## COMMENT AND CRITICISM

Probably you are tired of hearing about the pheasants that board at our corn pile. But let me sing their praises once more. They eat breakfast before anyone is up as is evidenced by the corn cobs and in the afternoon just before five they have their evening meal. The interesting part is that they do not waste any of the corn nor do they go from one ear of corn to another they clean the cob and not until then they start on another.

There is always something to be thankful for and the fact that snow in these parts melted and ran into the ground instead of causing inundated areas is something for which we should be very thankful. Even thankful enough to donate to those not so fortunate. A contribution to the Red Cross for the flood victims in the East is a very excellent opportunity to give concrete evidence of your feelings.

## Contributions Asked For Flood Relief Fund

Mrs. F. E. Davies in Charge in Independence Twp. and Mrs. Carl N. Dailey in Waterford

The Oakland County chapter of the American Red Cross is striving to reach the quota of \$2665.00 assigned them for the Flood Relief Fund. This amount can be met without great difficulty if every individual does his part.  
In each Township the member of the Board of Directors is responsible for the raising of the amount. The member of the board in Independence Twp. is Mrs. F. E. Davies. The quota for this Twp. is \$25.00 and everyone is urged to be as liberal as possible in order that the Twp. may go "over the top". Mrs. Davies has placed a contribution box in the Guy Walter store and you are asked to help as quickly as possible.  
Mrs. Carl N. Dailey is chairman in Waterford Twp. As a result of a few hours work Mrs. Dailey has collected \$10.75 from the businessmen in Drayton and Waterford and \$10.00 from the Drayton Men's Club. The \$10.75 contribution was made up of \$3.00 from August Jacober; \$2.00 from Mrs. Otto Lange; \$1.00 William Jacober; \$1.00 Louis Doeman; \$1.00 James Saylor and smaller donations all of which were greatly appreciated and Mrs. Dailey is very thankful for the generous response.  
The Waterford Township's quota was \$15.00 but Mrs. Dailey is trying to double this amount. She has placed contribution boxes in Jacober's store and the Old Mill Tavern in Waterford and in the A & P and Barnard's Grocery in Drayton Plains.  
The first check from this county of \$1000.00 was sent to Mr. William Baxter Jr., manager of the Midwestern Branch of the American National Red Cross, by air mail last Monday evening. Amounts have been turned into the office in Pontiac all the way from 38 cents given by a little girl of eight whose grandparents have had to move out of their home in New England—this was her spending money for the remainder of the month—up to \$100.00.  
Do your best to help the needy in these flood-stricken areas.

## A Tribute

My acquaintance with the late Earl Walter began in Sept. 1922, when my pastorate in the Methodist church at Clarkston began. That was the beginning of a friendship that has grown and ripened with the passing years.

Soon after our first meeting, I found that my friend's life was largely wrapped up in three dominant interests: His home and family; his church, and the educational interests in his community. To each one of these he gave his best without reserve. And thus he made an investment in the higher values of life that has yielded large returns in Christian culture, moral power and spiritual health.  
As his former pastor for six years, it is but fitting to say that in all my ministry, I have never had finer cooperation and support than that which he gave. He always had time for church activities, despite the long days demanded by his regular work. Other, not self was the supreme motive of his life. "He saved others; himself he could not save."  
Measured by days, his life was comparatively short; but measured by deeds and helpful service how full and far-reaching it is!  
"We live in deeds, not years; in thoughts, not breaths; in feelings, not in figures on the dial. We should count time by heart-throbs. He most lives Who thinks most, feels noblest, acts the best."  
The memory of such a friend is refreshing to the soul, while his life challenges us to fill our days with goodness, helpfulness and usefulness.  
Edwin Stephens, Pastor Methodist Church Stockbridge.

