COMMENT AND CRITICISM

It seems to be a settled fact that the political policy of Michigan is unsettled. In this presidential campaign, Michigan is considered doubtful. Both prominent parties claim the electoral vote and both parties are working everything known to the trade to make good the claim. Anyway the latest reports are that both the President and Gov. Landon are to visit and actively campaign in Michigan. Can it be that a Royal Oak Resident, backing a third party is creating this doubt.

For interesting reading, we suggest an impartial, independent, political article in this week's Saturday Evening Post, entitled "We hire a cook and a Congressman". The checking of the family relations of the applicant for the position of cook; why she wants the job; whether, if married, she and her husband are getting along; and references as to whether she wastes food or not; and especially whether she "totes" food home is really a good lesson in how to hire a cook. On the other hand the easy way the candidate for congress is accepted, in spite of the fact that he has been wasteful during his many years in congress, in spite of the fact that he has toted jobs to everyone in his family, in spite of the fact that he has wasted millions trying to run private business when he was not competent to have a business of his own, makes a good lesson in how to choose a public servant. To remove any question of the New or old deal the particular M. C. is up for reelection. It is just a good story with a moral—and how.

Just for the sake of the record, let us here mention that the first visitor to the News to call by aeroplane landed on the evening of Saturday last. And to continue the record let us also mention that the visitor was Richard Seeterlin.

It has been decided during the life of the United States that it would be a National Disgrace to impeach a President. Regardless then, of our personal opinions, and remembering that there are always two sides to the question (in fact we even have three sides this year) we believe that any political speaker speaks out of turn and forgetting his country speaks only thru selfish interest when he refers to the President as a Liar and later as a Communist.

What might have been a large fire was prevented one day last week when the Mosher family on the Bushman farm discovered a fire in the Bushman huckleberry marsh. Help was summoned from men working in the fields nearby and the fire was extinguished. This swamp also covers land on the Beardslee and Shoppes farms.

Robert Beardslee discovered dogs in the E. V. Bailey flock of sheep at Crooked Lake on Saturday. He called for help and some men hunted the dogs but they got away. It is not known just what the damage will be as the injured sheep fled into the swamps and marshes around the pasture.

PUSH COLLECTION OF DELINQUENT TAXES

Another state-wide advertising campaign is on this month to encourage collection of delinquent taxes. A similar effort last year was so successful that the State Administrative Board ordered another this year. It is being handled by Milton Alexander, of Detroit, nationally known advertising man who had charge of last year's drive.

This year's drive will urge the taxpayers who are on the "ten-year plan" to make their second payments before September 1st in order to keep their tax records clear and avoid penalties. It will also persuade those not yet on the "ten-year plan" to come under it. Finally, it will point out that due to improved business conditions or distribution of the soldiers' bonus, many taxpayers are now in a position to pay up their remaining balances on the "ten-year plan" so as to save themselves 8% to 36% interest on future payments.

Famous Musicians Meet at Interlochen

Rev. and Mrs. C. E. Edwards Will Hear Some of the Concerts

Those who have never attended any of the concerts at Interlochen have often wondered just what artists were presented there. Many in Clarkston have enjoyed hearing Rev. and Mrs. C. E. Edwards tell of the different musical treats they have had there. This week the News received the program to be presented during the next two weeks and we are quite sure that our readers will be interested in knowing just what Rev. and Mrs. Edwards might be hearing.

Musicians attending the National Music Camp at Interlochen are preparing for one of the most outstanding two-week series of concerts ever attempted in the camp's eight-year history.

The American Bandmasters' Association will convene Aug. 6-9, and will include a number of leading American and Canadian band directors. Already the following have announced they will take part in the convention program: Frank Simon, director of the famous Arma Band; Glenn Cliffe Bainum, director of the Northwestern University Band; Herbert L. Clarke, director of the Long Beach, Cal., Municipal Band; Lieut. J. J. Gagner, director of the Ft. Dodge, Ia., Municipal Band; Capt. Charles O'Neill, director of the Royal 22nd Regiment Band of Quebec, Canada; and Walter M. Smith of Boston, Mass.

