Must Not Use Poison To Kill Sparrows

Small boys of Michigan are warned that poisoning of sparrows is strictly illegal in this state. Where bounties on English sparrows are offered by city and county agencies, conservation officers will be on watch for their killing by unlawful means. H. R. Sayre, chief of the law enforcement division, said today.

Desirable resident winter birds like cardinals, sapsuckers, bluejays and chickadees, and even pheasants, might be victims of poisoned grain scattered for sparrows, it was pointed out.

And act 286, P. A. 1929, as amended, in section 10 specifically provides: "It shall be unlawful for any person at any time to make use of any poison . . . for the purpose of injuring, capturing, or killing any wild birds or animals in this state."

Several members of the local American Legion Post will attend the 4th annual Americanism Conference in Flint on Monday night, Feb. 19, when they will hear Martin Dies, well known Texas Congressman.

History Repeats Itself

Our history itself repeats. And all things happen over. No one can have a thing for keeps. Or always live in clover. The greatest fortunes that I know. Poor boys have massed together. The men who really have the dough. Have been thru stormy weather. They started on the bottom rung. And worked for their ascension. Their days of toil remain unsung. And seldom get a mention. But generations yet to come. Who knows not of privation. Will never know what Grandpa's done. To bring about this nation— Will spend his fortune fast and free. And dream not of its waning. Until too late they'll find their spire. Their finances are straining. They'll find that it is very tough. To earn an honest living. But their offspring will learn enough. About this take and giving. To have a place in halls of fame. And raise the family banner. And they'll uphold the family name. In just as great a manner. In this way nature takes a hand. In wealth for distribution. Great wealth for long can never stand. In Nature's institution.

Mrs. W. Harold Pailthorp Was the Hostess

On Tuesday afternoon the Clarkston Literary Club met at the home of Mrs. W. Harold Pailthorp. There was a splendid attendance. Roll Call was answered with an Indian name and its meaning.

Miss Ada Scrae read a paper on "Indian Music" which was written by Mrs. H. A. Huey of Ann Arbor. "The Indian Girl—her Needs and Opportunities" was told by Mrs. C. H. Souby. Mrs. Orlo Willoughby favored the group by singing three Indian songs. Mrs. Pailthorp was the piano accompanist.

Birthdays Popular During Last Week

During the afternoon the group visited, enjoyed a quiz contest and some music and about four o'clock they served dainty refreshments.

Mrs. Urch received a lovely potted cineraria that was a mass of blooms and the best wishes of her friends.

On Thursday night of last week Mr. and Mrs. Elmer Collins were hosts to the employees of Beattie Bros. Motor Sales at their home on Orion Road. About 9:30 a cooperative dinner was served and then a few pleasant hours were spent playing card games.

Music Hall Faculty to Be Heard in Program Sunday

Patrons of the Hartland Area Vesper Concert Series will be given the opportunity of hearing the members of the Music Hall Faculty in the role of performing artists this Sunday, February 18 at 3:30 P. M.

Every member of the faculty is not only a well trained teacher, maintaining a very full schedule of teaching activities; but all have had considerable experience in the role of performer.

Lester McCoy, tenor, will offer a group of familiar songs from both sacred and secular literature. He will be accompanied by Bernice McCoy.

Stanley Powell, of Ionia, legislative member of the State Farm Bureau, stressed the need of better organization among farmers as a matter of self-defense. Changing times and modern mechanizing of farm machinery have made many changes in ideas and needs in the home and about the farm.

Under the leadership of Elmer Lightfoot, members of the Holly High Agriculture class discussed the farm program from the youth's viewpoint.

The Ford Dixie Eight, through the courtesy of William Wheeler, added much to the enjoyment of the occasion with a program of songs.

Winter Attractions At State Parks

Picnics at state parks are the order of the day when mild weather makes other than the usual winter sports possible. On a recent weekend, among the 6,200 at Bloomer state park No. 2 at Rochester were some who added weiner roasts to the usual hiking, skiing and sliding, and boy scouts cooked their dinners in the open.

