Odds and Ends

If you remember, about a year or so ago the Village of Clarkston, looked over its boundaries and added some land by the simple method of finding some territory that it had forgotten. Hitler added land without shooting a shot and the Village added land by not having to vote a vote. In the process the writer found himself living across the road from the Village limits. But to show that there are no hard feelings and because a lot of dirt will be needed to build a foundation for the sidewalk on the west side of M-15, we hereby donate about 50 cubic yards of fill dirt to help build that foundation. Sure we are big-hearted, but we also bought more lot than we can use.

And next week we start presenting announcements of the New car models. But of course you refer to this paper for the latest news, and would notice them anyway.

It seems that this community is "blessed" for the present with those beautiful, silver-streaked, kittens, with the strong and penetrating odors. A good way to get rid of them is to break an egg (just a small opening in one end) take out some of the egg white and in its place put poisoning. We have heard, and you know how good hearsay is (stated this way to protect our source of information) that some boys are capturing them for the purpose of raising them till their pelts are worth more.

Independence Twp. Has 15 Year Old Mother

Very often the people of Michigan read about the Kentucky child bride, and occasionally the front pages glare with the story of a child mother. Now the records of Independence Township, Oakland County, show that on Sept. 26th, 1938, a son, Gerald, was born to Mr. and Mrs. Vernal Drake. The mother is 15 years old and the father is 22.

Mr. and Mrs. Drake came here from Philmore, Ky.

The Hilltopper

An Observation

Now that the danger has passed, one can be casual about the whole European affair, but a few days ago it wasn't thought of so lightly. In fact while I was listening to Hitler's speech one day last week I noticed that even some of the seventh and eighth graders were really, rather worried about the whole thing. We spent the last three periods in the afternoon listening to the speech, and I'm sure no one wasted his time. It is time really that we were all learning more about the current events and I don't think we are too young to be interested. After all we are the ones who will some day be the law-makers, and we should be prepared.

The third meeting of the League was led by Howard Boyns. His topic was "Bible Baseball", which was a game of questions and answers. Reverend Large acted as umpire. There were two teams—captains were Dan Addis and Milt Fiske. Everyone had lots of fun. Milton's team won with a score of 13 to Dan's 6. Singing and Prayer were led by Dan Addis.

High School Has First Assembly of Season

By Jackie Parrish

The annual assembly for the sale of magazines was held on Tuesday, September 27 in the English room of the High School. The incomparable Mr. Malone was there to keep the ball a-rolling with his humorous comments on the fairer sex. He very readily convinced the students that their help was needed in selling the magazines for the benefit of the school's athletic funds. Already the number of sales has reached a remarkable total.

FARMERS ADVISED TO FIGHT BOT FLY

Advent of Frost Is Signal to Begin Campaign

Frost is the sign that will signal start of the annual war in the fall on bot fly eggs and subsequent treatment of horses to rid them of parasites.

Suggestion of B. J. Killham, extension specialist in animal pathology at Michigan State College, is that the first step in parasites control is the treatment of the bot fly eggs.

Farmers in Oakland county, says Dr. Killham, can watch for the first killing frost and mark it down to start the work. Dividends will include healthier animals turning out useful energy rather than wasting feed on internal parasites.

Eggs deposited by the bot fly in summer and early fall are found attached to the hairs on various parts of the body. Chiefly these eggs cling to the forelegs, under the jaw and around nose and mouth of the horse.

A three per cent solution of a good coaltar dip (carbolic acid, lysol or any good commercial dip) in warm water effectively checks further hatching of the eggs. One tablespoon of the dip in a pint of warm water makes a usable solution of three per cent. This solution should be applied thoroughly to the forelegs and other parts of the horse's body where bot flies are observed.

The internal treatment, administered by a qualified veterinarian, should follow any time after 30 days following the application of the coaltar dip solution. This internal treatment will remove round worms as well as bots. Early removal of the bots gets them when they are small and before they have had a chance to seriously injure the horse.

SCHOOL NEWS

High School

The rust has been polished from the old school bell and again its tolling brings us forth to add daily to our store of knowledge. The only faces we find missing among our teachers from last year are those of Mr. Ross and Mrs. Hawn. In their places are those of Mr. Harold Dean of Alma and Miss Margaret Pelican of Pontiac.

