Gotfredsen, past state committeewoman, of Lowell, led in prayer, which was followed by thirty minutes. silence as a tribute to Herbert Mc-Kinney and other deceased veterans, and taps. Mrs. Agnes Dunn, of Bad Axe, state committeewoman, paid tribute to "Uncle Mac" and she said, 'We knew what was in his heart. In one short year this building was started and completed. Now we can extend our program."

Colonel John G. Emery, of Grand Rapids, past national commander, gave the dedicatory address, emphasizing "the great Legion program' which is, he said, "based upon three great emotions-memory, gratitude, patriotism." He declared "children are the keys to Paradise. They alone are very wise", and he quoted from Masefield's "Everlasting Mercy" as reminding him of Herhert J. McKin- Miss Ada Scrace.

who gives a child a treat Makes joy bells ring in Heaven's

And he who gives a child a home Builds palaces in Kingdom Come."

He said, "Youth has the world by the ears just now," and he deplored the fact that 250,000 young people in America less than twenty years of age are "tramps today" and declared "we must do something". The Otter Lake Children's Billet, he said, is the only one of its kind in America-"this home for the children of World War Veterans".

IMPROVING OF M-87 IS NOW ASSURED

State Highway Department Announced This Wednesday

Alfred Gale, Democrat nominee for County Treasurer, Cassius B. Waters, Supervisor of Holly township, and H. D. Seeley were in Lansing on Wednesday and were informed by Murray D. Van Wagoner, State Highway Commissioner, that the road from Holly to the Dixie Highway is definitely on this year's construction program.

This road is to be entirely paid for by Federal funds and L. P. Scott, Senior District Engineer, United States Bureau of Public Roads, is at present going over the ground and grade, checking plans as prepared by the Michigan State Highway Department. If these plans are approved, a contract for this stretch of improvement will be awarded in the very near future.

This road will be graded and graveled with the prospect of a hard surface as soon as the new grading is settled and sufficient funds are available for that purpose. Hard surfacing of this road depends-primarily upon the action of the voters this Fall on whether the two Constitutional Amendments to the weight and gas tax are defeated. Any future Federal money will have to be matched by State funds and for that reason it is imperative that these amendments do not carry so there will be sufficient State funds to match this Federal money.

Sept. 19th; Wednesday evening, at meet at the Town Hall.

Just Escape Fire at Sea

Mr. and Mrs. David Newlands have returned from a trip through the East and Cuba. They made the trip to Cuba on the Morro Castle and if they had extended their visit another week as they had intended they would have been on the burning ship.

Missionary Society Chooses New Name

Group Will Be Known as The Baptist Ladies' Union

Last Thursday Mrs. A. C. Giddings of Waterford was hostess to the missionary society of the Baptist church. A pot-luck luncheon was served and the regular business of the society was transacted.

The Baptist Ladies' Union was the name chosen for the group and now that the summer season is over the ladies are looking forward to accomplishing much and urge every mem-

ber to attend the meetings. The next meeting will be held cat the home of Mrs. Ira Jones.

WOMEN'S CLUBS HONOR PRESIDENTS

Mrs. Milen Vliet, Past President, Among the Honored

The Oakland County Federation of Women's Clubs held its opening meeting in Royal Oak Club house Sept. 7 with about 125 women registered. This affair was in the form of

'Get-Acquainted past presidents of the Federation. There were six past presidents present as follows: Mrs. Bessie L. Fox, Rochester, Mrs. Milen Vliet, Clarkston, Mrs. Hatton, Ypsilanti, Mrs. F J. Lessiter, Lake Orion, Mrs. W. H. Sanderson, Pontiac, and Mrs. O. W. Dawson, Ferndale. Each was presented with a dainty corsage and a beautiful bouquet graced the president's desk in memory of the departed past presidents.