Three snow trains that took 2,000 to Grayling to swell the weekend attendance to 8,600, set the record to date. At Ludington state park, serving of coffee in trailside shelters continues a popular and distinctive attraction for winter sport fans.

HOLLY THEATRE

The local debut of "Four Wives" will take place Sunday at the Holly Theatre. A sequel to last year's popular film hit, "Four Daughters", it has the same cast, consisting of the three Lane Sisters, Priscilla, Rosemary and Lola, Gale Page, Claude Rains, Jeffrey Lynn, May Robson, Frank McHugh and Dick Foran. Added to the roster of stars is Eddie Albert, comedy star of "Brother Rat". John Garfield, whose "Mickey Borden" met an untimely death in "Four Daughters", will be seen in "Four Wives", but only as a "vision."

While the story of "Four Wives" is complete in itself, it takes up the fortunes and romances of the "Four Daughters" where last year's film left off. Gale Page and Lola Lane, who play the two oldest daughters, are already married to Dick Foran and Frank McHugh, respectively, when the story opens. Rosemary, playing the romance-loving middle sister, is still waiting for her dream man to come along, while Priscilla, the youngest, and a widow, is preparing to marry the young concert musician played by Jeffrey Lynn. Already there are prospects of a new generation, too. The girls all go to keep an appointment which Gale Page has with the doctor. But Gale's hopes are blasted when the doctor tells her she will never have children. The same visit reveals, however, that Priscilla is about to have a baby—the child of her dead husband.

Meanwhile Rosemary has found a likely matrimonial prospect in Eddie Albert, who plays the role of a bashful young doctor, and is busily engaged in luring him altar-ward. Lola decides to adopt a little girl, but a few weeks after she has done it, she discovers she is to have her own baby. Priscilla and Jeffrey are married, but the memory of "Mickey Borden" is clouding their happiness, until Jeffrey takes the situation into his own hands and gives her a memory she can cherish.

The same warm feeling has been injected into the film as in "Four Daughters" by Michael Curtiz, who directed both.

TIMELY WARNING TO POULTRYMEN

Told to Beware of Glowing Offers by Glib Salesmen

Glib promises made by unknown chick salesmen will never fill many egg cartons, warns Ray Conolly, field manager of the Michigan Poultry Improvement association which has headquarters at Michigan State College.

Poultrymen in the state will be in the market for approximately 20 million baby chicks—a field for sales that has been attracting more and more unreliable salesmen whose tactics arouse the ire of Manager Conolly.

He'd like to warn every Michigan flock operator to beware of strangers, especially those who offer "double star" or "triple star" or "superior" chicks from stock with all high pedigrees that "will lay up to 300 eggs in a year."

Egg production is an inherited characteristic, therefore the breeding of the stock is more essential than promises of salesmen. Beware, says Conolly, of unwritten offers of free flock service, free culling, gifts of free chicks with remarkable breeding or an offer to install brooding equipment at cost or without down payment.

"Most of Michigan's reliable hatcherymen do not have salesmen on the road. If they do, the representatives are fully authorized as dealers in the community in which they work," Conolly warns.

"Reliable salesmen do not make rash promises. The best protection for the poultryman is to have written statements, signed by the salesman and to keep copies of the order price list and catalog. This can help in ridding the state of inferior chicks along with inferior salesmen."

ADVICE ON FIRE EXTINGUISHERS

How to Select and Give Proper Care to Them

Fire Extinguishers are many and varied and regardless of what make or type you have, the extinguisher is no better than the condition in which it is kept.

A Fire Extinguisher of some kind should be in every home, especially around stoves and furnaces. Every business house should have several and if a fire is discovered, first try your own extinguisher before you call the fire department, unless the fire is beyond your control when discovered.

The care of your extinguisher depends on what kind it is. If you have the powder type, it should be kept in a dry place substantially hung on the wall so that in a hurry it can be pulled down and the top forced off. If the nail pulls out, you are delayed in opening the extinguisher. This type should always be thrown at the base of the fire, not directly into the fire. Liquid extinguishers should be studied to find out if they will freeze in cold weather. If so, necessary precautions should be taken. The common acid and soda type will freeze; others that use gases will not. Soda and acid extinguishers when once cracked must be drained and recharged. There are a few that can be used as needed but care should be exercised if they are used to see that they are sealed again in the proper way.

