## **Grand Blanc Game** Ends C. H. S. Football Campaign

Clarkston High School football am will put an end to its 1933 football games when it meets the Grand Blanc Reserves, a class B school, this Friday. Last week they were defeated by Davison, another school of the B division, by the score of 20 to 0. Clarkston put up a remarkable defense and held the larger, more powerful team to three touchdowns. The field was very muddy and in such a condition that no long runs could be made through the middle of the field. Davison was aided because wer was centered around the back-

For these reasons, Secretary of State Frank D. Fitzgerald has aniounced that 1934 plates will be placed on sale in all branch offices Nov. 15 and police, deputy sheriffs and other law enforcement officers are requested to recognize 1934 plates on and after that date.

Michigan stands first among the 48 states in the percentage of recovery of stolen automobiles, according to recent report of a national insurance statistics clearing house. Indications are that the number of cars stolen in Michigan in 1933 will be far less than the number stolen in 1932. The total stolen in 1932 was 2,193 and 2,084 recovered. For the first 10 months of 1933, a total of 1,495 were reported stolen and 1,342 recovered Reports from other states show that last year 25,863 cars were stolen and 18,386 recovered as compared with 16,801 stolen and 10,177 recovered for the first ten months of 1983:

## OF DEER HUNTERS

Night Ferry Service and Reduced Rates This Year

To assure the army of Michigan across the Straits of Mackinac, the State Highway Department will maintain day and night service with its three ferry boats from Nov. 10 to 15, inclusive, it was announced by Commissioner Murray D. Van Wag-oner. In this continuous service boats

will not follow a definite schedule.

Beduction of resident hunting li censes from \$3.50 to \$2.25 and of non-resident licenses from \$50 to \$25 it is believed, will help to send the greatest number of hunters in recent years into the woods.

The Upper Peninsula, long favored October: Charles Beach, Marion by hunters, is expecting an even Chamberlain, Frederick Denton, Ray larger quota this year due to the 50. per cent decrease in ferry rates under

Passengers in addition to the driver are charged 25 cents each.

It requires from 50 minutes to an hour for the boats to cross the seven mile span of water on the Straits. The two smaller boats each carry a is transposed into actual physical enmaximum load of 78 automobiles, while the Straits of Mackinac, the

largest boast, carries 96 automobiles. Southbound automobile traffic during the last days and at the close of the deer hunting season is far more scattered and does not place such heavy demands on the ferry service.

#### BEAN GROWERS ASK FEDERAL ASSISTANCE

Representatives of the Michigan bean industry have formed a delegation of five members to petition the Federal government for assistance in stabilizing the price of the product. Meeting with Samuel T. Metzger, State Commissioner of Agriculture, a committee of 17 representatives of growers, elevator men, jobbers and cooperatives named its committee and lonary in 1869, but the Japanese instructed that it seek a loan of \$3.50 per hundredweight for the farmer through the Federal authorities. The committee is composed of C. H. Bramble, Master of the State Grange; Leo D. Cline of the Michigan Bean Jobbers Association; L. E. Osmer of the Michigan Elevator Exchange, Burt Wermuth, representing ity House under auspices of the Mr. and Mrs. E. S. Waterbury and change; Burtl-Wermuth, representing Ladies' Aid. ## For Homemakers

One quart of milk is equal to four ounds of spinach in terms of the calcium and phosphorus necessary for building strong bones and teeth.

At the same time, the milk, if used whole, is an excellent source of the 'good health" vitamin "A", and a fair source of vitamin "B". When reinforced with raw fruits and vegetables, and cod liver oil or direct sunshine, it supplies vitamins "C" and "D". Whole milk also provides a generous supply of energy. One glass yields as many calories as three small slices of bread or one and a half large <u>po</u>tatoes.

Corroet diets least a quart of milk a day for children, and at least a pint a day for adults. The problem for the homemaker is to see that the members of the family get this amount regularly.

Home economics nutrition specialists of Michigan State College sug-gest a few of the many different ways in which milk may be used. Milk shakes are always appetizing and simply made by the addition of and simply made by the addition of fruit juice or syrup to the milk. Another tasty drink is "Honey Blossom", prepared by adding one and one-half tablespoons of honey and three or four drops of orange or lemon flavoring to a glass of milk and beating with an egg beater or shaking it vicesomaly. shaking it vigorously. Care should be taken not to skim

iff the layer or coagulated albumin which forms on the surface when milk is cooked, as it is a valuable food element and should be whipped into the milk. Creamed soups, creamed chicken and yeal or salmon wiggle (salmon and peas creamed together), are other ways of including the requierd amount of milk in the daily diet.

There are many desserts such as custards, rice and tapioca puddings, milk sherbets, junkets, and bread puddings which are made with milk. Carrot custard is another interesting dish. Three eggs are beaten slightly, then one and one-half cups of grated raw carrot, three cups of milk, one teaspoon of salt and three tablespoons of melted butter are added. The mix-ture is poured into a greased dish. placed on a rack in a pan of hot water, and baked in a moderate oven for about one hour.

This eccentric stunt by the boys makes the Indians believe they are dumb enough to be excellent diplomats. The Big Chief sends them to the Geneva Conference as Indian representatives.

The production then soars into the broad burlesque, staged in the conference hall. The bickering and innuendo-hurling of diplomatic circles counters.

The proceedings are further enlivened when the peace-seeking "Diplomaniacs" plunge the whole affair into musical mith by staging an im-promptu song and patter act. The delegates of all nations join in the chorus, while twenty-four beautiful lancing girls change various plans for war into inspirations for necking.

Elaborately staged and set off with delightful and tuneful musical spectacles, the production is enacted by a brilliant cast, including such comedians as Marjorie White, Phyllis Barry and Hugh Herbert.

History tells us that the original Baron Munchausen, a German soldier of boundless imagination, so oft repeated his exaggerated tales of the Turkish campaign of 1737—39 that in his old age he firmly believed these inventions of his own mind, Rudolph Erich Raspe gathered these maryelous tales into an English edition and they have lived through the years as most unique in the his-tory of literature.

The Marseillaise, the French National hymn was composed, both music and words, in a single night by a young French officer in 1792, It was twice suppressed but finally became the national anthem.