A very interesting program was presented in charge of Oakland County Junior Federation, followed by tea. The ladies attending from Clarkston were Mrs. A. L. McIntyre, Mrs. Lucy King, Mrs. C. E. Edwards, Mrs. Milen Vliet, Mrs. Forrest Jones and

FEED LOANS MADE AVAILABLE NOW

Oakland County Farmers Included in Michigan List

Michigan farmers who must buy ivestock feed before December 31, 1934, and who must borrow money to make the purchase can obtain financial assistance through the emergency crop and feed loan offices, according to the farm credit administration. These feed loans are being made

in secondary drought areas, in which ere included 41 Michigan counties This area incudes all counties south of the Mason-Arenac line except Arenac, Bay, Saginaw, Huron, Tuscola and Sanilac. Under present rulings, this type of loan can not be made to farmers not in the 41

The money to be loaned is from a \$40,000,000 appropriation for crop loans to be made in secondary drought areas. Notes given as security for the loans mature November 1, 1935. The interest rate is not given in the official notice but will undoubtedly be in line with interest rates charged on other federal emer-

gency loans. Applications for loans should be made through the seed loan offices in Michigan. Production credit associations and federal farm loan associa-

tions do not make these loans. County agricultural agents can as sist farmers in locating the seed loan offices. The total amount of money to be loaned to any one farmer is based upon the number of livestock owned and a maximum is set in each

Mr. and Mrs. Newlands | AMERICAN LEGION. HOLDS MEETING

Boys, Trying to Break up Meeting, Taken to Justice Morley

Wednesday, at the regular monthly meeting of the Campbell-Richmond Post No. 63 of the American Legion, Herbert Baynes, was elected to serve for the coming year as adju-

For some time past, during both the Legion and Auxiliary meetings, a number of boys, some of them in high school, have played around the Legion hall. At first they were content to make sufficient noise so that the meetings were held with difficulty. Then becoming bolder we are informed that they pounded on the building with sticks, in some cases knocking off the stucco on the building. The next step was to get into the basement and hammer against the floor of the meeting room, timing their at-

tacks as the speakers were talking. They were comparatively safe during the meeting of the ladies, but in a thing of this kind, sooner or later, they step too far, and at Wednesday's meeting, the Legion was ready for them and caught three boys, whom they believed were part of the group. This was about eight-thirty or nine and a time when the boys should

have been at home. An officer was called and took the three boys before Justice Morley. The News believes that the boys did not realize that they were breaking up meetings, a direct violation of the state law against such acts and does not feel that it will help matters by giving their names. Naturally any further action of the group will merit further action, but it was the consensus of opinion at the Legion meeting that the boys thought they were having a good time and with a proper notice would discontinue this particu lar form of amusement.

Community Chorus Meets Monday, 17th

Expect to Accomplish Much in Second Year

On Monday, Sept. 17th, all the women in the community who are interested in singing are invited to be at the High School at 4:15 p. m. Charles Hutton of Walled Lake has consented to be the director again this year and all who attended the classes last year will remember how Monday after our everv noon was enjoyed. It is to be hoped that a larger number will enroll this year and make it a bigger and better chorus than any in the county. Last spring the ladies closed the season with a musicale which was a very delightful affair and with a greater number of voices this year an event of this nature would be something to look forward to.

Remember the day and the hour; next Monday afternoon at 4:15 at the High School.

<u>For Homemakers</u>

Sauerkraut is a simple and con venient way of preserving cabbage and is a common article of the American diet. Cabbage in this form is a fair source of vitamens A, B, and C, and its special flavor is relished by many people.

In preparing sauerkraut, the use of starter to insure the desired flavor is recommended by bacteriological specialists at Michigan State College, who have conducted experiments to determine the best methods of preparation.

The starter is made by shredding one large head or several small heads of cabbage and adding two and one-half per cent by weight of salt. Then place in a clean suitable container properly weighted, maintain at a temperature of 80° F, and allow to ferment several days. If the desired flavor is not obtained at the end of this time, the batch should be thrown out and a new starter made. One gallon of starter is sufficient for about 25 gallons of cabbage.

