COMMENT AND CRITICISM

The question of the age of Justices of the Supreme Court has raised a question in our minds as to the most valuable years of a person's life. Our research department has produced the following facts. Not that they settle anything but they give you something to think about.

Alexander had conquered the known world and was dead at thirty.

Napoleon was twenty-seven when he was appointed to the command of the Army of Italy, and thirty-five when he crowned himself Emperor of the French.

Alexander Hamilton was aide-de-camp of Washington at twenty, and at thirty-two was first Secretary of the Treasury.

George Washington was sent by his Colony as ambassador to the French commandant in his first twenties.

Patrick Henry was but twenty-seven years old when he made his famous speech against the Stamp Act.

Thomas Jefferson was thirty-three when he drafted the Declaration of Independence.

Martin Luther at twenty-nine wrote the manifesto that led to the Reformation.

John Calvin was twenty-six when he wrote "The Institutes of Theology".

Poe was doing his best work at twenty-five.

Verdi had reached the age of 85 when he produced his most encouraging masterpieces, including "Ave Maria".

Titian painted his "Battle of Lepanto" when he was 93 years old.

Goethe finished the second part of "Faust" when he was 80.

Benjamin Franklin was 83 years old when he served as maker of the Constitution.

Gladstone at 83 began his fourth term as Prime Minister of Great Britain, and at 87 was still making speeches.

Oliver Wendell Holmes, father of the late Justice Holmes who died at 92, wrote "Over the Teacups" at the age of 79.

Immanuel Kant wrote his finest works at 73, including his "Metaphysics of Ethics".

Tennyson wrote "Crossing the Bar" when he was 83 years old.

Michelangelo painted "The Last Supper" at the age of 66, and was building St. Peter's in Rome when he died at the age of 89.

Commodore Vanderbilt accumulated 100 million dollars after he was 70 years old.

Cato, the Roman, began to study Greek when he was 80.

The average man of 80 is only 50 per cent slower than the average man at 40. Many men at 40 are slower than others at 80.

Contract Club Entered Wednesday

On Wednesday Mrs. D. M. Winn entertained her club at a dessert bridge at her home.

Snap-dragons made a very colorful centerpiece for the dining table at which the dessert was served.

The honors for the afternoon went to Mrs. Walter Barrows and Mrs. Bradley Miller.

This Time Mother Didn't Know Best

An article in The American Weekly with the April 25 issue of The Detroit Sunday Times tells of a rich woman who thought her son would not be so susceptible to women after familiarity with the beauties of Hollywood... But two divorces and other headaches show that the cure isn't working.

Clarkston P. T. A. Had Fine Meeting

N. Gray of Pontiac Was the Guest Speaker

On Wednesday evening a fairly large crowd attended the regular P. T. A. meeting at the school in spite of the rainy weather.

A short business meeting was held and committee reports showed a gain in membership.

The High School Orchestra was on the job and delighted the audience with some very pretty numbers. Little Bruce Henderson played a couple of piano selections and everyone was amazed to see a little six year old play so well after having taken only six piano lessons. A High school sextet received great applause when they appeared in old fashioned costumes and sang two, sweet, old songs. The men's quartet sang two pleasing numbers.

Mrs. L. Durand gave a short talk on the value of good books and drew attention to the new library books which were on display. She thanked everyone who had helped make the purchase of the books possible. Mrs. L. F. Walter in her usual sweet manner sang a very pretty song. She was accompanied by Mrs. F. Perrin.

Lewis Warden again capably led the community singing.

Henry Woolfenden, vice president of the P. T. A., introduced the guest of the evening Neale Gray of Pontiac. Mr. Gray gave a travel talk on Mexico and he made his talk more interesting by showing pictures he had taken while on his trip.

The meeting was dismissed at about ten o'clock.

Spring Fishing Is Nearing Its End In Inland Lakes

LAST DAY IS APRIL 30

Good Trout Season Is Anticipated; Other News to Interest Sportsmen

Friday, April 30, is the last day of legal fishing this spring in all the inland lakes in Michigan, except a number of designated pike and trout lakes.

