room-wide light
 MEANS WITH THE NEW THREE-LIGHT LAMP!

Old-fashioned lamps with dark shades and closed tops focused a small pool of bright light in one spot and left the rest of the room in murky shadow. Even when one sat directly under the lamp, the sharp contrast between the light and the surrounding darkness was trying on the eyes. All this has been changed with the modern new 3-light lamp.

A light shade with a light lining—open at both top and bottom—throws a great deal of light into the room. The lamp has a diffusing bowl under the shade, which throws part of the light upward to the ceiling, and this is reflected back and spread over a large area, eliminating harsh shadows and providing roomwide light. The bowl also diffuses the downward light, so that it is soft and pleasant, without glare.

The Sight Meter will show you instantly why this lamp is superior to your present lamps. To guard eyesight and make reading, writing, sewing and other seeing tasks easy and comfortable, choose a 3-light lamp for your living room. You will be amazed at the difference it makes!

Check your home lighting with the SIGHT METER! No charge for this service. Call your nearest Detroit Edison office.

See the New Three-Light Lamp on display at department stores, furniture stores, hardware and electrical dealers, and

Dr. C. E. Marsh and family who have been residents of Ortonville for the past four years will move to Pontiac very soon where they have purchased a home.

Mr. and Mrs. Ronald Walter had as their guests last Sunday Mrs. Charles Lowery and son Richard of Kingston and Mr. and Mrs. Dwight Peck of Ypsilanti.

Mr. and Mrs. C. G. Fiske have had as their guests for the past week Major and Mrs. Addison Crafts and their daughter, Idell of Cape Cod, Mass. Mrs. Crafts and Mrs. Fiske are sisters.

The renovation work on the tower of the Methodist Church has been completed and the workmen are now painting the outside woodwork of the church. It all makes a decided improvement in the appearance of the church.

Mr. and Mrs. Edward O'Roark and Mr. and Mrs. Ben Comstock spent last week-end in Cleveland. They visited the exposition and saw the Legion convention off to a fine start. Their one regret was that they could not stay for the Legion parade, which is always spectacular.

Mr. and Mrs. F. E. Davies and daughter Ruth spent three days last week with friends in and around Pittsburgh. Most of the time Saturday and Sunday was spent sight-seeing and they say that that part of the country is bedecked with beauty right now. Rain has been plentiful as was evidenced by the verdant pastureland and hillsides and crops are abundant, especially the apple crop.

HUNTERS ADVISED AS SEASON NEARS

Notes From the State Conservation Department

Hunters who are training their dogs on wild game must confine their activities to the hours between sunrise and sunset, the department of conservation announces. Raccoon dogs cannot legally be trained on raccoons by night.

Hunters are allowed to train their dogs until the 15th of March, 1937. The law specifically forbids, however, possession of a rifle or shotgun by the hunter training his dog during the closed season on upland game.

The attitude of the department of conservation toward deer hunters who lose their identification tags while in the woods this fall is going to be "stiff-bitted." H. K. Sayre, chief of field administration, said that problems will arise from the new license-tag regulations which will necessarily require strict interpretation and application of the law.

"The hunter who loses his tag will be one of these problems," Sayre stated. "No doubt there will be many of them, unless the tag is securely sewed on so that brush can't take it off. But many hunters will want to change garments; they won't be sewing the tags on the back of their coats.

"When the license tag is lost in the woods, there is only one thing the hunter can do to avoid embarrassment and that is to unload his rifle and quit hunting until a new tag can be obtained. He will be able to get a new tag from the nearest license agent for a fee of 50 cents by surrendering his old deer license and antler tag for new ones. It will not be legal for a hunter to improvise a new tag, even though he uses the correct numerals.

The conservation officer who finds a hunter in the woods without a tag cannot know whether the tag has been removed purposely or accident-

ally; he is not supposed to know. He is obliged to make an arrest."

The first small-game hunting license issued by conservation officer Arthur G. Greer in Calhoun county went to one of the few Michigan hunters who can say he hunted wild turkeys in this state. The applicant was Albert Graham, who will be 87 years old October 30.

In 1869 Graham and his brother shot the last deer in the vicinity of Marengo, but he says his experience in hunting wild turkeys stands out in his memory. His greatest hunting disappointment came after he had stalked a flock of turkeys and his gun failed to fire, he relates. Graham distributed 40 bushels of grain to feeding stations for game and song birds last winter.

AUTUMN DRIVING HAS NEW HAZARDS

Requires Exercise of Caution on Part of Motorists

Autumn driving, according to C. W. Wood, national director of service, Chevrolet Motor Co., has a special set of rules all its own, which should be followed closely for maximum enjoyment of motoring during the next few weeks.

"September and October," said Mr. Wood, "differ in three important respects from the months just preceding. They have a much higher average rainfall, making driving conditions more difficult. Streets and highways are frequently littered with wet leaves, calling for extra precautions. And finally, the colorful autumn scenery lures large numbers of people to the roads.

"For greatest enjoyment of driving under such conditions, all units of the car should be in the best condition. This is especially true of the braking system and the tires, which determine the driver's ability to come to a safe stop. Damp pavements, particularly if they are covered with slippery wet leaves, are no place to

drive with worn-out tires or brakes that are not properly adjusted.

"Factors affecting visibility are extra important in the fall, too. Operation of windshield wipers should be checked, and headlamps and tail lamps adjusted and refocused if necessary, for complete safety night and day, in rain, shine, or fog.

"The prevalence of fog in the autumn justifies special suggestions for safe driving under these conditions. The safe rule for driving, at any time, is 'Keep to speeds at which you can stop your car in the clear space ahead.' The clear space ahead is greatly shortened by fog, of course, and the safe driving speed is

reduced by just that much.

"Two things to remember when driving in fog are: use the utmost caution in overtaking other cars, and drive clear off the highway if you must stop to clean windshield or lamps.

CLARKSTON

Remember Your Home Newspaper

All matters handled thru the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper week by week.