## Holly Theatre

One of the most powerful and beautiful love stories ever filmed reaches the screen of the Holly Theatre Sunday, when Samuel Goldwyn's production, "The Dark Angel", starring Fredric March, Merle Oberon and Herbert Marshall begins a two-day engagement.  
Adapted from a play by Guy Bolton, the screen play of "The Dark Angel" was prepared by Lillian Hellman, author of the smash Broadway stage hit, "The Children's Hour", and Mordaunt Shairp, who will be remembered for his stage success, "The Green Bay Tree".  
The story which is set in a quiet corner of lovely rural England follows the lives of a woman, Kitty Vane (Merle Oberon), and two men, Alan Trent (Fredric March) and Gerald Shamon (Herbert Marshall). Since childhood, Kitty has adored Alan, and Gerald has adored Kitty. The War takes both men and in the trenches there comes to Alan the realization of his love for Kitty. Home on leave, he tells her of his love, but their plans to marry are shattered by a sudden call cancelling all leaves.  
When Alan is reported killed, Kitty's life is broken. After the War, she becomes engaged to Gerald, but in the eleventh hour Fate steps in and the dream of her life is fulfilled in a gloriously happy ending.  
"The Dark Angel" was directed by Sidney Franklin for release through United Artists.  
Prominent in the imposing supporting cast are Janet Begcher, John Halliday, Henrietta Crossman, Frieda Inescort, Claude Allister, George Breakston, David Torrence, Cora Sue Collins and others.

## Emergency Crop Loans Now Being Received

Application for emergency crop loans for 1936 are now being received at the Resettlement Office, 911 Peoples State Bank Building, Pontiac, by Wade H. Morrow, field supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.  
The emergency crop loans will be made only to farmers who cannot obtain credit from any other source, as provided by regulations issued by the Governor of the Farm Credit Administration. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1936 crops and in no instance may exceed \$200 to one farmer.  
Farmers are not eligible for emergency crop loans if they can borrow from an individual, production credit association, bank or other concern. Farmers will also be considered ineligible if they have an application pending with Resettlement Administration, have received assistance from that organization this year or are indebted to the Resettlement Administration for an unpaid loan.  
As in the past, the security for an emergency crop loan will consist of a first lien on the crop financed. Landlord or others having an interest in the crop to be financed will be required to waive their claims in favor of a lien to the Governor of the Farm Credit Administration until the emergency crop loan is repaid.  
Checks in payment of approved loans will be issued by the Regional Emergency Crop and Feed Loan Office at St. Paul, Minnesota.

Peach Growers:  
It is time to spray for curl leaf. As soon as you can get on the soil when the temperature is above freezing, spray with 5 to 7½ gal. liquid lime-sulphur in water to make 100 gal. solution. Make a thorough application. (If you have scale use 12½ gal. liquid lime-sulphur.) Indications are that there is not enough scale to warrant the use of 12½ gal. liquid lime-sulphur nor enough red mite eggs on peaches to warrant a combined oil and fungicide spray this spring. If you have not pruned the peach trees, do not do it until they bloom. Then you should know how much or how little to prune. Nitrogen fertilizer should be applied as soon as frost is out of the ground. Drain sprayer outfit every night as long as we are likely to have freezing weather.

*gives economy without equal!*

Every test proves it's more economical . . . Every Chevrolet owner knows it's more economical . . . And every person will readily understand these simple A-B-C reasons why it is more economical

**CHEVROLET**

A GENERAL MOTORS VALUE

The Chevrolet engine is the most economical automobile engine produced today, because (1) it is a six-cylinder engine, and (2) it is a valve-in-head six-cylinder engine.

Its six cylinders use less gas and oil—in fact, use the least gas and oil—for six cylinders are the most economical combination used in modern automobiles.

NEW PERFECTED HYDRAULIC BRAKES . . . IMPROVED GLIDING KNEE-ACTION RIDE\* . . . SHOCKPROOF STEERING\* . . . GENUINE FISHER NO DRAFT VENTILATION . . . SOLID STEEL one-piece TURRET TOP BODIES . . . HIGH-COMPRESSION VALVE-IN-HEAD ENGINE . . . 6% NEW MONEY-SAVING G.M.A.C. TIME PAYMENT PLAN. Compare Chevrolet's low delivered prices and low monthly payments. Chevrolet Motor Company, Detroit, Michigan.

