EXAMINATIONS

By Esther Soncrante

Examinations started Wednesday afternoon at 1:00 o'clock. Examinations for the first and second periods were given Wednesday afternoon from one o'clock until four. Thursday, examinations were given for the third, fourth, fifth, and sixth period classes and on Friday morning the seventh and eighth period examinations were given. One hour and a half is being devoted to each examination.

Interclass Basketball

January 12th the senior boys defeated the Sophs by a score of 22-5, out-playing them quite easily. Raymond and Lawson doing the high scoring, 6 and 7 points respectively, for the seniors.

On the 19th the ninth graders easily beat the seventh graders, the score being 18-0 in favor of the Freshies. Alita Boice scored 16 of the total 18 Freshman points. In general the ninth grade girls played pretty good.

The Junior and Sophomore girls played January 20th, the Juniors winning the game by a score of 22-8. Arlene McCann and Mary Stadler did the heavy scoring among the forwards. Julia Edgar led the Sophs in scoring with 4 out of the 8 points.

Monday of this week the Sophomore boys, somewhat to the surprise of the Juniors, upset the latter rather roughly, defeating them 7-2. The Juniors were outplayed as a whole, although the game was a fairly close one.

Tuesday, the 25th, the seventh graders beat the eighth graders, 8-6, a very close game. It was almost impossible to prophesy the winner in this game.

Mrs. Vliet's Room

Since January has no special holidays we have stressed Health and good health habits.

Through colored posters, class discussion, stories, and dramatizations the children have been taught the reasons for eating fruits, cereals, and

vegetables. Drinking milk seems far more important since we have learned that milk-builds strong bodies and good teeth.

Each week we make up a story about a picture. Then picture and story are mounted in a space called "Our Own Story Book" and we learn to read them. We have four stories in our book now.

Our "Sunny Jim" calendar for January Shows many sunny days. The first graders are making Alphabet picture books.

The Shop Classes have been repairing and painting our Reading chairs. They look very nice and we are going to take good care of them.

The typical Clarkston student is now wearing a pillow. Lots of frozen, condensed water vapor. (Ice to you!!!)

Rumor has it that the Photography Club is making up an exhibit of excellent pictures for the showcases. Here's hoping for the showcases could stand a little change.

Tournament sign-up slips are posted this week, and all those wishing to play checkers, ping pong, etc., are urged to sign immediately, as the slips will be taken down Monday.

What happens to the velocity of a rifle bullet after it hits water? That is the question of current interest in C. H. S. this week. Can anyone tell us?

The Junior ego (if any) was defeated somewhat by a defeat at the hands of the Sophs in the noon basketball program.

All we hear these days is: "Who's got a nice complexion?" "Who's got nice hair?" etc., it's merely the reporter trying to find the ideal girl and boy.

The second issue of the Clarkstonian comes out next week. Everyone wants to read it!

We hear Roger Galligan almost lost his moustache the other night. That would be just too-o-o bad.

There seems to be quite a bit of competition in the 10th Grade Commercial Geography contest. So far Ralph Ware's team is in the lead, much to the dismay of the other team led by Evelyn Davies.

Latest thing in—C. H. S. (beyond the wearing of pillows) Silk scarfs and bandanas around their craniums.

AMERICAN LEGION SEEKING ACTION

Commander Elmer Collins of the Clarkston American Legion Post requests that all Post officers and members assemble at the home of the Chas. Edwards American Legion Post on Woodward avenue in Birmingham on Friday evening, January 28, for the purpose of rallying support of all citizens for the Legion's Universal Service bill now under consideration by the Congress of the United States.

Citizens of Clarkston and vicinity have the opportunity to sign petitions asking Michigan legislators in the Congress to support the Shepard-Hill measures for the enactment of Universal Service legislation. Campbell-Richmond Post of the American Legion is taking the initiative in presenting this matter to the public here and in the securing of signatures to the petitions.

Since 1922 the American Legion has been definitely committed to a policy of securing the adoption by Congress of an adequate Universal Service law, and increasingly throout

the years, more and more support has been forthcoming from the American public for a Universal act. And it appears as though finally in 1938 the American Legion will see its desire fulfilled by this law being approved. The principal reason why success has not greeted Universal Service legislation thus far is that the public has not been generally informed of the meaning of such a statute, nor has it been aroused to the primary necessity for universal service as the best practical means along with adequate national defense in keeping this nation out of war.

For the information of local people who may desire to lend their support to the American Legion's program by signing these petitions, Commander Collins of the local post gives the following information:

1. It would help preserve the peace by removing the profit motive for war. Universal Service means that practically all excess war profits would be confiscated by the government, as well as all prices being frozen by government control at the outbreak of war in order to prevent inflation.

2. In the event that war should again come to America, if Universal Service was in effect, 20,000 new millionaires would not be created in this country as there was in 1917-18.

3. Equal service for all. Under the universal service plan, those who serve in the armed forces and those who labor at home in providing the essential materials of war would be on the same basis. Equal rights for all and special privileges for none is the best summation of Universal Service.

4. In the event of war, with Universal Service both manpower and industry would be drafted to serve to the best advantage in protecting this nation. The very presence of this law on our books, even though it is never necessary to use it, would mean much greater strength to our potential national defense system with the result that it is doubtful if any nation would become embroiled in war with this country.

5. It is estimated that at least one-third of the cost of America's participation in the World War could have been saved had we had a policy of Universal Service prior to our entry into that conflict.

On Friday, January 28, Birmingham will see what will probably be the largest number of Legionnaires from the 17th Congressional District ever to assemble at any one Post within the District.