Band concerts by the National High School Band, which includes 200 crack musicians from all parts of the country, will play each evening at 8 o'clock during the convention.

Two nights, Aug. 11 and 12, camp members will stage the opera "Faust" under the direction of Robert Korst, voice teacher and opera producer for the Cincinnati Conservatory of Music. The entire libretto will be sung in English.

Sunday, Aug. 16, Dr. Walter Damosch of New York will conduct the National High School Orchestra and the Michigan High School Chorus during the regular weekly broadcast over the NBC network. Although Dr. Damosch has previously directed the National High School Orchestra, this will be his first visit to Interlochen.

Special preparations are being made to accommodate the large number of tourists and resorters expected to fill the network of highways leading to Interlochen. Each year music lovers from all parts of the United States gather in the famous Interlochen Bowl to hear the young high school musicians play their summer concerts.

For Homemakers

To more than 2,000 homemakers in Michigan last year projects in foods and nutrition offered by the extension service of Michigan State College were sufficiently interesting to get the homemakers to make 17,869 changes in practices. Miss Roberta Hershney of the extension service in home economics, explains that a change in practice may mean eating more raw vegetables, using more adequate amounts of milk of learning to plan lower cost meals that are nutritious. The use of foods contain-

ing more iron, for instance, interested members of 318 families, while problems in weight adjustment, both in reducing and gaining were at least partially solved by help given members of 389 families. In 343 families, changes in diets were credited in part with freedom from colds for a year. In general, recommendations include better use of the good products on the farm, with more home use of milk, butter and cheese, and more frequent servings of vegetables and fruits.

DROUTH DAMAGES PASTURE FIELDS

Stock Poisoning May Result; What Should Be Fed

To insure against stock poisoning in drowth damaged pastures, feed suitable grain rations, says A. C. Baltzer, extension dairyman at Michigan State College. Extremely dry weather, he points out, serves to stimulate the formation of prussic and hydrocyanic acids. Voluntary or second growths of cane and sorghum or mixed fields of these plants with sudan grass are the types of feed that most frequently cause stock losses.

Michigan dairymen, aside from pasturing alfalfa and sweet clover heavily in recent years, have often seeded sudan grass and find it extremely satisfactory, especially during the pasture months, but Baltzer points out that occasional stock losses are reported from this plant as well.

A simple grain feeding formula will be cheap insurance against possible pasture poisoning. Mr. Baltzer suggests the rule of summer feeding: one pound of grain daily for each five pounds of a cow's milk production.

Suitable grains in mixtures are made up of corn, wheat, barley or rye. Corn is very satisfactory because of its high starch content. An alkaline condition of the stomach paunch lessens the danger of formation of poisonous acids in the stomach.

"There are no absolute preventive measures against forage or pasture poisoning when the poison is induced by extremely dry weather on otherwise safe pasture plants. Experience indicates the least trouble when feeding grain. There is no practical remedy after a case of hydrocyanic acid poisoning has developed, therefore all precautions to prevent a case from occurring are desirable."

LEGION ZOUAVES IN PUBLIC DRILL

Will Be Feature of State Convention at Lansing

One of the most colorful events of the state American Legion convention to be held in Lansing August 16, 17 and 18, will be a public exhibition drill by the world-famous American Legion Zouaves of Jackson. Under the command of Capt. William Sparks, the Zouaves corps has been in existence for a great many

years and has given exhibitions of drills in all the major capitals of Europe. These exhibitions were staged while the organization was in Paris attending the national convention of the American Legion held in the French capital several years ago.

Capt. Sparks has been mayor of his home city three times and is one of the leading manufacturers of the City of Jackson. Under his command the Zouaves have won five national championships. Additional honors were bestowed upon the organization when it was invited to give an exhibition before the cadets of the United States Military academy at West Point.

While touring Europe, the corps was invited, by special request of Premier Mussolini, to give an exhibition drill at the Military University of Rome. Another feature of their foreign tour was a drill staged in the Invalides in Paris at the request of the French government. This exhibition was sponsored by General Joffre, famous French World War figure.

All the famous formations of the Zouaves will be seen while the organization is attending the convention here and its presence will furnish one of the highlights of the conclave.

