This Boy Knew All the Numbers

Wednesday noon a punch board salesman left a punch board with the North End Service Station agreeing to call Tuesday, after the station had had an opportunity to sell the same and continue his business transaction. Now while the reporter is not the best source of information, the board was different from any that he had seen inasmuch as it did not provide for any set price per punch, nor even any range of prices. It paid in ratios from nothing to 20 for 1. In other words you might bet any amount and either the board did not pay or paid up to 20 times the amount you paid for the punch.

Now enters the villian . . . boy who knew the numbers : . not to mention the position . without even thinking of how to play the numbers to bring the best results. He bought some gas and seeing the board, won and lost a few nickels, dimes, quarters, not to mention a few dollars. He even won a twenty to 1 shot on a dollar bet and Carl Anthony began to "smell a wee mousie" if not a regular "he" mouse, so having lost thirty dollars,

called time out. Now the question is whether Tuesday will see the salesman or not and Carl thinks not.

Special Election Monday, Nov. 25

Property Holders to Decide on New County Building

Voters will have an opportunity, providing they are property holders, to decide whether Oakland County is to have a new County Building or not at a special election to be held Monday, November 25th.

The plans at present would provide a two story and basement building to be located west of the present county building, and extending from the alley to Wayne Street.

The building committee, appointed by and from the Board of Supervisors, presented the plans to the press of Oakland County at a dinner meeting at the Hotel Heldenbrand

on Monday evening. Financing would be by a bond issue of \$129,000.00 and a grant from the Federal Government of \$106,000.00. It was pointed out by the committee that the present rentals, consisting of a floor in the Riker, Hubbard and Peoples Bank Bldg., together with the basement of the 1st National Bank Bldg., would nearly meet the annual retirement of bonds and in 15 years the county building would be paid for.

To be eligible for the Federal Grant the plans must be in the hands of Washington Authorities Nov. 15th. While the press agreed that space was needed, there was a difference of opinions as to whether the present plans would be the most suitable. While it is admitted that a grant of \$106,000 from the 4 billion. eight hundred million appropriated by the last Session of Congress been called to the attention of the News, for example, that the present morgue is the funeral home of a private firm. Many towns or cities the size of Pontiac have space in the County Building basement for such

The proposed building is planned to give the utmost of room as compared with public buildings of the past made up largely of large foyers.

No fancy decorations are planned. The question as to the site was presented and was considered. Some favored selling the present County Building which is now located on an expensive business corner building on a less expensive site with the surplus going into at least a part payment of a new county building. Proponents of this plan argued that better parking provisions might be possible if the building was located away from the busiest corner in our

County seat. Certainly if it is necessary to rent extra space, the County needs a larger building. The question the voters will decide at the special election is whether the present plan is the most suitable.

Idle "thots": Why doesn't that Mc-Intyre person put some ice on his tongue 'n' give his teeth a sleigh ride!-as Isadore would say on the radio-I can hear him from here. It isn't fair that one person should be so good lookin'-Hammy, of course, there have been quite a few pupils just came around yon' corner—nor is ill lately. Wonder why Evey Walz wears her orange sweater so much? We know she's got loads more 'n' yet it seems to be a favorite. Reason: 'cause he told her he liked it! Hammy, I tho't Russell, Charles Perry, your favorite color was blue-but then, I suppose you've got the right to change your mind.

What does Chet Adams find so apdo::; Bye the bye-Chet wants an Mrs. Durand, had a very interesting electric train for Xmas! Honest, his

Will-Charles, Dannie, and King try to find out the boy friends of line, now, you could at least ride to studying to get on the United States the end of the line and back again!!! D'ja ever hear Clinton R.'s musical laughta?-just like silver bells on-

> "Daddy's gone a hunting, to get a rabbit skin," only this time it was Miss LeForge and Mrs. Durand who were violating game laws by striking down a deer with their car-just like that! (but truthfully, the deer offered them the temptation by crossing in front of them, away up thar in the north woods).

> They emerged without physical injuries, but mentally!! Mrs. Durand's hands still shake, and to make things worse, while looking for clauses to classify in English, Monday, we came upon such sentences as "we did not know where the accident occurred," or "My uncle, when informed of the accident, administered first aid!"-by that time, I guess Mrs. Durand had had just about enough. Yes sir, if it isn't one thing, it's the same thing. -Miss LeForge had assigned two of her history classes to read "And Sud-

It might have been just "feminine instinct". Your guess is just as good as mine.

The Senior play is on the way (Poetic, don't you think?) and does it ever sound "Spooky, and mysterlous", and "Romantic"! The only thing lacking is a Harem.

Notice!! You can see Tucker's Bob gets it?—Jean, you must like moustache without a microscope, now. It's gettin' there course these I hear Les Spencer sorta met his Egyptian Princes didn't have their moustaches very thickish, but had the ends.

Frank J.-Navin, owner of the Detroit American League baseball team, champions of the world, died very suddenly Wednesday noon of a heart attack. He was out horseback riding and the animal returning home riderless, Mrs. Navin immediately sent persons to look for her husband, thinking that probably he had been thrown. When found, Mr. Navin was breathing but death occurred just as

he was entering a hospital.

The First 8 Pennies

THE TAX Collector, not the railroad, gets the first 8 cents of each \$1.00 you pay for rail freight or fare.

AND, COULD you trace them, about 40 of the remaining 82 cents also ulti-mately become taxes—local, state and federal-taxes paid by those who supply the railroad with fuel, materials and labor and to whom the railroad pays bond in-terest and stock dividends (if any) and by those who supply the suppliers of the

railroad, etc., etc. THE RAILROAD pays the highest rate of tax of any agency of transportation. In return it asks nothing in the form of right-of-way publicly supplied and maintained, nor other kind of subsidy. It stands on its own feet-an institution privately maintained and privately operated, yet functioning in the public interest.

THUS WHEN you ship and travel by rail you ease your own tax burden by lending support to the one form of transportation that supports itself and gives most to the support of government.

AND THE freight fee or the fare you pay is the final payment. No "hidden cost" looms later in your tax bill to plague and penalize you for the so-called saving which some subsidized transit agency held out for your patronage.

GIVING BUSINESS to the trucks means giving it to a tax-consumer whose operations only add to our taxes and living costs. -

SHIP AND travel by rail and the first 8 cents of your freight or fare dollar will always come back to you as a discount in your tax bill.