Members of the Birmingham Post have arranged an elaborate program for this meeting, the highlight of which will be an American citizen recently returned from China who will speak on the war now being waged there between the Chinese and Japanese military forces.

Dinner will be served in the Masonic Temple located on Woodward avenue in Birmingham, promptly at 6:30 p. m., and Commander Collins takes this opportunity to request that the members of his post be on time.

Mrs. Raymond Miller and daughter spent last Saturday in Jackson.
 Mrs. Guy Allen spent Tuesday in Rochester.
 John Kimes of Detroit was a caller at the Albert Lawson home on Tuesday.
 Everyone will be pleased to learn that Mrs. Jessie Walter is feeling much better after her recent illness.
 Mr. and Mrs. Lynn Phillips of Royal Oak and Miss Jennie McDon-

ald of Morpeth, Ontario, were guests of Mr. and Mrs. Durand Ogden last Sunday.
 Mr. and Mrs. Dick Snover of Stonely Lake spent Sunday with her parents, Mr. and Mrs. Guy Allen.
 Last Friday afternoon Miss S. D. Woodward entertained a group of her friends at an afternoon tea and bridge. The honors for the afternoon went to Mrs. Jos. Seeterlin, Mrs. Howard Huttenlocher and Mrs. Rose Teggerdine.

It would take more than a cold day and stormy weather to keep some of the Clarkston folk from doing just exactly what they want to do. On Wednesday Mrs. L. I. Coon, Mrs. George Harris, Mrs. Margaret Lansing, Mrs. Durand Ogden, Miss S. D. Woodward and Mrs. Fred Stewart went to Detroit and spent a real busy day.

Mr. and Mrs. August Doebler attended the Centennial Banquet at the Royal Oak Methodist church on Thursday evening of last week. There was a very large crowd and a splendid program. Rev. Olsen, a former pastor, was the guest speaker. Mr. and Mrs. Doebler stayed until Friday with Mr. and Mrs. D. S. Ullrick and Theodore Goodfellow.

The story is built around the express business as founded by Wells and Fargo shortly after gold was discovered in California. Its hero is handsome Joel McCrea, trail-breaker and man of vision. Its heroine is charming Frances Dee, who marries the bold adventurer and then, unable to understand him as his work carries him farther and farther away from her, finally leaves him.

It's a bold and beautiful romance in which the greatest part of a family's life and fortunes are followed and which acts as a leit motif to the grand symphony of the builders of empire. The cast is brilliant and does an excellent job. Particularly noteworthy is the performance of Bob Burns. This gentleman, who has heretofore confined his talents to comedy of the "homespun" variety, plays the role of a scout and proves in the playing that he is a great artist. You're going to remember Burns as the philosophical scout for a long, long time.

Others in the brilliant cast are Lloyd Nolan, Henry O'Neill, Mary Nash, Ralph Morgan, John Mäck Brown, Porter Hall, Jack Clark, Robert Cummings and hundreds of others. "Wells Fargo" was directed from a story by Stuart N. Lake by Frank Lloyd. It is a masterly job done with consummate skill and artistry. It is one of the screen's truly great pictures. See it by all means!

HOLLY THEATRE

If you've ever wondered why the stage coach has such a hold on the American imagination; if you want to know why America never tires of hearing the story of the winning of the West, if you want to see as heroic, beautiful and inspiring a romance as you've ever seen, then hurry around to the Holly Theatre and see "Wells Fargo", which will be shown there next Sunday and Monday.

Here is one of the most brilliant romances ever screened. Based on the opening of "America's Lifeline of Empire," the trail which linked the Far West to the East in early gold days, the narrow ribbon through desert, forest, plain and mountain over which adventurers, soldiers, settlers, heroes and scoundrels passed for more than twenty-five years, "Wells Fargo" is a cavalcade of American greatness which it is everybody's business to see, whether he's looking for history, a love story, comedy, thrills or inspiration.

CHILDREN IN COURT

St. Joseph, Mich., Jan. 26.—Judge Malcolm Hatfield today stated that courts cannot compete with the cheap dance hall, divorce mill, road house, pool room, and questionable theatre and magazine. He asserted that thousands of children will soon turn to crime if indifferent parents are not educated to their duties and responsibilities. The judge lays down specific means for treating disobedience, dishonesty, temper tantrums and other symptoms that indicate future criminal careers, in his book "Children in Court" which is being released by the Paabar Co. of New York City. Judge Hatfield, whose work with youthful offenders is closely followed in parent-teacher, religious and educational circles, added that the ten million children who are affiliated with no church cannot be expected to develop character and high ethical standards of morality.

Light your kitchen like *this one*

...for a cheery, more efficient place to work

Kitchen work sails along faster with good lighting. No energy is wasted in trying to see—there is no fumbling or groping in dark corners, no mishaps due to uncertain vision in shadowed working spaces. Good lighting can make your kitchen bright and pleasant, as cheery as any room in the house. When you spend so many hours in the kitchen, you want the room to be light and attractive—not dark and gloomy and depressing. Good lighting is a great help to speed your work alone and conserve your energy.

The average kitchen can be well lighted—like the one above—with one 150-watt lamp in the center ceiling fixture, and 60-watt lamps in small brackets over the range, the sink and the working surface. The cost of lighting your kitchen in this way is only about a cent an hour. If you have a small kitchen, a 100-watt lamp may be used in the center ceiling fixture instead of a 150-watt lamp.

Now in the dark winter months, especially, you will appreciate a well-lighted kitchen. Though skies may be cloudy at midday or pitch black by night, you can work cheerily in a pleasant, bright room—speedily and efficiently. For helpful suggestions or advice on your home lighting problems, call a Detroit Edison Home Lighting Advisor. There is no charge for this service.