**\$495** AND UP. List price of New Standard Coupe at Flint, Michigan. With bumpers, spare tire and tire lock, the list price is \$20 additional. \*Knee-Action on Master Models only, \$20 additional. Prices quoted in this advertisement are list at Flint, Mich., and subject to change without notice.

Its valve-in-head design cuts gasoline consumption still lower because there is less loss of heat through the walls of the combustion chamber in valve-in-head engines, and the advanced construction of the Chevrolet engine gives maximum heat (or power) saving.

Most important of all, Chevrolet's more efficient cooling system, pressure stream oiling and the greater accessibility of all working parts result in more dependable operation, over a longer period of time, with the lowest maintenance costs. Thus, Chevrolet's valve-in-head engine—only one of its kind in Chevrolet's price range—gives economy without equal.

Believe it or not, the sophomores had their party too, only something must have gotten mixed up, for they had hamburgers and escalloped spuds instead of flapjacks and sausages. Anyways, the party was a success???

Parties, parties and more parties. First it was the Epworth League, and then the Sophomores, and now if it isn't the Seniors. Oh well I guess it's party weather. Did I hear some one suggest a SWIMMING party? Into the mill pond with him boys! Heave Ho! Kerplund! Splash! etc. etc. (Boy how did you like the sound effects?)

Did you hear of the new game all the social elite are playing? It is called "Monopoly". In it you can buy out a whole town, even own the streets, the unlucky individuals paying rent and what not. It is very really, stately and is ever so much fun. It has you thinking you are a big business shark but even more so that you should employ a business manager or something.

Most any afternoon now after four o'clock you can go down to the gym and see the boys going "round and round" getting in trim for track

season which we hope will be a big one for us.

Extra! Added attraction!! Talkies have come to the C. H. S. movietorium, the program was sponsored by the seniors and the movie menu consisted mainly of "Mrs. Wiggs of the Cabbage Patch" and "The Passion Play", both of which everyone enjoyed. Four machines and two operators were brought from Detroit to insure a good picture for everyone. The Orpheum had better get busy for C. H. S. is running it stiff competition.

The Epworth League had their party Friday last and guess what was on the menu ICE CREAM! yep genuine ice cream, and chocolate cookies and cake, and candy!

Speaking of ice cream reminds us of spring, for fact most everything does nowadays, and spring reminds us of grass fires. By the way, maybe the school authorities had better get the fire extinguishers ready, because somebody might try to kill two birds with one stone.

**Big Joke!**  
 A class in English was given the task of writing 4 lines of dramatic poetry. The results were various, and selecting the verse of an unusually bright boy (Basil Tucker), the teacher read:

"A boy was walking down the track,  
 The train was coming fast;  
 The boy stepped off the railroad track

To let the train go past."  
 "This verse is very well done," said the teacher "but it lacks drama. Try again Basil (Tucker), and make it more dramatic." Whereupon, in a surprisingly short time, Basil produced the following verse:

"A boy was walking down the track,  
 The train was coming fast,  
 The train jumped off the railroad track

To let the boy go past."  
 Dupee (Freshman): "How do you like my room as a whole?"  
 Don (Senior): "As a hole it's fine, as a room—not so good."

Mr. Waters: "If there are any dumbbells in the room, please stand up."  
 A long pause and then a lone Junior stood up.

Mr. Waters: "What do you consider yourself a dumbbell?"  
 Durward A.: "Well, not exactly that, Sir, but I hate to see you standing all alone."

**ATHLETIC BANQUET**  
 On Friday, March 27, the Clarkston High School Athletic Association is sponsoring a banquet in honor of the Athletes of the High School, both boys and girls.

The preparation and serving is being directed by Miss Walton of the Domestic Science department.

An excellent speaker has been secured for the evening. Mr. David Holmes, the Athletic Director of Wayne University, will be present and will feature the entertainment. Mr. Holmes' particular interest is in track, and his subject will include

the Olympic games and some excellent films of which he will show.

