There are those who would say victory but, be that as it may, the local nine came out on the little end of the score of the baseball game at his own rate with a minimum asplayed here on Friday, April 29.

It was a cold, windy day and both teams might have made a better showing in "baseball" weather. The good sentence structure. game was distinguished by the many errors and considerable sloppy playing. The local lads were not able to and eighth grade shop classes have figure out the opposing pitcher and been kept busy the last few weeks hence hits by Clarkston were few. The lineups:

GRADE NEWS

Mrs. Vilet

We have six little feathered friends that have kept us very busy. They are the robin, the bluebird, the wren, the meadow lark, the bluejay, and the red-headed woodpecker.

It has been fun to learn to know them when we see them, to see how they build their nests, and take care of their baby birds. Now we are making booklets with their pictures and stories about them.

Because birds give us so much, we know that we must protect them and be kind to them. We have thought of many ways to show the little birds that we want to be their friends.

What a convenience sometimes to be able to shop by 'phone! No need to "drop everything" and go out on particularly busy days - or in had weather

How nice - and how important - to be in touch with the world even when you're home alone! The pleasant chat with the mend you don't have time to visit . . . the last-minute arrangements for spontaneous get-togethers, bridge games, movie parties and general good times with people you like -

all these are made possible by your telephone. No wonder so many women say: "I couldn't keep house without a telephone!" In so many practical ways this modern servant pays its own small salary - and for good measure adds much to the joy of living.