The designated pike lakes are open the year around to fishing for all species of fish on which there is an open season and the trout lakes, which closed Labor day, re-open Saturday, April 24. The lakes that close April 30 will open when bass fishing becomes legal June 25.

Information that bright prospects for a successful trout-fishing season are in evidence will be welcomed by Holly lovers of the sport.

It is reported that more trout are evident in the streams than in many seasons past and that the 1937 trout season will be the best in years.

Barring late heavy rains it is expected the trout streams will be at about their normal spring levels. Except that they might impair fishing on opening day, however, heavy rains would be beneficial to the streams this month by helping to distribute the trout over their summer range, authorities say.

The spring months offer a good opportunity for sportsmen to reduce the supply of obnoxious fish in their favorite lakes by organizing night parties and spearing them with artificial light, conservation authorities say.

Carp, dogfish and garpike spawn on a rising water temperature and may be speared in large numbers at certain times from as early as the latter part of April until in June.

Night spearing parties by artificial light for the purpose of taking obnoxious fish are legal so long as the event and those participating are approved by the local conservation officer by permit or he is personally present to assist in the work.

The state now has approximately 1,200 ringnecked pheasants as "breeders" at its game farm about 20 miles south of Lansing. The great majority of these birds are hens, but it is expected that the hens will lay an average of around 40 eggs this spring for free distribution and game farm use. No additional requests for free pheasant eggs are being granted by state game authorities as this year's probable supply has been entirely spoken for.

EVENT ARRANGED TO HONOR PONTIAC TEACHER

Invitations have been mailed to former pupils of Sarah McCarroll to attend a luncheon given in her honor at the Hotel Roosevelt, Pontiac, on Saturday, May 1, at one o'clock.

The mailing list being somewhat incomplete, it is hoped that all students and friends of Miss McCarroll will attend this luncheon, and by their presence, express an appreciation of the work done by her in this community.

Mrs. Charlotte Monroe Osmun, chairman of the committee on arrangements, urges all who conveniently can, to send reservations to her home, 350 West Huron Street, Pontiac. Failure to do so, however, should not deter anyone from attending.

MANY DRIVER'S LICENSES WILL EXPIRE THIS YEAR

On the heels of his recent announcement of a drive by police of Michigan against unlicensed operators of motor vehicles, Leon D. Case, Secretary of State, points out that nearly 100,000 such licenses will expire during the next nine months. The exact figure is 688,434.

Licenses cost \$1 and are good for three years. They are issued as provided in the Uniform Operators' and Chauffeurs' act of 1931, the result being that every third year following that date, the bulk of operators' licenses expire.

Secretary Case points out that a driver whose license has expired is no different, in the eyes of the law, than one who never had a license at all, and that the only way to make certain of an operator's license is for everyone to check his own expiration date at once. It is printed on every license.

All applications for operators' licenses must be approved by the chief of police if the applicant lives in a city or village having a chief of police, or by the sheriff, if the applicant lives elsewhere.

 The 8th grade class is making luncheon breads such as corn bread.
 The 7th grade girls have just finished making cotton slips and are now starting cotton blouses.
 The 9th and 10th grade classes have just finished quite an extensive study on selecting clothing to suit the individual. Things such as suitable colors, lines, design, collars to harmonize with the shape of the face, and other good points to be emphasized.

The Home Economics club has made definite plans to send six girls to Detroit for the Saturday meetings of the convention of the State High School and College Home Economics clubs. The meetings will be at the Statler Hotel in Detroit on April 30th and May 1st. Several girls other than the delegates are going to find what the other clubs in the state are doing.

GRADE NEWS

Mrs. Rockwell's Room

Children who were neither tardy nor absent during the last month were Marjorie Collins, Barbara Craven, Ruth Davies, Marion Skinner, Lorraine Pinchback, Ida Mae Slieff, Mary Marmon, Ronald Jones, Joyce Lawson, Floyd Marlowe, Joyce Scribner and James Waterbury.

