Reading, "Entertaining the Minister"
Yale

At the Sunday School session on January 1st the nominating committee composed of Mrs. William Chase, Mrs. Otto Duguid and Mrs. Joseph Helman gave their report and the following officers were elected:

The Bible Class of the Waterford Sunday School will meet on Tuesday evening. The place of meeting will be announced from the pulpit of Sunday.

There will be a Penny Supper served at the Waterford Church on Friday evening, Jan. 13th starting at 6:00 o'clock. The Dixie Ann Circle will be in charge.

The young people of the community had a good time at the "Holiday Hop" sponsored by the P. T. A. in the school auditorium on Thursday night.

Mr. and Mrs. George Kimball Jr. have closed their home and have gone to Pontiac for the rest of the winter.

Mr. and Mrs. William Poland of Detroit spent Sunday and Monday at the home of her parents, Mr. and Mrs. Henri Buck.

Mr. and Mrs. Leonard Eakle and family returned to Monday after visiting Mrs. Eakle's mother and other relatives near Dayton, Ohio.

Mr. and Mrs. Roy Bradford of Andersonville Road announce the engagement of their daughter, Rose Mary Bradford to Martin Wiles.

Mr. and Mrs. Fred Clayton and daughter, Marie, of Flint visited at the home of Rev. Howard Jewell on Monday.

Mrs. Ida Beattie was a New Year's dinner guest at the home of Mrs. Ruth Earl and her father, Walter Whitfield.

Fishing through the ice started on Monday. Many fishermen were kept busy and a great many had fine luck.

Mr. and Mrs. Howard Burt entertained at their home on Monday, Mr. and Mrs. Floyd Burt, Leon Burt and Mr. and Mrs. Stephens of Ortonville.

The Ladies' Auxiliary held their January meeting at the Church on Thursday, Mrs. H. F. Buck and Mrs. Elizabeth Britton were hostesses.

Mr. and Mrs. William Bouma and family had as their New Year's dinner guests Mr. and Mrs. E. D. Spooner and Edd Chapperton, Mr. and Mrs. John Watchcock and son Ellsworth.

Mr. and Mrs. Fred Clayton and daughter, Marie, of Flint visited at the home of Rev. Howard Jewell on Monday.

Mosses soak up water and hold it like a sponge. They must grow close to the ground, however, for there are no tubes to carry the water from the roots to the rest of the plant.

Drayton Plains

Starting tonight the Presbyterial Training Institute of Royal Oak will open. There are Credit Classes for all who wish to train themselves for better Christian service.

The Drayton Plains Merchants Basketball team is sponsoring an entertainment tonight, Jan. 6th, at 8:00 o'clock in the school auditorium.

The Ladies' Aid will serve another delicious Penny Supper at the Church tonight, Jan. 6th, from 5:30 until 7:30.

Mrs. J. C. Stewart of Warren Drive is confined to her bed with flu. Dr. W. Morgan is confined to his home with lumbago.

Mr. and Mrs. Peter Verley and family spent several days last week visiting relatives in Zeeland, Mich.

Leota Wilson spent three days last week in Waterford with her friend, Corinne Stites.

The holidays were over on Monday night and at the usual time Tuesday the doors of the school opened for study and recreation.

Mrs. Hickey of Rockwell, Tenn., is visiting with her son-in-law and daughter, Mr. and Mrs. Edward McNew.

The church is taking over the official sponsorship of the Boy Scout Troop. A full troop of 32 has been registered with a sea scout ship of Lansing.

Mr. and Mrs. L. O. Kern spent last week in Rockford, Ohio with Mr. Kern's mother.

Dr. and Mrs. L. G. Rowley were among the guests when the Ford Hospital staff and their wives attended a reception at the Dearborn Inn, Dearborn, last Monday evening.

CANNING, CURING MEATS SUGGESTED

M. S. C. Bulletin Gives Full Directions for Processes

At this season of the year, rural families can plan and complete preparation of a year's supply of meat and meat products.

