## COMMENT CRITICISM

We are thankful that Hallowe'en

In these days of enforced thrift, r is a pleasure to meet a man who uses mean ten dollars or ten days.

Clarkston's police department did very efficient duty Tuesday evening which may account for the little damage done in the Village.

There is a big difference between Hallowe'en FUN and deliberate DAMAGE TO PROPERTY.

We understand that the local mangement of the Kroger store has a pretty good system of preparing their indows for soap and other (?) dec orations that may be placed thereon. At any rate the windows were clean this morning—so—it must have worked.

In a conversation with Clarence Phillips, this week, we were advised that all possible steps for the connecting road between M-10 and M-15 had been taken. We will be in a position to advise you of further steps n the near future we liope.

### Valuable Collection of Books to Library

Mr. Blakslee of Waterford has been very helpful in the Waterford School's drive for enlargement of the library. On the first drive in 1932, Mr. Blakslee donated fifty-five books and on the second this Fall he gave seventy-five more, bringing the total to approximately one hundred thirty books, of both reference and fiction types. ### Third and Fourth **Grade Party**

Last Thursday was a very exciting lay for our room. Everyone came in Hallowe'en costume. At nine, we had a grand march and prizes were given to Jack Ivory, Helen Joyce Smithson, Tsuya Kojime and Louis Jones.

At three, we left for Jack Ivory's home. A trip through the woods was interesting as we found many "galls" or insect homes, after which we enjoyed our weenie roast, hot chocolate and crackerjack. The ponies, Daisy and Jackie, were then brought up and after enjoying a few rides, we went into the house and played games. Mary Louise and Lois Burt played the piano and Jack Ivory sang for us. We wish to thank Mrs. Ivory for the enjoyable party for everyone had a very nice time.

### SEED CORN NEEDS CARE THIS SEASON

Removal of Moisture Content Stressed by State College:

Failure to remove the rather high moisture content in this year's Michigan seed corn may cause a scarcity of a commodity of which there would be plenty if the ears were properly dried, according to the farm crop department at Michigan State Col

Michigan corn normally contains at least 30 percent of moisture and this may run, in some years, as high as 50 percent. Corn with a high moisture content is more apt to be damaged in storage than seed from which the excess moisture has been

emoved by drying. Two things are essential for dry ing corn, heat to evaporate the water and ventilation to carry the moist air from the room in which the corn is stored. The equipment used for drying the seed may be very simple if those two factors are provided.

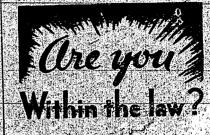

Racks, strings or some other mean of suspending the ears so that they do not touch each other should be provided. Usually, some artificial heat is needed to dry corn having a high moisture content.

Tests at the College have proved that a brooder house can be used successfully to dry corn. Most neighborhoods have at least one farmer who owns such a house, which could be utilized by several men who might

Abraham Golden, of Haverhill, Mass., lays claim to the title of the happiest man in the world. And there is, indeed, ample reason for Mr. Golden to be happy.

A year and a half ago he lost his power of speech when he underwent an operation for the removal of his larynx and vocal cords: Apparently doomed to be forever voiceless; life for Abraham Golden suddenly lost the greater part of its charm. Now, through a device of modern science, his voice has been restored, and life to him seems a more precious thing than ever before.

Artificial Larynx Brings Speech The modern scientific device which restored Mr. Golden's voice is the artificial larynx developed in the Bell Telephone Laboratories in New York City during the course of research in acoustics and the transmission of speech. A year and a half ago, when Golden recovered from his operation, he had lost permanently his principal organ of speech. Today, he is able to carry on an animated conversation with any one by the use of the artificial larvnx which has restored the power of speech and enabled Mr. Golden to take an active part again in the world about

"It's wonderful, it's wonderful," declares Mr. Golden. "It is the greatest thing in the world, and believe me, I am the happiest man in the world." The device not only has given him back the power of speech, but also has enabled him to get a good lob as general foreman in Haverhill shoe factory.

### TRAPPED BY SMOKE, WOMAN SUMMONS HELP IN TIME

An extension telephone in the home of Jerry B. Fenton, attorney at Springfield, Mo., proved instrumental in saving the life of Mrs. Fenton and their two-year old daughter, Nancy Jane, the other morning.

Fire broke out in the basement of the Fenton home when the furnace became overheated, and Mrs. Fenton and her small daughter were trapped by dense smoke in a second floor

The smoke was so dense that she could not see, and breathing was difficult. But there was an extension telephone nearby, to which she made her way and summoned help.

### TELEPHONE, TWO JUSTICES. COMPLETE UNIQUE WEDDING

When Miss Greta Hahns and Frank Horback, both of South Falls. burg, N. Y., were married recently, they had the unique experience of being united by two Justices of the Peace, one of whom dictated the marriage ceremony over the telephone while the other officially performed the ceremony.

It all happened because, when the couple applied to Justice of the Peace Benjamin Newburg, he found he had run out of marriage certificate forms, It was late, and rather than disappoint the couple, he communicated by telephone with Justice of the Peace Isaac Silberman at Monticello. Magistrate Silberman agreed to help out at the other end of the wire. He then dictated the marriage formula over the telephone and Magistrate Newburg officiated.

The famous Roman road, Applan Way, was begun in 312 B. C. by Appius Claudius Caesus and was so well constructed that parts of the road still remain.
