CLARKSTON, MICHIGAN, FRIDAY, OCTOBER 27, 1933

NUMBER 9

A Number of Clarkston People Joined in Run

Last Friday night a Hallowe'en Party, which was just a little different, was given by Mr. and Mrs. C. A. Nelsey of Davisburg, Forty-five guests including a number from Clarkston assembled, formed into groups and then started on a treas. ure hunt. Much merriment was had as the seven cars went here, there And it is also rumored that Sec. and everywhere seeking for something they did not know what. Finally, somewhere around the hour of midnight one group went to the corn field on the Nelsey-Teggerdine farm and here in a large cardboard box they found, the treasure which was a package of stick candy for each of the six occupants of the car. After taking the treasure they deposited a white flag in the box to let any of the other cars that chanced that way know that the treasure had been found and they were to return to the pavilion in Davisburg Park. Each car in turn deposited their flag to warn the car following. After each car visited the cornfield they made their way to the Park where they had i weinie roast. The treasure was found by George Marshall, Fred Walls, Lauren Chestnut, Mrs. Bea-trice Rundell, Mrs. May Pennell and Mrs. Florence Hubbard.

The guests from Clarkston were Mr. and Mrs. Joe Hubbard, Mr. and Mrs. George Marshall and Mr. and Mrs. Oscar Virgin.

COMMENT CRITICISM

of death between 15 and 35.

Well we understand that Gov. the Democrats for a second term, er information: Mrs. A. B. Wompole, is desired. Fitzgerald feels that he is the Republican that can show Comstock the error in his reasoning.

In other words now is the time for the voters of this sovereign state of brave, liberty loving, free pee-pul to start worrying whether the democrats or republicans line up when the votes are counted, in the years to come, at the government pork barrel or the bread line.

And do we feel sorry for public office seekers. Uncertainty is the reatest cause for fear and they are going to be afraid for over a yearquite a lot earlier this year than

Tuberculosis kills almost twice as many girls as boys between the ages of 15 and 25.

We have not forgotten, nor should ou forget, that Clarkston needs a pavement connecting M-10 and 15. Place your moral (unless called on for more) support behind Clarence and Casper and wish them well as your representatives in their efforts to secure this improvement.

Every time we look at the hollow this side of the mill dam, we think what a wonderful location for a city park".

The fact that tuberculosis exists is sufficient reason for buying tubercu-losis seals when they are placed on sale—Thanksgiving Day.

SENIOR NEWS

In English Literature class the Seniors have been very busy building small models of theaters which originated in Shakespeare's time. Two or three "miracle stages" were built by members of the class and then covered with creps paper. The entire class helped in building a model of he first Elizabethan Theater which was built in London, in 1576. The drama started in the church where the players presented short Bible plays directly connected with the church. The drama was then taken in secular hands by the guilds which made use of a moving stage or pageant car, upon which the play was produced in different parts of a city. The stage in the theaters was covered by a roof but the pit, where the common class of people sat, was out in the open and one had to bring his own "box seat". The upper class sat in the balconies which were on three sides of the theater. The character parts were always played by men and there was very little scenery.

Proofs of the photographs of Seniors taken a few weeks ago arrived Tuesday at the school. Most of them were very satisfactory.

Clarkston "11" Overcomes Jinx in **Beating Milford 7-0**

By Bob Reynnells

Clarkston again regained its pow-erful form and gave Milford a beating by the score of 7 to 0 and also took revenge for the stinging defeat that they suffered at Milford's hands last year. This victory is the first gridiron battle that Clarkston has taken from Milford since it joined the Southwestern Oakland County

League. A large crowd was on hand Friday. to witness the close fought battle between the Red Jerseys of Milford and the Blue and White of Clarkston at the local high school field, which resulted in a victory for Clarkston.

The game started with Clarkston winning the toss. She chose to receive the kick and then on the first olay after Reynnells had carried the ball to the west side of the field, Huntly threw a beautiful pass to Clinton who was waiting on the op-posite side of the field. He ran almost for a touchdown but Milford's secondary brought him down. Clarkston then tried several line plunges but was forced to kick as the team did not make its yardage. After several charges Clarkston's offense started to click and as the quarter ended the Blue and White was in

Milford's territory. Clarkston, 0; Milford, 0. The second period started with Clarkston having the advantage of the wind but despite this Milford used wide end run plays and gained several yards in this manner. Clarks-Miss: Helen Tindall spent Monday ton took the ball late in the second quarter and by plunging and passing was able to get within a few yards distance. Grate then took the ball and crashed through the right side f the line where the Clarkston line opened up beautifully for a touch-down. Clinton on another trick play connected the extra point by going

through the middle of the line. Clarkston, 7; Milford, 0. On the next kickoff Milford received the ball and started up the ford was on about the Clarkston 40field and when the half ended Mil-

Milford however lost a splendid scoring Mr. and Mrs. Cyrus Linabury were opportunity in this period when Huntly's kick was blocked almost on the goal line. However Clinton reovered for Clarkston and saved

what might have tied the score. In the fourth quarter Milford ppened up a brilliant and powerful passing attack but Clarkston either ntercepted or knocked down passes, or got, the man before he could toss o somebody in the clear. The gun sounded just as Clarkston started anther offensive drive towards Mile

Liberty Theatre HOLLY

The man bit the dog! Young newsaper-reporter gets startling scoop! Robert Young lost the football game in "Saturday's Millions!" and e the hero!

