esting Travel Talk

On Tuesday evening the parlors of the M. E. Church were the scene of a gala occasion when the members of tained their husbands at a 6:30 dinner. There were fixty seated at tables tastily decorated with baskets of bittersweet and Michigan holly.

Following-the dinner the group adjourned to the church auditorium where they were joined by the school friends of the individual members as fine program was then enjoyed. King McIntyre very capably played a saxophone solo. His mother, Mrs. A. Mc Intyre played the piano accompaniment. The Perrin twins, Jean and Eugene, sang a pretty number in their usual sweet manner. Their mother Mrs. Frank Perrin accompanied them. Then Dr. H. P. Mellus of Brighton took the audience on an interesting trip by moving pictures. They attended the recent coronation of King George VI and the wedding of Windsor and Wallie; they visited the beautiful city of Venice and then went through Hungary and the city of Budapest.

The Club considers it was fortunate indeed to obtain such talent for a program and the members sincerely nope that it was enjoyed by all.

The next meeting will be at the home of Mrs. C. H. Soulby on Nov.,

# BRIGHTON 13-0

Although the weather was ideal for football, the game proved to be a rather dull affair. Brighton had a heavy team which made it slow. After suffering 5 defeats in a row Clarkston seemed heavy in spirit. Because both teams lacked capable replacements the length of the game was reduced 8 minutes.

Near the end of the first quarter, Brighton completed a long pass in Clarkston territory which resulted in a touchdown. Brighton converted the extra point by a place kick.

During the second and third quarters neither team seemed to enjoy any advantage. The fourth quarter found Clarkston on the defense most of the time. After taking the ball from Brighton on a goal line stand, Clarkston punted out to the 35 yard line. On a sweeping end run Brighton carried the ball to Clarkston's 3 yard line. Lyle Walker brought down the runner saving a touchdown. Lyle was injured on the play and was removed from the game. His efforts availed nothing, however, when two plays later Brighton plunged over for their second touchdown. Brighton attempted to plunge over for the extra point but was unsuccessful. Clarkston chose to receive the kickoff and shortly thereafter the game

# Sunday, Nov. 7

This year Edgar A. Guest is to take part in the Festival of Brotherhood in Christ Church Cranbrook at four o'clock Sunday afternoon, November 7. Carrying the flags of all nations, the children's choirs garbed in red, black, blue and white, and the church school children will participate in the procession which opens this service. As these flags form a complete circle about the church a litany built around the idea of Christian brotherhood is read from the center. At one point in the service all the flags are borne to the altar and raised heavenward as the "Gloria in excelsis" is sung. Mr. Guest is to read some of his own poems on brotherhood.

"I think it would be grand, it would promote the school spirit we need so much." Chester Adams:

"Just what we need. Why think of the competition there would be for the band!" Ralph Yost:

"Why not? With the support of the band and a little audience maybe we could do something."

Julia Edgar: "It would increase the importance of the school."

Miss Wellington:

T think that a fine idea. It would increase the attendance at all the games and give the music students an opportunity to appear in public often.

Mr. Waters:

"We should have a band to bring about a closer relationship among the students. A band promotes and sustains school spirit, loyalty and enthusiasm. At Athletic contests a band adds to the number of students who participate in the action and promotes great interest. The greater ing the evening, everyone had a good the number of students we can bene time. fit, the better adjustment we have in our school life, and the closer we come to fulfilling our aim of developing a well-rounded personality."

"And finally, a band has a definite place in our music program. TELEPHONE SERVICE HAS

# INCREASED IN VALUE; RATES HAVE DECREASED

Michigan today is enjoying really remarkable values in telephone service.

The Company's material and labor costs have increased substantially since reductions in rates were made in 1934, ,1935 and 1936. In 1934 rates for service to farmers and for long distance service were reduced; in 1935 the long distance night rate was made effective at 7 o'clock every night and was extended to all day every Sunday; in 1936 further reductions were made in the rates for long distance and for various other services and items of equipment, and the charges for installing and moving telephones were drastically cut.

At the same time the average individual's income has improved, and prices asked for many other items and services have gone up.

Yet telephone service is still available at the reduced rates; the quality of the service never was higher; and its value to the community is increasing daily, as indicated by the increasing number of calls made per telephone.

