## Odds and Ends

And before another issue of this paper is issued the graduating class of the Clarkston High School will be staring the future in the face. To some it means the end of schooling, to some it means more book work, some will go to work (yes we mean that). It has been quite a while since I studied history, but seems to me that the first settlers had pretty hard work clearing the land and that the returns were so poor that some starved. There is some work, now, the returns are small, but the future can be whipped. If our forefathers had not whipped conditions as they met them there would not have been any United States today. We have left this to the last because we believe our schools teach students to be self-sustaining, but if there are those who fail to "make the grade" there is WPA.

As expected the dictionaries offered by the News are going fast. The offer will be withdrawn in another week. Better read the details on page three and get busy if you want one of these up-to-date books—and who doesn't.

## Old Age Insurance Needs Birthdate Record

Development of the Federal old-age insurance program under the Social Security Act has given added importance to the record section of the old family Bible, baptismal certificates, and other papers carrying birth dates.

With the size of the average payment of lump-sum claims for old-age insurance benefits increasing steadily, Walter B. Redman, manager of the Social Security Board's field office at Pontiac, has been instructed to inform claimants that, when a claim is for over \$100 proof of age will be required, except in the case of a claim made by the heirs or estate of a wage-earner who has died.

Lump-sum payments amount to 3 1/2 per cent of wages received since January 1, 1937.

Ordinarily, where the amount is \$100 or less, Mr. Redman said, proof would be required only when the birth date as stated in a benefit application is not the same as the date shown by the Board's records.

The Social Security Board, recognizing the difficulties in supplying proof of birth since many States have not required certificates until recent years, has provided that when an applicant cannot obtain evidence without difficulty and expense he will be directed to file for consideration Bible, family, business, fraternal, school, governmental, or other similar records.

Lump-sum benefits are paid to covered workers who reach 65, or to the relatives or representatives of estates of those who die. These are the only claims now being paid. Beginning in 1942, monthly checks will be sent to those who qualify for Federal old-age insurance retirement benefits.

## Clarkston Literary Club Has Annual Picnic

Mrs. George Marshall Was Hostess

The Clarkston Literary Club held its annual picnic at the home of Mrs. George Marshall on Tuesday, June 7th. There were 31 members and guests present. Among them were Mrs. H. A. Huey, Mrs. Miller and her mother from Ann Arbor.

After a delicious cooperative dinner at one o'clock a business meeting was conducted by the President, Mrs. Soulbly. This was followed by guessing contests for which prizes were awarded to Mrs. Miller of Ann Arbor, Mrs. Lee Clark and Mrs. Ray Clark. The programs for the next year were distributed by the secretary, Mrs. Ray Clark.

The group joined in singing "Auld Lang Syne" and then adjourned, thanking Mrs. Marshall for her gracious hospitality and looking forward to a get-together some time in July.

## Silver Tea To Be Held This Afternoon

Everyone enjoys an afternoon tea especially when there is a good program for entertainment. The Silver Tea at the Clarkston M. E. Church this afternoon from 2:30 until 5:00 promises to be a very lovely affair. A splendid program has been arranged. Mrs. C. J. Muir of Windiate Park will be the guest singer and there will be orchestra selections and piano numbers too.

The public is invited.

## What Lack of Courtesy Has Brought Motorists

Wonder how many local motorists have noticed that many fields and woods are gradually becoming enclosed by fences so that those who would care to stop in a shady grove for a picnic lunch frequently look long before finding an opening? The motorists themselves are to blame for this situation. Farmers are fencing in much of their property at considerable expense to themselves for their protection against the motorist who has made it a practice to rob fields, groves, gardens and orchards. They proceed to take vegetables, flowers, fruit and nuts and the like from these private grounds with no conscience for the farmer who walks away with the doorknob? A motorist may pretend there is "no harm" in helping himself to the field supplies but would he do so in the presence of the owner of the land? In the meantime the desirable camp and picnic grounds are being fenced off at a rapid rate. No such fences have had to be built along the railroad, but who wants to eat potato salad on a railroad tie?