In case of electrical fires where you come in contact with current, be sure your extinguisher is the proper type before applying, otherwise you get a shock and sometimes with dangerous results. There are extinguishers made especially for use on electrical wires and apparatus.

To most people a fire extinguisher is just another piece of furniture or bric-a-brac or whatnot. As long as it hangs up on the wall it is O. K. but let us again impress upon you that fire extinguishers should be removed and checked or tested at least once a year and more often would do no harm. If you do not know how to test or check or refill your extinguisher, we believe you will find Fire Chief, Erwin Baker, who will be willing to assist you in this task and give you any information as to type and kind of extinguisher best fitted to your use.

I found the "Orchid of the Sacred Sleep." Lured by a weird Philippine legend, The American Weekly's roving correspondent goes in quest of, and discovers "Saguy-Yeypop," the fatal flower that has controlled the destiny of an island tribe for centuries. MICHIGAN LEADS PRODUCING HONEY

First full carload of Michigan clover honey sold under the new Michigan grading service offered by the state department of agriculture was shipped recently from Adrian.

The honey was graded at the apiaries of Clyde Godfrey of Jonesville and William Strickland of Hastings. It was loaded and consigned to a Cleveland market by M. N. Dillon and Sons at Adrian.

Gordon P. Dillon and M. N. Dillon and Sons predicts that a large proportion of Michigan honey producers will use this new grading service as it will tend to improve the quality and price of Michigan honey. Full particulars concerning the service can be secured by beekeepers from Russell H. Kely of Michigan State College.

Mr. Dillon says that this carload of 60,000 pounds required something like 360,000,000 trips by the bees to the clover fields.

Michigan beemen, with 15 million pounds, harvested more honey during the 1939 season than any other state.

O. H. Schmidt, of Bay City, shipped four carloads or 240,000 pounds of his own production of officially graded honey to the Ontario Honey Producer's Cooperative, Toronto, within a day of the Adrian event. The Bay City shipment was one of the first large shipments ever to leave Michigan for Canada. Uniformly high quality and the official state inspection of the honey aided Mr. Schmidt in landing the order.

CLARKSTON LOSES TO MILFORD 42 TO 24
In a game marked by many fouls made by Milford, few of which were called, Clarkston again lost to Milford with a score of 42 to 24. The boys started out quite well but towards the last of the game they seemed to have lost all their fight. The game was interesting as the fouls were so many in number. Our next game will be at Holly, February 16, Friday evening, we'd like to see you all there.

SOPHOMORE ASSEMBLY
The sophomore class entertained every one last Friday with an assembly. They had a barn dance in which every one had a grand time seeing and hearing: Donald Smith and Jack Skarritt opened by playing their trumpet and saxophone, respectively. Bernice Budrow played her guitar and sang several pieces. She later accompanied Alva Blackerby in singing a couple of pieces. Four girls in the class sang "Oh, Johnny". Others joined in dancing the Virginia Reel. The thing most enjoyed was Betty Ash and Donald Smith's piano playing. They played four pieces and everyone enjoyed them. Don at one piano and Betty at another. The effect was really good.

We are waiting now for the Seventh Grade Assembly which will be held in two weeks followed by the Senior Assembly ending our group of assemblies by the various classes.

"THE OPERETTA"

Have you heard the results of the Operetta tryouts? Betty Ash and Kenneth Milleur find considerable pleasure in each other's company, much to the dismay of their quarreling fathers, Eugene Hubbard and Junior Bird, one a famous maker of Swiss COO COO Clocks, the other a well-known mountain climber. Leda Miller, a socialite from America brings her son and daughter, Jack Culey and Carmen Clark to Switzerland primarily to climb the Alps but their interest in certain Swiss youths nearly results in tragedy to all of the Swiss characters. Irene Walz and Stewart Baynes help along with their speaking parts as does the entire chorus, appearing on several occasions to add life and harmony to the music as well as to the action. In Grand Old Switzerland will be presented on Friday, March 8. Be sure to come and tell your friends about it.

