COMMENT AND CRITICISM

The last of last year the General Motors Corporation gave a pay increase and a bonus. And the strike started about the 1st of January and lasted for many days. Then Chrysler gave a bonus and a pay increase—and their strike has just been settled. And now the Ford Motor Company, it is rumored is going to give an unheard-of minimum pay—and a plugged nickel says that they will have a strike. Of course labor can now show that it wants to be fair and obey the law as expressed in the Wagner act.

Considering the Wagner act is it possible that the Ford Company will by its minimum pay so far exceed any benefits of organizing of the Wagner Act that the act will be about as active as the N. R. A. was.

We like to make money and we like to see others do the same but we are as well pleased that we are not living in Detroit if the expected minimum pay of ten dollars a day is realized. It will be lovely if you work at Ford's but if you do not—that will be something else again.

Anyway we suggest that if you own any lots as near to Detroit as Flint or Lansing that you hold the same for the coming real estate boom in Detroit. People came from the other side of the earth for \$5.00 a day. They will circle the globe for ten dollars a day.

And now comes Congressman Dondero's idea of how to settle the Supreme Court issue. Take the whole thing out of politics—leave the number at nine—and if a change is desired, let the people change the provisions, by constitutional amendment.

Does your mind recall the first time the State charged three cents a gallon for gasoline to pay for good roads? We needed good roads so we said nothing. Then it was necessary to raise the price for an emergency—and that emergency, whatever it was, still exists. Now a proposal is in the legislature to increase the sales tax from 3 cents to four, for an emergency. And again our plugged nickel says that the emergency, whatever it is, will be a permanent fixture.

A package of 20 cigarettes can be sold for 10 cents. The tax is six cents. The cost of growing the tobacco, processing, advertising, distributors and retail merchandising is four cents. In 1929 the state legislature got the wise idea (probably an emergency existed) of placing a state tax of one cent on each package. So many users of the weed protested and so many petitions were signed that the tax was killed before it became effective. Of course the above is merely a repeat of history—remember reading about the Boston Tea Party and King George's tax—but it does show that the people can rule—if they want to.

The Fellowship Club of Cedar Lodge F. & A. M. No. 60, has been and is going places this year. Thursday of last week they were in Ferndale, next Wednesday they will be in Holly and the week following they have still another town to visit. In each town it is their duty and pleasure to put on the degree work.

HOLLY THEATRE

The renowned prima donna, Lily Pons, discovers that love is far more valuable to happiness than the fruits of fame as a singing star in "That Girl from Paris", the new sparkling film starring Gene Raymond and Jack Oakie.

Opening at the Holly Theatre Tuesday, "That Girl from Paris" is a gay flimsical offering one of the widest varieties of melodic entertainment ever recorded for a photoplay. Miss Pons sings three "hot" numbers by Arthur Schwartz; a modern interpretation of "The Blue Danube Waltz", "Tarantella" and "Una Voce Poco Fa" from "The Barber of Seville". Jack Oakie sings an original and a "swing" band plays another.

"The Girl from Paris" is the sparkling story of a little French diva, who sheds her mantle of operatic fame and pursues romance incognito. She follows a handsome orchestra leader across the ocean to America where she runs into a series of harrowing adventures with the police, the press and a small army of suitors.

The climax of "That Girl from Paris", an RKO Radio Picture, is a madcap marriage ceremony in a racing automobile, which promises to be one of the most hilarious film dénouements seen on the screen.

April 22nd has been designated as achievement day for the Waterford School. On that day the outstanding work of the students will be exhibited. All of the 4-H work will also be exhibited. Parents are invited to attend the school at any time during the day or to see the work at the P. T. A. meeting.

Friday is the night of the school carnival. Why not come and enjoy an evening away from home? The program starts at 7:30 P. M. and you may enjoy boxing matches, an amateur show, or any of the things that belong in a carnival. We are sure you will find plenty of excitement in the boxing matches. There are three of them featuring:

Richard See vs. Ted Ledger
 Billy Wagner vs. Lester Tomichel
 Harold McFarland vs. Delmont Walter

A door prize will be offered. Let's have a large crowd.

