## Ten Months Planned For Next School Year

### One Change Is Made in Teaching Staff

There will be only one change in the teaching staff of the Clarkston Schools for the coming year. Miss Sylvia Marttinen who holds a life certificate, a B. S., and an A. B., degree has been employed to teach kindergarten. Miss Marttinen who taught last year in Boyne City has had four years of experience and comes very highly recommended. The employing of Miss Marttinen has added one more degree teacher to our grade staff. All of the High School teachers have at least four year degrees and the superintendent has an A. B. degree and an A. M. degree in school administration and supervision.

The school is now on a plan of continuous accrediting by the University of Michigan. Graduates who complete a college preparatory course and who do a sufficiently high grade of work will be admitted to college without entrance examination.

In addition to regular academic work credit courses are offered in band, orchestra, vocal music, home economics, public speaking, shop, typewriting, bookkeeping, shorthand, law and business English.

The staff for next year is as follows: D. M. Winn, superintendent; R. C. Waters, principal, science and mathematics; Ralph Thayer, commercial and coach; Orlo Willoughby, music and shop; Virginia Walter, Social Science; Marjorie Strait, home economics; Dorothy Cohen, English and Latin; Alice Wellington, English and Social Science; Ruth Vliet, sixth; Susie MacLaren, fourth and fifth; Emily Beardslee, third and fourth; Thelma Dunham, first and second; Sylvia Marttinen, kindergarten and first grade.

The past school term was ten months in length and a like term is planned for the next school year.

## Fishing in Michigan Is Still Popular

The annual march to lakes and streams in quest of the season's limit of fish will not be thinned out by other attractions such as two world's fairs on Atlantic and Pacific seaboards, it is apparent from figures on number of licenses sold.

Officials in charge of license distribution for the department of conservation say that Michigan fishing is holding its own in spite of the barrage of advertising poured into the state to lure residents either East or West on their annual vacation.

Increases in number of licenses distributed by the 2,200 merchants and business men in communities all over the state, had been reported up to June 1 in four of the five categories as compared with a similar date last year.

This year, 2,000 more residents had purchased general fishing licenses by the first of the month, bringing the total to 59,977. Also increased were the licenses for temporary non-resident fishing, annual non-resident fishing and wife non-resident fishing.

Resident non-trout fishing permits this season had run behind the figure for 1938, with 140,782 reported as of June 1. License authorities stressed, however, that the reports of several agents may have lagged during the June rush of fishermen to get set for the lake season opening June 25.

The story of whether the summer fishing season will continue to have its grip or will relinquish some of its drawing power to the big shows in New York and San Francisco can be known at an early date, conservation officials said. Banner week for issuing licenses has just been completed, the big jam of applications always coming the week prior to the June 25 opening. No record of these sales is as yet available.

PERFORMER  
EVER BUILT!"**

Owners say it -  
Sales prove it

Count acceleration and hill-climbing... count riding comfort and reliability... count economy of gas, oil, tires and upkeep... Owners say it—sales prove it—"Chevrolet is the best performer ever built!"

They say Chevrolet is "the best performer ever built" because it out-accelerates, out-climbs, out-performs all other economy cars—bar none! Because it represents the highest standard of smooth, safe, steady riding and day-in-and-day-out dependability. Because it gives all these results at lower cost.

But riding beats reading! So drive this fleet, powerful Chevrolet and prove to yourself what Chevrolet sales prove to the world, that owners are right when they say it's "the best performer ever built."

**Here's  
The Difference**

Railroads operate on their own roadways, built and maintained entirely by the railroads.

Out of every dollar the railroads take in, taxes take 9 cents, and their rights-of-way take 23½ cents—a total of 32½ cents for roadways and taxes.

Highway motor carriers operate on public highways, built and maintained by taxpayers.

Out of every dollar taken in by the certificated motor carriers, 7½ cents (I. C. C.) goes for taxes of all sorts—and this represents all they pay for roadways and taxes.

Barge lines which operate on our inland waterways—the canalized rivers of the country—operate on "roadways" built and maintained by taxpayers.

Out of every dollar taken in by

these inland waterway freight carriers slightly under 2 cents goes for taxes of all sorts—and this, too, represents all they pay for "roadway" and taxes.

Thoughtful people now believe that forms of transport which operate on and by means of facilities provided by the taxpayers shall pay for the use of such facilities and shall be on an equal basis as regards taxes—real taxes to be expended for the general support of government.