Third grade children who won credits in our spell-down on Friday, April 16, were Frank Ronk, James Waterbury, Floyd Marlowe, Joyce Lawson, Frances Molter and Audrey Weichert.

Second grade children who won credits in the spell-down were Dennis Warden, James Fuller, Kenneth Hempstead, Clayton Ross, Katharine La Plant and Mary Marmon.

Mrs. Vliet's Room

Monday, the 5th grade started on a long trip. Our destination is Australia and we are busy collecting pictures and writing descriptions of places visited. These will be kept in a big scrapbook which will be given to some member of the class at the end of the year.

Twenty of our boys and girls have collected and mounted an exhibit of products from the "Spice Islands". Billy Radoye is librarian this week.

Mrs. Beardslee's Room

We have learned a group of Nature songs. Some of the titles are "April", "Spring Song", "Ducks Go Walking", "Wind Song" and "The Shell".

One border in our room consists of "Blackbird" posters made by the third grade. The other border is made up of "Bird Bath" posters by the fourth grade. The boys and girls enjoy making free-hand cuttings of birds, flowers and insects.

Some of the stories we read for enjoyment are from "Child Life", "Wee Wisdom", "St. Nicholas" and "Play Time" magazines which are published especially for boys and girls.

We have a new pupil in the 4th grade—Phyllis Markle, who was transferred from the Pontiac Baldwin School.

Ross Kerton, Jackie Tee and Walter La Plant have perfect attendance records of the year having been neither tardy nor absent.

MOVIES

Thursday, April 15, the motion picture story of "Daniel Boone" was presented in the High School Auditorium.

There are three more movies to be presented before the schedule for this year is completed. These movies are: April 29, "The Frontier Woman"; May 13, "Alexander Hamilton"; May 25, "Dixie".

ASSEMBLY

Friday, April 16, an assembly was held in the English room for the purpose of presenting athletic awards for boys' and girls' basketball. Miss

Wellington and Mr. Waters presented the certificates. Mr. Bauer, Mr. Waters, Mrs. Walter and Mrs. Durand all gave pep talks for baseball and track and pledged were made to support those two sports.

Peeping Through the Key-hole

The general rumor nowadays is that the teachers had a meeting and decided to check up on the students as to their whereabouts when they have signed out and the students are grumbling and don't think it's a bit fair because this is supposed to be the land of the "free". On the front of his sweater, Charles Jenkins has the cutest little red Scottie which all the girls are after—Genevieve Beardslee, Louise Gulick, Eleanor Baynes, Max Souby and Milton Fiske were at the Masonic Temple last Sunday night enjoying Nelson Eddy's concert.

The Public Speaking classes have been giving one-act plays and pantomimes so if you see someone using the hand language don't think anything of it—Clinton Russell became the father of triplets the other day but in pantomime only—Side-burns must strike the feminine hearts, as George Dupee went riding with five girls the other day without an escort—Perfect harmony has been acquired by Evelyn Walz and Durward Ash as to their laughter in type class—Angie Marcora and Basil Tucker, Mildred Butters and Duane Hursfall, Violet Coy and Bill Farley, June Dunston and Jim Farley, Genevieve Beardslee and Bill Parker, Hilda Barnett and Keith Lowrie were at the opening of Walled Lake, last Friday night—Clark Souby, Lester Spencer, and Bart Mann were seen at Holly on the same night—Some secret conferences have been held in two-ones lately including Violet Coy and Don Batzloff at noon hours, Kenney Wainman and Harriet Beckman in the halls, Betty Jean Clark and Bill Wilson walking home from school, Earl Lawson and Betty June Wright out on that evening date—Gus Yost puts his typing aside when guests beckon to him from the outside window—Before each speed test Mr. Bauer says "Warm up", but what will he do when summer comes? Perhaps by then it will be "Cool off".