The tenth grade English students are writing essays of not less than two thousand words. Some of the topics that have been chosen are: "Air Progress", "Civilian Conservation Corps", "Crime", "The Dust Bowl", "Strikes", and "The Trailer Problem".

The Chronicles of America photoplay schedule for the remainder of the year is:

April 16—"Daniel Boone"
 April 30—"The Frontier Woman"
 May 14—"Alexander Hamilton"
 May 28—"Dixie"

These pictures will be shown to the upper six grades in the afternoon.

The Wednesday evening show schedule for the remaining few weeks follows:

April 21—"Little Men" and "Dixie Days"
 May 5—"Hoosier Schoolmaster" and "Steven Foster"
 May 19—"Hearts of Humanity" and "Mickey's Surprise"
 June 2—"Man's Best Friend" and "It's a Bud"
 June 9—"Phantom Express" and "Mickey's Champs"

The admission to these talkies is ten cents. The public is invited.

Even though our delegate to the sub-district declamation contest, Arlene McCann, did not receive first place she did a fine job and everyone

was pleased. We imagine she felt a lot better when she looked out at the audience and saw so many of her own school friends. About thirty of them were taken over in the school bus.

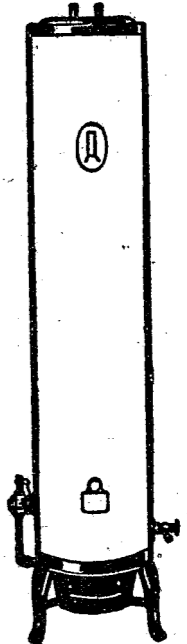

Preparations for the baseball and softball season are under way. Mr. Ross has started training his boys and Mrs. Burt met the girls the other day.

 Adds pleased owner of big, roomy, extra-value Pontiac.

A General Motors Value

All that kept this motorist from buying a Pontiac sooner was the belief that a car so big and beautiful must be very expensive as well. But a check of the facts revealed this truth: *based on 18 months terms in 168 representative cities, the difference in monthly payments between a Pontiac DeLuxe six-2-door sedan and the same model of the next lower-priced car is only 15 cents a day.* That, you'll agree, is little enough to pay for more of everything worthwhile. If you, too, thought Pontiac an expensive car, see your Pontiac dealer. He can quickly prove that America's finest, low-priced car is well within your means.

He can do more—he will show you with facts and figures that Pontiac is one of the most economical cars ever built! PONTIAC MOTOR DIVISION, PONTIAC, MICH. General Motors Sales Corporation

Baseball Schedule

Clarkston has the usual baseball schedule this year which includes one game with each team in the league. Out of the 7 games 4 of them are on our own diamond.

Clarkston at Brighton—April 23
 South Lyon at Clarkston—April 30
 Clarkston at New Hudson—May 7
 Milford at Clarkston—May 11
 Clarkston at Walled Lake—May 14
 Farmington at Clarkston—May 18
 Keego Harbor at Clarkston—May 21

With a little sign of enthusiasm at the games, the boys ought to have a good chance.

Track

At present the boys are getting themselves in condition for the hard schedule ahead of them. Clarkston is looking forward with high hopes for a successful track season.

The interclass meet will be held April 26 and 28. The Juniors are favored to win but they will find the Sophomores giving them stiff competition. The high jump pit will be finished in time for the interclass meet.

Grand Blanc will run here on May 5. Come on over and give the boys some support. They surely are working hard enough!

By the way, the boys get initiated into the track season with a dual track meet at Milford, Wednesday, May 12th.

