence Dunston the fifth and sixth grades.

The school offers all of the requirements necessary for entrance into any Michigan college or University or to any upper school on the North Central list. In athletics, football, basketball and baseball will be offered the boys and basketball to the girls. Frank Bach will conduct the orchestra and band for the school.

The school opens next Tuesday, September 6. All pupils are expected toregister and classify at 9:00 o'clock that day. Regular classes and sessions will begin Wednesday morning. For enrollment in the kindergarten the child should be five years old. They should at least be enrolled when they are six years, because if allowed to wait until they are seven, they will be grouped with younger children.

The School Board who are respon sible for the conduct of the school business matters includes: Leon R. McFarland, president; Lee M. Clark, treasurer; Earl Walter, secretary; Roy Spencer and Joseph Hubbard. trustees. All matter pertaining to the school should be taken up directly with Superintendent Winn or with the school board.

The strictest economy program is to be followed. The teachers received a 20 per cent cut last year, which is a total of as large a cut as any of the schools have received over a two-year period. This year they have an additional conditional cut of 10 per cent in their contracts. All other possible economies have been effected. The books will be sold as usual at the high school book store and are sold for cos plus transportation charges. There are no changes in text books this year and pupils will be able to buy second hand books in many subjects and grades. The enrollment this year willremain about the same giving the school a normal year.

We did not realize what a beauti ful state in which we were living until we made quite a tour of it during the past week. So many have asked about our trip and how we liked it, we thought it might be of interest to make a resume of the few days we were gone.

We left here Tuesday morning of ast week and after leaving the young daughter with friends east of Bay City in the "Thumb," proceeded north by way of Bay City where a short stop was made at the State Park. This park is probably one of the best located and equipped and includes a marvelous bathing beach. We estimated that at least 500 individual camps packed this park. After covering 200 miles, we camped at the park at Tawas, located on Lake Huron, for

The next day, Wednesday, we reached Rogers City, after visiting the Lumberman's Memorial, two power dams on the Au Sable River, and the city park at Alpena where we enjoyed dinner. The scenic view from the Lumberman's Memorial is beautiful and should not be missed by tourists. who travel this route. The State Park located five miles northwest of Rogers City at Forty Mile Point, was greatly enjoyed and we had a dandy swim in Lake Huron before supper.

We left the main highway the next morning and travelled a short cut which followed the lake to Cheboygan. This route took us thru virgin timber where very little habitation could be found. The Coast Guard Station near Hammond was certainly isolated and we thought it very interesting. After lunch at the State Park in Mackinaw City, we embarked on the 2:00 o'clock ferry for St. Ignace.

We spent Thursday night at the hunting lodge jointly owned by Joe Grondin, B. O. Auten, and E. T. Des the wilds of the Upper Peninsula, 12 miles northwest of McMillan oh an untravelled side road. It is very scenicly situated back in the side of a hill, with the Tahquamenon River rapidly flowing past the door. Every convenience will be found in the cabin and we enjoyed spending the one night out in the quiet forest. Incidently, we slept with springs underneath, and good ones, too.

Thirty or forty camps were located near the cabin, all inhabited by families of blue-berry pickers. We learned that a real good picker got close to two cases a day. The one mishap of the entire trip occured here when someone drained our gas tank. In the morning, the car started Q. K. but it lasted only until we turned around when the gasoline in the vacuum tank was exhaused. However, the large camp of berry buyers had a supply of gasoline and we were not inconvenienced greatly.

By 3:00 o'clock we arrived at Sault Ste, Marie, the farther-most point which was reached on the entire journey, and this sight was certainly worth while. Three very large boats were passing through the locks and only 45 minutes were required for the facilities of this wonderful engineering feat to complete the job using but one lock. Many visitors were witnessing the display.

The ferry was just missed by a few minutes on the return trip, so we utilized the one hour wait to visit the State Park at St. Ignace. While here the Editor ran out of gas (for no reason whatsoever) and we were just able to make the boat after all. The State Park at Mackinac City is another dandy camp. After supper we attended a concert by a barnstorming colored orchestra that plays at the park each year for the entertainment of the tourists. According to reports, this park is packed from June until

Saturday, we drove south along the coast of Lake Michigan through Petoskey, Traverse City, and Interlochen. At the latter place we visited the International School and Music nd the large bowl which seats

United States. He plans to visit 40 states and speak about 200 times between now and November 8th. He comes to Pontiac from Detroit and will leave immediately after his address to address a similar meeting in Indianapolis the following day.
Coming from the world of middle

class gentility. Thomas has risen to be the leader of the organized workers, and farmers,—National standard bearer of his party in 1928, and at times candidate for Mayor of New York City and for Governor of New York State, he was renominated for the presidency by acclamation at the Socialist Convention in Milwanker this year.

Norman Thomas was born 48 years ago in Marion, Ohio, and as a child earned his pin money distributing copies of the Marion Star, the news paper owned by Warren G. Harding.

After graduating from Princeton University and Union Theological Seminary he was ordained in the Presbyterian ministry, for which he was destined from his youth, as both his father and grandfather had been ministers too. He left the ministry for conscience sake to put in his entire time working for a change in the so cial order.

He joined the Socialist Party soon after, his work among the poor in the slums leading him to the conclusion that there must be a definite change in the economic order. After enduring a hectic and sorrowful experience as editor of a Socialist daily newspaper he founded "The World Tomorrow" a monthly magazine which has since become a weekly.

He was offered the executive directorship of the League for Industrial Democracy, an organization to promote the study of Socialism, in 1921 and since then has devoted his entire time to leading the workers in their battle for a just society.

"In announcing my candidacy for he office of Prosecuting Attorney on mit to the voters of this County, some

extremely vital facts: "First, that never before in its history has this County needed, as it now needs, fearless, impartial, aggressive competent administration in this particular office. To accomplish this, your Prosecutor must be an able trial lawyer, as well as counsellor, thoroughly conversant with the law-

both civil and criminal. "Second, in spite of the fact that the volume of business in the Prosecutor's office has decreased fifty per cent during the last two years, as compared with the previous two years, the cost of the present administration has advanced twenty-two per cent over the cost of the administration for the previous two years. This, I do not think, is in harmony with the present economic conditions in the county, when all County departments are
