NUMBER 25

COMMENT AND CRITICISM

It was a quiet time in the old town last night. Two scheduled three ring caucuses failed to provide sufficient number for the second caucus and only a baker's dozen (yes, about 13) attended the first one. Ho! Hum! Lack a day. In all cases only one nominated and he winning the final nomination without a dissenting vote.

For conversation between caucuses, because even a few must converse about something to pass the time, the big question was the salary of Circuit Court Judges and the number of candidates for the three positions.

Then things drifted to the time the Court House was being built and Court was held in a church located where Waite's Store now stands in Pontiac. Judge Smith was remembered. In fact sympathy was extended because he got a lot less than six thousand a year, took care of court duties in Pontiac and Lapeer, and was satisfied with his job and salary.

This salary of Circuit Judges is a funny thing. Reminds me of locking the door after the horse is stolen. In "Good times" the old man who punches the keys to set this column, remembers that rather than waste valuable time and money going to court, most cases were compromised. So the Judges did not have a great deal of work to do and as we were making good money, we did not care what they got. But today when we are pinching every penny, we have plenty of time to go to court and fight everything. . . . and we want the cheapest priced Judge we can hire. It would seem to me that now is the time we would want the best Judge we could get regardless of price. . . . And then 18 candidates let me down by running for the job.

Again we mark up a good mark for Ed Seeterlin. After the Caucus, it had been snowing before, during and after, Old Reliable was willing and ready to carry the caucus news to the News-office and we had lost the combination to get it started. Yessir for the first time in about 15 years of driving cars, we had lost our key. So Ed brought us down thru the blinding, drifting snow, waited till we got our other key and took us back with radio entertainment and heat both ways.

Miss Gladys Sherwood Is Hostess to Pupils

Musical Afternoon Enjoyed at Seymour Lake Home

Miss Gladys Sherwood gave a Valentine party and musical program for her piano pupils at her home here Saturday afternoon. Eleanor and Leola Scott, Edna Howse, Velma and June McIntyre were guests. The rooms were decorated with red hearts and valentines.

Edna Solley, president of "The Bank of Musical Education", welcomed the guests in a charming manner and told of her satisfaction in music study. Marian Beardslee described the characters in Music Land and acknowledged her acquaintance with the Treble family.

Millicent Solley explained the meaning of scales in thirds, sixth and tenths. Various songs were sung by the group including "My Wild Irish Rose" with members of the class taking turns in piano accompaniment.

Edna Mae Bayliss, Betty Draper and Edna Solley gave demonstrations in chord practice also, discussed the benefit they had received from "The Bank of Musical Education". Miss Sherwood led in the discussion of "The Value of Scale and Chord Practice in Music Study" which brought out many ideas. Edna Solley and Betty Draper gave demonstrations in transposing hymns.

Millicent Solley, an organ student, gave her selections and technical studies entirely from memory. Velma McIntyre played the piano for a musical game which all participated in.

The group was invited to the dining room where sherbet and assorted cakes were served by the mother of the hostess. Much merriment was created with valentine fortunes.

Clarkston School News

Until Clarkston met Walled Lake on Friday night Clarkston was conceded to have a fair chance at the Southwestern Oakland Co. League B. B. championship. But before the game was very many minutes old the outcome was never in doubt. Walled Lake scored first on a basket by Richardson and had established a 6-1 lead at the quarter which they extended to a 10-3 lead at the half. Clarkston's 8 points all being foul shots.

As the 3rd and 4th quarters progressed the lead increased and at the gun the score was 20-7. Mann scoring Clarkston's only field goal of the evening late in the third period.

The defeat erases Clarkston's chances of a league championship. The Reserves also lost 12-8 and the Girls 21-9.

Friday night Walled Lake plays Milford for the league title. Milford has beaten Walled Lake once playing at Milford, but Walled Lake is expected to take Milford on Walled Lake's floor which is the smallest in the league. In case Walled Lake wins they win the title; if they lose to Milford, Milford will hold the championship, losing only to Clarkston.

