CLARKSTON, MICHIGAN, FRIDAY, OCTOBER 20, 1933

Financial Responsibility Law Now In Force :- Frolic for Milk Fund Was Great Success

Everyone Who Drives an Auto Is Interested

The financial responsibility lay which became effective October 17, is intended to protect persons and property from the acts of irresponsible persons on the highways. From scores of letters sent to the Department of State if is evident that many have, a pavement connecting M-10 motorists believe the new statute and M-15. But things worth having P. T. A. Sponsors makes automobile insurance compul- mean work. So let's work for it.

affect a vast majority of Michigan and had a good time. Think it over automobile drivers. Similar laws are People of Clarkston. provinces of Canada.

After conviction of a major viola-tion of motor vehicle laws or after failing to satisfy a judgment of \$300 or more growing out of a traffic accident, the motorist's license and all registration certificates of the automobile are suspended. In order to reinstate the license, the motorist must furnish the Secretary of State with proof of his financial responsibility to neet the costs of any future highway accidents.

This can be done in three ways The motorist may deposit \$11,000 with the state. He may file a surety bond of a real estate bond with two sureties providing for a maximum of \$10,000 for personal injuries or death and a maximum of \$1,000 for property damage; or the motorist may file a certificate showing that he carries motor vehicle liability insurance for the necessary amounts

Liberty Theatre

With Warner Baxter and Myrna Loy at the top of an impressive cast, "Penthouse" will be at the liberty Theatre next Sunday and Monday.

Directed by the masterful touch of W. S. Van Dyke, who brought such notable productions as "Trader Horn" and "White Shadows in the South Seas' to the screen, "Pent-

ouse" presents a modern and laudable picture of New York's high-spots—the Mad Manhattan that Walter Winchell and O. O. McIntyre have glorified in the public press.

Myrna Loy, who has played so many oriental and exotic parts comes into her own in this production as

one of the most alluring women to grace the screen. As Gertie Waxted, the night club girl, she appears in one of the strongest and most appealing performances of her career. The story is by Arthur Somers Roche and appeared serially in the

Cosmopolitan Magazine and the Detroit Times.

The first six grades have health officers. Some of the grades are making posters. Each room has its transmitted in the first grade has thirty-six new beginners this semester, making a total enrollment of 58.

DEER HUNTERS' LICENSES ON SALE NOVEMBER I

Deer hunting licenses for the 1933 season will be placed on sale by Conservation Department license agents November 1, 15 days prior to the

pening of the season. The fee for the resident deer license this year has been dropped from \$3.50 to \$2.25 and the cost of the nonsident license has dropped from \$50 o \$25. The fee for a camp deer icense is \$3.00.

SEED BEANS NEED TO BE PROTECTED

M. S. C. Tells Farmers How Best to Accomplish This

Protection of seed beans from the attacks of the bean weevil can be insured by fumigating the seed with earbon disulphide or with propylene dicloride mixture, according to ento-mologists at Michigan State College Either material is an effective fumigant when properly used and the cost of treatment is about the same with either. The chief difference is The Safety Patrol of the Drayton in the fire hazard. Carbon disulphide Plains School is under way. It is un- is highly inflammable and explodes Glub of Michigan, The following not inflammable and will not explode. Grain can not be fumigated successfully when the temperature is

below 60 degrees F. or when the

The bean weevil lives over winter in beans or peas, and flies from them to bean fields in the spring. If infested beans are sown, the weevils

Infested beans are worthless for food and are usually so seriously injured that they will not germinate if

planted for seed. Beans to be treated should be placed in tight bins in which all cracks have been stopped. One and one-half pounds of fumigant should be used to each 100 cubic feet of space in the bin. The fumigating material is poured directly on the seed to be treated after the seed is covered with several thicknesses of blankets withseveral thicknesses of blankets with-

WAS YOUR STOVE MODERN

when pompadours were in style?

Perhaps you don't realize that stoves have changed as much as women's styles—that a modern range today will do things old rishioned stoves would never do. For

do things of assimoned stoyes would never do. For example, a modern electric range makes the scouring of pots and pans unnecessary, there is no smoke or soot to blacken utensils or soil kitchen walls and curtains. An electric range supplies only PURE HEAT from a glowing wire heat as clean as sunlight. A modern range, too, cooks practically without water. Half-a-cup is ample for cooks and the precessors and food values.

for vegetables, and the precious minerals and food values

that you pay for are retained, instead of being lost in

steam or powed down the sink when the cooking is finished. And finally, electric cooking SEALS-IN flavor: meats and vegetables cook to melting tenderness in their

own juices. There is practically no shrinkage in roasts, and foods cooked electrically have a flavor surpassingly

delicious—a natural flavor achieved by no other cooking method. Foodsnotonlytaste better hut are more bealthful. You can own a new Waldorf Electrochef electric range

Modernize your entire kitchen by installing a new

for \$89.50, installed and ready to cook.

FORD COMPANY TO PUT ON PAGEANT

A pageant depicting the part science and industry have played in motor car development since the advent of the first automobile is to be presented in a national Ford Exposition of Progress which will open next Saturday in Convention Hall in De-

troit. The Exposition, which will be free to the public, will continue through October 28. Not only the Ford Motor Company but more than 175 other industries some of them among the greatest in the industrial world—will participate. The exhibits, costing hundreds of thousands of dollars, will portray vividly how farms, mines and factories in all parts of the United States and in many foreign countries contribute to the manufacture of the modern

The focal point of the exhibition will be a replica of the historic onestory brick workshop where Henry

present, will also be shown.

An entire assembly line is being moved into the hall so that Ford all-steel bodies can be assembled in full RENNETT'S RADIO SER view of visitors. The fabrication and vulcanizing of tires will be demon- All Makes Satisfactorily Repaired strated by other crews of workmen, Phone 86W

In another corner of the great hall, steel-spoke wheels will be made by a battery of eight giant welders.

A modern service station will be exhibited side by side an old-time blacksmith shop, used as the first service station.

There is also a theatre seating sev and through making over clothing ing with the automobile industry will and producing more of the family be shown, Musical entertainment will prices for the necessities purchased be supplied by prominent artists.

CONGRESSMAN DONDERO

SPEARS FOR WATERWAY

Congressman George A. Dondero, 17th Michigan District, Michigan's only member on the River and Harbors Committee of the United States House of Representatives, has just returned from the National Rivers and Harbors Congress in Chicago. Congressman Dondero discussed the St. Lawrence Waterway, emphasizing its importance to both bordering and inland states and the resulting adinand states and the resulting adinance and states and inland states and the resulting advantages in lowered transportation costs. Delegates from all parts of the United States and from Puerto Rico were in attendance, and all phases of rivers and harbors problems came up for discussion.