Red Clover and Alfalfa Wil Give Better Results

Trials in this state demonstrate that Michigan grown red clover and Mr. and Mrs. Allen Secord attend-| Michigan grown alfalfa seeds prove best for use on Michigan farms.

In tests supervised by members of the farms crops department at Michigan State College, proof of the superiority was found. Satisfactory growths also were obtained from lepartment.

Michigan now knows how to protect its alfalfa crown, first in the naquarter acres. In Oakland county the information also is useful in permitting farmers to participate in the federal soil conservation program which provides benefit payments. Provisions for planting the same types of adapted seeds used in 1937 are contained in the 1938 soll program recently announced at Washington.

"Alfalfa and red clover seed imported from Canada is hardy and suitable for sowing in Michigan," Rather reports. "In general, other imported red clover and alfalfa is

much less satisfactory. "Least satisfactory of the imported seeds are the Italian red clover, and the alfalfa seed from Argentina, South Africa or Russian Turkestan Growers in those countries try to compete on price by shipping into the United States. These imported seeds are identified by being stained at port of entry with a shade of red. so that at least 10 per cent of the seed in each lot is stained."

### Potato Tricks

## Avoid Discolor

Potatoes often blacken and discolor when cooked. Yet cooks and homemakers can be let in on a few secrets and tricks recommended by the home economics division at Michigan State

Freshly dug potatoes least ilkely to blacken often are not available in Michigan homes either because of season or price. Because Michigan this year has jumped into second place in the production of the principal or fall harvested crop of this important food, the tricks of cookery will improve table appearances as well as help dispose of the crop in the state.

Research workers in Wisconsin have discovered that for plain boiled potatoes the blackening can be avoided by scaking the peeled potatoes in cold water for two and a half hours before cooking. The potatoes are drained and cooked in fresh water.

Coeking without previous soaking ilso can be done. A mixture of half

The accident was caused by the glaring lights of a passing automobile." So reads an accident report, Every motorist in the country driving carefully is suddenly blinded dron. by the glare of an approaching car. From that instant, it is as if he were without eyes. He cannot see the road ahead, judge the speed, or decide definitely the position of the approaching car. He may slow down or come to a stop, but in that time in his blindness he may drive off the road

into, a ditch or into a railing. Courtesy is the answer to the elimination of these accidents. If all drivers would dim their lights, this glaring condition would be eliminated. It can be done if we all cooperate, and it is certainly our duty as citizens to protect the other fellow and be protected. Dim your lights!

discontinue her education upon her physician's orders.

This young woman was the only daughter of a highly neurotic and self imposed invalid mother. Each day during the present school term the mother had written long letters in which she vividly pictured her imagined inflictions, for her daughter. As a result, the daughter worried so much over her mother's condition that she not only failed her courses but had to be placed under the supervision of a psychiatrist for observation and treatment.

A few years ago, an electric range cost several times as much as an ordinary stove. Today, an electric range costs no more than the average stove of comparable size and features: the price is just about the same. . . And look at the VALUE you receive in an electric range!

An electric range is built to serve you many years. Twelve years is the average length of time a family keeps a stove. That means that the stove you buy today will be cooking for you in 1949. ... "Electric cooking is MODERN cooking - it is the latest thing" - that is what many women say when they switch to electric cooking. During the past year 10,000 women in and around Detroit have switched to an electric range, and today 50,000 of your neighbors cook with electricity.

Consider these advantages of an electric

range - reatures that no other stove and no other cooking method can give you: Absolute CLEANLINESS, with pure heat from a glowing wire—heat as clean as sunlight. BETTER FLAVOR - meats and vegetables cooked in their own juices to melting tenderness. Healthful WATER-LESS COOKING, with precious minerals and important food values sealed-in. And best of all, the ease with which you can keep your kitchen bright and clean and sparkling . . . because an electric range does not burn fuel and therefore walls and curtains stay clean and utensils remain bright. There are no matches or flame in the kitchen.

When you buy a new stove, GET YOUR MONEY'S WORTH! If you are paying the same price, choose the stove that will give you more. Only an electric range has these extra advantages of electric cooking!