Only sound, firm heads should be used in making saverkraut, Remove the outer leaves and core the cabbage. Pile in a clean place and shred, then pack in a thoroughly cleaned container and salt. Salt is very imnortant in sauerkraut making, as it keeps-down-the-undesirable-microorganisms and permits the desirable

Farewell Party Given for Mrs. Cramer Judd

tertained last Thursday evening in honor of Mrs. Cramer Judd who moved to Pontiac last Saturday. The guests enjoyed a delicious dinner at Polly Inn and later five hundred was played at the home of Mrs. Judd Skarritt. Prizes were awarded to Mrs. Kimball Skarritt and Mrs. Fred Mervin, who later presented them to the guest of honor. Those present were Mrs. Mary E. Green, Mrs. Kimball Skarritt, Mrs. Fred Holcomb, Mrs. J. Hubble, Mrs. L. Hopkins, Mrs. Roy Gundry, Mrs. Fred Mervin, Mrs. Frank Dunston, Mrs. Frank Molter, Mrs. John Terry, Mrs. Dora

MOLTER FAMILY HAVE REUNION

Jickells and Mrs. Doris Hursfall.

Children Meet After Ten Years Separation

Mr. and Mrs. Leonard Molter were very happy on Sunday, Aug. 26th, when their nine children and their families assembled at their home for a reunion. This was the first time in ten years that the family had all been together. There were twenty grandchildren present

At noon a bountiful dinner was served and the afternoon was spent playing games and having a general round of fun. Of course there was plenty for the grown-ups to talk about and the younger folk had no trouble amusing themselves. Many pictures were taken.

The guests included Mr. and Mrs. Garl Hensel and family, of Tampa, Florida. Mrs. Hensel is a daughter of Mr. and Mrs. Molter.

LOCAL OFFICERS ARE RESPONSIBLE

Up to Them to See That Liquor Laws Are Enforced

"The main question debated by members of the legislature," writes Vernon J. Brown in the Ingham County News, and he ought to know as he was a member of the House, was whether the language of the constitutional amendment providing for 'complete control' by a state commission should be followed or whether local municipalities would be given a voice in the matter."

Continuing his elaboration of this subject, Mr. Brown says:

"Michigan is a far flung state with many extremes of opinion. It is a far cry from the metropolitan looseness of Detroit to the quiet decency of the rural hamlet. Any law that will satisfy Detroit would not do at all in Springport. Laurium in the mining regions and Manistee among the lumber towns hold views differing from those held by the Hollanders of Ottawa county.

"The Michigan liquor law carrie naximum regulations which every part of the state must observe. It was intended, and the state liquor control commission has so decreed that local opinion regarding hours, number of licensed places and the character of the licensee, shall be observed.

"These facts should be borne in mind whenever the liquor act is under discussion."

Football Enthusiasts Your Attention Please

Next Wednesday evening at eight o'clock all those who are interested in football, either as players or fans, are requested to assemble at the Clarkston Town Hall. A football team and its upkeep will be discussed and an effort will be made to organize a team. Give the football players a break and be there ready to support them.

BRIEF HISTORY OF PIONEER FAMILY

Descendants of William and Anna Wilson Now Number 75

[From the Holly Advertiser]

A little bit of history lore has been revealed in recent work done by Ward Rohm, of Davisburg, which no doubt will be of interest to older residents of Davisburg and Olive Branch neighborhood. William Wilson, an early pioneer

of Springfield township, Oakland ty and Anna Hoag we beautiful bouquets of garden flowers. In the state of New Jersey in 1815, There were 17 who responded to roll and after spending some time in the call. The meeting was opened by the state of New York came to Michigan president, Mrs. George Rosenquist in 1838, and the site where they Songs by the assembly. Scripture chose to build was then only an Inreading—Mrs. George Kimball Jr. dian trail, being located on what is now M87 on the present farm of Mrs. now M87 on the present farm of Mrs. Anna Gromak. They were strict Quakers and often used their home for the Quaker meetings held in Oakland county in the early days. This farm remained their home for forty years, when Mr. Wilson's death occurred on December 7, 1878, at the age of 88 years, and that of his widow some three years later, on March 27, 1881.

