Edwards and attended the morning church service in a body. Dr. C. E. Wakefield, of Pasadena, Calif., who expected to be present and deliver the nounced.

Comment and Criticism

The farmer and the resident of our rural communities have K. D. Bailey, county agricultural a vital stake in the National Recovery Program, Success of the program means a better, brighter day for them and proportion-ately more than for the industrial worker and the city dweller

While there has been overproduction of certain farm. The agents will be at the following water made agents will be at the following places in this part of the county on products, underconsumption caused by business and industrial paralysis and widespread unemployment, resulting in a huge loss the dates named: of purchasing power, has contributed principally to the farmer's

Farm prices have been low largely because the drop in the Tuesday afternoon, Sept. 19—Or-income of the people has sharply curtailed demand and the farmer tonville Elevator at Ortonville, must take what he can get for his products, not what they are Thursday morning, Sept. 21—Day-

The farmer has rightly been called the backbone of the Nation. At no time in our history has his wholehearted help eer needed more than now. He can work the more earnestly in contributing to the success of the recovery drive because he knows that when the big turn comes he will share in the prosperity that follows.

President Roosevelt, whose farsighted and dynamic leadership has already initiated comprehensive measures designed to aid the farmer directly in solving his own problems, is depending upon the rural dweller to put a shoulder to the wheel and help get the country back on its feet.

Liberty Theatre

How would you feel if you were man who had longed for a life on the open sea, and were filled with conempt for the ramshackle ferry boat which served your home town, only to learn that your wife had spent your entire joint savings to make you present—of the ferry?

And how much worse would it be if you didn't know anything about it until after the despised ferry boat had exploded at its pier and you sneered at the insane foolishness of the man whom you thought had bought the dilapidated old tub?

This is a situation which confronts Slim Summerville in "Her First Mate", the hilarious comedy which will be at the Liberty Theatre Sunday and Monday. Zasu Pitts, his wife in the picture, has secretly bought the ferry as a means of making him quit his job on a gay Albany night boat, and inducing him to spend his C. Hayes, of Holly, called on the nights at home. And she doesn't know former's brother, C. E. Selmes, on that he has already been fired anyhow!

Miss Pitts are Una Merkel, Berton Churchill, Henry Armetta and other screen favorites.

The two feature attractions appearing at the Liberty Friday and Satur-day are "Picture Snatcher" and "Don't Bet on Love". James Cagney, on camping trips? the bad boy of the screen, is the star horoughly hard boiled role, although a delightfully entertaining one.

Proud and stad to-do our part."

ITH President Roosevelt's acceptance of the NRA Automobile Code, Chevrolet, the world's largest builder of motor cars, officially begins operations in accordance with the administration's recovery program.

Although the official code was signed only a few days ago, it will be of interest to Chevrolet's many friends to learn that the Chevrolet Motor Company started to carry out the spirit of today's recovery program over three years agol

At that time, we put into operation a "share-the-work" plan, whereby our workmen cooperated in spreading the work to give more men jobs. By means of this plan, as well as by regulating hours of work per week to meet retail demand, and by building up parts stocks in lean seasons, it was possible to carry 33,000 men on our payroll through the depression. For eleven months of each year since 1929, we have kept our employment within 10 per cent of this average. We are justly proud of that record. We are also proud to say that Chevrolet workmen did not, at any time during the depression, become a burden on public welfare departments.

On August 1st of this year, Chevrolet announced a blanket wage increase as well as the adoption of a 7½-hour, 5-day week and the employment of 12,000 additional men. This wage increase was the second in the last 4 months, Chevrolet having been among the first to put a blanket wage increase into effect.

We feel that the President's recovery program deserves the whole-hearted support of every citizen and manufacturer in America. It is a bold, swift, courageous plan to start the ball rolling toward economic recovery. Its sincerity is unquestioned. Its objectives are admirable. And the direct, forceful steps the President and his associates are taking to make it a success, should stir the pride and admiration of every American.

We are proud and glad to do our part. And we are deeply grateful to the American people for the patronage that has enabled us to anticipate the present recovery program and to play our part today. After all, the immense number of men employed by Chevrolet is a direct result of the continued preference America has shown for Chevroleta

President—Jack Featherstone.

Vice-president-Ina Tucker. Secretary-Louise Peek. Treasurer-Marion Brant.

READY NOW TO CUT ALFALFA FOR SEED

County Agent Tells How Crop Should Be Handled

For the first time in several years Oakland County Farmers are preparing to harvest seed crop from the second cutting of alfalfa. A number of inquiries have been received from farmers by K. D. Bailey, County Agricultural Agent, relative to the manner of handling the crop. The fact that good alfalfa seed is worth from \$8.00 to \$15.00 per bushel and yields from one to six bushels per acre may be expected makes the seed crop a good prospect for cash.

Generally the browning up of threefourths of seed pods is considered a next few months.

tertained a company of relatives at good indication of the right time to their home Sunday for dinner in begin harvesting. A self-reaper or honor of Mr. and Mrs. Leeceman and mower with a buncher attachment may be employed for cutting. The seed crop is allowed to cure in windrows or small cocks for a week or ten days. It is then threshed or it may be threshed from the field, if a thresher is immediately, available. The stack should be piled on a large tarpaulin held off the ground a foot or so by a layer of old hay or straw. The top of the stack should be protected by a canvas or layer of old straw or hay held down by poles or ropes. The use of canvas on the bottom of the wagon used to haul the

UNANSWERED CALL SAVES LIVES OF WHOLE FAMILY

A silent telephone saved the life of the mother of the Rev. John A: Harrer, prominent Brooklyn, N. Y., clergyman, the other day. It is the custom of this clergyman to call his mother on the telephone daily, but on Mother's Day the call was not answered. Alarmed, he motored to her home, and receiving no reply to the bell, climbed in a window. Smelling gas, he rushed to the bedrooms, where he found his mother, his sister, and her husband, all unconscious. The family had had breakfast, and finding the house cold, had lit an oll stove and the gas range, and then gone back to bed. With all windows closed, the fumes overcame them while they slept. The daughter and son-in-law were revived by an emergency squad, but the mother's conditionnecessitated her removal to a hos-

FAMILY RESCUED FROM DEATH BY CARBON MONOXIDE GAS

Franklin Dart, of Milwaukee, Wis., roused himself from a coma into which he was passing, one morning not long ago, and found carbon monoxide gas was escaping from a coal heater. His wife, two young sons, and his wife's sister. were already overcome. Crawling to the telephone, he managed to call the fire department before he collapsed. A rescue squad found all five members of the family unconscious, but the application of artificial respiration succeeded in restoring them.