## FEEDERS' DAY AT MICH. STATE COL.

Two Sessions Will Be Held at Meeting on Friday

Should a beef calf have a full stomach or should he be made to rustle around for his food before he finally is fitted for market?

That is the starting question to be discussed in the annual Feeders' Day program to be conducted on the campus of Michigan State College—Friday, June 10.

Both morning and afternoon sessions are scheduled for the event. College staff members are to conduct the morning sessions which begin at 10 a. m. at the experimental barn on the college farms. George J. Propp, G. A. Brown, V. A. Freeman and G. J. Davis will offer information on full feeding contrasted with limited rations, alfalfa hay for yearling steers, beef versus dairy type calves, wintering beef calves and nutritional problems of spring pigs.

A luncheon in the Union building at noon is followed by the afternoon program also in the Union.

Subjects to be discussed will include returns from grains fed to swine, brome grass and alfalfa as a pasture for cattle, beef cattle feeding costs, silage for fattening cattle, producing feeder steers, transportation problems, changing market conditions and western livestock markets.

These afternoon speakers include staff members Freeman, C. M. Harrison and Karl T. Wright. Outside speakers will be Felix Witt, Jasper, and James Blake, Cassopolis; L. H. Robbins, Chicago, railroad agricultural agent; Robert Martin, Buffalo, N. Y., and Charles E. Lee, St. Paul.

## Epworth League Closes Season

Cooperative Supper and Service Held at Ortonville Park

Last Sunday evening the Epworth League of the Clarkston M. E. Church enjoyed the last meeting for the season at the Ortonville Park.

There were thirty-two young people sat down to a delicious cooperative supper at 6:30. Following this a very lovely service was held around the evergreen tree on the hilltop. Miss Arlene McCann was the leader. Her topic was "Self Will or Self Control". Miss McCann handled the subject very capably and gave every member something to think seriously about during the summer and until the League meets again in the Fall. The Epworth League songs were led by Daniel Addis.

## Streets in Town Will Be Paved

The special election to bond the Village of Clarkston for \$10,000.00 to cover the streets with a pavement passed by a vote of 148 to 28. Now the Village dads have to sell the bonds and they are already working on the details.

## Clarkston Locals

Among the six hundred and thirty Michigan State College Seniors who are listed as candidates for degrees in the 80th annual commencement on Monday, June 13th is Katherine Mercy Foster of Clarkston.

Everyone will be sorry to learn that Mrs. George Slayton has been quite ill for the past week. She spent a couple of days the first of the week at the Goodrich Hospital. The last report was that she was slightly improved.

Dinner guests at the home of Mr. and Mrs. W. S. Barrows on Tuesday evening were D. M. Winn and Mr. and Mrs. Vaughn Garrison of Pontiac. Mr. and Mrs. Garrison expect to leave on Saturday for San Francisco. They will motor and will visit interesting points along the way. They expect to be gone about a month.

Everyone will be sorry to learn that Mrs. Margaret Miller had the misfortune to fall on Saturday and break her collar-bone. It seems that Mrs. Miller was hanging curtains in the living-room when the ladder slipped. In falling she tried to save herself by jumping on to a chair that was alongside of the ladder but the chair tipped over and a broken collar bone was the result. Luckily Mrs. Miller was not alone in the house at the time.

## Board of Review

The office hours for the Board of Review Monday and Tuesday, June 13 and 14, will be from 9 until 12 in the forenoon and 1 until 4 in the afternoon.

## SAFETYGRAMS

Rely on the other fellow to slow down, or depend on the other driver to give you the right of way—he'll do it only four times out of ten according to a recent highway survey in Massachusetts.

Too many of us put too much faith in the ability and good intentions of the other driver. Cromwell once said, "Trust in the Lord, but keep your powder dry."

Do not depend on the other fellow. Slow down instead of expecting that the other driver will step on his brake. Yield the right of way when there is a question. Keep your ears in such shape that you can meet all emergencies instantly.

It's smart to be careful.