The Sophomore class election has been held and the officers for this year are Katherine Roehm, president, Dorothy Dorman, secretary, Lyman Girst, vice-president, and Betty Smithson treasurer.

There seems to be a noticeable scarcity of new pupils in the upper grades this year. The only new pupils in the tenth grade this year are Madeline Whiting from Seventh Day Adventist School in Pontiac and Lillian Green from Royal Oak Senior High.

Last week the ninth and tenth grades held a joint roller skating party at the Orion pavilion. Mr. Dean acted as chaperon.

Plans are being made for Freshman initiation. In a short time the horrors of initiation will be revealed to our quaking freshmen.

The first annual P. T. A. meeting was held Thursday in the form of a reception for the new teachers. A series of games was played and refreshments followed.

A hot lunch was served Wednesday noon at school by the Church Auxiliary. Hamburgs, hot dogs, cup cakes, milk and cocoa made up the menu. Everyone I'm sure considered this a welcome change from packed lunches.

The boys' speedball team has gotten off to a good start by defeating Dublin 18-12 and Drayton 10-2. Mr. Dean is the boys' new coach. We all

hope that this winning streak continues throughout the season.

The Waterford teachers held a party at the home of Mrs. Chloe West on Maceday Lake Monday evening, September 24. A steak dinner followed by games furnished the evening's entertainment.

I. The first grade farm is now ready to provide for a sumptuous dinner. (That is if everyone likes burned ears of corn).

II. Peer Gynt is a naughty boy whose adventures are very well known to the First Graders. They know each part of this Grieg Suite and some themes from famous Symphonies. "Papa" Haydn is a great favorite.

III. Joan Kray and Janice Root have returned to school after brief illness.

IV. Roll call in the First Grade is a musical problem—especially when the teacher has a cold. Each morning and afternoon they chant, "I'm here" in answer to the singing of their names.

V. Miss Klevin's "First Grade Art Class" has begun a circus project. Elephants, rhinoceroses and giraffes are among their most treasured possessions.

VI. The Primary, First and Second Grade do their Nursery Rhymes in Rhythm, Swinging shakers, beating drums, clashing cymbals, tinkling bells, and triangles, flutes, tambourines, and a xylophone complete this ensemble.

(3rd Grade)

I. Norma Jean Lassender has returned to school after being absent with whooping cough.

(4th Grade)

I. The fourth grade geography class has an Indian exhibit in their room.

Eighth Grade

The seventh and eighth grades are planning a roller skating party for October 7, at Lake Orion.

The Science class has completed its first unit and has had a test over that work.

Football Field was postponed. Speaking of practice, Don Smith, who has taken trumpet lessons for only three weeks was playing with the Band last Friday. Many remarks were passed about the splendid performance which the Band gave on the Football Field last week. Paul Shaughnessy, Alumnus, was very graciously received in the band last week. It is understood that he is always welcome.

There are two things that you should give your children—a good example and a good education. A good example is also a safe example.

Recently I had a very strange experience. I saw a young child, whom I had just overheard tell his mother that he had been instructed not to cross in the middle of the block, suddenly and literally yanked off the sidewalk in the middle of the block by his parent and marched across the street.

That kind of example belittles the safety effort and the safety idea in the mind of the child.

Set the right and the safe example.

Crossroads of Speech

This Modern Long Distance Switchboard is a Marvel of Speed and Precision

then and now

Once upon a time the telephone switchboards of Michigan were like sleepy country crossroads. . . . Today's switchboards are like the busy, well-regulated intersections of the most crowded motor highways, thronged with hurrying traffic day and night.

This traffic of speech has grown until now an average of 3,200,000 calls a day . . . about 2250 every minute . . . travel over Michigan Bell lines. It is the efficiency of the modern equipment developed by Bell System research and manufacturing skill . . . together with the work of highly trained telephone employees . . . that enables us to direct each message along the right road to its destination . . . without confusion and without delay—at reasonable cost.

All matters handled thru the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper week by week.

TO DEDICATE NEW BRIDGE THIS WEEK

Some Local People Will Witness Port Huron Ceremonies

Goodwill and Peace, long exemplified by the United States and Canada in their relations with each other, will reign supreme Friday and Saturday of this week when Governor Frank Murphy of Michigan, Prime Minister Mitchell F. Hepburn, of Ontario, and other officials of the two countries gather at Port Huron and in Point Edward and Sarnia, Ontario, to dedicate and open the new International Blue Water Bridge across Saint Clair River.