CCC workers in Michigan have planted 166,854,000 forest trees during the past three years in Michigan. Up to March 31, they had constructed 5,016 miles of truck trails and built 1,210 miles of telephone lines.

HOLLY THEATRE

Loretta Young and Franchot Tone form a delightful new romantic screen team in Metro-Goldwyn-Mayer's "The Unguarded Hour", showing at the Holly Theatre Sunday.

The new picture, filled with romance, drama and mystery, gives both players an excellent opportunity for their talents.

Moving with lightning speed, the Lawrence Weingarten production concerns a prosecuting attorney who sends men to their doom by his brilliant use of circumstantial evidence. When he is caught by circumstances for a crime he has not committed his wife comes to his aid to save his life.

Both Tone and Miss Young are outstanding in their respective roles as the attorney and the wife.

Roland Young, as the friend of the family, is exceedingly funny, while Lewis Stone is sterling as the head of Scotland Yard.

Others who score in the mystery thriller, directed by Sam Wood, are Robert Greig, Dudley Digges, Jessie Ralph, Aileen Pringle and Henry Daniell.

LUGS FORBIDDEN ON OIL AGGREGATE ROADS

State Highway Commissioner Murray D. Van Wagoner has issued an order to maintenance units throughout the state to erect signs on trunklines surfaced with oil aggregate forbidding machinery equipped with lugs to use them.

This action was the result of damage reported on oil-gravel roads in several parts of the state. A recently completed section of M-150 from Rochester north, in Oakland County, was reported to have suffered particularly. Tractors with lugs were the principle cause of damage, the commissioner said. Maintenance crews will be ordered to watch for violations of the warning signs, and offenders will be apprehended.

"A large part of our farm-to-market highway program provides oil aggregate surfacing—a new dust-proof, inexpensive type," Commissioner Van Wagoner said. "Lugs on farm machinery will damage these roads, and we are taking this step to prevent it."

Although the deer-hunting season is more than three months away, a score of requests for low-number deer-license tags have been received by the Department of Conservation. Most of the numbers from 1 to 20 have been reserved by special request, the number "13" going to C. Hay, of Charlotte. Miss Marian J. Weyant, of Lansing, has asked that the number "16" be reserved for her. Miss Weyant has been hunting since she was 13 years of age and will observe her 18th birthday this year.

Two weeks ago the NEWS published an item which read, "Mrs. Alice Lyons and Miss Chapman of Detroit have rented a part of the south side of the Irish home on North Main Street". This item seems to have been misinterpreted and so to make things clear we wish to state that the part rented consists of two rooms.

Robert Bennett, 12 years old son of Clifford Bennett of Pine Knob Farm, was struck and seriously injured while riding his bicycle on Sashabaw Road on Friday evening. The car that collided with him was driven by a Miss Turner of Davisburg. Robert was taken to Goodrich hospital where he was treated for a serious back injury.

They left here a week ago Sunday and went by way of Toledo and Pittsburgh to Washington and several other points of interest. They went as far south as Mt. On their return trip they visited Albany and many scenic places in New York State arriving at Niagara Falls where they took time to go to Niagara-On-the-Lake and see the old Fort which had been restored in 1925. From here they drove to Goderich, Ontario where they visited friends and relatives before ending their vacation.

Tax-payers:

Your 2nd Payment on 10-Year Plan is Due Sept. 1st

JUST a year ago your state and county officials were engaged in a great drive to encourage the property-owners of Michigan to clear their tax records.

It is estimated that over half a million tax-payers took advantage of the special concessions that were made for their benefit.

Back taxes for 1932 and prior years were put on a ten-year plan, and the first tenth-part was paid. Now the second part, again ten per cent, is due.

You must now make this second payment, with a 4% interest charge, in order to keep the advantage you won by coming under the ten-year plan.

Note:
If you have not yet put your back taxes for 1932 and prior years on the 10-Year Plan there is still time for you to do so.

If, for any reason, you failed to put your taxes for 1932 and prior years on the 10-year plan last year, you can still do so by making the first two payments, with interest at 4%—plus a small additional charge on the payment you missed last year.

By Order of Augmented Administrative Board of State of Michigan