It is hoped that the student body will give the sponsors of it whole-hearted support; however, friends and relatives of the players are welcome to attend. Tickets can still be secured from Mr. Waters.

**MRS. ROCKWELL'S ROOM**  
 Children neither tardy nor absent during our last month were: Jerry Houser, John Ronk, Alberta Dillenbeck, Bobby Weid, Betty Beardsley, Joan Fuller, Ronald Jones, Frank Ronk and James Rowland.

## "Establish Your Credit Before the Need Arises"

Credit is invariably required either to seize opportunities or to meet emergencies, and emergencies are more easily overcome by those who have adopted a far-sighted credit policy.

## The "Other Side" of the St. Lawrence Waterway

THE ST. LAWRENCE Seaway rejected by the U. S. Senate in 1934 on its imagined navigation merits is being stirred into life again with its electric power phases blithely offered as a co-equally important argument. But in neither respect is the seaway needed.

VIEWED as a transportation agency, we already have a lakes-to-the sea route. On it can be, is being, economically borne all the products for which America can find world markets. (Our railroads with their 50% surplus of equipment can handle all traffic given them, now and through the coming generations.)

IT WILL create no new markets, nor new traffic. It is simply a new shipping route, diverting traffic from existing transit agencies. It will function only in summer when railroad efficiency is greatest and need of it would be the least. It will be idle five months each winter when need of it would be greatest.

IT WILL not benefit the auto industry; or the wheat farmer; or bring farm relief; or aid employment; or "cure the depression". It will shorten no trade routes. It has no military value.

VIEWED for its power (half of which belongs to Canada) again the seaway is not needed. The region cannot absorb the vast surplus of harnessed hydro power it now has. The seaway is so remote from consuming (but disinterested) markets that transmission costs would make the new power—as it does present power—so costly as to be unsaleable.

TO ABSORB the contemplated power an industrial district twice as large as Detroit's must be built adjoining the seaway. Without such a nearby market the power and the immense cost of its development would be wasted.

LASTLY, we must furnish the bulk of the new money needed for a project benefiting another nation more than our own and lying more largely in another's territory than in the United States.

FACT, not fancy and emotionalism, should influence our consideration of the seaway. And the fact is America has come to know it as a project that is economically unsound.

ALL HONOR TO THE PAINTING OF REMBRANDT... but Cooking too is a Fine Art!
At the Autumn Salon of 1927 of l'Institut de France, the art of cooking was officially recognized along with painting, literature and sculpture as one of the Fine Arts.
Two great contributions to the world's Fine Arts are credited to Holland: the work of the immortal Rembrandt in the field of painting, and the Dutch Oven in the field of cooking. Rembrandt is dead, but the principle of the Dutch Oven lives on... in the finest cooking equipment available today: the electric stove.
\* \* And countless women who are artists in their own right, whose genius is that of the born cook, give grateful thanks. For without this principle of the Dutch Oven, the principle of sealed-in flavor that lends an added deliciousness to cooked foods, meals would be far less enjoyable and the world of cooking would suffer a real loss. \* \* And the touch of magic that transforms plain, homely ingredients into fascinating, delectable dishes... the skill and talent that thousands of housewives wield in the kitchen to make daily meals a pleasure... these have been aided inestimably by the modern electric stove. It is an invention that reduces difficulties and multiplies achievements. It is a help that no woman who prides herself on her fine cooking would willingly be without. And its price today is well within reach of even the modest home.

REMBRANDT VAN RIJN, the famous Dutch painter, was born in Leiden in 1606. A poet as well as a painter, an idealist and also a realist, an artist whose intense humanity is revealed in his profound sympathy with his subjects, he has often been called—because of his dramatic action and mastery of expression—"the Shakespeare of Holland." His subtle color, and the boldness of his evocation of light and shade, are characteristic of his work. In the early years of his life, he devoted himself to painting, and etching the people around him, the beggars and cripples, every picturesque face and form he could find. During his lifetime, he painted some fifty portraits of himself, and the number of pictures known to have come from his own hand total about 100.