On Friday night Clarkston plays Keego in what is expected to be one of the best games of the home season. Keego was defeated 19-11 earlier in the season by Clarkston, but Friday night's battle is expected to be a seesaw affair with few points separating the teams at the final whistle. Keego played brilliant ball against Saint Mary's of Orchard Lake to hold them to a score of 27-17 after being beaten 48-8 by the same team earlier in the season. Records show that Keego has never been beaten on the local floor so the local lads will have to be on their toes to win the game, the final game of the season.

On Tuesday night, Feb. 19, Clarkston won from Brighton 27-19, the Girls losing 31-16.

P. T. A. to Purchase Movie Machine

Vote Taken at Meeting on Wednesday Evening

On Wednesday evening the P. T. A. met at the school and on account of the stormy night there was not a very large attendance.

The President A. E. Butters presided and explained to the parents and teachers that the main item of business to be discussed was the purchase of a movie machine for the school.

Two moving pictures were shown and everyone seemed well pleased with them. Mr. Winn explained the particulars regarding the type and price of the machine and also told about its value in the class-room. He said, and all agreed with him, that "85 per cent of our knowledge is gained through the sense of sight, and this being so this movie machine gives us an opportunity to bring visual education into the class-room. Geography, history, natural science and a great many subjects could be made clearer by the use of the machine. The value of this visual education is unlimited." He explained the difference between this machine and those used for commercial films.

The chairman of the finance committee explained that the cost of the machine could be taken care of by card parties, picture shows, dances, etc., as planned by the committee. Different questions were asked and answered satisfactorily and so the P. T. A. was willing to obligate itself.

After the movie machine question was settled the regular order of business took place and the meeting adjourned about 9:30.

New Pop-Corn Type Cottage Cheese Is Demonstrated

Oakland County Home Demonstration Group leaders cooperating with Roberta Hershey, Nutrition Specialist, Michigan State College, witnessed a cottage cheese making demonstration conducted by A. C. Baltzer of the Dairy Department, Michigan State College, at a meeting held at the Central Methodist Church, Pontiac, February 8th.

Farm women in Michigan are considering using more cheese, especially cottage cheese, in the diet since it can be easily made from skim milk, a product available on nearly all farms. This type of cheese is a carrier of all of the valuable milk solids excepting butterfat.

The proteins offered by this type of cheese together with the milk, sugar and minerals are easily digested. Cottage cheese is equally as valuable pound for pound as its meat. There is 18.3% protein and 1.7% mineral or ash in the cheese. Approximately one pound of cottage cheese can be made out of each gallon of skim milk.

At this meeting, it was stated that only a few important steps need to be followed in making this new pop-corn type cottage cheese, which is gaining popularity.

The important steps in making this type of cheese are: First, tempering at 72-75 degrees F. a quantity of clean, fresh sweet skim milk. Second, introducing into this skim milk, the proper lactic acid starter in order to gain the correct curdling of the skim milk. Third, slowly heating and holding this curdled skim milk at 115 degrees temperature for about 10 minutes. Fourth, washing with cold water the cottage cheese particles.

Instruction sheets and a bulletin on cottage cheese making are available from the dairy department, Michigan State College, according to Leona MacLeod, home demonstration agent.

Cottage cheese is recognized as a very wholesome, nutritious, easily digested food, liked by people everywhere. It is an economical food offering much value for the food dollar, according to Roberta Hershey, nutrition specialist, Michigan State College.

Leona MacLeod, Home Demonstration Agent.

Car Hits School Bus In Fog Last Wed.

A score of children narrowly escaped serious injury last Wednesday when a Pontiac school bus was struck by a sedan on Oakland avenue at Inglewood avenue.

Chester Porter, Route 4, Pontiac, had brought the bus to a stop in the

road to permit several children to board the bus. A heavy fog hung over the district and the pavement was coated with ice.

Louis Dorman, 17 years old, of the Old Mill Tavern, Waterford, was driving south, when he suddenly noticed the bus ahead of him. He said he applied his brakes but that the tires skidded on the ice, allowing his sedan to crash into the rear of the bus.