Laws now before Congress aim to remedy the present inequitable situation in the American transportation industry.

In substance, they call merely for a square deal for the railroads.

And a square deal for the railroads means a square deal for the taxpayers, too.

## LLY THEATRE

Twenty-six years Patrolman Beery, father of Wallace founded the pavements of City, thereby convincing at e of his sons that he didn't follow in the same footsteps. t Wallace Beery confesses to he is still a cop at heart. Q'Toole, Brooklyn Irishman, of the New York police ating as technical adviser on "Madden", Beery's newest vehicle showing Sunday at lly Theatre, will assure you eery in the title role is about earest thing to the ideal cop can be found.

was on an April Fools Day in City that Patrolman Beery ned home from his beat to find his wife, Margaret, had present-m with a third boy. The two ones were William and Noah. When the three boys grew up to l age the house at Seventeenth Main Streets resounded to fights laughter all day long.

He had a lot of fun but there rned little money," said Wal- Beery. "Patrolman didn't pull a much pay then and still don't. Vch was probably why I decided neer to be one. But I did inherit a traits from my Dad and his job. H loved to hunt. He was a dead s and taught me how to handle a gun by the time I was seven years old. When I was twelve I ran away from home and hopped a freight to M'ile, Ala., because I hated school. en I came back my old man got n a job as an engine wiper. I guess h had decided, too, that I'd never grow up to be a cop."

Before Wallace Beery found his way to motion pictures at the old Essanay Studios in Chicago he worked variously as a circus roustabout, as a New York chorus boy, as a racing driver. He is now celebrating his thirtieth year in show business, but until his current role as "Sergeant Madden", one of New York's finest, he had never so much as enacted a policeman on stage or screen. Though he worked for Keystone at one time he was never a Keystone Kop.

As "Sergeant Madden" he plays the part of a veteran of the New York force whose son, Alan Curtis, flays him for never having amounted to anything but a flatfoot in thirty years. The son, too smart to rise in the ranks by his father's slow and painful methods, tries a short-cut, runs afoul of the law and turns bank robber, his father being forced to track him down.

### The Year's Best Detective Story

The thrilling adventures of a sergeant in Australia's "Always Get Your Man" police, is one of many features in The American Week's with the June 25 issue of The Detroit Sunday Times. Read how the sergeant fought death for weeks, but brought back the murderers of a farmer, who had never seen a white man, and had taken him along as a pet, killing and eating him when his novelty wore off.

The local Red Cross committee, now engaged in receiving donations for the relief of sufferers from the recent windstorm in Oakland Coun-

ty, ask that contributions be made as soon as possible as they are desirous of raising their quota before time for final report. Seventeen families are now being assisted by relief funds, and while response has been generous there is still need for further help.

Allan Coventry, of Ortonville, suffered cuts and bruises Saturday evening when he lost control of his car which ran into two trees on the road south of the Dawley farm. He was taken to Goodrich Hospital for emer-

gency treatment. Allan is a son of Mrs. Matilda and the late Philip Coventry, former well-known residents of Groveland.

## The Macaroni Family

By BETTY BARCLAY

The leading shapes of this wheat food, — macaroni, spaghetti and egg noodles are popularly called THE ENERGY TRIO.

Housewives plan to change the ways of serving popular foods in keeping with seasons. So let's not forget our friends, The Macaroni Family, now that warm weather is here. Macaroni, spaghetti, egg noodles and the other members of this popular family that are such favorites in other seasons can be turned into dozens of excellent summer dishes.

This wheat food being bland will blend naturally and tastily with vegetables, with fruits and with meats to make a well-balanced main course dish that is easy to prepare, healthful and filled with the elements needed for body sustenance in every season. Any way this food is served, will prove a pleasing change in the menu. What more can one ask for?

As a change for the popular potato salad, why not serve a Macaroni Daisy Salad? Have you tried egg noodles as a cereal or as a dessert, or luscious spaghetti with butter? The folks will like them all.

Here are three summer recipes that you will find particularly pleasing. The manufacturer of your favorite brand of The Macaroni Family will gladly supply you with additional recipes on request:

### Noodles with Fresh Fruit

½ lb. egg noodles  
Fresh fruits in season  
1 cup cream

Cook egg noodles in boiling, salted water, till tender and drain. Chop slightly with edge of a saucer. Mix with fruit cut in small pieces. Serve hot or cold, as a cereal, with cream.

