## COMMENT AND CRITICISM

We have an awful time. Things go wrong and we moan and howl and make ourselves and everyone else generally miserable. Then along comes a bit of news that is so much more depressing than we forget our own troubles. Not that we are feeling "down in the dumps" but the story of the Mansfield, Ohio, boy, one of a family of six, who had not eaten for a couple of days, hanged himself when he found the family was going to eat his pet rabbit. And he saved the life of the rabbit because the story got out and so many baskets of food arrived that it was not necessary. And I wonder if perhaps the donors of the baskets perhaps believed they had reached the depths of despair.

And how the automobile companies are planning to go to town. The Pontiac and Ford will be on display this week and the new Chevrolet is announced for Nov. 2nd.

Indian Summer is late but we love to think of the saying "Last but not least".

### Clarkston School News

The students of the Clarkston High School are conducting a campaign to get subscriptions to Crowell publications. While the price to the subscriber is the regular rate including many attractive club offers the school receives a commission of 50%. This is an opportunity to get your subscription at the regular rate and leave half of the price of the subscription in Clarkston for the benefit of the Athletic association. ### Mrs. Hutton's Room

Great concern is felt in our room, in fact every one is heart broken. We had a beautiful green and black carrot worm, who would "pop" out of his gorgeous orange home every time we gently rubbed his head. We fed our precious pet carrot leaves galore, and took the very best care of him. Many happy minutes were spent watching him eat, and was he ever getting fat!

Well, to make a long story short, the teachers went to the Institute and there were four days without any little kiddies in our room. Must be our little worm got awfully lonesome, or sleepy or something, 'cause he crawled away and we can't find hide nor hair of him.

We knew he would make a beautiful cradle for himself and sleep all winter, but we thought surely he would dot it while we were all here so we could watch him. But we are not going to feel too bad, because we are sure that some time in the spring, we will see a beautiful monarch butterfly flying in our room, and that will be our lovely carrot worm, after God watched over his cradle.

### Session Room Gossip

Result of Gum Era: "Zeros" are bestowed upon all culprits who are caught chewing the product in class-rooms.

"Gussie", Ralph to you, must have had an inspiration 'er sumthin' to make three touchdowns in one game! We wonder who or what it was? We're hoping the same "inspiration" will decorate the sidelines at all future games to impart such vim and vitality to the entire squad.

Our "Champion Blusher": George Dupee.

One of CHS's select crowds has almost broken up over that thrar' new "Freshie". He must have what it takes.

A raging feud is taking place between Miss Le Forge and Stanley Poniatowski, who by the way can't stop so becomingly.

Notice: A new course has been added to the regular selection of Subjects offered by C. H. S. Three guesses as to what it is—well you'll never guess it so I'll tell you—"Salesmanship". Yes sir, beginning with the motto: "The customer is always right". (Including all dog bites, doors slammed in your faces, lies, alibies, and insults in general) and ending up with a finishing and final touch; the "10" of Salesmanship, "Personality". An assembly was held Tuesday morning to call the students' attention to the Annual Educational Salesmanship week. A bank-up contest was put before the pupils and received with hearty approval and enthusiasm. It will afford plenty of competition and arouse school spirit and pride. One or two students have been elected as Captains of each Home Room or Session Room. For Senior H. R.—Bill Parker. For Junior H. R.—Eleanor Boyne, and for Junior High, Freshmen and Sophomores, Miss LeForge's Home Room has been divided into two parts, Mr. Waters taking over the "West Side",

Charles Perry acting a Student Captain; and Miss Le Forge, the East Side with King McIntyre as captain. Business managers are Bart Mann and Clara Rasmussen. A quota has been set for each Home Room, in accordance with the room's enrollment. Honor Rolls are printed on Bulletin Boards and names of lucky salesmen appear daily. Many attractive prizes are being offered by the courtesy of the Crowell Publishing Company, who issue the "American", "Woman's Home Companion", "Country Home" and the "Collier's", to all students who obtain a certain number of Subscriptions, with new or renewals.

Our aim is to get valuable business training, earn a substantial sum of money to finance our Athletic Association, to serve our patron's interests by supplying wholesome magazine literature at lowest prices, and to put Clarkston on the map in "Crowell's Vocational Plan"!!

These Seniors!

Is it a fact that Hershey is calling on a Jr. living on North Main? This is sudden.

Don H. hasn't had any good suckers yet this week, but he had some swell gum.

Waterbury is having trouble with the light switch on the new car. Fix it, Jr.

Betty, Erma, Eileen and Phyllis sure had a hard time getting the candy ready for the sale the Seniors held on the ninth.

Bart and Clara sure used the vacation to good advantage. More fun!

Herb M. was absent the first morning of the hunting season. Maybe to keep hunters from shooting the pet rooster,—or something.

Boy, did Lyle R. do some first class studying for that civics test Monday?

C. C. M. didn't appear to be in school on the first day of the season. Why?

Bill P. hasn't any locker near locker one, but he still may be seen near there in his spare moments.

Max S. wishes 'Hallowe'en would come around. He wants to go for a boat ride.

Why has Hugo been doing so much neck tacking?

Tucker is having a tough time trying to figure out whether to move to Pontiac or Lake Orion.

Some of the football players must think the Farmington game is going to be tough, they're keeping in training by picking up potatoes.

The graduation pictures will be taken Friday, October 25.

We made the big sum of six dollars on our candy sale last Wednesday.

