A Christmas Meditation

By Rev. C. E. Edwards

(Suggested reading, St. Luke 2:1-20; St. John 1:1-14)

"The WORD was made flesh and dwelt-among men—full of Grace and Truth" (John #1:14).

I shall preface this brief meditation with the general observation that religion as revealed by the Babe of Bethlehem is not any system of creed and doctrine, or narrow restriction designed to regiment all men into one common mould of religious experience and expression. Wide and charitable latitude must be allowed for differences of temperament, racial characteristics, emotional reactions, as well as varying degrees of spiritual insight. There is, however, one foundational principle upon which any and all interpretations of Christianity must find a focal point for agreement: the Christian religion is "The love of God seeking to find expression in the life and life relationships of men."

The historical account of the mysterious birth of the world's Redeemer, as recorded in the Gospels of both Matthew and Luke, can only be understood in the light of the first fourteen verses of the Gospel according to St. John. There we find these thought awakening statements: "In the beginning was the Word (Logos), and the Word was with God, and the Word was made flesh"; thus linking these two sublime facts into a continuity of revelation.

For centuries a conflict between theologians has centered around the mystic meaning of this Greek word Logos, which the best scholarship translates into the English noun, WORD. Conflicting opinions and creeds have ofttimes obscured its import; Battles have been strenuously fought over it: To the shame of humanity it must be said that even bloodshed has stained its luster, but today the "True Light" that is to blaze the way and light the path of human kind into a better understanding of the Fatherhood of God and the Brotherhood of man is slowly but surely emerging thru the darkness of finite limitations. The key which unlocks the mystery of the word "Logos" is found in 1st John 4:7-12, "God is LOVE—if we love one another God dwelleth in us." Or as Paul says (Gal. 2:20), "Christ (the Word made flesh) liveth in me." It seems to me quite clear that the "Logos" over which theologians have stumbled for centuries and which was "made flesh" at Christmas time nearly 2000 years ago is LOVE incarnate in a term and form of human understanding.

"God is Love—and Love was made flesh", that is the outstanding fact of incarnation and the glorious possibilities of that fact were flashed across the sky and made known by the angelic chorus when they sang: "Glory to God in the highest, and on earth Peace, Good Will toward men (among men)." Certainly! The Love of God, revealed and "made flesh" in the Babe of Bethlehem, and finding expression thru sympathetic understanding and Good Will among men is the divine cement that can heal the broken heart of the world and make universal Peace a possibility.

What our world of today needs is not simply to celebrate the Christmas season, but to literally and liberally partake of the Christmas seasoning, which like salt (Matt. 5:13) is designed to give flavor and zest to an otherwise unpalatable stew and change it into a harmony of pleasing gastric savors. Humanity has ever been and will continue to be in a "stew" until all of our life relationships are seasoned with Love and Good Will "made flesh" in the "fulness of time" (Gal. 4:1) to redeem them that are under the law, and "God hath sent the Spirit of His Son (the Spirit of Love) into your hearts" (Gal. 1:6).

Wise men, following the star of hope, "came and worshipped Him and presented their gifts of gold and frankincense and myrrh" (Matt. 2:1). Whatever symbolic meaning these gifts may hold one fact is outstanding, they represent the whole range of best human endeavour to make the Word which was "made flesh" and the ideals of Him for whom Christmas is named triumphant in the heart life of all the great human family, of which He also revealed the head as Our Father. The true significance of Christmas is Love born again, not in a humble manger but in humble, loyal hearts who like the "wise men" of old have caught the radiance of His star, and with like resolute purpose seek to "follow the gleam".

Nothing adds just as much to the pleasure of Christmas as a good layer of snow.

Your Christmas list is not complete until you have helped bring Santa's annual visit to someone who does not expect it.

Christmas Program

On Wednesday evening at the regular P. T. A. meeting, the school presented their annual Christmas program. The business meeting was dispensed with and Miss LeForge announced that each grade teacher would direct her grade's contribution to the program. The little tots appeared first and said their recitation and went through motions keeping in time to the music played by their teacher, Mrs. Charles Hutton. Then each grade in turn sang and recited appropriate pieces and presented short plays that emphasized the spirit of Christmas. The Girls' Glee club directed by Mrs. Hutton sang three

on meal planning.

A delicious can'dy can be made en-tirely from farm products. Cut pieces of apple and simmer them in honey until the pieces are clear, then remove and roll in chopped nuts. The or can be coated with chocolate.

Honey bittersweet is more difficult to make but rewards the patience of those who master the art. Place a section of comb honey in the refrigerator for 24 hours, then cut into pieces three-fourths inch long and three-eighths inch wide. Place the pieces on waxed paper on trays and chill for 30 minutes. Prepare chocolate for dipping and keep it over water at a temperature of not over 120 degrees. Dip the pieces of honey and drop a nut meat on each piece. The children will save any pieces which are not coated thickly enough to keep the honey from dripping.

Honey is about one fifth water so the amount of water called for by the recipe should be reduced by onefifth for every cupful of honey used to replace sugar. Each tablespoonful of honey supplies from 65 to 100 calories. It is easily digested, is slightly laxative, and contains a small amount of minerals.

Extension Bulletin No. 150 contains many recipes for the use of honey. This will be sent to anyone requesting it from the Bulletin Clerk of East Lansing.

This scientifically designed lamp is not only attractive but protects eyesight. It has an opal glass bowl under the shade, which diffuses the light and assures illumination that is soft and glareless. Part of the light goes to the ceiling (the shade is open at the top) and is reflected back, providing indirect illumination for the rest of the room. Where an ordinary lamp supplies the equivalent of 3 to 10 lighted candles on the printed page, this new lamp furnishes 25 to 50.
