# Odds and Ends

It has been brought to the atten tion of the News that all the surrounding communities have held receptions for their school teachers and welcomed the new members of the staff-how about Clarkston? The attendance of parents at the P. T. A. meetings in former years has made the organization officers rather skeptical about arranging a program. The teachers have always shown their willingness to support a P. T. A. by being present at the meetings, in fact at most of the meetings the Selma Brown of Birmingham, past teachers were in the majority. #### Mrs. J. Gulick **Honored Wednesday**

About eighteen friends of Mrs. J. Gulick honored her at a party at her home on Wednesday. It happens that Mrs. Gulick's birthday occurs during the cold weather and the group finds it difficult to get together so they took advantage of the lovely October weather and celebrated the anniversary in advance.

At one o'clock a delicious co-operative luncheon was served and during the afternoon everyone had a good time visiting. To make this party a lasting memory the group had a picture taken.

Mrs. Gulick received many pretty gifts and the best wishes of all of her friends.

The guests were from Lansing, Owosso, Flint, Corunna, Detroit, Pontiac and Clarkston.

Also on Wednesday will be the annual initiation style show and parade. The girls' new fall attire will consist of a dress worn without a belt hanging to the middle of the leg; this is all the rage in Paris this year. With this they will wear a pair of oversize tennis shoes minus stockings, and a hat no earlier model than 1910. Next is the boys' apparel that will make all men's fashion designers green with envy: a pair of shorts, long silk stockings with garters and a shirt on backwards, the latter will save wear and tear on the back of the neckband. Football Game by Evelyn Davies First Score off Keego Harbor made

by Clarkston! The Clarkston squad, last Friday made the first score that has been made against Keego Harbor this season. Although the Keego lads won by wide margin, Clarkston is nevertheless proud to be the first to make a score against them.

In the first quarter Keego started on its touchdown making spree by making one touchdown. The second quarter showed a considerable improvement over the first for Keego when two more touchdowns were made. An extra point was added when Keego successfully passed the ball over the goal line. The third quarter was much the same as the second; Keego making two more touchdowns and an extra point. In the fourth quarter Clark threw a magnificent pass to Russell who scored the first six points for Clarkston. Clark plunged the-ball over the goal line to make an extra point,

making the final score 32 to 7. During the half the band marched for the first time on the field. We are to congratulate Mr. Willoughby for the good performance which the band gave. Also the cheering was well done and a decided lack of booing was noticed (and very much approved).

#### All School Party Great Success!

by Tom Boothby On Friday the 14th the school turned out for one gala masquerade party. The majority of guests wore costumes and all of them were good. The party started at eight with Dan Addis' Rhythm Rascals leading in their Friday. With the money earned from theme song, "Satan Takes a Holi-Mrs. Strait's refreshment day!" stand did a good business all through the dance. There was a grand march in which everyone participated. The judges selected from this group the people with the funniest and most humorous costumes. The prize went to Bob Smithson who characterized the elected to see about having the stand funniest character. Muriel Boyns and Roy Spencer took the prize for the best costume. Bob was dressed as a prospector, wearing a beaver hat: Muriel and Roy were dressed as an old-fashioned couple. Muriel wore pre-war dress and a small old fashioned black hat that belonged to Roy's great grandmother. All their 'fixings" were very appropriate and brought a good laugh for everyone!

"He is Doing a Good Job"

Back of the high quality of telephone service you enjoy today in Michigan is the group of several thousand scientists and experts in the Bell Telephone Laboratories and at the headquarters of the American Telephone and Telegraph Company, whose sole job it is "to find a better thing or a better way."

The telephone employees who are engaged day by day in maintaining a high standard of telephone service are doing their part, and a most important part, in increasing the quality and keeping down the cost of service; but progress is assured by having a large group of scientists and experts devoted exclusively to seeking ways and

means of making the service better and cheaper.