## Coming Events

June 10th—Friday afternoon from 2:30 until 5:00 the Ladies' Aid of the Clarkston M. E. Church will sponsor a Silver Tea at the Church. A lovely program is being planned. The Public is invited. The proceeds will be used to help with the church budget.

## Scouts Camporee at Farmington June 10-12

Local Boy Scouts and Leader Will Attend

The Oakland County Boy Scout Camporee will be held in Farmington June 10-12.

Confirmation has been received that Gov. Frank Murphy will officially open the Camporee on Friday, June 10. The exact hour is not yet settled. The Governor, through Secretary Norman Hill, has stated that he would be in Farmington between 5 and 5:30. Scout officials are hoping to have the time changed to 6:30 or 7.

Fielding H. Yost, of the University of Michigan, will present four eagle badges (highest scout award) at the Court of Honor at 7:30, and will address the scouts, on June 10.

High Scout officials who have informed Chairman John W. Hunt that they will be on hand for the opening ceremonies include Clifford Friend, Willis R. Keasy, Herbert N. Watson and Kenneth McVittie.

Mayor Howard Warner, of Farmington, will officially greet the guests of honor.

At least 1,000 scouts are expected. 725 have signed attendance applications, as of May 31.

Warner Field, a 10 acre plot on the corner of Maple and Grand River roads, is the site of the Camporee. The city is erecting lights, water faucets and sanitary facilities.

Each scout will be allotted a 40 foot square plot of ground, where he will pitch his tent, cook his meals for three days, and perform his scout activities. Scoutmasters and high executives will have one corner of the field for their quarters.

There will be a special Scoutcraft and Handicraft exhibit by the Crippled Children's Hospital troop.

On Friday following the check in of patrols, there will be held inspection, Court of Honor and a campfire program.

June 11 patrol games and recreation are scheduled for the morning, a patrol quest and sight seeing tour in the afternoon, and a camp fire program in the evening.

Following church (each scout has to attend the church of his own faith) on June 12 patrol games will be held, and awards will be made at 3:30.

Several boy scouts of the Clarkston Troop with their leader, Clifford Bennett, will attend.

## HOLLY THEATRE

Often motion picture players are reluctant to appear in films having children or animals in the cast. They are undeniable scene stealers. Sometimes, however, these pets, of both species, become scene-donors, adding so greatly to the value of a bit of action by their spontaneity that the entire sequence is rewritten to give the antics full scope.

Several examples of this phase, requiring elaboration of plot, occurred during filming of "Merrily We Live", the new Constance Bennett-Brian Aherne co-starring-comedy opening Sunday at the Holly Theatre. The picture's supporting cast included two Great Dane dogs, a cockatoo, a white rabbit and a huge bowl of goldfish.

In the original script, the fish swam lazily about in their aquarium in the solarium of the Kibbourne home, serving as an attractive background and only coming in for close-ups when Billie Burke, as the ebullient Mrs. Kibbourne, bids them a cheery good-morning.

But "Mildred" was not content with being atmosphere. During the filming she made a bid for fame in a motherhood role. To the amazement of the cast, she added some twenty or thirty little golden miniatures of herself to the population of the bowl. There was such a lot of conversation about "Mildred" around the set that a sequence was written in, and in it she, an ambitious fish, plays almost a stellar role.

The dogs, "Get Off the Rug" and "You Too", also played a part in script revisions. Several close-ups were the reward for their department in a breakfast table scene. Originally they were supposed to lie down in an inconspicuous corner during the meal, but they became so interested in the food and followed so intently the process of the breakfast, that they were allowed to group themselves around the table.

"Dopey", the cockatoo, was more of a line-stealer than a scene-stealer. He insisted upon taking one of Alan Mowbray's choice lines and half a dozen retakes were required to eliminate Dopey's "Perfectly, sir," in answer to a question by Clarence Kolb as to whether his commands were understood by the family. Dopey liked his reply to Tom Brown so well that he repeated it at intervals and the "So what?" was often ill-guited to the dialogue into which the cockatoo interpolated it.

