As Andy would say three million, four million or maybe he has revised his mailing list to three billion, four billion. And recent events have caused many to start learning their multiplication tables over again, especially the fives. 5x5-25; 5x125-625, etc. We suggest the figuring instead of counting sheep. It is more confusing, more tiring and probably a better sleep producer.

V. F. W. ORGANIZE POST IN CLARKSTON

A Veteran of Foreign Wars post has been organized in Clarkston. Ben Comstock was chosen tempor-

ary commander; Herbert Baynes is temporary adjutant and Ed O'Roarke is quartermaster.

For some time there has been a need for this organization and the News welcomes the post and wishes it the success it deserves.

There are 25 paid members. Everyone eligible is invited to join.

CHARLES HOLCOMB DIES TUESDAY

Burial in Lake View Cemetery on Thursday

Charles Holcomb, who had been ailing for the last six months, passed away at his home here on Tuesday

Mr. Holcomb was born in Clarkston, May 3rd, 1861, the son of Mr. and Mrs. William Holcomb.

life.

He operated the grist mill for ten years and then worked a farm until his health failed.

Those who survive are two brothers, Butler and Fred of Clarkston and two sisters, Mrs. Flora Netting and Miss Lillian Holcomb, both of Detroit.

Funeral services were held at the Ogden Funeral Home on Thursday afternoon at 2:00 o'clock with Rev. C. E. Edwards officiating. Interment was in Lake View cemetery.

Wear a Poppy Saturday, May 25th

"Wear a poppy." This request will be made of all of us on Poppy Day, Saturday, May 25th, and who, understanding the significance of the little

red flower, can refuse? The poppy is the flower that gave the only touch of life and beauty to the World War battle fields and cemeteries. It is the flower of the war dead, those gallant young men who gave their lives in the country's service, and we are asked to wear it in their memory.

When obtaining our poppy, we are asked, too, to make a contribution for the welfare of the disabled World War veterans, the widows and children left fatherless by the war. None of us with a dime to our names and a touch of human kindness in our hearts can refuse this request, either. We can only honor the dead, but these living victims of the war are still with us. We can still help them.

The Poppy Day requests will be made to us by the women of the the American Legion Auxiliary, the wives, mothers, sisters and daughters of men who served in the war. They have had the popples made for us by mothers to attend. needy and disabled veterans, providto do other work. They will take the be home of Mr. and Mrs. Henri that the primary objective is good contributions we make and, with understanding and sympathy, turn every penny to the service of war disabled and dependents.

Yes, we will "wear a poppy" proud-ly and gladly. We have not forgotten and we are not ungrateful. For one day this blood-red symbol of highest patriotic sacrifice will blaze on our coats, and our coins will be given to and sermon by the paster. Let every help through the coming year those one make a special effort to attend who are living a life of suffering and and bring the family. sacrifice because of service to the

LAUREN D. CHASE DIES SUDDENLY

Burial in Hillsdale on Wednesday

Lauren Devereaux Chase collapsed at the breakfast table in his home in Hillsdale last Sunday morning and

died instantly. Mr. Chase was born in Hillsdale, attended the schools there and graduated from the Hillsdale College. He also graduated from Purdue University in Engineering. He held many responsible positions and ironed out many engineering difficulties for Chevrolet, Hudson and other large concerns.

He was well known in and around Clarkston having resided here for eight years. Last summer Mr. Chase accepted a position in Chicago where he was working on a government project. In the fall Mrs. Chase, Mr. Chase's father and Harry Church, who had made his home with Mr. and Mrs. Chase for a number of years, moved to Chicago and just a week ago they moved to Hillsdale.

His sudden death was a shock to everyone. Funeral services were held in the Hillsdale chapel on Wednesday afternoon at 3:00 o'clock with burial in Hillsdale cemetery.

Those who are left to mourn his loss are his wife, Mrs. Nell Stevenson Chase, and his 93 year old father, Professor Melville Chase.

GOOD PASTURE IS MEANS TO PROFIT

Sheep Raisers Are Advised to Consider This Matter

Michigan sheep raisers who have been depending upon June grass pasture to carry their flocks through the summer can increase the amount of mutton produced by the flock by sowing supplementary pasture this spring, according to the animal husbandry department at Michigan State College.

Rape or sweet clover can be sown in spring grains and will provide pasture in the months when June grass is dried out by heat and lack of moisture. Only a few pounds of seed of either plant is required to start a crop which will furnish a lot of pasture. Rape also can be sown in corn fields at the time of the last cultivation.

Michigan men who have been in the Wolverine Lamb growing contest for the past few years have proved that good pasture is one of the essentials in growing out a profitable crop of lambs. Alfalfa is the best pasture but other kinds can be used successfully when alfalfa is not available.

Good pasture is necessary in economical mutton production and market topping lambs can be grown in four months without supplementing the pasture with grain. This can be done only when the pasture supplies constant amounts of feed, as is furnished by alfalfa or sweet clover.

If the pasture becomes too short at any time to supply full feed for both ewes and lambs, the lambs should be fed grain in creep feeders. The lambs also can be weaned at three months and placed by themselves on good pasture.

Sheep should be full fed before being placed on alfalfa pasture and should then be left there continuously. Shifting the flock from alfalfa to the company, said, "To do this, we some other type of pasture and then

TOWN

is just a jaunt instead of a journey

WHEN you own a Ford V-8, the doctor or dentist or classroom, once removed by hours of travel, is only a few minutes away for your children. The stores and shops and churches are only a few minutes down the road for your wife. And the implement store, the local grain dealer, the shipping pens for your stock, are only a few minutes away for you!

The Ford has played a great part in loosening the bonds which once tied families to the farm. It was the first automobile the farmer could afford to buy and run. Fifteen million Model T's founded a tradition of economy and dependability which won the esteem of millions of farmers. The Model A carried that tradition to a higher plane of perfection. And in the Ford V-8 for 1935, Ford value reaches the highest point in more than thirty years of constant improvement.

The new Ford V-8 is a car which will take you anywhere, any time - economically, comfortably, safely. Your dealer will gladly show and demonstrate the many features responsible for its great riding ease, durability, and economy.

\$495 AND F. O. B. Detroit. Safety Glass all around at no extra cost. Standard accessory group including bumpers and spare tire extra. Convenient terms through the Authorized Ford Finance Plans of the

DISASTER.

Excessive Federal restrictions, unregulated competition, the depression, have had their way with America's railroads.

Today the public views the plight of the lines with awakening understanding and broadening concern, and there is growing alarm that close by may be stalking the ominous specter of government ownership.

Disastrous as would be federal usurpation of rail control, might it not be the signal for that final economic calamity--the socialization of all industries?

Under present policies and conditions could government have done better with the railroads than has private management? Could government, in the future, do as well?

Memories of America's War-Era rail management are too fresh, too painful; the strangely similar results of like policies in other countries are too current, too repugnant to blind the thinking to government ownership's deficiencies and undesirabilities.

Simple sanity in transportation policies will solve the railroads' problems, while their seizure will only breach the walls which guard private industrial initiative against all-engulfing socialization.

Michigan's delegation in Congress should so be advised.

Michigan Railroads' Association
