## COMMENT AND CRITICISM

"United we stand, divided we fall" was the cry of the 13 colonies. It is claimed that internal trouble split the Democrats in the last state election . . . and the Republicans won. The heaviest guns fired so far in the National election may prove that history repeats itself. But by far, as an average citizen, we believe the majority of the voters would like to know whether the New Deal is accepted by the majority or not . . . without a lot of befogging issues and repercussions within parties.

We were interested in reading the increase in the number of insane, the suicides and the deaths from heart disease, during the years of the depression. It is a sad commentary on the life we lead that even listening to the radio reports of political issues, major fights, ball games and events of like nature, that a number of people overtaxed their hearts in the excitement and passed to the great beyond. Such events are interesting but are they worth getting high blood pressure about? Perhaps the growth, in the last few years of "fan mail" and letters "to the editor" is the result of a necessity of "blowing off steam". Thousands go to the trouble of voting for contestants in the Major Bowes' hour; ball clubs are flooded with requests for raises for certain players; papers are flooded with letters asking for increases for some public official which is all well and good, providing the interest is the result of some slight desire to help the other fellow. But if the effort is the result of a "crusade" to improve the world forget it. The world is gradually cutting down the speed of automobiles and traffic in the cause of safety. Why not try cutting down the speed you are traveling in the cause of protecting yourself? The majority of new year resolutions we have heard are like this "I am going to quit worrying and bothering about everything and try to get a little pleasure out of life." Remember the average man under the age of 55 is a victim of heart disease and slacken the tempo of your life.

Well the major part of the bonus will be paid in June, 1936—not in the year 1945. Payment before due date was ordered by a Congress in which the Democratic members were in the majority over the veto of a Democratic President . . . and I am wondering now which party will claim the votes of the veterans for its passage. Michigan's two republican Senators voted no and voted to sustain the veto.

If my figures are correct, about 3 million of the 3 1/2 million entitled to the bonus had borrowed on their policies—either because they needed the money or because they could make more money than the interest allowed by the government. In our humble opinion about the same ratio will cash the baby bonds given in payment . . . and which they are advised to save.

It would make good reading if we could find out what each veteran in this district would receive and what he would do with it but for ourselves we do not feel that our business belongs to the public and because we believe in doing to others as we would they do unto us we will not inquire into the business of the other veterans. You probably don't care anyway.

## Death Takes

### Mrs. Reba Leonard

Funeral Was in Detroit on Wednesday

Mrs. Reba Leonard of Detroit, a widely known club woman and social worker, passed away in the Woman's Hospital on Monday.

Although Mrs. Leonard resided in Clarkston and she often remarked that she thoroughly enjoyed attending a bridge party here and meeting and mingling with such friendly folk.

Mrs. Leonard was known for her philanthropic work in behalf of children and as a former member of the state child welfare commission her work is credited with procuring the passage of law which permits counties to appropriate money for the care of crippled and needy children.

The nutrition classes in the public schools, to-day, were the outcome of the penny luncheons that Mrs. Leonard started in some of the Detroit schools.

For the last 25 years Mrs. Leonard gave Christmas parties for crippled children. They were held in the old Temple Theater, then in the Fisher Theater and two days before last Christmas she gave a party for 2000 crippled children in the Hollywood Theater. These parties were given in memory of her little daughter Doris, who died from burns she received when the Christmas tree in their home caught fire.

During the administrations of former Governors Alex Groesbeck and Albert Sleeper, Mrs. Leonard served as state welfare commissioner, receiving no salary. At the time of her death she was the child welfare chairman of the Twentieth Century Club and was active in the Detroit Review Club.

She is survived by two sons, Edwin D. of Detroit and Captain Don Leonard of the state police, who, at present, is in the Henry Ford Hospital being treated for injuries received some time ago, and a brother, George Marrow.

Funeral services were held in Detroit at two o'clock on Wednesday afternoon.

## FEED THE BIRDS OR THEY WILL NOT SURVIVE

Although there has been to date an abundance of food sources above the snowline, ground feeding birds throughout the southern half of the lower peninsula may face a food shortage this winter if existing weather conditions continue or grow worse.

The ground in many places has been covered by ice and crusted snow, forcing ground feeding birds to seek seeds on plants standing above the snowline.

Fortunately, the rainy season of 1935 produced an abundance of such weeds. When these are exhausted pheasants and quail may be hard-pressed for food.