His machine was badly damaged but the bus suffered only slight damage, according to Patrolman Edward H. Shigley, head of the police accident bureau, who investigated.

Most of the children were bound for the Wisner School, although a few were destined to Eastern Junior High School and the Pontiac High School.

IRENE DUNNE IN MUSICAL COMEDY

To Be Feature at Holly Theatre For Two Nights

"Sweet Adeline," sensational musical comedy hit, is scheduled at the Holly Theatre on Sunday and Monday.

Irene Dunne, favorite singing star of both stage and screen, will appear in the stellar role, supported by an exceptionally talented cast of comedy and dramatic players.

The picture is laid in the glamorous Broadway theatrical district; a fashionable trysting place for young bloods and their lady loves on the outskirts of the city and in a picturesque Hoboken beer garden of the gay nineties.

The story is the thrilling romance of the charming daughter of a Hoboken beer garden proprietor who is ardently wooed by a Broadway song plugger and a Major in the U. S. Army.

Irene Dunne has the role of the beer garden songbird, with Donald Woods portraying the young song writer.

A family quarrel of long standing rises from the past to menace the happiness of two eager young lovers in "Anne of Green Gables", Tuesday, Wednesday and Thursday's attraction at the Holly Theatre.

Anne Shirley, starring as the Anne Shirley of the story, and Tom Brown patch up their private quarrel which flares from a teasing episode in a country schoolroom, to become fast friends and then sweethearts. They find themselves powerless, however, to combat a family feud which began before either of them was born. The story takes a dramatic turn of affairs in which a life is at stake, to open a way to the ultimate solution of the problem.

Car Hits School Bus In Fog Last Wed.

A score of children narrowly escaped serious injury last Wednesday when a Pontiac school bus was struck by a sedan on Oakland avenue at Inglewood avenue.

Chester Porter, Route 4, Pontiac, had brought the bus to a stop in the

supervision of Wayne University. Plans for the new semester were discussed fully by Professor Harvey L. Gibb of Wayne University and H. J. Ponitz of Lansing, Supervisor of Freshman Colleges. The most important change in the work this semester will be the offering of the empirical and orientation, non-credit courses. These courses compare with those offered in the adult education programs of the larger cities.

It was stated at the meeting that an attempt is being made to have the work of the Freshman Colleges accepted by the North Central Association in the spring. As a result of inspection of many of the Freshman Colleges, Mr. H. J. Ponitz, who was on the credit board of the North Central Association for eight years, feels sure that the quality of the work will permit approval by the Association.

In order to come within the requirements of the Association, a regular inspection schedule has been devised to help each Freshman College. The Wayne University area has been divided into four sections, with an Assistant Director in charge of each section. In this manner, each unit hopes to have two inspection visits each month. The idea of this inspection program is to unify and standardize the work of all units.

The entire faculty of the Holly Freshman College has been invited to attend a public meeting in Fenton, Wednesday night, February 20. The purpose of the meeting is to explain the value and advantages of the work carried on by the Freshman Colleges.

FARMERS INTERESTED IN RAISING BARLEY

With the prospect that a malt factory will be located in Holly, farmers in this area are evincing interest in the production of barley, the raw material. Good malting barley is officially described as follows:

"A plump, heavy, uniform sized, well matured kernel; bright, creamy colored; mellow in texture, practically free from admixture of other grains; free from damage caused by disease, improper threshing or handling and of a variety such as Odebrucker, Manchuria, Velvet or Wisconsin Pedigree No. 38."

The Farm Crops department at Michigan State College has the following to say regarding the production of barley for the malting trade. "The amount of Michigan barley which finds its way into commercial

channels in any one year has averaged around 15%. Most of this is usually produced in the territory within the boundaries of a line drawn from southeastern Michigan to Mt. Pleasant and thence east to Bay City. This territory is also most favorably located to the state's principal malting center, Detroit."