This unprecedented sensation will be seen at the Liberty Theatre Sunday and Monday. It is entitled "Saturday's Millions" and is taken from Luciep Cary's Saturday Evening Post serial. The sensation comes in the fact that Robert Young, who plays the role of the hero, falls to win the football game in the last reel. This comes as a great shock, because the hero has been hurt. His hand was broken and that is the hand that fails ing the week with his brother and to catch the forward pass which lost the game. You want the hero to win, and still when it's all over, you realize that that is the only way this picture could have carried a great sychological wallop.

Leila Hyams plays the girl he wanted, and Mary Doran plays the other girl in his life. There are plenty of football players, Ernie Nevers, Erny Pinckert, and Johnny Mack Brown, former University of Alabama football hero, and a score of Southern California stars.

Charlie Ruggles, enacting the role f an incurable married flirt in Melody Cruise", finds himself on the spot when he discovers two chorus beauties in his steamer cabin while His escapade with the chorines is

penned by Phil Harris in a letter to Ruggles' wife, played by Marjorie Gateson. He mails it with instrucsituations of Ruggles' creation, Harris marries the girl as the comedian grovels for the letter from his wife n a delightful climax.

Besides "Melody Cruise", another feature, "My Women", with Victor Jory and Helen Twelvetrees, will be on Friday and Saturday at the Lib-erty Theatre.

For Homemakers

The chief difference between tomato, orange and grapefruit juices is in price rather than in health value, according to Michigan State College Home Economics nutrition specialists. Thritfy housewives, therefore, will be guided by the price in deciding which one to serve at the breakfast table. Size determines the grade and

price of oranges and graefruit. The small oranges will give about one cup of juice to three and one-half oranges. The large oranges average approximately one cup of juice each. The cheapest variety of tomato juice is that strained from homecanned tomatoes. Commercially canned tomatoes vary in price with the brand selected. STATE MATTERS OF INTEREST TO ALL

Digest Prepared in Office of the Secretary of State

The Department of State in the oast few weeks has granted articles of incorporation to five new companng South America. Maps have been lies which have been formed for the drawn and colored, showing exports, purpose of borrowing money from important rivers and cities and sur- the Reconstruction Finance Corporaion, and then lending the funds to industrial companies.

The new corporations, organized under Michigan laws, will come under new federal laws which allow Reconstruction Finance Coporation funds to be loaned with so-called 'slow assets" as security. The new companies are located in Detroit, Grand Rapids, Saginaw and Jackson.

farm property. The first is a first nortgage which can be for an amount equal to one-half the normal value of the land plus one-fifth of the value of the buildings. In some ases, an additional loan can be obtained direct from the commissioner with a second mortgage on the land and chattel mortgages on farm property as security. The total of the two types of loans can not exceed three-fourths of the normal value of

the property offered as security.

Federal farm credit can not relieve the financial difficulties of all farmers because the law demands that the loans be secured with a certain amount of property. Interpretations of this law have been as liberal as possible and the interest rates harged are low.

It has been found possible in some cases to get the creditors of individual farmers to discount their claims enough to permit their payment with the government loans when it would have been impossible to afford finanthe last penny.

STATE FARM LOANS ARE SPEEDED UP

Applications Received Faster Than They Can Be Handled

Loans to Michigan farmers through the St. Paul Federal Land Bank are being speeded up along with the loans in other districts, according to Henry Morgenthau, Jr., in charge of farm credit, who points out that \$810,700 was loaned by the St. Paul Bank during September.

Loans made by the Land Banks for that month were nearly one-half of the total amount loaned in the whole of 1932. Applications for federal farm loans piled up in such quantities immediately following the liberalization of the loan policy that the Banks did not have the facilities nor the personnel to handle them.

The first step to catch up with the volume of business was to enlarge the force of appraisers who must inspect the farm before a loan can be made. That has now been done and the accumulated applications are rapidly being considered. More appraisers are added as rapidly as competent men can be found.

Bank Prospects

It is expected that Governor Comstock will issue a call for a special session of the legislature to convene understood that he will ask the lawmaking body to act on at least four proposals, one of which will be an amendment to the state banking law to permit state banks seeking RFC money to issue preferred stock for sale to the Reconstruction Finance

Corporation. Michigan's present banking law orbids the issuance of preferred stock by banking institutions. The provision has been an insurmountable barrier to numerous Michigan banks seeking RFC money, for the latter body insists on getting preferred stock in return for its cash. A bill to amend the banking law failed of passage during this year's regular session of the legislature, but the Governor is hopeful that it will be passed this time and that many banks now closed will be enabled to reopen as a result. No subjects except those specifically designated by the Governor may be considered by the Legislature during a special ses-