For Homemakers

Depending upon the construction of the household refrigerator, placement of food is one of the most important points in proper food preservation.

In a mechanical refrigerator or in a "side icer" the coldest place is directly underneath the unit. In the "overhead" ice refrigerator the middle of the top shelf is the coldest as a result of the bathing currents of cold air dropping down from the ice chamber. The sides of the lower shelves receive the warmed air which is travelling back to the ice unit.

Thus, foods that are delicate and absorb odors—milk, butter, cream, meat broths and moist cooked foods such as custards and cream sauces should be placed in clean, covered containers directly under the ice unit, suggests Miss Helen Baeder of the Michigan State College foods and nutrition department.

Leftovers and uncooked meats that have had the paper wrappers removed should have the next coldest place. Fish placed in a tightly covered vessel to prevent odors should also be kept in this compartment.

Between the coldest and warmest

area come the eggs and cheese. Fruits and vegetables, however, should be placed on the warmest shelf to avoid harmful and injurious low temperatures. All foods with strong odors should be placed in the warmest place. In this way the warm air on its return to the cooling unit will deposit the odors on the ice or frost rather than on other foods that will absorb and become tainted by the odors.

The length of time necessary to leave the refrigerator door open may be reduced by placing the least used foods at the back. Temperature may also be kept down by keeping the refrigerator defrosted, or the ice chest half full.

HOLLY THEATRE

The tenderest romance of our time lives again on the screen when "Seventh Heaven" open next Tuesday at the Holly Theatre, with Simone Simon and James Stewart in the starring roles.

Adapted from a stage play, "Seventh Heaven" re-creates for screen audiences that star-crossed pair of Montmartre, Diane and Chico.

As the little street waif, Diane, Simone Simon surpasses all hopes expressed for this sensational French screen find, touching the deepest places of your heart and emerging gloriously as the screen's newest and greatest star. Opposite her is James Stewart—tall, laughing, gray-eyed—as Chico of the valiant spirit and the shy, yearning love.

Montmartre, most colorful and exciting of all sections of Paris, serves as the background of "Seventh Heaven". There, in 1914, Chico spends his days working in the huge, subterranean Paris sewer.

Unfortunately for Chico's belief in God, neither of his requests to Heaven has been granted. He has not been made a street-washer, so that he could breathe the clear air of the streets above, and he has not been sent an intelligent, fine wife.

Chico saves Diane from being beaten to death by the owner of the notorious "Hole in the Sock" cafe, who has reared her from childhood. When gendarmes start to arrest Diane for throwing wine in the face of a customer who annoyed her, Chico saves her by posing as her husband. The gendarmes take his name and address, promising to check up on their life from time to time.

Chico finds himself stuck with his story, and is forced to live it out, taking Diane with him to the little garret from which he watches the beauties of the heavens at night, to forget the dank sewer in which he toils all day. When the war comes, and Chico is called to the army, he realizes that he is in love with Diane, and pledges to return to her in spirit at eleven o'clock every day. Diane keeps the trust, even after the government publishes the news that Chico has been killed.

BILL* for the finest cooking that money can buy:

Electric Cooking is not expensive!