The family consisted of 11 children, two of whom were born in Springfield township. An account of the children of this pioneer family is as follows:

James Wilson, born in 1815, died in 1870, married Sarah Laing, and resided on the farm now owned by Byron Bird in the Olive Branch neighborhood. They had a family of nine children, two of whom are living: Mrs. Martha Losee, of Pontiac, and Mrs. Viola Hayne, of Wilson,

New York. Rachel Wilson, born in 1817, died in 1881. Married Sidney Smith and resided near Mt. Bethel. Their family of seven children are all deceased. Webster Wilson, born in 1819, died

in 1865. Married Lydia Smith and lived for some time on a farm east of the George Rohm place north of Davisburg, later moving to Webberville. Only one son, Lee Wilson, of California, remains of three children. Mary Wilson, born in 1823, died in 1887. Married Thomas Gould and lived in the complete of Holly township.

The route included desert and mountain tracks, deep rutted roads and a wide range of altitude and temperature between San Joaquim Valley and Sequoia: Each circuit in cluded a speed spurt of four miles lon over a 3,000-mile non-stop run is on a track laid out in the desert near the record claimed by Ted Ellis, a Coalinga. Ellis was at the wheel for veteran long distance driver, who 98 hours, being relieved only for

Announcement

On and after October 1st, 1934, the interest paid on Savings Deposits will be computed at the rate of two per cent per annum, instead of the present rate of two and onehalf per cent.

Increasing deposits coupled with the low yields obtainable on high grade investments that will measure up to both Federal and State present-day requirements make this reduction necessary.

We trust that this change will be only temporary and that interest rates on qualifying savings investments will soon be again at a level that will justify a higher interest rate.

Every depositor's funds are now covered by Federal Deposit Insurance up to \$5,000.00, as provided in the Federal Banking Act of 1933.

Clarkston State Bank

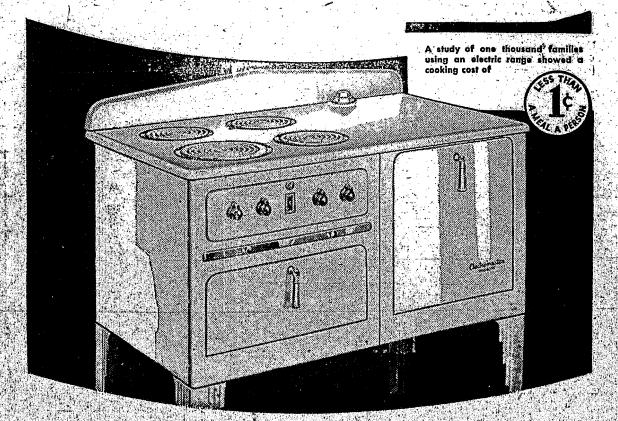

ARE there some things you wonder about when you read advertisements regarding electric cooking or other kinds of cooking in the newspapers? The subject of COOLNESS, for instance . . . whether or not an electric range really heats up the kitchen in warm weather? Or the subject of CLEANLINESS . . . whether or not pots and pans really stay bright and shiny on an electric range? Or the subject of FLAVOR . . . whether or not foods do taste better and are more healthful, cooked electrically?

You can decide all these questions for yourself in your own kitchen, without making a penny's investment-and you need take no one's judgment but your own. We want you to discover the facts about electric cooking, and we offer you this easy way to do it:

We will install an electric range in your kitchen without initial charge, and let you use it for six months, removing it without charge if you do not like it. During this trial period,

you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Since this trial plan was begun a short time ago, nearly four thousand of our customers have taken advantage of this offer. Send in your application for a trial range today!

