## Trailer Camp Guests Enjoy New Year Feud

More Than One Hundred Visitors from All Parts of the Country Gather for Picnic on Monday. Games and Contest Enjoyed

Zero weather, snow and cold winds had no terror on New Year's Day for hundreds of "trailer citizens" in St. Cloud, when they staged a big picnic dinner Monday out in the warm Florida sunshine at Trailer Park.

Organizing their own promotion committee, volunteers were on hand from every trailer to provide all the good things to eat as an old-time picnic dinner should be.

A long table was spread on the east side of the park where more than a hundred "trailer citizens" enjoyed the dinner.

In the afternoon games of various kinds were enjoyed and several lively contests were staged.

The weather was ideal for the occasion, with sunshine and pleasant breezes, and the big pines on the park grounds made the setting for the get-together affair very attractive. Among those who registered at the big picnic dinner Monday were Mr. and Mrs. Ira Jones, Clarkston, Mich.

One of the "trailer citizens" let it be known that he was going to sell his car and buy a horse. Just after the Christmas tree had served its purpose another "trailer citizen" made a "horse" from the body of the tree, using pine needles for a mane and tail, and chained the "horse" to the other fellow's trailer so he could go any time.—St. Cloud Tribune.

## "King of Kings" Film On the Life of Christ To Be Shown Sunday in Methodist Church

"The King of Kings", an elaborate and reverent attempt to use the motion picture as means of telling the great story in the world, will be shown twice Sunday in the Methodist Church, under the auspices of the Epworth League. At 6:00 a Worship Service for Children and their parents will be conducted by Rev. Large. The children of Clarkston are invited to this showing, with Rev. Large making comments on the story so that they can understand the account.

At 8:00 the Worship Service for adults will be conducted by Rev. Large, followed by the picture. No admission will be charged as this is a public service of worship, and not a secular show. The offering of the service will pay expenses on the picture and create the Albion Institute Fund, to send Clarkston young people to Albion Institute next June.

The miracles, the gentle care of children, the characters of the disciples are shown, so that the drama reaches its climax in Gethsemane, in the meeting place of the Sanhedrin, in the hall of Pilate's palace and finally, on Mount Calvary. While it has always been impossible for any painter, poet, or artist to represent the great character of Jesus, this film made by Cecil B. DeMille as one of the last of his great silent pictures has been generally accepted as the best and most reverent portrayal of the Christ. H. B. Warner plays the role of Jesus, the Christ; Ernest Torrence plays Peter, with many others who represent the mob at Jesus' death.

The members of the Methodist Church and their friends in Clarkston can attend these two unique services Sunday evening, due to special arrangements by which Rev. Large has been able to bring to the community an unusual picture generally available only to churches in larger communities.

Announced as "The Singing League", directed by Dan Addis, their choruses will be given before the young people attending the Tenth Annual Mid-Winter Epworth League Institute. Rev. Dwight Large is acting as Dean of the three-day program for his second year.

Several young people from Clarkston are leaving Friday afternoon to attend all the sessions of the Institute. Over two hundred are expected to the Fellowship Banquet Friday evening, which is followed by a "Professor Quiz" program in which each League will enter one contestant. A period of study and recreation will be offered Friday evening.

Saturday morning after the Morning Watch service, the young people divided into four groups, called Colleges, a plan of study created by Rev. Large. There will be The College of Aids in Worship, the College of Juvenile Delinquency, the College of Work of the Church, and The College of Public Opinion. These groups spend all of their time visiting places in Flint, observing conditions, asking questions, studying various problems. The College of Aids in Worship, for example, visits four churches, the Court Street Methodist Church, the Catholic Church, the Jewish Temple, and the Episcopal Church. In each, the minister is present to answer questions and explain symbols. The College on Juvenile Delinquency will attend the Probate Court, interview policemen, and tour parts of Flint where criminals "are made among young people". Each College is directed by a carefully selected leader.

Saturday afternoon, the United Sessions of all Colleges offers an exchange of reports. Saturday evening, the Clarkston League gives a program, followed by "The King of Kings", life of Jesus. Church, Lansing, as Institute Preacher.

The Institute is open to all young people, with a registration fee of 50c. Young people may attend and pay a part-time fee, for Friday evening, and Saturday alone. Methodist Churches from in and around Flint, Pontiac and Owosso will send delegates to this annual Institute.

## HOLLY THEATRE

This might be about you!

And we do mean you—if you spend \$3.65 for a hat; \$25.36 for an overcoat; \$1.91 for a shirt; 83c for a pair of suspenders; \$2.29 for an umbrella and \$27.27 for a suit. Because, if you've done all this, you're the Average Man.

This all came about when Darryl F. Zanuck, production chief of 20th Century-Fox, decided to make a motion picture about the Average Man and started a search to determine who he is, what he does and where he may be found.

That's where the figures come in. After an exhaustive study, in which 20th Century-Fox consulted the sociological departments of seven major universities, it was clearly shown that this was exactly what the average man spends on certain necessities. The "problem then was to find the man who could best represent the Average Man on the screen."

This would be a tremendous task in any city of the United States; in Hollywood it was an almost impossible one. Because there is no such thing as an average man in the film capital. An average Hollywoodian, yes—but he's a very different specimen. So the studio had to look elsewhere—elsewhere meaning, in this case, throughout the entire United States.

Then Production Chief Darryl F. Zanuck got an idea. Why not, he suggested, make up a composite photograph of about five hundred everyday citizens? The one face it resolved itself into would be (without a question of a doubt) the Average Man.

