What A Villager Has To Comment

As I was reading an article under this same heading in last week's issue of The Clarkston News, the thought came to me that it was a laudable appeal to our citizens to do their part toward the recovery of our country from the Depression. However the inconsistency of the article should be brought to light.

It is strange indeed that a villager having such high and mighty ideals should not be willing to take the credit for the same and allow us to know who he is by signing his name to the article and having it published. For one who is admittedly a politician, from the gist of his article, his retiring modesty is hard to understand. But friends, perhaps there is a reason.

I am referring to the attack on the Township Board in regard to not prosecuting the elected Constables for not qualifying.

A person could easily guess from the mouthing of law words that the author of the article perhaps at one time had an ambition to be a lawyer and studied law, and now would like to be an inflated toad in a small puddle, but, citizens lets take the Constable matter apart and see the works. It looks as tho. there were some teeth out of the cogs in the previous article.

It surely has been a joke in previous years the way Constables were nominated at the Caucus.

Generally some elderly man who would be physically unable to do the work expected of him would be nominated just for a joke.

Now, Mr. would be lawyer, as you said the law provides a penalty for an elected person not qualifying, should the Township Board hail this old man, who is unable to pay a fine, into court and have our local Justice assess him with a \$10.00 fine or a jail sentence? Should the Township Board do this and send the man to the County Jail for more expense to us without considering the justice to the innocent old man? Should the Twp Board do all this and also assess the Twp. Board the extra expense of buying a bond for the old man? Perhaps if the author had spent a little more time studying up on his law books instead of fishing in Green's Lake he would be better informed on how much of a saving it would be to the Township instead of thinking only of the Justice's fee for every court case.

Being one of the Twp. Board it seems incredible that he should attend all the meetings and not voice his wishes to have us hail 4 men into court each year at an expense of \$40 to the Township in bonds aside from the county expense which we would have to pay in taxes. The fines if paid would go to the county to the Library Fund with the exception of the court costs. This perhaps may be the reason for the unwarranted attack on the Township Board, considering that readers would pass him up as being a minor member of the Board and also by his presence on the Board divert suspicion from him for writing the article. Anyway you look at it, shows either ignorance or greed for court costs, aside from ignoring justice to innocent candidates who may not even know their names are on the ballot. There has not been one Constable qualifying since 1912.

I heartily agree that now is the time to go to the polls and use the best of judgement. Vote for the men who have already proven their worth, by bringing your taxes down and showing a saving that has been unprecedented in 20 years and yet who have not let the indigents suffer. It has been a tremendous problem but the results show that the best of judgement has been used to accomplish what has been done.

You have already seen something ominous that is ominous, that makes you wonder if we have people in our midst that would if the chance came, load upon our taxpayers an extra expense that would indeed be the last straw to break the camels back. Citizens let us go to the polls and consider what we have gone through, how much better off we are than other Townships and take your pencil, and put your mark where you

know it will do good and you will not have to gamble on results.
In a later issue I can give you the figures of the cost of the different departments for comparison with other years and let you see what has been accomplished where the Township Board could control it.
Yours for low taxes and conscientious voting.

OUR LEADER

By Mrs. Eli Fisher

This new leader of our nation has a mighty work to do. To clean away depression ruin. And start things all anew.

"Father, wilt thou kindly guide him. Strengthen him in every way. Give him power to solve the problems That confront him day by day."

Though he be called the helmsman. He must have a gallant crew. To battle this great tempest. And bring us safely through.

May we, as true Americans, Cast all prejudice aside. And pledge to our new leader. "By thy laws we will abide."

And may we all keep cheerful. Let no cloud obstruct his view. If we're loyal to our leader. He will guide us safely through.

DIRECT CREDITS MEET SATURDAY

A meeting of the Direct Credits Society for everybody will be held Saturday, March 18, at 2:00 P. M. at the Township Hall in Clarkston. No admission charge will be made. A FISH STORY FROM FLORIDA

Orlando, Florida, March 6, 1933
 Mrs. E. S. Waterbury of Florida writes us the following:
 Editor Clarkston News;
 Mr. and Mrs. R. J. Waterbury of Pleasant Ridge, recent visitors in Florida, while vacationing at Miami with other tourists chartered a boat and guide for ocean fishing. Mr. Waterbury was fortunate enough to land a 39 pound sailfish. He was given a certificate of membership in the Sailfish Club of Miami, signed by the Mayor of that city and a free photograph of himself; just like Mr. Hoover, President Roosevelt and Chicago's martyred Mayor Cermak.

That liability we acquired from Mr. Ford thereby relieving him of about \$375.00 per year taxes.
 I was president of the Village at the time this \$8500.00 was being spent and I am not ashamed of anything that was done, as we have something to show for every dollar that was spent. The tax roll was spread for seventy five years previous to 1926 and there was not a single thing to show where the money went and there has been no improvements since 1928, and there should be no reason why the village should not be out of debt.
 Yours very truly

However this courtesy to Mr. Waterbury and other tourists is no doubt a part of H. P. Daughtery's two million dollar advertising campaign for Miami and his Biltmore hotel.

Mr. and Mrs. R. E. Waterbury of Port Huron at about the same time were trying their fishing skill off the West coast in the Gulf of Mexico, near Naples. Mr. Waterbury and his wife caught 350 pounds of Kingfish, net weight, after being dressed, as their day's catch, the heaviest weighing 15 pounds.

The record was slightly over 400 pounds, at that date for two people. The Kingfish is a great fighter. The landing of them is great sport. *Clarkston and Springfield Folk Enjoying Florida*

We hear the Fred Bryant's and Alfred Willock's families of Springfield, the Meyer's folks of our town Tea Room, Mr. and Mrs. Jap Linabury and Cyrus of the Linabury Greenhouse, are all well and enjoying Florida's sunshine to the utmost. The Bryant's are located at Dunedin, the Meyer's at Orla Vista, and the Linabury's at St. Cloud.

VOICE OF THE PEOPLE
 To the Editor of Clarkston News:

I noticed an article in today's issue of your paper that is very misleading. It states that when Mr. McClelland became president of Clarkston there was a deficit of \$8500.

There is a difference between a deficit and a debt. The \$8500.00 you speak of was a debt that was voted by the people for the purpose of buying a fire hall and rest rooms, also fire fighting apparatus. Traffic was also very heavy at that time on M-15 and it became necessary to install traffic lights. These were also paid for out of this \$8500.00, also the bridge on Church street, which makes it possible to get to the new school. During this time an improvement of \$450.00 was made on the bathing beach at Dear lake.

And during the three years that this \$8500.00 was being spent the Village paid off a debt of \$1500.00 that was contracted for paving when M-15 was paved. I also wish to say that the sidewalks were kept clean of snow at that time from the general fund, and that a sewer was put in from the corner of Washington and Main streets north to the stream that goes from the mill pond to Park lake, also another sewer was installed from Holcomb street East to the marsh which is now called the park.