Girl Gives Valedictory From Bed in Hospital

Confined to bed in a Dallas, Tex., hospital, Jane Anne Slaughter delivered the valedictory address to her classmates in Hollis, Okla., by long distance telephone and a

Jane Anne Slaughter was valedictorian of the Class of 1934 when it was graduated from the Junior High School at Hollis, Okla. But when she delivered her valedictory address, she did so not from the stage of the high school auditorium but from a bed in a Dallas, Tex., hos-

Almost a year previously, while attending A Century of Progress Exposition in Chicago, Miss Slaughter was struck by an automobile and suffered serious injury. After being in a Chicago hospital for some time,

she was brought home to the hospital in Hollis, and later was taken to Dallas for treatment. A brilliant student, she continued her work even though in great pain, and when the year's grades for the senior class were averaged, her mark of 95 led them all.

She was voted valedictorian, and arrangements were made whereby, via long distance telephone and loud cheakers, she was able to deliver the customary senior address, even though she could not see the crowd that packed the school auditorium

SPEED OF ELECTRICITY PLAYS ODD TRICKS WITH TIME AND DISTANCE

Today Talks With Tomorrow by Telephone — Electric Waves Reach Mars in 20 Minutes

This is an era of speed. Faster and faster go our automobiles, our airplanes, our boats, our trains.

Yet of all speedy things on earth, the swiftest have been here since the world began: electric waves and light waves. They travel at a rate which would take them around the earth at the equator seven and onehalf times in one second.

Electric waves, of which radio waves are one manifestation, travel at this very high speed through space. When electric waves travel along wires widely separated on poles, the speed is practically equal to that of free space. When electric waves travel along wires closely packed together, as in telephone cables, the speed is materially reduced. There are several different types of telephone cable, and the enced of transmission is different for each type. It may be 100,000 miles per second, or only 10,000 miles per second. Even the latter speed seems instantaneous to the telephone user, as indeed it is for all practical pur reses.

The very high speed of electric impulses is one of the factors which makes the telephone such a useful substituto for face-to-face conversa-

From New York to Sydney, Australia, by radio telephone circuit is o distance of about 14,000 miles. If, instead of telephoning, one could ful conversation.

shout loud enough so that Australia could hear the sound waves, it would require about 18 hours for the sound waves of the voice to reach Australia from New York and another 18 hours for the answer to come back by sound. Yet in 1/13th of a second, the telephoned "Hello" from New York is heard in Sydney. In 1/13th of a second, sound travels about 80 feet. So it might be said that, by the swift flight of electric waves, 14, 000 miles of space is squeezed into 80 feet.

Time and space, so annihilated, play some queer tricks on us. When chilly blasts blow in this country, bathers are diving into the surf at Sydney. Men bundled in fur coats talk with those sipping iced tea. Whatever day it is in New York, it may be tomorrow in Australia. If at nine o'clock on a Monday evening, someone in New York calls a friend in Melbourne, he might reach the called person at his club, attending

regular Tuesday luncheon. From a mundane point of view, radio waves are space-spanning and time-annihilating. Much is heard about the man and the message from Mars. If we did communicate with the man in Mars by radio, the conversation would be somewhat stilted, even if we talked his language. For the radio waves to reach Mars, three minutes would be required, and three minutes for his answer to come back. This is the minimum time. At another time of year, when the planets are in a different configuration, 20 minutes going and 20 minutes returning would be the time. It would be quite a bash-

The Hummer family reunion was held at the home of Mrs. Ella Hummer Albertson in Oxford Sunday with 100 guests present. It was the 70th yearly gathering and was enjoyed by all. A bountiful dinner was served and talk given by Mrs. Fanny A. Perry, telling of pioneer life, and Lem Burshaw of Marine City gave an interesting account of early life of Oakland County. Guests from Detroit and cities throughout the state were present and the day will long be remembered.

HELPING IN WORK OF CONSERVATION

State Department Offers Chance to Women of Michigan

Due to the desire of various wo men's clubs of the state to expand their understanding and knowledge of conservation, the Department of Conservation will conduct a special school October 17 and 18 at Michigan State college, East Lansing, which

will be open to all groups interested.

Delegations from the Garden Clubs; Federated Women's clubs, Daughters of American Revolution, Parent-Teacher associations and the Audubon society and similar organizations will be welcomed.