They did it, and stood around in a group waiting for the print to dry. And then they stared almost speechless at the face when they saw it. This man, who was to be the representative of the men of America, the Mister Everybody of the country, the central character of a great Hollywood production—looked exactly like Jack Haley!

Haley was present at the time. In fact, he was one of those who engaged in the search. So Zanuck immediately elected him to the central role in "Thanks for Everything", and cast Adolphe Menjou, Jack Oakie, Arleen Whelan, Tony Martin and Binnie Barnes in the other leading roles.

There you have the story of the Average Man of "Thanks for Everything" which is playing Sunday at the Holly Theatre. Of course, being an average man, he might be found anywhere. He might be the man next door; the man downstairs or the man who runs the grocery store. Or—he might be you!

Waterford School News

High School News

The new addition to our school building is beginning to take on a definite shape. Some of the framework is going up now and we hope that it won't be long before they are working above ground level.

Last Friday night the eighth, ninth and tenth grades went skating at Lake Orion. We think that everyone had a good time; at least there have been no complaints.

This Tuesday the second team basketball girls will play their first game this year with Donelson. There will be only one more week of reviews before the first semester tests.

7th Grade News

The seventh graders had a test in Arithmetic Monday. They are planning a class meeting some day this week.

8th Grade News

We had a test in Arithmetic yesterday. The marks weren't very high. We had a class meeting last Friday. We discussed an ice skating party.

9th Grade News

Our Latin test last week didn't turn out very well, so it looks like some of us may be studying a lot in the next week.

10th Grade News

After enjoying ten days of vacation, most of the students are settling down to study hard for the semester exams which are coming in less than three weeks.

Last Thursday, quite a few of the high school students attended the "Holiday Hop", a dance, sponsored by the P. T. A. There was plenty of

dancing, after which cocoa and cookies were served.

Another group of addresses have arrived for those who are interested in having foreign correspondents. Many received addresses last year and found this so interesting that they ordered for a second time.

On Wednesday of last week the new addition to our school building was begun. It will consist of four rooms, much like the part that we have now. This will enable all the grades to go the full day. We hope that no one will get too curious and fall into the excavation!

Safetygrams

Here is another question in line with some of our safe driving habits, or should I say careless or thoughtless habits?

In approaching a "stop" sign posted at a boulevard or through street, may the driver just slow up instead of actually stopping his car?

Here is the correct answer: No. A driver, must stop and make certain that there are no cars approaching the intersection before he proceeds again. Drivers on a through street

expect cars to stop at "stop" sign intersections.

No doubt you will say, "Why everyone knows that!" But how many persons follow it?

That's the rule. That is the courteous thing to do. Many drivers approach these "stop" signs at a fast rate of speed to give the drivers on through streets a thrill. This is not only very discourteous, it is very dangerous, because sometimes they overstep the line and cause the driver on the through street to lose control of his car, and an accident results.

GRADE NEWS Kindergarten and First Grade: Santa Claus certainly was good to us this year.

Wednesday was our "Toy Day". Each of us brought our favorite toy to school.

We enjoyed reading stories from the book that Norma Terry, Joyce Bevan and Jimmy Grubb brought.

We enjoy our half-hours in the music room. Our new song for the past week was "The Blacksmith" sung to a stirring Mozart melody.

decimals, a very welcome change after weeks and months of fractions.

Semester reviews are in full swing. We wish they were all as much fun as Geography review.

DID YOU KNOW? In the past few weeks several students have very timidly inquired how much it would cost them to take lessons on some orchestra or band instrument.

**OVER 280,000 CHECKS, NEVER MORE THAN 13 CENTS OUT OF BALANCE**

To those people experiencing difficulties in balancing their checking accounts with the bank, consultation with A. C. Carton of the Michigan Department of Agriculture might prove an aid. "Gus", as Carton is known throughout the state, has compiled a record of handling an average of 20,000 checks annually for 14 years with all accounts closing at the end of year within 13 cents of actual balance, qualifying him as a check expert, especially in connection with the payment of fair premium checks.

"The year 1938 was the most successful fair year," according to Carton, "in the history of the state and premiums will exceed by \$10,000 the amount paid in any previous year, with the state's half totalling over \$120,000.00.

Carton became affiliated with the Department of Agriculture in 1922, bringing with him experience gained through 25 years in public office. The distribution of the premium funds became the duty of Mr. Carton.

"County fairs," says Carton, "are one of the most important agencies in the solution of our present agricultural problems because they bring to the attention of the consumer the things that are produced in the territory served by the fair."

**UNIFIED TELEPHONE SERVICE MEANS CHEAPER SERVICE FOR YOU**

IF THERE WERE NO BELL SYSTEM, with its 25 regional telephone companies, your telephone service would probably cost more. Local service in some areas would lag behind that in others. Long distance calls would be greatly complicated. Duplication of manufacturing and research, with duplication of expense, would mean higher telephone rates.

Instead, these telephone companies centralize their manufacturing in the Western Electric Company, their research in the Bell Telephone Laboratories. Whenever one company develops an improvement, it is promptly shared with the others.

This makes for economy and, because of the Michigan Bell Telephone Company's membership in the unified Bell System, means better telephone service at a lower cost to you.

**The STAIRWAY LIGHT . . .**

A light on the stairway greatly reduces accidents. The convenience and safety of the stairway light is so great that it can scarcely be measured in terms of the few cents a month one pays for it. This incidental lighting really costs very little. It is used for a relatively short time. It comes on the low step in your bill. And it adds immeasurably to comfort and safety in your home. Any electrical contractor will gladly give you an estimate on this work. (We do no electrical wiring.) The Detroit Edison Company.
