NOTICE!!

Save April 14th on your calendar, for an evening of fun and entertainment—the Junior Play!!

ASSEMBLY

Tuesday, March 21, the High School and Grade Students of Clarkston High School were honored by the presence of Charles Eagleplume a Blackfoot Indian Chief. Mr. Eagleplume dressed in his native Indian costume of leggins, moccasins, heavily beaded blouse, head piece of feathers, proved to be quite a curiosity for both the teachers and pupils. He told us interesting things about his race of people and urged us to be less critical of races and nationalities and begged us to use our hands with renewed energy for the good of mankind. Several interesting dances were

exhibited, including the grasshopper dance and the Indian Love Dance. The Eagle dance was exhibited with Eagle feathers and blankets. Mr. Eagleplume ate his lunch in school with the faculty, and students stormed the doors waiting to catch a glimpse of the charming speaker as well as receive his autograph, as many did.

JUNIOR PLAY!!

Doctors say a good hearty laugh is like a tonic. It rejuvenates. If you doubt it just pay a visit to the Clarkston High School Auditorium on the night of April 14th when the Junior Class will present the new farce-comedy, "Aunt Abby Answers An Ad". We'll give you just a hint about why this play is so unusually funny. "Aunt Abby" Ainsley, a confirmed old maid and man-hater, is coerced into answering an advertisement in the "Lonely Hearts" column of a magazine. The ad has been put in by a lonely old widower who wants a wife and Aunt Abby feels that she will meet all the requirements specified in the advertisement. Aunt Abby's niece and the niece's girl-chum discover Aunt Abby's letter and make plans of their own. Their plans set the ball of fun rolling and it never stops until the final curtain. The price of admission is Adults 25 cents and children 15 cents. Tickets will be on sale early so reserve this date on your calendar—Friday, April 14th—for an evening of fun!!!

ASSEMBLY

There was an assembly last Friday at 1:00. The purpose of this assembly was to give out the Basketball awards and to announce the Valedictorian and Salutatorian. The boys that received awards on the Varsity are: Frank Russell, Glen Minton, Oliver Johnson, Don Tee, Howard Boyns, Art Clark, and Richard Tee.

Mr. Waters decided to give the Reserves awards also. Those that received awards are: Don Smith, Owen Payne, Gerald Weston, Willard Bain, Eugene Hubbard, Jr. Bird, Milton Fiske, Russell Morgan, Bob Bennett, and Ray Beardsley.

The Valedictorian who was chosen was Arlene McCann. She has an all "A" record. Nobody has ever graduated from Clarkston High School with an all "A" record.

The Salutatorian that was chosen was Iva May Summers who also has a very good record.

CLASSROOM NEWS

Music News—Mr. Willoughby The choruses—girls and boys—have been invited to compete with seven other schools at the Hartland Music Festival, which is to be held April 25th.

Since the Librarian has been busy, the Music for band is in good repair. Any students will be given a very warm welcome by Mr. Willoughby and Jim Young.

Mrs. Walter

The American Literature class has completed its study of the short stories which our text contains and is now reading short stories from other collections. Each student is keeping a record of his reading. Next week we plan to dramatize at least one of the stories and we will each write a short story soon.

The World History class is studying the problems of the leading nations of Europe after the fall of Napoleon. We hope to understand the problems of Europe better when we have learned more about the background of each nation.

The Library class is helping to get the back numbers of periodicals sorted and arranged. Soon we will catalogue them and the library will then be ready to give more efficient service to students who are studying source materials or are looking up information on particular subjects.

Miss Cohen

In Latin I we have just finished a vocabulary and grammar quiz.

In Speech I we are learning to make different types of speeches according to the occasion. We have just completed explanatory speeches and are beginning a unit on courtesy speeches which will include introductions, presentations, acceptance of welcome, farewells, and responses.

English 10 students are busy working on their newspapers. We have finished the story of Silas Marner. We are going to read "Tom O'Shutter" next, a humorous Scotch poem by Burns.

English 9 have completed their study on "Julius Caesar" and will soon begin in their grammar books.

GRADE NEWS

Kindergarten and First Grade News—Miss Wade

Robert Dillenbeck and Earl Budrow are the inspectors in our Good Health Clock Race this week. Other inspectors have been Betty Stauter, Norma Terry, Ruby Powell and Joyce Bew.

Last week during our art we colored large Dutch boys and made a pretty bouquet of tulips. The tulips and vases were made by folding and cutting and when we

placed the flowers in the vase we learned to choose colors that looked well together and to arrange the flowers artistically.