By establishing feeding stations now sportsmen and bird students may be able to help many game birds to survive the winter.

## VETERANS' BONUS HAS BEEN ASSURED

Bill Becomes Law Over Veto of the President

Clarkston World War veterans are rejoicing in the enactment of the bonus bill, which Congress the past week passed over the presidential veto. The bill calls for the immediate payment of the adjustment compensation certificates otherwise due in 1945. The amount each veteran will receive depends upon whether he served at home or over seas and upon whether he has borrowed upon his certificate. All who served less than 60 days are not included. Over day and others \$1.00. The full value of a certificate approximates \$1,000, but it is estimated that about half of the veterans have borrowed 50% of their share. Hence the amount each will now receive will approximate \$500.

The vote in the Senate on the question of sustaining the veto of the President was 76 to 19, in favor of overriding. Both Michigan Senators voted to sustain.

Acting under instructions from President Roosevelt, following the overriding of his veto, the Treasury Department and veterans' administration set in motion machinery for exchanging immediately cashable bonds in denominations of \$50 for the 3,500,000 outstanding compensation certificates.

The bureau of engraving and printing shortly will start printing millions of "baby bonds". As they are to be dated June 15, 1936, and mature June 15, 1945, veterans cannot cash them until after June 15 next.

Secretary of the Treasury Morgenthau probably will designate post-offices throughout the country as cashing stations for the veterans. All veterans cashing before June 15, 1937, will forfeit the 3 per cent interest carried on the bonds.

Estimates of officials were that approximately one billion dollars would be distributed to world war veterans by the government during the nine months starting June 15.

Total cost of the bill was placed at 2,491 millions including 507 millions to reimburse the veterans' life insurance fund, and assuming all veterans cashed certificates before the 1945 maturity date. Those estimates did not include cost of borrowing money to pay the veterans.

### How to Get New Bonus Bonds

1—Veterans' administrator will issue blanks after public announcement, with complete information about exchange.

2—Veterans then must file applications for baby bonds, in manner set forth by administrator.

3—Veterans who never applied for bonus may now do so, having choice of asking for old certificates or for new baby bonds.

4—Veterans in possession of certificates, after making application for exchange, will be directed how to make the exchange.

5—Veterans who have pledged their certificates as collateral on either bank or government loans, in making application can empower veterans' administrator to get their certificates. In such cases, administrators will pay off loan and interest due, deducting loan only from amount of bonds forwarded veteran. Interest accruing only since October 1, 1931, will be forgiven. Other interest must be paid by veteran.

6—Veterans' administrator, after determining amount due veterans, will forward them baby bonds in multiples of \$50 and cash for amounts less than \$50; if \$640 is due a veteran, he will be sent \$600 in bonds and \$40 in cash.

7—Veterans, on receipt of bonds, may hold them, drawing 3 per cent interest for ten years, or cash them at nearest postoffice or at other places to be designated by the veterans' administrator.

### Where to Get Applications

Percy Craven at the G. A. Walter store.

The girls' basketball team was at Clarkston on Tuesday following school and played with the Clarkston High School team in the gym. Clarkston was victorious as they are a team who have had a place to practice. The old adage of "practice makes perfect" held true in this case. Waterford hasn't the gym for practice work.

The Williams Lake Group Circle had their circle meeting at the home of Mrs. Carl Terry in Pontiac on Thursday instead of Friday as had been planned. A potluck luncheon was served and time was spent in sewing.

Thursday, Feb. 6th, the Ladies' Auxiliary will meet at the church parlors at one o'clock. The hostesses for the day are Mrs. Percy King, Mrs. Edward Ledger and Mrs. John Miller. **HOLLY THEATRE**

Proclaimed the greatest of all sea dramas, "Mutiny on the Bounty", opens Sunday at the Holly Theatre after being more than a year in production.

Aside from entertainment, it presents an authentic visual document of one of the most notable chapters of maritime history—the mutiny on the H. M. S. Bounty one hundred and fifty years ago.

In the annals of the sea there is no more fascinating story than that told of the Bounty which set sail from England in 1787, bound for Tahiti.

In charge was Lieutenant Bligh, a harsh taskmaster. Storms lengthened the voyage, food ran low and as Bligh's temper increased he raged at his underfed and embittered crew. The golden days that followed the arrival at Tahiti temporarily quieted his men, but shortly after the start of the return voyage Bligh's tyranny brought rebellion to the breaking point and his men rose in mutiny.

