### HOLSTEIN CALF REPORTED STOLEN

While chicken thieves took a rest during the week, cattle started to make their disappearance. Tuesday morning sheriff Seeterlin was called to the Glenn Boner farm on the Dixie highway where a 500 lb. heifer had been stolen during the night. A short while ago two steeds were stolen from the Roy Beadle farm, two miles west of Ortonville.

About four days prior to the disappearance of the Boner heifer, some stock buyers stopped at the farm and Mr. Boner showed them the fat calf. A suggestion is made to cattle owners to carefully note the license numbers of any known cattle buyer's automobiles, which will enable a quick check-up to be made. Officials wish to render all protection possible but must have this added cooperation. Information given will be held in the strictest confidence.

**Do Motor Trucks and Buses really pay taxes?**

Heavy duty motor trucks and passenger bus owners complain they are heavily taxed. Signs are displayed on giant motor vehicles: "This truck pays \$1950 per year in taxes."

**Gasoline and weight fees are not taxes**

They are simply payments for part of the expense of building and keeping up concrete roads which cost the real taxpayers approximately SEVENTY-FIVE MILLION DOLLARS annually to maintain, exclusive of city streets. One-third of this money is spent solely to build and maintain roads strong enough to stand heavy motor bus and truck traffic. These giants of the highways actually contribute a pitifully small share of the enormous burden now being carried by owners of pleasure cars and light trucks.

**Railroads are the heavy taxpayers**

Motor transport pays practically nothing in the form of taxes to help defray the cost of government. The railroads of this state are paying approximately TEN MILLION DOLLARS PER YEAR toward this cost. They are using no publicly owned property in the conduct of their business. RAILROADS PAY AS HIGH AS \$2800 PER MILE PER YEAR IN TAXES.

Dozens of tempting dishes can be prepared in this electric casserole.

Every cook knows that broiling brings out the fullest flavor of steaks and chops. The delicious flavor of broiling over charcoal is equaled if not surpassed - by electric broiling. And now a handy new appliance - the electric "Chef-Ette" brings new convenience to broiling. And it is inexpensive! The price of the "Chef-Ette" is only \$3.95! It resembles a glorified frying pan or chafing dish. To broil, you simply place the steaks or chops on the grill rack, and put the heat unit upside down, on top. The meat is broiled from above, and the juices, as they drip down, are caught in the roaster below. Broiling with the "Chef-Ette" is easier than oven broiling! The "Chef-Ette" has countless other practical uses. It roasts even the cheaper cuts of meat, on the Dutch Oven principle, to incomparable tenderness and tastiness. It toasts bread or sandwiches which will not fit into the conventional type of toaster. Used as a hotplate, it heats coffee or warms the baby's bottle. CHEF-ETTE operates from any convenience outlet.

TO THE CUSTOMERS OF THE DETROIT EDISON COMPANY

This is the third of these letters about your electric service: Hard times cut queer capers with our business of furnishing electricity. Our sales are 'way under the good years, and what we do sell nowadays means a lot of grief in the matter of collections. With many thousand customers paying their bills in installments and many unable to pay at all; the work of our Collection Department, Cash Department, and Sales Department has grown to fantastic proportions. People are moving more often and there are more records to be kept. Partial payments mean more bookkeeping and thousands of duplicate bills to be furnished. All this throws extra work, extra expense, and extra responsibility upon us—while the money coming in has been steadily less. Our business has to be done on credit. It cannot be done cash and carry.

We are entitled to ask for guarantees or deposits to secure payment of our bills. We seldom do so when a customer is well spoken of. Just now with 525,000 accounts we have only 28,200 deposits and very few guarantees! Most people pay us. Some don't. We are entitled to cut off service if people don't pay promptly. But these days there are too many people out of luck, and we have 106,600 customers for whose payments we are waiting. They pay a little at a time, when they can. But there are also those who don't pay. The chronic debt dodgers are not so many but each of them is a lot of trouble. They do not pay until their light is to be cut off. They make promises they do not keep and never meant to keep. We would get peeved at them if we were not a soulless corporation. Any of you would feel imposed upon if you found your debtor, who had promised to pay, giving a party to his friends—and giving you a stand-off. Now about bad debts. You all have them. So do we. In an ordinary year they don't amount to much—they are only bankrupts or people leaving town without paying. But look how they have been growing! In 1928, our losses on bad debts amounted to \$207,400; in 1929, \$163,900; in 1930, \$369,400; in 1931, \$495,100; in 1932, \$601,100. We don't know what they will be in 1933 and our guess is not a source of happiness.

The next letter in this series will appear in this paper next week.