COST OF OPERATING AN ELECTRIC RANGE

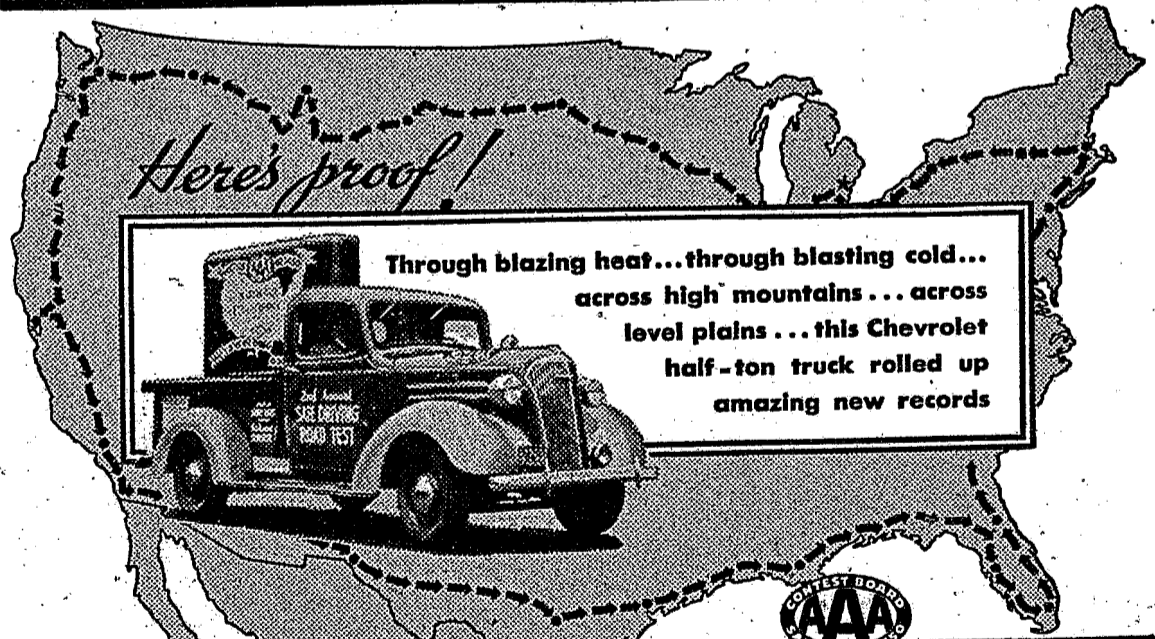

Family of 3 \$1.70 per month

* This figure is a 4-month's average (October, November, December and January) of actual cooking costs in families of three persons, at the rate of 2 3/4 cents (net) per kwhr. Special record meters were installed on these customers' ranges, and the above figure is the result. It shows a cooking cost of about half-a-cent a meal a person. This is an AVERAGE of the cost figures obtained. Some of the actual costs were higher, some were lower.

These figures are obtained under everyday working conditions in ordinary kitchens... the ranges are used by women cooking meals daily for families of three, four and five people, or larger. In the survey, 5 well-known makes and 9 different models of electric ranges were included. These tests prove conclusively that electric cooking is not expensive. 10,000 of your neighbors chose electric cooking during the year 1936. Always on the Job

STREETS are deserted. Homes are dark. Night has wrapped the community in slumber.
In one building, however, a light is still shining. It shines on steadily through the hours of darkness until, at last, the dawn heralds the stir of another day. . . .
That light sums up the eternal vigilance of the telephone. It is truly a beacon of public service, one that stands ready to serve any one, anywhere, any time. And always with the same promptness and skill and courtesy.
All that modern telephone service can mean — all its protection and convenience and comfort — is yours to command twenty-four hours a day. It takes no holidays. It is, in an old familiar phrase, "always on the job."

1937 Ford V-8

● If you think that "all low-price cars cost about the same" — forget it! They don't.
Ford makes a car — a 60-horsepower economy Ford V-8 — that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!
Check delivered prices in your town and see for yourself.
● Of course, first cost doesn't prove "low cost" — you must consider operating cost also.
The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!
Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures — on the open road — in a car provided by the nearest Ford dealer.
● When you've finished your personal check-up, ask yourself:
"Do I want to save money the day I buy my car and every mile I drive it?"
"Do I want a safe, roomy, comfortable car of advanced design — created from the finest materials to the highest precision standards?"
There's only one answer, of course — the 1937 Ford V-8.

Ford V-8 \$529 at Dearborn Factory. Prices Begin at \$529. Transportation charges, State and Federal taxes extra.
This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray.
\$25 A MONTH, after annual down payment, buys any Ford V-8 Car, from any Ford Dealer, anywhere in the U. S. — through Authorized Ford Finance Plans of Universal Credit Co.