Then followed adventures that have never since had their equal in naval history; Bligh and his eighteen loyal seamen sailing 4,000 miles in an open boat; escaped mutineers seeking refuge with their native wives; Bligh's return and the capture of several of the mutineers; another shipwreck and Bligh again in an open boat at the mercy of the sea on a 3,500 mile cruise; and the final naval court-martial back in England with all its tragedy and faded hopes.

"Mutiny on the Bounty" faithfully follows the original British Admiral-

ty records and the sensational story written by Charles Nordhoff and James Norman Hall.

Three of the greatest actors either on stage or screen head the cast of more than fifty featured players. They are Charles Laughton, as Captain Bligh; Clark Gable, as Fletcher Christian, leader of the mutineers; and Franchot Tone, as Midshipman Byam.

**MOTOR VEHICLE LAWS ARE NOW AVAILABLE**

The 1936 edition of the state's motor vehicle laws is now available for free distribution from the office of the Secretary of State at Lansing. Only 83 copies of this book will be mailed out without the necessity of a written request to the department, these advance copies going to the prosecuting attorneys of the counties of the state. On request, however, a copy of this book will be mailed, postage paid, to anyone.

For the first time, provisions of two other related laws are included in the compilation of motor vehicle legislation. The other laws included are the Financial Responsibility act, and the Public Carriers' act.

Do you know your horses? If you do, you'll get a chance to prove it during Farmers' Week at Michigan State College, East Lansing.

A special feature of the week will be a competition between farmers of the state in discovering defects and unsoundnesses in eight to ten horses on display. The event will be held at 9 a. m. Tuesday, Feb. 4.

During the World-war the baseball team of the U. S. S. Pennsylvania won the championship of the Atlantic Fleet. This was not much of a surprise as practically the entire Boston Red Sox team was wearing the uniform of that ship.

GAME-COVER PLAN IS NOW OUTLINED

Embodies Cooperation Between Farmers and Sportsmen

With a view toward assisting in the solution of farmer-hunter problems and farm-game management in southern Michigan, the Department of Conservation is asking farmers and sportsmen to consider an experimental plan of cooperative management tentatively planned for this year.

Questionnaires are going to scores of individuals in various parts of southern Michigan listing the suggested specifications of this plan and requesting that the individual or group register their approval of the plan and make suggestions for its improvement.

The Game Division of the Department realizes that hunting conditions in the farm-game areas of southern Michigan have been somewhat unsatisfactory during the past several years. The growing number of hunters, increase of leisure time, better means of travel, resentment of many farmers whose property has been injured by vandalism, the difficulty of maintaining an adequate supply of game birds and animals under increased drainage, agricultural development and industry—all have intensified this problem.

Yielding to requests of many individuals the Game Division recently recommended a plan under which the Department of Conservation would cooperate in managing game-cover supplies on areas regulated under farmer-hunter agreements.

The specifications prepared, which would limit the Department's entry and participation in any such program of cooperative management, are contained in the outline being sent to interested individuals. The suggestions returned will help perfect this plan and if a sufficient majority of interested persons register approval of the plan, it will be put into effect on an experimental basis for the current year.

For Homemakers

High-heeled shoes make for inferior body postures if worn for any length of time, a study conducted by the Home Economics Department at Michigan State College, East Lansing, shows.

The study, conducted by Miss Julia Tear, revealed there is a definite relation between increased heel height and poor body posture. It indicated, too, that an inferior standard of posture was more evident when the heel height exceeded 1 1/2 inches than when low and medium heels were used.

Fashions in other types of clothing may be followed with no fear of injurious effects so far as health is concerned, but unfortunately, poorly shaped and poorly fitted shoes often bring about results that seriously affect one's health and comfort.

Miss Tear recently questioned 100 women and learned that 67% admitted difficulty with their feet and that 65% gave their shoes away before they were worn out. Some gave as many as 10 pairs of shoes away in one year, she added.

Comfortable shoes should have adequate length from ball of foot to toe, ample width at the ball of the foot, room for fourth and fifth toes to extend forward normally, a flat inner sole without bumps and raises, and an inner line sufficiently straight to avoid lateral deviation of the great toe.

