ount that might be collected during the balance of the school year. The board estimated that there would be about funds enough to pay salaries until May 1st or eight months of the year. Accordingly the Board proposed that the teachers teach nine months on the 8 months pay. This cut of 20% for this year makes a total of 40% reduction in salaries.

Their response was to present the Board with a signed statement releasing the district of further obligation after receiving the eight months pay and gladly agreed to teach the nine months. This condition will bring school to a close June 2nd.

The Board wishes to express their appreciation of the loyalty and cooperation of the teaching staff through these difficulties.

DETROIT, MICHIGAN April 3, 1933

TO THE CUSTOMERS OF

THE DETROIT EDISON COMPANY

In 29 cities

58 villages

and 130 townships

There are some 500,000 of you, in those cities, villages and townships. We have a lot of things to tell you which are of interest because you are our customers. We might get your attention by circulars delivered at your door, or by radio broadcast. At this time we think the best way to reach you is by successive letters in the newspapers, of which this is the first.

This is not a hard luck story. We have money looked up in closed banks and trust companies, just as many of you have. But we are not broke—nor are we grumbling about that.