Speakers from the Department of Conservation, State Highway department, State college and University of Michigan will discuss various phases of conservation work. Movies will be shown by Walter E. Hastings, Department staff photographer.

The general policy of the Depart ment, an outline of its organization and financing and its various activi ties will be sketched. Exhibits will be an additional feature. A discussion of legislation, proposed by the Federated Garden clubs to regulate billboard advertising, will be held.

The peanut originated in Brazil. America got it from Africa. Slave ships brought it over with their

SINCLAIR'S VICTORY

Here are the reflections of Muri H. Defoe, the erudite and philosoph ical, editor of the Charlotte Republian, on the recent primary election in California:

-primary totals in Californi with Socialist Upton Sinclair taking he democratic gubernatorial nomination in a landslide, are significant. It means that the old party lines are gradually giving way to the English dea of conservatives and liberals. What President Roosevelt calls "social justice" is here to stay in some form. "Al" Smith and his Liberty League, may as well understand that the wealth of the country must be more evenly distributed. It is too much to expect the 90% to continue to drag along the economic bottom while 10% are insultingly rich. Any review of the income taxes or bank deposits confirms these conditions. As a writer in Current History for September says:

* * Regardless of the rightness or wrongness of Roosevelt, he has won over the country, if for no other reason than that the country wanted action. * * * Action, continued action, remains the demand of the nation, and it matters little or not whether that action violates tradition. * * * A feeling is apparent that far-reaching changes are needed. Experimentation in high places has for this very reason won popular approval. For this reason, also, Mr. Roosevelt's continued insistence that the social fabric must be refashioned has not aroused antagonism.

All of which is supported by the ensational victory of Mr. Sinclair, and the almost unanimous support accorded Senator Hiram Johnson's renomination.

Admission was charged to see a paseball game for the first time on July 20, 1859, when a game was played between teams from Brooklyn and New York.

Walter Johnson, the famous pitch er, pitched one no-hit game in his long career. That was against Boston on July 1, 1920, when Washing ton won, 1 to 0.

Passengers on World Cruise Liner Call Home Cities from Far Places

shore telephone apparatus, by means of which passengers completed 113 elephone calls to places in the U.S. and Canada through radio telephone stations of the American Telephone and Telegraph Company while the ship circled the world.

Another striking example of the rapid progress being made in com-mercial radio telephony has been furnished by the recent round-theworld cruise of the Canadian Pacific liner Empress of Britain. At frequent intervals throughout the voyage the ship maintained contact with the radio telephone stations of the American Telephone and Telegraph Company at San Francisco and New York, enabling more than 100 of her passengers to talk with friends and relatives in every quarter of the United States as well as points in Canada. In all, 113 calls were completed.

The Empress left New York on January 4 on an eastward voyage around the world and back to New York again by way of Suez and the Straits of Malacca. This ship is one of the transatlantic liners having telephone service with the Bell System, and arrangements were made to keep in touch with the radio telephone stations at New York or at San Francisco throughout the voy-

The feature of the record made by the ship was the telephone calls completed while she was on the opposite side of the world. Between Singapore and Hongkong, a total of 40 calls was completed to points in

Massachusetts, California, Texas Florida, Wisconsin and numerous other parts of this country as well as Canada, Most of these calls involved radio and wire circuits of 10.000 miles or more in length. One call, to Halifax, N. S., across the Pacific and the American continent, covered a distance of nearly 13,000 miles. As the ship rounded Borneo and steamed up past the Philippines and the China coast, passengers called up New York, Palm Beach, Houston and a score of other places in the United States.

Calls were completed from numerous other points along the route: in the Atlantic, off Asia Minor, in the Red Sea and the Indian Ocean, and at various points across the Pacific Ocean. Until the ship reached Ceylon; contact was maintained through the ship-to-shore stations at New York. Thereafter the ship swung over to the transpacific stations at San Francisco, through which traffic was routed until the ship reached the Panama Canal.

The Empress has a transmitter rated at about 500 watts. The radio channels are short wave, somewhat below the 100-meter band. The shore stations have a nower of about 15 kilowatts and employ directional