We are sorry that Vera Jean Andrews won't be with us any more as she moved away this week.

We certainly enjoyed having Bruce Henderson play the piano for us.

Last week we placed a pan of water on the radiator and discovered the next day that the water was gone. If you ask us we'll tell you where it went and why.

Polly and Tiny, our goldfish, are still swimming about very lively in their little bowl.

We are glad to have Donna Mae Hovener back with us. She was gone several months.

Mrs. Beardslee's Room

We are very much delighted with a collection of story books which we have just received from the Michigan State Library. Many of the books are 1938 publications and are very attractive with their pretty bindings and beautifully colored illustrations. We know that we shall enjoy them.

The boys and girls from Mrs. Dunham's room visited us and entertained us with their Rhythm Band directed by Imogene Potter. They also sang some lovely songs for us.

Mrs. Denham visited our room one afternoon last week.

Our boys and girls are watching for the signs of spring—Nearly every day someone tells of the arrival of a bird. We have colored pictures of twenty-five Michigan birds on display.

Have you noticed the classy sideburns Frank Russell has been sprouting for the Junior Play????

This column noticed that Byron Miller's popularity had reached a new high when he came back from Howe for his Spring vacation. Could it be that uniform, Byron???????

Frank Russell and Dick Lowrie were advised by a certain person to do their "fooling around" outside the school house. There goes Irene Walz's and Maxine Boadway's fun (?????) at play practices.

Tom Boothby has a new way of saying a certain proverb. It doesn't help the proverb any, Tom. You had better stick to the old one.

Proof That Animals Really Think
An absorbing, informative article in The American Weekly, the great weekly magazine with the March 26 issue of The Detroit Sunday Times, points out that maybe animals' brains don't function like those of human beings, but, often enough to convince anybody, they use a certain kind of reasoning. Be sure to get Sunday's Detroit Times.

A splendid crowd attended the card party sponsored by the local O. E. S. chapter at the Masonic Temple on

Wednesday evening. There were sixteen tables in play and all had a fine time. There were prizes for each table. Lovely refreshments were served.

Many homes have been visited by sickness during the past week. Flu cases are prevalent. Little Jimmy Collins, small son of Mr. and Mrs. Elmer Collins is quite ill and is confined to his bed. Carol Ann, their little daughter, had the misfortune to fall from a chair one day last week and cut quite a gash in her forehead. Five stitches had to be taken. Junior Spencer is at school again after quite a siege with the flu.

Estimating that American collectors have spent upward of \$5,000,000 in the past three years for "pretty pictures" of no value but sold under the guise of commemorative stamps, leading collectors are considering ways and means to effect a boycott of unnecessary commemoratives that have developed into what dealers declare is simply a "racket". Many societies have condemned these exploitations both here and abroad but they are still being issued in enormous quantities and sold by high pressure methods.

Bulgaria will issue 51 new stamps this summer between April 1 and September 1.

This Month's STAR RECIPE

Limas Angler
(Limas prepared by this Recipe are even more easily digested)
2 cups dried Limas
2 tablespoons butter or bacon fat
Soak Limas over night; then carefully slip the hulls off them (which is easily done). Place in cooking pan with only sufficient water so that after thirty to forty minutes cooking, the beans will be all but cooked dry. Add butter and other seasoning to taste. Cook preferably in heavy aluminum dish, kept tightly covered. This method will bring out the full nut-like flavor of the Limas.

Many of you have tried my monthly Star Recipes and found them entitled to the "Star." This month I have chosen an extremely simple recipe as my favorite—but with all its simplicity it surely is entitled to a place in the Hall of Recipe Fame.

All you need are a few dried Lima beans and some butter or bacon fat. Follow the directions carefully and you'll have a dish flavorful enough to place before your most particular guests—and healthful as well. Needless to say it is economical and exceptionally easy to prepare.

Try this recipe while dried Limas with their proteins, carbohydrates and minerals, are in season. Incidentally, remember that these beans are exceptionally high in food value, and are an excellent alkaline-reaction food... BETTY BARCLAY

Photo by Mich. Dept. of Cons. Here is something new in the effort to avert winter starvation among pheasants. These are stale sandwich buns which were donated by a Jackson baking company to supply feeding stations in the vicinity of W. J. Hayes state park. The buns were strung on cords and distributed by sportsmen.

Why Wires Do Not Shock Birds
The reason birds on live electric wires do not get shocked is that when they sit on an electric wire they are not grounded, and hence no circuit is produced.