FACULTY INTERVIEWS

Mrs. Durand

Mrs. Durand, our teacher of High School English, Latin and Public Speaking, received her high school education at Niles, Michigan. She later obtained her A. B. Degree at Kalamazoo College, after taking a 4 year course. This degree carried only a limited certificate, but she obtained a life certificate after teaching three years. The first year of this teaching was spent at Lexington. She then taught at St. Clair before coming to Clarkston directly after our Thanksgiving vacation in 1932. Mrs. Durand has had two years of summer school at Ann Arbor, in which she studied library and speech. Besides teaching the subjects mentioned above, she is the school librarian, directs one of our class plays every year and has had charge of the commencement plans for the last three years. Mrs. Durand is a member of the Phi Kappa Delta sorority, National Honorary Forensic Fraternity, and Eurodelphian Gamma. She tells the students to "Make a definite attempt to use

your own initiative instead of waiting to be directed."

Mrs. Durand

For Friday, April 23:
 3rd hour class—Mary Lindsey, Ruth Olson, Ralph Yost.

4th hour class—Grace Adams, Angeline Marcora, Hamilton Newman.
 The classes are working on pantomimes this week and expect to start one act plays soon.

The 10th grade English class handed in their long themes Wednesday. Some of them are 750 words in length. Imagine a 10th grader writing a 750 word theme!

Mr. Waters

The 9th grade Biology class, in discussing Sanitation, decided that the village dump, being so near town, was located in such a way as to breed germs and undesirable pests. They chose a committee of five people, the chairman, Larry Newman, with Dick Lowrie, Jewell Robitaille, Irene Walz and Laura Robinson. This committee called at the home of Mr. Floyd Andrews to discuss the problem with Mr. Cass Warden and Mr. Andrews Monday evening. Both men wholeheartedly welcomed the enthusiasm and interest of this group. Mr. Warden suggested a prize be given to the best theme written by a member of the committee and offered to give the first prize. Mr. Andrews said he would give the second prize. In order to let people know the campaign is being supported by members of the student body these themes will be printed in the Clarkston paper for 4 weeks. We hope the people of the town will cooperate with this new and interesting project.

Mrs. Strait

The 11th and 12th Home Economics class is starting the study of family relationships.

The 9th and 10th grade girls drafted patterns and cut out slips. They have completed them.

The 8th grade Home Economics class is studying the value of vegetables in the every day diet. The study includes the different vitamins in the vegetables and how the vegetables are helpful when other things are lacking in the diet.

GRADE NEWS

Miss Strom's Room

We have a new pupil, Lois Koroldin, in the first grade.

We are now making a greenhouse in which to transplant the plants which grow from the seeds we have planted in our room. We visited the greenhouse on Sashabaw Road before beginning our work.

Mrs. Rocokwell's Room

Children who won credits in our third grade spell-down on Friday, April 9, were Audrey Weichert, Joyce Scribner, Joyce Lawson, Floyd Marlowe, James Waterbury and Gordon Hemingway.

Those who won credits in the second grade were Denny Warden, Jack Hagen, James Fuller, Katharine LaPlant, Jean Gundry and Doris Boynes.

The children are enjoying their new swings. No one asks to stay inside these days.

Mrs. Beardslee's Room

Our study for the month of April is centered around "Spring's Awakening". The boys and girls have been greatly interested in watching for the signs of Spring—the pussy willows, snakes, toads, rabbits, birds and flowers. We are studying pictures of twenty-five Michigan birds and twenty-five Michigan wild flowers and hope to be able to identify many of them as they make their appearances.

Our art work reflects spring interests as we have made paper cuttings of bird houses, tulips, ducks and toads.

The 4th grade Geography class has just started a unit study on "Mexico". The boys and girls are enjoying the book "Pablo and Petra", the story of a boy and girl of Mexico, by Melicent H. Lee. The Michigan State Library has loaned us a collection of pictures of Mexican people, products, industries and geographical features.