The Senior girls were seen trying out the track, must be planning on giving somebody some competition at the track meet in the spring or are they just seeing if they can take it?

The Seniors don't seem to like the idea of having to share the eight hour home room with the Juniors.

### Jr. Greenhorn Greetings

Did you notice the way Mildred's face turned scarlet the other day in assembly when Mr. Malone pulled that joke on her? Don't let it get you down!!!

What dark haired gal has B. L. taken a big interest in? Don't deny it Bud.

Mr. Waters has a boil. Wrong diet, and not keeping fit.

What kind of stuff did I. C. use to fix that boil up in such a hurry? Remember Saturday night, Inez?

G. B. picks up B. P. every morning at about 8:35 A. M. She probably goes down after the mail,—or male.

J. D. seems pretty sleepy. Too much tearing around.

Running behind the best blocking of the year the backs of Clarkston's football team crossed Milford's goal line 4 times to chalk up a 26-0 victory over Milford High School.

Playing conservative straight football the first half, Clarkston scored only once and failed at the try for point to lead at the half 6-0. With the beginning of the third quarter the locals opened up on attack and scored three more touchdowns to go to win 26-0.

Several times the Clarkston backs got away for long gains only to have the play called back, and a penalty inflicted. Due to the line breaking through, and smearing Milford plays before they got started plus the defensive play of the secondary Milford was never a serious threat to score.

Clarkston's tackling was much improved, and consequently Milford's backs were always in difficulty.

Yost led Clarkston's attack with points scored, but the excellent blocking on the part of the line and other backs gave "Gussy" all he needed to break through.

Clarkston's weakest point was in the punting department although the kicking was much improved to that in earlier games.

Since making that immortal film, Miss Colbert has not been with Columbia, the company that produced it. But recently she returned to that studio to star in another light comedy, "She Married Her Boss," which finds its way to the Holly Theatre on Sunday.

## Just a Snake Story

Last Monday, Mrs. Edward Seeterlin got quite a surprise when she found a visitor about six inches in length mounting the stairway. Not knowing just what it might be she got a ladle and very cleverly and tactfully managed to get the squirm-er into a glass jar. When son Richard appeared on the scene, he was amazed to find that his mother had captured a copper-head snake and he at once appointed himself executioner. How the snake got into the house is a mystery.

## The P. T. A. Reception Was Wednesday Eve.

The first meeting of the P. T. A. was held at the school on Wednesday evening in the form of a reception with the members of the school board, the officers of the P. T. A. and the members of the faculty in the receiving line.

A short business meeting was held and reports were given. The little red school house made the rounds again and everyone cheerfully responded.

After the business meeting was concluded and the shaking of hands had taken place, a very fine program was enjoyed and this started with a grand march. The school orchestra furnished the music and these young musicians are to be complimented. The music was fine and many commendable remarks were passed. After a few dances, Mrs. A. E. Butters and daughter Mildred favored the assembly with a piano duet. Then Chas. Hutton sang two numbers. He was accompanied by Mrs. Hutton. The crowd was amused at the way Mr. Hutton imitated Rudy Valle, Bing Crosby and Al Jolson. Those who missed the P. T. A. meeting certainly missed a treat because you may never get a chance to hear Mr. Hutton in these roles again.

At about ten o'clock the committee served fruit punch and cookies. Dancing was enjoyed for a while afterwards and the meeting adjourned until the third Wednesday in November.

A larger crowd is expected at the next meeting as everyone is invited to attend and get interested in the school. Every household in town should have at least one representative at the P. T. A. meetings.

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from 13,084,037 lbs. to 326,093,357 lbs.; an increase of 2392%

*It takes mild ripe tobacco to make a good cigarette.*

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191  
 For the year ending June 30, 1934, the same taxes were \$350,299,442  
 an increase of 8725%  
 —a lot of money.

*Cigarettes give a lot of pleasure to a lot of people.*

*More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette. We believe you will enjoy them.*

The new layout will include several small experimental ponds in place of three larger ponds which were formerly used for the bass minnows. There will be ten new ponds which will double the output of what was the entire hatchery. When this hatchery is completed, it will supply enough bass and bluegills for all the streams and lakes in the seventeen

counties of Southeastern Michigan. This fish hatchery when finished will be the most modern and the largest bluegill and bass farm in the world. The course of the Clinton river which flows through the property is being changed to facilitate the water supply through the annex of land being apportioned into breeding ponds.

Besides the new ponds and changing the water course of the Clinton river, new buildings are being erected and all water pipes are being replaced and much of it will be replaced for the new ponds. SUGGEST CHANGE IN SPUD CONTROL ACT

Growers Approve New Law With Some Amendments

Evidence presented at the public hearing in Washington on the 1935 Potato Act resulted in the approval of the Act by representatives of growers, but, with the approval, was a request that the Act be amended at the next session of Congress, according to R. J. Baldwin, administrator of the AAA in Michigan.

Funds to finance the Potato Act were to be provided for by a bill which failed to pass Congress in the final days of the last session. Application was then made to the Comptroller to provide the money from other funds which might be available. No funds have been provided to the present time.

THE IMPROVED streamlining of the front end of the Ford V-8 for 1936 is well illustrated by this camera shot. Note the horn set into the fender apron behind a chromium grille and the way the graceful contour of the fender is carried to the edge of the new radiator grille. A glimpse of the new hood louvers is caught behind the headlamp. The V-8 insignia on the prow of the car is of new design.