This great span, 150 feet above the river and an important link in the most direct and easily accessible route between the Middle West and Eastern Canada and Northeastern States, was built by Michigan and Ontario, through their highway departments and the state bridge commission of Michigan. The 8,120-foot span cost \$3,250,000. Work on it was started June 24, 1937 and was completed this week.

Michigan, aided by federal funds, built the American approach and plaza, while Ontario, with the assistance of Dominion monies, constructed the Canadian approach and plaza. The bridge commission of which V. B. Steinbaugh is chairman built the main span from proceeds of a bond issue and coordinated and supervised the activities of all agencies involved.

A great international celebration will be staged in Port Huron and Sarnia Friday and Saturday. At least 100,000 persons are expected to attend. The celebration will open Friday morning when American and Canadian Kiwanis clubs dedicate a peace plaque at the American end of the bridge. At noon Friday, newspaper, radio and newsreel representatives will attend a luncheon in Hotel Harrington, after which they will preview the international span.

Miss Judy Dunford, chosen from beauty queens of 50 Michigan cities as queen of the celebration, will be crowned "Miss Blue Water" by Governor Murphy at a Coronation Ball, social highlight of the celebration, Friday night.

9 A. M. Saturday four-man relay

teams of University of Detroit and University of Western Ontario, London, Ontario, will race between Sarnia and Port Huron, carrying goodwill greetings between the two nations.

At 9:30 A. M. members of all religious creeds from both sides of the border will unite in services and peace prayers on the American plaza of the bridge. WJR, Detroit, will broadcast the services.

An international parade will be staged at 10 A. M. in Port Huron and shortly before noon Governor Murphy and other American officials will drive to Sarnia, where they will meet Premier Hepburn and his party. The officials will return to the center of the span, cutting a ribbon and proceeding to the American plaza where the dedication rites will be held.

Ross W. Gray, K. C. Sarnia, chief liberal whip in the Canadian parliament; Prentiss M. Brown, United States Senator from Michigan; Mr. Steinbaugh, Louis A. Weil, publisher of the Port Huron Times-Herald and American chairman of the celebration; Reeve David Ross, Point Edward, Canadian chairman, and others will take part.

The program will be broadcast over the Columbia Broadcasting System and Canadian Broadcasting corporation networks and WWJ Detroit, between 12:30 and 1 P. M. Saturday afternoon will be devoted to a huge boat parade and band concert. Fireworks and a Port Huron-Sarnia football game Saturday night will close the program.

The bridge will open on regular 24 hour schedules at 6 A. M. Monday, October 10.

HOLLY THEATRE

Young men working their way through college by selling technical advice, all would get the same answer at the 20th Century-Fox set of "Hold That Co-ed!"

"We don't want any!" Practically everyone on the set has been to college, so that there is no lack of technical advice for the new college football comedy. "Hold That Co-ed!" opens Tuesday at the Holly Theatre, with John Barrymore, George Murphy, Marjorie Weaver, Joan Davis and Jack Haley featured in the cast.

Barrymore studied drama at Georgetown University; Murphy is an alumnus of Yale and a former player on one of its "wonder" teams; and Marjorie Weaver and her stand-in both hail from the University of Indiana. (Joan Davis interpolates that she's from the School of Hard Knocks, with a Ph.D.—meaning "Phalling-Davis!")

George Marshall, who directed the film, is a proud son of Chicago University, while his assistant, Gene Bryant, majored in law at Texas A. & M.

David Hempstead, associate producer, came straight to Hollywood from the University of Michigan, and his assistant, Bob Guggenheim, has an A. B. from Dartmouth College.

Four more colleges have representatives in the technical crew, which includes graduates from the University of Southern California, University of Washington, Washington State, and

the College of the City of New York. "Hold That Co-ed!" was produced under the supervision of Darryl F. Zanuck.

Potato Crop Said To Be Above Average

Lansing—Michigan's 1938 potato crop will be far above average in quality, according to Federal-state inspection service officials. Oakland County participated in the program with total inspection of 71 cars of farm produce. The 24,079 cars were made up of 20,243 potatoes, 2064 onions, 1,302 cars of apples, 402 grapes, 55 pears, 1 car beets, 1 celery, 11 carrots.