Some health and fashion hints in choosing shoes are:

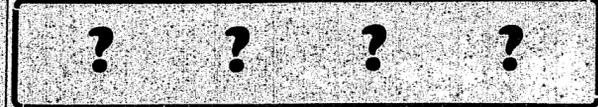

Shoes should be comfortable as well as fashionable and good looking;

Shoes are a part of a costume and the color, design, and general type of the shoe should harmonize with the ensemble;

Simplicity of design in shoes is desirable because it is in better taste and also more economical in the long run;

Shoes receive hard wear and the kind and quality of the materials used in the shoe influence the general satisfaction from them.

"What's in a Name" By Betty Chamberlain The Blue and White Flash Column is dead. Long live the Column!

With the reorganization of our school news paper, came the problem of a proper and fitting name for it. To attain this purpose a contest was started on January 28. A few simple rules were drawn up as follows:

- 1. The name selected to be the best choice for our column must be written legibly and accurately. 2. All entries must be accompanied by the full name of author. 3. All entries must be in on or before January 31, 1936 at 4:00 p. m.

Votes are to be received in Miss Le Forge's Home Room. Judges were chosen and approved. They are from the Faculty and the News Staff. The Grand Prize will be two tickets to a very appropriate movie on the Life of George Washington, to be shown at 3:15 P. M. Friday, February 18, at the High School Auditorium. Even tho' you do not win the prize, we hope to see you there. The Public is welcome. 10c. for anyone.

The students who remain at school over the noon hour are quite enthused over the new table hockey game. Each noon hour finds a line-up waiting to play.

The game was built by the manual training department under the direction of Mr. Bauer for the use of the students of the school.

It is popular with both the boys and girls and gives them much enjoyment during the noon hour.

The editor wishes to ask these students to be a little more careful as once in a while the outbursts of enthusiasm cause a player to forget that after all the game can be spoiled and the table ruined. So Hockey Fans, take care of your property, the game is yours, do not spoil your fun.

School News

There has been a general reorganization of the staff and general construction of the Blue and White Flash.

Previously the school news has been limited to two or at the most three columns in the Clarkston News, but we are now to have a section of our own and with our own title.

We are going to try to bring forth the educational and other experiences of interest happening in Clarkston High.

Mr. Waters is to be the supervisor of the staff.

Everyone is now to have a part in the new school section.

ATHLETIC NEWS

Girls' Basketball

The C. H. S. Girls lost a hard fought game to Keego Harbor, Friday night by a score of 17 to 14. The score at the half was 11 to 8. Mildred Batters, appearing in the regular lineup for the first time, played a game worthy of comment. If they had made but 4 out of 9 foul shots missed, they would have won.

The game was close throughout and although Clarkston was behind from the start, Keego's lead was never great enough to make the game uninteresting, several times being only a basket difference in score.

The game was fast and in spots it was rough, several players being sent off the floor with fouls.

Varsity Game The Clarkston High School varsity basketball team was defeated by Keego Harbor last Friday night in the fastest and most spectacular game so far this season.

Clarkston started off with a bang scoring two baskets before the game was hardly under way, but Keego quickly reached its pace and sank three baskets in rapid succession. The scoring remained quite equal

throughout the game, first one team and then the other having the lead. When the fourth period opened Clarkston was out in front with a four point lead but remained scoreless during the rest of the game while Keego piled up ten points to make the final score 31-25 in their favor.

Soulby was high point man for Clarkston with a total of nine points while Orkfitz led Keego with twelve points.

Clarkston played its best game of the season but Keego deserved to win.

In the preliminary game Clarkston Reserves defeated Keego 22 to 18.

Line-up:

On Friday, Jan. 31, Clarkston plays Walled Lake here in what promises to be one of the most thrilling ball games of the season.

Walled Lake boasts a perfect record of 5 wins against no losses, but has been having a tougher time winning each game.

Last Friday they pulled one out of the fire by taking a lead in the last few minutes of play against Farmington after being behind for the greater part of the first three and one half quarters.

Walled Lake won from Clarkston in a previous game by a 22 to 18 score. The local lads will be seeking revenge and an excellent game is forecast.

## Tom Cat Saves His Lives, All Nine, By Meowing Over a Telephone Line

When this Dunkirk, Ind., cat, who makes his home in a news store, smelled gas after he had been locked in the store one night as usual, he jumped up on the desk, knocked over the telephone, and meowed into the transmitter. The night telephone operator knew the store and the cat, and called the proprietor's brother, who went to the store and saved all of Tommy's nine lives.

