# COMMENT CRITICISM

The height of something or other is a public school teacher of safety serving two days in jail for traffic violations. You have got to hand it to Detroit, the Dynamic City.

And now in the interest of the working man (not to mention the possible sinister lobby of the outawed salary buyer or of securing the aborer's vote), our legislature is atthe Teachout Bill has the house. It may not be ever had. polite to look a gift horse in the mouth, but for once the workingman can afford to be impolite. The present rate is one recommended by the profit). It is as small as the Provident Loan and Savings Society, of and colleagues of equal social mind- a edness, not for profit but to supply a service to the needy small borrower, believes the service can be renone interested in history, the Detroit winter in Florida. society was founded after Wayne County's aggressive Prosecuting Attorney Ben Shepard found that salary tron, the present Worthy Patron, all buyers were charging 20% a month past Matrons and their husbands and and drove the buyers out of the county. Then the present law was passed. I do not recall ever having heard Russell Sage called a fool in money matters. There is a reasonable doubt in my mind if our legislature is better versed than he. There is even a conjecture in my mind involving the thought that if the bill passes and the salary buyers replace the present state regulated companies who will be forced out of business, the disappointed needy who have been forced to deal with the bootleggers may not vote against the members of he legislature who supported the Teachout Bill instead of reelect-

At the risk of adding to our superabundance of laws, we need a law forcing sponsors of laws and amendments to list their backers with the state so the voters can know if selfish interests are posing as benefactors of the people.

Many papers brag of their "coverblanket with the Record and that's Frolic" at the school. There will be e Record also covers numerous pantry shelves hither and thither and yon. It covers pans of bread dough and milk. It covers cracks in the window panes and the brooder house floor. It covers the bed springs to keep the cold from creeping through the thin mattress. ### Tax Delinquency

Of all the schemes and plans advanced from Lansing for the elimination of tax delinquency, we feel that the recent one offered by State Senator Andrew L. Moore is most inequitable to those who have thus far paid their real estate levies for the support of government. Senator Moore's plan is devised almost completely in the interest of the delinquent taxpayer in that it is a blanket cancellation program for wiping out all delinquent taxes up to and including 1933 provided the delinquent pays 1934 taxes by Sept. 1, 1935, the 1935 taxes by the same day in 1936, and the 1936 taxes by Sept. 1, 1937.

If Senator Moore wants to encourage those who have paid their taxes to date to become delinquent indefinitely, our observation, and contacts with many people prove that his plan will do the trick. For, you will remember, ever since the Legislature began in 1932 to make it easier for the taxpayer whose taxes were not illness. paid, the drift has been toward more

tax delinquency. There was the 10-year tax moratorium, allowing delinquent taxpayers to spread their 1932 and prior taxes over a 10-year payment plan; apparently, this did not bring the desired results. Now the present Legislature is in session, and further concessions are being offered tax delinquents.

The Eccentric readily agrees that tax delinquency is a great problem, and that some concessions must be made to get delinquent, property back on the paying side of the ledger of government. But to go sledlength for outright cancellation, without judging the ability of the tax delinquent to pay at least; some thing, is a mighty poor deal for the (Concluded on page (two) : | ing.

Anyone interested in hauling the Mrs. Lee Clark and Mrs. C. E. Edwards, Are Hostesses

> On Wednesday evening the Progressive class of the Methodist Sunday School held their regular monthly meeting at the home of Mrs. Lee Clark with Mrs. C. E. Edwards as co-hostess.

Mrs. Ray Clark, the president, called the meeting to order. It was decided to change the class to a mixed class and invite the men to To Be Given at Seymour Lake meet with the women. Several other matters of importance were discussed: Mrs. W. J. Murray invited the class to meet with her in May.

At the close of the business meet ing the hostesses took charge. They explained that on account of the season, the program would center around flowers. The group Jed by Mrs. Louis Walter then sang "The Lily of the Valley".

Roll call was responded to by a verse from the Bible about some flower. Then little Miss Betty Ash played

a piano solo "The Flower Song". Several of the members who were considered real flower growers told about some of their favorite flowers and how to grow them. Mrs. W. J. Murray told how to grow zinnias successfully. She mentioned that she had quite a supply of seeds and if anyone cared to purchase some from her she would be glad to give the money to the class.

Mrs. Walter Barrows spoke on "Mums" and how to have lovely, large blooms each year. Miss Florence Jencks then sang

### SPRINGFIELD ELECTION TIE IS SETTLED

To settle, if possible, the tie between Fred W. Walls and Edward F Cook as reported by the election board, in the vote for supervisor on April 1, the township board conducted a recount on Saturday. The board found 14 ballots that were cast with no inspector's initials on the upper right hand corner, back, as required by law. These ballots were thrown out, with the result that Mr. Cook was credited with 205 votes and Mr. Miss Ada Scrace gave a very inter- Walls with 196. The election board's count was 206 for each. ### COOL WEATHER IRKS THOSE WHO PLAY GOLF

Weather complaints have been frequent the past week, but consolation vas afforded in contemplation of how much better off we have been than people in some other places, particularly in Mississippi and Louisiana, where a tornado killed 32 people, injured hundreds of others and did millions of dollars worth of

damage. Golf fans have been particularly vehement in their strictures of the weather man, who has allowed only few of the hardier, or foolhardier, specimens to indulge in their favorite sport. However, the mercury seems now to have decided on an upward move and things look brighter.