This is particularly good for children and relished as a dessert by your most fastidious dinner guests.

### Spaghetti al Burro

All housewives plan at least one hot dish daily. Here's one that is easy to prepare and a family favorite for luncheon.

½ lb. spaghetti  
½ cup butter  
½ cup grated cheese  
Salt and pepper

Cook spaghetti in boiling salted water till tender and turn onto a hot platter. Add seasoning and butter. Stir till all strands are well buttered and sprinkle grated cheese over all. Excellent with roasts, chicken or fish.

### Macaroni Daisy Salad

Inasmuch as the average American family seems to have a growing mania for salads, try this one as a change from the popular potato salad.

½ lb. elbow macaroni  
1 green sweet pepper  
1 dill or sweet pickle  
Salt and pepper  
4 hard-boiled eggs  
1 large ripe tomato  
1 medium onion, chopped fine  
½ cup French dressing or mayonnaise

Cook elbow macaroni in boiling, salted water till tender, then drain. Mix with green pepper, cut into small pieces, with tomato, sliced or chopped, with pickle, chopped fine, with 2 hard-boiled eggs, diced, and with onion. Season with salt and pepper, then mix all well with French dressing or mayonnaise.

Serve on four crisp lettuce leaves, with an egg daisy on top and garnished with parsley. The egg daisy is made by cutting each of the two remaining boiled eggs in half, using one half of the yolk for center of the daisy. Cut the white halves into strips making a rosette representing the petals of the daisy.

### Clarkston Locals

Clare Rasmussen returned to his studies in Flint this month.

The committee in charge of the M. E. Ladies' Aid Tea to be held at the farm home of Mrs. Marguerite Miller on the afternoon of June 28 met at the home of Mrs. Pearl Urch on Wednesday evening when plans were completed.

The musical play presented at the Clarkston Baptist Church on Tuesday evening was well attended. The

affair was sponsored by the church. The participants were from World Wide Guild of the Pontiac Baptist Church. The play was "Barnesville Choir Spruces Up". It was very humorous as the choir depicted as the war department the Church and started out to help all the troubles on earth. However before the evening was very far advanced the choir seemed to get everything straightened out and harmony prevailed in the Barnesville Church and then a real program was presented. The music was grand and all who attended enjoyed every minute of the time.

### Facts About the Telephone

There are approximately 115,000 telephone operators in the Bell System.

A coastal and harbor radio telephone service is to be established this year at New Orleans, La.

There are about 640,000 subscribers listed in the Chicago city telephone directory and about 198,000 in the suburban directory.

United States Senator Harry Byrd of Virginia was once a telephone man. As a young man, he was manager of the telephone office at Winchester, Va.

Overseas radio telephone calls handled through Miami to and from the Caribbean Islands and South and Central American countries increased nearly 10 per cent in 1938 over 1937.

### Clarkston Locals

The Sunday School of the Clarkston Baptist Church held a picnic on Wednesday at the O. H. Jewell home on Teggerline Road. The picnic was the outcome of a contest that has been carried on in the Sunday school for the last few weeks. The losers of the contest provided the picnic dinner and everyone enjoyed it. There was a splendid attendance. The good

time lasted from 10:30 in the morning until about 4 in the afternoon. It was an ideal day for an outing so baseball, horseshoes and other games were indulged in. A great many of the adults had a good time visiting.

Michigan's oldest fisherman, so far as state fishing license officials know, has come to the front. He is Edward Robinson, who wrote 97 as his age on the application he presented for the fishing season opening June 25. He resides in Elberta, a village near Frankfort.

### Jam Shelves With Jam

By Frances Lee Barton

JAM your shelves with jams and preserves as the various fruits and berries ripen. It may mean a little work now, but a well-filled preserve closet is a mighty fine friend during the cold winter months. Here is a recipe to use with either wild or cultivated strawberries — one berry that must be included in your jam collection.

**Strawberry and Pineapple Jam**  
 3½ cups (1½ lbs.) prepared fruit; 6½ cups (2½ lbs.) sugar; ½ bottle fruit pectin.

To prepare fruit, crush completely or grind about 1 quart fully ripe berries. Each berry must be reduced to a pulp. Cut fine or grind 1 medium fully ripe pineapple or use 1 No. 2 can crushed pineapple. Combine fruits. Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 3 minutes. Remove from fire and stir in fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin at once. Makes about 9 glasses (6 fluid ounces each).
