At 8 o'clock in the evening 75 guests gathered in the 100 year old church to witness the impressive double-ring, candle light service, which was performed by a life time friend of the Jacober family, Rev. W. G. Evans of Ann Arbor. The altar was banked with baskets of pink and white gladioli and palms and lighted candelabra provided the only illumination.

Mrs. Gordon Walls of Pontiac presided at the organ. The first of the wedding party to enter the church were the mothers of the bride and groom, Mrs. Ralph D. Riley on the arm of an usher, John Jacober, brother of the groom, and Mrs. August V. Jacober on the arm of an usher, John Riley, brother of the bride. Next entered the groom and the best man, August H. Jacober, a brother of the groom, who were followed by the bride who was given in marriage by her father. She chose for her wedding a delphinium blue crepe suit with which she wore white accessories and she carried a white prayer book and white orchids and valley lilies.

The bride's only attendant, Miss Nellie Hurley Minife wore beige with a London tan redingote. Her accessories were of straw and she had a corsage of Rapture roses.

Mrs. Riley wore for her daughter's wedding a black and white ensemble with a gardenia corsage. Mrs. Jacober, mother of the bridegroom, wore rose silk with a similar corsage.

Following the ceremony a reception for approximately 50 guests was held at the home of the bride's parents. A large white wedding cake flanked by white tapers and white gladioli decorated the bride's table.

Mr. and Mrs. Jacober left on a week's tour of Northern Michigan and on their return will reside at their new home at 88 Hill Circle, Donelson Park. Both are graduates of Pontiac High School and Mr. Jacober is a chemical engineer, a graduate of Michigan State College where he was a member of Alpha Chi Sigma fraternity. He is employed at the Baldwin Rubber Company.

These two ladies, the former the daughter-in-law of Mrs. William Granger, had charge of the social hour.

Each person present received a slip with the name of a flower printed on it and they wore this name on their dress throughout the evening and answered to same. If anyone was called by any name other than their "flower name" the person making the mistake was fined one cent. The proceeds from the numerous mistakes went toward the White side in their money making contest.

During the business session final plans were made for a Penny Supper to be served in the church parlors Friday evening, August 18th. Committees were named with Mrs. William Granger, chairman of the dining room committee and Mrs. Albert Dryden chairman of the menu committee. Plans were also made to accept an offer from a representative of the Pontiac Laundry to come out on the evening of September 13 and give a lecture in the church parlors to the Willing Workers Circle and invited guests.

Mrs. Cora Portt won the Friendship prize and Mrs. Wyman Sanford was awarded the prize for guessing the nearest number of grains of corn in a pint jar. Yacht was played during the evening with Mrs. Forest Laney winning first prize and Mrs. Fred Olson receiving the consolation prize.

The long refreshments table was centered with a vase of white and yellow summer flowers and the yellow and white color scheme was carried out in the other table decorations. Tiny hand made baskets filled with candies and nuts stood at each place. An attractive salad course was served with the places marked with names of flowers corresponding with the flower names worn by the guests.

The next meeting will be held in the church with Mrs. Fred Olson and Mrs. Joseph Helman as hostesses.

Chocolate! A Man's Food!

By Frances Lee Berton

WOMEN may be famed as lovers of chocolate candy, but when it comes to chocolate ice cream, chocolate cake, and chocolate pudding, the male of the species demands recognition. Chocolate is surely a man's food.

Here is a recipe for a molded chocolate pudding that will please your man or mine — you and I will not refuse it either: Malted Chocolate Pudding. 2 squares unsweetened chocolate; 2 cups milk; 1/2 cup sugar; 5 tablespoons sifted cake flour; 1/4 teaspoon salt; 1 egg, well beaten; 2 tablespoons butter; 1/2 teaspoon vanilla. Add chocolate to milk and heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Combine sugar, flour, and salt; add gradually to chocolate mixture and cook until thickened; stirring constantly; then continue cooking 10 minutes, stirring occasionally. Add small amount of mixture to egg, stirring vigorously; return to double boiler and cook 2 minutes longer, stirring constantly. Add butter and vanilla and turn into wet mold. Chill. Unmold and serve with plain eggs. Serves 4 to 6.

For Homemakers

Questions as to whether canned tomatoes retain their vitamin C arise with the beginning of the season for putting up the home-raised crop, say members of the home economics extension service at Michigan State College. Women want to know whether the method of canning or the length of time the canned products are stored affects the vitamin C content of the tomatoes.

If canned in the right way, tomatoes lose practically none of this valuable vitamin. They may, however, lose from one-third to one-half their vitamin C if stored for 6 months or more at ordinary room temperature. But even after this loss, the tomatoes

still supply a considerable amount of vitamin C.

The "right way" to can tomatoes, recommended from recent tests by the federal Bureau of Home Economics, is to pack them either raw or preheated into containers, then process them in a boiling water bath. Tomatoes preheated to the boiling point, then packed hot into containers need a shorter processing than those packed raw. Tomatoes pre-cooked and packed hot in pint or quart glass jars will need 5 minutes' processing. Packed raw, the processing time should be 45 minutes.

Processing consists in putting the containers into boiling water in a boiler or bucket that has a tight-fitting lid. This water bath has a rack in the bottom so that the water can circulate under the containers as well as between and above them. Water must come up over the tops of the jars or cans from 1 to 2 inches. Processing time is counted from the moment the water comes again to a full rolling boil after the containers are put into it.

AMERICAN BOY MAGAZINE COMPANION TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine each month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in busi-

ness and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newsstands at 15c a copy. Subscription prices are \$1.50 for one year or \$3.00 for three years. Foreign

rates 50c a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430 S. Second Blvd., Detroit, Michigan.