GRADE NEWS

Miss Martindale's: The Kindergarten Room enjoyed making Valentines. Rhythmic games we learned recently were "Skipping-Stooping", "Feet to Music", and "Hickory Dickory Dock". We learned a song and a poem about the Elephant.
Mrs. Winn: The first grade are enjoying the stories they are reading in their supplementary readers, "Peter's Family". We read stories about Lincoln and made some Lincoln silhouettes and put them on a red, white and blue shield. We have learned two new songs, "Lincoln's Face", "Recipe for a Valentine". We have our room decorated and our plans completed for our Valentine Party, Wednesday morning. We made lacy valentines and baskets. We especially liked to make the Valentine bunnies with white cotton tails.

Mrs. Walter's News!!!
In honor of Lincoln's birthday the 8th grade learned the Gettysburg address.
Miss Cohen's News:

George L. is an expert on women (according to his speeches in Public speaking). It must be experience!
Did you notice the Milford team look over our cheer leaders Friday night. Watch it "Pud"!
Our glamor boy, Gerry Weston, has been stepping out with little Norma Davison quite a bit lately. What can it be??
Boy!! You should see Helen Smithson on skis. She goes down all of the way.
What young man was disappointed because a certain girl couldn't go to Port Huron with him? can you guess??
Ask any C. H. S. student what he thought of the Sophomore assembly!!
It seems from all reports that Shirley Sparling's party was a great success! How about Mike Wilson?
My this is a Changing World—it was formerly Virginia Tondou and Stewart Baynes, and Jo Andrews and Dave Wainmen, Inez Miller and Oliver Johnson—but now it is Jo Andrews and Stewart Baynes, Inez and Dave; and I guess these others are just floating around. It seems that the boys have all fallen for Anna Mary's acrobatic dancing—especially one Senior!!
Did you ever notice how many girls sit and look at George Luckeman's face—there must be something in it—I Don't Know?
My! My! How popular these freshman's are!!! They even get invited to the senior prom.
Why do they call Jeanette "Peroxide"??
It looks as if K. L. M. is sort of cutting in on Owen Payne.
What does K. L. M. find to talk about with Betty Smithson in Chem. Lab.???

What is all the attraction in the 4th period Lit. class that Russell Morgan is so anxious to get changed—perhaps it's Betty Smithson.
Is it carrying Leap Year a little too far when the boys sit on the girls' lap? Ask the girls.
Charlotte Miller complained of a stiff neck after going tobogganing!

Mrs. Walters seems to be in favor of taking scholastic in couples. If you don't believe it ask Doris Batton.
Question: Why is it the girls like to stop at Kamp Inn?
Ans.: Ralph Ware stays there.
If George Luckeman would make up his mind which girl he likes best, it would save a lot of trouble.
When the Juniors put on their assembly last Friday I believe Elaine Waterbury really enjoyed her part.
J. Spearpoint Morgan called on a girl before 10 p. m. for a change.

Safetygrams

Frequent complaints have been made by various police departments because of improper lighting on automobiles. I want to discuss especially the matter of tail lights.

Have you ever had the experience of driving on a highway on a foggy, rainy night and suddenly realizing that there was a car parked a few feet ahead which you had not noticed because it had no reflectors or tail light burning? If you did, you will know how dangerous this condition can be.

The purpose of a tail light is to warn other drivers behind you, and therefore it is necessary that this equipment be in first class condition. The law requires it. Police should enforce it.

Every mechanical part of an automobile should be in excellent condition to insure perfect performance. When the car is mechanically perfect, the driver's attitude is right, and he exercises good judgment and proper courtesy, automobile driving will become much safer.

It's Smart to Drive Carefully!

ACCURACY

There are several factors of vital importance in maintaining the high quality of Michigan's telephone service. One is the experienced skill of the Western Electric Company, manufacturing department of the Bell System. Another is the constant research of the Bell Telephone Laboratories. Of even greater importance is the highly trained group of Michigan men and women who assume a personal responsibility in seeing that your telephone message goes... swiftly and dependably... straight to the mark.