10th Grade Class Party

"Did we ever have fun?" "Sure,

at the 10th grade class party Friday Night." At least these were the remarks of those who attended. A cooperative dinner was thoroughly enjoyed at seven o'clock and this was followed by games in the gymnasium. One of the games played was spin the bottle, at which Howard Boynes seemed to excel. It seems that Harriett-Beckman was mad and still is because a few of the boys left early, not mentioning who, of course. We also noticed that Betty Clark calmed down slightly (those at the party know what I mean) when so and so arrived. The Virginia Reel left many of those present with headaches and sore arms. By the way, it was an invitation party. Thirty guests attended and all enjoyed the evening of entertainment.

Through the Key-hole

Everyone has been taking headache tablets this week. Why? This is test week.

Basil Tucker and Angie Marcora have been going around and around these days.

The swings are up—much to the High School students' pleasure. Bill Cole likes to hitch-hike here and there, every now and then.

Many inquiries have been made by a mighty Senior about Max Souly as to where he lives, his age, etc.

King McIntyre after writing half of his test raised his hand and asked Mrs. Walter if he could use abbreviations to save time in a certain question. When Mrs. Walter replied that he might King got out his eraser erased some words and wrote the abbreviations for them.

The 10th graders played the well-known game of "Spin the Bottle" at their party the other night.

Marie Tremper had quite a time trying to convince the students that she really had lost her voice and wasn't fooling.

What two Juniors have been writing so many notes that the typewriters are showing signs of wear?

Kathleen Johnson can ride down a hill on a bike without touching the handle bars—of course Stan does the steering.

Bud Irish and Lorraine Harder enjoyed "Waikiki Wedding" last Sunday afternoon.

Many of the girls are wearing white shoes. This is a sign of spring, we hope.

Laura Robinson brings her collection of artificial cats and dogs, one by one, to school every day. Each one is of different variety.

The octette is practicing the new Farewell Song that is to be sung by the Seniors at graduation. Violet Coy can't help but put—the typewriter just won't behave. George Dupee has to hang on to his lunch, hook, line and sinker for the girls are determined to eat it for him.

Hunting For a Frozen Caveman

An article in The American Weekly with the April 18 issue of The Detroit Sunday Times discloses that scientists hope to solve many mysteries of humanity's past if Russia's expedition to the Siberian marshes, which have not thawed out for 20,000 years, meets with success.

By actual meter test:

Here*

is what electric cooking costs!

COST OF OPERATING AN ELECTRIC RANGE

Family of 4 **\$1.85** per month

* This figure is a 4-month's average (October, November, December and January) of actual cooking costs in families of four persons, at the rate of 2 1/4 cents (net) per kWhr. Special record meters were installed on these customers' ranges, and the above figure is the result. It shows a cooking cost of about half a cent a meal a person. This is an AVERAGE of the cost figures obtained. Some of the actual costs were higher, some were lower. These figures are obtained under everyday working conditions in ordinary kitchens. . . . the ranges are used by women cooking meals daily for families of three, four and five people, or larger. In the survey, 5 well-known makes and 9 different models of electric ranges were included. These tests prove conclusively that electric cooking is not expensive. 10,000 of your neighbors chose electric cooking during the year 1936. SEE THE NEW ELECTRIC RANGES ON DISPLAY AT DEPARTMENT STORES, ELECTRICAL DEALERS, AND THE DETROIT EDISON COMPANY.

Spirit of Service

A SERVICE that is vital to public welfare puts a special responsibility on those who supply it. Many workers recognize such an obligation. And they include the 8500 men and women behind your telephone in Michigan.

Time and again telephone employees have shown self-sacrifice in the public interest, have faced danger with courage and perseverance. The operator choosing to stay at her switchboard during fire or flood; the plant man maintaining circuits in a heavy storm—their devotion to duty has become a tradition.

Emergencies bring them to your attention, but their spirit of service is in effect day and night, week in and week out. They know the public importance of their work. And they do it well—with skill, promptness and courtesy.

Without that spirit, Michigan would not have the kind of service it is getting today—as fine telephone service as there is available anywhere in the world.