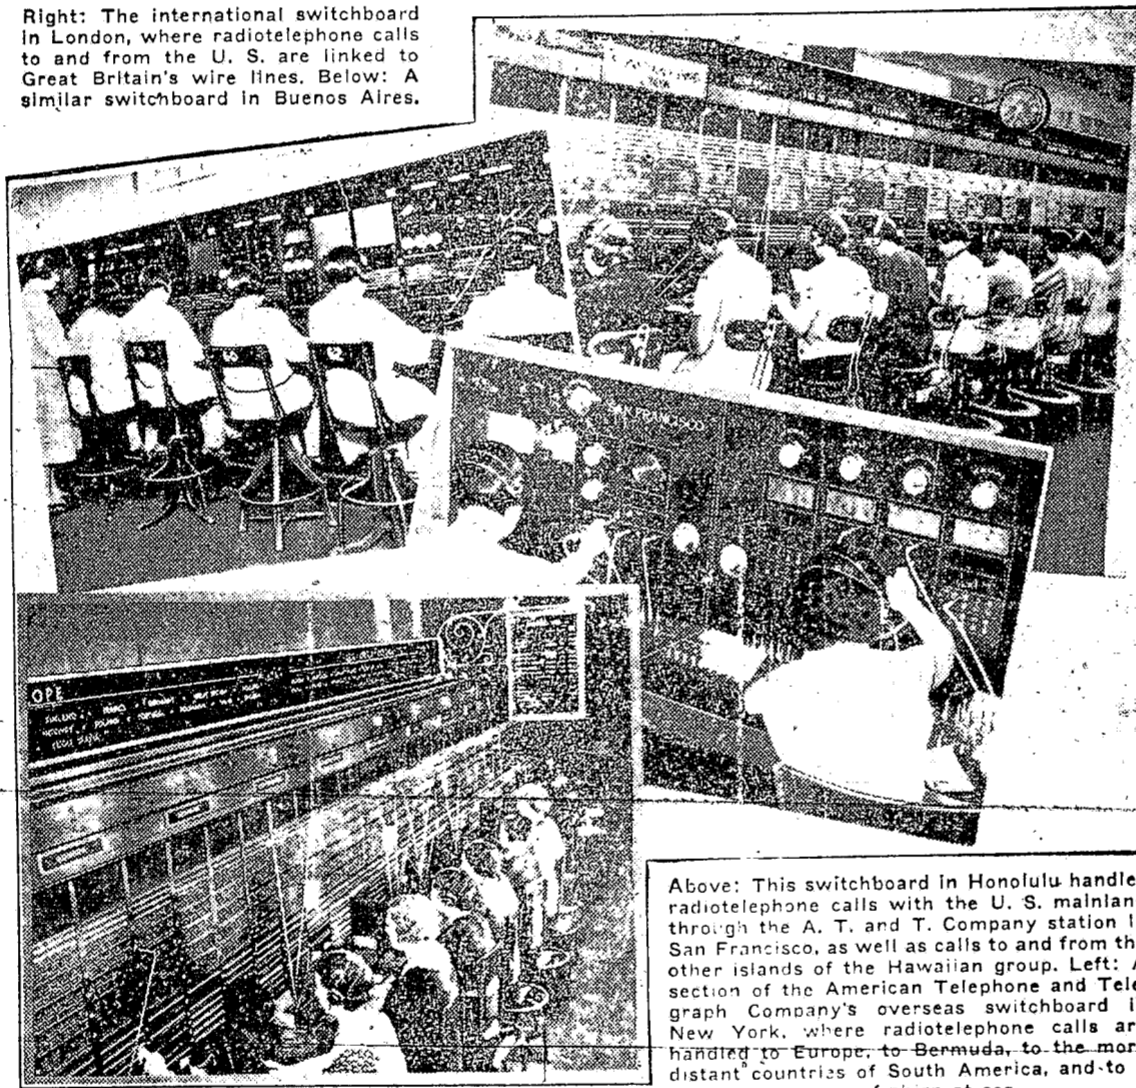

All classes of meat may be preserved either by canning or curing. Lamb and veal are most satisfactorily preserved by canning.