### NEWS OF INTEREST TO FOLK ON FARMS

Current Problems Reported by the County Agent

Announcement is made of the apointment of Ray Duncan, South Lyon; Henry Wedge, Troy, and Fred Beckman, Clarkston, as County Committee by the Emergency Seed Loan Administration of the U.S.D.A. As a result of the passage by Congress of the Emergency Seed Loan Bill, the Committee has been advised that loans of an emergency nature will be made again this year. Last year about \$8,000.00 was loaned to Oakland County farmers. A good share of the money has been paid back on 1934 loans. The amount of 1934 loans was greatly reduced from the volume of 1933 loans. Loans can be made from the Emergency Funds in amounts ranging from \$25.00 to \$500. Applications for more than \$150.00, however, must first be made to the Production Credit Association. The emergency seed loan fund is limited to the purchase of seed, fertilizer and spray materials or for the necessary cash expenditures in putting in crops. The money cannot be used for an increase in the production of basic commodities.

Applications for loans may be made through the office of the Bailey, in the Post Office Bldg., Pontiac. The time required to put through a loan is about two weeks. Farmers who expect to borrow from this fund should get their applications in early.

The problem of stray dogs has become so acute in farm communities near cities in Oakland County as to make livestock raising a hazardous business. This is indicated from the fact that claims for livestock killed by dogs during 1984 ran over \$3,000. A summary made by the Board of Auditors indicates claims paid as follows: Sheep claims, \$2,730.69; Poultry claims, \$491.40; Cow claim, \$20,00; Goat claim, \$12.00; justice fees, \$382.63; total, \$3,636.72.

(We know people who, denying themselves even the decent necessities of life, have been patriotic enough to pay their taxes to date even though their self-sacrifice has brought them rolls. And we also know people who, perfectly able to pay their taxes, have welshed on them because they hoped that Lansing would from time to time give them "emergency" relief, thus artificially stimulating and maintaining the "emergency."

But, so far as solving the actual problem of tax delinquency, we do not agree with the able Senator that it would increase governmental revenues. On the contrary, as many have told us, it would encourage it merely manifests the tendency of human nature o "hang up its stocking when Santa Claus starts coming down the chimney."

Our own idea would be to accept a portion of Senator Moore's plan, but at the same time offering a discount for those who have paid their taxes, and continue to do so in the future This is merely "good merchandising" strategy, and would tend to keep loyal citizens from entering the tax delinquent class.

State Representaive Vernon J Brown, a Republican leader in the House at Lansing, has a more equitable plan for curing the tax delinquency epidemic than Senator Moore as, we believe. Mr. Brown, as chairman of the House Taxation Committee, will soon release his bill in the Legislature.

Senator Moore has acquired a reputation as an authority on the subject of taxation. The Eccentric has reported many of his speeches, and admits that he possesses a forceful ability to move an audience. However, if Senator Moore, with all his tax knowledge, is not able to produce | Clarkston News.

YOU may examine the 1935 Ford V-8 point by point and almost every detail will be found to contribute in some manner to the car's safety.

But, in these days of fast driving and crowded roads, these eight outstanding Ford V-8 safety features deserve your most serious consideration.

- Safety Glass all around in all body types, at no extra charge.
- Positive mechanical brakes have been made more powerful, and operate with less pedal pressure. No finer brakes today in any car.
- A welded-into-one-piece solid steel body. Hub, spokes and rim welded into a solid steel wheel.
- Ford transverse springs, always without a peer for safety, are longer this year. This added length increases the Ford's natural stability.
- Increased tire area in contact with road gives more positive braking and resists tire roll on fast curves.
- 6 Last year's extremely strong X-type Ford frame has been further strengthened by a wide margin.
- Redistribution of weight, almost evenly between front and rear wheels, gives better balance and more thorough control.
- Ford lightning-like acceleration gives instant car command in tight

# THROUGH GOOD LIGHTING

Old eyes and young have one thing in common: Both need GOOD LIGHTING to see properly. A youngster has keen vision that must be kept sharp and clear. A man has eyes that are perhaps tiring a bit, and need all the help that good lighting can give them. But proper lighting helps to protect eyes good and bad, young and old. Your home should not be without it.

Good lighting is not hard to attain—nor is it expensive. Here are 5 simple rules for good lighting that it will pay you to follow: (1) Use correct size lamp bulbs—"WATTS." In table and floor lamps with three sockets, use 40 watts in each socket; with two sockets, 60 watts; with one socket, 100 watts. (2) Have at least one-tenth as much light in the rest of the room as you have on your book, newspaper, sewing, etc. (3) Use SHADES on all lamp bulbs to prevent GLARE. (4) Use shades with light-colored linings to get the most light. (5) Have enough lighting fixtures or portable lamps to insure the proper intensity of light throughout the room. In addition, have a periodic examination by your eyesight specialist.

Try these 5 principles of good lighting in your home and see what a difference they make in the comfort and seeing ability of every member of your family.

# Remember Your Home Newspaper

All matters handled thru the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper week by week.