**McINTYRE BREAKS LEAGUE RECORD IN HALF MILE**  
King McIntyre once more brought glory to Clarkston's track squad by establishing a new record of 2:08 in the 880 yard run at the Southwestern Oakland County League meet at Milford on Friday, June 3. King set his own pace in the race and finished well ahead of his closest competitor. This is the second time a Clarkston man has established a record in the 880 at the league meet for Bill Parker ran it in 2:12.1 in 1936 for a record. Bill's record was broken by Campoin of Walled Lake who established a record of 2:11.7 last year. Not only did King establish a record for the league, but also one on the Milford track. Clarkston is indeed proud of him and his splendid performance. Galligan, a Junior, finished fourth in the same event with an approximate time of 2:13. He should "go places" next year.  
As the whole meet went, it was anything but encouraging to the local rooters. It seemed as though the breaks were just against us. Two of the best men on the squad, Yost and Walker, were unable to compete because of injuries. Clark threw the shot 39' to win second place in that event. Craven finished fourth in the 440. No other Clarkston men placed. There were bright sides of the meet though, for enthusiastic track supporters saw some good performances. Records were established in the mile, the 880, the 220, the shot put and the high jump. May sales of stamps from the Philatelic Agency of the Post Office Department in Washington amounted to \$72,645, bringing the sales for the last 11 months to nearly one and one-half million dollars.

Even these astonishing figures show a decided drop from last year sales for May at the same office.

### Nature Chats

By Mona L. Hungerford

Warblers are among our least known birds. They are small birds of limited vocal power. They are the most difficult birds to study as many of them nest high.

Michigan has a rare warbler that nests low and ornithologists are making a study of it. It is called the Kirtland Warbler. It winters in the Bahama Islands but only in three counties of Michigan has it been known to nest. It nests among Jack Pines on the ground and remains in the underbrush nearby.

The top part of the bird is bluish gray streaked with black. The underparts are pale yellow streaked with black. The eggs are white streaked with brown. It feeds on insects and moths found around Jack pines and Norway pines. Its song is loud and clear given with the vigor of a wren and full of sweet melody.

### The Yellow Warbler

The yellow warbler or wild canary is a bird that prefers orchards, woodlands and parks. Its nest of fine grass and down usually is in shade trees or willows. Its eggs are bluish white marked with brown. Everywhere in the fields and meadows we hear its happy song. This bird is sometimes confused with the goldfinch but on close study it is a smaller bird with a smaller narrower bill. The yellow warbler is imposed upon by the cowbirds who neglect to build a nest and lay their eggs in the warbler's nest.

The warbler is clever enough however to build a new bottom to the nest and seal over the cowbird's eggs.

The yellow warbler's diet consists of small insects that are injurious to trees and grain and is of great importance to the agriculturalist.

### The Hilltopper

(Concluded from page two) and King McIntyre (more than one senior blushed a very warm shade of red during this). Then Iva Sommers and Harriet Beckman concluded the program with a very surprising prophecy.

The remainder of the evening was spent in dancing to the music of the "Rhythm Rascals", led by Dan Addis. The orchestra stand was made to resemble the after-deck of a boat with a soft, Hawaiian setting. The members wore gob hats and the director a commodore's cap. All of the members wore multi-colored leis.

So concluded one of the loveliest of all of the Junior and Senior banquets and all who attended commented on its success. To the Juniors we offer our congratulations!

The staff of "The Hilltopper" concludes this year's efforts with this edition. It wishes to thank all of its readers for their support and their interest during this last school year.

NATURE and man, together, have made Michigan a superb fishing State. Nature contributed 2000 streams and 5000 lakes. Man adds wise conservation, 16 fish hatcheries—and plants about 200 million little fish every year.

That's why Michigan abounds in fish that are waiting for your hook and line: Brook trout, brown trout, rainbow trout; bass, perch, pickerel; blue gills, sunfish, muskellunge.

To supplement perfect angling, you have fine highways and other transportation facilities... canoes, power boats and sailing craft for hire... bathing beaches... overnight cabins... and camping sites galore.