Beef and pork are the real standbys in Michigan when it comes to providing the year's meat supply.

Essentials in the preservation of meat are: (1) cleanliness; (2) thorough cooking; and (3) placing in a curing mixture as soon as possible.

Full directions for curing, smoking and curing are found in Extension Bulletin No. 151 which may be had by writing to the Bulletin Clerk, Michigan State College, East Lansing.

Overseas Phone Calls Are All in the Day's Work to Girls Who Handle Them

Right: The international switchboard in London, where radiotelephone calls to and from the U. S. are linked to Great Britain's wire lines.

Above: This switchboard in Honolulu handles radiotelephone calls with the U. S. mainland through the A. T. and T. Company station in San Francisco.

Radiotelephone service between New York and London was put into operation eleven years ago. Today, radiotelephone service is available between this country and more than 70 foreign countries.

"On your call to London, we are ready." It was eleven years ago that an American telephone operator first felt the thrill of those words.

Even today, with telephone service extending from this country to all of the world's continents and to most of its countries, and with 93 per cent of the world's telephones within reach of Bell-System telephones, the average long-distance telephone operator feels some tingle of excitement as she receives a subscriber's call for London or Paris.

To the overseas operators, however, working at the switchboards in New York and San Francisco and Miami, Fla., where the overseas radiotelephone circuits terminate, each call is simply another incident in their day's regular duties.

A call to Europe may be to any one of 26 countries on that continent, but most of the calls are to Great Britain or France. Such calls almost always are for a particular person, and in 65 per cent of the cases they are for an American traveling or residing abroad.

Within reach of any Bell System telephone. Last year more than 50,000 radiotelephone calls were handled at the American Telephone and Telegraph Company's overseas switchboards at New York, San Francisco, and Miami, Fla.

About 75 per cent of the calls are wanted as soon as it is possible to complete them. For the remaining 25 per cent are of the "wait for me" type, or even a later day.

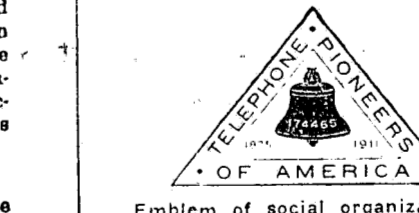

Overseas operators not only must know how to handle the switchboard, but they must know their geography. For example, Vienna is Vienna in this country, but in Europe it is Wien, while Leoboro becomes Livorno, and Munich is Munchen.

Since overseas calls are dealt with by speech, the question of language comes to the fore. In Europe, the general rule is that any international service may be operated in the language spoken between the telephone stations, and by the radiotelephone circuits throughout the world, a similar agreement has been reached.

The overseas service has shown marked and continued improvement since their inauguration eleven years ago. Then the average time required to complete a New York-London call was about 45 minutes. Speed on similar calls now averages between ten and twelve minutes.

Pioneer Emblem Bears Patent Number

Nearly 40,000 telephone men and women, both active and retired, enrolled in more than 50 Chapters from coast to coast, form the Telephone Pioneers of America.

Emblem of social organization of men and women who have spent 21 years or more in telephone service. Number on bell is that of original telephone patent. Dates are those of first successful telephone experiment and of formation of the Telephone Pioneers.

Though officially issued on March 7, 1876, the patent came to Bell as a birthday present, as it were, for he was granted on March 3, 1876, the twenty-ninth anniversary of his birth at Edinburgh, Scotland.

phone Pioneers should select its number as typifying the days of telephone history in which a most of the basic members of the organization had played leading parts.

The bell upon which the figure 17465 is inscribed is a copy of that which for many years has been used on the signs and advertising of the American Telephone and Telegraph Company and other Bell System companies.

The original Bell Telephone patent is preserved in the American Telephone Historical Library, New York, as is the drawing of the first "Blue Bell" symbol.

The wall type of telephone was introduced in Meriden, Conn., in 1878.

Facts About the Telephone

Bell System companies operate more than 6,900 central offices. The wall type of telephone was introduced in Meriden, Conn., in 1878. Telephone service has been inaugurated between Puerto Rico and the Republic of Haiti.