If it is true that a cat has nine lives, Tommy, of Dunkirk, Ind., must be purring along on the thin edges of life No. 9. At any rate Tommy is not taking any chances where one of his lives is concerned. He evidently feels that it is better to be safe than sorry—so when an emergency threatened to reduce his margin of safety drastically, Tommy turned to the telephone.

This smart feline is owned by Miss Ethel Hartman, news stand proprietor at Dunkirk, and makes his home in the store. At night when Miss Hartman goes home she locks Tommy in the store and he makes his bed on a pile of newspapers.

One night not long ago after the store had been locked and our four-legged mouse-trap was all alone, he began to sense that all was not as it should be. A sweet, sickening odor filled the room. Instinct warned him that danger lurked in the very

air he breathed. Tommy jumped up on the desk and knocked over the telephone. Then he meowed desperately for help.

Cat Tommy had often meowed his greeting to members of the Hartman family over the telephone when they had called his mistress at the store, so it was only natural that he turned to the instrument when he was alone and danger threatened.

Eulah Fields, night telephone operator, hearing Tommy's frightened howls, called Thurl Hartman, a brother of Miss Hartman. Mr. Hartman quickly liberated the cat.

And so Tommy saved all of his lives by being a smart cat or a lucky cat, whichever way you want to look at it. Maybe it took thought for Tommy to turn to the telephone when danger threatened, but (judging from us two-legged animals) rushing to the telephone at times of emergency is purely an instinctive action.

Friends and neighbors of Mrs. Clarence Smith will be glad to know that she is able to be up and around again, after having a severe attack of the flu.

### CAPITAL CITY LEADS IN TELEPHONE RATIO

#### Washington Outranks the World on a Basis of Telephones in Proportion to Population

Washington, D. C., now takes first place among large cities in telephone development, having a greater number of telephones in proportion to population than any other large city, not only in the United States but in the world, according to the most recent available statistics. San Francisco, which formerly held this honor, is now in second place, but by a scant margin.

Washington has 36.31 telephones for each 100 of population. San Francisco has a development of 35.00, and Stockholm, Sweden, is in third place with 31.95. Except for Stockholm, and Vancouver, B. C., which holds fifth place, no large foreign city has a higher telephone development than the first sixteen ranking big cities of the United States.

There are 53 cities or telephone exchange areas in the United States with more than 200,000 inhabitants, and in these cities there is an average of more than 19 telephones per 100 of population. The superiority of American telephone development is indicated when this figure is contrasted with the telephone development of some of the principal capital cities of the world. For example:

Berlin	10.85	Paris	14.18
Brussels	10.72	Rome	7.58
London	9.07	Tokio	3.56
Madrid	5.77	Vienna	8.39

In absolute number of telephones the United States cities are far ahead of foreign cities. New York City has nearly as many telephones as Berlin, London, and Paris combined and actually more telephones than the entire continent of Asia. Chicago has more telephones than all of South and Central America, south of the Rio Grande, and Los Angeles has more than the entire continent of Africa.

The Navy's seagoing tugs are all named after birds, such as Sandpiper, Teal, Lark, Heron and Swan.

Michigan has a total shoreline of 3,121 miles, of which 879 miles are along the islands.

Watersmeet township in Gogebic county has more inland lakes than some counties of the state. It has 89.

## THE OLD MASTER COMES OUT OF THE KITCHEN

*to Remark* "George Rector speaking. Today I want to explode some popular ideas about cooking . . . such as the belief that *Crepes Suzettes* can be properly made only in Paris, and that American apple pie is no good anywhere outside of a New England breakfast, and that steak not broiled over charcoal has been shamefully mistreated. \* \* \* That charcoal broiling business, now . . . there's a pretty bit of nonsense!

"I know some good and honest and estimable citizens who swear by charcoal broiling. When it comes to steaks, they will have no traffic with the ordinary way of fixing them. This select little group will turn up their collective and respective noses at any piece of meat broiled in the common manner. And that state of affairs is too bad. Yes it is!

"Give me an electric cook stove, a good thick juicy Porterhouse, and all the trimmings, and I will guarantee you as succulent and tender and deliciously-flavored a platterful of steak as you have ever tasted in your born days. What is more, I would like to invite all these particularly fussy gentlemen to dinner, and let them judge for themselves about the cooking."
