COMMENT AND **CRITICISM**

And now, we believe that the time And now, we believe that the time sumers Gas Company of Pontiac took has come to consider and perhaps place in the town hall before quite a advise, if our advice is worth anything, to you, at least two of the amendments coming up for election. The first one we want to consider is he amendment placing Judges on an independent ticket. From what we understand, both of the major parties re against this amendment, not because it is a good thing, but because it is an amendment. We are reminded of a person going down for the third time because the could-be savior did not believe a rope was the implement to use to save the drowning person and was looking for a life-preserver. We stand for what we believe to be right and if the two major parties do not agree with us, there is a strong possibility that one of us is wrong, however our honest belief is that if our legislature is too slow and too politically hide-bound to see the advantages then the people should write the law themselves and give us a politically independent court. We would say Vote Yes on this amendment.

We believe in fair play. We are allowing the proponents of the gas and weight amendments space for their side of the question, and they are using that space. For our part we believe that the amendments are lacking in that which a public spirited citizen expects in such an act. If the gasoline companies wish to submit to government control of their prices or if they will guarantee not to raise their prices within six months after the election, perhaps this form would save the people of the state some money. But as this form of revenue, especially the sales tax on gasoline is what keeps our schools open we should consider that angle also. We have been wandering thru a depression, the like, the world has never known. In good times we enter into debt thru bond issues which we hope the future generations will pay. Let not the shadow of the depression handicap the future generation thru either poor schooling or what would be materially more harmful, closing the schools altogether, so that they will not be able to bear the We would say, regardless of tne good that appears on the surface to dig deeper and then we believe that you will "kill" that amendment.

Many Tempting Dishes Prepared in a Short Time.

On Wednesday-afternoon a cooking lemonstration sponsored by the Congroup of town women.

While there is a good deal in the mixing and preparing of foods yet the demonstrator brought out the fact that a great deal depends on the stove. The one she used was an A B gas stove with all modern features.

The foods prepared were varied thus proving that it was just as sat isfactory to bake cakes, bread or pie as meat or any other dishes that might be cooked in the oven. To practice economy this stove could be used to advantage because slow cooking foods could be placed in the over and all cooked at the same time. The demonstrator baked bread at the same time as she was cooking noodles. The oven control was a splendid help and time and worry saver be- is about to happen. Monday's Card Party Well Attended

The card party sponsored by the civic committee of the Republican Women's Club on Monday afternoon at the town hall was well attended and the committee was well pleased with the proceeds as they now have some funds to start their civic work. The room was prettily decorated with autumn leaves and bronze chrysanthemums and small potted plants were in each window.

Prizes were given to all who held one of the lucky numbers that were given to each on entering the hall. The prizes were varied and numerous and caused much amusement when distributed.

Later in the afternoon tea and phem. small cakes were served from a table across the front of the room which was beautiful with its lace cover, sniver candle holders, orange and black candles and lovely floral centerpiece. Mrs. J. E. Weighel and Mrs. Herbert LaVigne presided at the teatable.

FRANK FITZGERALD is a candidate for governor because 430,000 citizens regarded him not only as an honest able, efficient public servant . but because he is "FIRST IN THE HEARTS OF HIS FRIENDS" that he received the amazing vote of confidence last Schlember. These friends insure his election. But Frank Fitzperald is not basing his candidacy upon friendship. It is based upon experience, ability and a desire to aid in solving Michigan's problems. He urges AND WILL WORK FOR: Elimination of the state property tax. Adequate aid for the public school system. Protection of Michigan's boys and girls by pre-venting the sale of intoxicating liquor to Removal of prison-made goods from competition with the products of free labor. A non-partisan board of pardons and paroles. Unemployment insurance. Ninety-day maximum for legislative sessions.

SERVICES IN WASHINGTON Made the Savings of America Safe The greatest contribution to the return to a sale, some security came from the pen of Senator Vandenberg when he wrote the section of the law which guaranteed bank deposits and which now protects forty million depositors. Because of Vandenberg we now can place our funds in banks with full security. He is Fighting the Profits from War . Senator Vandenberg is co-author of the greatest and most practical peace movement in history through the resolution which resulted in the present senate inquiry into the profits from war. He is endorsed by Veterans' Organizations throughout the nation in this effort to show that wholesale war-time death pays a tramendous profit which should be eliminated from our civilization.

What Senator Borah Thinks of Arthur Vandenberg
"His great ability, linked with his tircless industry and,
above all, his broad humanitarian grasp of public quastions, makes him, a senator worthy of Michigan. I feel it
is in the public interest that he be returned," — Borah.

as Senator Vandenberg took office, he took up the battle for re-apportionment. Michigan gained four additional Congressmen due to the energy and the outraged indignation of one man, a new senator — Vandenberg of Michigan.

His Leadership Unquestioned Senator Vandenberg in 1933 was the unanimous choice of every Republican United States Senator

for the post of President (pro-lempore) of the Ser-ate. It is a remarkable tribute to the senator as this vote was one of the two, during recent years. on which Republican senators have been unani-mous. It is the more remarkable as a inbute to his energy and his ability as a statesman when we realize that Senator Vandenberg was serving his first term.
